Lindsay vs. Peterborough.

His Honor Judge Weller has consented to occupy the chair and give the decision at the debate between representatives of the Lindsay and Peterborough Y.M.C.As., next Friday evening, May 4th. The debate will be held in the lecture room of St. Paul's Church. The subject is "Manhood Suffrage." The Lindsay speakers are Messrs. R. M. Anderson and R. McPherson, who will support the negative, and Messrs. S. R. Armstrong and W. H. Hill will uphold the affirmative. The public are cordially invited to attend. A silver collection will be taken at the door. 1d101

To-morrow Evening.

A meeting of the Young Men's Conservative Club will be held in the rooms of the club, over Mr. Stethem's store, to-morrow evening. A large attendance is particularly requested. All Conservative young men are invited.

HAVING decided at The Pantry to clean out our entire stock of Crockery and Glassware, we will give astonishing bargains to all who will favor us with their patronage. d96

Telephonic.

Still the number increases, and there are now 162 telephone instruments in use in the town. Mr. W. H. Hill has had a telephone put in his office, corner of Water and Hunter-sts, the convenience being required by his large insurance business.

Personal.

The Port Hope Guide says that "Mr. Wm. Stevenson, sr., of Peterborough, father of Mayor Stevenson, M.P., is in town visiting his son, Mr. W. G. Stevenson. The old gentleman is over ninety, yet he steps round as light as a youth of eighteen."

Thanks.

Mr. Finch Miller, acting precentor at St. Andrew's Church, desires to return thanks to the ladies and gentlemen, members of other choirs, who kindly assisted him on Sunday evening, and to the different choirmasters for allowing their singers to take part.

Neighborly.

Last fall the barn of Mr. Richard Lillico, North Monaghan, was destroyed by fire. He had no insurance, and the loss was a severe one. On Saturday, about forty of his neighbors turned out and erected a fine barn to replace the one burned. This fact speaks volumes and comment is unnecessary.

A Mean Trick.

On Saturday a gentleman purchased two bags of potatoes on the market and paid the farmer $2, after giving the man directions where to deliver the potatoes. The purchaser has not seen his money or potatoes since and unless restitution is made the Police Magistrate will be called on to adjudicate in a case of fraud.

Mutter not in accents mournful,
Life's not worth a hasty bid
To the boy who goes barefooted,
Having never learned of kidd.
Kidd can boot your barest pedals,
Shoe your feet in smooth attire
So you walk the street with vigor,
Fifty miles and never tire.

A Serious Accident.

Shortly before noon to-day, while George Munro, a young son of Mr. George Munro, Dublin-st., was driving a horse belonging to Mr. W. Fitzgerald into the stable, the horse became frightened, probably because the vehicle struck against some lumber, and ran away. At the first corner, Dublin and Water-sts., the lad and a little son of Mr. J. Carlisle, who was with him, were thrown out. Mr. Carlisle's son received some scratches about the face. Young Munro fell upon his head and was seriously injured. He was picked up unconscious and carried home, and Dr. Kincaid and Dr. Fife were summoned. There was a bruise on the back of his head, as if it had struck a stone. He had not fully recovered consciousness after noon, but was progressing favorably, and the physicians have hopes for his recovery.

THOSE prize packages of Teas at The Pantry are decidedly the best value for the money in the trade. d96

Fire Alarm.

A few minutes after 12 o'clock noon today, a fire alarm was sounded on the town bell, and in less time than it takes to write it, the streets were fairly black with people running in all directions and anxiously inquiring the location of the blaze. Some person said the Lansdowne rink was in flames, and a rush was made in that direction. The hose waggon and hook and ladder truck soon appeared, but were ordered back at once, as the fire was out. A chimney of one of the Chamberlen Estate rough cast houses, near the corner of Charlotte and Louis-sts., took fire and a small hole was burned in the roof. An axe and a few palls of water soon quenched the blaze. The damage done is merely nominal. The people residing in the house were badly scared and the crowd had commenced to carry out and smash the furniture, when it was seen that there was not the slightest danger. An immense number of people, men, women and children assembled, and traffic was blocked for some little time.

Lacrosse.

The Y. M. C. A. Lacrosse Club turned out in good numbers this morning for practice, at the P. A. A. A. grounds. Regular practices of the club will be held Monday, Wednesday and Friday mordings, from 6 to 7 o'clock.

Lost and Found.

Sometime on Saturday night or Sunday morning some blinds were removed from the premises of Messrs. Taylor & Macdonald. The police were notified and asked to hunt up the missing articles. In the afternoon the blinds were found at Mr. J. Carey's store. Such senseless pranks do no good and may do harm.

Sleepy Dan.

In addition to being entered for the autumn races at St. Catharines, Mr. H. C. Winch has entered "Sleepy Dan" for the Toronto and Niagara Falls meetings. It is expected by all who know the horse that he will give a good account of himself, provided of course that the company is not too rapid.

The Band Competition.

The Secretary of the Fire Brigade Band is in receipt of a large number of letters from bands throughout the country endorsing the proposition to hold a tournament here during the fall and many of the best bands in the Province have promised their hearty co-operation. The bands are almost unanimous in asking that three judges be appointed instead of one, as was tried at Bowmanville.

The Sunday Temperance Meeting.

At the Gospel temperance meeting in the W.C.T.U. hall on Sundry afternoon, Mr. W. J. Mason presided and made a brief but pithy speech. Mr. D. B. Smith, of Hamilton, delivered an earnest address, and Mr. S. J. Griffin spoke briefly. Misses Walton and Smart sang a duet and Miss Butcher a solo, and Mr. A. Cooper gave a reading. There was a good attendance.

Volunteered for India.

At a packed Salvation Army anniversary meeting in the Temple at Toronto three women and two men volunteered for the Northwest and half breed work and four women and one man for the work in India. During the coming summer 20 officers from Canada will go to India. Nine men also volunteered for the work among the Rocky Mountains, who will form the nucleus of a new mountaineer brigade of forty men.

For the Northwest.

For some time past there has been an unusual volume of emigration over the Grand Trunk Railway for the Canadian northwest, and the indications are that the number leaving will be largely increased this week. All the available cars of the company have been called into requisition. On the C. P. R. also the emigration business is booming and Manitoba and the Northwest are the places where the great majority of them will settle.

The Author of "Farm Ballads."

The people of Peterborough will, no doubt, be pleased to learn that the famous American author and poet, Will Carleton, so well known to readers all over the continent as the author of "Farm Ballads," has been engaged to deliver an evening of readings in the Opera House. The date fixed is Thursday, May 10th. He is brought to Peterborough under the auspices of the "Y," and should be greeted by a crowded house. Further particulars to follow. Remember the date. 1d101

A Flattering Opinion.

We take the following from a letter received from Lindsay, where Claire Scott and her company have just closed a very satisfactory engagement:—

Mr. T. E. Bradburn.

SIR:—Miss Claire Scott and her excellent company have just completed their engagement at our Opera House. In recommending her I cannot be too high in my praise, for never have we had such an actress in our town, and never in the history of our Opera House such a refined class of dramas as "Elizabeth" and "Mary Queen of Scots." Miss Scott's acting in these is sublime, and received the warm applause of the audience, being repeatedly called before the curtain by the audience. Yours, &c., J. M.

THE S. S. ANNIVERSARY

OF THE CHARLOTTE-ST METHODIST CHURCH.

Special Sermon by the Pastor—A Talk to the Pupils—Children's Meeting in the Afternoon—A Bright Young Man.

On Sunday special services were held in the Charlotte-st. Methodist Church in connection with the anniversary of the Sunday school of the church.

At 11 o'clock in the forenoon the Rev. I. Tovell preached a sermon to the children The scholars of the school occupied the centre row of seats and there was a large number of them present. Mr. Tovell took for his text the word "Study," and taking the five letters of the word he divided his sermon into the following heads:—

S-ufferings of Christ.
T-eachings of Christ.
U-niversal love to Christ.
D-uty we owe to Christ.
Y-outh should be given to Christ.

The sermon was a practical and interesting one.

In the afternoon a children's meeting was held. The pupils of the school again occupied the same seats. Mr. O. C. Rowse, Superintendent of the school, presided, and the Rev. Messrs. Tovell, Wilson and Thompson occupied seats on the platform. A special choir of young ladies of the school led the singing and Mr. J. Crane presided at the organ. The meeting was opened with devotional exercises, the Rev. Mr. Wilson leading in prayer. The Chairman then introduced the speakers.

The Rev. S. J. THOMPSON, after a few introductory remarks, dwelt on the word "Watch," dividing his subject into as many heads as there were letters in the word, as follows:—Watch your words; watch your actions; watch your temper; watch your company, and watch your hours.

The Rev. J. C. WILSON spoke of the importance of Sunday school work, as the children would be the men and women of the country in the future. He dwelt on the evils of intemperance—on the change it effected in a man, and the advisability of shunning drink. If the boys would never drink, the drinkers would pass away and the custom would die out.

The Rev. I. TOVELL spoke very briefly on Sunday schools and temperance.

The service concluded with devotional exercises. The singing of the children was good, showing that they had been carefully trained.

At the evening service, Mr. J. R. Clarke being absent on account of illness, the Rev. Mr. Tovell preached on "The Story of a Bright Young Man." His text was Acts xvi., 1:—"Then came he to Derbe and Lystra: and, behold, a certain disciple was there, named Timotheus, the son of a certain woman, which was a Jewess, and believed; but his father was a Greek." Character building, he said, was a great work, and to succeed in building up a pure and noble character was the highest form of success. The cultivation of any talent for selfish purposes was vain, if it was not used as a means to something higher. It became a bubble that the needle of death would penetrate and destroy. Timothy rose to eminence—not as a man of wealth, not as an orator, or a man of political eminence, but he reached the pinnacle of human success when he earned for himself the title "Thou man of God." The speaker referred to Timothy's early history, and to his happy position in having a good mother and a good old grandmother. A mother always loved her child, but a Christian mother looked into the bright eyes and saw behind them an immortal spirit, which might hereafter rest in the sunshine of God's smiles or be shrouded in the darkness of hell. He dwelt on the importance of placing good literature in the hands of children. The Bible was placed in Timothy's hands, and his mind was stored with scripture. Two evangelists, one highly intellectual and the other tenderly emotional, came to Derbe and Lystra and Timothy and his mother were converted to Christianity. Before that they had been looking at Sinai and its lightning flashes; now they looked upon the cross with its peace and tenderness and joy. Timothy went out from home. Guilty pleasures beckoned to him, but he heeded them not, and he was well reported of. Reputation was something that could not be bought, but a good reputation was gold. Then Timothy joined Paul in his work in preaching. His faithfulness in the small duties at home led him to the larger duties. There was one thing that made Timothy the equal of any who had ever lived and the superior of many, and that was his unselfishness. He lived for Christ. They should do everything they did for Christ and revolve around him as the planets resolved around the sun. But yesterday, the preacher said in conclusion, the sky was clouded and not a star was to be seen. To-day there was a rift in the cloud and light appeared. Yesterday there were no Sunday schools, and to-day there were 15,000,000 children studying in these schools, taught by a million teachers. To-morrow every cloud would vanish, for the 15,000,000 children would become the men and women. The power that went with Timothy and made him conqueror was going with the fifteen million to-day. The Sunday school was the noblest institution in existence next to the church itself.

Brevities.

—"Cresent" is the way the street sign man spells "Crescent-st." See?

—Gas pipes are being laid down from George-st. to Cavanagh's new hotel.

—The Rev. Dr. Bredin will preach in the Charlotte-st church next Sunday morning.

—The foundation of the new hospital is all dug out and the stone masons will soon be at work.

—The regular monthly meeting of the Board of Education will take place to-morrow evening.

—One tramp claiming Havelock as his place of residence slept at the police station on Sunday night.

—The work of laying the new oak floor at the fire hall is well under way and it will be completed in a day or two.

—One of the boarders at the Oriental celebrated his birthday on Saturday night by suppering all the other boarders.

—The members of the Otonabee Canoe club will debate "Woman Suffrage" at their regular weekly meeting this evening.

—Boating is becoming fashionable. Numerous canoes and sail boats were out on the lake and river on Sunday afternoon.

—The Little Lake Cemetery was visited yesterday by quite a large number of people. Superintendent Kelly is preparing for a big season's work.

—Some of the stallions at the show on Saturday were got up in a perfectly gorgeous shape. Many colored ribbons adorned their manes and tails.

—Notices have been placed on the sheds at the Agricultural grounds warning off trespassers who have been in the habit of breaking into the grounds and doing as they chose when inside.

—Several of the directors of the Agricultural Society are of the opinion that the day for giving money prizes for stallions is gone by and it is probable that in future diplomas only will be given.

It is Absurd

For people to expect a cure for Indigestion, unless they refrain from eating what is unwholesome; but if anything will sharpen the appetite and give tone to the digestive organs, it is Ayer's Sarsaparilla. Thousands all over the land testify to the merits of this medicine.

Mrs. Sarah Burroughs, of 248 Eighth street, South Boston, writes: "My husband has taken Ayer's Sarsaparilla, for Dyspepsia and torpid liver, and has been greatly benefited."

A Confirmed Dyspeptic.

C. Canterbury, of 141 Franklin st., Boston, Mass., writes, that, suffering for years from Indigestion, he was at last induced to try Ayer's Sarsaparilla and, by its use, was entirely cured.

Mrs. Joseph Aubin, of High street, Holyoke, Mass., suffered for over a year from Dyspepsia, so that she could not eat substantial food, became very weak, and was unable to care for her family. Neither the medicines prescribed by physicians, nor any of the remedies advertised for the cure of Dyspepsia, helped her, until she commenced the use of Ayer's Sarsaparilla. "Three bottles of this medicine," she writes, "cured me."

MONDAY, APRIL 30, 1888.

MONA SCULLY;

—OR—

The Bride of an Englishman.

Her sympatny is unbounded, her temper is equal to the most trying occasions, her heart open to the most petty grievances; she is to the two girls an unfailing source of comfort,—a refuge where they may unrebuked pour out the indignation against their dressmakers that seems to rage unceasingly within their breasts.

Indeed, as Dorothy says one day, out of the plenitude of her heart, "How we should possibly have got on without you, Mona, I shudder to contemplate."

Geoffrey happening to be present when this flattering remark is made, Violet turns to him and says, impulsively,—

"Oh, Geoffrey, wasn't it well you went to Ireland and met Mona? Because if you had staid on here last autumn we might have been induced to marry each other, and then what would have become of poor Jack?"

"What, indeed?" says Geoffrey, tragically. "Worse still, what would have become of poor Mona?"

"What is it you would say?" exclaims Mona, threateningly, turning toward him a lovely face she vainly tries to clothe with anger.

"It is insupportable, such an insinuation," says the lively Dostie. "Violet, Mona's cause is ours; what shall we do to him?"

"'Brain him with his lady's fan!'" quotes Violet, gayly, snatching up Mona's fan that lies on a *pied-dieu* near, and going up to Geoffrey.

So determined is her aspect that Geoffrey shows the white feather, and, crying "*mea culpa*," beats a hasty retreat.

From morn to dewy eve, nothing is discussed in bower or boudoir but flounces, frills and furbelows, three *f*'s that are considered at the Towers of far more vital importance than those other three of Mr. Parnell's forming. And Mona having proved herself quite in good taste in the matter of her own gowns, and almost an artist where coloring is concerned, is appealed to by both girls on all occasions about such things as must be had in readiness, "Against their bridal day, which is not long." As for instance:

"Mona, do you think Elise is right? she is so very positive; are you sure heliotrope is the correct shade to go with this?" Or—

"Dearest Mona, I must interrupt you again. Are you very busy? No? Oh, then do come and look at the last bonnet Madame Verote has just sent. She says there will be nothing to equal it this season. But" in a heart-broken voice, "I cannot bring myself to think it becoming."

Lady Rodney, too, is quite happy. Everything has come right; all is smooth again; there is no longer cause for chagrin and never-ending fear. With Paul Rodney's death the latter feeling ceased, and Mona's greatness of heart has subdued the former. She has conquered and laid her enemy low; without the use of any murderous force the walls have fallen down before her, and she has marched into the citadel with flying colors.

Yet does she not triumph over her beaten foe; nay, so different is it with her that she reaches forth her hand to raise her again, and strive by every tender means in her power to obliterate all memory of the unpleasant past.

And Lady Rodney is very willing that it should be obliterated. Just now, indeed, it is a favorite theory of hers that she could never have been really unkind to dear Mona (she is always "dear Mona" of late days) but for the terrible anxiety that lay upon her, caused by the Australian and the missing will, and the cruel belief that soon Nicholas would be banished from the home where he had reigned so long as master. Had things gone happily with her, her mind would not have been so warped, and she would have learned at once to understand and appreciate the sweetness of the dear girl's character! And so on.

Mona accepts this excuse for by-gone injustice, and even encourages her mother-in-law to enlarge upon it,—seeing how comfortable it is to her to do so,—and furthermore tries hard in her own kind heart to believe in it also.

She is perhaps as near being angry with Geoffrey as she can be when one day he pooh-poohs this charitable thought, and gives it as his belief that worry had nothing to do with it, and that his mother behaved uncommonly badly all through, and that sheer obstinacy and bad temper was the cause of the whole matter.

"She had made up her mind that you would be insupportable, and she could not forgive you because you weren't," ys that astute young man, with calm conviction. "Don't you be taken in, Mona."

But Mona in such a case as this prefers being "taken in" (though she may object to the phrase), and in process of time grows positively fond of Lady Rodney.

"In company with so divine a face, no rancorous thoughts could live," said the duke on one memorable occasion, alluding to Mona, which speech was rather a lofty soar for His Grace, he being for the most part of the earth, earthy.

Yet in this he spoke the truth, echoing Spenser, (though unconsciously), where he says,—

"So every spirit, as it is most pure
And hath in it the more of heavenly light,
So it the fairer bodie doth procure
To habit in,
For the soule the bodie forme doth take,
For soule is forme and doth the bodie make."

With Lady Rodney she will, I think, be always the favorite daughter. She is quite her right hand now. She can hardly get on without her, and tells herself her blankest days are those when Mona and Geoffrey return to their own home, and the Towers no longer echoes to the musical laugh of old Brian Scully's niece, or to the light footfall of her pretty feet. Violet and Dorothy will no doubt be dear; but Mona, having won it against much odds, will ever hold first place in her affections.

After all she has proved a great success. She has fought her fight, and gained her victory; but the conquered has deep reason to be grateful to her victor.

Where would they all be now but for her timely entry into the library on that night never to be forgotten, and her influence over the poor dead-and-gone cousin? Even in the matter of fortune she has not been behindhand, Paul Rodney's death having enriched her beyond all expectation. Without doubt, therefore, there is good reason to rejoice over Mrs. Geoffrey.

To this name, given to her in such an unkindly spirit, Mona clings with singular pertinacity. Once, when Nolly has called her by it in Lady Rodney's hearing the latter raises her head, and a remorseful light kindles in her eyes; and when Mr. Darling has taken himself away she turns entreatingly to Mona, and, with a warm accession of coloring, says, earnestly,—

"My dear, I behaved badly to you in that matter. Let me tell Oliver to call you Mrs. Rodney for the future. It is your proper name."

But Mona will not be entreated; sweetly, but firmly, she declines to alter the *sobriquet* given her so long ago now. With much gentleness she tells Lady Rodney that she loves the name; that it is dearer to her than any other could ever be; that to be Mrs. Geoffrey is the utmost height of her very highest ambition; and to change it now would only cause her pain and a vague sense of loss.

So after this earnest protest no more is ever said to her upon the subject, and Mrs. Geoffrey she is now to her friends, and Mrs. Geoffrey, I think, she will remain to the end of the chapter.

THE END.

TORONTO DEFEATED BY ALBANY IN THE FIRST CHAMPIONSHIP GAME.

League and Association Games on Saturday—Game Called on Account of Darkness—The Lacrosse Men Score Another Victory in England.

ALBANY, April 28.—Fully 2000 people witnessed the Albanys defeat the Champion Torontos this afternoon at Riverside Park, the visitors being unable to score while the home team crossed the plate twice, both scores being earned. The Albanys made but one error, while the Torontos are credited with four. Foreman occupied the box, and he was admirably sustained by Quinn, who caught without a passed ball. Score:

A Sad Introduction for Fowler's Chiefs.

ROCHESTER, April 28.—The Tecumsehs of London opened the International Association season with the Rochesters at Culver Park today. The game, though interesting to the home team, was a sad introduction for Fowler's Chiefs to the season of 1888. One thing unfavorable to them was the lack of practice, also that Geiss was unable to occupy the box. On that account he had the first base to very fine advantage, making only one error during the game. A special feature of the whole game was the inability of the Canadians to get on to young Callahan's pitching. He was speedy and certain, striking out sixteen men. In fact the Tecumsehs were outplayed at every turn. Knox, of the Rochesters, sent the ball out of reach and sight in the sixth, sending Miller in ahead of him to home. The day was very warm, and about 3000 were present at the game. Score:

Stars Win through Superior Batting and Base-running.

SYRACUSE, April 28.—The first game in the championship race was played here to-day between the Stars and Hamiltons in the presence of 3500 people. The Stars won through superior batting and base-running, the fielding on both sides being a little ragged. Jones was his best all through, while Murphy was very effective. Vimor played a lamentable second base. Hamilton's only runs were scored in the third inning, after two men were out, on two errors by Higgins, a two-bagger by Rainey and a fumble by Battin. The Stars scored two in the first inning on Vimor's fumble and hits by Beard and McQuery, one in the third on Rainey's and Vimor's fumble, three in the sixth on hits by Murphy, Battin, Higgins, Ely and Beard, and one in the seventh on a hit by Marr, two steals and wild throws by Vimor and Jones. Score:

Stars	0	1	0	0	1	0	3	1	0	6
Hamilton	0	0	1	0	0	0	0	0	2	3

Batteries: Murphy and Walker; Jones and Purvis. Umpire: Sullivan.

Game Called on Account of Darkness.

TROY, April 28.—The inaugural game of the season between the Buffalos and Trojs here today drew an attendance of 2200 people, and occupied two and a half hours, resulting in a draw. The visitors did excellent fielding, and Welch's balls greatly puzzled the Trojans. At the end of the tenth inning the game was called on account of approaching darkness.

IMPORTANT!

To Housekeepers, Hotelkeepers & all Cash Buyers

P. D. DORAN is now offering at the Bankrupt Stock Emporium (M. Sullivan's old stand, George-st.,) the following inducements to all those who can pay cash for their Dry Goods and Gent's Furnishings:—10,000 yards New Spring Dress Goods at 6c. per yard, worth 12½c.

New Silk Parasols at about 60c. on the dollar, 1,000 yards Black and Colored Silks at half price, Remnants of Good Pure Silk from 24c. up, 5 Bales Grey Cotton at 10 per cent less than regular prices.

5 Bales White Cotton at same rate. Large stock of 8-4 and 9-4 Sheeting at a bargain, Table Linens, Table Napkins and Towels 10 to 20 per cent cheaper than any house in the trade.

CASH WILL TELL.

As I pay cash for all Goods, and sell for cash only, I offer to sell much cheaper than those who buy and sell on credit. Remember the place, M. Sullivan's old stand, No. 3, Cluxton's Block, George-st., Peterborough.

P. D. DORAN,

N.B.—Largest stock of Lace Curtains in Peterborough at about half price. For further list of prices please call at the store.

Give them a Chance.

That is to say, your lungs. Also all your breathing machinery. Very wonderful machinery it is. Not only the larger air passages, but the thousands of little tubes and cavities leading from them.

When these are clogged and choked with matter which ought not to be there, your lungs cannot half do their work. And what they do, they cannot do well.

Call it cold, cough, pneumonia, catarrh, consumption or any of the family of throat and nose and head and lung obstructions, all are bad. All ought to be got rid of. There is just one sure way to get rid of them. That is to take Boschee's German Syrup, which any druggist will sell you at 75 cents a bottle. Even if everything else has failed you you may depend upon this for certain.

The Floor Gave Way.

BELLEFONTAINE, O., April 28.—At Rushsylvania, this county, last night, a school exhibition was in progress in Bookman's Hall, situated in the second story of a brick building. The hall seats about 400 people, and was crowded to its utmost capacity. Suddenly, without the slightest warning, the floor gave way with a frightful crash, and the entire audience went down in a surging mass to the ground, a distance of twenty feet. Two persons were killed and fifty more or less seriously injured.

Burying the Hatchet.

PHILADELPHIA, April 28.—Gen. Joseph E. Johnston, the highest in rank of living officers of the Confederate army, was on Thursday night last, on his own application, unanimously elected honorary member of E. D. Baker Post, No. 8, G.A.R., of this city. Gen. Johnston is the only ex-Confederate soldier who has been received into the ranks of the Grand Army post.

Fatal Explosion in a Mine.

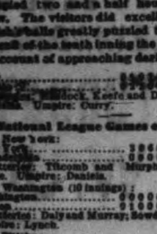
WILKESBARRE, Pa., April 28.—A fearful explosion occurred in mine No. 4 of the Delaware and Hudson Canal Company at Plymouth at 5 o'clock this evening. Patrick McGill and John Knoles, miners, were instantly killed. Charles O'Connor, a laborer, was so badly burned that his life is despaired of, both eyes being destroyed and his head and body frightfully roasted. Joseph Halloran and William James were badly injured but will live. The dead men leave large families in destitute circumstances.

Counterfeiters in Court.

KINGSTON, April 28.—At the Police Court this morning A. Walter Vance and C. Farman Knight were arraigned on two charges of uttering forged $5 notes of the Bank of British North America. They were remanded until Monday for the production of evidence.

A Stray Bullet.

MONTREAL, April 28.—As a boy named Lebeouf was walking in company with Brother Albert, of the Christian Brothers' School of St. Gabriel, along Napoleon-road yesterday, he was shot in the ankle with a bullet, but where it came from is a mystery. The bullet also passed through the Brother's cloak.



Early Closing in Ingersoll.

INGERSOLL, April 28.—The early closing by-law was up before the Council last night in response to a petition signed by 54 out of the 60 merchants of the town. It was defeated on a motion for the third reading.

A Babe in the Tower.

MONTREAL, April 28.—The caretaker of Notre Dame Church yesterday found a new born female child in the tower with nothing on it except a piece of black cloth. He had the child, which was alive, handed over to the care of the Grey Nuns.

R. C. CHURCH PARK LOT

FOR SALE.

TENDERS

Will be received up to the 15th May, instant, by the undersigned, for the purchase of the whole or any portion of Park Lot Number six, in Township Lot Number Thirteen, in Concession Thirteen of the Township of Monaghan, in the County of Peterborough, now incorporated in and forming part of the Town of Peterborough, containing TEN acres more or less.

This lot, better known as the "R. C. Church Lot," is the most desirable property that has been offered for sale in Peterborough for many years. It has a frontage on Park-st. of 256 feet, adjoining Mrs. Gilmour's residence; a frontage of 1914 feet on Gilmour-st. and the same on the Gravel Road, continuation of Charlotte-st.

Gilmour-st. is the most beautiful street in the Town for private residences, and being within ten minutes walk of the Post Office and Market Square, this sale affords to intending purchasers an opportunity of procuring a beautiful and convenient site for a home.

TERMS:—Ten per cent. cash; twenty per cent. additional in 30 days from acceptance of the Tender, and the balance will be allowed to remain on mortgage for such term, not exceeding ten years, as the purchaser desires with interest at 6 per cent. per annum.

For further particulars apply to

EPPS'S COCOA

BREAKFAST.

"By a thorough knowledge of the natural laws which govern the operations of digestion and nutrition, and by a careful application of the fine properties of well-selected Cocoa, Mr. Epps has provided our breakfast tables with a delicately flavoured beverage which may save us many heavy doctors' bills. It is by the judicious use of such articles of diet that a constitution may be gradually built up until strong enough to resist every tendency to disease. Hundreds of subtle maladies are floating around us ready to attack wherever there was a weak point. We may escape many a fatal shaft by keeping ourselves well fortified with pure blood and a properly nourished frame."—*Civil Service Gazette.*

THE MONOPOLY SURRENDER.

Report of the Committee of the Privy Council Laid on the Table.

OTTAWA, April 28.—Sir Charles Tupper laid on the table to-day the report of the Committee of the Privy Council to whom was referred the Minister of Railway's report with reference to the Manitoba Railway difficulty. They concur in Hon. J. H. Pope's report. This states that the Government were reluctant to meet the expressed views of Manitoba, because they considered that the desired action would be unfair and contrary to the interests of Canada, that the trade of the Northwest should be diverted to a foreign country after the expenditure which has been made by Canada to create and foster that trade; also that until the time arrived at which the Canadian Pacific Railway were bound to complete contract the company were entitled to have the main line protected from the injurious effect which a line from Winnipeg to the boundary would have.

The report then cites the changed conditions which have arisen during the past twelve months. Fifteen million acres of lands are offered as security. The lands are now subject to a mortgage amounting to $3,400,000, but against this the company are willing to place $1,200,000 due them for unpaid purchase money on lands sold. The liability of the Government under such guarantee would be merely nominal.

The company are relieved from the obligation to maintain and operate a line between St. Boniface and the American boundary.

A schedule is attached expressing in minute detail the terms of the agreement concerning the branch line just mentioned. The schedule gives power to lease or sell, the purchase price or rental to be applied either towards payment of the guaranteed bonds or increasing the security for them by expenditure on the company's railway.

While maintaining that it is still desirable that Northwest products should be carried through Canada to the seaboard, the Government say:

Negotiations have been had with the Canadian Pacific Railway, and it is believed that satisfactory arrangements can be made by which the operation of the monopoly sections can be at once dispensed with and the equipment of the Canadian Pacific Railway so perfected as to provide for the storage and carriage of the products of the western provinces and territories without reasonable apprehension that they will be diverted to the United States.

Having stated that in compensation for the surrender of the monopoly privileges the Government is to guarantee principal and interest of a loan of $15,000,000 for fifty years the report deals with the Red River Company, who shall be obliged to maintain only such one of their two branches as they shall see fit. The agreement concludes with the following statement of how the proceeds of sale of the guaranteed bonds are to be applied.

1. An account of capital expenditure on the main line between Quebec and Vancouver, in the building of various snowsheds, sidings, permanent bridges, filling trestles, reducing grades and curves and other improvements and facilities and on vouchers and pay rolls, $5,488,000.

2. For required rolling stock, locomotives, box cars, passenger cars, flat cars, coal cars, snow plows, etc., $5,250,000.

3. For required improvements on the main line, elevators, bridges, locomotive sheds, filling trestles, sidings, docks, lake and coast steamers, the residue, whatever it may be, but estimated at $4,252,000.

It is provided that the expenditure on item 3 may be increased and for that purpose the expenditure on either of the other items may be diminished.

Hamilton Notes.

HAMILTON, April 30.—In the Miller liquor case Judge Sinclair this morning refused to grant a summons on appeal.

Bookkeeper J. W. James was standing on a stepladder in Plumber Farmer's shop Saturday evening when the ladder broke and James was precipitated on some boxes, breaking two ribs.

Little Tommy Stout, who has carried the banner of the Salvation Army for the last four years, went to work in the east end distillery a short time ago, and this morning was arrested for being drunk.

Voting on the bylaw authorizing the issue of $100,000 debentures will be held on May 23.

The customs returns at this port for April are $59,723, a decrease as compared with April last year of $7697.

The meeting Saturday night to organize a Non-Union Men's Union broke up without accomplishing anything.

A license was granted to the "Bungalow" at the Beach on Saturday.

Rev. S. J. Hunter died at 6.30 this evening.

Manitoba's Legislature.

WINNIPEG, April 30.—It is not thought the session of the Legislature will last much longer than the present week. On Wednesday Provincial Treasurer Jones expects to deliver his budget speech. The Government will probably introduce a general railway act introducing into Manitoba the Minnesota law providing that any company can build a railroad line without securing a special charter from the Legislature.

There was a brief and uninteresting session to-day. The Lieutenant-Governor was present and assented to the Redistribution, Election and $1,500,000 Loan Bills.

The Liberals meet Wednesday and may select candidates for Winnipeg at the approaching election.

Charged with Bigamy.

BRAMPTON, April 30.—A man named Wm. Shields alias James Sweet was arrested and taken to Alton on Saturday on a charge of bigamy. The case was heard by Justices Pattullo and Stubbs. Shields' first wife, whom he married in 1880 under the name of Sweet, was present with her two children and also wife No. 2, with whom he has been recently living. He pleaded guilty to the charge and stated that his real name was Wm. Shields. He was committed for trial and sent to jail here.

THE SPEAKER'S GALLERY.

ALLEGED SOCIAL DISTINCTIONS IN SEATING VISITORS.

The House Sits with Closed Doors and Indulges in a Lively Flare-up—The Secretary of State's Bill to Amend the Electoral Franchise Act.

OTTAWA, April 30.—The House sat for twenty minutes this afternoon with closed doors and there was quite a lively flare up because of an alleged social distinction which has been promulgated with reference to the Speaker's gallery, but by whom promulgated seems to be a mystery. The Speaker's gallery is immediately opposite Col. Ouimet's throne and is also right across the chamber from the reporters' box, and it is possibly because of its optical proximity to the latter important adjunct of the House that it is so exclusive and its occupants are principally of the favored few. However this may be there has been a great deal of dissatisfaction among the members, both last session and this, by reason of certain preferences which the ushers in this gallery have been making with reference to the front seats. On more than one occasion this session have ladies, the wives, daughters and female friends of members, been asked to vacate their places in the front seat to make room for the wives and relatives of certain Cabinet Ministers. One lady in particular, the winsome, youthful and handsome wife of a member for Western Ontario, has been requested to move back a row when the wife and sister-in-law of a certain Cabinet Minister wanted a seat. Mr. Jones of Halifax and other members to-day made a vigorous protest against it, but the reporters were not allowed to hear what was said.

The Speaker told the House, it is understood, that there must have been some misunderstanding on the part of the ushers. He (Col. Ouimet) had never issued any such order, nor was he aware the annoying circumstances complained of had occurred. He hoped there would not beany further grounds for complaint.

Even the most democratic members of the House of Commons are in favor of a certain distinction as regards the front row of this gallery, but they positively draw the line there. The preferences they admit are the ladies from Government House, Lady Macdonald and Mrs. Mackenzie. None of these ladies, however, have been in the chamber this session. Lady Macdonald in years gone by was a regular occupant of the Speaker's gallery, but this session she has not been seen even once in her accustomed place. Mrs. Mackenzie comes to the House very rarely and never at night, because her invalid husband never attends the evening session. There is never any confusion when the ladies from Government House come to the Chamber, because word is invariably sent in advance of their intended visit. The matter has created considerable "feeling" among the members.

Mr. Dickinson, the dapper little gentleman who got Sir John's seat in the capital county of Carleton after the Premier decided to sit for Kingston, made his maiden speech when he sent up for a first reading his act respecting fraternal and benevolent societies. This act is framed somewhat on the model of the bill prepared by Superintendent of Insurance Hunter, which was before the Ontario Legislature but not passed at its last session. The bill is intended to deal with friendly societies that do an inter-provincial insurance business. Audits, inspection, deposits with the Government, etc., are provided for. The deposit, however, is made optional, as some of the friendly societies do not carry a surplus; the A.O.U.W. for instance pay their life insurance by assessment. The Foresters, who are promoting the bill, on the other hand, have a surplus of nearly $90,000. Mr. Dickinson made a neat little address in introducing his bill.

The Secretary of State's bill respecting Civil Service examinations was sent up for its first reading. The bill deals principally with matters of detail aimed at preventing impersonation at examinations, provides for yearly examinations and throws additional safeguards around the possibility of intending candidates obtaining copies of the questions which they are to be examined upon.

Mr. Chapleau also gave up his bill to amend the Electoral Franchise Act, which he said was limited to three dispositions:

1. Transferring from the Election Act the penalties attaching to persons found guilty of corrupt practices.
2. Providing the means for doing the printing of the voters' lists at the Government bureau in the Capital.
3. Providing that there shall be no revision of the lists this year.

The Opposition opened a lively fusilade on the amended bill of Mr. Chapleau, as they did on the parent bill itself of 1885, but which has never been put into operation. Mr. Laurier predicted endless confusion by having the printing done so far away from the constituencies. Mr. Mill (Bothwell) said the Government was afraid to put the act of 1885 into effect. Mr. Charlton said that the bill was expensive and inoperative. "The qualification," he said, "to vote for a member of the House of Commons should be that a voter was on the provincial voters' lists. He prophesied that the Government would abandon the whole system before long. Mr. Davies held that the County Judges and not the Government's revising barristers should have the final revision of the lists.

Mr. Chapleau promised that the Opposition's criticism of his measure would be considerably modified when they heard his bill read in full.

The Premier, who looked jaunty and somewhat horsey in a prim-fitting shooting jacket and vest, told the House that the Government and Lord Lansdowne himself were desirous of closing the present session of Parliament before he took his departure for England on May 24. Sir John therefore said that it would be desirable to expediate the Government business as much as possible, and he intended to take another day each week until the end of the session. This would be Wednesday, making four Government days per week.

It was also arranged that another debate on Mr. McCarthy's and Mr. Jamieson's Scott Act amendment bills would be held on Monday next.

Sir Charles Tupper told Mr. McCarthy, in answer to a question, that the Government intended to go on with their railway bill this session, and Mr. McCarthy hopes to get his act for the protection of railway employes embodied therein.

Mr. Small's bill respecting the Toronto Board of Trade was read a second time and sent to the Committee on Banking and Commerce.

Private bills Nos. 69, 74, 96 and 107 were read a third time and passed.

J. R. Marin, Collector of Customs at the well-known Port of Rimouski, is accused by Mr. Fiset of being a trader, and he asked Mr. Bowell if he were aware of the fact. Mr. Bowell said he had heard it and had ordered an investigation. If it were found that Collector Martin was "in business" he would be asked to give it up or resign his collectorship.

Mr. Langelier of Quebec Centre, in moving for copies of the tenders received for an improved Atlantic mail service, made some pretty plain observations about the present arrangement of subsidizing the Allans for the very inferior service which Mr. Langelier claims they render Canada in their transmission of the ocean post. Mr. Langelier said it was unfair to single out a single company and pay them a subsidy for such a very poor service. The Quebec merchants, he said, all went to New York to take the European steamers in preference to patronizing the Canadian line because of its inefficiency. Sir Hector Langevin, who was leading the House, would not consent to bring down the contracts until he heard from the Postmaster-General, and the motion stands.

Mr. Mills (Bothwell) asked the Premier about his bill respecting a legislative assembly for the Territories, and if it were intended to have an executive in connection with that assembly. Sir John said the bill would be proceeded with this session, but there would be no executive. "Then you mean," said Mr. Mills, "that the Federal Government will do all the advising for the Governor of the Northwest Territories, even after they have an elective assembly?"

Sir John: "Yes, I suppose so. We will advise them all right."

The House adjourned at 12.30.

COLONIES AND MOTHERLAND.

Debate on the Resolution for Freer Trade Relations with Great Britain.

OTTAWA, April 30.—The event of to-day's session after the House had emerged from its secret session was a debate on this resolution which was put on the order paper on March 28 by Mr. Marshall of Middlesex.

That the establishment of mutually favorable trade relations between Great Britain and her colonies would benefit the agriculturist, mining, lumbering and other industries of the latter, and would strengthen the Empire by building up its dependencies, and that the Government should ask the other colonial Governments to join in approaching the Imperial Government with a view to obtaining such agreement.

Mr. Marshall is a farmer who tills the soil and feeds his flocks close into the gates of the Forest City. He thinks a great deal of these flocks and makes a weekly pilgrimage to the farm to see that they are carefully cared for. He has for a seconder to his resolution Mr. McCarthy, another gentleman who, until a month ago, tilled the soil when *not* engaged in his law office or in the courts, and whose flocks of thoroughbreds graze on the gentle slopes of North Simcoe.

Both of these farmingmen made eloquent speeches in furtherance of the principal of the resolution, and the debate that followed savored very much of the famous seventeen days' talk on Sir Richard Cartwright's Unrestricted Reciprocity resolution. In fact, Whip Trow claims that the seconding speech made by Mr. McCarthy was the identical one he had prepared but did not deliver on Sir Richard's resolution.

Mr. McCarthy was followed by Mr. Casey, Mr. Fisher, Mr. Tupper, Mr. Mills and Mr. Davin. Mr. McNeil moved the adjournment of the debate.

SEEKING INFORMATION.

A Batch of Questions to be Asked—The Finance Minister's Resolution.

OTTAWA, April 30.—Sir Charles Tupper this evening gave notice of the following resolution which he proposes to move in committee of the whole on Wednesday:

That in addition to the sums now remaining unborrowed and negotiable of the loans authorized by Parliament by any act heretofore passed, the Governor-in-Council may raise by way of loan such sum or sums of money, not to exceed in the whole the sum of $25,000,000, as may be required for the purpose of paying the floating indebtedness of the Canadian Government for the carrying on of the public works authorized by its Parliament, such money to be raised according to law (Cap. 24, R.S.), the same to form part of the consolidated revenue fund, the interest on any of the loans not to exceed 4 per cent. per annum.

Mr. Laurier will enquire of the Government on Wednesday:

First, what number of acres is there of unsold lands which the Canadian Pacific Railway Company propose to secure by deed of bargain and to trustees under Subsection C of the resolutions now before Parliament?

2nd Subsection C is as follows: "The proceeds of the sales of the lands hereinbefore mentioned shall be paid over to the Government of Canada together with any other sums which the company pays over for the purpose to the Government, and the whole shall constitute a fund which shall be held by the Government for the exclusive purpose of satisfying the principal of the said bonds."]

Second, What portion of such land lies within the railway belt?

Third, How many acres of those lands are there in Manitoba and how many in the territories east of the third meridian?

Fourth, How many acres have been sold by the company, paid for, and deeds completed?

Fifth, How many acres have been sold, but the sales are yet incomplete; how much paid on the same, how much remains due and when and how payable?

Mr. Laurier also proposes to ask the Government if it proposes to have Canada represented at the centennial exposition of the Ohio Valley, which opens at Cincinnati on July 4.

Mr. Davies is after a batch of information about the sums advanced by the Government on account of the Lake St. Peter improvements.

The Middleton Divorce Case.

OTTAWA, April 30.—The application for divorce of Wm. Henry Middleton from his wife, Mary Wise, came up this morning in the Senate Private Bills Committee. Mr. Middleton, who is a son of General Middleton, accuses his wife of desertion and adultery. Lawyer Sinclair of Ottawa, who is acting for Mr. Middleton, applied for the suspension of the 46th rule regulating applications for divorce. The rule calls for six months' notice of application. Mr. Middleton's notice was yet a month short of the time and there was a certainty that if he didn't get started at once his application wouldn't result in anything this session.

Mr. J. A. Gemmel of Ottawa appeared for Mrs. Middleton to oppose the petition, which asked that the case may be allowed to proceed. It being shown that due notice of the petition had been given in the papers and that all the formalities had been complied with, the petition that the case be allowed to be heard was granted. Mr. Gemmel then asked that the counter petition of Mrs. Middleton be heard at the same time. This was refused.

The petition was presented to the Senate in the afternoon and the bill was read a first time.

Grosse Isle Quarantine.

OTTAWA, April 30.—The Government has decided to make extensive improvements in the quarantine service at Grosse Isle, River St. Lawrence, to preclude the possibility of the introduction of Asiatic cholera. This step was urged upon the Government recently by a joint deputation from the Provincial Boards of Health of Quebec and Ontario. The proposed fumigating apparatus required, together with other adjustments, will cost over $100,000.

Nominations for Russell.

OTTAWA, April 30.—At Duncanville in Russell to-day C. H. Mackintosh was nominated as the Conservative standard-bearer, and W. C. Edwards, the unseated member, was put up by the Liberals. The election, which is to fill a vacancy in the House of Commons, comes off on May 7.

Huron Assizes.

GODERICH, April 30.—The assizes for the county of Huron were opened here this afternoon. His Lordship Mr. Justice McMahon presiding. Twenty civil cases, several of considerable public importance, have been entered for trial. The criminal list contains about twenty-five charges for investigation, comprising forgery, perjury, bestiality, assaults on peace officers, seduction under the Charlton Act, battery and assault, embezzlement, larceny, etc.

DISCUSSING THE DECREE.

ENGLISH PRESS OPINIONS ON THE POPE'S FULMINATION.

The Irish Parliamentary Party Will Take No Action but Will Leave the Question on its Merits to the Decision of the People.

LONDON, April 30.—The Pall Mall Gazette commenting on the papal decree says: "The Pope's blunder amazes us. It will make no difference in the condition of affairs in Ireland while the alliance with the Pope will displease England."

The St. James' Gazette asks what Gladstone thinks of his position now. What the Vatican declares to be a damning sin, Gladstone, it says, considers exclusive dealing.

The Globe says: "Archbishop Walsh doubtless did his uttermost to refute Mgr. Persico's statements relative to the condition of affairs in Ireland. It is possible, as The Daily News intimates, that the Pope has been threatened with something like a schism. The decree means that law and order which were menaced by the junction of a strong British party with the Parnellites have now in the Vatican's opinion overcome the disturbing forces assailing them."

The Star denounces the decree as cruel, perfidious and wanton. It says that Ireland fighting with her back to the wall will never perhaps discover the methods by which the attack was instigated. If Ireland submits to sacrifice her liberties to a base Tory intrigue she will be unworthy of the freedom which in a few years Englishmen will grant her if she maintains her demands. The paper summons Englishmen to denounce their Ministers' intrigue. Ireland, it declares, will accept political advice and counsel from no power but her chosen political leaders.

The Standard argues that the effect of the decree will be disastrous to the National League by lessening its contributions.

The Irish Parliamentary party will take no steps in connection with the decree, but will leave the question on its merits to the appreciation of the people. The promoters and supporters of the plan of campaign do not expect that the decree will act as a serious check to their enterprises.

Discussing the Decree.

DUBLIN, April 30.—Cardinal Simeoni has written a letter to the Irish bishops from the propaganda, enclosing the papal decree relative to the plan of campaign and boycotting.

The Freeman's Journal says the decree will always command the tenants' respect, but the people understand their own affairs too well to allow hostile machinations to prevail. They have vigilant and able advocates like Archbishop Walsh in Rome and archbishops and bishops at home, whose support will never fail them.

The Mitchellstown branch of the National League has discussed the decree, and has decided that it will not take its politics from Rome.

A meeting composed of Irishmen and Englishmen, held at Aldershot, condemned the Pope's decree, and resolved to found a branch of the Home Rule organization, and to cease contributing to Peter's pence.

Threatened with Death.

DUBLIN, April 30.—Notices have been posted in Kilrush threatening with the doom of James Carey (the Phœnix Park informer) any one dealing with the innkeeper who harbored a constable who assaulted the priest while the authorities were trying to suppress a meeting of the National League at that place.

Floods in Wisconsin.

EAU CLAIRE, Wis., April 30.—The flood has driven 150 families from their homes during the past twenty-four hours. The approaches of three bridges are covered with from four to six feet of water and are impassable. Porterville, a village below here, is flooded and deserted. The inhabitants are camped in sheds and warehouses. Two streets on each side of the Chippewa River in this city are flooded. The greatest loss thus far is to the Chicago, Milwaukee and St. Paul Railroad, to partly-submerged sawmills and business houses. Four inches of melting snow have fallen and it is still snowing hard.

Aiding College Federation.

ST. GEORGE, April 30.—Addresses were delivered in the C.M. Church here yesterday, in the interest of college federation, by Rev. Dr. Beattie (Presbyterian) and Wm. Wilkinson, M.A., of Brantford. The amount allotted to this congregation, $575, has been more than covered, the subscriptions amounting to $650.

The Statue Scheme Abandoned.

MONTREAL, April 30.—The movement to erect a mammoth statue of the Virgin Mary on Mount Royal, which caused so much alarm among the Protestant population, has been abandoned, Mgr. Fabre, the Roman Catholic Archbishop, having counselled the withdrawal of the petition to the City Council for a site in the park. At the meeting of the Council this afternoon the petition was accordingly withdrawn.

Shefford, Que., Election.

QUEBEC, April 30.—A writ has issued fixing the polling in Shefford for the Local House for May 18.

The London Cemetery Scandal.

LONDON, Ont., April 30.—The examination into the charges against Geo. Elliott, the caretaker of Woodland Cemetery, accused of stealing shells, was commenced before Squire Peters in the Court House this morning. Two witnesses were examined, their evidence tending to sustain the charge, and the case was then adjourned.

Capital Notes.

OTTAWA, April 30.—Mrs. and Miss Macdonald are on a visit to the Capital and are quartered at the Russell with the Senator from Midland.

Mr. Mulock was in his seat to-day after a couple of weeks' absence attending the death-bed and funeral of the late Mr. Crowther of Toronto.

The Senate had another day's fling in debating the treaty bill and the end was not yet when the House adjourned. Senators McInnes, (B.C.), Almon, Poirier and Kaulbach were the speakers of the day.

Another New Railway.

CHICAGO, April 30.—The Chicago, Santa Fe and California Railroad was opened for passenger traffic between Chicago and Kansas City yesterday.

BUTTER.

THE United States Supreme Court has given a decision on the law adopted by the State of Pennsylvania to abolish the manufacture and sale of oleomargarine, and the State law is held to be constitutional and valid. This decision, the Buffalo Times says, will do away with oleomargarine in New York, Maryland and Pennsylvania. Canada has forbidden the manufacture, importation or sale of the article, and the substitutes for butter should be shut out from all countries. Oleomargarine is almost invariably sold as pure butter and finds its way to the tables and into use under false pretences. There are those who contend that it is a wholesome article of diet, but the weight of evidence is against it, and the manner in which it is sold as butter tells against it. It is satisfactory to know that the laws abolishing it in the States named have been pronounced constitutional, and that there, as in Canada, the sale of the substitute is forbidden.

In this connection, it may be pointed out that the question of establishing creameries is engaging attention in various parts of the country. The exports of butter from Canada to Great Britain have fallen off, yet there is a very large demand for good butter in that market. The Toronto World has been expending considerable energy and good sense in calling attention to the matter, and there certainly does not appear to be any reason why the exports of butter should not increase instead of decrease. No doubt the chief reason for the decrease has been the large quantity of cheese made, but the butter industry can be profitably carried on without injuring the kindred industry of cheese manufacture. The one essential for procuring a good price in the English markets is to send a first-class article, and Canadians have the intelligence and can exercise the carefulness to make such an article in butter. If by united action, in creameries, the object of making gilt-edged butter can be better attained, then creameries should be established. Instead of being rivals of the cheese factories, why should not the creameries be carried on in connection with them? At a recent Farmers' Institute meeting the advantages of creameries were pointed out, and this fact should be borne in mind, that there is a large market for butter of first-class quality.

ENTERPRISING.

This town has a number of enterprising societies, who frequently provide entertainments of a high class for the citizens. Among them is a society of young ladies, the Young Women's Christian Temperance Union. They have been organized but a comparatively short time, yet they have given a few entertainments that have ranked high, among them being lectures by ladies. Now, however, they have taken a bolder step and have engaged the talented author, Mr. Will Carleton, for an evening. Mr. Carleton has a wide reputation as a poet, his "Farm Ballads," "City Ballads," and other poetical productions being known and appreciated throughout the English speaking world, and since he has gone on the platform his services in that capacity are in demand.

The objects of this society of young ladies is, in addition to temperance work, to elevate the morals of the community, and one good way of attaining that object is by providing good entertainments of the best class. There is not a little risk in ventures such as this one, the expense connected with it being considerable, but they believe that their efforts will be appreciated, and they rely on the assistance and appreciation of the public. Mr. Carleton is a talented gentleman. The young ladies deserve credit for their enterprise in bringing him here and they will, no doubt, have no reason to regret this part of their scheme for providing entertainment of an elevated character.

While correspondents will be allowed space to discuss questions of public interest, the Review does not hold itself responsible for the opinions expressed.

Street Naming.

To the Editor of the Review.

SIR,—Permit me to call the attention of the Street Inspector to the spelling of the names of the streets, or at all events of one street, on the new boards affixed to the corners of our fences. Aylmer-st. is spelt "Alymer-st."

I trust that Mr. Pope, who discharges the duties appertaining to his office with such exceptional efficiency, will cause these boards to be reversed and will have the word properly spelt painted on the other side.

"MEN WANTED."

A Lecture by the Rev. Mr. Benson in the Charlotte-st. Methodist Church.

In connection with the anniversary services of the Sunday school of the Charlotte-st. Methodist Church, the Rev. Manly Benson, of Toronto, delivered a lecture on Monday evening on "Men Wanted." Notwithstanding the unfavorable weather, there was a good attendance, and the Rev. I. Tovell presided. The proceedings were commenced by the Rev. P. Clifton Parker leading in prayer. The Y.M.C.A. Quartette sang "The Harvest Moon" and added to their popularity. The Chairman explained the absence, through illness, of Mr. J. R. Clarke, and introduced the lecturer.

The Rev. Mr. BENSON commenced by referring to the frequency with which advertisements appeared for industrious young men. Hundreds of men of the right kind were wanted. He illustrated by an anecdote what men could do rather than beg. He dwelt on the advantages young men possessed in Canada, and gave a glowing description of the extent, resources and progress of the country. Men made the country. Young men should owe their positions only to character and strength as men. He satirized the dandy and hypocrite and said that the true worth of a nation was in its working men. Men of purpose were wanted, and in proportion as a man was good he was valuable. To succeed a young man must have system and order. A fixed purpose and decision and preseverance were requisites for success. They should be strong, not only in muscle, but in moral courage. He sarcastically described chronic faultfinders, and the jealous minded, and urged them to be more Christlike and to help each other up. Onward should be the motto of the Christian church till the whole world sang God's praises. Men were wanted who were not mere machines. They should live for the future and take hold of God's strength. They could never reach the higest possibilities of their nature until they were in their proper places as God's children. The lecture was an eloquent one, the points being frequently illustrated by humorous stories and adorned with eloquent passages. Applause frequently testified the the approval of the audience.

Mr. WM. CLUXTON, in a neat speech, moved a vote of thanks to the lecturer.

Mr. J. R. STRATTON seconded the motion, which was carried amid applause, and Mr. Benson briefly acknowledged the vote. The Y.M.C.A. Quartette sang "My Lady Sleeps," and were forced to respond to an encore.

The CHAIRMAN expressed his gratification because the anniversary services had been so successful. He urged parents to take a deeper interest in Sunday school work.

The doxology was sung and the Rev. Mr. Benson pronounced the benediction.

That feeling of weariness, so often experienced in the spring, results from a sluggish condition of the blood which, being impure, does not quicken with the changing season. Ayer's Sarsaparilla, by vitalizing and cleansing the blood, strengthens and invigorates the system

"Queen Elizabeth."

Miss Claire Scott's Company presented "Queen Elizabeth" to a rather small but highly delighted audience at the Opera House last evening. Miss Scott and her leading man Mr. S. K. Cobourn won golden opinions for their highly finished acting. The support throughout was excellent and the costumes, all appropriate to the age of the play, were the most magnificent ever seen in Peterborough. To-night the bill will be "Mary Queen of Scots" and the Opera House should be crowded.

AS MUCH A SECRET AS EVER

To the Editor of the Review:—SIR—How in the world has C. B. ROUTLEY jumped into such a big slice of Wall Paper trade? Why, it seems as if one couldn't pass his store without running against a load of Wall Paper in the arms of some pleased looking customer. I'm half inclined to think there must have been lots of boodle in the Wall Paper business before ROUTLEY started it and that the people have found out that he has broken the combination. Eh? what did you think, Mr. Editor? And yet you occasionally hear of spasmodic attempts to get down to ROUTLEY'S prices, in order to head him off; but still it seems as much a secret as ever how he keeps up the run

Yours truly,
A PAPER-HANGER.

Sir Charles Dilke is living down the scandal which overwhelmed him, and talks hopefully of soon returning to his former high political position.

HOUSEFURNISHINGS.

At this season many Housekeepers are replenishing their supplies of Tableware and China. City folk are furnishing summer cottages; country folk are filling up the dressers and cupboards of the old homestead; town's folk are picking and choosing here and there. Many would be glad to know of a place whose special business is to meet these wants and desires; that aims to furnish essentially good wares at consistently low prices; that offers the choice of many different dinner services, and yet does not compel you to take an entire set of any pattern, but allow you to select each course of a new design, or buy any portion of the set you may need; that does not try to impose ideas or wares upon purchasers, and yet is ready to advise which of the many wares is most desirable and suitable; and, if wished, will make a careful selection of pattern. When you want Tablewear will you give us the opportunity to serve you.

G. T. R. Double Track.

The Port Hope Guide says that orders were received from head quarters on Saturday that the G.T.R. viaduct at Port Hope, will at once be rebuilt with cut stone abutments, for a double track. Five new abutments were erected last year, which will have to be widened to correspond with the new work. This will be a heavy job and give employment for a large number of men in town. The whole line between Montreal and Toronto will be double tracked at once.

Vance, merchant, Owen Sound, and C. F. Knight, merchant, London. Both were flashily dressed, and took their arrest very coolly. They admit their guilt and will probably plead guilty.

Baseball.

The Belleville Baseball Association has been formed with a capital stock of $2,000 in $5 shares and a professional team will be engaged. The Secretary is in communication with the three clubs in Kingston, Brockville, Ottawa, Montreal, Ogdensburg, N. Y., Watertown, N. Y., Port Hope and Peterborough with a view to the formation of an eastern international league. As far as Peterborough is concerned they might as well have saved the postage stamp, as there is not the remotest chance of a professional baseball team ever being formed here.

Shall The Party Press Go.

The Y. M. C. A. has issued a challenge to the Otonabee Canoe Club for a debate and the date of the 17th of May has been agreed on. The subject will be "Resolved, that the Party Press is Beneficial to the best Interests of Canada." Two representatives of the Canoe Club, Messrs. W. H. Hill and A. E. The Nicholls Hospital.

The following is the report of the Nicholls Hospital for April:—Number of patients in the hospital, April 30th, 1888, 5. Diseases.—Hip joint disease, 1; conjunctivitis, 1; anasarca, 1; asthma, 1; stricture, 1. Total number treated during April, 11; pay patients, 5; non-paying, 6. From Peterborough, 9; from the county, 1; from Toronto, 1. Dr. Fife attending physician for April; Dr. Halliday, Dr. Pigeon and Dr. King in attendance on private ward patients.

Won by Four Points.

Despite the wet weather there was a fair attendance at the debate by members of the Otonabee Canoe Club in Mr. Millar's rooms on Monday evening. Messrs. Clegg, Dobbin and Willis took the affirmative, while Messrs. Scott, Hill, Dixon and Millar disputed claims for the negative. The subject was the "Franchise to Women" question and the negative won by four points on the decision of Mr. Chairman Carmichael. Next Monday evening the club will discuss the merits of prohibition and find out "If is desirable for Canada at the present time." Large and expansive ideas are expected to be thrown out at this discussion. The affirmative team will be Messrs. Millar and Hill, for the negative, Messrs. Smith and Dixon.

ROSZELL IS THE CHIEF

ADAMS DEPOSED BY A VOTE OF SEVEN TO SIX.

After the Liveliest Town Council Meeting held for many Months—The other Business Transacted at a Lengthy Session.

A regular meeting of the Town Council was held on Monday evening and as has been the case lately, the chamber was filled with spectators, drawn thither by the chief of police matter.

Mayor Stevenson presided, and Councillors Hartley, Kendry, Langford, Douglas, Yelland, Moore, Hall, McNeil, Kelly, Winch, Davidson and Cahill, a full board, were present.

THE LATE THOMAS WHITE.

The usual routine of the Council was changed to permit of a resolution of condolence being put.

Moved by Councillor MOORE, seconded by Councillor CAHILL and Resolved:

That the Council of the Town of Peterborough place on record, an expression of its sincere regret at the sudden death of the Honorable Thomas White, M.P., Minister of the Interior and Superintendent-General of Indian Affairs, for Canada, who at one time was a member of this body and for upwards of fifteen years a citizen of this town, always taking an active and prominent part and interest in everything that pertained to its welfare and prosperity, whose charming personal qualities endeared him to all who had the pleasure and profit of his intimacy, and whose great energy of character, untiring devotion to his country and brilliant ability found a fitting recognition in his elevation to the highest councils of the Dominion, and this Council would extend to his sorrowing widow and family its deep sympathy in the great affliction that has fallen on them.—arried unanimously.

Councillor MOORE in introducing the motion referred in feeling terms to the late Hon. Thos. White. He was, said the speaker, a man loved in his private capacity and honored by all in the high position he occupied in the councils of his country. The deceased gentleman came to Peterborough about thirty years ago and from the first it was seen that he was destined to take a leading position among his fellow citizens. He had great ambition and his abilities were recognized where he had a wider sphere to display them. He rose to occupy almost the highest position in the gift of the crown, and those who knew him were fully aware that the Thomas White of 1888 was the same kind, approachable man that he was in 1853. The position he occupied was the most laborious in the cabinet, but he had proved himself fully capable to cope with it. He was respected throughout the Dominion by friends and foes and by all classes and creeds. His talents as a debater and a legislator were fully recognized and the masterly tribute paid to his memory by the Hon. Wilfred Laurier, leader of the Opposition, expressed the views of all. He was a sincere friend and always did his best to advance the interests of his country. He had no foes in the true sense of the word. The resolution he presented with pleasure mingled with regret and in conclusion he suggested that a copy of it be engrossed and forwarded to the sorrowing widow.

Councillor CAHILL, in seconding the resolution, said he did so with emotion. He had known Mr. White for twenty-five years and the first time he heard him speak he made an impression that had left its mark on his heart to the present day. The motion was not by any means a political one and he knew that the Reform members of the Council were just as sincere in their regret at the great loss sustained by the country, as were the Conservatives. The exemplary life of the deceased was one well worthy of being followed by all young men. The deceased had no bed of roses. Though defeated time and again his indomitable pluck and energy carried him through and he finally attained the high position that his great abilities entitled him to occupy. He felt confident that the resolution as read expressed the sentiments of the people of the Town of Peterborough, where the deceased was so well known and highly respected.

The MAYOR said he had intimate relations with the deceased and personally he felt that he had lost his best friend in Ottawa. He looked to him at all times for advice and always found him willing to give it. He was always the same Thomas White, there was no change in his sentiments or actions and every member at Ottawa regarded him in the same light, and there was but one opinion expressed and that was that Thomas White was bound to be Premier of the Dominion of Canada but for his untimely death. The Town of Peterborough owed much to the deceased. It was mainly owing to his pen and effective speeches that the railway was constructed to Millbrook, and when he was a member of this Council he prepared and introduced the by-law separating the town from the county, one of the best moves ever made and by which the town had saved a large amount of money. Deceased had great natural ability and a great memory and he was always prepared to do his duty fairly, faithfully and promptly. When he came into office, the Indian Department was the cause of much trouble, but Mr. White visited the Indians personally and the policy recommended by him was adopted and carried out with great success. By his death the country had lost one of her most eminent sons and one whose place will not be filled for many years to come. His death was a sad blow to the country at large. He lived and died a model man and the example he set should be followed by all young men.

—The report was adopted.

EARLY CLOSING.

A by-law to provide for early closing for the barbers, shoe dealers, hardware and tinware dealers was read a first time, after Councillors Moore and Langford had asked that it be referred to a committee to consider the question, on the ground that the members of the Council were not conversant with the law. Councillor Davidson said the Town Solicitor had prepared the by-law after securing a copy of the act.

Councillor DOUGLAS was called to the chair and the by-law read a second time.

Ex-Councillor MCNAUGHTON asked to be heard and after some crossfiring and hissing, he was permitted to speak. He said he was a shoe dealer, made several thrusts at Councillor Moore and claimed that as he did not keep in the centre of the town, the Council could not close him up. He did his business at night and expressed his opinion that the law applied only to large factories. He gave Mr. Mowat great credit for passing the law, but kicked hard against closing.

Councillor LANGFORD pointed out that as the petitions were properly signed the Council had no option but to pass the by-law.

The by-law was given its three readings and passed closing the stove, hardware and tinware, and shoe dealers every night except Saturday, at 7 o'clock p. m. and the barbers at 8 o'clock p. m. each evening except Wednesday and Saturday, the by-law to take effect on the 15th of May next.

THE DEADLOCK BROKEN.

The Council then went into committee of the whole on the appointment of police and other officers, with Councillor Douglas in the chair.

For chief constable the names of Geo. J. Roszell, of St. Catharines, at $700 and R. H. Adams at $550 were proposed.

There was no discussion whatever and the vote stood six to six, without the Chairman. The name of Adams was first voted on and lost. The name of Roszell was then proposed and by the vote of the Chairman that gentleman was chosen, the vote being taken amid an impressive silence and the result received with slight applause from the audience.

Councillors Davidson, Hall, Yelland, Moore, Kendry, Hartley and Douglas voted for Roszell and Adam's supporters were Councillors Cahill, Winch, Kelly, McNeil, Langford and the Mayor.

When the question of appointing policemen came up, Councillor Moore advocated supplying the police with clothing and engaging them by the day.

It was proposed to pay Constable Adams $550 per year and the others $450, the Council to supply the clothing. Councillors Kendry and Hartley favored making the salaries the same. Councillor Davidson said Constable Adams acted as Market Inspector, etc., and deserved the additional hundred dollars. Councillor Kendry asked the Council to support the new Chief and give him full control of the force.

After a vote R. H. Adams was appointed a constable at $550 per annum, he to supply his own uniform. Joseph Stewart and Charles McGinty were named as the other officers at $450 per year, they to supply their own uniforms. Robert Pope was appointed Street and Bridge and Building Inspector at a salary of $600 per annum, and Mrs. Grace Elliott, janitress at $3.00 per week.

The audience then filed out of the chamber.

On the third reading Councillor Cahill moved a resolution substituting the name of R. H. Adams for that of Geo. J. Roszell, as chief of police.

Councillor MCNEIL said that Roszell was forced to resign from the St. Catharines force and would not be taken on it again.

Councillor KENDRY did not believe that such was the case and asked for the proofs.

Councillor MOORE was sorry to hear such statements and thought it rather strange that they had not been made at an earlier date.

Councillor McNeil rose to speak, but sat down upon being called to order. After several others had spoken briefly, Mr. McNeil was allowed to explain. He stated that Roszell was compelled to resign by the chief for conduct not at all becoming a police officer.

Councillors KENDRY and HARTLEY rose in their places and denied the statements in strong language and for a short time the situation was decidedly warlike, but Councillor Cahill arose and poured oil on the troubled waters, with the effect of calming them and restoring the members to good humor once more. He praised Adams and thought he was not fairly treated.

Nearly every member around the board wired in and had their little say, but it was simply a repition of the remarks heard during at previous meetings.

Councillor DANIDSON said if Councillor McNeil could prove the charge made, he would not vote for Roszell.

Councillor MCNEIL said he had a letter with two good signatures to it, proving his charges, and he offered to allow Councillor Davidson to see the letter, but he was not prepared to show it or read it to the Council.

The MAYOR gave a totally different version to that given by Councillor McNeil, on the authority of Mr. C. J. Rykert, M. P., of St. Catharines.

On a division the by-law was read a third time and carried, the vote being as given previously.

LEFT OVER.

The matter of granting a free carters' license to Wm. Craft was left over until the next meeting, as he is not at present a resident of the town.

MAY 24TH.

Col. J. Z. Rogers on motion was heard. He inquired if the Council had invited the Royal Grenadiers to come here on May 24th.

The MAYOR said the Council had not invited the Grenadiers and he did not do it personally. There was an invitation sent up to Toronto, he understood, but he had nothing whatever to do with it and knew nothing about it.

On motion the Mayor was instructed to invite the Queen's Own Rifles or the Grenadiers, of Toronto, to visit Peterborough on the Queen's Birthday, the expense not to exceed $100.

ANOTHER HORSE.

Councillor MCNEIL brought up the matter of engaging another horse for the Fire Department for five months for the sum of $65. It was left over.

ONE DAY EARLIER.

A motion was carried to pay the Street and Bridge pay lists on Friday, instead of Saturday.

NO GO.

A motion to pay R. H. Adams the sum of $100 for his services as Acting-Chief during the last year, was put and lost.

The Council adjourned for three weeks at 11.25.

Brevities.

Spring Millinery

I wish to announce to my lady friends that my spring stock is now complete and I am prepared to attend to the wants of my old customers, and as many new ones as will favor me with their patronage. As my stock has been selected with great care you will find it will compete favorably with the largest houses in the trade. In addition to the Millinery I have added a nice assortment of ladies' and children's underwear, at low prices. Don't forget the place, one door south of Sailsbury's Book Store.

It Is Absurd

For people to expect a cure for Indigestion, unless they refrain from eating what is unwholesome; but if anything will sharpen the appetite and give tone to the digestive organs, it is **Ayer's Sarsaparilla.** Thousands all over the land testify to the merits of this medicine.

Mrs. Sarah Burroughs, of 248 Eighth street, South Boston, writes: "My husband has taken Ayer's Sarsaparilla, for Dyspepsia and torpid liver, and has been greatly benefited."

A Confirmed Dyspeptic.

C. Canterbury, of 9441 Franklin st., Boston, Mass., writes, that, suffering for years from Indigestion, he was at last induced to try Ayer's Sarsaparilla and, by its use, was entirely cured.

Mrs. Joseph Aubin, of High street, Holyoke, Mass., suffered for over a year from Dyspepsia, so that she could not eat substantial food, became very weak, and was unable to care for her family. Neither the medicines prescribed by physicians, nor any of the remedies advertised for the cure of Dyspepsia, helped her, until she commenced the use of Ayer's Sarsaparilla. "Three bottles of this medicine," she writes, "cured me."

Ayer's Sarsaparilla,

REVIEWS.

THE CANADIAN METHODIST MAGAZINE.—The current number has three admirably illustrated articles. The first of these describes—one of the oldest and most picturesque railways in America—the "B. & O." route over the Alleghanies. The engravings are of singular excellence. The second article brings us nearer home. It gives an account of the old town of Niagara, with its stirring historic associations. The engravings of the Old Fort, of St. Mark's Church—the oldest in Canada save one—of the view from Brock's Monument, and of the mode of constructing the new Cantilever Bridge, are full of interest. The Editor continues his description of the Province of Nova Scotia, recounting the pathetic associations of "Grand Pre, and the martial memories of Annapolis and Fort Lawrence. The Rev. S. F. Rose contributes a charming study of one of the nobelest minds France ever produced—Jacqueline Pascal—"Sister and Saint." The persecutions and heroism of the sisters of Port Royal constitute one of the most touching episodes in religious biography. The Rev. Hugh Johnston continues his tender and beautiful tribute to the memory of his beloved and honored friend, William Morley Punshon. Mrs. Barr's story of Southern Methodism increases in absorbing interest as it proceeds.

Among the interesting features of the April issue of North's Philadelphia Musical Journal is an article headed "Music for Masses," which gives an insight to a method of musical notation which can easily be acquired by any person, thus making musical education as universal as the reading and writing of our language. Other articles of interest to musical people included in this issue are "Hints to Ballad Singers," No. 3, by Emma C. Hewitt; "Singing Legato." No. 2, by John Howard, and a Musical story "Signor Gardelli's Chorister," by Mable Eugenie Moore, and the usual instalment of musical news, and discussion of other subjects benefical to teachers, pupils and all musically inclined people. In the May issue of the Journal the publishers will open a Band and Orchestra Department, which will add largely to this publication's field of usefulness, and to introduce the Journal among the various organizations of this character. The publishers will send it three months free to all band and orchestra leaders who will forward address and name of their organization. Address, North's Musical Journal, 1308 Chesnut-st, Philadelphia, Pa.

THE CENTURY.—In the Century Magazine for May, Mr. George Kennan begins his articles on "Siberia and the Exile System," which promise to be of absorbing interest, the author having visited the places and witnessed the scenes described. "Sheriff's Work on the Ranch" relates exciting incidents of Texan life. The interesting papers on "Abraham Lincoln" are continued, and "The Personality of Lee xill," with a full page portrait, will be read with interest. "The Chances of Being Hit in a Battle" is a careful study of the battles of the United States civil war with a view to answering the question. "The Church of England in the Colonies" will be welcomed by others than churchmen. "Foods and Beverages" is a useful scientific examination of common foods. "The Locomotive Chase in Georgia" is an exciting incident of the war well told. The interest in "The Graysons" is not allowed to lag, and there are shorter fictions, one being by Henry James. The poetry and departments of the number are excellent. The engravings could not be surpassed. The whole number is an excellent production.

SCRIBNER'S MAGAZINE for May comes to hand fresh and tempting, filled with matters of rare literary excellence. "In the Steamers Track," is a delightfully illustrated recital of the dangers that the fraternity of pilots run into when skimming about the ocean awaiting the arrival of the big ocean steamers off New York harbour. "Modern Explosives" has a smack of the scientific about it that will interest all who wish to know more of the nature of the big forces that play havoc in our mines and modern engineering works. The illustrations are well executed. "Salmon Fishing on the Restigouche" outlines the possibilities for sport to be found in a Canadian salmon river. A charming essay on Alexander Pope, with a deal of other matters, make up a satisfactory number. The publishers announce articles of very special interest for the June number and issues following.

When Baby was sick, we gave her Castoria,
When she was a Child, she cried for Castoria,
When she became Miss, she clung to Castoria,
When she had Children, she gave them Castoria,

ENNISMORE.

Correspondence of the Review.

BIG WORK.—On last Saturday week Mr Dayell sawed with his circular saw thirty cords of wood for Mr. Perdue in six hours, and on the following Monday sawed Mr. Calvert forty cords in less than eight hours. Mr. Deyell says he can do big work if the timber is given fast enough to him. He got it fast enough on Saturday and Monday, you bet.

NEARLY DROWNED.—On Saturday evening as James Gifford was on business to Mr. Kennedy's, of Emily, he crossed over an old bridge that is built over a creek on the farm. In returning home that night at about ten o'clock, whilst crossing the bridge it gave way, the string pieces being old and rotten, and landed James into about six feet of water. He had a hard struggle for the shore and had to walk two miles and a half in his wet clothes before he reached home. He has received a severe cold from the effects of the wetting he got. We hope to see James in good health as soon as possible.

Advice to Mothers.

Mrs. Winslow's Soothing Syrup should always be used when children are cutting teeth. It relieves the little suffer at once; it produces natural, quiet sleep by relieving the child from pain, and the little cherub awakes as bright as a button." It is very pleasant to taste. It soothes the child, softens the gums, allays all pain, relieves wind, regulates the bowels, and is the best known remedy for diarrhœa whether arising from teething or other causes 25 cents a bottle. Be sure and ask for "Mrs. Winslow's Soothing Syrup," and take no other kind.

ALBANY, April 30.—One thousand five hundred people witnessed the game here to-day between the Torontos and Albanys. The visitors took the lead in the beginning and defeated the home team in an easy manner. Pendergrass was placed in the box for the home team and was pounded so roughly that Foreman was substituted, after which time wind-sawing on the part of the Canucks was more frequent. Score:

Hamilton's Strong Team Again Defeated.

SYRACUSE, April 30.—The Stars gained a second victory over the strong Hamilton team to-day by hard hitting at the right time. The Hams were not so successful in fortunate hitting. Singles by Wright and Beard, a wild throw by Andrews and a two-bagger by Higgins gave the Stars three runs in the first inning. One was added in the fourth on W. Higgins' single and Wright's two-bagger, and one in the seventh on Ely's single, two sacrifices and Marr's hit. Hamilton scored one in the third on Green's two-bagger and Knight's single, two in the sixth on Wood's hit, Vimer's base on balls and two wild pitches. Score:

Batteries—Higgins and Walker, Green and G. Vimer and Purvis. Umpire: Sullivan.

Troy Beaten by Buffalo.

TROY, April 30.—Nearly 2000 people witnessed the game to-day between the Buffalos and Sullivan's "Troy Terrors." The latter bunched their runs, failing to score except in the seventh inning, when, by steady hitting, which they failed to perform at any other place in the game, they got in five runs. The visitors from the head of the canal, except in this inning, played an even game and had it well in hand from the start. Score:

Batteries: Fanning and Roldy; Haddock and Dealey. Umpire: Hoover.

The Tecumsehs' Second Defeat.

ROCHESTER, April 30.—The Rochesters defeated the Londons to-day in the second game played at Culver Park this season. The weather was raw and cold and the players could not get themselves in good working condition. The game was long and though interesting at times did not create much enthusiasm. The only special feature of the game was the infield work of both teams. Errors were few, considering the cold weather. About 500 people were present. Score:

An International Scull Race.

Mr. McNabb, a gentleman well-known in Halifax as a master printer as well as a lover of boating, met J. A. St. John, backer of Jake Gaudaur, recently in Boston and talked with him in reference to the possibilities of a four-oared shell or fisherman's race between a Halifax crew and any four in the world. Mr. McNabb stated that a crew of Haligonians could be placed on the water and backed against an American crew for any sum within reason up to $3000 and as high as $5000 a side. One of the conditions, however, is that the race must be rowed in Halifax waters; but, whether in Bedford Basin or Halifax Harbor he did not say. Mr. St. John informed him that he had no doubt an American crew could be organized to meet the fishermen, and that he, personally, would use his best endeavors to bring about the proposed match, and would back the Americans.

Offers to Back Sullivan.

BOSTON, April 30.—The Herald to-day received from two wealthy gentlemen separate offers to back Sullivan for $5000 against Kilrain. Both offers were made without consultation with either Sullivan or Phillips, his manager. One of the gentlemen announced as Sullivan declines to recognize Kilrain's title to the championship or the value of the Richard K. Fox belt as a token thereof, he would be backed against Kilrain for any amount from $5000 to $10,000 for a fight to decide the relative merits of the men.

The Torontos Win in Ireland.

BELFAST, April 30.—A lacrosse match to-day between the representatives of County Down and the Canadian team from Toronto resulted in favor of the Colonials by a score of four goals to one.

Spots of Sport.

There is to be another horse-shoeing contest at Buffalo, with M. J. Dunn of Detroit and John Campbell of Buffalo as contestants. Each has deposited $250 for a match for the world's chapionship in the Main-street Rink on May 12.

Al. Hamm and John McKay, the professional oarsmen, arrived at Boston by the Savannah Line steamship yesterday from their Southern tour. Both men are in excellent condition.

The work of rebuilding the clubhouse of the Hamilton Yacht Club has begun.

The agent of Spalding, Merrick & Co. of Chicago presented a quantity of chewing tobacco to the player, of each team, making the best batting average in the game at Syracuse on Saturday. Rainey and Beard were the lucky ones.

STORIES ABOUT ANIMALS.

It is said that the two pet alligators that were presented to Mrs. Cleveland during her Florida tour are to be kept in the reception room at the White House, and trained to shake hands with visiting statesmen.

Millions of jack rabbits migrated from Oregon to Idaho during the recent cold spell in the far northwest. They crossed the frozen waters of the Snake river in hordes, and presented a wonderful spectacle to the people who saw them.

A New Bedford man has a cat with a remarkable fondness for sliding on the ice. When it finds a likely bit of ice it runs to get a good start, and then, throwing itself on its belly with fore and hind legs extended forward and backward, slides daily again and again until surfeited with the fun.

In Brief and to the Point.

Dyspepsia is dreadful. Disordered liver is misery. Indigestion is a foe to good nature.

The human digestive apparatus is one of the most complicated and wonderful things in existance. It is easily put out of order. Greasy food, tough food, sloppy food, bad cookery, mental worry, late hours, irregular imbits, and many other things which ought not to be, have made the American people a nation of dyspeptics.

But Green's August Flower has done a wonderful work in reforming this sad business and making the American people so healthy that they can enjoy their meals and be happy.

Remember:—No happiness without health. But Green's August Flower brings health and happines to the dyspeptic. Ask your druggist for a bottle. Seventy-five cents.

LATEST MARKET REVIEW.

TORONTO, April 30.

Receipts at Chicago on Saturday by the car lot were: Winter wheat, 62; corn, 443; oats, 197.

The Northwestern Miller's report of the crop condition is not at all bright. It says:

Estimated receipts of hogs at Chicago to-day are 21,000; official yesterday, 10,222; shipments, 3882; left over, about 4500; cattle receipts 10,000; market quiet.

BEERBOHM'S REPORT.

Beerbohm reports as follows to-day: London—Floating cargoes, wheat quiet and firm, corn nil; cargoes on passage, wheat and corn quiet and firm. Mark Lane—Wheat a turn dearer, corn firm; flour a turn dearer; spot good; No. 2 club California wheat, 30s 6d, was 30 3d; present and following month, 28s 9d was 29 6d; spot good; Danubian corn 22s, was 22s 6d, prompt 24s 3d, was 24s 9d; do. good mixed American corn, 27s was 26s 9d. Spirit Minn. flour 25s, was 23s 1d. French country markets firmer by dearer. Paris—Wheat and flour firm, Weather in England spring like. Liverpool—Spot wheat firm, 5s 5d, unchanged; peas 5s 7d, 1d dearer.

LIVERPOOL MARKETS.

Liverpool reports wheat firm to-day, with demand fair and holders offering moderately; corn firm and demand fair. Quotations: Spring wheat 6s 7d to 6s 8d, red winter 6s 8d to 6s 9d, No. 1 Cal. 6s 6d, corn 5s 5d, peas 5s 7d, pork 67s 6d, lard 44s, bacon, 35s 9d to 41s 3d, cheese 58s 6d.

OSWEGO BARLEY MARKET.

Oswego reports barley weaker and unsettled to-day, with No. 2 extra Canadian held at 73c. No. 1 Canadian at 75c, and No. 1 bright Canadian at 78c.

THE EGG MARKET.

The local demand for eggs is still well supplied. Commission houses quote at 12c.

THE BUTTER MARKET.

The supply of butter has, during the past few days, been more than equal to the demand, and it will continue so till the cheese factories and creameries get going. The commission men are not anxious to buy till the market gets settled.

The Fall Wheat Not Promising.

A gentleman who has been over a good deal of the railroads during the past week states that as far as his observation from the car windows go the winter wheat throughout Ontario is not much more than half a crop. Many fields are badly winter-killed, and in all of them there are large patches of bare ground, which not even the genial rains of spring will be able to restore.

PARK LOT

FOR SALE.

TENDERS

Will be received up to the 15th May, instant, by the undersigned, for the purchase of the whole or any portion of Park Lot Number six, in Township Lot Number Thirteen, in Concession Thirteen of the Township of Monaghan, in the County of Peterborough, now incorporated in and forming part of the Town of Peterborough, containing TEN acres more or less.

This lot, better known as the "R. C. Church Lot," is the most desirable property that has been offered for sale in Peterborough for many years. It has a frontage on Park-st. of 256 feet, adjoining Mrs. Gilmour's residence; a frontage of 1914 feet on Gilmour-st. and the same on the Gravel Road, continuation of Charlotte-st.

Gilmour-st. is the most beautiful street in the Town for private residences, and being within ten minutes walk of the Post Office and Market Square, this sale affords to intending purchasers an opportunity of procuring a beautiful and convenient site for a home.

TERMS:—Ten per cent. cash; twenty per cent. additional in 30 days from acceptance of the Tender, and the balance will be allowed to remain on mortgage for such term, not exceeding ten years, as the purchaser desires with interest at 6 per cent. per annum.

BUILDING LOTS

such as No's. 1, 2 and 3, noted below, are not like merchandise when sold. Locality and situation cannot always be replaced. There are many persons living in distant parts of the Town and Ashburnham, to whom a residence within five minutes walk to any of the churches, post office, market and principal stores, would be a great boon—to such we would say, do not delay—come to the office and discuss the matter. We may buy from you or sell to you.

YOU HAVE SOMETHING TO GAIN AND NOTHING TO LOSE.

1. That beautiful situation on Brock-st., east of and adjoining Mr. Nugent's new residence, so high above all surroundings, so central, so retired, and yet so convenient for all purposes. A most suitable place for a doctor's office and residence, or for any person wishing to reside near his office or business. Front Lot is 60x120 feet to lane, rear Lot 65x124 feet with an inexhaustible supply of first-class water. 30, 35 or 40 ft. frontage can be had off this Lot with stable accommodation if desired.

2. This is an extremely Fine Lot with about 75 ft. frontage on Water-st. by 115 feet deep. It is an east front facing St. Paul's church and will be sold in one or two Lots. Act promptly.

3 Is a Fine Lot on Stewart-st., 87x115 ft, opposite Messrs. Hall and Sheppard's beautiful mansions, protected on the north by the Chief of Police and charmed on the south by a Professor of Music.

4. In addition to the above we have Good Lots in north, east, south and west parts of the Town, and for Large Lots at low prices we would call attention to the Ludgate, Carlisle and Toronto Real Estate Investment Coy's suburban additions, where good value can be had for small investments.

For Houses and Lots in all parts of the Town, Ashburnham and Auburn we have variety and value to suit any reasonable buyer.

We have Garden Lots from one to 10 acres for sale or to rent. Also several Farms. One Large Farm with Good Buildings, Fall Crop and Ploughing to rent cheap.

All are invited to call at our office or write for further particulars.

HAMILTON PAINTERS.

A Little Difficulty Between Masters and Men—Arbitration Award.

HAMILTON, May 1.—The arbitrators in the case of the masters, the City made their award to-day, which was in favor of the city on every point.

A little difficulty between the master painters and the men came to a head this morning. The men ask for 20 cents an hour for all men, while the bosses offer 22½, 20 and 17½ cents an hour, according to ability. The men decided not to accept the offer, but quit work this morning if 20 cents an hour all round was not given. Very few union men have been employed since the lockout of a month or more ago, most of the bosses going on with the non-union men they then secured. The union has strong financial backing, and the men will receive pay for all the time they lose.

The exports from the consular district of Hamilton to the United States during April were $38,102.

The receipts at the inland revenue office here for the past month were $37,152, an increase of $1580 over April, 1887.

Joseph Mittenth, a peddler, was arrested this morning for stealing twenty-eight yards of carpet from Thomas Armstrong of the Franklin House about a week ago. A section of it was found in a rag shop where Mittenth had sold it.

The police are looking for a young woman who is masquerading about in the outskirts of the city dressed in men's clothes.

At the Police Court this morning on the charge of stealing Luella Mortimer's pocket-book, Joseph Armstrong was discharged and William McCallum sent for trial.

Detective Reid went to Toronto this morning and brought to the city Thomas Thayer, who is wanted on a charge of stealing several pairs of boots from Mr. Oliver's shop, Bay-street north, about two weeks ago.

FATALITY AT SUTTON.

Two Men Killed by a Falling Pile Driver—One of the Victims a Torontonian.

SUTTON, May 1.—An accident occurred at the new bridge being built here to-day, by which Mr. Myers, the father of Contractor A. Myers of Toronto, and Thos. Barker lost their lives. Whilst moving the pile driver with the hammer, which weighs about a ton, near the top of the derrick, the whole thing fell over. Barker's head was caught between one of the uprights and the top of a pile and crushed to a jelly. Mr. Myers was struck on the head and had both legs broken. Both were killed instantly. Baker leaves a wife and six small children. Mr. Myers' remains will be taken to Toronto by to-morrow morning's train.

M.E. General Conference at New York.

NEW YORK, May 1.—The General Conference of the Methodist Episcopal Church opened its session this morning in the Metropolitan Opera House. The bishops occupied seats on the stage, the galleries were crowded with ladies and gentlemen and the boxes with wives of delegates and their friends. The secretary announced the election of 238 ministerial and 175 lay delegates. Among the lay delegates are six women and there are also six women among the reserve delegates. Every state and territory in the Union is represented, and there are delegates from Canada, Mexico, China, Japan, Africa, Italy, Germany, Sweden, Norway, Switzerland and India. David Monroe was elected permanent secretary. A committee on contested seats, to report to-morrow morning, was appointed, the leading questions to be settled by this committee being the admission of women as delegates and the admission of delegates from foreign countries.

Little Loudon's Criminal Budget.

LONDON, Ont., May 1.—A. W. Oliver, vinegar manufacturer, was arrested to-day on a warrant issued at the instance of Edgar Weld, charging him with obtaining $1500 from him by false pretences. Oliver was subsequently admitted to bail.

The Woodland Cemetery investigation was proceeded with at the Court House this afternoon. Wm. Buckle, a former employe of the cemetery, testified to the Beddome, Lamb and McCroskie coffins being buried without shells. The shells were taken to the old St. Paul's Cemetery, coffins put in them, carted back to Woodlands, the coffins taken out and buried and the shells returned for a fresh instalment. This was done, he said, under the orders of Elliott or his son.

Detective Murphy returned to the city last night from Guelph, having in his custody John Mc Scribner, who is charged with defrauding a Westminster man out of $110 last September.

CAPITAL CHIT-CHAT.

Miss Cockburn's Illness—The Supreme Court—The Railway Committee.

OTTAWA, May 1.—Mr. and Mrs. Cockburn have been very anxious the past two days about the health of their daughter who is attending school at Brighton, Eng. Miss Cockburn was thought to be so seriously ill that her mother got ready to go to England. A cable to-day, however, announces the young lady's restoration to health.

At the opening of the Supreme Court this morning Chief Justice Ritchie, Mr. Justice Strong, Mr. Justice Fournier and Mr. Justice Gwynne took their seats. The Chief Justice intimated that the court was prepared to render judgment in several appeals, but as there was no quorum they could not proceed. The sitting of the court was therefore adjourned until June 13 next, when it is possible that business will be continued.

A "Manual of the Constitutional History of Canada," by J. G. Bourinot, LL.D., clerk of the House of Commons, will be issued from the press of a Montreal publishing house in the course of a few days. It will also contain a brief digest of important judicial decisions on questions of legislative jurisdiction.

The Railway Committee this morning reported the amended bill to incorporate the Upper Ottawa Improvement Company. The bill empowering the Central Ontario Railway to transfer its western terminus on the Canadian Pacific Railway from Callendar to Sudbury and to increase its bonded debt from $20,000 to $30,000 per mile was also reported.

The Minister of Justice gave a large dinner party to-night, at which the lady guests predominated.

ONTARIO'S NEW MINISTER.

CHARLES DRURY, M.P.P., GETS THE AGRICULTURAL PORTFOLIO.

The Appointment Regarded as a Good One—Sketch of the Honorable Gentleman's Life—He Preaches in the Methodist Pulpit at Home.

TORONTO, May 2.

"Common benefits are to be communicate with all but peculiar benefits with cheibe," saith the wise man. Verily, wealth and honors are not showered on men equally. Charles Drury was the choice at yesterday's meeting of Mr. Mowat's Cabinet and therefore he will come in for the peculiar benefits —which are: $4000 a year and a portfolio.

HON. CHAS. F. DRURY.

This is the picture of the new Minister of Agriculture. It will be seen that he is amply handsome and that he wears a serious and rather intellectual mien He is bulky in figure, plain in dress, listens patiently when you talk to him and then answers. Mr. Drury reminds one very much of a Quaker. His quiet decorum and seriousness speak the "thee" and "thou" to anyone who does not know him.

His business is farming. He and his brother dwell together in friendly unity on a four hundred acre farm at Crown Hill, Simcoe county, and pursue their calling thriftily. Mixed husbandry is their style of farming.

The least events often turn the course of a man's life. Mr. Charles Drury, M. P. P., M. of A., but for a little circumstance, might now have been signing his name Charles Drury, M.A., D.D. He was a slender youth at 20 and religiously disposed. He thought of entering the Methodist ministry and went some distance in his course. But a cough intervened and he was obliged to engage in a more bracing pursuit. Even now, in his 43rd year, his inclination for the pulpit is still with him. He frequently ascends the Methodist pulpit near his home, and when duty calls, travels over the country to do service for other denominations.

As a speaker he may be considered a success, as when he rises to address the House the members all listen attentively; but his voice is husky, unless he keeps a glass of water handy.

He has been a widower since 1878, and his family consists of one son.

His full name is Charles Edward Drury, but he is contented with signing only the front name.

Charles Drury was born at Crown Hill, a village five miles from Barrie, on Sept. 4, 1844. He went to the Public School there when a boy and continued in attendance till he was 18 years old. At that time he went to the Barrie High School, then in high fame, being under the principalship of the Rev. Mr. Checkly. When he reached his majority he left the High School and turned his attention to farming, which pursuit he has been following ever since.

He began quite an eventful political life when in his 25th year. He was at that age made one of those all-powerful individuals—a school trustee. In 1875 he entered the lists for municipal honors, and was elected as councillor for the Township of Ora. Then he grew bolder. In the following year he contested the reeveship of that township with Mr. J. C. Steele, who had held the office for 17 years. Mr. Steele was elected by 60 majority. The next year, however, undaunted, he tried again and was elected reeve over Mr. Steele by precisely the same majority he was defeated by. He has been reeve of the township ever since. In 1882 he was a candidate in the Reform interest as representative of West Simcoe in the Dominion Parliament. Mr. Dalton McCarthy, his opponent, was elected by 249. In October of the same year he turned his attention to Provincial politics, contesting East Simcoe with Dr. Slavin of Orillia as representative in the Ontario Legislature, and this time he was elected by 221. On the dissolution of the House in 1883 he was again a candidate in East Simcoe as representative in the Local House. He was elected over Mr. H. H. Thompson by 23. The usual result, in the case of a close election, came—an election trial. The judges in the lower court disagreed on his cause, and the case was carried to the Court of Appeal. This court set aside the election, but held that they had no power to report the decision of the court to the Speaker of the Legislature. The judges in the court below, in their turn, held that it was not their duty to report the decision of the Court of Appeal. Hence, the voiding of the election was never reported and Mr. Drury's advisers maintained his right to take his seat. This advice was not taken, and the matter was finally settled by Mr. Drury's accepting a nominal appointment under the crown which vacated the seat. He then resigned the position and in the election which followed was successful in increasing his majority to 117. Owing to these late circumstances the constituency was not represented till 1885. In the general election in 1886 he was also returned, his majority being 214. He has held the constituency ever since.

Mr. Drury was elected in 1878 to represent agricultural district No. 13, consisting of Algoma, Parry Sound, Muskoka and Simcoe in the Council of the Agricultural and Arts Association. In 1887 he was chosen President of the Association and has been re-elected to the Council without opposition three consecutive terms.

In 1881 he was elected a director of the Canadian Fruit Growers' Association, but in 1884 he voluntarily retired. He has been one of the auditors of the Association since his retirement from the Board.

He has served a number of years as Director on the West Simcoe Agricultural Society's Board of Directors, and is at present a Director of the joint stock company which erected the exhibition buildings in Barrie.

The Dominion Grange Insurance Society has claimed him as Director ever since that society was instituted.

Italy's Crown Prince Wounded.

ROME, May 1.—During the progress of an artillery experiment at Fort Tiburtina to-day, a dynamite shell exploded and the Prince of Naples, the Crown Prince of Italy, was slightly wounded in both thighs. He was able to return to the Quirinal attended by Dr. Saglione. Gen. Doncieux, commander of the Rome division of the army, was also slightly injured. Col. Benedictis and Col. Pastore received severe injuries, and Capt. De Lorenzo and Capt. Miel day were dangerously hurt.

The Doyle Murder Case.

HALIFAX, N.S., May 1.—Judge Townshend delivered the decision to-day in the Doyle murder trial, in which the youth William Preper was found guilty, reserving motions and making it a Crown case reserved, the grounds being technical ones. The reserved case will probably be argued next week before the full bench of the Supreme Court.

FROM THE GERMAN CAPITAL.

Praying for the Emperor's Death—Dr. Bergmann's Retirement.

BERLIN, May 1.—After the Emperor arose yesterday he spent some time at an open window, and was refreshed by the balmy air.

A sensation has been caused by a report that orthodox preachers in several Prussian towns are praying that the Emperor may have an early release from his sufferings.

The Empress has received a letter from Queen Victoria, in which Her Majesty expresses great gratification at the cordial reception accorded to her by the people of Berlin.

Prof. Bergmann wrote to the chief court marshal, requesting to be released from attendance on the Emperor, on the ground that it was best that the patient should not be treated by two physicians unable to agree. The Emperor approved of Prof. Bergmann's course, and the latter withdrew from the case.

The Emperor was somewhat feverish this morning. He recovers his strength very slowly.

A bulletin issued this morning says the Emperor passed a less satisfactory night. His fever has slightly increased, but otherwise there is no material change in his condition.

Dr. Mackenzie changed the tube in the Emperor's throat this afternoon in the presence of his colleagues. This evening the fever rose to nearly 40 degrees Celsius. The pus, which is thickening, is being discharged with difficulty.

BISMARCK'S DAILY LIFE.

His Diet and Exercise—The Uniform that He Wears—Seen at His Best.

Bismarck sleeps from six to eight hours, and rises very early in the morning. He lies in a small, plain military bed of the pattern used in army camps. The mattress is almost as hard as a board, and the covering at this time of the year consists of a sheet and a woolen blanket. He eats a light breakfast, a substantial dinner at noon, and takes a biscuit and a single glass of wine before turning in at night. Like the late Emperor the Chancellor takes constant exercise walking in the park back of his palace or occasionally in the streets of Berlin. In the latter case he is, of course, always followed by large crowds. It is a source of great disappointment that the swollen veins in his legs will prevent him from ever mounting a horse again. His fondness for dogs knows no bounds. He has four in the palace, Hare, his favorite, being an enormous thoroughbred Danish wolfhound.

Bismarck is guarded by detectives at all times, and his palace is constantly watched by policemen in citizens' attire. His life has been attempted several times.

His temper is not always a thing of level and complacent beauty by any means, and when he loses it his language is picturesque. He speaks all important languages. His Russian is wonderfully skilful for a foreigner. The Chancellor writes with broad grey quills, which he uses up at a great rate when writing rapidly. He always wears his uniform as General of the Brandenburg Cuirassiers, consisting, in undress, of a dark military frock coat with a yellow collar and braid and broad stripes on the trousers. His full-dress uniform is more showy and is immensely becoming to the Prince. It consists of a white tunic with gold facings, a cuirass, white riding-breeches and high boots.

The love and admiration of Bismarck's life is the present Crown Prince. They are one in every prejudice and sentiment and meet daily.

The Chancellor is at his best when strolling in his garden with his dog and contemplatively smoking an old-fashioned China bowl German pipe such as peasants here affect. He is aptly called the Man of Blood and Iron, and yet, with all his austerity, absolutism, and inflexibility, he has qualities of loyalty and fairness in his personal dealings that bind men to him and make them firm admirers of a remarkably well-rounded and consistent character.

FRENCH POLITICS.

Carnot Banqueted at Rochefort—A Republican League of Action Formed.

PARIS, May 1.—The municipal authorities of Rochefort gave a banquet in honor of President Carnot last evening. The President started from Rochefort for Paris this morning. A crowd gathered at the station where he took the train and greeted him with hearty acclamations.

M. Raynal, member of the Chamber of Deputies, in a speech at Bordeaux, defended the Parliamentary regime and advocated the retention of the Senate and the Presidency. He declared that the moderate Republicans would support the Cabinet. The Ministry, he said, pursued a business policy, and energetically opposed Boulangerism.

A Republican league of action has been instituted, of which M. Laggerre is President.

Two of the men arrested for participating in the recent political riots in Nancy have admitted being the authors of the placards which caused the trouble. Most of the men imprisoned at Nancy have stated that they did not care for Boulanger, but joined the crowd for fun.

M. Brisson, in a speech at Lyons yesterday, denounced Boulanger and appealed to the country to rally around Floquet.

President Carnot returned to this city to-day. On his arrival there were 5000 persons assembled at the station to greet him and he was heartily cheered. There were a few isolated shouts of "Vive Boulanger."

Lansdowne's Farewell at Montreal.

MONTREAL, May 1.—Governor-General and Lady Lansdowne held a farewell reception at the City Hall this afternoon. Owing to the inclemency of the weather there was not such a large number of visitors as on former occasions. Acting Mayor Ald. Cunningham received the vice-regal party. Lady Lansdowne was attired in aqua-marine silk with bonnet to match, with exquisite lace and pearl ornaments. The only insignia worn by His Excellency was the grand cross of St. Michael and St. George.

A MAJORITY OF FIFTY-ONE

SIR RICHARD'S BUDGET AMENDMENT HOISTED, 117 TO 66.

And the House Goes into Ways and Means—The Fisheries Treaty Bill Passed by the Senate and the Matter Ended so Far as Parliament is Concerned.

OTTAWA, May 1.—This was eminently a day of talk in both houses. The Senate continued the debate on the treaty bill until 11.45 to-night, when the bill, after passing through committee of the whole, was read a third time and passed. This finishes the treaty bill as far as the Canadian Parliament is concerned.

The bone of contention in the House of Commons was the continued debate on the Budget, which was finished just before midnight by a division, in which Sir Richard Cartwright's amendment to the Minister of Finance's motion to go into ways and means was hoisted, 117 to 66, the vote being a straight party one.

The debate was heavy and somewhat weary. The Postmaster-General, an ex-Minister of Finance, led off with a two hours' speech in defence of the Government's fiscal policy since the introduction of Protection. Mr. Paterson of Brant delivered one of the liveliest speeches of the session, and he scored Mr. McLelan and Sir Charles Tupper in a vigorous fashion. The gentleman from Brant is one of the ablest debaters on the Opposition benches, and is always attentively listened to.

After Mr. Paterson came Mr. Hesson, Mr. Trow and Mr. Cook. Herman had a great deal of fun with himself, and the House was very noisy while he shouted into the ears of the ministers that they didn't care a cent whether the country went to the devil or not so long as they could hold on to power.

The House went into ways and means at midnight.

N.W.T. Legislators' Indemnity.

OTTAWA, May 1.—Sir John Macdonald to-night gave notice that he would move the House in committee on a future day on the proposed resolution to fix the indemnity of each member of the Legislative Assembly of the Northwest Territory at $500 per session and each local expert at $250, provision to be made for deductions for non-attendance as presented by the Governor-in-Council; the salary of the Speaker to be $600 and the Clerk of the Assembly, who shall also be Secretary to the Governor, to be $2000, to be paid out of the consolidated revenue fund of Canada. Actual traveling expenses of the members and experts are also to be allowed.

A MYSTERIOUS UNKNOWN.

Her Daily Visits to the House of Commons Supposed to be a Detective.

OTTAWA, May 1.—For a couple of weeks past there has been a mysterious daily visitor to the Senators' gallery in the House of Commons. The stranger was a lady of large stature, with raven black hair and eyes, and she invariably dressed in black, her mantle being weighted down with jet beads of various shapes. Her age would probably be 35, and she generally found her way to the gallery in question like a shadow. The doorkeepers never knew she was near by until she was right up to the portals which they kept. No one that I have met remembers seeing this mysterious personage walking from or to the Parliament Buildings through any part of the magnificent square in which the noble pile stands. Many enquiries have been made about her, who she was, whence she came and what was her motive in making so many visits to the House. A gentleman who was connected with the Fisheries Commission says he saw the same lady at Washington frequently, but further he knew not of her.

Yesterday The World saw the unknown ascending the tower of the main building and making minute inspection of the same. Subsequently she was seen in earnest conversation with a man who is said to be connected with the secret service and who is understood to do some slick work for the Customs Department in ferreting out smugglers. It is believed by persons here, who are in a position to know, that this unknown is a female detective who has done some clever work for the United States Government, and that she has been employed by the Canadian Government to hunt down a number of female smugglers who are operating at Detroit and Buffalo along the line of the Canada Southern Railway. It is said that large quantities of valuable goods are distributed on which no duty has been paid. Jewelry and silks are brought from both ends of the Canada Southern and disposed of to ladies who can afford such luxuries and who are not particular whether the purchases have passed the customs or not. It is hinted that the unknown is to be detailed to hunt up this class of smugglers.

She went west by the midnight train, holding a ticket, it is said, for Toronto. While at the Capital she did not put up at any of the hotels generally patronized by strangers. Her numerous visits to the House of Commons are what first attracted attention to her.

Esmonde in the N.Y. Assembly Chamber.

ALBANY, May 1.—In the Assembly Chamber to-day Hon. J. W. Husted announced the presence in the chamber of Sir Thomas Grattan Esmonde, the Irish advocate. Mr. Esmonde was escorted to the Speaker's chair by Messrs. Husted and Sheehan, leaders of the Republican and Democratic parties in the Assembly, and during a five minutes' recess the members were presented to him. Mr. Esmonde subsequently expressed his gratitude for the reception personally and still more as evidence of the sympathy everywhere felt in this country for the struggling people of Ireland.

SOFIA, MAY 1.—Major Popoff, the commander of the garrison here, and several other officers have been convicted of being connected with defalcations recently discovered in the war office. The Daily Review.

WEDNESDAY, MAY 2, 1888.

A CORRECTION CORRECTED.

TUESDAY evening's issue of the Examiner contained the following paragraph:—

"At the debate of the Otonabee Canoe Club, on Monday evening, the subject was:—'Resolved, that the franchise should be extended to women.' One of the debaters on the affirmative, no doubt misled by a statement appearing recently in a local contemporary, which it was not thought worth while to correct, made the assertion that Mr. Stratton, the first session of the present Legislature, voted against women suffrage and last session voted in favor of it. If the person making this statement will turn up page 63 of the 'Votes and Proceedings' he will see that in the session of 1887 Mr. Stratton voted against Mr. Waters' bill to enable *married women* to vote for members of *municipal councils*, while at the session just passed he voted for the bill to enable *widows* and *unmarried women*, with the necessary property qualification, to vote in parliamentary elections. It will be seen that there is quite a difference between married women voting at *municipal elections* on the same terms as their husbands who own the property, and widows and unmarried women voting on property in their own right at *Parliamentary elections*. This is an important distinction, which a desire for honest dealing would have pointed out in connection with the incorrect statement referred to above."

This is a not very clever endeavor to show that Mr. Stratton was not inconsistent, and the late date at which it is made may be as much owing to a desire to give the people time to forget exactly what the REVIEW said as to any other reason.

The Examiner's statement as to the two bills voted upon at the different sessions is quite correct. They were different bills. But a desire for honest or straightforward dealing would have led to the further explanation that the reasons Mr. Stratton gave for voting against the first bill told more strongly against the second bill and the one for which he voted. After voting against allowing married women to vote at municipal elections he interviewed himself and published his reasons for so doing in the Examiner. Let us look at some of them again. Said Mr. Stratton:—

"Woman should be sheltered and shielded from the rude battle of life and her interests should be guarded by men."

The power of discerning distinction is not very acute than can see rudes shocks and hotter battles in municipal affairs than take place in the political arena. Yet the Examiner would have us believe that Mr. Stratton desired to shield and protect women from the rudeness of municipal elections, and to lead them into the placid and gentle arena of political affairs! Again Mr. Stratton said:—

"Those who enter the political arena must must expect to be cuffed and to cuff back again and then the age of chivalry and chivalrous courtesy shall have passed."

"Political arena," you see; that was what Mr. Stratton feared to have the women enter. Nothing about municipal elections in that. And one year after giving expression to that opinion he voted to allow women to have votes in political elections. Another quotation will show as clearly that it was political not municipal elections that Mr. Stratton was referring to:—

"Rep.—You do not seem to think that women are adapted for politicians.

"Mr. S.—No; my opininion is that women are made and meant to be, not *men*, but mothers of men."

Here Mr. Stratton exposed the danger to the community which lurked in the vote he gave a year later. He then voted to give women votes in political elections—to make them politicians, *men*; with all the dire results to follow that he predicted. Because, you see, he does not profess to have changed his mind. One quotation more:—

"In every instance that can be cited, it will be found that the *true* woman, WHO possesses the ornament of her sex, a gentle, refined nature, will shrink from all public and political excitement, other than a moral interest * * Now, as a matter of fact, supposing such a measure became law, we should not have the influence of *true women* in politics, any more than we have now."

Here it is politics that is again referred to. Far be it from us to insinuate that Mr. Stratton was not sincere in expressing such opinions in 1887—but, then, the other difficutty arises that if he was sincere, if he fully believed what he deliberately said and published, he in 1888 must have voted for women to take part in a rude battle and to cuff and be cuffed, to abolish chivalrous courtesy, to take women into a sphere they were not adapted for, to deprive men of mothers, and to allow the rude, the rough and the false woman to take part in politics (for he said, and he has not changed his mind, you know, that the gentle, the refined and the true woman would not take part in political affairs), and to bring about the distressing state of affairs he had described.

It was a sharp curve, a very sharp curve, and no wonder it caused a jolt.

A NORTH WARD SCHOOL

MAY BE BUILT BEFORE THE LAPSE OF MANY YEARS.

The Board of Education Engage Sergeant-Major Rundle as Drill Instructor and Truant Officer and Transact Some other Business of Moment.

A regular monthly meeting of the Board of Education was held at the Institute on Tuesday evening.

Those present were Messrs. Dumble, Hill, Stratton, Denne, McWilliams, O'Meara, Kendry, T. Rutherford, Wrighton, Hughes, Burnham, English, Weir and A. Rutherford.

In the absence of the Chairman, on motion Mr. Denne acted in that capacity.

The minutes of the last meeting were read and confirmed.

INQUIRIES.

Mr. A. RUTHERFORD claimed that the Board was not properly constituted, on the ground that the members had been absent for three months.

Mr. DENNE said that the Board was all right as there had not been any meetings. At any rate the last meeting was held on February 17th, less than three month ago.

Mr. O'MEARA asked what effect the increased fees had on the attendance of pupils from Ashburnham?

It was pointed out that the reports of attendance would furnish the desired information.

SCHOOL ATTENDANCE.

Owing to the fact that there had been no meetings for some time the reports of attendance covered three months. They were as follows:—

COMMUNICATIONS.

From the Minister of Education warning the Board that if the necessary requirements were not furnished by September 1st, that the status of Collegiate Institute would be taken away from the Peterborough school, and the special grant stopped.—Received.

From a number of pupils asking that the services of Sergt-Major Rundle, as drill instructor, be continued.—Received.

From the Minister of Education re the establishment of a kindergarten school.—Received.

From Mr. John Stirling, headmaster of the West Ward School, asking for leave of absence, in order to visit Scotland, provided he furnished a competent substitute.—Granted.

From Mr. J. A. Fife asking for an appointment on the regular staff of the Collegiate Institute at the same salary as is paid the other assistant masters.—Committee on Appointments.

From Mr. T. A. Rowan asking for a balance of salary $109.00, claimed to be due him, as a master of the Institute.—To be tendered $50 in full settlement.

From the Department enclosing cheques for $90 and $661.15, meteorological and Institute grants.—Received.

SCHOOL SUPERVISION.

Chairman A. RUTHERFORD read a report from the School Supervision Committee reporting that they had awarded the contract for stationery supplies to the lowest tenderer, Mr. Thomas Menzies. That the Committee had visited the rooms of the Institute and found the desks fairly clean and in good order except in the chemistry room and upon the attention of the Principal being drawn to that, he promised to have it attended to, and that the attendance during March from Ashburnham had shown a falling off compared the previous month. The report was adopted.

THE INSTITUTE.

Moved by Mr. STRATTON, seconded by Mr. ENGLISH,—That inasmuch as the recent reports of the Inspectors of Collegiate Institutes have been adverse to our Institute both in the matter of buildings and educational equipments, and whereas further neglect on the part of this Board to carry out the requirements of the departmental regulations in the above respects will endanger the standing of the Institute, therefore resolved that the Board invite the Minister of Education to visit the town and inspect the premises and ascertain by personal observation whether he will consider it his duty to order that the orders of the department be carried out, and that the Secretary invite the Minister to visit Peterborough and name a day and that the Board be a committee to receive and accompany him.—Carried.

ANOTHER PERMIT.

Moved by Mr. STRATTON, seconded by Mr. BURNHAM,—That the Minister of Education be requested to grant a third class certificate, good for the town of Peterborough only, to Mrs. Fowler (nee Miss Andrews) on account of her faithful services as a teacher during the last fifteen years.—Carried.

SCHOOL REPORT.

Moved by Mr. A. RUTHERFORD, seconded by Mr. WEIR,—That in future the monthly school reports be sent home by the pupils, instead of through the post office, as at present.—Carried.

Mr. A. RUTHERFORD said he made the motion on the ground of economy.

Several of the Trustees and the Principals of the Institute and Central School spoke on the matter. The principals found that the reports were taken home, particularly by the smaller pupils, while a couple of Trustees referred to cases in which the reports when unfavorable were torn up by the scholars.

SCHOOL ELECTIONS.

Moved by Mr. A. RUTHERFORD, seconded by Mr. KENDRY,—That in future the election of public school trustees be held on the same day, same place and in the same manner as the members of the town council and that a copy of this motion be forwarded to the Town Clerk.—Left over as a notice of motion.

A NORTH WARD SCHOOL.

Moved by Dr. [illegible] seconded by Mr. McWILLIAMS,—That the Ontario Government be memorialized to change the law so that Trustees of the High Schools be elected by the people the same as Trustees of the public schools.—Left as a notice of motion.

NORTH WARD SCHOOL.

Moved by Mr. KENDRY, seconded by Mr. A. RUTHERFORD,—That Messrs. H. Denne, T. Rutherford, R. Weir and D. W. Dumble be a special committee to select and arrange for the purchase of a suitable site for a school in the North Ward, the committee to report to the Board, and that a special meeting be called as soon as the site is selected.

DRILLING THE PUPILS.

Mr. McWILLIAMS brought up the subject of drilling the pupils and suggested that Sargeant Major Rundle be engaged as instructor.

Principal LONG said that the drill was highly beneficial to the pupils. He knew that Mr. Rundle was painstaking and efficient and always willing to do anything required of him. The drill did not interfere in the least with the studies, the way arrangements are made, at present.

MR. RUNDLE said that if paid a fair salary, say $300 per year, he was willing to devote his whole time to teaching drill, gymnastics and calisthenics.

Mr. DUMBLE spoke strongly in favor of making an engagement with Mr. Rundle.

Mr. O'MEARA also spoke to the same effect.

Mr. A. RUTHERFORD said that the money already paid out for drill was paid irregularly, as the Board had not authorized it. He felt that the drill was doing good and improved the pupils.

Dr. BURNHAM said that the Board had authorized the expenditure of the money for the purpose referred to.

Principal LONG pointed out that the Government would grant $50 per year, if the pupils were drilled.

Moved by Mr. DUMBLE, seconded by Mr. O'MEARA,—That Major Rundle be employed as drill instructor and Truant Master at $300 per annum, to be computed from the 1st of March, 1888, his duties to be fixed by the School Supervision Committee.—Carried.

Mr. A. RUTHERFORD objected to the motion on the ground that it was contrary to the rules and he wanted the matter left to a committee.

The CHAIRMAN ruled that the motion was in order.

Mr. HUGHES was afraid that too much time would be spent in gymnastics and drill, that should be spent in study. The average child got exercise enough outside. He wanted time to consider the matter.

Dr. BURNHAM asked if these subjects were optional?

Principal LONG said they were obligatory and so many requisite subjects were ignored at present that it would be dangerous to ignore any more.

Mr. O'MEARA spoke in favor of the motion and considered the drill necessary.

The meeting then adjourned.

ADVERTISE IN THE REVIEW

AS MUCH A SECRET AS EVER

To the Editor of the Review:—SIR—How in the world has C. B. ROUTLEY jumped into such a big slice of Wall Paper trade? Why, it seems as if one couldn't pass his store without running against a load of Wall Paper in the arms of some pleased looking customer. I'm half inclined to think there must have been lots of boodle in the Wall Paper business before ROUTLEY started it and that the people have found out that he has broken the combination. Eh? what did you think, Mr. Editor? And yet you occasionally hear of spasmodic attempts to get down to ROUTLEY'S prices, in order to head him off; but still it seems as much a secret as ever how he keeps up the run

We can't go into particulars to-day. If we did we'd fill a half column. We merely jog your memory and ask you to recollect that the golden lion is to the front with summer dress goods. Light dressy fabrics, all of them. Particularly stylish, and positively handsome. Chambrays, Chambray Embroideries, Chambray Embroidered All-overs, Swiss Muslins, Edgings, Laces, Prints, Cashmerettes, Crinkle Cloths, are among the lines we show. The patterns are new and the prettiest we could get. The choice we offer customers is alone worth considering.

Carleton Coming.

The announcement that Will. Carleton, the celebrated poet and elocutionist, whose writings have delighted many a reader, is to appear in the Opera House here on May 10th, has been received with marked favor. His reputation is sufficient to arouse great interest in his appearance, and the coming treat will be welcomed.

Cleveland's Baking Powder.

Mr. J. P. Morrison is now in town introducing Cleveland's Superior Baking Powder to the notice of the public. It is claimed that this is the ideal baking powder, being free from ammonia, and composed only of pure grape cream of tartar and bicarbonate of soda. Samples are to be left in every house in town and all the housekeepers will no doubt be delighted with it. It has been placed on sale in all the stores in town. 1d108

The Young Men's Tribute.

At a regular meeting of Young Men's Conservative Club on Tuesday evening, Mr. A. McNeil, President, in the chair, it was moved by Mr. W. J. Minore and seconded by Mr. J. Hampden Burnham,—"That this Club desires to place on record its deep regret on account of the death of the Hon. Thomas White, Minister of the Interior, a man who was loved by his friends and respected by all; a journalist who was foremost in his profession; a politician who manfully upheld his views with marked ability, yet retained the good wishes of his opponents; a statesman who served his country faithfully and honestly, and a patriot who devoted his rare abilities to the welfare of his native land. As a former citizen of Peterborough, as an able legislator, and as one who was especially looked upon as a leader of and model for young men in political affairs, we mourn his untimely death." The resolution was unanimously adopted.

The Queen's Own.

Col. J. Z. Rogers visited Toronto yesterday and interviewed Col. Allan and other officers of the Queen's Own, relative to visiting Peterborough on the Queen's Birthday. He was assured that the regiment regarded Peterborough with a favorable eye and the place they will visit will be decided upon at a meeting to be held to-night. The Colonel is inclined to think that the black coats will be here. They will have about 550 men and their band and may remain four days, the annual inspection by Col. Otter taking place on Saturday, if possible.

The Newest Things

in millinery can be found at Miss Delaney's, who has returned from the city with an assortment of hats and bonnets, including new shapes—and shades—expressly procured from New York—and such as cannot be had in Canadian cities. Trimmings to match in great variety. Ladies desiring the most stylish millinery, should ask to see the latest styles from New York, including the La Favorita, Willow, Olivia, Don Juan, Lothian, Tosca, La Reine, Potomac and many others. The styles are correct and cannot be duplicated in town. 1d103 1w18

Personal.

The many friends and customers who done trade with Mr. Jas. Alexander will, no doubt, be glad to learn that he is not leaving town, but has taken a situation with J. C. APPROACHING TEN THOUSAND.

Peterborough is Marching Steadily Along Without any Sign of a Halt.

The town of Peterborough never does any thing with a rush. It goes along steadily, slowly and surely, but never goes back. The assessors for 1888 filed their roll with the Town Clerk this afternoon and from it we quote the following figures of interest to every citizen.

To many, the population is the chief thing, while others look at the total assessment. In both of these important items, the assessment of the present year shows an increase, as has been the case for many years back. The town is growing not so very rapidly, but with a good steady growth that will tell after a time when the so called "boom" towns are dead or forgotton.

Below we give the figures for 1887 and 1888 and in all the principal items an increase will be noticed. The ratepapers have increased 49, and the population which now stands at 8,989 shows an increase over the previous year of 326. The total assessment is creeping up rapidly to the four million mark, standing as it does at $3,789,975, an increase of $50,400. Even the number of dogs has increased. The decreases are in income, personal property, acres non-resident and horses. Real estate shows an increased value of $75,300.

With regard to population, one of the assessors informs us that he is confident that there are at least 250 persons, regular residents without taking into account the floating population, numbering perhaps as many more, who do not appear on the roll, but who should really be rated as residents. The following figures speak for themselves:—

	1887.	1888.
Ratepayers	2419	2468
Non-Residents	73	77
Children 5 to 16 years	1922	1965
Children 16 to 21 years	419	432
Children 7 to 13	1125	1111
Acres, Resident	1276½	1276½
Acres Non-Resident	6	5
Value of Resident lands	$3,250,425	$3,322,275
Value of Non-Resident lands	4,000	7,450
Total value of lands	$3,254,425	$3,329,725
Personal Property	307,300	259,150
Income	217,850	201,100
Total assessment	$3,789,575	$3,789,975
Statute Labor, persons 21 to 60 years	398	359
Dogs	399	449
Bitches	15	11
Horses	426	346
Population	8663	8989

ASHBURNHAM FOLLOWS SUIT.

The village of Ashburnham, across the river, is keeping pace with the town and onward is their motto too. The population this year is 1458, an increase of 22 over 1887. The total assessment is $414,799, and increase of $29,514. The increase in the value of real estate was $30,514.

A peculiar feature is that the acreage of the village has decreased 5 acres. This is accounted for by the opening up of new streets and throwing on the market building lots hitherto used for farming purposes.

The following are the figures taken from the roll:—

	1887.	1888.
Ratepayers	397	404
Acres resident	962	9434 4-5
Acres non-resident	6	4 1-5
Total acreage	968	953
Resident lands	$368 300	$380,374
Non resident lands	1600	
Personal property	11,675	18,625
Income	5350	4200
Total assessment	384,925	414,799
Children 5 to 16	364	397
Children 16 to 21	149	159
Children 7 to 13	216	220
Dogs	72	68
Bitches	5	4
Population	1436	1458

HOW ABOUT A CITY?

Peterborough and Ashburnham are practically one place, being separated only by a narrow river and connected by several bridges. The united population of the two places is 10,447 and the united assessment $4,204,774, figures that will make some of the so-called cities and big towns blush.

Don't use any more nauseous purgatives such as Pills, Salts, &c., when you can get in Dr. Carson's Stomach Bitters, a medicine that moves the Bowels gently, cleansing all impurities from the system and rendering the blood pure and cool. Sold by all Druggists.

Over the River.

Our neighbors across the river are a progressive people and worthy of being ranked as citizens of the city of Peterborough. The grocers of the village have adopted the early closing law and have agreed to close their places of business at 7 o'clock each evening, except Saturday, from May 7th to October 1st.

Up to date the village fathers have taken no action regard street watering and the residents on the principal streets are up in arms and nearly choked with the dust.

Fire protection and the construction of a system of waterworks for that purpose are being agitated. It is pointed out that a system could be constructed very cheaply. At present the village is virtually without protection from fire, on account of the want of water.

The building boom has struck the village harder than for many years and quite a number of dwelling houses, mainly smal and of brick, are in course of erection.

Fire Hall Floor.

The work of laying the new oak floor at the fire hall is about finished and the job has been well done. Engineer English has given it a couple of coats of oil. Runways of basswood will be laid to save the floor, when the horses run on it, from the stable to the apparatus.

Discharging Firearms.

The practice of discharging firearms inside of the corporation has become such a nuisance and menace to the public that the authorities have taken cognizance of it and at the next Council meeting a by-law will be passed to put a stop to it. Several narrow escapes have occurred recently and it is high time that something was done.

James Again.

James Farley is a citizen who frequently gets into the clutches of the police and if James is to be believed he is the most ill-used man in town. At an early hour this morning the police were notified that James was raising a disturbance on Harvey-st. He was arrested, but was discharged at the court this morning as no person appeared to prosecute.

THOSE prize packages of Teas at The Pantry are decidedly the best value for the money in the trade. d96

"Mary Queen of Scots."

The Claire Scott company appeared at the Opera House, for the second time, on Tuesday evening presenting "Mary Queen of Scots." The audience was a very small, but appreciative one. The play was staged and costumed in a highly creditable manner and the leading members of the company won fresh laurels. The execution scene was remarkably well acted and applause was liberal. The company play at Belleville next.

So you walk the street with vigor,
Fifty miles and never tire.

Steamer Golden Eye.

This staunch steamer has been thoroughly overhauled and fitted up with comfortable seats, and is now in first class order. Several improvements have been made in the machinery by Mr. J. H. Peck, which will make her one of the fastest boats on the inland waters. She will be commanded this season by Capt. McDonald, the obliging officer who ran her so successfully last year. Regular trips will be made about the 14th of May, when she will call at Jubilee Point, Harwood and Idyl Wild and continue to White's Mill to enable the Alnwick people to make Peterborough their market town. Three afternoons in the week special trips will be made to Jubilee Point, when a string band will be on board for dancing.

RAPID PROGRESS.—The farmers in this vicinity are making rapid progress with their spring seeding, the land being dry early this year and very easily worked. A very large acreage of peas and barley are being sown.

LOW WATER.—The lowness of the water in the river and the many creeks is the subject of much comment. It is a great many years since they were known to be so low at this season of the year.

It is Absurd

For people to expect a cure for Indigestion, unless they refrain from eating what is unwholesome; but if anything will sharpen the appetite and give tone to the digestive organs, it is **Ayer's Sarsaparilla.** Thousands all over the land testify to the merits of this medicine.

Mrs. Sarah Burroughs, of 248 Eighth street, South Boston, writes: "My husband has taken Ayer's Sarsaparilla, for Dyspepsia and torpid liver, and has been greatly benefited."

A Confirmed Dyspeptic.

C. Canterbury, of 141 Franklin st., Boston, Mass., writes, that, suffering for years from Indigestion, he was at last induced to try Ayer's Sarsaparilla and, by its use, was entirely cured.

Mrs. Joseph Aubin, of High street, Holyoke, Mass., suffered for over a year from Dyspepsia, so that she could not eat substantial food, became very weak, and was unable to care for her family. Neither the medicines prescribed by physicians, nor any of the remedies advertised for the cure of Dyspepsia, helped her, until she commenced the use of Ayer's Sarsaparilla. "Three bottles of this medicine," she writes, "cured me."

CHANGES IN EXCISE DUTIES.

Resolutions Introduced by the Finance Minister Early this Morning.

OTTAWA, May 2.—The Committee of Ways and Means remained in session until 2.10 and passed the resolutions introduced by the Finance Minister some days ago, revising the statutory offer or repealing the famous Section 9 and substituting a new one.

Sir Charles said in answer to Mr. Mulock that the proclamation issued on April 2 placing certain articles on the free list did not affect these resolutions.

The Finance Minister then submitted the following resolutions, which were also adopted:

Resolved, That the excise duty on spirits manufactured from raw or unmalted grain used in combination, in such proportions as the Department of Inland Revenue prescribes, with malted barley taken to the distillery in bond shall be the same as that on spirits manufactured exclusively from malted barley.

Resolved, That when any substitute for methylated spirits is supplied to any manufacturer, in accordance with section 233 of the Inland Revenue Act, the price thereof shall not exceed the actual cost with the addition of 15 per cent.

Resolved, That the extra duties on cigarettes, whether the product of foreign or of domestic tobacco, weighing not more than 3 lbs. per 1000, shall be 60 cents on every lb., and on those weighing more than 3 lbs. per 1000 $1 per lb.

Resolved, That the excise duty on all cigars, whether the product of foreign or of domestic raw leaf tobacco, when put up in packages containing less than 10 each shall be $7 per 1000.

The foregoing changes in duties of excise shall come into effect on and after May 2, 1888. The committee rose and the House adjourned at 2.20.

DAILY MARKET REVIEW.

TORONTO, May 2.

On call at the Board of Trade to-day: 86 was bid for No. 2 fall wheat, and 85 for No. 2 spring.

The receipts of grain at Chicago by the car lot yesterday were as follows: Winter wheat, 18; spring, 32; corn, 493; oats, 217; rye, 8; barley, 16.

The estimated receipts of hogs at the Union Stock yards, Chicago, to-day are 10,500; official yesterday, 20,150; shipments, 5422; left over, about 5000; receipts for the month, 380,792; shipments for the month, 164,619; cattle receipts yesterday, 6500; market rather active.

The greatest grain fleet that ever left Chicago at the opening of navigation began starting last night. It is composed of 90 vessels, and the cargo aggregates 4,462,000 bushels of grain. The vessel masters trust to warmer weather and westerly winds to clear the ice blockade from the straits by the time they reach the passage.

Since navigation opened in Nova Scotia, a few weeks ago, there have been shipped to the United States from King's County upwards of 100,000 bushels of potatoes, valued at $30,000.

BEERBOHM'S REPORT.

Beerbohm reports to-day as follows: Floating cargoes—Wheat firm; corn nil; arrivals, wheat 2, sold nil; waiting orders, wheat 2; cargoes on passage, wheat firm; corn steady. Good cargoes—No. 1 Cal. wheat off coast 31s, was 32s 9d. London—Good shipping, No. 1 Cal. wheat, prompt sale, 31s, was 32s 9d; do., nearly due, 31s, was 32s 9d. French country markets strong. Paris—Wheat and flour steady. Liverpool—Spot—Wheat steady, corn strong; No. 1 Cal. 6s 10d, No. 2 6s 7d, both 1d dearer; all else unchanged.

LIVERPOOL MARKETS.

Liverpool reports wheat firm to-day, with demand fair and holders offering moderately. Corn firm, fair demand. Spring wheat, 6s 8d; red winter, 6s 9d; No. 1 Cal. 6s 9d to 6s 10d; corn, 5s 5d; peas, 5s 8d; pork, 57s 6d; lard, 40s 3d; 60s 9d; bacon, 32s 9d to 41s 9d; cheese, 70s.

OSWEGO BARLEY MARKET.

Oswego reports barley lower to-day, with No. 2 extra Canadian held at 71; No. 1 Canadian at 73 and No. 1 bright Canadian at 75.

The Oil Market.

In New York to-day oil opened at 87; touched 88 and 86, and closed at 86½.

Correspondence of the Review.

COMMENCED OPERATIONS.—My pleasant dreams and peaceful slumbers are disturbed at an early hour by the jingling of milk cans. How am I to give through this or hubbub for the next six months. The cheese factory has commenced operations for another year. All the farmers are looking forward to make a fortune from their cows, providing cheese stays at its present high price.

ANOTHER KILN.—Mr. Brown is building another kiln so as to meet demand on lime.

ILLNESS.—Several cases of ulcerated sore throat are reported and one of inflammation of the lungs in this locality, but owing to good medical skill the patients are fast recovering.

THE BAND.—Our band favored us with a few choice selections the other evening, doing well with so little practice.

In brief and to the Point.

Dyspepsia is dreadful. Disordered liver a misery. Indigestion is a foe to good nature.

The human digestive apparatus is one of the most complicated and wonderful things in existance. It is easily put out of order.

Greasy food, tough food, sloppy food, bad cookery, mental worry, late hours, irregular habits, and many other things which ought not to be, have made the American people a nation of dyspeptics.

But Green's August Flower has done a wonderful work in reforming this sad business and making the American people so healthy that they can enjoy their meals and be happy.

Remember:—No happiness without health. But Green's August Flower brings health and happiness to the dyspeptic. Ask your druggist for a bottle. Seventy-five cents.

A Limited Number of Bookmakers.

NEW YORK, May 1.—The Coney Island Jockey Club held its regular monthly meeting last evening and had a very prolonged discussion. After the doors Mr. Lawrence was asked if any action had been taken in the matter of allowing bookmaking on the track. He refused to say what action had been taken at present, stating that it was only a regular meeting and he could not say what the club would definitely do.

From a very authentic source, however, it was learned that the American and Coney Island Clubs propose to admit a limited number of bookmakers at a reduced rate on the tracks, but that the mutuel machines and auction pools would have its monopoly in location, and facility to the public to do their betting by these means. This is stated as the final manner of disposing of the much vexed question. No action has yet been taken by the Brooklyn or Monmouth Park people. It is thought that bookmaking will be carried on on those tracks as hitherto.

Racing at Washington.

WASHINGTON, D.C., May 1.—The attendance at the National Jockey Club's Spring Meeting to-day was good. The weather was fine.

FIRST RACE—¾ mile—Mona won, Revolt, gelding, 3d; Maroon 3d. Time—1.17¾.

SECOND RACE—Handicap Sweepstakes, 1 1-16 miles—Ike won; Brookfield 2d, Queen of Elizabeth 3d. Time—1.50½.

THIRD RACE—The Brentwood Stakes, for 2-year-olds, ½ mile—Holiday won; Bonnie Park 2d, Seymour 3d. Time—1.03.

FOURTH RACE—Army and Navy Stakes, 1 mile—Young Duke won, Lefretis 2d, Sam Keene 3d. Time—1.42.

FIFTH RACE—¾ mile—Criterion won, Clay Pate 2d, Sequel 3d. Time—1.18.

Spots of Sport.

Keefe pitched his first game for New York yesterday.

The American Association games to-day are: Brooklyn v. Baltimore at Brooklyn, Cleveland v. Athletics at Cleveland, Louisville v. Cincinnati at Louisville.

International Association games to-day are: Toronto at Troy, Hamilton at Rochester, London at Syracuse, Buffalo at Albany.

National League games to-day are: New York v. Boston at Polo Grounds, Chicago v. Indianapolis at Chicago, Philadelphia v. Washington at Philadelphia, Detroit v. Pittsburg at Detroit.

Michael Welch, a Troy boy, has signed with Albany as pitcher.

Manager Frank Bancroft of the game at Syracuse on Monday was a case-faced robbery. The umpire's judgment on balls and strikes was not noted, but his decisions on base plays were awful.

LIGHT AND AIRY.

A Modern Croesus.

He pressed his suit with urgent zeal;
She heard with downcast eyes,
As if she feared they might reveal
The love she'd fain disguise.

At last she spoke, in accents low,
This wayward, winsome witch—
"There's just one thing I'd like to know—
"Pray tell me, are you rich?"

His courage rose about a mile,
And gladness filled his soul;
"Rich!" answered he; "well, I should smile!
My father deals in coal."

Southern hosts will writhe in pain;
And with groans and perspiration
They will sigh for frost again.

Lady Angela—What, can you tell me, are these "trusts" one reads so much about lately?

Adolphus—A "trust" is a combination for mutual advantage, so to speak.

Angela (confusedly)—Adolphus—er—that is—Mr.——

Adolphus—Yes?

Angela—Why may we not form a "trust?" [The combine. Tableau.]—Lowell Citizen.

EXCEPTIONAL CHANCE
FOR SPECULATION IN
REAL ESTATE

Valuable Properties for sale, suitable for
Building Sites, Residences, Market Gardens, &c.

We have been instructed to offer for sale the following valuable properties:

2nd.—The ERSKINE Homestead,

Being the North Part of Block "U," Ashburnham, containing about 14 acres, and having a frontage of about 262 feet on Concession Street, and 230 on the road leading to Norwood. This property has on it a large dwelling house, barns, stables, and outbuildings. It is well situated for putting on the market in Building Lots, and can be sub-divided to advantage. The land immediately south of it has been sub-divided and Lots are selling rapidly and buildings being erected.

3rd.—Block "R," Ashburnham,

Containing about 26 acres, having a frontage of about 540 feet on Concession street. It is within a short distance from town, and is well adapted for sub-division into Building Lots.

4th.—Fifteen Acres of Land in Monaghan,

On the Gravel Road, about 3 miles from town, with brick dwelling house 32x46, containing 10 rooms and usual outbuildings. There is a good orchard on the place, and the soil is first-class. Suitable for a market garden, or residence for a retired farmer.

5th.—The Residence of Mrs. F. W. HAULTAIN,

Situated on Brock Street, Peterborough, on Court House Hill. There is about four acres of land, well fenced with fruit trees, &c., soil first-class. The residence is large, with the usual outbuildings.

6th.—ERIN COTTAGE.

Being the West half of Park Lot No. 14 in Lot 18, in 18th Con. Monaghan, now in the town limits, containing about 5 acres of land. There is a comfortable brick cottage with usual outbuildings on the land, which is now occupied by Mr. Elias Thompson.

Offers in writing for the purchase of any of the above properties will be received by the undersigned, and any further particulars may be obtained from them.

R. C. CHURCH
PARK LOT
FOR SALE.

TENDERS

Will be received up to the 15th May, instant, by the undersigned, for the purchase of the whole or any portion of Park Lot Number six, in Township Lot Number Thirteen, in Concession Thirteen of the Township of Monaghan, in the County of Peterborough, now incorporated in and forming part of the Town of Peterborough, containing TEN acres more or less.

This lot, better known as the "R. C. Church Lot," is the most desirable property that has been offered for sale in Peterborough for many years. It has a frontage on Park-st. of 256 feet, adjoining Mrs. Gilmour's residence; a frontage of 1914 feet on Gilmour-st. and the same on the Gravel Road, continuation of Charlotte-st.

Gilmour-st. is the most beautiful street in the Town for private residences, and being within ten minutes walk of the Post Office and Market Square, this sale affords to intending purchasers an opportunity of procuring a beautiful and convenient site for a home.

TERMS:—Ten per cent. cash; twenty per cent. additional in 30 days from acceptance of the Tender, and the balance will be allowed to remain on mortgage for such term, not exceeding ten years, as the purchaser desires with interest at 6 per cent. per annum.

GRATEFUL—COMFORTING
EPPS'S COCOA
BREAKFAST.

"By a thorough knowledge of the natural laws which govern the operations of digestion and nutrition, and by a careful application of the fine properties of well-selected Cocoa, Mr. Epps has provided our breakfast tables with a delicately flavoured beverage which may save us many heavy doctors' bills. It is by the judicious use of such articles of diet that a constitution may be gradually built up until strong enough to resist every tendency to disease. Hundreds of subtle maladies are floating around us ready to attack wherever there was a weak point. We may escape many a fatal shaft by keeping ourselves well fortified with pure blood and a properly nourished frame."—*Civil Service Gazette.*

TURNBULL'S

What is Being Worn!

The season's New Lines in Dress Goods present many varieties. These we have, for our trade calls for the Best and Newest.

Ladies will admire our new Wool Merveilleux; the Silk Merveilleux have been very popular and French manufacturers in order to increase trade have brought these goods out in wool. Handsome goods, with a glossy finish, very pretty and stylish. Ten shades, all really attractive and sure to make up well.

HENRIETTA CLOTHS are strong lines. Selling fast and well they deserve it. Imported direct from German trade centers. A line that we happened to run across in looking through a line of German samples, and they have turned out much better than we expected. Ladies coming in to buy cheap Dress Goods almost invariably take one of these cloths. The Sea Green and Medora shades are new and not found in other goods. This line is confined exclusively to ourselves.

OMBRE STRIPES, a combination goods for dresses much worn in the cities. No complaint of being a year behind with the styles can now obtain. The OMBRE goods are of silk and wool; quiet in pattern; make up handsome and are a lady like material, clearly the best line of New Dress Goods shown anywhere.

MILLINERY is with us a busy Department. Every morning we are opening up new cases which we are receiving daily. Americans are getting ahead of the English and we are profiting by their, push and enterprise. You shall too, if you will leave us your order. MANTLES, MANTLE CLOTHS, DRESSES and DRESS GOODS we have in every variety. We make up anything ordered without a fault.

PRINTS, SPECIAL, one case of light prints (usually sold in the trade wholsale at 10cts, choice) we are selling retail at 10c. No need to look for Bankrupt goods.

PAUPER IMMIGRATION.

A. F. Jury Before the Agriculture and Colonization Committee.

OTTAWA, May 2.—Pauper immigration occupied the attention of Chairman Peter White's Committee on Agriculture and Colonization this morning. A. F. Jury of Toronto was heard. He said that during the past winter season the Mayor of the Queen City had been so bothered with poor immigrants looking for work that he had, on his own responsibility, to start extensive public works to keep them employed, and even at the rate of a dollar a day and working three days a week those in charge of the work were overburdened with applicants. The Mayor had to station a special man at his door to arrange applicants for relief in line and to pass them in and out again to keep the passage clear. Montreal had also suffered in this respect, and so had the Northwest. The Mayor of Calgary had been telegraphed, for instance, that there were 500 wealthy farmers due there on a certain day. For fear that the Winnipeg sharks would rob Calgary of these desirable additions to her population a deputation was sent down to meet them on their arrival at Winnipeg and escort them to Calgary. The immigrants highly appreciated the attention—more than the deputation appreciated the immigrants, who turned out to be 106 men, women and children, without money and possessing in the shape of farm stock one solitary game cock, "with a long pedigree." Many of the immigrants were people sent out by the poor law guardians. He also complained of the pauper children brought out.

Dr. Ferguson of Welland was opposed to the importation of waifs and strays now distributed by the orphan agencies of Miss Rye and Miss Macpherson. The Government might just as well bring out the virus of the vilest of disease and spread surgeons throughout the country to innoculate the people with it as to encourage or to allow these people to come out and marry and inter-marry amongst our farmers. These children, if not physically, are mentally diseased, the offspring of vice. He knew that it was a saying in Scotland that Miss Macpherson never took away a boy that would be of any use to that country, that is she takes none but the worst.

Gen. Laurie, Mr. Trow and Mr. Fisher said that from their experience these children were of a very different class and were in great demand for adoption and for apprenticeship.

Dr. Wilson of Elgin, speaking from an extended experience, endorsed what Dr. Ferguson had said. There might now and again, he said, be a healthy child amongst those imported through these orphan agencies, but the large majority of them were unfit to become citizens of Canada or any other country.

Dr. Macdonald of Huron largely agreed with this opinion.

Dr. Roome and Dr. Sproule took the ground that there were only a limited number of diseased children brought in, and they thought that thorough medical inspection before leaving the Old Country would meet the difficulty.

Mr. Lowe, Secretary of the Department of Agriculture, said that for a large number of years the departments had had personal inspection of these pauper children made, and it was found that only five or seven per cent. failed to turn out well. It was the small percentage of unsuitable children that caused the extravagant stories to be spread about, and he didn't think that the whole should be condemned for the few. Concerning the statement that the poor law guardians were sending out adult paupers, he said this general statement was also very much exaggerated.

Chairman White was authorized to write to the City Clerk of Toronto for further details respecting the undesirable immigrants complained of in the resolution on the subject laid before the committee, and upon the same lines as Mr. Jury's complaint.

CAPITAL NOTES.

The Irving Divorce Case—Senate Proceedings—Lansdowne's Military Secretary.

OTTAWA, May 2.—Evidence will be heard to-morrow before the Senate Divorce Committee on the bill for the relief of Mr. A. M. Irving of Toronto.

The Senate sat till 6 o'clock to-day and passed a number of House bills. In connection with the bills sent to the Red Chamber from the House it would be a startling incident if they were to occasionally throw out one or two of them.

Mr. Craig, M.P.P., of Port Hope, is in town at the head of a deputation which is asking for a grant for the harbor of that town.

Lieut.-Col. Lord William Beresford of the Ninth Lancers has been offered by Lord Lansdowne the military secretaryship on his staff in India for one year from the date of His Excellency's arrival, and has accepted the offer.

Hon. E. G. Littleton, who was Lord Dufferin's secretary in Canada, becomes Lord Hatherton by his father's death.

SHARPERS AND "SUCKERS."

THE MINISTER OF JUSTICE'S "GREEN GOODS" BILL.

The Purchaser to be Punished Equally With the Advertiser—Other Government Measures—In Committee of Supply—Pauper Immigration—Railroad Matters.

OTTAWA, May 2.—The Minister of Justice engaged the attention of the House for a considerable time this afternoon in progressing various government measures. He also had passed through its various stages his act respecting the advertising of counterfeit money, and in doing so made some startling disclosures with regard to the operators in and receivers of "green goods." The Minister displayed a unique and minute knowledge of the methods of the "sawdust" men, the "green goods" swindler, the advertiser of the "queer," and the other kindred trade-marks under which these sharpers work. Mr. Thompson has evidently been on the track of these people, so far as their operations extend to Canada, for some time. He explained that formerly all the "work" was done from New York city, but of late branches had been established in different parts of Canada, the exact location of which he did not divulge to the House.

The "sawdust" trick is an old one, but it still returns its operators handsome profits, some of whom, the minister said, were worth upwards of $150,000, all made out of "suckers." From names selected from the mercantile agencies' lists the country was flooded with circulars offering to sell quantities of counterfeit money for a small sum of the genuine stuff, and some of the Canadian victims had even been induced to visit given addresses in New York only to be taken in by being shown good bank notes as samples, making a purchase of the supposed "queer," and then finding that instead of good or bad bank notes they possessed a box of sawdust. The operators shifted their addresses in a very adroit manner and some of them had been known by as many as 150 different aliases.

Latterly, the Minister went on to say, these circulars were sent from one part of Canada to another. Among the persons who had received these circulars and who had offered to negotiate with the operators for a supply of the "queer," the House would be surprised to learn, were municipal officers, justices of the peace and others holding important public offices. "I have several letters in my possession written from such public officials to the operators," continued the Minister, and he read one of them without disclosing the name or place of residence.

The act provides for the punishment of any person who contracts to buy counterfeit money equally with the seller or the sender of a circular. Sec. 2 provides that:

Every one who prints, writes, utters, publishes, sells, lends, gives away, circulates or distributes any letter, writing, circular, paper, pamphlet, handbill or any written or printed matter advertising or offering, or purporting to advertise or offer, for sale, loan, exchange, gift or distribution, or to furnish, procure or distribute any counterfeit token of value, or what purports to be a counterfeit token of value, or giving or purporting to give, either directly or indirectly, information where, how, of whom, or by what means any counterfeit token of value, or what purports to be a counterfeit token of value, may be procured or had, and every one who aids or assists in any manner in any scheme or device whatsoever offering or purporting to offer for sale, loan, gift, exchange or distribution any counterfeit token of value, and everyone who purchases, exchanges, accepts, takes possession of, or in any way uses, or offers to purchase, exchange, accept, take possession of, or in any way use, any such counterfeit token of value, or what purports so to be, is guilty of felony and liable to five years' imprisonment.

The expression "counterfeit token of value" is described as meaning:

Any spurious or counterfeit coin, paper money, inland revenue stamp, postage stamp or other evidence of value, by whatever technical, trivial or deceptive designation the same may be described.

The act was read a third time and passed.

The other Government bills on which progress was made were the act to amend the Dominion Elections Act and an act to abolish forfeitures for treason and felony. Mr. Barron's amendment to the Elections Act fixing the date of election in a constituency where a vacancy has occurred within twenty days after the vacancy and within thirty days in certain isolated constituencies was rejected by the Minister of Justice and the House. Mr. Amyot's bill (No. 2) amending the same act was withdrawn and the act, with several amendments offered by Mr. Thompson, was read a second time. The act to abolish forfeitures for treason and felony was also read a second time. A discussion arose on this bill in which some of the members confounded escheats to the Crown with forfeitures to the Crown of property of convicts. The Minister of Justice said the Crown had the right to these forfeitures, and what the bill aimed at was to abolish this right and to administer the estate of a convict for the benefit of himself and family.

During the discussion the famous Mercer escheat was raked up, and Col. Tisdale arose to remark that it was an outrage that a rich and prosperous province like Ontario should build a palatial prison for females out of an estate which belonged to private parties. He said the power to escheat estates on the ground principle that Ontario grabbed the Andrew Mercer property would be taken out of the hands of every Government and Parliament.

The Minister of Justice sent up a bill for a first reading to amend the Banking Act. This act would give distillers the power to issue warehouse receipts on the contents of their tanks. Under the "aging" clause of the Inland Revenue Act it is required that spirits should be "tanked" for two years before they are entered for consumption. The distillers will thus be enabled to obtain accommodation on the spirits which are tanked for the prescribed two years. The "aging" clause goes into effect on July 1 next.

Mr. Thompson also introduced a bill to amend the Supreme and Exchquer Courts Act. The bill provides for allowing of appeals in reference to British Columbia and the Northwest Territories.

In answer to Mr. Davies, Sir Charles Tupper said the Government had advanced $2,725,504.40 to the Montreal Harbor Commissioners up to date for the Lake St. Peter improvements. Sir Charles also said that $250,000 more would be required to complete these improvements.

The House went into committee of supply at the evening session. There were only about two dozen members present, and the galleries were entirely deserted. There was metal more attractive at Government House, where the Marquis and the Marchioness were indulging the gay throng now at the Capital with their last social revel in the shape of a ball. The Premier and Sir Charles Tupper were not of the revelers, nor was Mr. Thompson, Mr. Bowell or Mr. Carling.

The committee considered the arts and agriculture statistics and immigration estimates amounting in all to $263,389. The item of $10,000 for the Dominion Exhibition was struck out, the Minister of Agriculture announcing that his department had found it necessary to retrench, and they would commence thereon. Halifax would have had the grant this year. Toronto was the lucky and probably the last recipient of the $10,000 plum in 1887.

The item of $16,000 for mortuary statistics caused a great deal of kicking from the Opposition. The statistics were described as being unreliable and untruthful.

The wind-up of the sitting was quite lively. The Opposition made charges against the Minister of Agriculture and Minister of Customs for allowing all of their deputies to go on leave for electioneering purposes. Mr. Jones of Halifax and Mr. Bowell did not stop till they had said to each other, "You're another," but the bout of the evening was between Mr. Mulock and Mr. Curran, the gentleman for North York charging the gentleman from Montreal with getting three Irishmen discharged from the Lachine Canal because they would not vote for Mr. Curran. Mr. Mulock repeated the charge for the second time this session, and to-night's episode over the affair was quite lively. By the way they addressed each other the reporters were led to believe that they would see each other again (probably outside).

The committee reported progress and the House adjourned at 1.20.

RAILWAY MATTERS.

Another Victory for the C.P.R.—The Eastern Entrance Into Toronto.

OTTAWA, May 2.—Although the session is drawing to a close railway matters and interests continue to hold their own at the Capital. The Canadian Pacific and the Grand Trunk people had a parting fling at each other this morning in the Railway Committee of the Senate over the Southwestern charter, the same bill which created such a lively fight in the Commons and in which the Canadian Pacific was victorious. The Canadian Pacific repeated its victory this morning in a canter. The committee reported the bill and when the Senate met in the afternoon it was finally passed. Mr. Wainwright, as in other battles over this charter, met the Canadian Pacific minions single-handed, but he fought them desperately.

A deputation of twenty, principally reeves and deputy-reeves of the municipalities along the line of the proposed Ontario and Western Railway, had an interview with Sir John Macdonald this afternoon with reference to a subsidy for this line, which will run from Claremont in the County of Ontario to Shelburne, in the County of Grey, a distance of some 56 miles, and thence to Inverhuron, on the shores of Lake Huron, in the County of Bruce. The deputation was accompanied by Mr. Mulock, Col. Tyrwhitt, Mr. Edgar, Mr. Ward and Mr. Cargill. It was pointed out to the Premier that this proposed line in asking for a subsidy had special claims for the same, notwithstanding that the Government had announced a policy of no more aid to railways. The late Hon. Thos. White, through whose constituency, Cardwell, the road would run, had made promise years ago that the road would receive Government aid, and large sums had been expended in surveys and profiles. Sir John promised an answer in a week. The proposed line is evidently part of the Canadian Pacific scheme to control a line from the shores of Lake Huron to the Niagara frontier.

Geo. Gooderham, W. H. Beatty and T. G. Blackstock of Toronto had an interview to-day with Mr. VanHorne and Solicitor Clark of the Canadian Pacific with reference to the entrance of the big railway into Toronto from the east. The road is to run from north of the distillery, which means that the property will be surrounded by tracks on three sides, much to the detriment and safety of their business, they claim. Under the circumstances the distillers think they should be compensated by the railway company to the extent of some $10,000. It is understood that Mr. VanHorne told the Toronto people that his company would not pay anything that the law did not compel them to pay. The Gooderhams would be well satisfied in lieu of compensation if the Canadian Pacific would join the Grand Trunk tracks to the east of the distillery instead of at Berkeley-street.

Four Years for a Ride.

HAMILTON, May 2.—Thomas McMahon, 15; James McInerney, 13, and George Norton, 18, the three lads who came from Dundas yesterday with Adam Dyment's horse and buggy, were tried this morning at the police court. McMahon was sent to Penetanguishene for four years, and the other lads were let off with a reprimand. Thomas Tracey and Charles Lappin pleaded guilty to burglariously getting possession of three pairs of shoes, the property of Thomas Oliver. Sentence was deferred till to-morrow. Jennie Sheppard was fined $40 for keeping a house of ill-fame, and two inmates $25 each.

Yesterday Minnie Ainsworth, a girl of 16, stole $20 from her mother and started to Buffalo to seek her fortune in company with 19-year-old Mary Maloy. They were arrested in Buffalo to-day.

Creighton Asks for a Change of Venue.

QUEBEC, May 2.—In the Mercier-Creighton libel suit this morning Hon. George Irvine, counsel for the accused, made application for a change of venue, and filed half-a-dozen affidavits in support. The grounds of application were that the private prosecutor is Attorney-General of this province, and has his greatest influence in this city, having to a certain extent the power of choosing his own jury, while the accused is a perfect stranger here, the libel complained of appeared in a newspaper published out of the province, and he would not get a fair trial here.

Judgment was reserved after Crown Prosecutor Fitzpatrick had opposed the motion.

BUNCOMBE AND BLUSTER.

RETALIATION THREATENED FROM WASHINGTON.

What it is Said Cleveland Will Do if the Senate Rejects the Fisheries Treaty and the American Fish Pirates Continue to Be "Annoyed."

NEW YORK, May 2.—The Herald to-day double leads this Washington special: If the Redubliicans in the Senate insist on the rejection of the Fisheries Treaty, as is said to be their intention, and if the Canadians thereupon continue their annoyance of American fishermen, there is likely to be a demand for such a proclamation of retaliation as the last Congress authorized.

The Act of Congress authorizes the President by proclamation to do any or all of several things. He may deny Canadian vessels entrance into American ports, either sea or lake ports; or he may deny entrance to Canadian fish, fresh or salt, "or any other product" of Canada; or he may include in the exclusion all goods coming from Canada, whether her products or not. The act empowers him to apply the exclusion to any or all of the points named, or to qualify and omit it as he thinks best, but it really gives him the power to lay an embargo against Canada, not only in respect to her products, but also against the entry of any goods or products whatever, from Canada into the United States.

That is to say, under the act of Congress he may put a stop to Canadian railroads carrying even American products from the west to eastern seaports. The language of the act is that he may "deny entry into any port or place of the United States of fresh or salt fish or any other product of said Dominion, or other goods coming from said Dominion to the United States."

Thus he may by proclamation stop at once the large freighting business of the Canadian roads by which they carry grain and other products from Chicago, St. Louis and other points in the Western United States through Canada back into the Eastern United States.

As the act gives him the power of choosing which of all the exclusions he shall direct, it is said to be his intention, if he finds it necessary to issue a proclamation, to begin by ordering the exclusion of "all other goods." That would put a summary stop to the Canadian railroads and vessels carrying American grain and other products from our Western States to Eastern American seaports.

ON STRIKE.

Railroad Laborers Quit Work Because of a Wage Reduction.

CLEVELAND, O., May 2.—Two hundred men employed by the New York, Pennsylvania and Ohio Iron and Dock Company to load ore on cars, quit work yesterday because of a reduction in wages. If a strike ensues 1000 men will be affected, but it is hoped a settlement will be made.

Eight Hundred Miners Out.

WILKESBARRE, May 2.—Eight hundred miners and laborers employed by the Kingston Coal Company struck this morning.

The Brewers Will Work.

ST. LOUIS, May 2.—The workingmen Brewers' Union last night adopted resolutions that in view of the situation in other cities they will not press their demand upon the boss brewers, but continue to work at present wages and hours.

The "Q" Strike.

CHICAGO, May 2.—Alexander Sullivan, counsel for the striking engineers and firemen, said to-day that the report that the "Q" strike had been declared off was without foundation.

Chairman Hoge of the Grievance Committee of the Brotherhood of Locomotive Engineers, who has had practical charge of the strike since the second week of its existence, when asked if the "Q" strike had been declared off, paused quite awhile and then said: "The strike has not been declared off formally. The men, however, have been allowed to secure their old places with the company at the best terms they can get, whenever they can do so, and those who cannot get work here will go somewhere else."

Signs of Coming Trouble in Europe.

BERLIN, May 2.—The Cologne Gazette and Vienna papers publish reports that Russia is moving more troops to the Austrian frontier.

LONDON, May 2.—The Greek Government will withdraw its minister at Constantinople.

Advices received at the foreign office indicate a probable Greek rising in Macedonia, such a movement being encouraged by Russia to bring about a crisis in the eastern question. If the diplomatic representations by the British minister at Athens do not result in satisfactory assurances, England, Austria and Italy will send a squadron to the Piræus.

The Cascade Tunnel.

ST. PAUL, Minn., May 2.—The boring of the great tunnel through the Cascade Mountain on the Northern Pacific road was completed to-day. The tunnel, which is 2800 feet long, is through solid rock nearly all the way. Trains will be running through it within two weeks. The tunnel was begun early in 1886, and the contract price was $2,000,000.

Vestibule Trains.

CHICAGO, May 2.—The celebrated case between the Pullman and Wagner Car Companies in regard to vestibule trains, was decided this morning in favor of the Pullman Company and the Wagner Company was enjoined from a further use of these trains.

Uncle Sam's Chinese Treaty.

WASHINGTON, May 2.—In secret session to-day Senator Sherman (Ohio) reported back the Chinese Treaty from the Senate Committee on Foreign Relations with the recommendation of that committee that it be ratified. Mr. Sherman (W. Va.) asked that the treaty be taken up to-day, but objection was made and it went over.

CONVERSAZIONE.—The Lakefield reading circle of the Chautauqua Literary and Scientific Circle held their conversazione in the P. C. A. Hall, on Tuesday evening last. About 150 of the friends of the C. L. S. C. were present. All seemed to enjoy themselves and to enter into the spirit of the entertainment given by the Circle. The following was the programme:—

1. Opening exercises by the circle.
2. Calling roll, when most of the members gave quotations from Addison.
3. Reading minutes and memorandum of the winter's work, by Miss N. Sherin, Secretary.
4. President's address, by Rev. J. McEwan, reviewing the year's reading.
5. Singing by the circle, "We Gather the Fragments."
6. The origin and nature of the Chautauqua movement, by the Rev. J. McFarlane.
7. Solo, by Mr. E. Henderson.
8. Essay on Addison as a poet and prose writer, by Miss Schofield.
9. Music, instrumental, by Miss McEwan.
10. Reading from Longfellow, by Miss M. S. McDonald.
11. Solo, by Mrs. W. J. Wallace.
12. Promenade, the circle at home with their friends, and refreshments.
13. Solo, by Mr. Wm. Scrimger.
14. Question drawer answered, by the President.
15. Closing exercises and "God Save the Queen."

LOCATED IN THE VILLAGE.—Mr. and Mrs. Wm. Scrimger have arrived in the village and have rented a house next to Capt. Edin's in No. 2 Ward.

THE RENOWNED CRUISER.—It is hard to recognise the old Cruiser, in the new dress that Mr. Wright has provided for her. Nothing but her old keel and a portion of her planking (which was found to be perfectly sound) remains. She has been widened 4 feet, making her beam 16 feet, and the total length of her upper deck about 65 feet. Her ribs are all cedar (natural crook), and her stem and stern posts are two heavy pieces of blue oak. Her bow and stern are protected by heavy bands of iron, a lighter strip running the entire length of he keel. The engine and boiler rest on a solid timber bed, thereby doing away with any vibration. She has a spacious cabin forward, where it is intended to stow canoes and freight. This is a great boon, as it will give more space for passengers above, and will prevent a canoe running any risk of being strained. In the stern cabin on either side will be lavatories, etc., for ladies and gentlemen. On the port side of the engine room is a small galley, as Mr. Wright intends to supply passengers with a cup of tea or coffee, etc., as occasion may require. The upper deck, which has been very strongly built, will be devoted entirely to passengers, where they can sit at their ease, sheltered by an awning from the rays of the sun, and admire the beauties of Stony Lake. At intervals of 6 feet roundthe upper deck, are placed nicely turned oak posts, through which two iron rails are passed, thus making it perfectly safe for children. Forward of the funnel is the deck house, which contains the steering wheel, a small office, and a snug smoking room, at the head of the stairs, up which you ascend from the forward cabin. Should passengers prefer to stay below, there are numerous windows and doors, which can be left open and insure a thorough current of air in the hot weather. As regards speed, with the powerful engine Mr. Wright put in her last year, she will be able to give a good account of herself, and with a new 40 inch screw from the Wm. Hamilton Manufacturing Co., she will be able to tow better than ever. The captain of the boat, Mr. Chas. Grylls, is determined to do all he can to oblige the public, and will land camping parties at any portion of the lake they may choose to visit. All the work on the boat has been done by local men, and we are proud that it is so, as the owner has been to a very heavy expense to have everything made as well and as substantial as possible, and in this the public will appreciate the efforts that have been made for their comfort. Mr. Wright has also secured the services of Mr. Enoch Grylls as engineer. Mr. Grylls has been engineer on the Cruiser for a number of years, and fully understands his business. Your correspondent would bespeak for Mr. Wright a large share of public patronage.

BRIDENGORTH.

Correspondence of the Review.

SIDEWALKS.—On Friday evening, April 27th, the young men belonging to the club started the foundation for the sidewalk. These young men have volunteered to build the walk in the evening for the purpose of saving expenses, which will extend the walk a great deal further. The village of Bridgenorth should be proud of the young men who have so much ambition in them. On Monday morning Mr. Aaron Mann, manager of the club, got everything ready for laying the plank. In the evening the young ladies were all on hand with hammers, ready for work, and almost all the villagers turned out to see the ladies drive the first nail in the sidewalk. The sound of the hammers could be heard until quite late. The club is glad to hear that several of the boys have offered to assist in the evening. We are sure of seeing the sidewalk through the village now. It is greatly needed. Villagers, put your hand deep in your pockets and help on this good work.

PLANING MILL.—Mr. Bell's planing mill was running to-day for the first time.

ON DIT.—It is reported that a wedding is to take place in the village this week.

AT WORK.—Farmers have got started to work, but it looked more like fall than spring this (Tuesday) morning, to see the snow falling.

THE SUNBEAM.—The steamer Sunbeam, radiant with a new coat of paint, was launched on Saturday and proceeded on the first trip of the season to Hastings. As the Hastings Star gave notice that it would be there on that day, we suppose the village turned out en-masse.

THE SPRING SHOW.—Quite a number from this vicinity visited the spring show on Saturday.

SPRING WORK.—Most of the farmers will be through sowing grain this week.

HASTINGS.

A DIGIT AMPUTATED.—Mr. E. Toms, of Westwood, had been suffering for weeks with a bad finger, the effect of a felon, and on Saturday last the diseased digit was amputated by Dr. Coughlin, assisted by Dr. Clark.

SCALDED.—A little girl aged about three years, of Mr. John Cunningham, Cobourg road, was severely scalded on Saturday by falling into a large pan of boiling water which had been prepared with a mixture of ashes for scrubbing purposes. The pan was placed on the floor, and while the mother went for a mop, the child stumbled and fell into the scalding mixture.—Star.

HARVEY.

Correspondence of the Review.

OBITUARY.—It is with the deepest regret that we record the death of the beloved wife of Mr. H. G. Nisbett, who died at her husband's house in South Harvey, after a very short illness, on the morning of March 31st. She took ill after three o'clock in the morning and died before ten o'clock in the forenoon. She was going about doing her household duties the evening before as usual. She seemed to be quite cheerful and in the best of spirits. In life she was a good, kind mother and amiable in her disposition. She was a member of the Presbyterian body and highly respected. She departed this life without a single struggle; her spirit took its flight very easy to her blessed Redeemer, in whom she put her trust. Her body was conveyed to the Norwood cemetery. The most sincere sympathy and commiseration is extended to Mr. Nisbett and his three little motherless boys by the whole community.

Advice to Mothers.

Mrs. Winslow's Soothing Syrup should always be used when children are cutting teeth it relieves the little sufferer at once; it produces natural, quiet sleep by relieving the child from pain, and the little cherub awakes as bright as a button." It is very pleasant to taste. It soothes the child, softens the gums, allays all pain, relieves wind, regulates the bowels, and is the best known remedy for diarrhœa whether rising from teething or other causes 25 cents a bottle. Be sure and ask for "Mrs. Winslow's Soothing Syrup," and take no other kind.

HAVELOCK.

Correspondence of the Review.

WARM.—The waving of fans is again the occupation of the fair sex.

GENERAL.—The work of peeling posts is about completed.....The roads about town which have been very muddy, are all dried up.....Business in our town this spring has been quite brisk. A number of buildings are to be put up here this summer, some of which are already in the course of erection.....Mr. E. Williams takes possession of the G. P. R. boarding house in a few days.....We have had several additions to our town lately, one of whom is a barber. He has his shop in part of Mr. Weller's house, where hair dressing, shaving, &c., will be done on shortest order. This is something that Havelock has felt the need of for some time....Another addition is in the shape of a livery stable, under the direction of Mr. Welsh, ex-livery man of Madoc....We can also boast of a new harness shop, hardware store, tin shop, carpenter shop, &c.

OBIT.—Quite a gloom has been cast over our community to-day on hearing of the very sudden death of David Burgess, son of Mr. William Burgess.

PERSONAL.—Mr. James Wilde, we are happy to say, is improving slowly....Mr. Jeffs, M.D., whom we have been expecting for some time, has at last arrived and will be found at Mr. I. Milne's residence....Miss Hammond, of Orillia, is the guest of her sister, Mrs. Bone.

DEATH.—At his residence in Havelock, on the 22nd April, Mr. McKenty passed away after a lingering illness....It is with sorrow we insert the death of Lillie, third daughter of Mr. David Vanslckle, who passed away on Sabbath, the 22nd April; after a short but severe illness of about two weeks. The old must die and the young may die.

CHURCH MATTERS.—The quarterly service in connection with the Methodist church takes place on Sabbath morning next at 10:30, in the church at Blairton. It gives me great pleasure to state that the Rev. T. Williams, junior preacher, was successful in passing the conference examinations at Port Hope on the 18th and 19th April. His success is no surprise to us, as we learn that Mr. Williams is right at home at an examination, whether written or oral.

BUILDING LOTS

such as No's. 1, 2 and 3, noted below, are not like merchandise when sold Locality and situation cannot always be replaced. There are many persons living in distant parts of the Town and Ashburnham, to whom a residence within five minutes walk to any of the churches, post office, market and principal stores, would be a great boon—to such we would say, do not delay—come to the office and discuss the matter. We may buy from you or sell to you.

YOU HAVE SOMETHING TO GAIN AND NOTHING TO LOSE.

1. That beautiful situation on Brock-st., east of and adjoining Mr. Nugent's new residence, so high above all surroundings, so central, so retired, and yet so convenient for all purposes. A most suitable place for a doctor's office and residence, or for any person wishing to reside near his office or business. Front Lot is 60x120 feet to lane, rear Lot 65x124 feet with an inexhaustible supply of first-class water. 30, 35 or 40 ft. frontage can be had off his Lot with stable accommodation if desired.

2. This is an extremely Fine Lot with about 75 ft. frontage on Water-st. by 115 feet deep. It is an east front facing St. Paul's church and will be sold in one or two Lots. Act promptly.

3 Is a Fine Lot on Stewart-st., 87x115 ft, opposite Messrs. Hall and Sheppard's beautiful mansions, protected on the north by the Chief of Police and charmed on the south by a Professor of Music.

4. In addition to the above we have Good Lots in north, east, south and west parts of the Town, and for Large Lots at low prices we would call attention to the Ludgate, Carlisle and Toronto Real Estate Investment Coy's suburban additions, where good value can be had for small investments.

For Houses and Lots in all parts of the Town, Ashburnham and Auburn we have variety and value to suit any reasonable buyer.

We have Garden Lots from one to 10 acres for sale or to rent. Also several Farms. One Large Farm with Good Buildings, Fall Crop and Ploughing to rent cheap.

All are invited to call at our office or write for further particulars.

ADVERTISE IN THE REVIEW

AS MUCH A SECRET AS EVER

To the Editor of the Review:—SIR—How in the world has C. B. ROUTLEY jumped into such a big slice of Wall Paper trade? Why, it seems as if one couldn't pass his store without running against a load of Wall Paper in the arms of some pleased looking customer. I'm half inclined to think there must have been lots of boodle in the Wall Paper business before ROUTLEY started it and that the people have found out that he has broken the combination. Eh? what did you think, Mr. Editor? And yet you occasionally hear of spasmodic attempts to get down to ROUTLEY'S prices, in order to head him off; but still it seems as much a secret as ever how he keeps up the run

HOUSEFURNISHINGS.

At this season many Housekeepers are replenishing their supplies of Tableware and China. City folk are furnishing summer cottages; country folk are filling up the dressers and cupboards of the old homestead; town's folk are picking and choosing here and there. Many would be glad to know of a place whose special business is to meet these wants and desires; that aims to furnish essentially good wares at consistently low prices; that offers the choice of many different dinner services, and yet does not compel you to take an entire set of any pattern, but allow you to select each course of a new design, or buy any portion of the set you may need; that does not try to impose ideas or wares upon purchasers, and yet is ready to advise which of the many wares is most desirable and suitable; and, if wished, will make a careful selection of pattern. When you want Tableware will you give us the opportunity to serve you.

Fire.

About 5 o'clock this morning a fire was discovered in a wash house in rear of the Stewart House. One of the lodgers at the house first observed the fire and he at once notified the dwellers therein, by lustily yelling fire. In very short order an amateur bucket brigade was organised and the incipient flames soon quenched. The damage done is nominal and is covered by insurance. The fire started from a barrel used to hold ashes.

The Chemong Lake R. R.

The Grand Trunk staff of engineers stationed here, their assistants and the section men from the town section, are engaged in laying out and straightening the branch line of the Grand Trunk from Peterborough to Chemong Lake. As it is now the railway station is some two miles above the village of Bridgenorth, but a strong effort is being made to make the terminus at Chemong Park, and if such is done a large hotel will be built.

Send Him to School.

Ald. Collins, of Belleville, is a gentleman who is probably familiar with that part of Canada contained in his own Ward, but his knowledge outside of its boundary seems to unnecessarily limited. At a recent meeting of the City Council, when the fire department was under discussion, he said "If the members were going to compare Belleville with Peterborough and other one horse towns, then we had better do without a brigade." It would no doubt surprise Ald. Collins to learn that the Peterborough fire brigade serves a population greater than that of Belleville and protects property of a greater assessed value than the property in that city.

Personal.

At the recent examinations of the Engineering Department of the School of Practical Science, Toronto, among those who successfully passed the second year's examination, we find the name of Mr. H. E. T. Haultain, of Peterborough.

The Hastings Star says:—"We lose two of our worthy citizens this week, viz: Mr. James Flynn goes to Peterborough to enter into partnership in the carriage line, with his brother-in-law, Mr. T. Boutlier, our popular shoemaker, leaves for Trenton to day, where a very desirable opening occures. Both gentlemen and their families carry with them the best wishes of hosts of friends for success in their new homes."

Forty-two Years Ago.

Mr. W. F. Boswell, of Trent Bridge, has in his possession a copy of the Peterborough Chronicle of Sept. 17th, 1846, which he has shown us. It was then published by Mr. G. Haslehurst, on Brock-st., opposite the court house. The European news is dated in the early part of August and the latest United States news is dated in the same month. There is very little town news in it, almost none, the solitary local item noticing a visit the editor paid to Lindsay and adjacent townships. It is in the advertisements that the chief interest in the old paper centres. There names still well well known appear, and many that were well known throughout the district. Mr. Wm. Clidxton occupies considerable space with an advertisement. Among other advertisers are Messrs. Sandford Fleming, C. E., James Edwards, A. McNeil (auctioneer), Wm. Bell, James Hall, W. Bradfield, W. S. Conger (sheriff), W. H. Wrighton (sr.), Wm. Weller, Robert Armour, James Scott, Clark & John Spalding, Robert Waddell, Malcolm & Co., Henry Vennor, Wm. Fraser, F. Murphy, J. Laverty, Dr. Coate, F. Ferguson, Francis Connin, John O'Connor (Douro), John Costello and T. J. Dennehy. The paper contains twenty short columns.

BURGLARY AT LEBRUN'S.

Some Person Visits the City Clothing Store Without Permission.

Sometime between Wednesday night and Thursday morning, a burglar or some burglars paid their respect to Mr. H. LeBrun, of the City Clothing Store, and carried off goods amounting to quite a handsome sum.

As is well known, Mr. LeBrun occupies premises facing on George-st. and running back to a lane in the rear of the block. At an early hour this morning a man on his way to work observed that a ladder was planted against one of the rear windows of LeBrun's store, and as the window was open the suspicions of the workman were aroused and he hurried to the Oriental Hotel and sent word to Mr. LeBrun that something was wrong.

As may be imagined Mr. LeBrun lost no time in seeing how the land lay. Upon opening up he found that a large case, which was filled with jewellery on the previous evening, was emptied, not even a collar button remaining to tell the tale. The next thing he found was a pair of dirty, greasy, blue denim overalls. Then he noticed that the window in front of the cutters' stand was open, and closer examination showed that an old broken ladder was run up from the lane to the window, affording ingress for any person who so desired.

Further examination proved that a suit of clothes, made for a customer, an oil cloth coat, owned by the proprietor, a complete set of fine underclothing and a soft felt hat had been taken, and worst of all, some twenty-six boxes of silk handkerchiefs, of all colors, textures and values were gone, leaving only two boxes of these goods in the shop.

Over a doorway in the lane were found an overcoat and an undercoat, both considerably the worse for wear, which were evidently shed by the gentleman who was so desirous of getting his clothes at less than cost.

That the marauder was disturbed in his work is quite evident from the fact that a parcel of underclothing, socks, etc., was left on the counter.

As to whether the guilty party was a "professional" or a local man, for evidently there was only one, opinions differ, but certain it is that the police are using their best endeavors, by wire, postal card and otherwise, to ferret out and bring to justice, him or they, who are guilty.

Mr. LeBrun estimates his loss at between $300 and $400, with a leaning towards the first figure.

CANOEING.

Programme of Regatta to be Held at Lake Couchiching.

The following is the programme of the regatta to be held at Lake Couchiching during the meeting of the "Northern division" of the American Canoe Association, July 23 to August 4:—

15. Hurry skurry; run, swim and paddle.
16. Tournament.

NOTES.

The record prizes will be awarded from the results of Nos. 1 and 3, 7 and 8, 10 and 11 and the "one man one canoe" rule is to apply as heretofore, and in addition each canoe will be limited to one rig in the sailing and combined races, that is, the sails used in the first of such races are to be used in the other sailing and combined races, but these may be reefed or lowered, and mizzens may be omitted in combined races without affecting subsequent events.

Special races will be added at the discretion of the regatta committee if a sufficient number of contestants signify their desire and willingness to enter; such as "a paddling upset race," "a man overboard sailing race," "a passenger overboard sailing race," etc.

The races for tandems and fours are excepted from the "one man one canoe" rule.

To Rent.

Two houses in Carlisle's new Terrace, 7 rooms, near St. Peter's Cathedral. Rent, $7.50 per month, free of taxes. Apply to JOHN CARLISLE.

The New Chief.

Mr. Geo. J. Rossel, of St. Catharines, the newly appointed chief constable, arrived in town last night and this morning he was sworn in by the Police Magistrate and town Clerk. He entered upon his duties at once and now the chief's name is Rossel.

I. O. O. F. Special Meeting.

A special meeting of Otonabee Lodge of Oddfellows, will be held this Thursday evening, the 3rd inst., to make arrangements to receive visiting delegations from Sister Lodges on important business. Every member is requested to attend. 2d103

Baseball.

Word was received this morning that the Atlantic Baseball Club, of Toronto, will play here on the Queen's Birthday. The team who will visit Peterborough are without any doubt one of the first amateur teams in the Province, and our boys will need to put in lots of hard practise before they tackle them.

THOSE prize packages of Teas at The Pantry are decidedly the best value for the money in the trade. d96

To Close Up Early.

The Metropolitan Grocery (Mr. T. W. Robinson's) is ahead of the grocer's section of the early closing movement. It is announced that the Metropolitan will close up sharp, commencing on Monday next, at 7 o'clock each evening, Saturday's excepted. The request is made and it is a reasonable one—that customers will, as far as possible, favor the new arrangement by sending in orders or making purchases as early in the day as possible.

OUR Teas, Coffee and Spices at The Pantry are remarkable for their excellent quality and low prices. d96

Farm and City Ballads.

Mr. Will Carleton, who has lately returned from a European tour, has been most successful on the platform. "Farm Ballads" have made his name a household word in our most cultured homes. In his "City Ballads" the living pictures of "Want and Crime," startle us out of our comfortable indifference as we realize for a brief moment how thousands of God's other children "starve along from day to day." Do not fail to hear him. Tickets 75, 50 and 25 cents. To be had at A. L. Davis', G. A. Schofield's, Taylor & Macdonald's, and Miss Sanderson's. Plan of Hall at A. L. Davis'. Thursday, May 10.

Presentation.

Prior to her marriage Miss E. J. Jamieson was waited upon by a deputation of her fellow employees and presented with a handsome solid silver cruet and the following address, testifying to the high esteem in which the young lady was held:—

Miss Jamieson:—

DEAR FRIEND,—We the employees of Brodie's Mfg. Co., with whom you have been associated during the past three years, on learning of our approaching marriage with Mr. Craig, would on this occasion, beg of you to accept of this silver dinner cruet, not for its intrinsic value, but in a small way of expressing our good will towards you, hoping that the space of life upon which you are about to enter may be one of usefulness, crowned with the blessings of a long and happy life, is the sincere wish of your late fellow workers.

Signed on behalf of the weavers of Brodie's Mfg. Co.

Brevities.

—One tramp occupied quarters at the police station last evening.

—There were no cases for the Police Magistrate to hear this morning.

—The Rev. Dr. Bredin will preach in the George-st. Church next Sunday evening.

—The regular meet of the Gun Club will take place to-morrow afternoon at the Riverside Park.

—Mr. Robert Menzies, of Lindsay, an old Peterborough boy, was among the visitors in town yesterday.

—Mr. Mark Curtis last winter burned over 3½ millions of bricks. His is getting to be quite an industry.

—If all the trees already planted around the new hospital grounds grow, the building will be the best shaded in town.

—Bricks from Mr. Mark Curtis' yard have recently been shipped to Cobourg, Port Hope, Norwood, Harwood and Tweed.

—The thief or thieves who entered Mr. LeBrun's store last night, took some silk handkerchiefs from one of the windows.

—Insp ector of Buildings Pope has drawn first blood and a rather interesting case will occupy the attention of the Police Magistrate on Saturday.

—We understand that the bricklayers of the town and county are to meet at an early day and "fix" prices, or in other words form a "combine."

—A meeting to organize a branch of the Imperial Federation League will be held at Orillia on Friday evening "at 19.30 o'clock." The hour has an imperial look about it.

—A meeting of the police committee was held this afternoon to consult with the chief constable and arrange with him matters regarding the management of the force.

—Mr. W. Rutherford, President, of the West Peterborough Agricultural Society, is at Toronto attending the annual meeting of the Canadian Association of Fairs and Expositions.

—Last night's burglary once more demonstrates the want of better light after twelve o'clock at night. The centre of the town should be lighted with electricity all night as all progressive places are.

The First Symptoms

of all Lung diseases are much the same: feverishness, loss of appetite, sore throat, pains in the chest and back, headache, etc. In a few days you may be well, or, on the other hand, you may be down with Pneumonia or "galloping Consumption." Run no risks, but begin immediately to take **Ayer's Cherry Pectoral.**

Several years ago, James Birchard, of Darien, Conn., was severely ill. The doctors said he was in Consumption, and that they could do nothing for him, but advised him, as a last resort, to try Ayer's Cherry Pectoral. After taking this medicine, two or three months, he was pronounced a well man. His health remains good to the present day.

J. S. Bradley, Malden, Mass., writes: "Three winters ago I took a severe cold, which rapidly developed into Bronchitis and Consumption. I was so weak that I could not sit up, was much emaciated, and coughed incessantly. I consulted several doctors, but they were powerless, and all agreed that I was in Consumption. At last, a friend brought me a bottle of Ayer's Cherry Pectoral. From the first dose, I found relief. Two bottles cured me, and my health has since been perfect."

The Daily Review.

THURSDAY, MAY 3, 1888.

Huron Assizes.

GODERICH, May 2.—The first case taken up at the assizes to-day was the Queen v. James W. Manser, for forgery. The prisoner was convicted and sentence deferred. The Queen v. Joshua F. Barr was a prosecution under the Charlton Act, for the seduction by the defendant of Sarah Ann Little, a girl over 12 and under 16 years of age. The defendant was acquitted.

The grand jury brought in true bills against Emanuel R. Bissett for malicious wounding, John H. Hyndman for assaulting a peace officer, and against William Watson, John Hopper, Van Ransoler, Van Norman, Wm. Hanna and W. G. Nicholson for wounding Robert Durnian with various intents. Five true bills were also returned against Thomas C. Edmunds, late agent of the Singer Manufacturing Company at Clinton, three for forgery of money receipts and two for embezzlement.

Victoria's Convocation Program.

COBOURG, May 2.—The program of proceedings during Convocation week at the University of Victoria College is: Friday evening, May 4, annual dinner of the undergraduates in the Arlington; Sunday morning, annual sermon before the Theological Union by Rev. A. M. Phillips, B.D., of St. Thomas; Sunday evening, baccalaureate sermon by the Rev. Dr. Carman, D.D.; Monday afternoon, annual meeting of the Theological Union in Jackson Hall; Monday evening, closing entertainment of the Literary Society in Alumni Hall; Tuesday morning, meeting of Senate; Tuesday afternoon, meeting of Board of Regents, Science Society meeting in Faraday Hall; Tuesday evening, annual meeting of the Alumni Association in their hall; Wednesday, convocation in Victoria Hall, conversazione in the Arlington.

Manitoba Printing Contracts.

WINNIPEG, May 2.—Discussion of the bill cancelling the printing contracts of The Call and Le Manitoba occupied the Legislature this afternoon. The Attorney-General explained that the contracts were awarded illegally at exorbitant rates. Mr. Norquay defended the action of his Government, saying that tenders were asked for and let to the lowest tenderers. A six months' hoist was voted down, 17 to 8.

Warden Bedson of the Manitoba Penitentiary was exonerated from the charge made of preventing two guards of Liberal tendencies from voting and afterwards dismissing them.

THE LATEST MARKET REVIEW.

BENSFORT.

Correspondence of the Review.

FALL WHEAT.—The fall wheat has stood the very hard usage from the frost this spring better than was expected. It is generally looking very well and with a few warm showers in addition to favorable weather the prospects are very good for a crop.

A CROP ALMOST DESTROYED.—The clover crop, however, did not fare so well, it being almost entirely destroyed by the frost. The loss of the clover crop is a great drawback to the farmers, a good many of whom would rather lose a seeding of fall wheat than a good catch of clover.

RECOVERING.—We are glad to report that Mr. John Bradshaw, who has been dangerously ill with inflammation of the lungs, has had a change for the better. A complete recovery from his illness is now hopefully expected.

SPORTS.—What has become of the Bensfort Foot Ball Club? It is time they were organizing again to commence practice for the amusement of our citizens. It is the intentions of the Silver Stars Lacrosse Club to commence practice as soon as the hurry of the spring work is over.

In brief and to the Point.

Dyspepsia is dreadful. Disordered liver is misery. Indigestion is a foe to good nature.

The human digestive apparatus is one of the most complicated and wonderful things in existance. It is easily put out of order.

Greasy food, tough food, sloppy food, bad cookery, mental worry, late hours, irregular habits, and many other things which ought not to be, have made the American people a nation of dyspeptics.

But Green's August Flower has done a wonderful work in reforming this sad business and making the American people so healthy that they can enjoy their meals and be happy.

Remember:—No happiness without health. But Green's August Flower brings health and happiness to the dyspeptic. Ask your druggist for a bottle. Seventy-five cents.

AYRSHIRE'S 2000 GUINEAS.

THE DUKE OF PORTLAND'S COLTS FINISH FIRST AND SECOND.

Racing at Washington and Nashville—Toronto Defeats Troy—League and Association Games Yesterday—Other Gatherings of Sports.

LONDON, May 2.—There was an immense attendance at Newmarket to-day, the attraction being the Two Thousand Guineas, over the Rowley mile. There were seven starters, of which Sir Frederick Johnstone's colt, Friar's Balsam, was the favorite at 2 to 1 against. He did not get a place, the Duke of Portland's colt, Ayrshire, winning by a length from his other colt, Johnny Morgan, with the Duke of Westminster's colt, Orbit, third. The race was run under the following conditions:

The eighteenth running of the Two Thousand Guineas Stakes, a subscription of 100 sovs. each, h. ft. for 3-year-olds; colts 126 lbs., fillies 121 lbs.; the owner of the 1st horse to receive 300 sovs. out of the stakes, and the 2d to save his stake; Rowley mile.—23 subs.

Another Victory for Toronto.

TROY, May 2.—The chief features of to-day's game were Burke's batting for Toronto and Atkinson's pitching for six innings, which mightily puzzled the Trojs. Stuart made a brilliant catch in centre of Decker's drive in the first inning, which was the chief fielding display of the game, although Harnett and Stickley of the visitors were frequently applauded for brilliant and timely plays. The visitors won by hard and timely hitting, and the home team failed badly in this respect until the seventh inning, when they blind Atkinson up for three doubles and a single, scoring three runs on the spurt. Score:

A VALUABLE PRESENT

to be given by P. D. Doran on SATURDAY next, May 5th, 1888 (which will be Ladies' Day at No. 3 Cluxtons Block) to the Lady who purchases the largest amount of Dry Goods on that day before 10.30 p. m.

All who wish to compete for this Present and cannot get out on Saturday can purchase during the week and it will count the same for the Present. Remember this is no lottery or gift enterprise but a valuable Present to be given free gratis to advertise our Bankrupt Stock of Dry Goods and Fine Silks, which we are selling at little over half price.

P. D. DORAN.

The Undiscovered Draft.

Not a few of those calling themselves students treat their text-books as the "Family Bible" is usually treated. Of one of these loiterers about the gates of knowledge the following story of how he was taught a lesson is told:

An old tradesman in a French town sent his nephew Alfred to study law at Paris. He gave him an old code annotated by a leading member of the country bar, and said,—

"I will pay you a visit in March, and if I am pleased with your progress, I will give you such a tip as will make glad your heart and cause your face to shine."

In March the old gentleman called on his nephew.

"Well, Alfred, hard at work, I see. Made good progress with your code? Pretty well through it by this time, I expect?"

"Yes, respected sir, my life has been one continual grind. Your venerable friend's marginal notes I found of great service while laboring at the code."

"Good boy—excellent young man! You got my draft of course. It is a pleasure to me to reflect that my bounty was not ill-bestowed."

"Your draft, uncle? No; I never received it."

"Show me that code."

The old man opened the book and showed his stupefied nephew a draft for two thousand francs, dated five months before, which had all the time been reposing between the first two leaves of the code!

This Powder never varies. A marvel of purity, strength and wholesomeness. More economical than the ordinary kinds, and cannot be sold in competition with the multitude of low test, short weight alum or phosphate powders. Sold only in cans. ROYAL BAKING POWDER Co., 106 Wall St., N.Y.

R. C. CHURCH
PARK LOT
FOR SALE.

TENDERS

Will be received up to the 15th May, instant, by the undersigned, for the purchase of the whole or any portion of Park Lot Number six, in Township Lot Number Thirteen, in Concession Thirteen of the Township of Monaghan, in the County of Peterborough, now incorporated in and forming part of the Town of Peterborough, containing TEN acres more or less.

This lot, better known as the "R. C. Church Lot," is the most desirable property that has been offered for sale in Peterborough for many years. It has a frontage on Park-st. of 256 feet, adjoining Mrs. Gilmour's residence; a frontage of 1914 feet on Gilmour-st. and the same on the Gravel Road, continuation of Charlotte-st.

Gilmour-st. is the most beautiful street in the Town for private residences, and being within ten minutes walk of the Post Office and Market Square, this sale affords to intending purchasers an opportunity of procuring a beautiful and convenient site for a home.

TERMS:—Ten per cent. cash; twenty per cent. additional in 30 days from acceptance of the Tender, and the balance will be allowed to remain on mortgage for such term, not exceeding ten years, as the purchaser desires with interest at 6 per cent. per annum.

EPPS'S COCOA

BREAKFAST.

"By a thorough knowledge of the natural laws which govern the operations of digestion and nutrition, and by a careful application of the fine properties of well-selected Cocoa, Mr. Epps has provided our breakfast tables with a delicately flavoured beverage which may save us many heavy doctors' bills. It is by the judicious use of such articles of diet that a constitution may be gradually built up until strong enough to resist every tendency to disease. Hundreds of subtle maladies are floating around us ready to attack wherever there was a weak point. We may escape many a fatal shaft by keeping ourselves well fortified with pure blood and a properly nourished frame."—*Civil Service Gazette.*"

Made simply with boiling water or milk. Sold only in half pound tins, by grocers labelled thus:

The season's New Lines in Dress Goods present many varieties. These we have, for our trade calls for the Best and Newest.

Ladies will admire our new Wool Merveilleux; the Silk Merveilleux have been very popular and French manufacturers in order to increase trade have brought these goods out in wool. Handsome goods, with a glossy finish, very pretty and stylish. Ten shades, all really attractive and sure to make up well.

HENRIETTA CLOTHS are strong lines. Selling fast and well they deserve it. Imported direct from German trade centers. A line that we happened to run across in looking through a line of German samples, and they have turned out much better than we expected. Ladies coming in to buy cheap Dress Goods almost invariably take one of these cloths. The Sea Green and Medora shades are new and not found in other goods. This line is confined exclusively to ourselves.

OMBRE STRIPES, a combination goods for dresses much worn in the cities. No complaint of being a year behind with the styles can now obtain. The OMBRE goods are of silk and wool; quiet in pattern; make up handsome and are a lady like material, clearly the best line of New Dress Goods shown anywhere.

MILLINERY is with us a busy Department. Every morning we are opening up new cases which we are receiving daily. Americans are getting ahead of the English and we are profiting by their push and enterprise. You shall too, if you will leave us your order. MANTLES, MANTLE CLOTHS, DRESSES and DRESS GOODS we have in every variety. We make up anything ordered without a fault.

PRINTS, SPECIAL, one case of light prints (usually sold in the trade wholsale at 10cts, choice) we are selling retail at 10c. No need to look for Bankrupt goods.

"THE WICKED WHITE MEN."

Another Tirade from Senator Alexander—A Vote of Censure by His Colleagues.

OTTAWA, May 3.—The Senate has at last recognized the fact that it is time Old Man Alexander was sat on, and sat on heavily too. A secret session was held in the Red Chamber this afternoon and Senator Alexander was hauled over the coals in the most lively fashion. His latest freak was to circulate through the postoffice of the Senate a copy of a speech he made on April 20, in which he said, among other things, that "the wicked white men" were responsible for the alleged destitution and starvation among the Indians of the North-west. Senator Girard of St. Boniface had on the paper an enquiry as to whether the destitution complained of really existed. Senator Alexander made an acrimonious speech in the debate that followed, and he gave utterance to some strong strictures on the "wicked white men," conveying the idea that he referred to Sir John Macdonald, Speaker Allan and Sir David Macpherson.

The Woodstock Senator attached to the copy of his speech a bogus interview with a newspaper reporter, and he sent hundreds of copies of the document throughout the country, using his parliamentary "frank" for the purpose. The alleged interview related that he (Alexander) had recently obtained information to the effect that Sir John, Mr. Allan and Sir David were responsible for the wreck of the old Upper Canada Bank, and were chiefly instrumental in bringing a hundred innocent, respectable families to penury. Those three men had been mixed up in transactions secretly and privately which ought to be investigated at once in a court of justice. "They had for their own selfish purposes conspired to obtain the money of others and wrecked a Government bank by secret connivance, of which evidence had been lately obtained. They had thus brought about the ruin of such families, some of the heads of which had sunk into their graves with broken hearts leaving their families destitute."

The great Senator was asked to apologize to-day for circulating these scandalous statements and answered by saying that he would pay the Government for the postage on the circulars. Grabbing up all his papers, locking his desk and leaving the chamber abruptly, he flew out of the door with all the gust of a blizzard, when this motion offered by Senators Aikins and Scott was passed unanimously:

"That the conduct of Geo. W. Alexander, Senator from Woodstock, in using the servants of this House in distributing within its walls a document containing libellous and defamatory charges against the Honorable the Speaker and another hon. member of this House, and in using the franking privilege enjoyed by him as a member of this House in disseminating the same document through the country, is a flagrant breach of the privileges of this House and deserves its severest censure."

It is said that Senator Alexander, if he rose much further in tirades against the "wicked white men," will be suspended from his seat.

DEATH OF JUDGE HENRY.

The Aged Jurist Succumbs to the Effects of a Recent Paralytic Stroke.

OTTAWA, May 3.—Hon. Wm. A. Henry, Puisne Judge of the Supreme Court, died this evening from the effects of a paralytic stroke sustained three or four weeks ago. He was in his 72nd year, having been born in December, 1816. He will be buried at his old home, Antigonish, and the body will leave Ottawa to-morrow morning.

[In his early life Judge Henry had been a leading Nova Scotia politician, becoming a member of the Executive Council in 1849. He took a leading part in the Confederation movement, sitting in Charlottetown in the union conference, in that at Quebec, and in the final conference assembly in London in 1866. He never entered the Parliament of the Dominion, which he had helped to form, the popular hostility of Nova Scotia to union having brought about his defeat in Antigonish, where he presented himself in 1867. In fact Nova Scotia on that occasion returned a solid contingent of anti-Confederationists with the solitary exception of Sir Charles Tupper. Judge Henry tried again in Richmond in 1869, but was again unsuccessful.

He was appointed to the Supreme Court in October, 1875, and at the time of his death was the fourth judge on the Supreme Court bench, Chief Justice Ritchie and Justices Strong and Fournier being senior, and Justices Taschereau and Gwynne being junior to him.

The deceased judge was one of the most active public men in Ottawa. As an instance of his activity and sturdiness it may be mentioned that at the time of the Lansdowne reception in Ottawa last summer, as an offset to the O'Brien crusade, Judge Henry took the lead of the mounted cavalcade as well as an important part in getting up the demonstration.]

SHOT TO FRIGHTEN HIM.

A Baptist Preacher at Niagara Falls, Ont., Fires at a Contractor.

NIAGARA FALLS, Ont., May 3.—This morning Rev. George Tompkins, a local Baptist Minister, shot at James R. Lundy, a contractor. Mr. Tompkins was brought before Police Magistrate Hill and made a statement that it was not with intent to harm Lundy but to frighten him away and asked for a remand, saying that it was a mixed up family affair with the contractor. After the statement made by Tompkins the Police Magistrate gave him his liberty, but under surveillance of the police and the case will come up for hearing Friday.

AMENDING THE LIBEL LAW

HON. MR. THOMPSON'S BILL FOR THAT PURPOSE.

Actions for Libel Against Newspapers to be Tried Within the Province Where Published—Old Man Alexander Sat Upon—Death of Judge Henry.

OTTAWA, May 3.—Hon. Mr. Thompson this afternoon introduced a bill to amend the law of libel. This provides that any action against a newspaper for alleged libel must be tried within the province where the paper is published. Also that in cases of alleged criminal libel a preliminary examination must precede indictment unless upon the fiat of the Attorney-General of the province or of a judge. The important clause of the amendment to the libel law reads as follows:

Every proprietor, publisher, editor or other person charged with the publication in a newspaper of any defamatory libel shall be dealt with, indicted, tried and punished in the province in which such person resides or in which such newspaper is printed. The word "newspaper" here used applies only to publications issued at intervals not exceeding twenty-six days.

Mr. Davies announced that he would shortly call the attention of the House to the arbitrary imprisonment of John T. Hawke, editor of The Moncton Transcript, for alleged contempt of court, and ask for amendment to the law of contempt also.

The sole remaining one of the Government bills on the order paper was next introduced by Hon. Mr. Thompson. This was amending the Copyright act by putting into force in Canada the provisions adopted at the recent Berne convention.

Hon. David Mills brought up the matter of the Northwest Territories Legislature Act, suggesting to the Government that the territories should be paid a specific amount per capita of the population, the same as the provinces, and that the Legislature should have control of the fund so created in place of being dependent on the Dominion Government for all expenditure. It was little short of a farce, he said, to give the territories the power of legislation and representation and no funds to carry on business.

Sir John said the idea was to make as little changes as possible until the territories have a purely elective assembly representing the people. No sum would be voted to be disposed of by the new Legislature until the Government knew what their main ideas were.

The Railway Act Amendment Bill was then considered in committee, Hon. Mr. Thompson being in charge in the absence of the Minister of Railways, Hon. J. H. Pope, who is not well enough yet to attend the sittings of the House. The provisions of the bill are on the lines of the report of the recent Railway Commission.

After recess, on the clause of the Railway Bill respecting street crossings in cities and towns, considerable discussion took place, the Government being strongly pressed to pass legislation providing safeguards against crossing accidents. The suggestion that fatalities at crossings should be investigated by the Railway Committee of the Privy Council whenever officially reported to that body was favorably received.

The committee reported progress and the House adjourned at 1 o'clock.

THE IRVING DIVORCE CASE.

Evidence Heard by the Senate Committee, Who Decide to Report Favorably.

OTTAWA, May 3.—Mr. H. M. Irving of Toronto was successful in having his petition for divorce from his wife, Mary Louise Skelton, reported by the Senate Committee on Divorce this morning. Mr. W. H. Foster, Q.C., of Toronto, and Mr. J. R. Gemmel of Ottawa appeared for Mr. Irving. Three witnesses were examined besides the petitioner. They were A. W. Croyle, brother-in-law of Mr. Irving, who proved the marriage; Margaret Stoughton, the nurse at the somewhat notorious cottage at Niagara-on-the-Lake, and Night-Watchman John Raynor of the same place. The same evidence was offered as was heard in the Assize Court at Toronto when Mr. Justice Falconbridge heard the case for damages against Harold Smith.

Mrs. Irving was not represented. There were no new features in the case, and the committee at once decided to report the bill favorably. There is little or no doubt that the Senate will pass the bill. Mr. Irving and the witnesses left for the West to-night.

The committee also decided to report the bill for the relief of Catharine F. Morrison of Ottawa. Her husband, John Morrison, is now serving a term at the Kingston Penitentiary for bigamy, and it was on these grounds that the petition was based. All of the witnesses were Ottawa people.

THE C.P.R.'S EASTERN ENTRANCE.

Mr. Small's Bill to be Reported by the Railway Committee.

OTTAWA, May 3.—There was another lively time in the Railway Committee this morning. Sir Hector Langevin presided, and there were over 100 members present. Mr. Small's bill respecting the entrance of the Canadian Pacific Railway into Toronto from the east was taken up. Mr. T. G. Blackstock opposed the proposed route of the Don branch on behalf of Mr. Geo. Gooderham and his partners in the distillery, on the ground that it would damage their property. Mr. Blackstock made a lengthy and vigorous protest against the Canadian Pacific being allowed to pass through their property without adequate compensation. Solicitor Clark for the railway made a reply in which he stated that all that the distillery people were entitled to was such compensation as the existing law guaranteed. He was opposed to making any special exception in favor of Mr. Gooderham.

Ald. McMillan, Ald. Shaw and Ald. Baxter of Toronto were present to watch the case in behalf of the city, but an injunction having been served on them restraining the Council from ratifying the agreement entered into at Montreal between Mayor Clarke, the Grand Trunk and the Canadian Pacific, they were not recognized by the committee other than as private citizens. They, however, handed to Mr. Small the injunction with which they had been served.

After a lengthy debate the committee decided to report Mr. Small's bill with amendments, and only guaranteeing to Mr. Gooderham such damages as the existing law allowed. It is understood that the distillery people, after the injunction is disposed of in Toronto, will take further steps to assert their contention for substantial damages in court.

Mr. Blackstock remarked that anyone who undertook to fight the Grand Trunk and Canadian Pacific in Parliament had a big and tough job on hand.

Trouble in Store for the U.P.

LINCOLN, Neb., May 3.—Attorney-General Leese claims to have found about $2,000,000 worth of land occupied by the Union Pacific Railroad Company to which it has no legal title. As the Union Pacific exists under the Congressional grant and claims not to be amenable to state control, it will have an opportunity to defend its title to this real estate.

GRAVE FEARS IN BERLIN.

A Social Uprising Threatened—Serious Accusations Against the Crown Prince.

NEW YORK, May 3.—The Evening Sun has a cablegram from London saying that The Sun's Berlin correspondent, Blakly Hall, is unable to send telegrams and letters from Berlin describing the real situation there on account of the rigid censorship maintained by the Government. He has conveyed to London secretly the following information:

There are grave fears of a social uprising. The Crown Prince is protected by extraordinary police precautions whenever he appears in public. The Social-Democratic party is alarmingly active and is flooding Germany with seditious documents which the police are busy in confiscating. Houses are searched by the police in a most despotic fashion. Some of the pamphlets issued revile the Crown Prince and accuse him of ruining daughters of the people.

The Emperor's Condition.

BERLIN, May 3.—A bulletin issued this morning says: "The Emperor's fever is low. His general condition is relatively satisfactory."

Bismarck's Organ Attacks Russia.

BERLIN, May 3.—The Cologne Gazette returns to the attack upon Russia. Referring to the reinstatement of Gen. Bogdanovich, The Gazette says: "It looks as if Russia was so certain of the success of Boulanger and De Roulede that she no longer hesitates to drive Germany into the arms of England, or at least to induce her to adopt the views of the English policy."

One Result of the Queen's Berlin Visit.

VIENNA, May 3.—The Political Correspondence publishes a letter from Berlin which comments on the appointment to office by the Russian Government of Gen. Bogandovich, and says: "Germany's sympathies for Russia are decreasing as they are increasing for England. Queen Victoria's visit to Berlin has worked wonders. Her interviews with leading personages in Germany have left a most favorable impression."

The Empress' Tour.

BERLIN, May 3.—The Empress, accompanied by Princess Victoria, Baron VonSeckendorf and Herr Achenbach, President of the Province of Brandenburg, left Charlottenburg this morning for the flooded districts along the River Elbe. At Wittenberg the train stopped and the Empress and Princess were given a hearty reception. The buildings were decorated with flags. Thousands of people were at the station to welcome the Imperial party, and the ladies of the place presented bouquets to the visitors. The party embarked at Wittenberg on a steamer and proceeded on their tour.

The Chancellor and Schurz.

BERLIN, May 3.—The interview yesterday between Carl Schurz and Prince Bismarck lasted 2½ hours. The meeting was of the most cordial character. The conversation covered a wide field, and questions affecting the whole world were touched upon. Hock and cigars were served afterwards, and the Chancellor accompanied Mr. Schurz in a walk in the park.

Threats of Retaliation.

NEW YORK, May 3.—The Tribune (Rep.) says editorially to-day: Prominence is given in The Herald to a Washington despatch purporting to explain the President's intentions respecting the Retaliation Act, in the event of the rejection of the Fisheries Treaty. This announcement of his policy is probably premature.

If the treaty be rejected the President will have no alternative choice. In his first message he proposed a method of diplomatic arbitration, which the Senate condemned by an emphatic majority. Two Retaliation Acts were passed, but he declined to enforce them, preferring to adhere to his policy of effecting diplomatic settlement. If the Senate refuses to ratify the treaty, he will be under moral obligations to abandon his own abortive schemes and to carry out its policy without delay.

While the President will have no alternative choice, as we have said, it is probable that he will obstinately persist in defying the wishes of Congress in this matter, as he has done for three years. The treaty itself is a sufficient proof that the President either does not know what American rights and interests are, or does not really care to defend them. The root of the whole difficulty is just there; we have in this country not an American but a British-American Administration. To expect from such an Administration any decisive action against Canadian pretensions and Canadian interests would be folly.

Mob Law in Indiana.

NEW ALBANY, Ind., May 3.—Forty White Caps called at the house of W. H. Toney, at English, Crawford County, last night, dragged him to a telegraph pole and tied and whipped him unmercifully. His recovery is doubtful. He is a prominent citizen and a man of considerable means. The charge against him was drunkenness and abuse of his family. Jackson Goodman, who also lives near English, was notified to keep sober. James Pro, editor of The English News, was notified to publish that the White Caps would attend the election next November, and that all persons detected buying or selling votes or acting dishonorably in any way would be treated to 200 lashes. The people of Crawford County are much excited, and an attempt will be made to organize a large company of good citizens to capture the outlaws. An attempt will also be made to get Governor Gray to send the State militia to the county.

Sullivan's Prediction.

SAN FRANCISCO, May 3.—It is reported that the steamer Queen of the Pacific was sunk by Sedgen. The divers found the keel port on her starboard side open. Several weeks ago half-dozen spiritualist state writers came out with a prediction that the Queen would go down this spring. The prediction was freely circulated and their reputation sanked on its fulfilment. A searching investigation will be made.

THE STUBBORN LEAGUERS.

NATIONALISTS IN ENGLAND WILL IGNORE THE DECREE.

It is Said that the Vatican Did Not Aim at the National Irish Movement but at Revolution—Editor O'Brien Again Convicted Under the Crimes Act.

LONDON, May 3.—The Chronicle's Rome special says: "Capt. Ross is still in this city, engaged in a semi-official manner in the negotiations commenced by the Duke of Norfolk with the Vatican. He has received a letter from the Duke stating that he is greatly satisfied with the papal rescript."

The Daily News's correspondent at Rome says he has the best authority for denying the report that Archbishop Walsh will resign.

The London and Liverpool branches of the National League have passed resolutions expressing confidence in Parnell, and declaring they will pay no attention to the rescripts of the Pope.

Not a Pulliest Act.

BERLIN, May 3.—The Germania, Catholic, notes that a rescript emanating from the congregation of the holy office is not a political act. "The Pope," it says, "sees two distinct movements in Ireland—one rational, the other revolutionary. Archbishop Walsh has been distinctly assured that the Vatican will not hinder the former movement."

Gilhooly Released.

DUBLIN, May 3.—Mr. Gilhooly, M.P., who was sentenced to two weeks' imprisonment for offences under the Crimes Act, was released to-day. A large crowd greeted him as he left the prison. In a speech Mr. Gilhooly referred to the Pope's rescript. He said the plan of campaign protected rack-rented tenants, and he did not believe the bishops and priests would ever deprive the people of that most potent weapon.

O'Brien Gets Three Months.

DUBLIN, May 3.—The trial at Loughrea of Wm. O'Brien, M.P., was concluded to-day. Mr. O'Brien was convicted and sentenced to three months' imprisonment. Mr. O'Brien was charged with violating the Crimes Act by advising the people in a proclaimed district to join the league. Mr. O'Brien declined to make a speech in his own defence.

Another Irish Meeting Proclaimed.

DUBLIN, May 3.—A meeting announced to be held at Mitchellstown on Friday in connection with the coming trial of Mr. Condon, M.P., for offences under the Crimes Act has been proclaimed.

Manitoba Legislative Notes.

WINNIPEG, May 3.—The question of exemption from taxation claimed by the Canada Northwest Land Company was brought up in the legislature this afternoon, and it was charged that thousands of dollars were due to various municipalities. A motion that the Government should make a test case by suing the company on behalf of the municipalities was opposed by Premier Greenway, who intimated that he would give increased grants to municipalities interested, by which they could take concerted action.

Mr. Kerchöffer, who was alluded to by Premier Greenway as the new leader of the Opposition, moved an address to the Governor-General praying that the C. P. R. should construct the branch from Brandon to the Souris coal fields before winter, that section being denuded of fuel.

Bad Boys at Orangeville.

ORANGEVILLE, May 3.—At the Police Court to-day ten boys, between the ages of 9 and 15, were placed on trial, a few of them charged with petty larceny and minor offences, and others with burglary. It came out in evidence that many more of the youths of the town are implicated, the most of them belonging to respectable families. The cases were adjourned until Wednesday next.

The Cardwell Nomination.

ORANGEVILLE, May 3.—Notwithstanding the article in The Empire to-day advising the Conservatives to nominate Mr. R. S. White, a son of the late member, the outlook in Cardwell is altogether in favor of a local man.

The Empire's article was telegraphed to Montreal and appeared simultaneously in The Gazette of Montreal.

TORONTO TOPICS.

Messrs. Hughes Bros., wholesale dry goods merchants, Toronto, suspended payment at 3 o'clock yesterday afternoon, owing to inability to meet engagments amounting to $90,000, £4000 of which was due in England and about $10,000 locally. The Canadian Bank of Commerce, with which the firm did their banking business, declined to advance the amount and no course was open but that of suspending. The total liabilities, according to the officers of the bank, are $235,000. The indirect liabilities, consisting of business paper discounted, are $250,000. This paper is held by the Bank of Commerce, but after careful estimation it has been found that $125,000 is questionable, and for that amount the bank puts in a ranking claim on the estate. The assets cannot be ascertained, but it is alleged that the estate will pay 60 cents on the dollar.

Visitors to the Exhibition grounds will remember seeing an old wooden building opposite the western entrance to the grounds. It was originally used as a summer hotel, but lately it has been tenanted by a lot of bad characters. During the past few months a man named Dan McCarty and his family have been living there. McCarty was drunk most of the time, and so was his wife. The other day he was taken ill and yesterday morning he died, drunk. A reporter went down to see the remains and was horrified. The man had literally been eaten by worms. The wife was lying drunk on the floor, and a neighbor said that Constable Wright of Parkdale had seen the remains. Coroner Lynd has issued a burial order, which will be executed at the town's expense.

THE BEHRING'S SEA.

The dispute regarding the fisheries of the Behring's Sea is not confined to this country and the United States. Other nations have an interest in the question and even United States vessels have been seized by officers of that country for fishing in those waters. Negotiations are in progress with a view to the settlement of the questions involved, and these are, as diplomatic correspondence usually is, slow in bringing about results. Congress has ordered an investigation into the particulars regarding titles and seizures, and this will probably assist in settling the matter.

Alaska became the property of Russia by discovery in 1741, the Russian traveller, Behring, planting the flag of that country among the glaciers. Trading in seals was developed, and in 1821 the Russian Government issued an ordinance reserving exclusively to its subjects the transactions of commerce and fishing along the coasts and among the islands. This called for protests from the United States and Great Britian, and a convention was signed by which Russia gave up any exclusive claim to any part of the Pacific ocean. In 1867 the United States purchased Alaska from Russia for $7,200,000, and it set up a claim to exclusive jurisdiction and made a contract with the Alaska Sealing Company, giving it exclusive privileges to catch a fixed number of seals each year. It is on account of this contract that United States vessels, not belonging to the company, have been seized. Governor Swineford's report of the manner in which this company oppresses the people has led Congress to appoint a committee to investigate the charges.

The Canadian and English Governments are pressing the matter, and correspondence is passing regarding it. A settlement will be brought about, no doubt, as soon as possible.

CONTEMPT OF COURT.

The case of Mr. Hawke, the New Brunswick editor who was imprisoned and fined for contempt of court, is freely discussed in the press. The presiding judge said that discussion and criticism of a judge's decision was allowable, but that Mr. Hawke went beyond proper bounds in assailing Judge Fraser. It is quite proper that judges should have power to enforce order in the court and to punish offenders who unnecessarily interrupt or interfere with the business of the court; but would not justice be served and the judges protected if cases arising out of criticisms after a decision had been given, and made outside of the court, were tried as to the facts by jury, as in other cases? The character of judges and the dignity of the courts would surely be as safe in the hands of juries as the character and property of litigants generally. If a person were convicted by a jury of contempt of court, or unjustly assailing a judge, there would be less disposition to sympathize with the prisoner. Mr. Hawke may have deserved the punishment he was sentenced to undergo, but the manner in which he was tried is used by his friends to create sympathy for him that he does not appear to be entitled to.

Queen Victoria's reception at Berlin was respectful and cordial. The correspondents of United States papers for some reason would make it appear otherwise, but the comments of the German papers show that she was cordially received by the people as well as by the court.

The Globe acknowledges Sir John Macdonald's great abilities, his geniality, his cheerfulness, his fidelity to his associates and the warmth of his regard for his intimates. If it had gone further and acknowledged his patriotism and devotion and great services to his country it would still have been within the mark.

For Children Starving to Death

On account of their inability to digest ordinary food, Scott's Emulsion can be digested and give strength and flesh when all other food fails. See what Dr. A. H. Peck, Penn. Med. College, Pittsoodise, says: "I have used and prescribed Scott's Emulsion of Cod Liver Oil, and find it an excellent preparation agreeing well with the stomach, and its continued use adding greatly to the strength and comfort of the patient." Put up in 50c. and $1 size.

REVIEWS.

The Illustrated London News—American reprint edition—stands well in favor. It is replete each week with illustrations of current events and people who are now prominently before the world. Affairs in the German Empire are given copious attention and leading topics are treated at length. The price is so reasonable ($4) that the News is finding it way into a large number of homes and becoming increasingly popular.

Death.—Mr. Harry Shearer, who was reported last week as being very low, died on Sunday and was buried on Wednesday afternoon in the Pine Grove cemetery. The funeral was very largely attended and more especially by young men. The Rev. Mr. Johnson officiated. The late Mr. Shearer was aged about 25 years. He was a natural mechanic and was highly respected by all who knew him. The family have the sympathy of the community in this the first break in the family circle.

Navigation.—The steamer Dora paid this burg a visit on Wednesday last, with her very popular Capt. White, who intends to run her this season as usual.

Musical.—Prof. Parker, of Peterborough, is establishing a class here for vocal and instrumental music.

Boating.—Boating is likely to be very popular here this summer, as all the old boats and canoes remain and several new ones are being added to our fleet.

Spring Work.—The farmers as a rule are well advanced with their spring work and nearly all the crops are in. The fall wheat looks very well as a rule, especially after the unusually cold and hot days and night.

Items.—Mr. George Reed, of Brockville, who has been visiting his sister, Mrs. McCrea, left on Wednesday morning for home.... The Rev. D. McCamus is here on a visit to his parents.... The cheese factory started on Monday last.

Fatality Burned.—On Monday night last, between eleven and twelve o'clock, as Mrs. Menogue, relict of the late P. Menogue, was retiring for the night, the lamp she was carrying exploded. The oil was thrown over her person and her clothes took fire. Two ladies in the house, the Misses Macfarlane, hurried to her assistance and with a quilt put out the flames. Mrs. Menogue was burned about the left arm and her face very much disfigured. Other parts of her body were injured, it is thought that she inhaled some of the flame. She lingered in agony until Wednesday night, when she expired. The occurrence is one that cast a gloom over the neighborhood.

GIFTS OF POISON.

It is time that respectable merchants combined with consumers for the suppression of all gift, prize and lottery schemes in connection with the sale of articles of merchandise. These schemes are not only demoralizing to legitimate business and to the morals of the community, but in the extent in which they are being carried in the sale of articles of food have become a source of great danger to the public health. They are, no matter in what form they appear, nothing more or less than devices to swindle honest and unsuspecting people.

It is gratifying to learn that in some instances the officers of the law have taken hold of the matter. In New York, and also in Chicago, parties who in this way offered gifts to purchasers of their packages have recently been arrested upon indictments for lottery swindling. The latest candidates, both for public execration and criminal prosecution are, the manufacturers of the alum baking powders, who are both by means of gifts and lottery tickets disposing of large quantities of their corrosively poisonous compounds, which are so well known to be detrimental to health that no housekeeper will admit them to her kitchen knowingly. This form of swindle is not only being peddled from house to house, but under the promise of large profits to be realized, the manufacturers are entrenching themselves behind the counters of many grocers by getting them to offer the alum goods with the gifts or lottery tickets attached, thereby shifting the liability to prosecution, in part, upon other, and perhaps innocent parties. Every grocer or dealer for instance, who sells or offers for sale any of the prize or lottery baking powders is a criminal in the eye of the law and, liable upon conviction, to fine and imprisonment, while those who sell the gift goods are morally as responsible, for they are offering an inducement, or prize, to housekeepers to use a food that contains a corrosive poison. This is a predicament in which it is not possible our grocers will care to place themselves when they come to think seriously of the matter.

It must be borne in mind that every one of these gift or prize baking powders are alum baking powders. These powders cost less than four cents a pound to produce; the gift or prize costs but a few cents more. They are sold at the price of a first class baking powder, so that the swindle, in a commercial sense, is enormous. But the chief iniquity of the business consists in selling as presumably wholesome an article of a positively injurious character, and by means of gifts or bribes inducing servants or unsuspecting housekeepers to purchase and use it in our daily food.

There should be some prompt method of reaching these dangerous practices and punishing the parties engaged in their promotion. If the present laws are not ample, we commend the matter to the consideration of our State Board of Health for recommendation of such additional legislation as shall be effective for the protection of the public.

A DISCOURSE ON PERTINENT POINTS.

Goughs in Humor and Eloquence.

LEND US YOUR EARS. WE'LL AMPLY REWARD YOUR LENDING.

We'll read you a lecture full of Eloquence on how to save money. We'll teach you the Humorous points of the Clothing Trade. Humor and Eloquence have a place in our business as well as on the public platform. We Humor every day the wants and wishes of Customers. We spend tons of Eloquence in expatiating on the value and virtues of our stock. It's not wasted. When we make a satisfied customer we gain the benefit of his Eloquence. Does he not call together his friends and neighbors and boom the many advantages of dealing at GOUGH'S. We purpose to send rolling down the aisles of time a booming echo that shall carry to posterity the fame of the Great and Wonderful Cheap Men, the Giant Clothiers: the People's Progressive and Popular Providers: the Napoleons of the Clothing Trade of Peterborough. (Cheers and Applause).

GOLDEN OPINIONS.

"Had I worn GOUGHS' best line of Trousers, I might even now have been in power. Have I made a mistake?" E——d Bl—e.

"It strikes me that these GOUGHS are benefactors to the people of the Midland District. They should be in the Cabinet. Wish to thunder I could catch them." Sir J—n Mc——d.

"What we do not want is Commercial Union. What we absolutely need is many more men like GOUGH BROS., of Peterborough, they are a Commercial Union themselves." Sir L——d T——y.

"The men who can sell two suits where only one suit was sold before are clearly philanthrophists of the first water. I don't say I mean GOUGH BROS., but I am looking that way all the same." Hon. Mac——e B——l.

"(At Cincinnati)—"The greatest stumbling block to absolute Free Trade with Canada, is, I find, the business done by GOUGH BROS., at Peterborough. Our best men can do no better. They could'nt if they would. Their cheap prices and good goods are a standing menace to Annexation." E——s W——n.

BANKERS.—Bank of Toronto and Canadian Bank of Commerce
SOLICITORS.—Dumble & Leonard.

TO DEPOSITORS.—Deposits are received by this Company both on current account and for periods of one year or longer. The rate of interest paid on amount deposited on current account and which may be withdrawn by check in such sums as the depositor may from time to time require, is four per cent., either paid or compounded half yearly, and the rate on yearly deposits is five per cent.

TO INVESTORS.—The five and ten years five per cent debentures of this Company which are issued in denominations of $100, $200, $500 and $1,000 each, transferable by endorsement, with half-yearly interest coupons attached, payable at the Head Office of the Company in Peterborough, or at any Branch of the Bank of Toronto in Canada, afford a safe and convenient mode of investment.

The funds of the Company being invested with the utmost care and precaution, no better security can be offered to depositors or debenture-holders, they having a first claim or mortgage on the whole Assets of the Company, the Shareholders having the second. The last audit shows that the amount so invested was over $1,310,223.89, and on securities of at least double that value.

By the Laws of Ontario, Trustees, Executors and Administrators may deposit Trust Funds of the estates which they control in this Company, and are free from all further liability, a privilege of which many have largely availed themselves.

TO BORROWERS.—Money is obtainable from this Company on approved Real Estate Security at the Lowest Current Rates of Interest. The Mortgage may be paid by yearly instalments or otherwise, as may be agreed upon, the interest ceasing at once on all amounts paid on account of the sum borrowed. Applications may be made either to the Head Office, or to any of the Agents.

AS MUCH A SECRET AS EVER

To the Editor of the Review:—Sir—How in the world has C. B. Routley jumped into such a big slice of Wall Paper trade? Why, it seems as if one couldn't pass his store without running against a load of Wall Paper in the arms of some pleased looking customer. I'm half inclined to think there must have been lots of boodle in the Wall Paper business before Routley started it and that the people have found out that he has broken the combination. Eh? what did you think, Mr. Editor? And yet you occasionally hear of spasmodic attempts to get down to Routley's prices, in order to head him off; but still it seems as much a secret as ever how he keeps up the run

Yours truly,

HOUSEFURNISHINGS.

At this season many Housekeepers are replenishing their supplies of Tableware and China. City folk are furnishing summer cottages; country folk are filling up the dressers and cupboards of the old homestead; town's folk are picking and choosing here and there. Many would be glad to know of a place whose special business is to meet these wants and desires; that aims to furnish essentially good wares at consistently low prices; that offers the choice of many different dinner services, and yet does not compel you to take an entire set of any pattern, but allow you to select each course of a new design, or buy any portion of the set you may need; that does not try to impose ideas or wares upon purchasers, and yet is ready to advise which of the many wares is most desirable and suitable; and, if wished, will make a careful selection of pattern. When you want Tableware will you give us the opportunity to serve you.

FRIDAY, MAY 4, 1888.

NOTICE

From this date all notices in local columns of the DAILY or WEEKLY REVIEW, of meetings where a collection is taken or admission fee charged, (Sunday services in churches excepted), must positively be paid for at following rates, per line (12 lines to the inch.):—

First insertion per line 5 cents per day.
Subsequent " " " "
If 3m one week " " 3 " " "

No notice inserted for a less amount than 25 cents.

THE CITY AND SUBURBS

Weather Probabilities.

Strong winds, gradually veering to south and south-west; mostly cloudy weather, with occasional rains; higher temperatures.

Some Big Drives.

At the golden lion, of course. Big drives in dress silks. 20 pieces pure silk, colored Mervellieux, worth $1.00 per yard, for 75 cents. These are new colorings and, mind you, great bargains.

Methodist Conference.

The Bay of Quinte Conference will meet at Lindsay on June 7th. The plan of services has been prepared. The Rev. J. C. Wilson, of Ashburnham, will conduct the conference love feast on Sunday morning.

Threatening.

About 11.30 last evening, a young man went to the police station and informed Officer Stewart that a man had threatened to take his life, and actually had taken possession of his bed, at Snowden's livery barn. Harry Lynch was the defendant and at the Police Court this morning he was allowed to go with a warning.

Wm will pay the highest market prices in cash for Eggs and choice fresh Butter at The Pantry. d96

Baseball.

The Belleville Ontario thinks the directors of the P. A. A. were "in error in concluding that the baseball club would have to be professional to enter the league. There will be amateur players in the league as well as professional ones, and President Brennan would find that baseball was the most popular game he ever struck. It would draw well in Peterborough."

Statute Labor Cases.

Wm. Eastland and Dennis Daly were charged at the Police Court this morning with neglecting or refusing to pay the two dollars demanded from them for statute labor tax, by Collector Cumming. Neither of them appeared and a fine of $5 and $2.10 tax and $3.30 costs was imposed. Another defendant produced a certificate that he was a volunteer and the charge against him was dismissed.

Wanted!

The name of that intelligent Peterborough citizen who has never heard of Will Carleton. "Breathes there a man with soul so dead" that his heart has never been moved by the touching recital of "Over the Hill to the Poor House," or his risibles agitated over the humor of "The Editor's Guests" and the logic of "Uncle Sammy." Should there exist in some unfrequented haunt such a benighted individual, pray let one of our city missionaries hunt him out, bring him too the hall Thursday evening, May 10th, and he shall have a place on the stage. 1d105

HAVING decided at The Pantry to clean out our entire stock of Crockery and Glassware, we will give astonishing bargains to all who will favor us with their patronage. d96

Local Licenses.

The local licenses have come in very slowly this year and the chief constable has determined to collect them at once, so that those who are delinquent had better call around and see the Town Clerk and settle up at once, or pay Police Court costs.

A Reward.

Mr. LeBrun offers $100 reward for the apprehension and conviction of the person or persons, who burglarized his premises on Thursday morning. So far there is not the slightest clue, but the officers in all the neighboring places are on the alert.

Gone Up.

As will be seen by reference to another page, the firm of Hughes Bros., Toronto, has gone to the wall. The partners are well known here, where, until recently, they owned some lots. Expressions of regret at the course affairs have taken are heard on all sides.

OUR Teas, Coffee and Spices at The Pantry are remarkable for their excellent quality and low prices. d96

The Odds.

A meeting of the members of Otonabee Lodge No. 13, I.O.O.F., was held on Thursday evening. There was a very good attendance. On Monday evening next, brethren from Lindsay, Norwood and other neighboring places will be on hand and the lodge team will demonstrate the floor work.

For the Capital.

Col. Rogers has been officially notified by Col. Allen, of the Queen's Own Regiment of Toronto, that that corps will visit Ottawa on the Queen's birthday and take part in a big military demonstration to be held there. They will pass through Peterborough on the Canadian Pacific, on the evening previous to the holiday.

One Month.

Hugh McDonald is a shoemaker, and claims Campbellford as his abiding place. He has been in town before and he has also faced the P.M. on previous occasions. On Thursday he was drunk and raised a disturbance away out on Bon Accord-st., and officer Adams was sent for to place him in limbo. He did so and at the court this morning Hugh had nothing to say. He was sent up, with hard labor, for one month.

Fire.

Shortly after two o'clock this morning, fire was discovered in the grain storehouse, on Bethune-st., occupied by Mr. W. H. Wrighton and owned by Mr. Mayor Stevenson. When first seen the inside was one mass of flame and it was thought that the whole row of wooden buildings with their contents were doomed to destruction. An alarm brought out the firemen in double quick order and in a very short time two splendid streams from a neighboring hydrant were playing on the flames, which had secured a strong hold of the building inside. The firemen did really splendid work and in a few minutes they had gained the mastery and in the course of half an hour not a vestige of fire remained. The fire originated in the office, but the cause of it is a mystery and incendiarism is hinted at. This, and the other storehouses in the same locality, are easily got at and any evil disposed person could start a blaze. A quanty of wheat, peas and corn was damaged and some destroyed. The building and contents were insured and the loss will not be heavy. The firemen certainly deserve great credit for the work they did and the excellent time they made in getting out.

Slaughter Sale.

W. J. Morrow is running off his immense stock of Tea to make room for fresh importations. Evaporated Peaches, Peas, Apricots, Apples, &c., &c. Pure Maple Syrup. Telephone, Opera House block.

A Smasher.

A vag confined in the cells last night amused himself and disturbed the police by smashing one of the cell buckets. They are made of iron and this morning a rim, a bottom and a hoop were all that was left of a brand new iron bucket.

$100.00 Reward.

By reference to the advertisement it will be seen that Mr. H. LeBrun offers a reward of $100 for information that will lead to the apprehension of the thieves who robbed his store of the goods stolen. The police have now, in addition to doing their duty, the incentive of gaining a substantial reward. Mr. LeBrun is determined to leave no stone unturned to get at the bottom of the robbery and to bring the perpetrators to book.

The Masonic Excursion.

The proposed excursion to Toronto early in June under the auspices of the local branch of the Masonic order, may almost be considered a fixture. At a meeting of a general committee held on Thursday night Mr. R. E. Wood was appointed chairman, Mr. W. Menzies, secretary, and Mr. R. J. Lee, treasurer, and various details were placed in the hands of sub-committees.

THOSE prize packages of Teas at The Pantry are decidedly the best value for the money in the trade. d96

Personal.

The familiar face of Mr. Fred. Rutherford appeared on the street to day, he with Mrs. Rutherford having returned to town on Thursday. Since his departure some eight years ago Mr. Rutherford has been engaged in business at Milwaukee, Wis., where he held a responsible position with the great wood-working firm of Sanger, Rothwell & Co. Some time ago Mr. Rutherford decided to go in for the medical profession and after preliminary study entered the Buffalo University, where he has just successfully closed the first year with honors, taking first in a large class. He will spend the summer in Peterborough, returning to Buffalo for the winter term.

Up North.

The Uxbridge Times says:—"About six weeks ago a person, calling himself Wm. McMaster, arrived here from Peterborough and rented a house from Mr. Isaac Bateman. When asked by Mr. Bateman when he expected his wife, he replied that he had no wife, and Mr. Bateman came to the conclusion that he was a widower. A short while afterwards a housekeeper came here, but Mr. Bateman thought it was only natural that a widower should have his deceased wife's sister for a housekeeper, and proceeded to make them comfortable. McMaster and the woman who was with him remained here a little over three weeks, when they paid a month's rent and suddenly left for Newmarket. Last week McMaster's wife turned up in Uxbridge, and told the following story:—Wm. McMaster, who lived here lately, is my husband, and left me about six weeks ago in Peterborough. When he left Peterborough he took a girl with him, together with my children, whom he brought to Uxbridge, but I followed them and they went to Newmarket. Again I followed them and with the aid of two constables gained possession of my children and seized my household goods, which they had in their possession. Now I am going to Newmarket to get my goods and take them back to Peterborough where I shall live with my children. Do I want to live with McMaster again? No, I cannot say as I do. One who is as fickle as he has been does not deserve to have a wife. Why, do you know, he is fifty-seven years old, and if he has no sense now, I do not believe he ever will have any. McMaster is a carpenter by trade, but has not worked at his trade for some time, having been travelling with the Wizard Oil Co. Would I not dislike to have my name published in connection with his scandal? Well, I would for my children's sake, but it is necessary to do it in order to expose his villiany, and I am going to make an exposure if it is at all possible."

Don't use any more nauseous purgatives such as Pills, Salts, &c., when you can get in Dr. Carson's Stomach Bitters, a medicine that moves the Bowels gently, cleansing all impurities from the system and rendering the blood pure and cool. Sold by all Druggists.

The First Symptoms

of all Lung diseases are much the same: feverishness, loss of appetite, sore throat, pains in the chest and back, headache, etc. In a few days you may be well, or, on the other hand, you may be down with Pneumonia or "galloping Consumption." Run no risks, but begin immediately to take Ayer's Cherry Pectoral.

Several years ago, James Birchard, of Darien, Conn., was severely ill. The doctors said he was in Consumption, and that they could do nothing for him, but advised him, as a last resort, to try Ayer's Cherry Pectoral. After taking this medicine, two or three months, he was pronounced a well man. His health remains good to the present day.

J. S. Bradley, Malden, Mass., writes: "Three winters ago I took a severe cold, which rapidly developed into Bronchitis and Consumption. I was so weak that I could not sit up, was much emaciated, and coughed incessantly. I consulted several doctors, but they were powerless, and all agreed that I was in Consumption. At last, a friend brought me a bottle of Ayer's Cherry Pectoral. From the first dose, I found relief. Two bottles cured me, and my health has since been perfect."

Ayer's Cherry Pectoral,

BENSFORT.

Correspondence of the Review.

RAPID PROGRESS.—The farmers in this vicinity are making rapid progress with their spring seeding, the land being dry early this year and very easily worked. A very large acreage of peas and barley are being sown.

LOW WATER.—The lowness of the water in the river and the many creeks is the subject of much comment. It is a great many years since they were known to be so low at this season of the year.

FALL WHEAT.—The fall wheat has stood the very hard usage from the frost this spring better than was expected. It is generally looking very well and with a few warm showers in addition to favorable weather the prospects are very good for a crop.

A CROP ALMOST DESTROYED.—The clover crop, however, did not fare so well, it being almost entirely destroyed by the frost. The loss of the clover crop is a great drawback to the farmers, a good many of whom would rather lose a seeding of fall wheat than a good catch of clover.

RECOVERING.—We are glad to report that Mr. John Bradshaw, who has been dangerously ill with inflammation of the lungs, has had a change for the better. A complete recovery from his illness is now hopefully expected.

SPORTS.—What has become of the Bensfort Foot Ball Club? It is time they were organizing again to commence practice for the amusement of our citizens. It is the intentions of the Silver Stars Lacrosse Club to commence practice as soon as the hurry of the spring work is over.

NORTH MONAGHAN.

Correspondence of the Review.

MISSTATEMENTS SQUARELY MET.—It having come to the ears of Mr. Wm. M Fair, proprietor of the thoroughbred stallion, "John Anderson," that certain parties were circulating the statement that "John Anderson's" dam was not a full bred mare, Mr. Fair, not being the man to publish a false or misleading statement in the way of business or otherwise, at once wrote to the importer of "John Anderson" and received the following reply:—

BROUGHAM, Ont., April 26th, 1888.

W. M. Fair, Esq.:—

DEAR SIR.—Yours of 24th came duly to hand. I have been away from home, consequently did not answer sooner. In regard to the report about your horse, John Anderson (3707) there is no ground for any such report. The reason that people try to hurt you by, telling what is false is that the truth or what can be seen will not harm your horse's trade in any way, so they tell what they think the people cannot prove to the contrary. John Anderson (3707) was sired by Geo Anderson, West Fingask, Oldmeldrum, Aberdeenshire, Scotland, and was from his best mare, Beatrice (2), (the second mare that appears in Scotch Clydesdale Stud Book) and was sired by Lord Derby (485). Beatrice (2) was sired by Donald Dinnie (237) that was commended at the Highland Society's Show at Aberdeen in 1868. Beatrice's dam was Dalby by Tom Carstairs (880).

We always considered John Anderson one of the best and best bred horses that we have imported, and any man that will prove that there is anything false about the pedigree as given above can have the best stallion in our stables for nothing.

When any man has to make a season for his horse by slandering others, he will make a poor season. It is far better for them when they can, to show something about their own horses to attract custom, than it is to have to resort to falsehood to keep them from patronising others.

Yours truly,

JOHN MILLER.

DAILY MARKET REVIEW.

TORONTO, May 3.

To-day's estimated receipts of hogs at the Union Stock Yards, Chicago, were 14,000; official yesterday, 13,713; shipments, 4785; left over, about 4000; cattle receipts, 7500; market fairly active.

To-day's receipts of grain by the car lot at Chicago were: Winter wheat, 7; spring, 57; corn, 248; oats, 89; rye, 16; barley 132.

BEERBOHM'S REPORT.

Beerbohm reports to-day as follows: London—Floating cargoes—Wheat steady, corn nil. Arrivals—Wheat, 2. Sold—Wheat, 1. Waiting orders—Wheat, 4. Cargoes on passage—Wheat and corn steady. Liverpool—Spot—Wheat firm, corn quiet and steady.

LIVERPOOL MARKETS.

Liverpool reports wheat steady to-day, with demand fair and holders offering moderately. Corn quiet and steady, with demand poor. Quotations: Spring wheat 6s 9d, red winter 6s 9d, No. 1 Cal. 6s 8½ to 6s 11d, corn 5s 8d, peas 5s 9d, pork 67s 6d, cheese 58s 6d, colored cheese 64s.

OSWEGO BARLEY MARKET.

Oswego reports barley unchanged and quiet to-day, with No. 2 extra Canadian held at 71; No. 1 Canadian at 73 and No. 1 bright Canadian at 75.

Chinese Not Wanted in Australia.

MELBOURNE, May 3.—The Legislative Council of Victoria has ordered that the vessels bringing Chinese immigrants to the colony be quarantined during the pleasure of the authorities. The steamer Afghan, with 269 Celestials aboard, the landing of whom the authorities here refused to permit, has sailed for Sydney, where another attempt will be made to land them. It is not probable that the attempt will be successful. At a meeting held in the Town Hall here yesterday, over which the Mayor presided, it was unanimously resolved to demand that the Government impose a poll tax of £100 upon every Chinese immigrant, with an annual residence tax of £20.

In brief and to the Point.

Dyspepsia is dreadful. Disordered liver is misery. Indigestion is a foe to good nature.

The human digestive apparatus is one of the most complicated and wonderful things in existance. It is easily put out of order. Greasy food, tough food, sloppy food, bad cookery, mental worry, late hours, irregular habits, and many other things which ought not to be, have made the American people a nation of dyspeptics.

But Green's August Flower has done a wonderful work in reforming this sad business and making the American people so healthy that they can enjoy their meals and be happy.

Remember—No happiness without health. But Green's August Flower brings health and happiness to the dyspeptic. Ask your druggist for a bottle. Seventy-five cents.

TORONTOS' THIRD VICTORY

WHEN AND WHERE THE LACROSSE TEAMS WILL PLAY.

Meeting of the Committee of Management of the Canadian Lacrosse Association—League and Association Games Yesterday—Racing at Ivy City—Spots of Sport.

TROY, May 3.—In the second game with Toronto to-day the home team were clearly outplayed at every point. Keefe was given poor support, while the Torontos backed up their pitcher in splendid shape, and Harinett, Rickley and McLaughlin were frequently applauded for pretty plays in their positions. The Torontos batted well and got their hits when most needed.

But eight innings were played and the last one was not finished, as the supply of balls ran out. Seven balls had been in use and were knocked over the fence. These were gobbled by the boys, for whom free admission was not sufficient inducement to return the sphere, and the game had to be stopped with some players still to bat in the eighth inning. Score:

Among the Combines.

OTTAWA, May 3.—Ald. A. W. Morris, a Montreal manufacturer of cordage and binding twine, was examined by the Combines Committee this morning. He gave the 1887 price fixed by the association to which he belonged as 10½c a pound, less the freight to any part of Ontario, and to Owen Sound on all shipments to Manitoba. All the manufacturers were in the association in 1887 except a new firm in Brantford. He withdrew from it only a few weeks ago.

W. J. Copp, the Hamilton stove man, testified that he was vice-president of the Canada Iron Founders' Association, which regulated the manufacturers' prices of stoves but not the retailers' prices. There were eighteen stove firms in it, but many were not, and there was consequently competition. Weight and ornament were the basis of prices. The association imposed penalties for infractions of the rules, but under present prices for stoves the profits were unsatisfactory. The recent advance of 5 per cent. was occasioned by the increase of 10 per cent. paid to workmen.

EPPS'S COCOA

BREAKFAST.

"By a thorough knowledge of the natural laws which govern the operations of digestion and nutrition, and by a careful application of the fine properties of well-selected Cocoa, Mr. Epps has provided our breakfast tables with a delicately flavoured beverage which may save us many heavy doctors' bills. It is by the judicious use of such articles of diet that a constitution may be gradually built up until strong enough to resist every tendency to disease. Hundreds of subtle maladies are floating around us ready to attack wherever there was a weak point. We may escape many a fatal shaft by keeping ourselves well fortified with pure blood and a properly nourished frame."—*Civil Service Gazette.*

TURNBULL'S

What is Being Worn!

The season's New Lines in Dress Goods present many varieties. These we have, for our trade calls for the Best and Newest.

Ladies will admire our new Wool Merveilleux; the Silk Merveilleux have been very popular and French manufacturers in order to increase trade have brought these goods out in wool. Handsome goods, with a glossy finish, very pretty and stylish. Ten shades, all really attractive and sure to make up well.

HENRIETTA CLOTHS are strong lines. Selling fast and well they deserve it. Imported direct from German trade centers. A line that we happened to run across in looking through a line of German samples, and they have turned out much better than we expected. Ladies coming in to buy cheap Dress Goods almostinvariably take one of these cloths. The Sea Green and Medora shades are new and not found in other goods. This line is confined exclusively to ourselves.

OMBRE STRIPES, a combination goods for dresses much worn in the cities. No complaint of being a year behind with the styles can now obtain. The OMBRE goods are of silk and wool; quiet in pattern; make up handsome and are a lady like material, clearly the best line of New Dress Goods shown anywhere.

MILLINERY is with us a busy Department. Every morning we are opening up new cases which we are receiving daily. Americans are getting ahead of the English and we are profiting by their, push and enterprise. You shall too, if you will leave us your order. MANTLES, MANTLE CLOTHS, DRESSES and DRESS GOODS, we have in every variety. We make up anything ordered without a fault.

PRINTS, SPECIAL, one case of light prints (usually sold in the trade wholsale at 10cts, choice) we are selling retail at 10c. No need to look for Bankrupt goods.

CAPITAL NOTES.

A Delegation Who Refuse to Talk—The Public Debt.

Premier Sullivan and ex-Lieut.-Governor Haviland and Mr. Laird of Prince Edward Island are in the city to interview the Government. They refuse to talk about the nature of their mission.

J. P. Donnelly of Fort William has been appointed Commissioner of Police within the District of Algoma.

The name of the steamer Champion has been changed to Cambria.

The customs outport of Silver Islet survey of Port Arthur has been abolished.

A statement of the public debt of the Dominion on April 30 will appear in to-morrow's Gazette. The total debt is $227,935,681, do. 31st of March $228,235,428, or a decrease of debt of $299,627. The expenditure on capital account to March 31 was $3,606,542, expenditure in April $410,423, total $4,076,966.

The statement of the revenue and expenditure on account of the consolidated fund of the Dominion as by returns furnished to the Finance Department to the night of April 30, 1888, shows as follows: Revenue—Customs $1,702,899, excise $484,963, postoffice $271,869, public works (including railways) $389,476, miscellaneous $65,609. Revenue for month of April, 1888, $2,914,818; do. to March 31, 1888, $25,709,312; total $28,624,131. Expenditure for month of April, 1888, $2,334,200; do. to March 31, 1888, $24,670,286; total $26,004,486.

Annual general meetings will be held as follows: Canada Southern Railway Company, June 6, at St. Thomas; Niagara River Bridge Company, June 6, at St. Thomas; Federal Bank of Canada, July 19, Toronto.

The Quebec Bank has declared a dividend of 3½ per cent.

"The R. H. Smith Company" are applying for letters patent of incorporation. They intend manufacturing steel saws, files, etc. The capital stock is placed at $75,000, and the chief place of business St. Catharines.

Sir John Macdonald on Monday will introduce a bill to amend the Dominion Land Act. He will also move that when the House adjourns on Friday next it will stand adjourned until the following Saturday at 1 o'clock, Government measures to have precedence.

Mr. Mills will move the House into committee on a motion declaring that in the opinion of Parliament the public interest and good faith to the Province of Ontario require that Imperial legislation should be asked for in connection with the boundary between the Dominion and that province as recommended in the finding of the Judicial Committee of the Privy Council.

Mr. Bine, Deputy Minister of Agriculture, Toronto, is here interviewing the staff of the geological survey with reference to the arrangement of a mineral exhibit for the Cincinnati exhibition.

Mr. White (Renfrew) gives notice of a resolution to repeal secs. 194, 195 and 196 of the Railways Act and substitute therefor sections providing for the erection of fences on either side of railways of the height and strength of an ordinary division fence, with proper gateways, crossings and cattle guards.

Erastus Wiman, N. Green and Col. Snow are expected here to-night in connection with the Short Line Railway.

It looks as though Parliament might get through business now by May 22, in time for prorogation, and before the departure of the Governor-General. The work of the House is attacked in a practically way and the speeches are agreeably short and generally to the point. Members are becoming languid, the greensward of grass and balmy sunshine of the outside form too strong an attraction after a long season of ice and snow for the average representative, and few of them occupy their seats in the afternoon, at least unless they are specially interested in the legislation under consideration.

A "C" TRAIN WRECKED.

It is Believed that the Disaster was the Work of Strikers.

CHICAGO, May 4.—A Chicago, Burlington and Quincy freight train was wrecked late last night when entering the Louisville, New Albany and Chicago yards, and under circumstances which led to the belief that it was the work of strikers or sympathizers. After the engine and two cars had passed, some unknown miscreant threw a switch, and the next fifteen cars were derailed and piled up a hopeless wreck in the ditch. Just as the switch was thrown a man near the rear of the train threw a tie on the track, wrecking the last three cars. At the same time a car of "bope," material of a highly inflammable nature used for oiling wheels, which was in the center of the train, was set on fire. It blazed up fiercely and speedily, and the flames spread to the adjoining cars. The Lake fire engines responded to an alarm, and but one car was burned. The wrecked train was strung along the tracks for nearly half a mile, three or four tracks being blockaded.

Just after the wreck occurred a policeman found the conductor, James A. Edwards, lying near the track at Forty-fifth street, badly bruised and nearly insensible. When he revived he said three men had boarded his caboose at the Thirty-seventh street crossing and attacked him. He was beaten over the head with some instrument, and his papers and valuables were taken, and then he remembered nothing more until he was found by the police. The physicians think he will die.

A Chicago and Atlantic engineer named Daniel Hannon, who was found lurking in the vicinity, was arrested on suspicion. The crew of the wrecked train was made up entirely of new men.

Thrown Out by the Railway Committee.

OTTAWA, May 4.—The bill of Dr. Hickey, M.P., for the construction of the Ottawa, Morrisburg and New York Railway, was thrown out to-day by the Railway Committee of the Senate by a vote of 16 to 8. There was a big discussion. Dr. Hickey, M.P., supported the measure, which was opposed by Mr. F. Keefer for the Ottawa and Waddington road. The reason given for this action is that the old charter has not yet expired.

A BUSY DAY IN THE HOUSE.

THE BUCKET-SHOP BILL READ A SECOND TIME.

Measures Which Have Received the Royal Assent—The Quarantine Vote Passed in Committee—Pension Items Discussed—The Militia Estimates—Capital Notes.

OTTAWA, May 4.—In the House this afternoon the Bucket Shop Bill and the bill amending the Territories Real Property Act were read a second time.

In answer to Mr. Laurier, Sir John said unsold lands which the Canadian Pacific Railway Company propose to entrust to trustees under the terms of the resolutions now before Parliament amounted to 14,934,487 acres. Those sold but with sales still incomplete amount to 2,625,829 acres.

The House being summoned to the Senate chamber Sir Wm. Ritchie, Deputy Governor, there signified the royal assent to the following measures this session:

Act respecting the Port Arthur, Duluth and Western Railway.

An act to incorporate the Canada and Michigan Tunnel Company.

An act respecting the Canada Southern Railway Company and Erie and Niagara Railway Company.

An act to amend the acts relating to the Great Western and Lake Ontario Shore Junction Railway Company.

An act respecting bonds on branch lines of the Canadian Pacific Railway Company.

An act to amend the act incorporating the Shuswap and Okanagon Railway Company.

An act respecting the Grand Trunk Railway Company of Canada.

An act to enable the Esquimault and Nanaimo Railway Company to run a ferry between Beecher Bay in British Columbia and a point on the Straits of Fuca within the United States of America.

An act respecting the South Norfolk Railway Company.

An act to amend the act incorporating the Hereford Branch Railway Company and to change the name of the company to the Hereford Railway Company.

An act respecting the Lake Nipissing and James Bay Railway Company.

An act to incorporate the Collingwood and Bay of Quinte Railway Company.

An act respecting the River St. Clair Railway Bridge and Tunnel Company.

An act to incorporate the Western Ontario Railway Company.

An act to incorporate the Pontiac and Renfrew Railway Company.

An act to confirm a certain agreement made between the London and Southeastern Railway Company and the Canada Southern Railway Company.

An act to incorporate the St. Lawrence and Adirondack Railway Company.

between the Grand Trunk Railway Company of

An act to confirm a certain agreement mabe Canada, the Canada Southern Railway Company and the London and Port Stanley Railway Company,

An act to reduce the capital stock of La Banque Nationale.

An act to incorporate the Chinook Belt and Peace River Railway Company.

An act to amend the act to incorporate the Kincardine and Teeswater Company.

An act to incorporate the Ottawa and Parry Sound Railway Company.

An act to amend the act re the Manitoba and Northwest Railway Company of Canada.

An act to amend the act to incorporate the Moncton Harbor Improvement Company.

An act respecting a certain treaty between Her Britanic Majesty and the President of the United States.

An act to amend the revised statutes of Canada, chapter 181, respecting punishments, pardons and the commutation of sentences.

An act to amend the Adulteration Act, chap. 107 of the revised statutes of Canada.

An act to amend the Consolidated Revenue and Audit Act, chap. 29 of the revised statutes of Canada.

An act further to amend the law respecting procedure in criminal acts.

On return the Commons in committee passed the vote asked for quarantine service.

The vote for pensions, $40,910, was next proposed.

In answer to Sir Richard Cartwright, Sir John said the pension about to be voted to Mrs. Gowanlock, whose husband was killed by Indians at Duck Lake, would likely be the same as that which has been voted to Mrs. Delaney, whose husband was killed at the same time, namely, $400 per annum.

On the item of $3355 for pensions payable on account of the Fenian raid, Mr. Denison pressed that these pensions should be paid in advance. The appropriation asked for pensions to the veterans of the war of 1812 is $4580, being $30 each for 151 veterans. This shows a reduction of $2100 since last year, which means the disappearance of seventy of these old people during the year.

Mr. Kirkpatrick urged that where veterans left widows these should continue to receive the amount of the annual pension.

Sir A. Caron said there was no probability of this request being granted.

Mr. Jones of Halifax brought up the question of Snider ammunition, which he had heard was defective. Sir Adolphe Caron, in answer, read a letter from Col. Holmes, commanding "C" Battery, British Columbia, endorsing the ammunition after trial by the battery there.

On the subject of drill pay Col. O'Brien advocated having the corps drill every year.

Col. Denison endorsed this recommendation and complained that while the expenditures on the permanent force had been steadily increasing, that for the volunteer militia had been decreasing. He regretted this very much. He was not opposed to the schools, but he thought they should not be developed at the expense of the rest of the force. If the present policy was pursued he was afraid we would soon have nothing but expensive schools for the training of militia which has passed out of existence. He urged that the whole life blood of the militia should not be drained into the schools.

Major-General Laurie held it to be unreasonable that we should spend a million and a third dollars a year and have only 20,000 men trained in return. To drill double the number would only cost a million and a half, and this would enable the whole force to be drilled every year in place of the rural corps suffering the injustice of training only once in two years.

Sir Adolphe Caron said that while it was very desirable that the whole force should be trained every year the Government had to be as prudent as possible in expenditure for that purpose at present.

Major Price asked for more frequent issue of clothing to artillery, especially trousers. Sir Adolphe Caron said it was the intention to meet the request by issuing canvas suits to be worn for heavy work.

The total militia estimates were passed without further material objection or explanation.

The railway department estimates were taken up and discussed until 1.10 a. m., when the House adjourned.

The Color Line in Religion.

ANDERSON, S. C., May 4.—The South Carolina Episcopal diocesan convention yesterday unanimously adopted a resolution looking to absolute separation of the two races into different organizations. The colored churches cannot be compelled to accept the arrangement, but it is believed they will.

The Hughes Bros.' Failure.

MONTREAL, May 4.—The stock market was strong this morning, and considering the circumstances and the stocks which showed most strength there is a suspicion that the strength is not natural, that it is rather stimulated or feverish. For months or rather years there have been rumors periodically in circulation regarding the financial position of Messrs. Hughes Bros., one of the largest dry goods firms of Toronto. A few months ago, when rumors were last afloat, it was declared that this firm was quite sound. The announcement of its failure this morning was therefore a surprise to the brokers, and there was a good deal of astonishment when the price of Commerce stock, instead of declining, advanced from 119½ to 121, the heaviest sales being made at the highest prices. Over 2000 shares were sold at this morning's board at 120½ and 121.

Some of the more bullishly inclined say that certain wealthy Canadian Pacific shareholders are the heavy purchasers. Under the circumstances the strength and activity of the stock looks more like the result of some kind of a deal.

Some conservative brokers believe that the effect of Hughes Bros' failure was long discounted. There were, no doubt, anticipations of it but the strong reassurances given so lately must have misled many. This afternoon the market continued fairly strong, Bank of Commerce sold down 1 per cent. to 120, the latter price being offered at the close, sellers 120½. It is reported that Mr. Duncan McIntyre was the purchaser of 3000 shares of the Bank of Commerce stock sold this morning. Whether it was bought for investment or not is the question which "bulls" and "bears" are fighting over. The report that Hughes Bros. will continue business with their credit practically unimpaired has, no doubt, had the effect of weakening the power of the announcement of their suspension.

ARRESTED FOR CONSPIRACY.

A Deep-Laid Plot to Cause the Death of a Young Woman.

BOSTON, May 4.—Last evening Chief Inspector Hancom and Inspectors Gerraughty, Houghton and Collins arrested Luke W. Holman, a real estate broker of Washington-street, on the charge of conspiracy to cause the murder of Miss Emeline B. Holman of Worcester. In December Holman's father died leaving property valued at $25,000. Miss Holman, who is a half-sister to Luke, was appointed executrix and Mr. Holman was to be allowed the use of $2000. Miss Emeline was keeping company with a gentleman and Mr. Holman thought the two would be married and that the property would be squandered. To prevent this Holman conceived the the idea of either murdering his sister himself or getting some one to do so. Holman has two residences, one at the Aldine House on Court street, this city, and one at No. 1 Golden-street, Worcester.

He could not nerve himself to do the deed and came to Boston in search of some one who would carry out his plans. He found a man who agreed to get another party to do the killing. The man gave the matter away to Chief Inspector Hancom. It was arranged that Holman should visit the party who was to do the job on Boston common on May 1. Holman was promptly on hand and so was Inspector Collins, the latter being disguised as a ruffian. Holman did not suspect anything. He said he wanted to have Miss Emeline put out of the way. He told the supposed ruffian where she lived, gave him a key to her room, handed him her picture, told on which side of the bed she generally lay—she having a lady room-mate—and also gave him a plan of the room. He also suggested that as there were three gold watches in the room he had better take them so that robbery would be ascribed as the motive, and he also suggested as an easy way to kill the woman that a darning-needle be run through her heart.

The murderer was to receive $1000. Inspector Collins agreed to the job and a second meeting was arranged for last evening. Holman was again on hand, and in company with Collins was Inspector Houghton, who was to act the part of a second ruffian. The plans for the murder were again gone over. The job was to be done to-night, and the money was to be paid on May 18. Holman was to be in Springfield.

Seeking a Subsidy.

OTTAWA, May 4.—A large deputation arrived in the city this morning to interview the Government on a proposal subsidy for the extension of the Guelph Junction Railway from Guelph to Goderich. Among the deputation from Goderich are Mayor Seager, Reeve P. M. Johnston, R. Radcliffe, W. Campbell and Dr. Holmes. The deputation had an interview with Hon. J. H. Pope at his residence and were well received, and their views listened to. They asked for a bonus of $3200 per mile.

Fatal Accident at Cornwall.

CORNWALL, Ont., May 4.—An accident took place in the Canada Cotton Company's mill this morning which cost a young man named Geo. Martin his life. It appears that young Martin, who is shipping clerk, had loaded the elevator with cases to bring them from the second flat to the finishing room. He had started the elevator, but it only went a few yards when the cable broke and the elevator came down upon the unfortunate young man and split his head open. He fell to one side and was picked up a corpse. He was the support of a widowed mother and family and was respected by all who know him.

DOESN'T TAKE IN ENGLAND.

THE EARLY CLOSING MOVEMENT REJECTED IN THE COMMONS.

The Sweating System Examined by a Committee of the House of Lords—The Proposed Memorial to Matthew Arnold—A Speech by Mr. Gladstone.

LONDON, May 4.—The House of Commons has at last found courage to reject one of those pseudo-humanitarian schemes so often presented in the name of the masses. It rejected by three to one Sir John Lubbock's bill for closing shops every evening at 8 o'clock except Saturday. Men so remote from each other as Mr. Maple and Mr. Bradlaugh joined in opposing this measure, for which hardly anything deserving to be called an argument was adduced. Sir John Lubbock is an able and amiable man, who allows his sensibilities to run away with his judgment on such questions. No bolder proposal to interfere with adult labor was ever made, none more completely ignoring the conditions of English life which he attempted to alter. The very people in whose interest Sir John believed himself acting are against the scheme, which would reduce London, in the evening, to a cemetery.

Very different from this eccentric attempt is the inquiry into the sweating system which Arnold White is prosecuting before a select committee of the House of Lords. A mass of evidence has been given relating to the boot and tailoring trades, where work is done at starvation prices by foreigners. The cabinet-makers were brought on the scene this week and a sensation has been created by disclosures affecting Maple & Co., who are the largest of the cheap houses in London. If these stories are true they grind the faces of the poor with scientific precision. The last stage in the process appears to be to pay the artisans who make the goods they pretend to make themselves in checks on Saturday after bank hours, and then charge from 5 to 15 per cent for cashing their own checks. Most of the papers suppress this evidence, or suppress the name of the firm. The Daily Telegraph reports both at some risk of an action for libel. Maple & Co., however, write this morning to say that they can disprove the evidence of the chief witness, and they deny the statements of Arnold White. Perhaps; but Mr. White has collected facts on the whole sweating system with care, and the case he has presented must be met in detail, if at all. The committee is still sitting, but I hear that the good effect of the evidence thus far given has shown itself in many trades.

Yesterday's meeting in the Jerusalem chamber of Westminster Abbey to consider a memorial to Matthew Arnold was itself a striking tribute to him. The Church of England, the University of Oxford, both Houses of Parliament, literature and society all were represented. Even the Government, which sent no delegate to his funeral, was present in the person of Lord Knutsford, the Colonial Secretary. The court alone continues to show no concern for the country's loss. The Dean of Westminster presided. The Archbishop of York, the Bishop of London, Lord Chief Justice Coleridge, Lord Justice Bowen, Mr. Justice Butt, the Earls of Derby, Roseberry, Stafford and Wemyss, the Master of Balliol, where Mr. Arnold studied; the Provost of Oriel, of which he was a fellow; Mr. Browning, Mr. Hughes, Frederick Harrison, Mr. Hutton, Archdeacon Farrar and many other eminent men and many ladies of distinguished position were present. But never had the business of any meeting been so ill prepared. No resolutions were ready, nobody knew what was to be done, and nobody had a definite view of what shape the memorial should take.

The resolutions ultimately adopted provide for creating an Arnold scholarship of English literature at Oxford and putting up a bust or medallion in Westminster Abbey. Lord Derby, Lord Coleridge, the master of Balliol, and the Archbishop of York all spoke and all agreed, but when this had been settled, George Russell introduced a fresh topic, urging that the money raised should be handed over to Mrs. Arnold for her own use. The speech and proposal were of good intention, but clearly out of place. The sense of the company was strongly against both. Finally a committee was left full power over the whole subject. The committee includes most of the names given above, besides Lord Tennyson, Mr. Lowell and Mr. Childs of Philadelphia, whose name was added on motion of Archdeacon Farrar, with cordial assent of the meeting.

The reception last night at the National Liberal Club was remarkable for numbers and for Mr. Gladstone's presence and speech. Over 2000 men and women thronged that huge and hideous building. Half this number squeezed themselves into the library and heard Mr. Gladstone. His speech was crowded with common places skilfully clad in rhetorical garb—perhaps as good a speech for the occasion as could have been made. What delighted all of us was to hear his voice once more, so clear and rich in quality, if not strong, with every note at his full command. He looked well, but worn, as well he might after all of last week's efforts, numerous enough to extract even from him the private confession that he thought he had done a good deal.

SATURDAY, MAY 5, 1888.

A PECULIAR CASE.

A WOMAN who calls herself Mme. Dis Debar, and "General" Dis Debar, have been committed for trial in New York on a charge of fraud. She pretended to be a daughter of the mad King Ludwig of Bavaria, and professed to be a spiritualist at whose request the spirits of departed painters would produce portraits. She was successful in making a dupe of a New York lawyer of good reputation, named Marsh, who held public positions, and Mr. Marsh entertained herself and the "general" in his magnificent home. Here the walls were soon hung with pictures which Mme. Dis Debar said and Mr. Marsh believed were painted by spirit hands, but others who viewed the pictures aver that the walls were not adorned by them, in fact that they were daubs. But Mr. Marsh was so thoroughly convinced of the genuineness of the manifestations that he gave his house to the spiritualists to be used as a spiritualistic temple. This was not to the disadvantage of Mme. Dis Debar and her "general," but friends of Mr. Marsh interferred and the spiritualists were arrested. Their friends from the other world who produced the pictures for them would aid them no longer, and they were committed to the Tombs to await trial.

It is strange that people who are otherwise clear headed and even clever can be duped by such tricks as Mme. Dis Debar practiced, but spiritualists thrive, though it may be that not many of them are so successful, even for a time, as was Mme. Dis Debar.

As the Ontario Government had decided to add another to the number of Ministers, it is not probable that objection will be made on personal grounds to the choice made from among their supporters in the Legislature. But Mr. Mowat has been a long time in finding out that a Minister of Agriculture who understood agriculture was necessary. With a Cabinet of six Ministers—five of them lawyers—it should not have been necessary to add another salary, and additional expense to the people, to find room for one farmer.

SIR JOHN announces that he will take to himself the portfolio of Minister of Interior in the meantime. This is a slight error. He will take the salary and the department will manage itself.—Chatham Banner.

Mr. Thompson has taken the management of the Interior Department, but if Sir John had taken it he would not have received the salary. A Minister receives only one salary though he may have charge of several departments.

A SHORT time ago the European news was such as to lead one to believe that Crown Prince William was the idol of the people and that they were anxious to see him promoted to full power as Emperor. Now a cable despatch says that he is unpopular and has to be protected by extraordinary police precautions. The reports are contradictory and it is probable that neither is correct.

LINDSAY.

DEATH IN THE GAOL.—An inquest was held on Friday last in county gaol by Dr. Poole, coroner, on the body of the late Arthur Hunter, an imbecile, committed to gaol from Fenelon Falls as a vagrant. The evidence showed that little or nothing could be elicited from deceased during his life-time regarding his past history. He was supposed to have been in the vicinity of Millbrook before going to Fenelon Falls. On the last day or two of his life he was seized with epileptic convulsions, from which he died. Verdict accordingly.

ACCIDENT.—While out driving a few days ago Mr. Jas. B. Knowlson met with an accident which narrowly escaped fatal results. Mrs. Knowlson and Miss Nellie Knowlson were also in the phaeton, and when in the east ward a little dog accompanying them made a rush at some sheep on the road-side. The sheep rushed towards the horse, and by some means the horse turned rapidly around twice. The phaeton was upset and the occupants pitched out. Mrs. Knowlson feel on her face and was badly bruised and shaken up. He injuries were for a time considered quite serious, but she is now improving. Miss Nellie Knowlson was severely injured about the head but is recovering. Mr. Knowlson escaped without serious injury.—Post.

THE JEWETT HOUSE.—Mr. E. W. Johnston, the famous athlete, has purchased the Jewett House in this town and will henceforth be among us. Mr. Johnston is the right kind of person, and the Warder welcomes him here.

A SAD DEATH IN MANVERS.—The very many friends of William H. Ferguson of Lotus, Manvers, will learn with surprise and deep regret of his death last Friday at his home. Some weeks ago he cut his foot on the ball of his great toe, a slight scratch about half an inch long. No attention was paid to it for a day or two when it gathered and turned to blood poisoning. Everything was done to save the life of such a noble citizen but in vain. Deceased leaves a widow, daughter of Rev. W. C. Windel, of Lotus, and several children. He was in the prime of life being about 37 years old. For many years he was an exemplary member of the 45th battalion. He was very active in educational, church and in fact every good work. The sorrowing widow and family have the sympathy of the community.—Warder.

MINDEN.

ACCIDENT.—Mr. Robert Mortimer met with an accident on Friday last, which might have been more serious, but which causes him quite a little inconvenience While chopping at Mr. A. Mortimer's wood bee, the ax entered his foot just on the instep, inflicting an ugly gash, which is mending rapidly.

CHEESE FACTORY.—The Minden cheese factory is now a certainty. Mr. Reid has the complete plant purchased and on the way to Minden, and will arrive in a day or two. Mr. Mortimer, Mr. Brown and others have worked hard to establish a factory here and we are glad to be able to state that their efforts have at last been crowned with success. We are sure that the farmers in this section will speedily reap the benefit of their labors. We hope that everyone will patronize the enterprise to the utmost extent and so "boom" the factory.—Echo.

PORT HOPE.

ALMOST DROWNED.—On Tuesday a little son of Major McLean fell into Beamish's mill pond, and would have been drowned but for the prompt assistance of "Ems," a son of John Paterson. Little McLean had sunk for the second time when Paterson jumped into the water and rescued him. The rescuer has a record that he has reason to be proud of and which should be recognized by some public presentation of a medal. If what we hear is true, he has now saved three lives.—Times.

SEVERE ACCIDENT.—On Thursday afternoon Mr. David Boyd, Lot No. 5, 8th Con. Hope, took off the covers of the cooking stove to throw in some waste paper. It seems a quantity of powder was among the waste paper and an explosion took place. Not only was the stove badly demoralized, but Mr. Boyd was burned about the face and one of his eyes injured. We are glad to state he will suffer no permanent injury from the accident.—Guide.

Advice to Mothers.

Mrs. Winslow's Soothing Syrup should always be used when children are cutting teeth It relieves the little sufferer at once; it produces natural, quiet sleep by relieving the child from pain, and the little cherub awakes as bright as a button." It is very pleasant to taste. It soothes the child, softens the gums, allays all pain, relieves wind, regulates the bowels, and is the best known remedy for diarrhœa whether arising from teething or other causes 25 cents a bottle. The First Symptoms

Of all Lung diseases are much the same: feverishness, loss of appetite, sore throat, pains in the chest and back, headache, etc. In a few days you may be well, or, on the other hand, you may be down with Pneumonia or "galloping Consumption." Run no risks, but begin immediately to take **Ayer's Cherry Pectoral.**

Several years ago, James Birchard, of Darien, Conn., was severely ill. The doctors said he was in Consumption, and that they could do nothing for him, but advised him, as a last resort, to try Ayer's Cherry Pectoral. After taking this medicine, two or three months, he was pronounced a well man. His health remains good to the present day.

J. S. Bradley, Malden, Mass., writes: "Three winters ago I took a severe cold, which rapidly developed into Bronchitis and Consumption. I was so weak that I could not sit up, was much emaciated, and coughed incessantly. I consulted several doctors, but they were powerless, and all agreed that I was in Consumption. At last, a friend brought me a bottle of Ayer's Cherry Pectoral. From the first dose, I found relief. Two bottles cured me, and my health has since been perfect."

FAME VERSUS BUSINESS!

WE LEAVE IT TO THE WORLD TO JUDGE!

The People of the County, our Court! Satisfied Customers, our Witnesses! We Plead our Case and Carry off a Verdict!

In re GOUGH BROS. et al

THE COURT—The Bar will observe that the case is now open. You have heard the indictment read. It is clear and explicit. What say you, Gough Bros., why sentence of the Court should not be pronounced upon you?

GOUGH BROS.—May it please your Lordship:—To the serious charge that we have revolutionized the clothing trade in Peterborough we plead guilty. The facts are so apparent that denial were useless. But, may we ask the Court to consider extenuating circumstances of great weight. We have established a business by the people, for the people and of the people. We have placed within the reach of all clothing of any grade at prices that shatter Monopolies, and Paralyze High Prices. When the Court remembers that we have taken a $2.50 boy and clothed him in a 65c Suit of Clothes the Court will appreciate our enterprise. When the working man who wants Clothing can walk up to the trough and help himself to a suit at $2.50 there is something in life worth living for. When a pair of Pants that are a thing of beauty and a joy forever can be carried from our counters for the small sum of 25 cents, the Court will realize that our politicans are not all of our sincerest benefactors.

Should the Court, for example, so direct we will fit out our learned friend on the other side with one of our Special Made Suits and his immediate relatives will testify that the garments are better than most custom work; are cut from Stylish Patterns, made up by artists who consider Beauty and Finish and Good Work as a first requisite.

We ask the Court's inspection of a special line of 500 suits for Men and Youths. These are gems of purest ray serene, so Good, so Stylish, so Cheap, that stealing will become, in truth a struggling industry. Then we have secured a niche in the temple of fame by large sales of our best classes of All Wool, French Worsteds and English and Scotch Tweeds, fit for the wear of prince, pontiff or politician. This, your Lordship, is our plea.

THE COURT.—Gough Bros., you have ably stated your case. You are excellent counsel. The ruling of the Court is that you are honorably discharged and that the Court adjourn sine die.

GOUGH BROS.

THE WONDERFUL CHEAP MEN.

SPECIAL LINES:—Boys' Coats 19c. each; Boys' Suits 69c., $1.10 each and up. Parents, GOUGH BROS. will save you 50 per cent. on Children's Clothing. Men's Working Suits at $2.50, worth $5.50. Sunday Pants, $1.25, worth $2.50.

AS MUCH A SECRET AS EVER

To the Editor of the Review:—SIR—How in the world has C. B. ROUTLEY jumped into such a big slice of Wall Paper trade? Why, it seems as if one couldn't pass his store without running against a load of Wall Paper in the arms of some pleased looking customer. I'm half inclined to think there must have been lots of boodle in the Wall Paper business before ROUTLEY started it and that the people have found out that he has broken the combination. Eh? what did you think, Mr. Editor? And yet you occasionally hear of spasmodic attempts to get down to ROUTLEY'S prices, in order to head him off; but still it seems as much a secret as ever how he keeps up the run

HOUSEFURNISHINGS.

At this season many Housekeepers are replenishing their supplies of Tableware and China. City folk are furnishing summer cottages; country folk are filling up the dressers and cupboards of the old homestead; town's folk are picking and choosing here and there. Many would be glad to know of a place whose special business is to meet these wants and desires; that aims to furnish essentially good wares at consistently low prices; that offers the choice of many different dinner services, and yet does not compel you to take an entire set of any pattern, but allow you to select each course of a new design, or buy any portion of the set you may need; that does not try to impose ideas or wares upon purchasers, and yet is ready to advise which of the many wares is most desirable and suitable; and, if wished, will make a careful selection of pattern. When you want Tablewear will you give us the opportunity to serve you.

Weather Probabilities.

South-west to west winds, fresh or strong during the day; generally fair weather; not much change in temperature; fine and warm to-morrow.

WE will pay the highest market prices in cash for Eggs and choice fresh Butter at The Pantry. d96

Good Clothes at Fair's.

Good clothes are a badge of respectability. Who can afford to be indifferent to this fact? Very few. Then why even neglect it when fair, at the golden lion, can equip you so well and for so little money. Shall we tell you that we are doing fine Scotch Tweed suits to order at $16 and at $17, when at the same time these suits are worth fully from $3 to $5 more than we ask. Every man should look his apparel over, decide to have something new, set out for the golden lion and leave his order. You will be satisfied while we shall be gratified.

Englarged.

Mr. Thomas Beavis was a defendant at the Police Court this morning. Building Inspector Pope was the complainant and the charge was for erecting a wooden structure inside of the fire limits. Mr. E. B. Edwards, town Solicitor, appeared for the prosecution and Mr. R. E. Wood, for the defence. A plea of not guilty was entered, and after hearing the evidence of Mr. Pope, the case was enlarged until Monday morning.

J. J. Abroad.

Lindsay Warder:—"The largest and finest awning that has ever been put up yet in Lindsay was put up last Friday by Mr. J. J. Turner, the great tent and awning maker, of Peterborough, for Mr. Edward Daly, in front of his hotel. It is a perfect beauty, and works like a charm for so large an awning, being over thirty feet long. Mr. Turner deserves great credit for the style and workmanship he has displayed in getting up this awning. We believe he does the largest trade in awnings and tents that is done in the Dominion. It is hoped that the rest of our merchants will pull down the unsightly sheds they have in front of their stores and improve the looks of our fair and prosperous town by getting pretty awnings put up and sending their orders to J. J. Turner, Peterborough."

Hanlan and Kempt rowed at Sydney, Australia, this afternoon for the championship of the world. Hanlan was beaten, one telegraph office says by five boat lengths and the other gives it at ten. Evidently our friend Edward has seen his best days.

Potatoes.

Potatoes appear to be in great demand just at present, and those farmers who have a good supply of the spuds are reaping a rich harvest. They sold on the market at from $1.10 to $1.25 per bag. There is some talk of a syndicate of citizens being formed to bring in a few carloads and sell them at a reasonable price.

Change in Hotel Business.

The Lindsay Post says:—"Mr. Edward Daly, the well-known proprietor of the Daly house, after ten years management of this popular hotel, has retired from the business and goes back to his farm in Emily for the summer. During the time Mr. Daly has been in the hotel business he has made hosts of friends from all parts. He held the principal trade of the north country. Mr. Daly in retiring extends his thanks to his numerous friends for their support. Mr. J. J. Daly of Congress Hall will be his successor. Joe will carry on the two hotels and will make his guests comfortable as usual."

REMEMBER the great clearing out sale of Alexander's Bankrupt Stock begins on Saturday, May 5th. The public may rely on getting good goods at ridiculously low prices. Everything is marked down very low. W. W. JOHNSTON. 3d104

She Knew the Car.

Lindsay Post:—"On Tuesday morning of this week when the Midland train in charge of Conductor Boundy reached Millbrook a lady got on board and entered the smoking car. On being told by a Lindsay drummer who travels for a Brantford house that she was in the smoking car he was politely informed that she knew it and that if he would give her a match she would take a smoke. The request being complied with she was soon puffing away like a veteran. Her mode of lighting the match was truly wonderful and the way she expectorated would cause a drummer to turn green with envy. Her ticket read 'Millbrook to Lindsay and return.'"

Lacrosse.

The districts of the Canadian Lacrosse Association have been arranged by the committee. The Riverside club have been placed in the north-eastern district and the clubs they will contend with are as follows, per the schedule as published in the Toronto papers:—

Bradfords, of Bradford.
Stanleys, of Barrie.
Orillias, of Orillia.
Beavertons, of Beaverton.
Collingwood, of Collingwood.
Riversides, of Peterborough.
Victorias, of Meadford.

J. Henderson, Sec., Barrie.

Masonic Notes.

Peterborough Lodge 155 has taken the initiative with regard to the observance of St. John's Day, June 24th, next, and will no doubt, be assisted by sister lodges and chapters of the district. The date falling on Sunday, it is proposed to attend, in a body, divine service at St. Andrew's church where an appropriate sermon will be preached. The committee to look after details will arrange with one of the resident clergymen to officiate or possibly invite some reverend gentleman a member of the order from a distance to occupy the pupil and officiate, with, of course, the concurrence of the officials of St. Andrews.

Bro. J. Watson, Valley Lodge, No 109, Rochester, N. Y., paid fraternal visit to Peterborough Lodge on Friday evening. Bro. Watson briefly addressed the lodge, congratulating the local order on their handsome rooms and their evident zeal and proficency in the work.

Don't use any more nauseous purgatives such as Pills, Salts, &c., when you can get in Dr. Carson's Stomach Bitters, a medicine that moves the Bowels gently, cleansing all impurities from the system and rendering the blood pure and cool. Sold by all Druggists.

Don't

go to Sproule's for poor photographs, he don't make such. His work is only the very best. Prices the same as the others, and cash. No credit given. Corner of Hunter and George-sts.

The Market.

The market this morning was well attended by both buyers and sellers, and considerable produce changed hands. Prices remain about the same all around, as quoted by us last week.

The Police.

Nothing definite has yet been done regarding police duty. The new chief is rapidly getting things into shape and it is probable that the men will take day duty week about.

Slaughter Sale.

W. J. Morrow is running off his immense stock of Tea to make room for fresh importations. Evaporated Peaches, Peas, Apricots, Apples, &c., &c. Pure Maple Syrup. Telephone, Opera House block.

Engrossed.

The resolution of condolence with the widow and family of the late Hon. Thomas White, passed at the last meeting of the Town Council, has been handsomely engrossed by Henry Grundy and forwarded to Montreal.

A Good Price.

Two acres of land in the township of North Monaghan, on the other side of the residence of Mr. R. A. Morrow, were sold yesterday at the handsome figure of $275 per acre. Land adjacent to the town is rapidly increasing in value.

At the Wickets.

The Toronto cricket club have made an engagement to play here on July 19th, instead of the date formerly chosen.

Mr. W. J. Minore, acting Secretary of the cricket club, is in communication with the Rochester cricketers relative to arranging a match here during the coming summer.

St. Paul's Church.

Anniversary services, Monday May, 14th. In connection with the Sabbath services there will be a service of praise, on the evening of the above date. A choir of over 50 voices will present a splendid programme. Silver collection at the door. 3d103-2w18

License.

A meeting of the License Committee was held on Friday night to consider the matter of licensing shooting galleries. As it stands at present the fee is $25 per day, a prohibitory figure. The Committee will recommend that the license be fixed at $20 for the first month and $10 for each succeeding month.

Arbor Day.

Friday was Arbor Day for the public schools in villages and rural school sections. In Ashburnham the grounds were cleaned up, a large number of trees planted and some handsome flower beds made. The youngster went in for it with gusto and good work was done.

Fruit Trees.

Large numbers of fruit trees, of home and foreign growth, are coming by the railways just now. Almost every other farmer seen on the streets to-day had one or more bunches of trees in his wagon. Peterborough is made the distributing point by a large number of agents, for a wide territory.

Down Deep.

Men are engaged in making a connection with the main sewer from the premises of Mr. Neill. In digging the trench this morning it was found that the frost is down a depth of over five feet and the ground is as solid as a rock. The men also came across an old water service that at one time entered the establishment of Messrs. Elliott & Tierney.

OUR Teas, Coffee and Spices at The Pantry are remarkable for their excellent quality and low prices. d96

Personal.

The Rev. A. B. Mackay, who occupies the pulpit of St. Paul's church on the 13th, is one of the foremost pulpit orators of the Presbyterian denomination in Canada, and the church is fortunate in having bee a able to secure him for their anniversary services.

Mr. Elias Burnham, our old and well known citizen, is confined to his house by illness. On Friday afternoon he was suddenly seized with faintness and fell prostrate in his own yard. Assistance was soon secured and the aged gentleman carried into the house. Dr. King is in attendance and reports that his patient is rapidly recovering. An attack of malarial fever is ascribed as the cause.

Cricket.

The first cricket match of the season will take place on Tuesday next, when the following foemen, chosen by the President and Vice-President respectively, will contend. The game will commence at 3 o'clock sharp and the gentlemen named will much oblige by being on the ground sharp on time:—

PRESIDENT.	VICE-PRESIDENT.
S. Ray	W. H. Day
W. A. Stratton	M. Hamilton
W. Hamilton	W. H. Wrighton
W. J. Green	W. J. Minore
C. H. Allison	R. B. Rogers
T. Rutherford	R. W. Muncaster
J. Crane	J. D. Parker
A. C. McDonald	Dr. Burnham
K. Kincaid	R. A. W. Hay

DEBATE AND CONCERT.

Entertainment by the Peterborough and Lindsay Y. M. C. Associations.

On Friday evening a debate and concert were held in the lecture room of St. Paul's Church under the auspices of the Peterborough Young Men's Christian Association, in which members of the Lindsay Association took part. Although the weather was unfavorable, there was a good attendance. Judge Weller presided and in opening the proceedings commended the Y. M. C. A. for the good work they were doing.

The first number on the programme was a chorus by the Lindsay Glee Club and the Peterborough Quartette. "Battle Song" which was sung with good effect. It was followed by "Home by the Sea," given by the Glee Club, and the Lindsay young men captured the audience with their singing at once. In response to an encore they sang a humorous selection, "I've Lost My Doggy." The Peterborough Quartette sang "Harvest Moon," and also being encored gave "Call John," one of the most successful pieces of the evening.

The debate then took place—a "return match," the first inter-Association debate having been held at Lindsay. The question was the desirability of adopting manhood suffrage. The Peterborough representatives, Messrs. S. R. Armstrong and W. H. Hill, upheld the affirmative, and the Lindsay young men, Messrs. R. M. Anderson and F. F. McPherson, the negative. The leader of the affirmative argued that that manhood suffrage would be of benefit to the country and that young men were entitled to votes. Mr. Anderson contended that manhood suffrage would admit worthless people to the privileges of the franchise and that where it had been tried evil results had followed. Mr. W. H. Hill combatted some of the arguments of the previous speaker and took up an historical view of the question from the affirmative standpoint. Mr. McPherson favored a franchise based on intelligence and feared that with manhood suffrage the intelligence would be swamped by numbers. He dwelt on the historical aspect of the question at length. The leader of of the affirmative closed the debate with a short reply. The chairman, in giving his decision, said he understood the question to be manhood suffrage. The negative side had presented some able arguments in a forcible manner, but the affirmative had resisted them and in his opinion has established their case. He therefore decided in favor of the affirmative.

The Quartette and Glee Club sang "Swing Does Gates Ajar," which was warmly applauded. The Glee Club gave "Moonlight on the Lake," a good song well rendered, and in response to a hearty encore a chorus with banjo accompaniment. The Quartette sang "the Soldier's Farewell," and another encore followed, responded to with "Three Kittens." The singing of both clubs was excellent, and the Lindsay Glee Club scored a marked success.

Mr. J. R. Stratton moved a vote of thanks to the debaters and singers. The Rev. P Clifton Parker seconded the motion, which was carried, and acknowledged by the leaders of the debate. Mr. Geo. M. Roger, President of the Peterborough Association, moved a vote of thanks the Chairman, which was seconded by Mr. A. Clegg and adopted amid applause. Judge Weller acknowledged the vote, and the proceedings terminated with "God Save the Queen."

After the close of the entertainment the Lindsay visitors, with the Chairman of evening, and the President and other members of the Peterborough Association, enjoyed a short time together. A supper was served, and the success of the Associations toasted, followed by short speeches. The musical portion of the party gave various selections, and Mr. Dixon contributed ventriloquism. A pleasant hour was spent together before the company separated.

Facts in Humble Verse.

Had Will Carleton never written anything but "Over the Hill to the Poor House," his name would live in the hearts of thousands during succeeding generations. That pathetic protest against indifference in the care and protection of the aged and helpless has made Carleton's name a household word all over the continent. "The Editor's Guests" is a rich and delightful tale in humble verse of the inside life of a newspaper viewed from the editorial room. Carleton will read these poems and others equally familiar on Thursday evening next, May 10th. None should miss this opportunity of seeing and hearing the author of "Farm Ballads." Secure your seats early and bring in your friends. Plan of the hall at Davis' bookstore.

Brevities.

—One tramp found shelter at the police station last night.

—Complaints regarding vagrant cow are heard from the outskirts.

—An unusually large number of farmers were in town to-day and business seemed brisk.

—The rain of yesterday did thousands of dollars worth of good to crops throughout country.

—Friday was the anniversary of Bishop Jamot's death, and special services were held at St. Peter's Cathedral.

—The population of the town of Peterborough as finally revised by the assessors is 8989, eleven less than 9000.

—Small pigs were plentiful and lively on the market this morning. They ran in prices from $2 to $20 per couple.

—The Horticultural garden is being rapidly got into shape. Two men are employed all day in gardening, etc.

—Messrs. Roach and Bone will speak at the Gospel Temperance Song Service to-morrow (Sunday) afternoon at 4 o'clock. Suitable music will be provided.

—The owner of a reaper that has been on the market square for over a year will have quite a bill to pay if the market clerk cares to exact the toll allowed by law, one dollar per day.

—Dominion Oddfellow:—"We congratulate Bro. E. E. Henderson and wife, on the advent of a son and heir, and hope that in due season the son may become a brother, and be as faithful and zealous an Oddfellow as is his father, in fact a 'chip off the old block.'"

—A paragraph in an issue of Thursday last taken from the Hastings Star, stated that Mr. Jas. Flynn, who was leaving the village to come to Peterborough, proposed entering into partnership with his brother-in-law. This is not the case. Mr. Flynn has rented the shop adjoining Craig's carriage shop in Ashburnham, and opened out in business at his trade. People in want of good service will be well attended to.

—The early potato bug is here. He is active and energetic and ready for business. The supposition that he had bid us a sorrowful and reluctant farewell is not well grounded, for while Mr. W. Collins was turning over a piece of garden ground on Friday he collected, by actual count, 977 bugs from among the earth thrown out of a trench 15 feet long and 2 feet wide. One result of publishing this item may be to raise the price of Paris Green, but the facts must stand.

WATER FILTERS,

To insure good health it is absolutely necessary to have pure water, and no water is entirely free from floating matter and disease germs without thorough Filteration. The majority of cases of Typhoid and other low fevers are in a measure caused from unfiltered and impure water, so that every family who values its health should have a reliable Filter. Numerous Filters are offered to the public varying in points of excellence, but for Cheapness, Efficiency and Durability, our Filters cannot be surpassed.

No Corroding Substances are used in construction.

The Packing material is the most Powerful specially prepared granulated Carbon.

It will last for years with the ordinary use of a family, and the material may be obtained at any time for replenishing at small expense.

The construction is our own patent, and combines all the essential requirements of a first-class Filter with access for cleansing. Instructions company each Filter. For sale only in Peterborough at

CHINA HALL.

The Fire Limits.

Under the new town by-law the fire limits are as follows:—"All that part of the Town of Peterborough within the following areas or limits shall be deemed to be within the 'Fire Limits' of the said town, that is to say: bounded on the south by King-st., on the west by Bethune-st., on the north by McDonnel-st., and on the east by the line forming the easterly limit of all the lots known as lots number four, east of Water-st, and within such fire limits, no wooden building of any kind, or addition thereto, and no wooden fence of more then six feet in height, and no building other than with main walls of brick, iron, stone, concrete, and roofing of incombustible material shall be erected or placed."

BRIAR-ROOT WINS THE ONE THOUSAND GUINEAS AT NEWMARKET.

Racing at Washington and Nashville—Rain Prevents the Torontos from Winning—League Games Yesterday—Spots of Sport.

LONDON, May 4.—This was the fourth and last day of the Newmarket First Spring Meeting. The race for The One Thousand Guineas resulted in another surprise to be added to the long list of 1888. The outsider Briar-Root won easily from a field of thirteen. The race was run under the following conditions:

The seventy-fourth running of the One Thousand Guiness Stakes, a subscription of 100 sovs each, h. ft., for 3-year-old fillies, 126 lbs. each; the owner of the 2d fillly to receive 200 sovs. out of the stakes, and the 3d to save his stake; Rowley Mile—55 subs.

The Washington Races Ended.

WASHINGTON, D.C., May 4.—The most successful meeting in the history of the National Jockey Club closed with to-day's races. Not since its organization has it been as favored by good weather, and never before has the average been so large. Faster time has been made here than is recorded at this meeting, but the average is high. Results:

FIRST RACE—Purse $300 for beaten horses, 6 furlongs. Patrocles, 107, won; Bendigo, 98, 2d; and Maroon, 105, 3d. Ten others ran, including Queen of Elizabeth. Time, 1.15¾.

SECOND RACE—Selling purse, one mile. Sam Brown, 115, won; Orlando, 112, 2d; and Nellie B., 105, 3d. Three others ran. Time, 1.45.

THIRD RACE—Purse $500, seven furlongs. Sam Harper, Jr., 120, won; Golden Reel, 91, 2d; Sam Keene, 105, 3d. Seven others ran. Time, 1.29.

FOURTH RACE—Handicap sweepstakes of $20 each, with $600 added, 1¼ miles.—Richmond, 116, won; Wanberg, 95, 2d, and Ten Booker, 104, 3d. Four others ran. Time—1.56¾.

FIFTH RACE—Purse $500; steeplechase. Full course.—Wellington, 147, won; Bob Miles, 158, 2d, and John Henry, 156, 3d. Time—4.17.

Racing at Nashville.

NASHVILLE, Tenn., May 4.—A good card, with the Trial stables as an especial attraction, drew a large crowd to the race track to-day.

FIRST RACE—6 furlongs; Doughty, 93, won; Tam o Shanter, 2d, and Jim Nave, 3d. Time 1.17¾.

SECOND RACE—1 mile; Tudor, 91 won; Fronerica, 96, 2d, and Comedie, 99, 3d. Time 1.45.

THIRD RACE—Linck's Hotel Sweepstakes, 9 furlongs, Little Minch, 120, won; Marshal Luke, 93, 2d, and Way, 114, 3d. Time 1.58.

FOURTH RACE—Trial Stakes, for 2-year-olds, 5 furlongs, Kee-Wee-Na, 107, won; Longfish, 110, 2d, and Hub S., 110, 3d. Time 1.04.

FIFTH RACE—Six furlongs, Kermesse, 91, won; Jennie McFarland, 102, 2d, and Biddy Bowling, 110, 3d. Time 1.18¾.

Torontos Deprived of a Victory.

ROCHESTER, May 4.—The Torontos made their first appearance here for the season of 1888 to-day and attempted to defeat the Flour City nine, but were prevented by rain. The visitors had two innings and three runs scored, while the Rochesters got a run in the first innings and were unable to play the second. The game promised to be a slugging match.

The Public Accounts Committee.

OTTAWA, May 4.—In the Public Accounts Committee to-day Mr. McMullen drew attention to the expenditure for repairs, etc., at Rideau Hall. Mr. Hutchinson, clerk of the works, was examined and said he carried out repairs which were authorized by a board of surveyors consisting of Capt. Breadfeild and somebody else from the Public Works Department. Sir Richard Cartwright pointed out the desirability of there being a fixed vote by Parliament for this work. This sentiment was echoed generally by other members of the committee.

In Brief and to the Point.

Dyspepsia is dreadful. Disordered liver a misery. Indigestion is a foe to good nature.

The human digestive apparatus is one of the most complicated and wonderful things in existance. It is easily put out of order.

Greasy food, tough food, sloppy food, bad cookery, mental worry, late hours, irregular habits, and many other things which ought not to be, have made the American people a nation of dyspeptics.

But Green's August Flower has done a wonderful work in reforming this sad business and making the American people so healthy that they can enjoy their meals and be happy.

Remember:—No happiness without health. But Green's August Flower brings health and happiness to the dyspeptic. Ask your druggist for a bottle. Seventy-five cents.

A Boston writer places the number of Parsees in the world at not more than 90,000 souls, and says that half of them are in Bombay. The other half are in Boston, of course.

The Supreme Court Vacancy.

OTTAWA, May 4.—A good deal of talk about a successor to Judge Henry on the Supreme Court bench is premature. Well-informed people say his successor will be Judge King, one of the ablest members of the New Brunswick bench. Judge Henry represented Nova Scotia. The chances are that the vacancy will be filled by a New Brunswicker, as it is an open secret that the destiny of Hon. Mr. Thompson, Minister of Justice, is the chief justiceship of the Supreme Court. But Mr. Thompson cannot be spared just now, and they think he can easily wait. Should Mr. Thompson go on the bench he will represent Nova Scotia, which, in view of this possibility, will not be given a representative just now. Names also mentioned in connection with Judge Henry's successorship are those of Mr. D. L. Harrington of New Brunswick and the following Nova Scotians: Chief Justice McDonald of the Provincial Supreme Court; Robert Sedgewick, Deputy Minister of Justice; W. A. Henry, son of Judge Henry; Mr. W. Graham and Mr. Harrington, the latter a clever lawyer.

FOR SALE.

TENDERS

Will be received up to the 15th May, instant, by the undersigned, for the purchase of the whole or any portion of Park Lot Number six, in Township Lot Number Thirteen, in Concession Thirteen of the Township of Monaghan, in the County of Peterborough, now incorporated in and forming part of the Town of Peterborough, containing TEN acres more or less.

This lot, better known as the "R. C. Church Lot," is the most desirable property that has been offered for sale in Peterborough for many years. It has a frontage on Park-st. of 256 feet, adjoining Mrs. Gilmour's residence; a frontage of 1914 feet on Gilmour-st. and the same on the Gravel Road, continuation of Charlotte-st.

Gilmour-st. is the most beautiful street in the Town for private residences, and being within ten minutes walk of the Post Office and Market-Square, this sale affords to intending purchasers an opportunity of procuring a beautiful and convenient site for a home.

TERMS:—Ten per cent. cash; twenty per cent. additional in 30 days from acceptance of the Tender, and the balance will be allowed to remain on mortgage for such term, not exceeding ten years, as the purchaser desires with interest at 6 per cent. per annum.

TURNBULL'S

What is Being Worn!

The season's New Lines in Dress Goods present many varieties. These we have, for our trade calls for the Best and Newest.

Ladies will admire our new Wool Merveilleux; the Silk Merveilleux have been very popular and French manufacturers in order to increase trade have brought these goods out in wool. Handsome goods, with a glossy finish, very pretty and stylish. Ten shades, all really attractive and sure to make up well.

HENRIETTA CLOTHS are strong lines. Selling fast and well they deserve it. Imported direct from German trade centers. A line that we happened to run across in looking through a line of German samples, and they have turned out much better than we expected. Ladies coming in to buy cheap Dress Goods almostinvariably take one of these cloths. The Sea Green and Medora shades are new and not found in other goods. This line is confined exclusively to ourselves.

OMBRE STRIPES, a combination goods for dresses much worn in the cities. No complaint of being a year behind with the styles can now obtain. The OMBRE goods are of silk and wool; quiet in pattern; make up handsome and are a lady like material, clearly the best line of New Dress Goods shown anywhere.

MILLINERY is with us a busy Department. Every morning we are opening up new cases which we are receiving daily. Americans are getting ahead of the English and we are profiting by their, push and enterprise. You shall too, if you will leave us your order. MANTLES, MANTLE CLOTHS, DRESSES and DRESS GOODS we have in every variety. We make up anything ordered without a fault.

PRINTS, SPECIAL, one case of light prints (usually sold in the trade wholsale at 10cts, choice) we are selling retail at 10c. No need to look for Bankrupt goods.

NOTES FROM THE CAPITAL.

Tax Sale Litigation Destitute Indians in the Peace River District.

OTTAWA, May 6.—The case of Laflamme v. the Townships of Lochaber and Gore now before Judge [illegible] in the Circuit Court at Hull is causing much interest in Ottawa County. Some years ago Joseph Laflamme of North Gore purchased land at a sale for arrears of taxes. He now brings an action against the township to recover the amount paid for the land, claiming that the Quebec Government refuse to give him the title deeds of the property on the ground that is in Crown land and that the township had no power to sell. The township claims the land was under license and location tickets for several years previous to the sale, and that according to the municipal law of Lower Canada is liable to municipal taxes and to be sold in default of payment thereof.

The case is interesting from the fact that several similar cases have occurred in Ottawa county. This will be a test case, and may have the effect of improving the system on which municipalities conduct their tax sales and municipal affairs generally.

Rev. Mr. Brick, a Church of England missionary stationed in the Peace River district in the diocese of Athabasca, occupied the pulpit of St. George's Church to-night. At the close of his sermon he painted a terribly sad picture of the condition of the Indians in that locality. He said there had been a rabbit famine for the past two seasons, and that the large game had nearly all disappeared. The Indians were in consequence in a starving condition, and unless relief was furnished many of them must soon die. He instanced cases where they had eaten boiled leather and old moccasins. Many of them were subsisting on horseflesh, and three cases of cannibalism had been reported to him.

These were not treaty Indians, but he thought the Government should do something for them. He had a kind word to say for the way in which the Indian Department dealt with the treaty Indians. The rev. gentleman is taking back with him some agricultural implements, and hopes to induce many of the Indians to enter upon agricultural pursuits.

Before the Labor Commission yesterday afternoon D. H. Pennock, a clerk in the Government Savings Bank, here said farmer depositors were more numerous than either mechanics or laborers. They usually ran to the limit of $300, while mechanics averaged $150 and laborers $100 each. During an experience of ten years he noticed that deposits were largest in the fall and early winter.

ARRESTED FOR MURDER.

Thos. B. McQuade Held in New York for the Killing of Lillie Hoyle.

NEW YORK, May 5.—Inspector Byrnes to-day arrested Thos. B. McQuade, formerly of Worcester, Mass., for the murder of Lillie Hoyle. The inspector believes this will go far toward clearing up the mystery of the young woman's death, taken in connection with the arrest of her uncle, Dixon R. Cowie. It is thought McQuade, who is a fine looking fellow of 24, was intimate with both the Hoyle sisters, and when it became known that Lillie was in a delicate condition Dixon R. Cowie, the other sister or McQuade choked her to hide her shame, the three being parties to the crime.

Cowie Arrested.

WORCESTER, Mass., May 5.—There is great excitement here owing to the arrest of Dixon R. Cowie for the murder of Lillie Hoyle. Andrew and Alice Hoyle, uncle and sister of Lillie, have disappeared. The officers believe Cowie is a desperate man, and that he had a direct hand in the murder.

VESSEL MEN AROUSED.

Detroit Lake Carriers Unanimous in Their Opposition to the Winter Bridge.

DETROIT, May 6.—The vessel men here are up in arms against the proposed bridging of the Detroit River. They met en masse in Capt. Eber Ward's office yesterday morning to make a formal protest to Congress against the bridge project. There was but one sentiment expressed and that came from all sides—that any bridging of the river would result disastrously to lake traffic, cause endless trouble to all vessel men and seriously cripple local vessel interests. The project for a winter bridge, they said, is but the first step toward building a permanent bridge.

Messrs. E. M. Peck, Jesse H. Farwell and S. B. Grummond were appointed to draft resolutions against the project and report at a meeting to be held next Tuesday morning. They will be signed by all vessel men and forwarded to Congress. It is not yet decided whether to circulate the resolutions for general signature or prepare a petition.

THE WHEAT SUPPLY.

Prospect of an Immense Shortage—Big Deficit in the Four Leading States.

BUFFALO, May 5.—Wheat men here are considerably exercised over the prospect of a shortage in the winter crop. There is a shortage of from 50,000,000 to 80,000,000 bushels in Ohio, Indiana, Illinois and Michigan. In California this season's crop is the poorest in fifteen years. In Kentucky and Tennessee the prospects are poor. Kansas is fairly good, but the fields are filled with chinch bugs.

Manitoba's Prospects Good.

WINNIPEG, May 5.—The season has been a little backward, but not seriously so. Seeding began a fortnight or three weeks ago, but the north winds have stopped operations for the nonce. Last year's acreage will be increased about one-third. The Pacific winds open up the ground very early, and quite a period has elapsed since seeding began. On the whole, Manitoba's prospects seem as good, if not better, than those of almost any other part of the continent.

THE RUSSELL CAMPAIGN.

PARTISANS OF BOTH CANDIDATES CONFIDENT OF VICTORY.

OTTAWA, May 6.—Mr. Onderdonk is in the city in connection with the claim made by the Canadian Pacific Railway Company against the Government, touching the character of the British Columbia section for which he had the contract. The matter is now under the consideration of a board of arbitration, and Mr. Onderdonk's presence is necessary to complete the case to be presented on behalf of the Government. The Commission will take evidence in Vancouver next month. The Free Press gives publicity to the absurd rumor that Mr. Onderdonk's visit has something to do with the Russell election. There is no truth whatever in the statement.

There is a consensus of opinion in well-informed circles that the election will be an unusually close one. The Liberal party claim that they have "a sure thing," arguing that the French vote is solid for Edwards who employs about 400 of their number in his mill, and in addition to this the unseated candidate always receives more or less sympathy. On the other hand Mr. Mackintosh's friends say he is an energetic worker, that he makes friends wherever he goes, and that not only will he receive a larger English-speaking vote than he did at the general election but the fact of a French Canadian—Judge Olivier—having recently been elevated to the bench will split up that element and add to his strength. The Edwards party, however, have endeavored to destroy the effect of this move by resurrecting Riel's corpse and charging that the Tory party are committed to the policy of Imperial Federation, which means the extinction of the French language and French customs. The result is being looked forward to with a great deal of interest by both parties, for it is thought by Mr. Mackintosh's friends that should he succeed he will stand a good chance of being called to the Cabinet in succession to the late Hon. Thos. White. Mr. Edwards' majority last year was 146.

Has Sir Richard Unhorsed Mr. Laurier?

OTTAWA, May 6.—It is a matter of general remark that Sir Richard Cartwright, by whose authority, however, it is not quite certain, has unhorsed Mr. Laurier in the temporary leadership of the Liberal party. The Toronto Globe never speaks of Mr. Laurier now as the leader, although it is well known that Mr. Blake left him in charge when he went away. The Liberal caucus, too, which was held early in the session, pledged its fealty to Mr. Laurier until Mr. Blake's return. But Sir Richard has evidently taken upon himself the foremanship of his party.

Has Mr. Hale Been Read Out of the Party?

OTTAWA, May 6.—Mr. Frederick Harding Hale, who sits for Carleton, N.B., is greatly exercised over the article which appeared in The Globe of Friday charging him with turning his coat and deserting the Liberal party. The Globe, speaking evidently for Mr. Edgar and Mr. Cook, undertook to read Mr. Hale out of the party because of his recent vote in the House. The Globe also thinks that Mr. Hale is too close a companion of Mr. Baird, Mr. Skinner and Mr. Moffatt to be a good Liberal, and the Toronto organ has thrown him overboard.

Mr. Hale threatens to fight back in a manner which will give The Globe something to think about. He is now engaged in loading his gun, and Mr. Edgar and Mr. Cook will be invited to throw up their hands.

The Governor-General and the Premier.

OTTAWA, May 6.—Before leaving for Toronto the Governor-General had a conference with the Premier touching the Fisheries Treaty and the attitude of Canada in the event of the Senate of the United States refusing to ratify that instrument. He subsequently had a personal interview with Hon. Mr. Foster, but of course the nature of the discussion has not transpired.

The Departure from the Capital.

OTTAWA, May 6.—The Governor-General, Lady Lansdowne and staff left this evening by special train on the Canadian Pacific Railway for Toronto, on a farewell visit. They take with them a number of large souvenir photographs for distribution among their many warm friends in the Queen City.

Boulanger's Book.

PARIS, May 6.—The League of Patriots has issued a manifesto in which Gen. Boulanger is styled the leader of the National Party. Two million copies of the first instalment of General Boulanger's work on the German invasion, which will be brought out next Tuesday, are to be distributed gratis throughout France. In the preface to his work Gen. Boulanger again sets forth the Boulangist policy, and states that the object of his book is simply to draw profitable lessons from the events of 1870.

Brown Paper Instead of Bills.

NEW YORK, May 6.—The mysterious robbery of the package of money which was sent to the redemption division of the United States Treasury at Washington by the American Exchange National Bank of this city, is under the investigation of Inspector Byrnes. The package when sent from here was supposed to have contained $41,000. When opened in Washington only brown paper was found.

Resisted Arrest.

ROCHESTER, N.Y., May 6.—Policeman Schroeder to-day attempted to arrest a man named Patrick Schollard, who with five others was creating a disturbance. Schollard resisted the officer and was aided by his companions. The officer finally drew his revolver and shot Schollard in the leg. The limb will have to be amputated.

The "Soo" and the Canadian Pacific.

ST. PAUL, May 5.—An evening paper claims to have the positive assurance of Gov. Pillsbury that 1000 shares, more than a controlling interest, in the "Soo" Road have been disposed of to the officials of the Canadian Pacific. It is also learned that the rearranged corporation now controlling the Soo will next build a line to Nebraska to tap a large section of territory hitherto unreached by them.

A Mother's Anxiety Causes Her Death.

SCRANTON, Pa., May 5.—Mrs. Arthur Griffen, aged 36, of Clark's Green, was awakened at 1 o'clock this morning by her 8-year-old son falling from the porch while he was walking about in his sleep. When she brought the boy back into the house, she was so much alarmed over his fall that she was stricken with a hemorrhage and dropped dead.

The End of an Ottawan's Spree.

OTTAWA, May 6.—A man named Jos. Rooney, a laborer, was picked up on Saturday morning on Albert street evidently suffering from delirium consequent upon a protracted spree. He was taken to the Police Station where he died a few hours later. Medical aid was promptly called in, but too late to save him from a drunkard's grave. He was a man of about 35 years of age, of good physique, and leaves a widow and two children.

TERRIBLY FATAL ACCIDENT.

Two Sections of a Freight Train Crash Together—A Powder Car Explodes.

MOUNT CARMEL, Pa., May 6.—Between 10 and 11 o'clock last night a terrible accident occurred on the Philadelphia and Reading Railway between this place and Locust Gap. Freight train No. 67, consisting of 75 cars bound for Williamsport, became disconnected by the breaking of a coupling, and the engine and three cars ran half a mile before the crew discovered that the train was divided. The first section awaited the arrival of the second at the foot of a heavy grade, and the two brakemen losing control of the second section, it dashed into the first section, causing an explosion in the third car, which was loaded with Dupont powder.

At the scene of the accident the railroad runs along a steep hill, at the bottom of which stood two rows of houses occupied by the Philadelphia and Reading Coal and Iron Company's employes, among which stood a little cottage occupied by John Quinn and family of four children, two boys and two girls. The force of the explosion wrecked the buildings, seventeen in all, and the stoves set fire to the ruins. Quinn and his two little girls were burned to ashes. The two boys escaped with burns. Simon Kerwick's family occupied one of the other cottages. It consisted of Mary and Willie Cavanagh, adopted children, aged respectively 8 and 14; Daniel Kerwick, 8; Alice Kerwick, 5; and his wife and a newborn babe. Mr. Kerwick carried his wife from the burning building, but the children were burned to death. Thirty persons were injured.

Twelve cars were destroyed and many houses with their furniture. All the windows in the Locust Gap churches and schools were broken and the doors blown off. In Mount Carmel large store windows were broken. The total loss is estimated at $75,000.

Wife Murder in Pennsylvania.

WILKESBARRE, Pa., May 5.—A horrible crime is reported from Keelerville, Wyoming County. In an abandoned house formerly occupied by George Keeler and his wife the dead and decomposed body of the latter was found to-day. The woman's husband left for the West some time ago and his present whereabouts is unknown. All the indications point to him as the murderer, as the couple never lived harmoniously together. Mrs. Keeler has been missing since last September. It was supposed that she had gone west to visit relatives, but letters received from a town in Illinois where she was supposed to be brought the information that Mrs. Keeler never visited there. This aroused suspicion at once and the authorities instituted a search which resulted in the finding of the body. The murderer after committing the deed packed the remains away between the floor and the foundation walls. Keeler's father was the founder of the little town where the terrible tragedy was committed. One thousand dollars reward is offered for the murderer's capture.

A Freak of the Lightning.

DELAWARE, O., May 5.—Lightning struck a school house in Berlin township, near here, yesterday, instantly killing Johnny Bowers, the 12-year-old son of Mr. George Bowers. Another son was rendered unconscious, but recovered in about an hour. A son of Mr. S. Stockwell was shocked by the same flash, and unconscious for three hours. The teacher, Miss Sarah Bedell, was thrown from her chair and twenty children prostrated on the floor. As near as can be estimated it was half an hour before any of them came to. When the neighbors arrived they found the pupils just recovering.

The Mackerel Industry in the South.

GLOUCESTER, Mass., May 5.—Word has been received from the United States Fish Commission schooner Grampus, which has been making a scientific investigation of the Southern mackerel fishing industry. She reports that in sailing from Cape Hatteras to Barnegat no mackerel were seen. She recently caught a few small ones in nets near by Body Island. Large quantities of mackerel feed and gurnets were seen, which indicate that mackerel will be in hot waters this season. It is probable mackerel will be a failure in the South.

Death of a Centenarian.

HALIFAX, May 5.—Norman McDonald of Big Bras d'Or, Cape Breton, is dead, aged 110 years. He was the last known survivor of Waterloo, he having fought in that battle under Wellington when 37 years of age. He was born in the Isle of Harris, Scotland, in 1778, and after serving in the British army in various parts of the world he emigrated to Nova Scotia in 1833, when 55 years old. He was a man of great activity, and up to two years ago did considerable work on his little farm.

Dr. Damrosch's Monument.

NEW YORK, May 5.—Fully 1000 people assembled in Woodlawn Cemetery this afternoon to witness the unveiling of a monument to the memory of the late Dr. Damrosch. The monument was erected by the Arion Singing Society, the Oratorio Society and the Symphony Society of this city, of which Dr. Damrosch was a conductor, and consists of a pedestal of solid granite surmounted by a statue of Minerva in fine Italian marble.

Pugilistic Manitoba Lawyers.

WINNIPEG, May 6.—The Liberal conventions to nominate candidates for Winnipeg will be held on Thursday. A large number of names of aspirants are mentioned.

454 immigrants arrived to-day and 664 last week.

Morris County Court adjourned twice Saturday, owing to pugilistic encounters between two lawyers, one of whom has a black eye as a memento of the occasion.

KEMP DEFEATS HANLAN.

THE AUSTRALIAN WINS BY FIVE BOAT LENGTHS.

SYDNEY, N.S.W., May 5.—A sculling match took place to-day between Peter Kemp of Australia and Edward Hanlan of Canada. Kemp won by five lengths. The race was rowed over the Paramatta course.

Kemp took the lead at the start. Hanlan's boat came in contact with that of his opponent before the mile post was reached. Kemp stopped and let Hanlan pass, and then went after him.

When off Gasolgn's Bay Hanlan crossed the bow of Kemp's boat and again fouled him. Kemp got clear and proceeded, winning by five lengths. An enormous crowd witnessed the race.

The race was for the championship of the world and $2500 a side.

DISCUSSING THE RESCRIPT.

The Pope's Right to Intervene in Irish Politics Traversed.

DUBLIN, May 5.—The Freeman's Journal says that at the request of the Catholic members of Parliament the Lord Mayor of Dublin convened a meeting to-day for the purpose of discussing the Pope's rescript. Resolutions were adopted traversing the statements by which the Pope justifies the rescript and assuring the Pope of unalterable attachment to him in his spiritual capacity, but firmly and respectfully yet emphatically refusing to recognize his right to intervene in Irish politics.

A Cardinal Opposes the Pope.

DUBLIN, May 5.—The Evening Telegraph published a despatch from Sydney, N.S.W., saying that in an interview Cardinal Moran advised that if the national cause was condemned Irishmen should disregard even the command of the Holy See, and that the agitation for Home Rule must continue until victory was attained in spite of all opposition.

Mr. Gladstone's Denial.

LONDON, May 5.—Mr. Gladstone in answer to an enquiry telegraphs that there is no foundation whatever for the Belfast report that he discussed an Irish local government scheme with three Irish members of Parliament and Lord Roseberry.

Mr. Condon, M.P.'s Trial.

DUBLIN, May 5.—The magistrate trying the case of Mr. Condon, M.P., at Mitchellstown for offences under the Crimes Act will postpone judgment pending a decision of the Court of Queen's Bench on the legality of the proceedings of the grand jury which indicted Condon.

Condemned by the League Branches.

DUBLIN, May 6.—All the League branches of Limerick have condemned the papal rescript.

Suicide of a 13-year-old Girl.

PHILADELPHIA, May 5.—Kate Carney, aged 13, hung herself to-day. Her mother died two years ago and her father has been very dissipated.

Retaliatory Litigation.

NEW YORK, May 5.—The Western Union Telegraph Company yesterday filed a libel for $60,000 in court against the Inman Line steamship City of Richmond for injuring its cables with her wheel. Some time ago the Inman company brought an action for $2000 against the Western Union for replacing the City of Richmond's screw, which was broken by contact with their cables.

TORONTO TOPICS.

Fourteen Pullman cars brought over 600 delegates and their friends to the city last night to attend the Railway Conductors' Convention which is to be held here during the next ten days.

Great preparations have been made for the reception of Lord Lansdowne, who arrived here this morning to pay a farewell visit.

A Fatal Fall.

OTTAWA, May 6.—A man named J. D. O'Grady of Bayswater, a suburb of the city, fell through a trap door in a hayloft on Saturday and received such severe injuries that he died almost immediately.

Bath Contestants Fall.

LONDON, May 5.—A one-mile bicycle race for £40 between Woodside of Philadelphia and A. H. Robb of England, was contested to-day on the Aylestone grounds at Leicester. Woodside, who won the toss, led until half way around on the last lap, when Robb shot past him. Robb fell almost immediately after gaining the lead, and Woodside went down on top of him. Robb remounted his machine and finished alone. He was awarded the race, Woodside's machine was damaged in the collision.

The Antics Beaten at Acton.

ACTON, May 5.—A game was played here to-day between the Pastimes of this place and the Antics of Toronto, resulting in a victory for the home team by a score of 12 to 8. The batteries were: McKenna and White for the local nine, and Chandler and O'Connor for the visitors.

Students Must Drop Sports.

HANOVER, N.H., May 6.—The Dartmouth faculty have decided that students must drop football, baseball or general athletics, because of the excessive amount of time required to conduct them all.

Spots of Sport.

The Tecumsehs defeated Troy on Saturday by superior fielding.

The Stars won their sixth championship game on Saturday by defeating Buffalo.

International Association games to-day are: Toronto at Syracuse, Hamilton at Troy, London at Albany, Buffalo at Rochester.

National League games to-day are: Washington at Chicago, Boston at Detroit, Philadelphia at Pittsburg, New York at Indianapolis.

There are no American Association championship games to-day.

INTER-IMPERIAL TRADE.

THE policy of inter-Imperial trade, which has been advocated by members of the Imperial Federation Association, has been brought before the House of Commons in a resolution proposed by Mr. Marshall and Mr. McCarthy. The speech of the latter gentleman in support of the motion was a very able one and the facts presented told against the scheme of unrestricted reciprocity with the United States, which has been taken up by the Liberal party. It is not proposed by the advocates of inter-imperial trade that Canada or the other colonies should give up control of their customs tariffs, and if their plan was adopted Canada could still continue its protective policy that has been so beneficial. The idea is that the colonies and Great Britain should discriminate in favor of each other. That is, for instance, that if Canada maintained its present tariff rates on importations from Great Britain and the British possessions it would collect a per centage more on importations from foreign countries. On the other hand if Great Britain continued to admit Canadian productions free, she would impose a tariff charge on foreign productions. Thus the colonies would have an advantage in the British markets, where a large part of their exports now go, and Great Britain would be given an advantage over her foreign competitors in the markets of the colonies. Canada could then export wheat, cheese and beef to British markets more profitably than could the United States, while British iron or other exporters would have an advantage in Canada over their German, United States or other competitors.

The discussion of the subject in the House of Commons will aid in disseminating an understanding of the proposal and will call attention to it. It is not in Canada alone that it has been discussed, for advocates of fair trade in England have embodied with fair trade the scheme of inter-imperial trade.

There are difficulties in the way of having this scheme adopted, though it is not probable that strong opposition would be encountered in Canada. England would have to depart to some extent from her present free trade policy, and, as yet, there seems to be no good ground for expecting, in the present complicated state of English politics, that political leaders there would further complicate their position by adopting either fair trade or the principle of inter-imperial trade. England's relations with other nations and her trade with other countries would have to be considered along with the advantages that she would derive in the colonial markets. In the meantime the discussion of the subject will familiarize the people with the scheme, even if practical results do not immediately follow. The idea, of more closely uniting the various parts of the Empire by closer trade relations, is a laudable one and if it would result in commercial advantages, as it assuredly would to Canada, it will grow in favor. The question whether Great Britain will adopt it is for the people of Great Britain to decide.

MR. HALE, a member of the House of Commons who was elected as a Liberal, voted against Sir Richard Cartwright's amendment to the budget, and he is being severely handled by the Liberal press for doing so. But Mr. Hale was not elected to support unrestricted reciprocity or commercial union. When he was before his constituency Mr. Blake announced on behalf of the Liberal party that the National Policy would not be abolished by them, and Mr. Hale in supporting that policy is simply voting to carry out the pledge given by Mr. Blake before the election. It is the other Liberal members, who have taken a new and radical departure, who should return to their consatituencies and see whether, by a vote, their constituents would approve of their action.

MR. DALTON MCCARTHY argues that we should admit English manufactures free into this country in return for the free entry of our food products into England. Can Mr. McCarthy show in what way the introduction of English manufactures would be less injurious to Canadian manufactures than the introduction of American manufactures?—Brockville Recorder.

The Recorder has been misled. Mr. McCarthy has not advanced such an argument and has not asked for the free entry of English manufactures. Will the Recorder make the correction?

MR. GOLDWIN SMITH complains that he was insulted at a recent banquet by Mr. C. M. Depew. Mr. Depew not only disagreed with opinions expressed by Mr. Smith, but charged the latter with rehashing political stump speeches at a society banquet. Mr. Smith has good grounds for complaint, for he would scarcely expect to be insulted by a prominent politician of a country in the behalf of which he had been laboring so assiduously in Canada.

UPON THE DEATH OF WALTER PATERSON, OF PETERBOROUGH, ON APRIL 20TH, 1888—AGED EIGHTY YEARS. ON HEARING OF HIS DEATH THE GENERAL REMARK MADE TO ME WAS, "HE WAS A GOOD, HONEST MAN."

My friends, long life was lengthened to four score;
Through life his breast no shining medals wore
To tell of deeds of bravery or of fame—
A gem more precious, a strictly honest name;
No higher language ever marked a stone
Where sleeps the ashes of a friend now gone
In word, in act, through the long life he trod
Honest with all men—honest with his God.
Honesty first failed in fair paradise;
Honesty dwells not in hearts full of vice.
The guiding motives God to him had given,
Were truely God-like—fountain head was heaven.
In nature gentle, words and actions kind,
Plain, unassuming; clear, enlightened mind;
No flattering friends, nor foe's ingratitude
Could change him from the path of rectitude;
Meek in his manners, free from wordly pride,
In all his acts the Bible was his guide;
He knew each action, just or unjust, they
Would be a witness on the judgment day.
Much like his Master, while on earth below,
God's glory showing more than outward show;
His calm demeanour, fruits of inward grace,
Beamed with refulgence from his grace-lit face.
Full four score years he was a pilgrim here
Mid'st sins alluring, with temptations near
Few, very few, have passed through life the same,
Lived, died, and left such and an unblemished name.
God in fair measure granted to him wealth,
And all through life he blessed him with good health,
And while we watched his robust frame grow weak,
The red rose tint was fresh upon his cheek.
His shaking hands, his tottering steps, foretold
Life's worn out thread would soon relax its hold,
His clay built structure verging on decay,
His soul preparing to pass away.
Departed friend, through life God favoured you,
Again at death his love he did renew;
No heavy sickness, pain nor anguish came,
Death's rod fell gently on his wasting frame.
To him death could no fears nor terrors bring,
His Christ robed soul was safe from every sting;
To conquor death he had no power nor will,
Pulse ceased—the worn out wheels of life stood still.
Don't call that death; to him it was a change
To sweet delight; to us how wondrous strange;
Here but a pilgrim on this earth to roam
Returning, after eighty years from home.
Calm and composed, his spirit passed away,
Freed from its long bound prison-house of clay.
If life well spent secures eternal bliss,
To-day he shares a brighter world than this.
Friends! If to his memory you a stone do raise,
While friend or foe as passing stand to gaze,
Of earth's highest honours—this is surely one.
Here sleeps the ashes of an honest man.

WILLIAM TELFORD, Smith.

Advice to Mothers.

Mrs. Winslow's Soothing Syrup should always be used when children are cutting teeth It relieves the little suffer at once; it produces natural, quiet sleep by relieving the child from pain, and the little cherub awakes as bright as a button." It is very pleasant to taste. It soothes the child, softens the gums, allays all pain, relieves wind, regulates the bowels, and is the best known remedy for diarrhœa whether arising from teething or other causes 25 cents a bottle. Be sure and ask for "Mrs. Winslow's Soothing Syrup," and take no other kind.

Correspondence of the Review.

OBIT.—It is with feelings of sadness that we announce the death of Mr. George Read, son of Mr. J. L. Read, which took place on Thursday last, after an illness of about four days. All available medical aid was procured, but it proved of no use. The funeral, which was on the following Saturday, was attended by a large concourse of friends, who followed the remains to the cemetery here, for interment. The surviving members of the family have the heartfelt sympathy of the whole village in their sad bereavement.

NAVIGATION.—On the first inst. the Esturion made here first trip to Lindsay, and will continue to make her regular trip once a day till about the first of June, after which she will make two trips a day.

BUILDING BOOM.—No less than three buildings are being erected here, on the main street, all being between Orr's corner and the Rockland house.

ARBOR-DAY.—Arbor Day was duly observed in the schools here, by cleaning up the grounds, planting trees, and getting some nice house plants in each room, which were brought by the pupils.

The Last Day at Nashville.

NASHVILLE, Tenn., May 5.—This was the last day of the West Side Park meeting. The weather was fine, attendance large and the track fast. The attractions were the Maxwell House Handicap at a mile and the Freeland Prize Handicap at one mile and a quarter. In both events the "short horses" won. White Nose, a 10 to 1 chance, winning the Maxwell and Paragon, a 7 to 1 chance, capturing the Freeland.

Satisfactory to Sullivan's Backer.

BOSTON, MASS., May 5.—Harry Phillips, Sullivan's manager, upon being shown a despatch stating that Kilrain would fight Sullivan if the entire $5000 were put up before articles were signed, said: "That is satisfactory to me. Now that Kilrain says he is willing to fight let his backer cover my money now up, and the entire stake money from Sullivan's side will be posted at once. We want business only, and the sooner the money goes up the better. Details can be settled afterwards."

FAME VERSUS BUSINESS!

WE LEAVE IT TO THE WORLD TO JUDGE!

The People of the County, our Court! Satisfied Customers, our Witnesses! We Plead our Case and Carry off a Verdict!

In re GOUGH BROS. et al

THE COURT—The Bar will observe that the case is now open. You have heard the indictment read. It is clear and explicit. What say you, Gough Bros., why sentence of the Court should not be pronounced upon you?

GOUGH BROS.—May it please your Lordship:—To the serious charge that we have revolutionized the clothing trade in Peterborough we plead guilty. The facts are so apparent that denial were useless. But, may we ask the Court to consider extenuating circumstances of great weight. We have established a business by the people, for the people and of the people. We have placed within the reach of all clothing of any grade at prices that shatter Monopolies, and Paralyze High Prices. When the Court remembers that we have taken a $2.50 boy and clothed him in a 65c Suit of Clothes the Court will appreciate our enterprise. When the working man who wants Clothing can walk up to the trough and help himself to a suit at $2.50 there is something in life worth living for. When a pair of Pants that are a thing of beauty and a joy forever can be carried from our counters for the small sum of 25 cents, the Court will realize that our politicans are not all of our sincerest benefactors.

Should the Court, for example, so direct we will fit out our learned friend on the other side with one of our Special Made Suits and his immediate relatives will testify that the garments are better than most custom work; are cut from Stylish Patterns, made up by artists who consider Beauty and Finish and Good Work as a first requisite.

We ask the Court's inspection of a special line of 500 suits for Men and Youths. These are gems of purest ray serene, so Good, so Stylish, so Cheap, that stealing will become, in truth a struggling industry. Then we have secured a niche in the temple of fame by large sales of our best classes of All Wool, French Worsteds and English and Scotch Tweeds, fit for the wear of prince, pontiff or politician. This, your Lordship, is our plea.

THE COURT.—Gough Bros., you have ably stated your case. You are excellent counsel. The ruling of the Court is that you are honorably discharged and that the Court adjourn sine die.

AS MUCH A SECRET AS EVER

To the Editor of the Review:—SIR—How in the world has C. B. ROUTLEY jumped into such a big slice of Wall Paper trade? Why, it seems as if one couldn't pass his store without running against a load of Wall Paper in the arms of some pleased looking customer. I'm half inclined to think there must have been lots of boodle in the Wall Paper business before ROUTLEY started it and that the people have found out that he has broken the combination. Eh? what did you think, Mr. Editor? And yet you occasionally hear of spasmodic attempts to get down to ROUTLEY'S prices, in order to head him off; but still it seems as much a secret as ever how he keeps up the run

Yours truly,

HOUSEFURNISHINGS.

At this season many Housekeepers are replenishing their supplies of Tableware and China. City folk are furnishing summer cottages; country folk are filling up the dressers and cupboards of the old homestead; town's folk are picking and choosing here and there. Many would be glad to know of a place whose special business is to meet these wants and desires; that aims to furnish essentially good wares at consistently low prices; that offers the choice of many different dinner services, and yet does not compel you to take an entire set of any pattern, but allow you to select each course of a new design, or buy any portion of the set you may need; that does not try to impose ideas or wares upon purchasers, and yet is ready to advise which of the many wares is most desirable and suitable; and, if wished, will make a careful selection of pattern. When you want Tablewear will you give us the opportunity to serve you.

W. J. MASON,

OUR SUCCESS.

So far our CLEARING SALE has been a success. We are bound to sell, and the public may expect big bargains in every department. Stock fully assorted with choice goods.

THE CITY AND SUBURBS

Weather Probabilities.

Fresh to strong north to east winds; fair weather, with local rains at night; stationary or a little lower temperatures.

Capital Lines, all of Them.

What are capital lines? Gloves, Hosiery and Parasols. The newest, the prettiest, the most stylish, at the golden lion. Lady customers tell us our stock is so varied that no difficulty is ever experienced in making a choice, if you propose buying Gloves, Hosery or Parasols, call at fair's.

Out on Strikes.

The town clock was rather out on strikes on Sunday and again this morning. The hands indicated the proper time all right enough, but the striking apparatus was out of working order. No matter what the hour was, the clock only struck one, and some of the people who were out on the streets at ten o'clock last night were rather startled to hear the bell and made hasty tracks for home.

A Row.

On Sunday evening Mr. Terry Smith, the well known town teamster, was attacked by two men near the Stewart House, and they would have brutally beaten him but for the interference of Mr. T. Cavanagh, who separated the combatants by using his fists in a vigorous manner. The Police Magistrate will have an opportunity of hearing the merits of the case in the course of a day or two.

True Blues.

The 17th annual meeting of the Grand Lodge of True Blues will open at Kingston to-morrow morning. Lindsay Lodge No. 38 will be represented by Messrs. R. Bunting, Grand Master, D. H. To Chemong Lake.

Work was commenced this morning on the Chemong Lake railway, just north of Smith-st. and about thirty feet east of the present line that runs to Lakefield, the property owners interested having their claims adjusted. Connection will be made at the place known as the "cut." The grade will be steep and the curve a short one. Smith-st. where it joins Benson will have to be raised considerably. The section men have been out on the line between Peterborough and the Lake for some time and they have accomplished considerable work in the way of clearing up things.

By all Odds the Best.

We have to thank the Orillia Packet for the following friendly notice:—"We note with much pleasure the continued growth and prosperity of the Peterborough REVIEW under its present management. Saturday's number was the largest yet issued; the advertising patronage steadily increases, and the regular size of the paper has been nearly doubled since Mr. F. H. Dobbin became the Managing Director. The REVIEW is by all odds the best of our Canadian town dailies. We hope to see Mr. Dobbin, as well as some of his colleagues, in Orillia during the canoe meet."

Slaughter Sale.

W. J. Morrow is running off his immense stock of Tea to make room for fresh importations. Evaporated Peaches, Peas, Apericots, Apples, &c., &c. Pure Maple Syrup. Telephone, Opera House block.

Lights Out.

The gas at Hall, Innes & Co's premises, at the police station and other places in the same neighborhood, suddenly went out on Saturday night, while business was in full blast. When lighted again it burned all right.

Seriously Ill.

Mr. Wm. Green, son of Mr. Edward Green, Water-st. is lying seriously ill of inflammation of the lungs. He is a member of the fire department and contracted a cold at the recent fire. His condition yesterday was regarded as very serious by the attending physician, but to-day it is thought that he shows signs of improvement.

Early Closing.

Twenty-seven out of twenty-nine of the dry goods, clothing, hats, caps, furs, gents' furnishings and millinery dealers, have united in a petition to the Town Council asking that an early closing by-law be passed, covering them. Seven o'clock each evening except Saturday is the hour named.

Move On.

The Chief Constable has issued a mandate that the corner loafer must be moved on. The crowd of young men and boys who stand in front of the Salvation Army barracks must also disperse. A start was made last evening and we hope that the good work will be kept up with unrelaxed vigor.

The Chemong Railway.

The Bobcaygeon Independent says: "There is an impression that that the Mud Lake Railway is likely to be opened this season. Surveyors have examined the road bed, and ties are being delivered. There is said to be some little difficulty about making a connection in Peterborough, but the present prospects are in favor of the line being opened by July 1st. It would be a great convenience to all in this district, and of considerable advantage to Peterborough."

The Building By-Law.

The enlarged case of Inspector Pope against Mr. Thomas Beavis, charged with committing a breach of the building by-law by erecting a veneered building inside of the fire limits, was before the Police Magistrate this morning. Mr. Edwards appeared for the prosecution and Mr. R. E. Wood for the defence. The Inspector deposed that Mr. Beavis was repairing his terrace on Simcoe-st., near Bethune, which was partly destroyed by fire some months ago, that a wooden frame was up, and that from appearance the brickwork would be less than the thickness required by the by-law. As the defendant said he intended to build a brick and a half wall, the case was allowed to stand for two months.

What Competent Testimony Says.

Announcement has already been made of the concert to be given in the Opera House on Wednesday evening next, May 9th, and particulars given in reference to the artistes who will contribute to the programme. The following, taken from the Boston Courier, bears ample testimony to the rare excellence of the programme:—"Cosy Academy hall was aglow with the limpid rays of many incandescent electric lights, and the air was perfumed with the odor of flowers, while the auditorium of the edifice was filled with friends of Miss Kate Josephine Tracey, last evening, when she made her debut as a piano-forte player. Under those pleasant circumstances, and being assisted by such skilled performers as M. Alfred De Seve, Wulf Fries and Miss M. Helen O'Reiley, the young artist's first appearance as a public performer was devoid of much of the usual embarrassment and unpleasantness. Miss Tracey's rendition of several difficult numbers was so full of merit that she was awarded generous applause. In all her work she displayed talent and culture, and fully equalled the expectations of her friends. The assisting performers were of course excellent in their selections, and received the deserved approval of the audience. The success of the concert argues well for the future welfare of Miss Tracey in her chosen profession as a devotee to music." 1d107

Forwarded.

The resolution of condolence with the widow of the late Hon. Thomas White, was forwarded to Ottawa to-day. His Worship Mayor Stevenson, M. P., will present it in person.

3,000 boys and girls in Peterborough have voted that The Pantry is a grand institution for supplying their wants. d107

Gospel Temperance Meeting.

The regular Gospel Temperance meeting was held in the W. C. T. U. Hall, on Sunday afternoon. The attendance was larger than usual, the room being filled. Interesting addresses were delivered by Messrs. Bone and Roach Way, of Auburn, and songs were contributed by Misses Allan and Galley.

Doing Duty.

Chief Constable Roszel has arranged a schedule so that some of the officers are on duty all times. From six o'clock until twelve at night an officer will always be found at the police station, the night men remaining there hour about. Regular beats have been laid out and something like system adopted. During the day the Chief and Officer Adams will be on duty.

A New Serial.

Many of our readers have spoken to us in commendation of "Mona Scully," the story which has been concluded in the EVENING REVIEW. To-day we commence the publication of another new serial, "Mona's Choice," by Mrs. Alexander, a popular writer. The story is copywrighted by the author, but in company with a few other papers the REVIEW has secured the right to publish it in serial form. It will be found to free from unwholesome sensationalism, yet interesting throughout. The characters are true to life, and the story is in Mrs. Alexander's best vein. Our readers cannot fail to relish each succeeding chapter with increasing delight.

Will Carleton on the D—

Oh, the elements varied the exquisite plan—
That are used in constructing the lovely young man!
His face he has easily made to possess
The expression of nothing within to express;
His hair is oiled glossily back to his ears,
Atop of his head an equator appears,
His scanty moustache has symmetrical bends,
Is groomed with precision, and waxed at both ends;
His darling complexion, bewitching to see,
Is powdered the same as a lady's might be,
And this is the *dear* whom the newspapers rude
Have scornfully treated, and christen the D—

A Grand Concert.

A grand concert will be given in the Opera House by Miss O'Reilly, of Ottawa, a graduate of the New England Conservatory of Music, Boston, who is leaving Ottawa to join the Albani Opera Company, at present in London, England, and Mr. Alfred De Seve, violinist, who was court violinist to the Queen of Spain, and also court violinist to Princess Louise while she was in Canada. They will be assisted by Miss Kate Josephine Tracey, pianist, who is also a graduate of the New England Conservatory of Music. The popular local vocalists, Mrs. J. E. McIntyre and Mr. Thos. Dunn, will also take part. The date is Wednesday evening, the 9th inst. Tickets at Hartley's store; prices 25 and 50 cents. 2d107

Church Notes.

—The Rev. Mr. Henderson, of Charlotte, N. Y., occupied the pulpit of St. Paul's Church on Sunday evening and delivered a practical and able sermon to a large congregation. Next Sunday the Rev. A. B. Mackay, of Montreal, will preach the anniversary sermons.

—The Rev. P. Clifton Parker's annual reception of young men will be held in the Baptist church, Murray-st., this evening. Tea will be served at seven o'clock.

—The Rev. John Bredin, D.D., of Colborne, occupied the pulpit of the Charlotte-st. Church on Sunday morning and the Rev. S. J. Thompson at the evening service.

—The Rev. Dr. Bredin conducted the evening service at the George-st. Methodist church. He chose his text from Mark, vi., 3:—"And they were offended at Him." A Greek philosopher, he said, taught the people that if the gods came down to earth all men would love, imitate and obey them. He did not know what they knew. God did come down from Heaven, and there never was a nobler or truer friend, yet from the cradle to the sepulchre he was persecuted, and his name was hated to day as the name of no other being is on the earth. If Christ came to earth again to visit the churches, and travel through the world preaching, He would have occasion to say to every audience, "Blessed is he whosoever shall not be offended in Me." There were few things more marvellous in human nature than that man would be offended at their Creator and Redeemer. The Jews were offended when He performed miracles, on account of his social position and his family relations. They were offended at the preaching of Christ—his scathing rebukes, bold stand, stern yet full of pathos, and His speaking as one having authority. The promulgation of any new idea was always met with hostility. The preacher then reviewed the principle doctrines preached by Christ and that offended the Jews—the Godhead of Jesus, repentance, regeneration or conversion, holiness, purity, Christian perfection or santification—and explained them as he proceeded. He concluded by urging his hearers to not be offended at any of these doctrines, to put their faith in Christ and to make a full surrender to Him at once.

A COMING EVENT.

That Casts a very Large Shadow Before It.

According to the mammoth posters, the celebration to take place in Peterborough, on the approaching Queen's birthday, is to be gigantic and the outlook is that it will certainly deserve the name. The officers of the battalion and the P.A.A.A. are leaving no stones unturned to ensure the success of their undertaking, and the bill of fare that they present to the people of the Midland district is certainly a choice one. At 9.30 a.m. a baseball match will be played between Toronto and Peterborough. At 11.30 a.m. the military will perform evolutions and at 12 o'clock a feu-de-joie will be fired. At 1.30 in the afternoon, the athletic sports will take place. The events include foot races, flat and hurdle, a company race, bicycle races, boys' races, a mile professional, jumping, catching greasy pig, menagerie race, tilting at the ring and tugs of war. In the evening the fine band of the battalion will give a promenade concert, when they will play for the first time in public a splendid programme of new music. For full and further particulars see large and small bills.

Brevities

—Work on the new Salvation Army barracks is progressing rapidly.

—The small boy and his little fire cracker are seen and heard around town.

—A large number of health notices are being distributed by the inspectors.

—A large number of persons inspected the site of the new hospital, on Sunday.

—A storehouse is being erected in the rear of the Burnham block, George-st.

—A gang of about twenty Italians are working on the Chemong Lake railway.

—The poles for carrying the electric light wires up to Antrim st. are being put up.

—The premises of Mr. T. G. Hazlitt are being finely fixed up, the lawn sodded, etc.

—Quite a number of persons from Peterborough drove up to Lakefield, on Sunday.

—Mr. Calcutt expects his new steam yacht to reach Hastings on Thursday next.

—Pedestrians were out in full force on the streets on Saturday and Sunday nights.

—The weather continues remarkably cold and a few days rain are required to tone it down.

—A large number of citizens visited the Little Lake and Roman Catholic cemeteries on Sunday.

—Suckers are plentiful at the locks and with nets large hauls are made almost every night.

—The first cricket match of the season will take on the P. A. A. A. grounds to-morrow afternoon.

—The many friends of Mr. Archie Moffat, now of Bobcaygeon, were pleased to see him on Saturday.

—Officer Stewart found a key on the street, on Saturday evening. It is now at the police station.

—A trainload of cattle from the west, for shipment to Europe, passed through on the C.P.R. yesterday.

—A high wind prevailed on Saturday evening and Sunday. Several fences and trees were blown down.

—A burning chimney in the Bank of Commerce block, on Sunday night, attracted considerable attention.

—A stick of pine timber about 80 feet long and about 24 inches in diameter passed through town to-day.

—Mr. W. W. Brandon, of Fenelon Falls, and Mr. W. Rutherford, of Norwood, were among our callers to-day.

—A drunken farmer gave the police some trouble, to get him started home, from the market, on Saturday afternoon.

—Mr. Terry Smith sprained his ancle in the scuffle on Sunday night, and he was not able to leave the house to-day.

—The new floor and runways at the fire station are completed and the hall is just about as good as it can be made.

—A tramp giving Port Hope as his last place of residence was quartered at the police station on Saturday night.

—A number of English immigrants who reached town recently have secured employment with farmers near the town.

—Mr. Patterson, late of the Montrealers, a celebrated lacrosse player, will be with the Riversides this year, according to the Globe.

—The inside of the Queen's Hotel is being remodeled and when the improvements are completed the hotel will be one of the finest in town.

—The building by-law case at the police court this morning drew quite a number of spectators, mainly carpenters, masons and bricklayers.

—A resident of McDonnel-st. who deposited night soil on the garden of a neighbor, removed it this morning upon receiving a notice from Inspector Adams.

—At the regular meeting of the local Carpenters Union held on Thursday night a resolution was passed that member of the Union pledged themselves to use only the K. of L. or Blue Label cigars.

—The Tenth Royal Grenadiers have decided to spend the Queen's birthday at Guelph, they having been invited to do so by the local military and the mayor and aldermen.

—The news of Hanlan's defeat did not appear to interest many in town. There were two stories in circulation, one stating that Hanlan won by ten lengths and the other that he was defeated by five. The latter was correct.

—It is almost certain that Dr. J. H. Vincent, known in Canada as the originator of the famous Chautauqua movement, and also originator of the International Sunday school lesson system, will be one of the new bishops of the U.S. Methodist church.

Followed Suit.

A few weeks ago the atmosphere was all alive about the coal combines. Now the Cobourg Star says the butchers of that town have formed a combine and raised the price of meat, alleging as a reason the high price and probable scarcity of beef. The new tariff took effect on the 1st inst., and will continue until July 1st, during which period all meat out from behind the horns and from the tail henceforth will range as follows:—Beefsteak, from 15c to 10c; roast 15c to 10c; boiling, 6c to 8c; mutton, 11½c to 8c; veal 12½c to 8c; veal 12½c to 5c; lamb, $1.50 to 75c per quarter. The price of plucks is not mentioned as the butchers use these themselves in order to muster "pluck to keep the cambine."

ONE pound of the Extract of Coffee will go as far as ten pounds of Store Coffee. Try it; only 5c a stick at The Pantry. d107

In the spring, hundreds of persons suffer from boils, carbuncles, and other eruptive diseases. These are evidences that the system is trying to purge itself of impurities, and that it needs the powerful aid which is afforded by the use of Ayer's Sarsaparilla.

IT is gratifying to know that The Pantry is rapidly taking its stand, side-by-side with the first class groceries of the town. Inspection of goods and prices invited. d107

To Save Life

Frequently requires prompt action. An hour's delay waiting for the doctor may be attended with serious consequences, especially in cases of Croup, Pneumonia, and other throat and lung troubles. Hence, no family should be without a bottle of **Ayer's Cherry Pectoral**, which has proved itself, in thousands of cases, the best Emergency Medicine ever discovered. It gives prompt relief and prepares the way for a thorough cure, which is certain to be effected by its continued use.

S. H. Latimer, M. D., Mt. Vernon, Ga., says: "I have found Ayer's Cherry Pectoral a perfect cure for Croup in all cases. I have known the worst cases relieved in a very short time by its use, and I advise all families to use it in sudden emergencies, for coughs, croup, &c."

A. J. Eidson, M. D., Middletown, Tenn., says: "I have used Ayer's Cherry Pectoral with the best effect in my practice. This wonderful preparation once **saved my life.** I had a constant cough, night sweats, was greatly reduced in flesh, and given up by my physician. One bottle and a half of the Pectoral cured me."

"I cannot say enough in praise of Ayer's Cherry Pectoral," writes E. Bragdon, of Palestine, Texas, "believing as I do that, but for its use, I should long since have died."

MONDAY, MAY 7, 1888.

MONA'S CHOICE.

BY MRS. ALEXANDER.

CHAPTER I.—A PROPOSAL.

The "up" train was expected momentarily at the little junction at Galesford, from whence a line branched off to some villages and the county town.

A couple of commercial travelers, whose large neatly strapped cases were piled on a hand truck, stood at one end of the platform, in conversation of an amusing description, for they laughed loud and frequently.

A gentleman, covered from head to foot in a large dark ulster, walked to and fro smoking a cigar, and peering sharply into the thick mist which hid the line up to a few yards beyond the station.

The loose wrap he wore did not conceal his air of distinction. The eyes that watched so eagerly for the train, were light steely blue, his coloring was sunburned brown, somewhat too dark for his hair and mustache.

"Five minutes behind time," he said, glancing at the clock over the door of the booking-office, and addressing one of the two porters who were waiting about.

"It often is, sir! You see they have often to wait at Brenton for the Altonborough passengers. It's express after this."

"Look after my luggage. It is in the waiting-room. My name is on it—Captain Lisle—I'll be back by the six-twenty, and will not forget you."

"Thank ye, sir! I'll take care of it right enough."

"Two-fifteen—and here it comes!" exclaimed Captain Lisle, throwing away his cigar as the engine rushed screaming out of the dim distance, and approaching the edge of the platform he peered sharply into the carriages.

In a first-class compartment a young lady sat alone. Lisle proceeded to open the door.

"Beg pardon, sir," said the urbane guard. "This is a ladies' carriage—there's plenty of room in the next."

"All right! I know the lady; she will permit me to travel a few miles in her company. Will you not?" raising his deer-stalker's cap.

"Oh, Captain Lisle!" she exclaimed, with a swift blush. "Yes! of course."

"Don't cram in any women or babies," said Lisle aside quickly to the guard, pressing some coin of the realm into his hand.

"All right, sir!" significantly. "Jump in."

A shrill whistle, and they were off.

"I hope you will forgive my intrusion. But as I had no chance of seeing you after that telegram came, I thought I would try to say good-bye en route."

"I have nothing to forgive; you are very good to take the trouble. I fancied you were at Chillworth Castle by this time, you started so early."

"I started at that unearthly hour to secure some private conversation with you."

"Indeed!"

Again a blush, fainter this time, flitted over the lady's cheek.

"Yes. I am going to say what may perhaps offend you—to interfere where I certainly have no right, but my sincere interest in you—my ardent regret that fortune should treat you so unkindly, urges me to risk making an ass of myself."

"You puzzle me! I feel vaguely there is something I do not quite understand behind this sudden illness of my poor grandmother. Everyone seemed so sorry for me—and Lady Mary, who is kindness itself, said she feared she had lost a great deal of money. Do tell me what you know. You always seem to me to know everything."

"I wish I did not know the present state of affairs—and I wish you did not look as if those grand eyes of yours had been wide awake all night."

Again she smiled, a somewhat tremulous smile this time.

"Indeed I could not sleep! I was haunted by the recollection of my many quarrels with grannie—who is really fond of me, and has been very, very good to me! I must try and make up to her for the past."

"I can imagine that Mrs. Newburgh's rule is of the iron rod order," said Captain Lisle. "Nor do I suppose that you are too meek a subject! I fear," he added, gravely, softly, "that a terrible reverse awaits her—and you. The speculation in which she has invested her whole capital has come to grief—and I fear she has lost everything."

"How do you know?"

"Sir Robert Everard told me all particulars last night—when the other men had left the smoking-room. Mrs. Newburgh's solicitor is also his. The sudden shock has been too much for her, and brought on a feverish attack."

"Do you mean to say that we shall have no money at all?"

"I fear you will not! Everard spoke openly to me, knowing the interest I take in you, of which I hope you too are aware."

"We have always been very good friends," she said, shyly, with quivering lips.

"Yes! and for that friendship's sake I am about to break my usual habit of not interfering with what does not absolutely concern me—to risk the snubbing you are quite capable of administering."

He paused, and gazed for a moment at the delicate, downcast face opposite to him, his brows contracting in a sudden frown.

"Why should I snub you?" she asked, without looking up.

"Wait till I have finished. Will you believe me when I say that I was as sleepless as yourself last night? My fancy—no, I am not an imaginative man—my experience, depicted all the hardship of your lot, for I have known difficulties—money difficulties—poverty, too, is a hundred-fold worse for a woman, a proud, delicately nurtured woman, like yourself; and for you there is no escape, such as a man can find in a good appointment—I hope for one myself in India before many weeks are over."

"But women can work, too," she said, wonderingly. "Why do you try to frighten me?"

"Because I want you to seize the only way of escape that offers."

"Escape? How?"

"Hear me out! I am going to rush in—probably like a fool—where angels might hesitate to tread; but I know what life is, and I must open your eyes. After Everard had told me all he knew, I went to my room, and Waring, who had been dozing over an evening paper—"

"Was *he* a confident of our troubles, too?" she interrupted, with a slight curl of the lip.

"He was—that need not affect you. Waring followed, and asked for a few words with me. You know what a shy, awkward fellow he is. Well, I was amazed at his clearness and fluency—pray hear me out. He said he came to consult me, knowing that I had been on tolerably intimate terms with Mrs. Newburgh and yourself all last season—in short he confessed—what I already guessed—that he was desperately in love with you; that he was afraid you did not think much of him; and asked me if, under the circumstances, I thought it would be good form to propose for you! He said it cut him to the heart, to think of your being deprived of anything that could give you pleasure or comfort—I must say he spoke like a gentleman."

"It was very strange his consulting you!" she exclaimed, with unconscious emphasis.

"I do not think it was," he returned, with studied composure, while he watched her varying color; "we have become rather chums."

To be continued.

Give them a Chance.

That is to say, your lungs. Also all your breathing machinery. Very wonderful machinery it is. Not only the larger air passages, but the thousands of little tubes and cavities leading from them.

When these are clogged and choked with matter which ought not to be there, your lungs cannot half do their work. And what they do, they cannot do well.

Call it cold, cough, pneumonia, catarrh, consumption or any of the family of throat and nose and head and lung obstructions, all are bad. All ought to be got rid of. There is just one sure way to get rid of them. That is to take Boschee's German Syrup, which any druggist will sell you at 75 cents a bottle. Even if everything else has failed you you may depend upon this for certain.

McCausland & Son, of Toronto, are beyond question the easy leaders in the Ornamental Stained glass trade in Canada. Their vast business extends from Nova Scotia to British Columbia, and thousands of public and private buildings bear testimony of this firm's ability to execute beautiful and durable windows of every description.

Toronto Beaten by Rochester.

ROCHESTER, May 5.—The Champion Torontos ran against a snag in Pitcher Bob Barr to-day. Their hits, although as numerous as the Flour City team obtained, were so scattered throughout the game that there was no chance for the visitors to win. Conrad's team, however, was fortunate in bunching their hits and virtually won the game in the first innings when 6 hits were made off Sheppard, including a three-bagger by Knox. The Rochesters distinguished themselves by playing an errorless game. Score:

The Manufacturers' League at Hamilton.

HAMILTON, May 5.—The first game of the Manufacturers' League took place here to-day between John McPherson & Co.'s and Wanzers' nines. About 200 people witnessed the game, which was very exciting for the first four innings. The Macs pounded McLean so hard that Allan was put in the box and proved equal to task, only one hit being made off him. Keel and McCowel occupied the points for the McPhersons and did excellent work. The score was: McPherson & Co's 9, Wanzers 3

EPPS'S COCOA

BREAKFAST.

"By a thorough knowledge of the natural laws which govern the operations of digestion and nutrition, and by a careful application of the fine properties of well-selected Cocoa, Mr. Epps has provided our breakfast tables with a delicately flavoured beverage which may save us many heavy doctors' bills. It is by the judicious use of such articles of diet that a constitution may be gradually built up until strong enough to resist every tendency to disease. Hundreds of subtle maladies are floating around us ready to attack wherever there was a weak point. We may escape many a fatal shaft by keeping ourselves well fortified with pure blood and a properly nourished frame."—*Civil Service Gazette.*

R. C. CHURCH

PARK LOT

FOR SALE.

TENDERS

Will be received up to the 15th May, instant, by the undersigned, for the purchase of the whole or any portion of Park Lot Number six, in Township Lot Number Thirteen, in Concession Thirteen of the Township of Monaghan, in the County of Peterborough, now incorporated in and forming part of the Town of Peterborough, containing TEN acres more or less.

This lot, better known as the "R. C. Church Lot," is the most desirable property that has been offered for sale in Peterborough for many years. It has a frontage on Park-st. of 256 feet, adjoining Mrs. Gilmour's residence; a frontage of 1914 feet on Gilmour-st. and the same on the Gravel Road, continuation of Charlotte-st.

Gilmour-st. is the most beautiful street in the Town for private residences, and being within ten minutes walk of the Post Office and Market Square, this sale affords to intending purchasers an opportunity of procuring a beautiful and convenient site for a home.

TERMS:—Ten per cent. cash; twenty per cent. additional in 30 days from acceptance of the Tender, and the balance will be allowed to remain on mortgage for such term, not exceeding ten years, as the purchaser desires with interest at 6 per cent. per annum.

For further particulars apply to

TURNBULL'S

What is Being Worn!

The season's New Lines in Dress Goods present many varieties. These we have, for our trade calls for the Best and Newest.

Ladies will admire our new Wool Merveilleux; the Silk Merveilleux have been very popular and French manufacturers in order to increase trade have brought these goods out in wool. Handsome goods, with a glossy finish, very pretty and stylish. Ten shades, all really attractive and sure to make up well.

HENRIETTA CLOTHS are strong lines. Selling fast and well they deserve it. Imported direct from German trade centers. A line that we happened to run across in looking through a line of German samples, and they have turned out much better than we expected. Ladies coming in to buy cheap Dress Goods almostinvariably take one of these cloths. The Sea Green and Medora shades are new and not found in other goods. This line is confined exclusively to ourselves.

OMBRE STRIPES, a combination goods for dresses much worn in the cities. No complaint of being a year behind with the styles can now obtain. The OMBRE goods are of silk and wool; quiet in pattern; make up handsome and are a lady like material, clearly the best line of New Dress Goods shown anywhere.

MILLINERY is with us a busy Department. Every morning we are opening up new cases which we are receiving daily. Americans are getting ahead of the English and we are profiting by their, push and enterprise. You shall too, if you will leave us your order. MANTLES, MANTLE CLOTHS, DRESSES, and DRESS GOODS we have in every variety. We make up anything ordered without a fault.

LANSDOWNE'S LAST VISIT.

THE GOVERNOR-GENERAL BIDS ADIEU TORONTO.

The Marquis, Marchioness and Suite Spend a Busy Day Among the Citizens—A Large Concourse of People Turn Out to Greet the Party.

TORONTO, May 8.

Lord Lansdowne is with the people of the Queen City for the last time, at least as Governor-General. It is just about a year ago since he paid Toronto a pleasant and extended visit. His reception on this occasion has been and will be quite as enthusiastic as it was then.

His Excellency and suite reached the North

Toronto Station of the Canadian Pacific Railway at 7.30 yesterday morning from the Capital on a special train. The party traveled in the Government car Cumberland, and was composed of:

LORD LANSDOWNE.
LADY LANSDOWNE.
CAPT. STREATFEILD, A.D.C.
HON. H. S. ANSON.
LORD FRED. HAMILTON, the latter a brother of Lady Lansdowne.

The party was welcomed at the station by Mayor Clarke, Col. Gzowski, A.D.C., City Clerk Blevins and Chairman Dodds and members of his Reception Committee. The Mayor and the rest of the company accompanied the train to Union Station, where a couple of hundred citizens were assembled to join in the welcome. Among those in the station were Col. Otter, D.A.G., Sheriff Mowat, Capt. Law, R.N., and several aldermen.

The Company and its band was stationed outside the station, and as the vice-regal party passed to a carriage "God Save the Queen" was played, and there was plenty of cheering. His Worship the Mayor

escorted Lady Lansdowne to the carriage, and they were driven rapidly to Government House, while Hon. S. H. Anson and Lord Hamilton went to the Queen's.

Their Excellencies rested quietly at Government House during the morning. At 12.30 a deputation of the Canadian Institute consisting of Dr. Wilson, Dr. Scadding, Mr. Carpmael, Prof. London, Prof. Wright, Dr. Kennedy, Mr. VanderSmissen, Mr. James Bain, jr., Mr. John Notman and Mr. Pearce called upon the Marquis to present a memorial upon the subject of the extension of cosmic time notation. The president, Mr. Carpmael, introduced the subject by tracing the history of the movement from its first inception in the Institute and read the memorial. The Marquis expressed his pleasure in meeting with the members of the Institute and promised to forward the memorial at once and to follow it up and to urge it in person on his arrival in London.

The only other visitors to His Excellency at Government House were a deputation from the Toronto branch of the Imperial Federation League, headed by Col. G. T. Denison and Mr. Hamilton Merritt. They presented a memorial from the league in favor of Federation, and His Excellency said he would lay it before the Privy Council when he got to London.

THE QUEBEC RESOLUTIONS.

Moved by Premier Greenway in the Manitoba Legislature.

WINNIPEG, May 7.—The Quebec resolutions were moved by Premier Greenway in the Legislature this afternoon.

In a moderate speech Mr. Norquay supported them.

Mr. La Riviere opposed those clauses which he thought encroached upon the prerogative of the Dominion, but supported those dealing simply with municipal matters.

Mr. Laycock followed in a lengthy historical review of Canada.

The resolutions will undoubtedly be carried, but there will be a division.

Alleged Dutch hall clocks no longer command the high prices of a few years ago.

SCOTT ACT AMENDMENTS.

MR. JAMIESON'S BILL READ A THIRD TIME AND PASSED.

A Clause Added to Mr. McCarthy's Making it Lawful for Physicians and Druggists in Scott Act Counties to Supply Liquor for Medicinal Purposes.

OTTAWA, May 7.—A petition was presented in the Commons this afternoon from the Council of the Northwest Territories praying for the introduction of a new system of Government there. Hon. Mr. Thompson introduced a bill to amend the Northwest Territories Representation Act, providing that the day of the general elections for the Dominion Parliament shall be the same there as in the rest of Canada.

In answer to Mr. Davies, Sir Charles Tupper said the advances by the Government to the Quebec harbor commissioners on account of harbor improvements in Quebec and the tidal dock at the mouth of the St. Charles River amounted to $3,241,000.

Dr. Sproule moved and spoke at considerable length in support of resolutions providing for the branding of United States cheese, when exported through or from Canada, in such manner as to indicate the country of manufacture. It appears that inferior cheese made in the States and exported through Canada has been palmed off on the British public as the product of Canada, much to the prejudice of Canadian cheese, the price of which has been lessened in consequence.

Hon. Mr. Bowell pointed out that it was impossible for Canada to interfere in any way with American goods shipped in bond through this country. He thought the desired end would be attained by cheese manufacturers of this country branding their product.

Mr. Adam Brown moved that a special committee be appointed to enquire into the fraudulent practices prevailing in various parts of the Dominion by which farmers have been and are induced to give their promissory notes and securities to a very large amount in the aggregate for seeds, agricultural implements and other goods and merchandise, by various false pretences.

Sir John said he thought it was highly desirable that some steps should be taken to ascertain the extent of these fraudulent practices, and, therefore, he would support the proposition to appoint the commission.

At the evening session Messrs. McCarthy and Jamieson's bills amending the Canada Temperance Act occupied the attention of the House for several hours. Mr. McCarthy's, which only aimed at simplification in the manner of voting, had a clause added to it on motion of Mr. Haggart making it lawful for qualified physicians, chemists and druggists to supply liquor in Scott Act counties for medicinal purposes, and also to sell preparations containing alcohol but not intended as beverages. This amendment was carried in committee by a vote of 29 to 34.

The House then took up Mr. Jamieson's bill amending the same act, which was adopted in committee with unimportant amendments and read a third time and passed.

Mr. Edgar gave notice that it was his intention to move that the House go into Committee of Supply to call attention to the hardships of settlers in Bressalor, N.W.T.

The House adjourned at 12.30 a.m.

THE VAST NORTHWEST.

Senator Schultz Presents the Report of His Mackenzie Basin Committee.

OTTAWA, May 7.—In the Senate, in moving the adoption of the third report of the Mackenzie Basin Committee, Senator Schultz complimented the zeal and energy of his colleagues on the committee for their efforts to obtain evidence and to make the report as complete as possible. He said, however, that owing to the wide range of subjects to be treated of, some points had been inadvertently omitted, and of these he wished to speak particularly. He gave an interesting statement regarding the furs of the country, the danger of extinction of certain kinds and the methods of preventing this, and suggested the leasing of the barren grounds and also about 200,000 square miles of the lightly-wooded country to the south and west to some fur-trading company who would, as in the case of the Alaska Fur Company, pay the Government for the lease and consent to a limitation of the number to be annually taken of some of the more easily killed fur bearing animals. He pointed out the value of the salmon fisheries of the region, and suggested experimental boring in the oil districts. Also the examination of the different mouths of the Mackenzie with a view to the determination as to which of these formed the best ingress to sea going crafts.

He deprecated any attempt to colonize the country at present, stating that this would naturally follow and not precede the settlement of the prairies to the south and in Manitoba, and said that it was Canada's great reserve. He gave interesting information not embraced in the report regarding the air and sea currents, depth of snow in various portions of the Mackenzie basin and its rain-fall.

He read also a letter from C. N. Bell of Winnipeg which was sent to the committee with specimens of grain grown on ground under which the frost remained in the ground till late in July and still the grain was of a first-class character.

He called attention to the causes which made the Pacific Ocean on the western shore 20° warmer than that of the Atlantic on the eastern shore in the same latitudes. The Senator pointed out the necessity for the preservation of the wood buffalo particularly, because that were the last remains of a species now nearly extinct throughout the world, and spoke of the great possible value in crossing them with domestic cattle, the progeny resulting only needing about one month of stabling and being well suited for the vast pastoral area of the country. Their flesh is not only good, but some thought better than that of the domestic animal, and the hide or robe is worth separately more than the whole ordinary value of the domestic animal.

He stated that the revenue which the United States derives from the leasing of certain rights to the Alaska Fur Company is about $600,000, and argued that as Alaska only cost them $7,210,000 we might expect to derive a revenue from our northern region, which, besides being nearly ten times as great in extent, was richer in all fur bearing animals, with the exception of the fur seal and sea otter. It also possessed mineral wealth and timber ranges far exceeding those of Alaska.

He gave his view as to the causes of the temperature of the sea coast adjacent to the mouth of the Mackenzie, it being 18° warmer than that of the Polar Sea water near it, and argued from this a greater length of navigation in the immediate vicinity of the mouth than was to be found eastward to Wallaston Land and westward to Behring Straits.

At this point the discussion was adjourned until Wednesday at the solicitation of a number of French members who expressed interest in the matter and desired to have the report translated into French before proceeding with the matter.

Militia Matters.

OTTAWA, May 7.—It is understood that the sum of $30,000 provided in the estimates for the purchase of rifled ordnance will be devoted to obtaining four nine-pounder guns to replace the old pieces now in possession of the Cape Breton Battery. If this is done the whole of the twenty field batteries of Canadian artillery will have been armed with rifled ordnance. The smooth bores have been consigned to store. The coming months will probably see negotiations in progress for the purchase of some heavy guns for coast defences, the question having to be taken up sooner or later.

The officers of the Militia Department believe that the stationing of a man with a red flag at the butts of the Toronto rifle range would be sufficient prevention of the reoccurrence of accidents similar to that which occurred last summer.

A P.E.I. Deputation.

OTTAWA, May 7.—Hon. Messrs. Laird and Haviland of Charlottetown, P.E.I. had an interview with the Minister of Customs to-day and urged that the machinery for the new waterworks to be established in Charlottetown should be admitted free of customs duty. The minister promised to discuss the subject further with them in a day or two.

On enquiry at the Customs Department your corresponden was informed that the statement that Canadian officials had exacted duties upon American nursery goods coming into Canada by way of Suspension Bridge was incorrect. The Minister of Customs telegraphed the story to the Collector at that point and received a denial of the charge.

The Geological Survey.

OTTAWA, May 7.—It is understood that arrangements for the coming season's work in connection with the geological survey are not yet completed, having been delayed by the death of Hon. Thos. White, and no start will be made until next month. Mr. James Macoun, son of Prof. Macoun, has been entrusted with the important work carried on from year to year at Fort Churchill, Hudson Bay. Rumor further states that Prof. Macoun is not yet finally appointed a director, but should he be his appointment will be dated back some seven or eight months.

Not Sitting as a Court of Review.

OTTAWA, May 7.—At a meeting of the press gallery to-day, Vice-President James Johnson in the chair, a deputation of Ottawa journalists asked the gallery to pass a resolution sympathizing with J. T. Hawke. After considerable discussion Mr. Ernest Chambers submitted the following resolution, which was carried by a vote of 18 to 5.

That this gallery of working journalists assembled at Ottawa to report the proceedings of the Parliament of Canada, does not consider it within its province to review a judgment of the Supreme Court of New Brunswick.

Amending the Franchise Act.

OTTAWA, May 7.—The Government bill to amend the Electoral Franchise Act, introduced by Hon. Mr. Chapleau, has been printed and distributed. It confers manhood suffrage on the Prince Edward Islanders, who enjoy that right under the provincial act. The amendment provides that so much of the Dominion Franchise Act as relates to Prince Edward Island shall be repealed, and that in any future revision of voters' lists every person shall be entitled to be registered as a voter who is a British subject by birth or naturalization and resident in that province and who is 21 years old. The Liberals have announced their intention of claiming a similar amendment for Ontario.

The Bank of London.

OTTAWA, May 7.—John Leys, M.P.P., and Mr. Purdom, solicitor for the insolvent Bank of London, are here to urge the reconsideration of the bill for the winding-up of that institution, which was thrown out of the Banking Committee because the shareholders were not consulting parties to the course pursued. They have secured the sanction of the shareholders, however, and are now endeavoring to induce the committee to reconsider the bill.

Imperial Federation Memorial.

OTTAWA, May 7.—The Ottawa branch of the Imperial Federation League are showing signs of life, and have presented the following memorial to the Governor-General:

That the people of Canada and Australia have no social or commercial relations, that they are practically without intercourse, and have but little knowledge of each other. That until recently, owing to geographical circumstances, no intimate relations were possible, but the consummation of the union of British Columbia with Old Canada by the construction of the national railway has completely changed the conditions and opened up the way for great possibilities in trade and commerce between the Dominion and the sister colonies in the South Pacific. That it is of great importance to establish trade and friendly intimacy between these two great divisions of the British Empire.

Your memorialists believe that the attainment of these objects would be greatly facilitated by a conference of delegates representing the Canadian and Australian Governments, wherefore your memorialists desire to express the hope that Your Excellency will be pleased to take steps to invite the Australian Government and the Government of New Zealand to join in constituting a conference to devise means for the development of reciprocal trade and commerce.

Ontario's Exhibit at Cincinnati.

OTTAWA, May 7.—Mr. Blue, Deputy Minister of Agriculture, speaking to a reporter, said he had just returned from Cincinnati after arranging for space for the Ontario exhibit. The exposition will be an extensive one, and the Ontario Government were convinced that by exhibiting the mineral productions of the Province American capital would be attracted to Ontario, and new markets opened for Canadian minerals and fine building stone in the central States. Few Canadians, and still fewer citizens of the States, are aware of the immensely varied and valuable mineral resources of Ontario, especially in the Lake Superior regions. The salt beds in the counties of Grey and Bruce alone are extensive enough to supply the entire continent of America for twenty years, and are almost unheard of in the States. Mr. Blue says he has a large number of men engaged now in collecting specimens of the most valuable minerals found in paying quantities all over the province, as well as the most useful kinds of building stone.

CAPITAL GOSSIP.

An Eagle Eye on the Sessional Clerks—Entertained by the Premier.

OTTAWA, May 7.—The great McMullen has his eagle eye on the sessional clerks, and on Wednesday he will move for a return tracing statistics from 1874 to 1888 and the wages per day or session.

Sir John and Lady Macdonald entertained those ladies and gentlemen at dinner to-night: Sir Hector Langevin, Sir Charles and Lady Tupper, the Speaker of the Senate and Mrs. Allan, Hon. Mr. and Miss Clemow, Hon. Mr. Miller, Hon. Mr. Schultz and Mrs. Schultz, Sir Donald Smith, M.P., Hon. Mr. Haviland (P.E.I.), Mrs. and Miss Cargill, Mr. H. J. Macdonald (Winnipeg), and Mr. George Sparks.

Hon. J. A. Chapleau has returned to the city.

Senator Schultz will leave shortly for Harrison Hot Springs, B.C., where he is erecting a summer cottage.

Mr. James McLaren, the well known lumberman, has returned from Oregon and British Columbia, where he recently purchased timber limits valued at $2,000,000.

Rev. Mr. Brick to-day interviewed the Deputy Minister of Indian Affairs with reference to the condition of the Indians in the Peace River district referred to in yesterday's despatches.

FOREBODINGS OF STRIFE.

ALARM FELT WITH REGARD TO THE EUROPEAN SITUATION.

Lord Salisbury's Significant Utterance—A Crisis of Tragic Import—Intrigues in the Balkans—Russia Regarded with Suspicion—Financial Uneasiness.

LONDON, May 7.—In view of the approaching demise of the German Emperor all states men regard the situation in Europe with great foreboding. The recent utterances of the Duke of Cambridge and Lord General Wolseley of the necessity for better attention being given to war preparations have created great public uneasiness. This will not be lessened by reading the remarks of Prime Minister Salisbury at the Burlington House dinner. In speaking of England's foreign relations, he said:

"Of the general state of affairs I would merely say that we are passing one of those short intervals of peace—of extreme and tranquil peace. Europe is standing hushed by the bedside of its most powerful, its most admired and valued potentate. We earnestly follow the course of the sufferings of the Emperor, with such hopes as his Royal Highness expressed, and with a deep sense of the tragic import of the crisis through which we are passing."

When men in responsible positions thus picture the gravity of the situation, it is no wonder that more heed is given to stories of insurrection in Roumania, of intrigues to disturb the peace in Bulgaria, while reports of three-quarters of a million of Russian soldiers moving along its western border come to quicken apprehension and stimulate attention. It is remembered that some of the bloodiest of European wars have come unexpectedly and with the briefest possible warning. Every report from Berlin now is scanned to see how near is the inevitable end. Whether the period of suspense will be days or weeks no one can tell.

Russia is beginning to be regarded with particular suspicion. The latest reports say she now has three-quarters of her army on her southwestern frontier. She has recently strengthened her navy, and during the last month has shown increased activity in the way of military preparations. It is now noted that Russia has a better opportunity for raiding in the East than she has had for years. Germany is sorely troubled by the uncertain condition of the Emperor, England is unprepared for war and has the Home Rule divisions to prevent unhampered resistance to any swift aggressive action upon the part of Russia in the direction of the Balkans and of Turkey. Austria, the Czar does not care for, and France is now his ally. Russian finances are at their worst and might be remedied by the capture of new territory. Outbreaks and insurrections are constantly being fomented by Russian agents in the East. It is here that Russia intends within the next month to make a positive showing of an aggressive Eastern policy. In financial circles great uneasiness is beginning to be felt about the matter.

THE QUEBEC LEGISLATIVE COUNCIL.

Vacancies Filled—The Council to be Abolished, Probably in 1889.

MONTREAL, May 7.—The vacancies in the Legislative Council of Quebec, caused by the demise of Hon. Messrs. Couture and Rivard, and the resignation of Hon. Mr. Prudhomme, have been filled by Messrs. Larochelle, M.P.P., for Dorchester, Wilfrid Prevost, Q.C., and Louis Tourville of this city. The appointments are pronounced excellent, although some Liberals blame the Premier for appointing one of his supporters in the Legislative Assembly and thereby losing two votes.

It is understood that the Nationalist candidature in Dorchester will be offered to Mr. L. P. Pelletier, advocate, of Quebec and editor of La Justice, who was defeated by thirty votes by Sir Hector Langevin in Three Rivers at the last general election. Mr. Pelletier's friends here say he will surely be elected, and that he will probably succeed Hon. George Duhamel in the Cabinet as the representative of the Nationalist-Conservative element, the Solicitor-General having become practically useless owing to the loss of his voice.

When a successor has been appointed to Hon. Dr. Lavallee, who is being tried for alleged malversation of office by appropriating colonization funds, the Government will enjoy a majority of two votes in the Legislative Council.

It is asserted that the Premier, following out the program he set forth at the last general election, has decided to do away with the Legislative Council as soon as he feels himself strong enough. This will not likely be done before the Session of 1889, but it is understood that the three councillors who have just been appointed have been given to understand that when called upon to vote for the abolition of the Council they will be expected to do so. The reason why the Government has decided to abolish the council is that it imposes an unnecessary and large expenditure on the province annually, the benefit derived form it being by no means proportionate to the cost of its maintenance.

The members of the Council will retire with the title of "honorable" and an indemnity. The total indemnity will, it is said, not be less than $250,000.

The Fisheries Treaty in the U.S. Senate.

WASHINGTON, May 7.—The Senate in secret session to-day ratified the Chinese Treaty without a division. Senators Teller and Mitchell made speeches in which they set forth the grounds of their opposition to the treaty, but did not demand a vote.

Senator Edmunds has reported the Fisheries Treaty adversely, submitting a written majority report, and Senator Morgan submitted the favorable minority report. Mr. Edmunds gave notice that he would call up the treaty a week hence.

The Duelist Liberated.

PARIS, May 7.—M. Habert, the artist, who was arrested after killing M. Dupuis, a fellow artist, in a duel, has been liberated. He blames the seconds of M. Dupuis for failing to make an effort to settle the difficulty in a peaceable manner. If they had been less arrogant he says no harm would have been done.

THE PUBLIC LIBRARY.

ANNUAL MEETING OF MEMBERS OF THE MECHANICS' INSTITUTE.

Satisfactory Reports from the President, Secretary-Treasurer and Library Committee—Election of Officers and Minor Business.

The annual meeting of the members of the Peterborough Mechanics' Institute was held at the rooms on Monday evening.

President Wm. English occupied the chair and among the others present were Rev. Mr. Bradshaw, Col. H. C. Rogers, Dr. Burnham, Dr. Brennan and Messrs. J. Fraser, J. H. Long, R. Robertson, James English, Albert Hall, F. J. Lewis, Secretary Corkery and Librarian Peters.

The minutes of the last annual meeting were read and confirmed.

PRESIDENT'S REPORT.

The annual report of the President was read as follows;—

PETERBOROUGH MECHANICS' INSTITUTE.

Annual report for year ending April 30th, 1888. The Board of Directors, in compliance with the by-law to that effect, herewith submit their twentieth annual report for the consideration of the members of the Institute.

The year just ended has been one in which trade in general has been depressed and the Institute shows the effects of duller times in a falling off in the membership, though the amount received from the sale of tickets is but slightly less than was received last year.

But one class was held during the winter, the subjects taught being Mechanical and Freehand Drawing. The number in attendance was fair, and the progress made fully as great as could be expected. The great trouble in connection with the classes is the same as that in the Public Schools, namely, irregularity in attendance, and it is impossible for a teacher, no matter how thorough and energetic he may be, to bring on pupils who may not attend over half the time.

Several changes have been made in the list of periodicals taken for use in the reading-room and some new one have been added. There are now five daily papers:—Mail, Empire, Globe, N. Y. Sun (including Sunday edition), and one of our local dailies and eight weekly papers. There are also eleven magazines:—Harpers', The Century, Atlantic, Scribner's, Cassell's, Chambers's Journal, Good Words, St. Nicholas, Nineteenth Century, Literary Magazine and the popular Scientific Monthly. Besides the above, there are eighteen periodicals, including several specially suited to the taste of lady subscribers.

The library has been increased by the addition of a large number of valuable books, and now contains about five thousand volumes. The number of volumes read during the year was very large, and there was a slight increase in the issue of works on Science and Art, and Travels. Full particulars will be found in the report of the Library Committee. A statement of the financial condition of the Institute is also appended.

All of which is respectfully submitted.

WM. ENGLISH,
President.

—Adopted.

LIBRARY REPORT.

The Library Committee reported as below.

To the President of the Mechanics' Institute

The Library Committee beg to submit the following report:—

During the twelve months ending 30th April, 1888, one hundred and seventy-three volumes have been added to the Library, classified as under.

		PRICE.
Class A Biography	12 vols	$18 70
B Essays and Lectures	12 "	15 05

J. R. Stratton, Esq., M.P.P., and R. M. Bucke, Esq., M.D., each presented one vol. to the Library and the Department of Education 14 vols., including some specimens of Japanese works. During the year 102 vols. were bound or rebound, and 6 vols. repaired.

The number of volumes of each class issued since last report was as under:

A Biography	143
B Essays and Lectures	249
C Fiction	2819
D History	211
F and H Miscellaneous	147
G General Literature	1969
I Philosophy	26
K Poetry and Drama	81
L Periodicals	86
M Religious	9
N Science and Art	264
O Voyages and Travels	391

Works of Reference (class E) are not allowed out of the Library, but they are almost constantly in use, and form a very valuable and useful part of the Library.

In addition to the books to be found in the Library the reading room, which is very well patronized, contains 5 daily newspapers, 8 weekly newspapers, 11 magazines, 18 periodicals.

All of which is respectfully submitted.

J. L. LEWIS, Chairman,
Library Committee, P.M.I.

P.S.—The number of members for the year was 284.—Adopted.

THE FINANCES.

CLASS REPORT.

The drawing class report was as follows:—

PETERBOROUGH, April 30 h, 1888.

To the Directors of the Peterborough Mechanics' Institute.

GENTLEMEN,—I beg to submit for your consideration the report of the drawing class for the term ending April 30th, 1888.

The class started with a membership of nineteen, of which number fifteen studied machine drawing, two freehand drawing, and two industrial design. Several of the class it is to be regretted were unable to attend shortly after the first of January on account of having to work at night in the works of the Wm. Hamilton Manufacturing Company.

The interest taken and the work done has been fairly satisfactory, but I would respectfully suggest that it would be an improvement to have a shorter term. Five months is rather long a period for 26 lessons to cover, and at the same time give the percentage of attendance which is required by the Education Department. On that account, I extended the number of nights to 32, and by doing so covered the number of nights required by the Department for each pupil to attend.

Number of lessons.....32
Number of students who attended 20 and over 14
Average attendance during term.....12

The following students have decided to try the examination for certificates:

Machine drawing.....5
Freehand drawing.....1
Industrial design.....2

Respectfully submitted,
J. FRASER.

—Adopted.

ELECTION OF OFFICERS.

The scrutineers declared the following officers elected for the ensuing year:—

PRESIDENT.—Robert Robertson (by acclamation).

DIRECTORS.—Rev. Mr. Bradshaw, Dr. Burnham, Dr. Clarke, John Corkery, James English, William English, John Fraser, T. A. Hay and F. J. Lewis.

THANKS.

The new President then took the chair, and after passing votes of thanks to the retiring President and the Scrutineers, the meeting adjourned.

TORONTO DEFEATED AT SYRACUSE

The Stars Win by Timely Hits and Errors by the Champions.

SYRACUSE, May 7.—The Stars had little difficulty in defeating the champions in this city to-day, making timely hits and being assisted by timely errors. Atkisson was very effective and the score should have been much closer, the Stars earning but one run. The home team played without a fielding error. Bob and Will Higgins, Walker, Battin and Decker did particularly fine work. Score:

The Six-Day Race.

NEW YORK, May 8.—The score at 8 o'clock to-night was: Littlewood 122, Hughes 118, Cartwright 108, Golden 106, Day 106, Newman 103, Hilman 99, Moore 98, Cox 94, Saunders 98, Burns 95, Hart 99, Dillon 83.

Spots of Sport.

Rochester is the first team in the International Association to play an errorless game.

Belleville and Kingston are after catcher Baker, who was released by the Hams.

Pete Miller of Hamilton has received an offer from Belleville.

Out of the seventeen games played by the Syracuse Stars this season, they have lost but three.

Jerry McCormick broke his shoulder blade recently, and has been released by the St. Louis Whites.

Philadelphia played an errorless game yesterday at Pittsburg, defeating the home team easily.

Crane was in the box yesterday for New York at Indianapolis, and was hit hard.

Boston's crack battery, Clarkson and Kelly, were again knocked out at Detroit yesterday, the home team making 15 hits off Clarkson.

By Boston's defeat yesterday Chicago takes the lead in the championship race.

Mobbing the umpire is the usual Sunday occupation in the South.

The Wanderers will play the Hamilton wheelmen at an early date at the Ambitious City.

The season is young yet, and because a club loses a few games it does not mean that they have no chance for the championship. Many things may happen before the last game is played.

Manager Phil Powers of the London Club has become a catcher again, and is doing good work.

Jack Gorman, recently released by the Troy Club, is back at his home in St. Louis, and seems to be pretty angry over the treatment he received at the hands of Manager Sullivan.

The Buffalo-Troy tie game of April 28 will be played at Troy, Aug. 20.

New York Sun: Toronto is getting along nicely under Manager Cushman's direction, and promises to make all hands hustle this summer. A pretty race for the pennant is assured.

The Stars are a clever lot of fielders and heavy hitters.

Manager Chapman of Buffalo is hunting for another battery.

The Buffalo Express is offering a prize of $10 for a correct guess as to the standing of the clubs at the end of May.

Rochester is getting away with all visiting clubs. The team is well fixed in the matter of pitchers with Barr, Callihan and Hayes.

New York Sun: To all appearances Troy is being backed by the Washington League club. An item appeared in an exchange recently saying that Washington was about to call in a certain player who is being used by Troy. If this be so, it is being done in direct violation of a resolution of the International Association adopted last winter, when rumors were spread that Troy was merely an adjunct of Washington.

Advice to Mothers.

Mrs. Winslow's Soothing Syrup should always be used when children are cutting teeth. It relieves the little sufferer at once; it produces natural, quiet sleep by relieving the child from pain, and the little cherub awakes as bright as a button." It is very pleasant to taste. It soothes the child, softens the gums, allays all pain, relieves wind, regulates the bowels, and is the best known remedy for diarrhœa whether arising from teething or otherwise, 25 cents a bottle. Be sure and ask for "Mrs. Winslow's Soothing Syrup," and take no other kind.

FAME VERSUS BUSINESS!

WE LEAVE IT TO THE WORLD TO JUDGE!

The People of the County, our Court! Satisfied Customers, our Witnesses! We Plead our Case and Carry off a Verdict!

In re GOUGH BROS. et al

THE COURT—The Bar will observe that the case is now open. You have heard the indictment read. It is clear and explicit. What say you, Gough Bros., why sentence of the Court should not be pronounced upon you?

GOUGH BROS.—May it please your Lordship:—To the serious charge that we have revolutionized the clothing trade in Peterborough we plead guilty. The facts are so apparent that denial were useless. But, may we ask the Court to consider extenuating circumstances of great weight. We have established a business by the people, for the people and of the people. We have placed within the reach of all clothing of any grade at prices that shatter Monopolies, and Paralyze High Prices. When the Court remembers that we have taken a $2.50 boy and clothed him in a 65c Suit of Clothes the Court will appreciate our enterprise. When the working man who wants Clothing can walk up to the trough and help himself to a suit at $2.50 there is something in life worth living for. When a pair of Pants that are a thing of beauty and a joy forever can be carried from our counters for the small sum of 25 cents, the Court will realize that our politicans are not all of our sincerest benefactors.

Should the Court, for example, so direct we will fit out our learned friend on the other side with one of our Special Made Suits and his immediate relatives will testify that the garments are better than most custom work; are cut from Stylish Patterns, made up by artists who consider Beauty and Finish and Good Work as a first requisite.

We ask the Court's inspection of a special line of 500 suits for Men and Youths. These are gems of purest ray serene, so Good, so Stylish, so Cheap, that stealing will become, in truth a struggling industry. Then we have secured a niche in the temple of fame by large sales of our best classes of All Wool, French Worsteds and English and Scotch Tweeds, fit for the wear of prince, pontiff or politician. This, your Lordship, is our plea.

THE COURT.—Gough Bros., you have ably stated your case. You are excellent counsel. The ruling of the Court is that you are honorably discharged and that the Court adjourn sine die.

GOUGH BROS.

THE WONDERFUL CHEAP MEN.

SPECIAL LINES:—Boys' Coats 19c. each; Boys' Suits 69c., $1.10 each and up. Parents, GOUGH BROS. will save you 50 per cent. on Children's Clothing. Men's Working Suits at $2.50, worth $5.50. Sunday Pants, $1.25, worth $2.50.

AS MUCH A SECRET AS EVER

To the Editor of the Review:—SIR—How in the world has C. B. ROUTLEY jumped into such a big slice of Wall Paper trade? Why, it seems as if one couldn't pass his store without running against a load of Wall Paper in the arms of some pleased looking customer. I'm half inclined to think there must have been lots of boodle in the Wall Paper business before ROUTLEY started it and that the people have found out that he has broken the combination. Eh? what did you think, Mr. Editor? And yet you occasionally hear of spasmodic attempts to get down to ROUTLEY'S prices, in order to head him off; but still it seems as much a secret as ever how he keeps up the run

Yours truly,

ABOUT EARLY CLOSING.

We have decided to close our store during the Summer months at 7 p. m. each day, Saturday excepted.

We would ask our customers and friends to aid us in this matter by sending in orders or calling to make purchases as early as possible in the day.

The early closing movement will be a benefit to all who carry out the plan we feel assured and we hope that our request for early buying will meet with a general response.

HOUSEFURNISHINGS.

At this season many Housekeepers are replenishing their supplies of Tableware and China. City folk are furnishing summer cottages; country folk are filling up the dressers and cupboards of the old homestead; town's folk are picking and choosing here and there. Many would be glad to know of a place whose special business is to meet these wants and desires; that aims to furnish essentially good wares at consistently low prices; that offers the choice of many different dinner services, and yet does not compel you to take an entire set of any pattern, but allow you to select each course of a new design, or buy any portion of the set you may need; that does not try to impose ideas or wares upon purchasers, and yet is ready to advise which of the many wares is most desirable and suitable; and, if wished, will make a careful selection of pattern. When you want Tablewear will you give us the opportunity to serve you.

W. J. MASON,

OUR SUCCESS.

So far our CLEARING SALE has been a success. We are bound to sell, and the public may expect big bargains in every department. Stock fully assorted with choice goods.

Obituary.

The sudden death of the wife of Mr. Wm. Geo. Yelland, son of Councillor Yelland, which occurred yesterday, was learned of with deep regret. The deceased lady was a daughter of Mr. Frederick Edwards, of Douro, and in her former home and in Peterborough had many friends and was highly esteemed. The family have sincere sympathy in their sad bereavement. The funeral will take place to-morrow afternoon at 2 o'clock.

For Vagrancy.

James Wilfred, of Ennismore, is well known to the police and gaoler. He has been frequently arrested and committed for vagrancy and larceny. Last night he came to the police station under the influence of liquor and demanded a night's lodging. The Chief placed him under arrest as a vagrant, but at the Police Court this morning he pleaded hard for his liberty and was allowed to go upon promising to leave town at once and remain away.

A Grand Concert.

A grand concert will be given in the Opera House by Miss O'Reilly, of Ottawa, a graduate of the New England Conservatory of Music, Boston, who is leaving Ottawa to join the Albani Opera Company, at present in London, England, and Mr. Alfred De Seve, violinist, who was court violinist to the Queen of Spain, and also court violinist to Princess Louise while she was in Canada. They will be assisted by Miss Kate Josephine Tracey, pianist, who is also a graduate of the New England Conservatory of Music. The popular local vocalists, Mrs. J. E. McIntyre and Mr. Thos. Dunn, will also take part. The date is Wednesday evening, the 9th inst. Tickets at Hartley's store; prices 25 and 50 cents. 2d107

For Lieut-Col. Villiers.

The following officers of the third military district have been named as a committee to make arrangement for the mode in which the officers of this district can most suitably express their esteem and regard for Lieut-Col. Villiers, their late deputy Adjutant-General, who has been appointed to the Winnipeg district:—Lieut. Col. Boulton Cubitt, 45th; Lieut.-Col. Benson, 46th; Lieut.-Col. Graveley, 40th; Lieut.-Col. Rogers, 40th; Lieut.-Col. Lazier, 15th; Lieut.-Col. Brown, 49th; Lieut.-Col. Kirkpatrick, 47th. Major Drennan, Kingston Field Battery, and Major Hughes, 45th, Lindsay, are to draft the address. It is expected that all the officers of the district, including "A" Battery, will join in expressing their great appreciation of Col. Villiers, who has endeared himself to every officer and man in the force. The proposition is to have a handsome illuminated address presented at the Arlington hotel, Cobourg, to be followed by such a banquet as this hotel is famous for. Cobourg, as the most central place, is proposed as the point which is most easy of access to the greatest number of officers in the district. A most general and hearty response to the proposition has come from all sides. It is expected that it will be a most brilliant affair.

Baseball.

The Empire says:—"Baseball is at fever heat in Eastern Ontario at present, and in the St. Lawrence basin correspondence is going on among the following cities and towns:—Brockville, Ottawa and Kingston, Peterborough, Port Hope, Belleville, Watertown, Malone and Ogdensburg. It is almost certain that a league will be formed in that district at an early date and first-class semi-professionals will be at a premium. No doubt within a month Toronto will contain a much less number of good baseball players than at present, and managers of the above clubs would probably skirmish in worse places than here to secure good players, for there must be upwards of a couple of dozen really good ball-tossers in the Queen City. It is not to be supposed that Toronto wishes the loss of these players, but pointers must be given managers as well as players."

The Belleville Baseball Club have applied for letters patent. The following officers have been elected:—Hon. President, W. H. H. Biggar; President, Col. S. B. Lazier, Vice-President, John T. Warrington; Secretary, C. A. Abraham: Treasurer, S. O'Brien; Managing Directors, Jno. Flemming, Jas. Jenkins, T. C. Lazier, C. S. Hostage, W. L. Fellowes, Jas. Starling and Jas. McCullough. Three cracked players were booked and the meeting adjourned until Wednesday next.

The Bricklayers.

A circular has been sent to the various contractors in town, from the Secretary of the Bricklayers Union, notifiying them that after the first of June next, the bricklayers will not take any contracts for work from the contractors, and stating that June 1st is named as the date in order to allow the contractors to finish any work they may have on hand at present. This means that the persons building must treat direct with the boss bricklayers. It is also understood, in this same connection, that there is a movement on foot to refuse to do any more veneered work.

Several members added their testimony in regard to Mr. Miller's efforts and to the benefit they had received from the meetings, and the motion was adopted. Mr. Miller made a feeling response, and said that he had enjoyed the meetings and received much benefit from them.

OPERATING UP NORTH.

Blythe Mills Visited During the Night and a Sum of Money Taken.

Hilliard's flour mill, at the north end of the town, near Auburn, was entered by burglars on Monday night, the safe opened, and a sum of money carried off.

When the employees opened up this morning, they found that a pane of glass in one of the office windows had been broken and ingress gained in that manner.

From the safe was taken between $20 and $25, and as the safe did not bear any signs of being tampered with, it would seem as if either the burglar or burglars had a key or the safe was left open.

On the floor was found an envelope, taken from the safe, which had been opened and then thrown on the floor. It contained only cheques and notes, of no value to any person except the owner.

As early as possible this morning the police were notified and the Chief and officer Adams went up to investigate, with the result given above.

There is no clue whatever, except that two suspicious looking strangers were seen in the neighborhood of the mill shortly after it was closed at 9 o'clock. That there were two engaged in the work seems highly probable and that one of the operators wore moccasins there is no doubt whatever.

A night watchman employed around the mills, yards, etc., states that he entered the mill about one o'clock in the morning and found the envelope with the cheques etc. lying on the floor, but as he thought the foreman or some of the other employees had dropped them, his suspicions were not aroused.

Reception for Young Men.

On Monday evening the Rev. P. Clifton Parker, pastor of the Baptist church, Murray-st., gave his annual reception to the young men. A large number of young men were present, members of the congregation and others. Tables were spread in the Sunday school room, which were abundantly supplied with substantial and delicate edibles by the ladies, and a staff of young ladies attended to the wants of those who sat around the tables and enjoyed the repast. After the removal of the cloth the Rev. Mr. Parker took the chair and introduced a programme. This part of the entertainment, however, was quite informal, the company setting in groups or passing around, enjoying social conversation, while the events on the programme were called for at intervals. Mr. Howell first gave a song, which was generously applauded. Mr. Howell is a new vocalist to a Peterborough audience, but a welcome one. The Rev. Mr. Parker gave an amusing recitation, "The Traveller and the Robber." Mr. C. B. Routley sang "The Sexton," an excellent song in which he displayed a good, round bass voice of wide compass, and he was warmly applauded. The Y.M.C.A. Quartette sang "My Lady Sleeps," and, as is usual whenever they appear, were encored, giving in response "Call John," an excellent selection. Miss Orth and Mrs. Minore sang a duet, "Dear Old Home," which was received with demonstrations of approval. Mr. L. Croly read Byron's address to the ocean from "Childe Harold," a difficult piece which he gave with good effect. The Rev. Mr. Parker sang "Hail Killarney," and was loudly encored and responded. Mr. Parker said he was diffident about singing, but his services will hereafter be in demand. Mr. Wm. Graham sang a temperance song, "John Sharp," and was heartily encored. Mr. E. Duff followed with a song and was warmly applauded. Mr. R. J. Kidd recited "The Burial of Dundee," displaying considerable elocutionary power. Mr. Howell gave another song, "I'll Wait the Foe," which was well received, and Mr. Routley was again called on and sang with spirit "Hearts of Oak." Mr. Rossiter concluded the programme with a humorous recitation, "All's Well that Ends Well." A vote of thanks was tendered the Rev. Mr. Parker, the popular pastor, for the evening's enjoyment. Mr. Parker replied in a witty speech. He returned thanks to the ladies for their valuable assistance and thanked those present for their attendance. The proceedings concluded with the National Anthem. Mr. Parker's first annual reception was a splendid success, and all present enjoyed themselves.

Our Eastern Suburb.

A meeting of the Ashburnham Board of Health was held on Monday evening. The question of licensing milk vendors doing business within the limits of the village was discussed at some length, but nothing definite was done. It was decided to pass a by-law making it compulsory to put in dry earth closets.

There was a full attendance of the members at the Council meeting, which lasted for some time, but there was considerably more talk than business, each person present airing his views on any and all subjects that came up. A number of accounts being properly certified to were ordered to be paid. Several new streets have been opened out in the village lately and it was agreed to grade these and fix them up in proper shape for traffic. Some of the older streets and sidewalks will also receive attention. The other business transacted was of no particular importance.

—Mr. Wm. Kennealy has returned home after a trip to Wisconsin.

—New plate glass windows are being placed in P. D. Doran's establishment.

—The volumes at the Mechanics' Institute library number very close to five thousand.

—The police officers being placed on regular beats has the effect of keeping the street corners clear.

—The paths at the Horticultural Garden are being considerably widened, which will be a great improvement.

—Mr. Councillor Langford has commenced the erection of another dwelling on George-st, north of Antrim.

—A large gang of men are at work on the Chemong Lake Railway and grading on a small scale is in progress.

—Some remarkably tough looking specimens of humanity of the tramp persuasion, were observed in town last night.

—Flying paper is a nuisance of rather large dimensions to the average horseman, especially if the animal he is driving is at all nervous.

—The poles for the new electric light at George and Antrim-sts. are in position and the wires will be strung and the lights started by to-morrow.

—A woman came to the Police Magistrate this morning to lay a charge against her husband, for assault, but womankike she repented and refused to do it.

—The Salvationist street parade last night was led by an individual attired in a long red cloak, wearing a white plume in his hat and carrying an umbrella.

—There was a very good turn out of volunteers at the armoury last night, at the regular drill, and the men are being put into good shape for the 24th of May.

—A by-law to grant R. S. William & Son, piano manufacturers, of Toronto, a bonus of $20,000 to remove their works to Oshawa, was carried on Monday, by 379 out of a total vote of 391.

—A volunteer with a red coat, regulation pants, a christy stiff hat and a cigar in his mouth can hardly be said to be obeying the Queen's regulations. He was observable on the streets last night.

—The first cricket match of the season was billed to take place on the P. A. A. A. grounds this afternoon, but at the time of going to press the weather looked rather too threatening for it to come off.

BEWARE OF IMITATIONS.

Imitations and counterfeits have again appeared. Be sure that the word "Horsford's" is on the wrapper. None are genuine without it.

Hard Luck.

The Claire Scott Company has had a run of hard luck. At Port Hope and Lindsay they had small houses, in Peterborough they fared no better, and they played four nights in Belleville to small audiences. In the latter place free tickets were issued to ladies—distributed in hundreds through the streets—but to no avail. This is surprising, as Miss Scott is a talented actress and has good support.

Don't use any more nauseous purgatives such as Pills, Salts, &c., when you can get in Dr. Carson's Stomach Bitters, a medicine that moves the Bowels gently, cleansing all impurities from the system and rendering the blood pure and cool. Sold by all Druggists.

The mission of life is to do all the good

At the Agricultural College.

At the recent examinations at the Agricultural College, Guelph, Mr. W. G. Birdsall, of Asphodel, passed in all subjects in the second year examinations. He carried off honors in live stock, judging cattle and English literature.

In the spring, hundreds of persons suffer from boils, carbuncles, and other eruptive diseases. These are evidences that the system is trying to purge itself of impurities, and that it needs the powerful aid which is afforded by the use of Ayer's Sarsaparilla.

DIED.

YELLAND.—In Peterborough, on Monday, 7th of May, 1888, MARY ANN, wife of Mr. Wm. G. Yelland, aged 50 years.

Funeral from the family residence, Bethune-st, on Wednesday afternoon at 2 o'clock.

WHITBY.

SHOT HIMSELF.—A young man in Whitby named Allen, on returning from church on Sunday evening, attempting to shoot his wife, but was prevented by her snatching the revolver from his hand. Foiled in his attempt on the life of his wife he afterwards shot himself with fatal results. The reason for the terrible deed is not yet ascertained. He was in good health, was slim of figure and fine looking, about thirty years of age and had only been married a short time. He moved to Whitby from Darlington ownship.

Spring Millinery

I wish to announce to my lady friends that my spring stock is now complete and I am prepared to attend to the wants of my old customers, and as many new ones as will favor me with their patronage. As my stock has been selected with great care you will find it will compete favorably with the largest houses in the trade. In addition to the Millinery I have added a nice assortment of ladies' and children's underwear, at low prices. Don't forget the place, one door south of Sailsbury's Book Store.

S. ARMSTRONG.

To Save Life

Frequently requires prompt action. An hour's delay waiting for the doctor may be attended with serious consequences, especially in cases of Croup, Pneumonia, and other throat and lung troubles. Hence, no family should be without a bottle of **Ayer's Cherry Pectoral**, which has proved itself, in thousands of cases, the best Emergency Medicine ever discovered. It gives prompt relief, and prepares the way for a thorough cure, which is certain to be effected by its continued use.

S. H. Latimer, M. D., Mt. Vernon, Ga., says: "I have found Ayer's Cherry Pectoral a perfect cure for Croup in all cases. I have known the worst cases relieved in a very short time by its use, and I advise all families to use it in sudden emergencies, for coughs, croup, &c."

A. J. Eidson, M. D., Middletown, Tenn., says: "I have used Ayer's Cherry Pectoral with the best effect in my practice. This wonderful preparation once **saved my life**. I had a constant cough, night sweats, was greatly reduced in flesh, and given up by my physician. One bottle and a half of the Pectoral cured me."

"I cannot say enough in praise of Ayer's Cherry Pectoral," writes E. Bragdon, of Palestine, Texas, "believing as I do that, but for its use, I should long since have died."

MONA'S CHOICE.

BY MRS. ALEXANDER.

"Are you?"

"I advised him to make the venture, and I made this opportunity to advise you to accept him."

"Ah!" exclaimed the young lady, suddenly pressing her handkerchief to her brow. "There must be an east wind. Such a sharp pain shot through my temple! Would you draw up that window?"

The pain was so severe that her voice sounded unsteady. He obeyed—and resuming his seat and his argument proceeded—

"Waring is not a bad fellow, and he is rich, really rich, no matter if the richness is new or old. He is not as dull as he seems, though dullness is no drawback to a husband. He adores you—but he is half afraid of you; you may reign supreme; you can help your grandmother; you will even thank me hereafter for showing you this way to escape from the horrors of genteel poverty, only you must *not* hesitate in your acceptance of him," Lisle went on, impressively. "He is a shy bird; if you are not kindly, he will flutter away; you need not affect any passion, simply promise to be his wife. He has a high opinion of your integrity and honor. He will trust you, and when I come back after a few years of broiling, I shall see you, I hope, what you ought to be, a leader and an ornament of society, perhaps to be rewarded for my enormous unselfishness by a renewal of your friendship and confidence."

While he spoke, his companion had opened her traveling bag, taking out a flask of *eau-de-Cologne*, and dropped some on her handkerchief, which she applied to her forehead.

"Ah!" she said, "it is a little better!" She raised her eyes to his with a smile, a polite smile. "You are really very good to take all this trouble for me; it is more than I could expect! You need not exhaust yourself in persuasion; I really do not dislike Mr. Waring; on the contrary, he is evidently malleable, and by no means bad looking—rather young perhaps, but that is a fault which corrects itself. I had no idea he thought of throwing the handkerchief to me! I am much obliged for your warning not to scare a shy bird! It is not always that a man is gifted with a figure as well as a fortune."

She spoke with languid composure, keeping her eyes on his.

"I am very glad you take so sensible a view of my suggestion," he returned, with slight suppressed surprise; "as to looks, that is a matter of taste; I do not admire the 'prize-fighter' style myself; but Waring is quite six or seven years older than you are! I assure you it is a relief to my mind that you deign to accept my counsel, and do not snub me for meddling."

"That would be a bad return for your disinterested friendship. I do not think many people would imagine you capable of so quixotic an effort to succor a damsel in distress! You do not do yourself justice, Captain Lisle! Now, do tell me something of your own plans, for I reciprocate your friendly interest, I assure you."

"My plans," he repeated, in a different and less steady tone. "They are simple enough. My uncle, General Forrester, has promised me an appointment on his staff. It may keep me in India the best part of my life; but I shall have leave of absence from time to time, and so keep in touch with civilization."

"That will be delightful! And you really have known commonplace money troubles like other people?"

"Yes; very decidedly yes."

He was feeling curiously displaced from his position of superior firmness and worldly knowledge. The unexpected acceptance of his suggestion by this fair gentle creature, who was barely nineteen, threw him off his balance.

"Then I hope they are over forever," she remarked, in a kindly tone. "You must pick up a Begum in India. Yet, no! I should not like to be less bountiful than you are! I would give you a pretty, as well as a wealthy wife. Mr. Waring is handsome, or rather he will develop into a handsome man. I think you have chosen well."

"I did not choose at all. I simply did my best to induce you not to throw away a good chance. Are you serious? I do not quite understand you, Mona."

She raised a warning finger playfully.

"As I am not, according to you, to keep my name much longer, pray let me hear it always; it is far prettier than Waring—Miss Joscelyn, if you please."

She had grown quite animated; a faint color replaced her extreme pallor; her large eyes sparkled; she dominated the conversation. Captain Lisle watched her closely; her manner was quite naturally while his took the curt decision which characterized it at first. She questioned him as to how many horses Waring could keep, as to where they should live—said she was glad he was not encumbered with landed estates, as she would like to ramble about, and much more to the same effect, half in jest. At length he looked at his watch.

"In ten minutes I must say good-bye," he said. "I get out at the next station, and wait for the four-fifty train to Galesford."

"What a long tiresome wait! You really have sacrificed yourself to friendship."

"I have," he returned, emphatically. "I wonder if you exactly appreciate the sacrifice."

"I do, indeed."

"May I not call and learn from your own lips how you are going on?"

"You see it is a little uncertain where you may find us. I fear they do not allow visitors at the work-house, which may be our destination, if Mr. Waring has not the goodness to share himself with our [illegible]

"It is too bad that these wealthy newmen get the pick of everything! Ah! here we are. Do you know, it is awfully hard to say good-bye; I really feel a little murderous towards Waring."

"Beware! I have taken him under my protection."

"It is not good-bye, however; I will see you in ten days or a fortnight. Till then, *addio!*"

He pressed her hand close, she withdrew it in fierce haste; the next moment he was standing on the platform, yet another, and the train was again in motion. Miss Clifford kissed her hand with a saucy smile as she passed out of sight. The only other passenger who alighted gave up his ticket, and Lisle was left to pace the damp gravel and think over the conversation he had just held.

"I am well out of it," was his first thought; "but she took my advice rather differently from what I expected. I fancied we would have had high-flown sentiment, perhaps tears and despair. I suspect I do not quite understand my fair friend. How beautifully fair she is. I did not dream she had so much pluck. By Jove! she turned my flank by her ready acceptance of my suggestion; but I fancy it was a tremendous blow, for all that! She was growing fond of me—I know it, I feel it—and I never was so near making a fool of myself about any woman as about Mona Clifford; but it would not do! Matrimony is a hideous institution. Even Mona's fine eyes, and general charm (she is charming!) would lose their effect in a few years—perhaps in a few months, and I might be a brute, or she would think me one. Anyhow, I did not make my early start this morning for nothing."

To be continued.

Give them a Chance.

That is to say, your lungs. Also all your breathing machinery. Very wonderful machinery it is. Not only the larger airl passages, but the thousands of little tubes and cavities leading from them.

When these are clogged and choked with matter which ought not to be there, your lungs cannot half do their work. And what they do, they cannot do well.

Call it cold, cough, pneumonia, catarrh, consumption or any of the family of throat and nose and head and lung obstructions, all are bad. All ought to be got rid of. There is just one sure way to get rid of them. That is to take Boschee's German Syrup, which any druggist will sell you at 75 cents a bottle. Even if everything else has failed you you may depend upon this for certain.

THE RUSSELL ELECTION.

Edwards (Lib.) Defeats Mackintosh (Con.) by a Safe Majority.

OTTAWA, May 7.—The complete returns from Russell had not been received up to midnight, but enough is known to make Edward's election sure by a fair majority. The majorities by townships so far as known are:

	Edwards.	*Mackintosh.*
Gloucester	..	302
Russell	..	77
New Edinburgh	..	68
Cumberland	..	17
Osgoode	54	..
Clarence	501	..
	585	464
Edwards' majority	121	

Cambridge has still to be heard from. At the last election Edward's majority there was 53. It is thought that his total majority will be about 175.

The French vote in Clarence was cast solid for Edwards. In one polling place, out of 105 Mackintosh only received 1, and in another 6 out of 108. Nearly one-half the electors in Clarence are employed by Edwards, and in addition to this the Riel cry did good service for the Liberal candidate.

The Reformers are jubilant to-night, and their rendezvous, No. 6, is more than usually lively.

Remonstrating against Restriction.

TURNBULL'S

What is Being Worn!

The season's New Lines in Dress Goods present many varieties. These we have, for our trade calls for the Best and Newest.

Ladies will admire our new Wool Merveilleux; the Silk Merveilleux have been very popular and French manufacturers in order to increase trade have brought these goods out in wool. Handsome goods, with a glossy finish, very pretty and stylish. Ten shades, all really attractive and sure to make up well.

HENRIETTA CLOTHS are strong lines. Selling fast and well they deserve it. Imported direct from German trade centers. A line that we happened to run across in looking through a line of German samples, and they have turned out much better than we expected. Ladies coming in to buy cheap Dress Goods almostinvariably take one of these cloths. The Sea Green and Medora shades are new and not found in other goods. This line is confined exclusively to ourselves.

OMBRE STRIPES, a combination goods for dresses much worn in the cities. No complaint of being a year behind with the styles can now obtain. The OMBRE goods are of silk and wool; quiet in pattern; make up handsome and are a lady like material, clearly the best line of New Dress Goods shown anywhere.

MILLINERY is with us a busy Department. Every morning we are opening up new cases which we are receiving daily. Americans are getting ahead of the English and we are profiting by their, push and enterprise. You shall too, if you will leave us your order. MANTLES, MANTLE CLOTHS, DRESSES and DRESS GOODS we have in every variety. We make up anything ordered without a fault.

PRINTS, SPECIAL, one case of light prints (usually sold in the trade wholsale at 10cts, choice) we are selling retail at 10c. No need to look for Bankrupt goods.

ARTS AND MANUFACTURES.

Annual Meeting of the Council at Montreal —Fire Insurance Rates.

MONTREAL, May 8.—The annual meeting of the Council of Arts and Manufactures was held here this morning. S. E. Dawson read his annual report, which thoroughly reviewed the work of the year. He pointed out that the Montreal committee had effectually carried out the wishes of the Council on technical training. Throughout the province 1213 pupils during the past year had been taught. A committee was named to draft a memorial asking further assistance from the Government to extend and develop the work of practical teaching which the Council had taken in hand. The old board of officers was re-elected.

An agreement to support any fire insurance company commencing business on fair and equitable rates is in circulation and has been largely signed. It is said that owing to the high rates one of our largest railway companies has withdrawn its risks from the Canadian and placed them with an American company.

Hon. Mr. Lavallee, Legislative Councillor, has been arrested. It is alleged that on Aug. 22, 1885, at the Parish of St. Felix De Valois he forced the name of Pierre Lafreniere for $18. Hon. Mr. Lavallee was released at the preliminary examination on Monday.

A New York Broker's Mysterious Death.

NEW YORK, May 8.—The dead body of Nathaniel W. F. Hatch, a banker and broker at No. 14 Nassau-street, was found this morning in the yard in the rear of 64 West Twentieth street. Mrs. Lilian Scofield and her husband, who occupy the premises, have been arrested. One story of Mr. Hatch's death says Mrs. Scofield was a lady customer with whom Mr. Hatch had done business at his office during the day. He escorted her home, accepted an invitation to cater and was spurned by the husband, to avoid whom he locked himself in a bath-room. In an apparent attempt to escape he jumped or fell from a one-story extension that runs under the bath-room windows and was killed. His skull was crushed.

Victoria College Theological Union.

COBOURG, May 8.—Rev. A. M. Phillips, B.D., of St. Marys preached the annual sermon before the Theological Union of Victoria College from the text, "Our Father Who Art in Heaven, Hallowed be Thy Name."

To Discuss the Pope's Rescript.

DUBLIN, May 8.—In accordance with the request of the Catholic members of Parliament, the Lord Mayor of Dublin has called a meeting for May 17 to discuss the Pope's rescript. The requisition had sixty-six signatures.

A Plague of Crickets.

LONDON, May 8.—Crickets are devastating Algeria, entirely destroying vegetation. Their dead bodies are creating a pestilence and interfering with the running of trains between Constantine and Batna.

An Echo of the Alliston Affray.

BARRIE, May 8.—At the Assizes yesterday and to-day the Alliston shooting affray of last March was thoroughly sifted, resulting in the acquittal of all the participants except Patrick Carroll, who was sentenced to three months' hard labor.

Fatal Lamp Explosion.

TROY, N.Y., May 8.—Mrs. Wm. Webb and her infant child were fatally burned at Fort Edward last evening by the explosion of a lamp.

The Wayside Inn.

BERLIN, May 8.—The famous old tavern in Sudbury, which Longfellow immortalized in his "Tales of a Wayside Inn," is to be sold at auction to-morrow. It dates back to 1636.

Arrested for Murder.

CLARION, Pa., May 8.—Dan Everhart, stepson of Mrs. John Everhart, and Jimmy Horner, a neighbor, were arrested yesterday for the murder of Mrs. Everhart and her mother on March 8, 1886.

China's Population Decreasing.

LONDON, May 8.—Three thousand persons have been drowned by a flood in the Canton River. A severe earthquake is reported in Japan.

Sligo will be Guided by Parnell.

DUBLIN, May 8.—A National League meeting at Sligo to-day adopted resolutions condemning the Pope's rescript and pledging those present to submit themselves to Parnell's guidance.

Bush Fires in Maryland.

MIDDLETON, Md., May 8.—A great fire is raging on Catoctine Mountains, and much damage is being done to timber, fencing, etc.

Killed His Uncle in a Duel.

LONDON, May 8.—In a duel at Nyiregyhaza, Hungary, yesterday, a magistrate named Hegedusa was killed by his nephew.

$570,000 for New York Canals.

ALBANY, May 8.—The Assembly has passed the $570,000 Canal Appropriation Bill.

Lacrossemen in Council.

The tenth annual convention of the National Amateur Lacrosse Association was held at New York on Saturday night. Delegates from the New York Club, Maple Leaf of Camden, University of New York, Staten Island Cricket and Baseball Club, Stevens Institute, and the Druids of Baltimore, were present. Cambridge, Harvard and the Boston lacrosse clubs were represented by proxy.

It was determined to divide the association into two divisions, the Eastern and the Western. The Eastern division will take in all clubs east of Pittsburg.

Messrs. J. C. Gerndt of New York, H. G. Penniman of Baltimore, and J. R. Flannery of Brooklyn were appointed a committee to wind up the affairs of the National Association and to take steps to recover the championship cup from the Independent Club of Boston and transfer it to the Calumet Club of Chicago, who were declared the champions last year by the National Association.

The Eastern division was then formed, and Henry G. Penniman of Baltimore was elected President; J. C. Gerndt, Secretary-Treasurer, and Messrs. Flannery, Powell and Boardman as the Executive Committee.

The Peds at New York.

NEW YORK, May 8.—The score at 10 o'clock to-night was: Hughes 226, Littlewood 221, Herty 216, Golden 210, Cartwright 198, Noremac 208, Guerrero 200, Dillon 181, Campana 182, Vint 174, Saunders 154.

THE NEW QUEBEC CABINET

THE LONG-EXPECTED REORGANIZATION ANNOUNCED.

But it is Only a Temporary Arrangement—How the Portfolios Are Distributed—The Castors' Strength Emphasized—All the Ministers French Catholics.

QUEBEC, May 8.—The long-expected reorganization of the Cabinet is announced to-day, but is only temporary until after the session. The office of Solicitor-General is abolished and the one of Minister of Agriculture created. Premier Mercier resigns the Attorney-Generalship and takes the post of Commissioner of Agriculture and Colonization. Hon. A. Turcotte, at present without portfolio, becomes Attorney-General, and the other offices are distributed as follows:

Minister of Public Works—Hon. P. Garneau.
Minister of Crown Lands—Hon. G. Duhamel.
Provincial Treasurer—Hon. Jos. Shehyn.
Provincial Secretary—Hon. C. E. Gagnon.

Hon. Mr. Duhamel, who occupied the Solicitor-Generalship, takes Hon. Mr. McShane's place.

This shuffle emphasizes the strength of the Castor element and puts a stop to the talk that after all Premier Mercier would give the English speaking population representation. All the ministers are French, even the Irish Catholics falling to get a portfolio.

THE QUEBEC RESOLUTIONS.

Discussed by Manitoba Legislators—An Amendment by Mr. Leacock.

WINNIPEG, May 8.—In the debate on the Quebec resolutions Mr. Leacock moved in amendment:

That while changes in the Confederation Act may be advisable this House is not prepared to commit itself, and regrets that the question of the trade relations of Canada should have been dealt with by the conference, as while the members thereof were protesting against interference with provincial rights by the Dominion authorities they were assuming themselves the right to deal with matters clearly outside their functions.

Resolved, That a copy of the resolutions be forwarded to the Governor-General with a request to direct that such action be taken as will ensure any necessary amendments to the British North America Act which may be required to more definitely declare the respective powers and jurisdiction of the Dominion and Provincial Governments.

The debate was continued this afternoon and to-night.

THE DIFFICULTY UNSETTLED.

Hamilton Painters' Troubles—Fatal Accident—Two New Industries.

HAMILTON, May 8.—The painters' difficulty with the bosses remains unsettled. The employers have got all the men they want for the present and those who are out on strike are working at odd jobs on their own account.

On Sunday last Michael Sullivan, hotelkeeper, took a drive to the Beach, and just as he was nearing Dynes' Hotel his horse started off and ran against a tree, throwing Mr. Sullivan out. He was removed to Dynes', and it was found that he had sustained a severe fracture of the spine. He was taken home shortly afterwards, and lingered until 9 o'clock this morning, when he died.

The manufacturing industries of this city have received two important additions in the Hamilton Steel Wire Nail Company and the Stone Manufacturing Company. The latter company will employ fifty hands at the start and manufacture lanterns, pressed and stamped ware and other specialties.

Mr. William Golding, a civil and mechanical engineer of New Orleans, La., has revived an old project by which he proposes to supply the city of Hamilton with water power sufficient to drive nearly all the manufactories of Canada.

Last evening County Constable McNair arrested a young man named Daniel Jones for assaulting Mrs. Taylor, wife of L. Taylor, the Barton pound-keeper, and removing five cows from the pound.

The African Methodist Conference.

INDIANAPOLIS, May 8.—The eighteenth quadrennial session of the General Conference of the African Methodist Episcopal Church began here yesterday and was called to order by Bishop Payne. From 41 annual conferences 250 delegates, representing every State in the Union, Canada, and the Bermuda and Demerara Islands, make up the official roster. Bishop J. P. Campbell delivered an address of welcome, and Rev. J. W. Gasoway also welcomed the delegates. He said that the Governor and Auditor of the State and the noble Harrison had sent words of welcome, accompanied by substantial help. Harrison's name was enthusiastically received.

The Right Kind of Conductor.

ST. LOUIS, May 8.—A dozen tramps boarded a Chicago and Alton train at Bridge Junction, East St. Louis, between 1 and 2 o'clock yesterday morning and undertook to rob the passengers; but the conductor rallied the train crew, and after a tussle ejected the ruffians and the train proceeded. No property was secured by the tramps. Three of the tramps were subsequently arrested.

CAPITAL NOTES.

The Bucket Shop Bill—Crofter Immigration—New Y.M.C.A. Building.

OTTAWA, May 8.—The Minister of Justice will not, it is understood, favor any amendment to the Bucket-shop Bill as proposed by Mr. Hall, and it will probably get a third reading as it came from the Senate.

Mr. Begg, who is interesting himself in the settlement of Crofters in British Columbia, is here urging the Government to render some assistance. He wants a grant of £2 per Crofter to be applied to passages.

The corner stone of the Young Men's Christian Association building was laid to-day in the presence of a large number of citizens by Mr. Bronson, M.P.P. It will probably cost $20,000, and is situated on the corner of O'Connor and Queen streets.

Edwards' majority in Russell is 294.

Cazeratoryi's Prediction.

PESTH, May 8.—Deputy Cazeratoryi, a friend of Premier Tisza, signs an article in the Hungarian semi-official paper, Nemzet, in which he declares that war is inevitable. He says the triple alliance will demand from Russia an explanation of her military preparations and that her answer will amount to a casus belli.

Rev. Mr. Tomkins Held for Trial.

NIAGARA FALLS, Ont., May 8.—Rev. George Tomkins appeared before Police Magistrate Hill this morning to answer the charge of shooting at James R. Lundy on Thursday last with intent to murder, but before the case was gone into the information was modified so as to charge Mr. Tomkins with shooting with intent to do grievous bodily harm. The only witness called was James R. Lundy. The Magistrate bound the prisoner over in $1000 bail on his own recognizances to appear for trial in June.

A Conservative Victory in Laval.

MONTREAL, May 8.—The election in Laval County to fill the vacancy in the Legislative Assembly, caused by the unseating of P. E. LeBlanc (Con.) by the courts for bribery by agents, took place to-day and resulted in Mr. LeBlanc's re-election over Mr. Fortin (Nat.) by an increased majority, 103 compared with 76. The contest was a very bitter one, and the Nationalists strained every effort to defeat LeBlanc, who is one of the bright lights of the Quebec Opposition. There is great rejoicing in Conservative circles at the result, as they had looked for defeat.

Death of a Prison Reformer.

WHITEWATE, Wis., May 8.—M. H. Bowie, the noted prison reformer, died here this morning, aged 61.

Spots of Sport.

Michael Welch, a Troy boy, has signed with Albany as a pitcher. This makes two Mickey Welches who are baseball pitchers.

DEPRESSED IN SPIRITS.

Emperor Frederick Has a Good Day but is Worse Toward Evening.

BERLIN, May 8.—The Emperor passed a good day to-day. Toward evening his temperature increased slightly and he was rather depressed in spirits. The Empress therefore abandoned her projected visit to the inundated districts along the Vistula.

Indications of Another Relapse.

NEW YORK, May 8.—The Sun's Berlin special says: The news from the palace to-night is decidedly dispiriting. There is no excitement. The public is notably absent, and only a small army of correspondents is waiting drearily with the stalwart guards without the gates for news of the Emperor. Dr. McKenzie's nervousness when I met him last night was explained to me to-day by a physician who knows from personal experience in the palace what goes on. He said: "I cannot imagine any reason for the sudden effort now being made to keep back the truth from the people. Yesterday the Kaiser was very low. He lies in bed motionless, except when racked by cough. All his strength has left his limbs, and his fever at night is constantly increasing." Later news is to the effect that His Majesty is sinking rapidly. There are indications that another relapse is pending, but whether it can be tided over or not is a question.

A Characteristic Speech.

OTTAWA, May 8.—During a debate in the Senate on the sawdust question Senator Alexander made one of his characteristic speeches. The Hansard reports him as follows:

Mr. Alexander: "Instead of the Government devoting their time and attention as they ought to the great interests of the country their time is taken up in considering how to manipulate constituencies and keep themselves in power while they are neglecting the great interests of the country."

Hon. Mr. Botsford: "What has that got to do with the question?

Hon. Mr. Alexander: "The poor old gentleman from Sackville, who is bordering on the grave as I am, is always ready to support that which is wrong, always ready to raise his poor voice—not knowing how soon he may go to his deathbed, always ready to raise his infirm voice to support that which is wrong, though he is a man of 80—God help him. The health of Ottawa and of Montreal and of all the cities along this river depends upon the lumbermen burning their slabs and sawdust to preserve the waters of the river pure, yet that poor, unfortunate man, near the borders of the grave—"

Hon. gentlemen: "Order, order."

Hon. Mr. Alexander: "I pity him. It is pitiable, something like the senior member from Halifax who spoke about hallucinations. Whenever any of us tries to raise his voice in the interests of the people and of the public health, we have always pitiable men like the senior member from Halifax and the member from Ottawa and this venerable gentleman to justify the neglect and the omission of duty on the part of the Government. God! how can the country be well governed when we have such men here in the Senate of the Dominion, who who ought to have a feeling of the responsibility of their positions! The hon. gentleman from Sackville does not seem to feel the responsibility of his position."

The Montreal Rifle Range.

OTTAWA, May 8.—Col. Bond and Major Campbell of Montreal are in the city for the purpose of seeing the Minister of Militia and urging that some steps should be taken to put the new rifle range in shape for practice this season. The range is a new one, but no butts or works have yet been placed in position, so that unless speedy action is taken the Montreal volunteers will be deprived of their shooting this season. In addition, the two Montreal volunteers who are on the Wimbledon team will be deprived of the opportunity of practicing before they start for England.

The Hart Divorce Case.

OTTAWA, May 8.—The consideration of the report of the Select Committee on the Hart divorce bill took place in the Senate this afternoon and occupied the time of the House for fully two hours. Hon. Mr. Gowan, who has made a special study of the subject of divorce, delivered a lucid and learned exposition of the law and precedents bearing on the case, and summed up the evidence at some length. He was followed by the Macdonalds of British Columbia and Toronto and Senator Dickey. The debate was adjourned until to-morrow afternoon, when it will be taken up as the first order of the day.

Mrs. Middleton's Petition Rejected.

OTTAWA, May 8.—The counter-petition of Mrs. W. H. Middleton for a divorce from her husband has been thrown out by the Private Bills Committee of the Senate on the ground of insufficiency of notice, six months being the time required. In the application of Mr. Middleton asking for relief evidence will be heard on Tuesday next. There is to be a big array of witnesses in attendance. All hopes of a compromise or settlement are now past.

The Coffin Combine.

OTTAWA, May 8.—Robert Moffatt of Toronto appeared before the Combine Committee this morning with the complaint that he had been refused the privilege of entering into the undertaking business in that city, the local association refusing to admit him to membership, and thus cutting him off from a supply of coffins and other necessaries. The reason alleged was that they were not going to sign away their bread and butter. He claimed that the undertakers made very excessive profits, thence their exclusiveness.

Frauds on Farmers.

OTTAWA, May 8.—Mr. Adam Brown's committee to investigate the alleged frauds perpetrated on the farming community by bogus agents met this morning. Mr. Bown was elected chairman. In addressing the committee he stated that the Minister of Justice is anxious that some short measure should be passed this session to protect the farmers. Mr. Brown narrated a few of the frauds, and stated that the seed wheat men in Western Canada had got so far as to obtain an act of incorporation from the Ontario Legislature. They managed to get agreements from farmers to pay for goods which the sharpers never delivered, and these agreements the sharpers got money on as promissory notes. The committee will summon defrauded persons to give testimony.

DEBT OF THE DOMINION.

SIR CHARLES TUPPER'S VIEW OF CANADA'S POSITION.

The Resolution Authorizing a Loan of $25,000,000 Considered in Committee and Adopted—Montreal Harbor and Lake St. Peter Channel Debt Resolutions.

OTTAWA, May 8.—The House this afternoon agreed to adjournment from Wednesday to Friday, Thursday being Ascension Day and a statutory holiday, and also to sitting on Saturday.

Sir Charles Tupper moved his resolution asking authority to borrow to an extent not exceeding $25,000,000 to pay floating liabilities and for other purposes. In moving the resolution he entered into a minute explanation of the position of Canada with respect to the national debt. He first explained that the loan was necessitated at the present time by reason of the fact that the reduction of the maximum of deposit in Government savings banks had deprived the Government of funds from this source, and this, in conjunction with stringency in the money market, had made it necessary to incur in London a floating indebtedness of £1,000,000. To wipe off this was one of the objects of the loan. Though power was asked to borrow $25,000,000, it must not be supposed that the Government intended to borrow to this amount, or to any amount that was not absolutely necessary.

Having pointed out the valuable assets possessed by Canada as an offset to the debt, he held that whereas the borrowings of this country are not intended to be paid at maturity, but to be renewed, the amount of the debt is to be measured by the terms upon which we will be enabled to meet it when due. Calculating upon this principle and upon the basis of the increased credit of the country and reduction of the rate of interest upon loans from 4½ per cent. of twelve years ago to 3½ to-day, it would be found that the debt of the country, which in 1877 was $133,000,000, had increased not to the figure of $227,000,000 which it nominally is to-day, but to a sum $53,000,000 less, or $174,000,000. That is, at the rate of interest now paid a loan of $227,000,000 could be renewed now at a charge not greater than would have been involved in borrowing $174,000,000 in 1877.

The debt of 1877 was:

In England	$116,000,000
In Dominion notes above specie held	9,000,000
In savings banks' deposits	7,000,000
In trust funds	2,000,000

At present it is $150,000,000 in England, representing by the above system of computation $114,000,000; in Dominion notes $12,000,000, the nominal increase of $4,000,000 costing the country only the cost of management, that is ½ per cent. or $420,000; savings banks deposits now represent $40,000,000 of debt, but the Government proposed to ask authority from Parliament, though not just at present, to so deal with savings banks deposits that no higher interest should be paid for them than the Government now had to pay upon its loans, this being 3½ per cent. He did not think depositors would have just cause for complaint as long as they were paid interest as high as the Government paid elsewhere. This would reduce this portion of the indebtedness to $29,500,000 in place of $40,000,000. Then there is the Canadian Pacific Railway guarantee deposit of $12,000,000, on which 4 per cent. is now paid. This being replaced by a loan at 3½ would reduce this portion of the debt to a burden of $8,300,000, and lastly there is the debt of $13,000,000 due for trust funds, on which we were bound to continue to pay 5 per cent. interest.

He held therefore that there was no ground for alarm relative to the increase of the debt, the credit of this country being such as to show a certainty of decrease of the burden which it imposes upon the people.

In answer to the question as to why the Government asked for a loan larger than it desired to spend, Sir Charles said a margin was always left, their being at the present time $11,000,000 remaining unborrowed which the Government had obtained authority to raise, if desired, for various purposes.

Mr. Charlton took the view that the debt had increased at such a ratio as to weaken the credit of the country, and increase rather than lessen the burden.

Mr. Laurier was sorry that he could not consider the large figure of $53,000,000 of decrease computed by Sir Charles as anything but a figure of speech.

The debate was continued by Messrs. McLelan, Patterson, Davin, Davies and Mitchell. In the course of his remarks the last named referred to and condemned the proposition for the sale of the Intercolonial Railway to the Kamper Syndicate which, he said, had formed the subject of negotiations at London between the syndicate on one hand and three ministers—Sir Charles Tupper, Hon. Mackenzie Bowell and Hon. Mr. Chapleau—on the other.

Sir Charles Tupper thereupon denied that he had ever been a party to any negotiations for the sale of the Intercolonial, and said that at the interviews in London the only subject discussed was the establishment of iron and steel works in the Lower Provinces.

Mr. Mulock followed, criticising Sir Charles' methods of finance, and at 6 o'clock Mr. McMullen had the floor.

After recess, further immaterial discussion followed, and the resolution authorizing the loan was then considered in committee of the whole and adopted.

Sir Charles Tupper then moved the House into committee to consider the resolution providing for the assumption of the Montreal Harbor and Lake St. Peter Channel debt. Sir Charles said he thought the time had arrived when this great waterway should be made free in the interest of the trade of the whole country, and in assuming this debt the Government had made it a condition that all tonnage dues were to be removed.

The resolutions were considered in committee and adopted and the House then went into committee on the resolutions authorizing assumption of the Quebec Harbor Commissioners' debt. These were also adopted, discussion being deferred by special agreement until a further stage.

The House adjourned at 1.25 a.m.

GROWN UNDER GLASS.

Things Observed when Visiting the North and West End Greenhouses.

The business of growing flowers and plants under glass, or in other words, keeping greenhouses is one that has assumed considerable dimensions in Peterborough and but few places in Canada can boast of finer kept or equipped premises for the purpose than our town can.

AT THE WEST END.

The West End greenhouses, on Park-st., where it is joined by London, are now at their best and they will repay a visit. It is about six years since this business was started on a very limited scale, one small building sufficing for all purposes. Trade has grown rapidly and each year an additional building has been erected, the extension last year measuring seventy feet in length, making the total length of the buildings about two hundred feet, with about 5000 square feet of glass. Through these buildings planked passages afford good walking for visitors and customers, and the flowers, plants, etc., are arranged in such a manner that a full view of them is obtained from all sides. At present the racks are filled with flowers, plants, bulbs, etc., of the choicest and most common kinds to suit the tastes and purses of all The buildings are kept warm in summer by a system of pipes running from the boiler house at the west end, and warm and all as it has been on some recent days, the fires have never been allowed to go out since last fall. Bedding plants of all kinds, many varieties of cactus, night blooming cereus, the latter just budding, tomato, beet, cabbage and other kitchen garden plants are shown in profusion. Geraniums of almost every conceivable variety, and more than forty varieties of beautiful foliage plants, including some of the rarest kinds yet produced are shown and in fact it is extremely difficult to name any plant or flower that cannot be seen. In addition to a rapidly increasing demand for local purposes, foreign shipments are frequent and among orders filled on Tuesday were some from London, Ont. and Perth. In addition to plants, small fruits of the best varieties such as strawberries, currants, raspberries and gooseberries are grown. In order to supply the demand for cut flowers for wreaths, bouquets, etc., a rose house, 24 x 40 feet, will be erected during the coming summer, for growing roses only. Mr. Arthur Blade, the manager is making improvements year by year and the fact that he has supplied flowers for the garden of Mr. Mayor Stevenson, M. P., the Horticultural Park, the Little Lake Cemetery and many other public and private places, testifies that he is thoroughly versed in his business and produces the best goods to be procured.

MASON'S "SUNNYSIDE."

In the year 1873 Mr. Frank Mason first entered into the florist and seed business on the bank of the river, just north of Antrim-st. Year by year his business kept increasing until in the fall of 1886 he found it necessary to purchase the premises known as "Sunnyside," at the north end of the town, close to the new Nicholls Hospital. The grounds are four acres in extent and have a running stream through them from end to end, which, in addition to a large windmill furnishes an ample supply of water, even in seasons of great drought. The conservatories number four, running north and south, and so situated as to secure all the possible benefit that can be derived from the sun. Two of these are 100x20 feet each and the others 20x25 feet each, making a total of 5000 square feet of glass, in addition to a large number of hot beds and cold frames, which are also under glass. In the larger buildings are found ranged tier on tier for public inspection flowering plants of all the well known varieties that are produced in our country and many that are rarely seen outside of a hothouse. These are in all the different stages of growth from the tiny seedling, of which it takes hundreds to fill a small box, to the plant in full flower that fills a large vase. Of the smaller buildings one is filled with plants for bordering, lettering and foliage plants, all the choice varieties of the latter being kept in stock. The other is used for raising bedding plants of different kinds. Mr. Mason has a trade that is eclipsed by but few similar firms in the country and his customers are found from Montreal P. Q., to Vancouver, B.C. Outside and under glass are raised thrifty cabbage, cauliflower, celery and tomato plants for gardens that find a large sale among the townspeople, who know from past experience, that Mr. Mason's goods can be depended on in every respect. A new industry is the manufacture of indestructable cork vases for flowers that are raidly coming into use among lovers of the beautiful. They are especially for lawns, verandahs, etc. Hanging baskets are also shown in many styles, and these are supplied filled to order or from stock. The manufacture of designs for funerals, weddings, etc., has reached a considerable business and many orders from outside places are received for these, which a few years ago, the Toronto firms had a monopoly of. In addition to bulbs, flowers etc., Mr. Mason is a large dealer in seeds and he imports from the United States, England and Germany and these after being thoroughly tested in the greenhouse and in the open air, are put on sale, of course, all that are not suitable for our climate being discarded. By this means Mr. Mason is able to tell just exactly what the seeds will do under certain conditions and the public are informed accordingly. The premises are heated throughout with one of Bolton's double boilers and two furnaces with hot water connections and verily the place is like "a hot house." As an evidence of the business done, it may be noticed that already this year 5,000 boxes of flower seedlings, tomatoes etc. have been put up and the real demand has hardly set in yet. The flower pots, of which an enormous number are used each year, are purchased from Allen's pottery, George-st. south. In addition to his flower store on Hunter-st., Mr. Mason has an office at the conservatories and telephone connection with both. Visitors are always welcome and a plot of land near the creek is being fitted up in an artistic manner with shade trees, flower beds and a summer house for the use and convenience of those who call at "Sunnyside."

St. Paul's Church.

Anniversary services, Sabbath, May 13th. Rev. A. B. Mackay, of Crescent-st. Church, Montreal, will occupy the pulpit morning and evening. Special collections in aid of church debt.

Challenged by Millbrook.

The Y. M. C. A. Lacrosse club have received a challenge from the Millbrook club to play a match on May 24th. A meeting of members of the local club is called for this evening, at the rooms, at 9 p. m., to arrange details of the match.

More Talk.

The Port Hope Times says that the change in the running of trains over the Midland system, by which the number of passenger trains will be reduced, is again talked about by railway men. It is said the local from Cobourg, going to Toronto in the morning, will soon be run out via Peterborough.

At St. Paul's Church.

Large and interested audiences will doubtless be present at St. Paul's church on the coming Sabbath to hear the Rev. Mr. McKay, of Montreal, who occupys the pulpit on on that day. The special collections to be taken up will also, it is expected, be large.

McCausland & Son, of Toronto, are beyond question the easy leaders in the Ornamental Stained glass trade in Canada. Their vast business extends form Nova Scotia to British Columbia, and thousands of public and private buildings bear testimony of this firm's ability to execute beautiful and durable windows of every description.

At the Rink.

On Friday evening Sergeant-Major Rundle, drill instructor at the schools, will have about one hundred and fifty of the pupils under his charge at the Lansdowne Rink, Charlotte-st. He will put the boys through squad and company drill, etc., and the girls through calisthenic exercises. The parents of the scholars are invited to be present and see what great progress their children have made during the short period that the Instructor has had charge of them.

Personal.

Mr. John Burnham, the well known insurance man, who for some years made Peterborough his headquarters, but who has been away for a number of years, has returned to the Province and taken up his residence at Port Hope. His many friends will be pleased to learn that he is doing a large business.

Col. J. Z. Rogers left for Kingston last night to interview the new D. A. G. for this district, Col. Straubenzie, regarding matters connected with the 57th Battalion.

Mr. A. V. B. Young has returned to town after an absence of several days at Lakefield, where he has been engaged opening the books of the Lakefield Lumber and Manufacturing Co.

The Mayoralty.

To the Editor of the Review.

Sir,—I see in the Examiner that some ratepayer is already going over a list of possible candidates for the mayoralty of 1889. It is many a year since a Roman Catholic has filled the civic chair here—in fact I have met nobody who remembers such an occurrence. In all cities where there is a large proportion of a different religion from the rest it is customary to give the minority the honour of furnishing a Mayor once in a while. Of course we nearly all admit that religion has, in principle, nothing to do with it, but we know that, in fact, it has a great deal to do with the selection. Now, would it not be a graceful thing and an altogether appropriate thing to support such a man as Mr. Cahill for Mayor. His qualifications are fully admitted. He is a man of real mental capacity, and modesty, and he is endowed with much firmness as well. I am sure our Roman Catholic fellow-citizens would appreciate the spirit of fairness that prompted it, whoever might be their choice. Mr. Stevenson, who has made so capital a Mayor, is no monopolist and would be glad to do so graceful an act I am sure.

Yours, &c.,
CITIZEN.

FAME VERSUS BUSINESS!

WE LEAVE IT TO THE WORLD TO JUDGE!

The People of the County, our Court! Satisfied Customers, our Witnesses! We Plead our Case and Carry off a Verdict!

In re GOUGH BROS. et al

THE COURT—The Bar will observe that the case is now open. You have heard the indictment read. It is clear and explicit. What say you, Gough Bros., why sentence of the Court should not be pronounced upon you?

GOUGH BROS.—May it please your Lordship:—To the serious charge that we have revolutionized the clothing trade in Peterborough we plead guilty. The facts are so apparent that denial were useless. But, may we ask the Court to consider extenuating circumstances of great weight. We have established a business by the people, for the people and of the people. We have placed within the reach of all clothing of any grade at prices that shatter Monopolies, and Paralyze High Prices. When the Court remembers that we have taken a $2.50 boy and clothed him in a 65c Suit of Clothes the Court will appreciate our enterprise. When the working man who wants Clothing can walk up to the trough and help himself to a suit at $2.50 there is something in life worth living for. When a pair of Pants that are a thing of beauty and a joy forever can be carried from our counters for the small sum of 25 cents, the Court will realize that our politicans are not all of our sincerest benefactors.

Should the Court, for example, so direct we will fit out our learned friend on the other side with one of our Special Made Suits and his immediate relatives will testify that the garments are better than most custom work; are cut from Stylish Patterns, made up by artists who consider Beauty and Finish and Good Work as a first requisite.

We ask the Court's inspection of a special line of 500 suits for Men and Youths. These are gems of purest ray serene, so Good, so Stylish, so Cheap, that stealing will become, in truth a struggling industry. Then we have secured a niche in the temple of fame by large sales of our best classes of All Wool, French Worsteds and English and Scotch Tweeds, fit for the wear of prince, pontiff or politician. This, your Lordship, is our plea.

THE COURT.—Gough Bros., you have ably stated your case. You are excellent counsel. The ruling of the Court is that you are honorably discharged and that the Court adjourn sine die.

At this season many Housekeepers are replenishing their supplies of Tableware and China. City folk are furnishing summer cottages; country folk are filling up the dressers and cupboards of the old homestead; town's folk are picking and choosing here and there. Many would be glad to know of a place whose special business is to meet these wants and desires; that aims to furnish essentially good wares at consistently low prices; that offers the choice of many different dinner services, and yet does not compel you to take an entire set of any pattern, but allow you to select each course of a new design, or buy any portion of the set you may need; that does not try to impose ideas or wares upon purchasers, and yet is ready to advise which of the many wares is most desirable and suitable; and, if wished, will make a careful selection of pattern. When you want Tablewear will you give us the opportunity to serve you.

W. J. MASON,

OUR SUCCESS.

So far our CLEARING SALE has been a success. We are bound to sell, and the public may expect big bargains in every department. Stock fully assorted with choice goods.

Weather Probabilities.

Moderate winds; cloudy to fair weather, with showers; higher temperature.

Just a Reminder.

As noted a day or two ago the golden lion carries a complete and varied stock in all lines of millinery and mantles. The stock is now complete, more complete than it will be again this spring season. Constant selling will deplete the stock, and to sell constantly is just what we hope to do. Our dress and mantle order department is fully equipped and every article turned out equals the best city work.

This Evening's Concert.

A musical treat of rare excellence awaits those who attend the concert in the Opera House this evening. It will be one of the best musical events of the season and merits a large patronage. The ability and artistic skill of the company is of the highest order. In particular interest attracts to the appearance of Miss Helen O'Reilly, and of whom the Boston Courier has critically said:—"Miss M. Helene O'Reilly created a most agreeable impression by her delightful singing of the 'Shadow Song' from 'Dinorah,' Meyerbeer, at Boston Music Hall last week. Her voice possesses great range, and is exceedingly pure and flexible; every note of the most delicate passages was distinctly heard throughout the immense hall. Her trills and cadenzas were brilliant and smooth; her staccatos crisp and exact. The echoes, supposed to be sung by the Shadow, were given in the most captivating manner; her quiet, listening attitude was perfect, while the exquisite echoes rippled from her throat in a manner to charm the audience. The entire song was rendered with refined and artistic effect, and gave evidence of a thoroughly musical soul, and a training of rare excellence. The floral offerings and enthusiastic applause which followed, expressed the appreciation of the audience. Miss O'Reilly is a student at the New England Conservatory, under Mr. John O'Neill." Mrs. J. E McIntyre and Mr. Thos. Dunn, both local avorities, will also appear. 1d109

SACRELIGIOUS BURGLARS.

THE SAFE IN CHANCELLOR M'EVAY'S OFFICE BLOWN OPEN.

Shots Fired at Father Rudkins and a Narrow Escape—Only a Small Sum of Money Taken—The Cathedral Poor Box Rifled.

St. Peter's Cathedral and the residence of the Rev. Father McEvay, parish priest and Chancellor of the Diocese, were visited by a bold and determined gang of burglars this morning. This was the third burglary in a short time, Mr. LeBrun's store having been visited on Wednesday night of last week and Mr. Hilliard's mill on Monday night, but this morning's burglary was the boldest, if not the most successful.

The tools for the job at Father McEvay's residence were procured at the Cathedral. Workmen have been engaged there making improvements, and the carpenters' tools were left inside the door. The

CATHEDRAL DOOR WAS FORCED,

the lock being pried out so as to allow the door to swing open. Here the burglars got a brace and a chisel belonging to Mr. Wm. Ball and a second chisel belonging to Mr. Jos. Gonyea, which they afterwards used at the residence. Before leaving the cathedral, however, they

RIFLED THE POOR BOX,

which stands just inside the main entrance to the cathedral. It is made of tin, and fastened with a padlock. Apparently the burglars worked a chisel under the lid and forced it up far enough to allow them to extract the contents. It is not known how much money they secured from the box, but the amount probably was not large.

ENTRANCE TO THE PRIEST'S RESIDENCE

was gained through the side window of the parlor. The house faces east on Reid-st., and the parlor is on the north side. The window was a double one, on hinges, fastened at the top and bottom with bolts. A light of glass was broken near the bottom and the lower bolt drawn up, and apparently the window was gently shook until the upper one came out. This gave free access to the parlor. Across the hall is the library and the office door opens from the library. The safe was in the office, and there the burglars went to work. They drilled

TWO HOLES IN THE SAFE DOOR.

The drawers of Father McEvay's book case were rifled, and also a writing desk, but nothing of value to the thieves was found. They got, though, the key of the safe, but were unable to use it, as the safe was blown open. The first hole was drilled too high, and another was bored in the right place, and it is a little smaller than the other. Having drilled the holes, powder was inserted and fire applied.

THE EXPLOSION

forced the door off its hinges and split the heavy door in halves, the parts on each side of the inserted lock being divided by the explosion. The noise also awoke Father McEvay and Father Rudkins, whose rooms are above the library and parlor. Father Rudkins was first into the hall upstairs and ran about half way along the railing towards the top of the stairs. Though not certain as to what the noise meant, he thought of burglars, and said "Shoot, Father McEvay, shoot!" with the intention of frightening the invaders. One of the burglars, who stood guard at the bottom of the stairs, shouted, "Go back, you — — —, or I'll blow your brains out," and immediately

FIRED AT FATHER RUDKINS.

The aim was deadly, for the ball lodged in the wall at the top of the stairs in a position that showed that if Father Rudkins had got as far as the top of the stairs the bullet would have struck him in the forehead. Father Rudkins did not proceed, and Father McEvay also turned back, they having no weapons of any kind, but the burglar fired a second shot at about the same elevation, but more to one side, and the bullet struck the jamb of a door at the side and lodged in the wookwook at the top of the door. A girl whose room is in the rear part of the house, upstairs, lit a lamp and went into the rear hall. The burglar had run up the stairs a few steps, and seeing the light he

FIRED A THIRD SHOT AT THE GIRL,

the bullet this time striking the top of the door leading to the back hall where she was. The burglar then went down the stairs and to check interference fired three more shots from his revolver. Meantime his pal was at work in the office. Five dollars in small change, done up in a package, was all the money in the safe, and this he secured. One drawer in the safe was locked, and he smashed the apartments about it and opened it, but got nothing there.

THE BURGLARS ESCAPED

through the parlor window in the front, opening it easily from the inside. Father McEvay had got out of his window up stairs on to the verandah and walked around to the front, but as it was still dark, between three and four o'clock, the burglars escaped. In the office the registers and books which were in the safe were thrown about the floor and papers were scattered about. The brace and one chisel, which had been broken in their work, were left, but Mr. Ball's chisel has not been found.

Father McEvay descended from the verandah and hurried across to Mr. T. Mahoney's and Mr. Mahoney hastened down street to notify the police. Father Rudkins went into the office vacated by the burglars and tried to call the police with the telephone, but for some reason did not get an answer from the central exchange. Mr. Mahoney found Officer Stewart on duty at the police station, and the officer said he could not leave that post to interfere, as his orders were to remain there. This was, of course, a strict interpretation of the orders amounting to a misunderstanding. However, Officer Stewart went with Mr. Mahoney and found Officer McGinty on his beat. Stewart went and aroused the Chief Constable and Officer McGinty and Mr. Mahoney proceeded to the scene of the burglary, but the thieves had entirely disappeared.

The thieves left behind them an overcoat of light brown color and well made. It had a few things in the pockets, including a pocket knife, box of blacking, part of a shoe brush, etc.

A buggy was seen being driven about that part of the town in the vicinity of the cathedral shortly after, and suspicions regarding its movements have been aroused.

The burglars were evidently expert cracksmen and men of desperate character. The shots fired to prevent the clergymen coming down the stairs were fired in the dark, but the direction and elevation at which they were fired, together with the threats and language, showed an intention to prevent interference with them even if they had to take life to do it. The town must be freed from the desparadoes, and if further assistance, or help at night is needed, it should be provided at once. Three burglaries so soon after each other, and the circumstances connected with the last one, make it necessary to have assurance that, if the burglars are not arrested, they are at least driven from the town.

Sale of Useful and Fancy Articles.

The ladies of St. Andrew's Church will hold a sale of useful and fancy articles in their school room, on Tuesday afternoon and evening, May 15th. Admission free, refreshments extra. 7d108

Port Hope is Moving.

Port Hope has organized a base ball association with a capital stock of $1,000, with shares at $10, $25 and $50. Several of the leading citizens have taken hold of the matter and it is intended to place a first-class nine in the field. The team will probably be semi-professional with a paid battery and one or two other players.

Under Way.

A large staff of men, horses, wagons and scrapers under the G. T. R. roadmasters are at work at the Chemong cut to-day and good progress is being made in removing the high banks where the overhead bridge formerly crossed. The officials cannot tell how long the work will take, but the general impression appears to be that a train will be run from Peterborough to Chemong Lake, on or about July 1st.

An Explanation.

Will Carleton not coming. The committee who have been working in the interest of Will Carleton's recital, advertised for Thursday evening, May 10th, desire to make explanation. Finding that the writings of said gentleman are so little known in town, as to preclude the possibility of securing an audience numerically worthy of his talents, or of meeting the financial requirements, they have wired him to that effect and received a release from the engagement. The citizens who have made arrangements for attending the recital will receive price of tickets by presenting the same to the ladies from whom they were purchased. The committee regret that the people of Peterborough have been so slow to embrace the privilege of hearing a man who two years ago was one of the attractions at "Chautauqua Assembly," which fact is a proof of his high standing. Sheets of press notices received Wednesday morning speak in terms of the highest possible character of the success that attended Mr. Carleton during his recent engagements in England.

Missionary Entertainment.

On Tuesday evening a united meeting of the Ladies' Mission Circle and the Children's Mission Band was held in the school room of the Baptist church, Murray-st. There was a good attendance. A large and fine collection of flowers were gathered by the children and were sold during the evening. The entertainment was in the interest of mission work, to which the proceeds were devoted. The Rev. P. Clifton Parker presided, and after devotional exercises led by the chairman, the following programme was rendered:—

To Save Life

Frequently requires prompt action. An hour's delay waiting for the doctor may be attended with serious consequences, especially in cases of Croup, Pneumonia, and other throat and lung troubles. Hence, no family should be without a bottle of **Ayer's Cherry Pectoral**, which has proved itself, in thousands of cases, the best Emergency Medicine ever discovered. It gives prompt relief, and prepares the way for a thorough cure, which is certain to be effected by its continued use.

S. H. Latimer, M. D., Mt. Vernon, Ga., says: "I have found Ayer's Cherry Pectoral a perfect cure for Croup in all cases. I have known the worst cases relieved in a very short time by its use; and I advise all families to use it in sudden emergencies, for coughs, croup, &c."

A. J. Eidson, M. D., Middletown, Tenn., says: "I have used Ayer's Cherry Pectoral with the best effect in my practice. This wonderful preparation once **saved my life.** I had a constant cough, night sweats, was greatly reduced in flesh, and given up by my physician. One bottle and a half of the Pectoral cured me."

"I cannot say enough in praise of Ayer's Cherry Pectoral," writes E. Bragdon, of Palestine, Texas, "believing as I do that, but for its use, I should long since have died."

WEDNESDAY, MAY 9, 1888.

MONA'S CHOICE.

BY MRS. ALEXANDER.

Meanwhile Mona was carried deeper and deeper into the gloom of the fast-closing October evening. Alone—unwatched, she set loose the reins of her self-control, and yielded to the storm of shame and despair which rent her soul.

She had indeed "grown fond" of Lisle, after months of frequent intercourse, during which he had sought her with so much carefully veiled assiduity—and won her confidence by a happy assumption of elder-brotherly authority, flecked with gleams of passionate admiration, which seemed to flash out in spite of himself, and were real enough. Now behold the time of trial came, and he was eager to hand her over to another. How could she have been so blind—so deluded? Her rage was more against herself than against him. Her long slender fingers clutched the arms of the seat with feverish force, in her agony and self-contempt. How could she have been so weak, so conceited, as to suppose that she had become all in all to such a man as St. John Lisle? Yet yet he did admire her and seek her! A hundred circumstances crowded on her memory which might well have misled her; important trifles which could not have occurred had he not loved her at the time. If he had, why did he change so suddenly? What had she done to forfeit the tenderness of which she was so sure? No! She was not all self-deceived. He was false, fickle, cruel—she might be less hard upon herself! As to poor Waring, she bestowed small consideration on his honest affection for her. Of all the house-party at Harrowby Chase, she had taken least notice of him. Their previous intercourse had consisted of a few meetings at evening parties, where he had perseveringly asked her to dance, and she had as perseveringly endeavored to evade him. Of this he was unaware, as her manners were softly gracious, and she hated to give pain.

Now this ungraceful, shy, inarticulate young man was thrust upon her by Lisle, who had so often turned him into ridicule. Anything was good enough for a girl who was penniless and almost unprotected! It would go hard with her, she thought, while her cheeks glowed, and her heart beat fast—very hard, before she would consent to marry him. And poor grannie! Mona's heart reproached her for having utterly forgotten grannie, who had been so stunned by the terrible loss which had befallen her. How her proud, worldly, yet sound nature would wither under the disgraces of poverty. Grannie who loved her so well, even while she tyrannized over her—she had often been rebellious, selfish, now she would try and comfort the poor old woman. She had built such hopes, too, on Mona's success, now everything was crumbled into the dust.

The Hon. Mrs. Newburgh, sister of the late and aunt of the present Viscount Sunderline, had had much disappointment in her long life. Beginning with all the advantages of rank and beauty, she refused numerous excellent offers—to accept, at the mature age of thirty-five, the good-looking horsey son of a Yorkshire squire. He loved her, but he also feared her—which condition of mind led to much concealment of difficulties, and their consequent complication. Mrs. Newburgh was a woman of strong will, and some business capacity, and she always held on firmly to her own small fortune. Her only son went into the army, and was killed at Inkerman. Her only daughter, who resembled her father in character, formed a strong attachment to an obscure young Scotsman, whom she met accidentally in the Highlands, under somewhat romantic circumstances. Mrs. Newburgh set her face against so disgraceful a union; she dragged her pretty daughter from one continental court to another, and finally tried to force her to marry an Englishman of high position and large fortune. This was too much, and the weak, simple, frightened girl fled to her Scotch lover. Her mother renounced her, and never saw her face again.

From this time Mrs. Newburgh devoted herself to increasing her fortune, both by saving and speculating. She returned to London, and once more took her place in society.

The announcement of her daughter's death made little or no change in her way of life; she made no attempt to communicate with the bereaved husband, and seemed to forget she had ever had a daughter. About five years later she was startled by a letter from the minister of a church in the neighborhood of Glasgow, describing the last moments of Kenneth Craig, who had been a broken man ever since the death of his wife, and inclosing a brief letter to Mrs. Newburgh from the deceased. In it he simply said that the pay of a bank clerk had been too small to permit him to lay anything by for his little girl, that his own people were poor, that he trusted her mother's mother would so far forgive as not to punish the innocent, and begged her to give the child sufficient education to earn her bread hereafter. She was named, he said, Mona Joscelyn, after her mother and her uncle.

Mrs. Newburgh answered this appeal by sending for the little bright-eyed six-year-ling, and placing her at a school specially arranged for children whose parents were either dead or absent. It was in the country, and kept by a quiet motherly old maid. For some time her grandmother never saw Mona, but one spring, when the child had nearly attained her tenth year, scarlet fever broke out in the school, and little Mona was sent off without a word of warning to Mrs. Newburgh, who had been spending a few months in town, and was packed up and ready to start for the Continent.

Though dreadfully annoyed by the *contretemps*, Mrs. Newburgh was struck and pleased with the improvement and promise of her granddaughter, especially as she was very like her late uncle, her reddish hair being a legacy from the plebeian Craigs. Finally she took her abroad, and placed her first at a convent school in Paris, and after in an educational establishment of a very superior description at Dresden. Here Mrs. Newburgh occasionally visited her, and she remained till she was seventeen, when she went to reside with her grandmother in London; she continued to study music under the best masters, and was always present when Mrs. Newburgh received. The spring before the opening of this story she had been presented, her grandmother was well satisfied with her social success, and hoped for a brilliant marriage, when the blow fell which ruined them.

It was quite dark when Mona reached St. Pancras; she was utterly weary, and profoundly still.

As a porter threw open the carriage door, a respectable foreign-looking man, somewhat tan-colored in complexion, and pear shaped in figure, going small to the feet and spreading out roundly above, put him aside. Raising his hat he said in German.

"Welcome, my fraulein! I hope you are not fatigued."

"Yes, a little, Wehner! How is my grandmother?"

"Better, my fraulein! but weak! ah, very weak. She is looking anxiously for you. If you get into the cab, I will find your baggage."

To be continued.

Give them a Chance.

That is to say, your lungs. Also all your breathing machinery. Very wonderful machinery it is. Not only the larger air passages, but the thousands of little tubes and cavities leading from them.

When these are clogged and choked with matter which ought not to be there, your lungs cannot half do their work. And what they do, they cannot do well.

Call it cold, cough, pneumonia, catarrh, consumption or any of the family of throat and nose and head and lung obstructions, all are bad. All ought to be got rid of. There is just one sure way to get rid of them. That is to take Boschee's German Syrup, which any druggist will sell you at 75 cents a bottle. Even if everything else has failed you you may depend upon this for certain.

—A by-law to grant R. S. William & Son, piano manufacturers, of Toronto, a bonus of $20,000 to remove their works to Oshawa, was carried on Monday, by 379 out of a total vote of 391.

AS MUCH A SECRET AS EVER

To the Editor of the Review:—SIR—How in the world has C. B. ROUTLEY jumped into such a big slice of Wall Paper trade? Why, it seems as if one couldn't pass his store without running against a load of Wall Paper in the arms of some pleased looking customer. I'm half inclined to think there must have been lots of boodle in the Wall Paper business before ROUTLEY started it and that the people have found out that he has broken the combination. Eh? what did you think, Mr. Editor? And yet you occasionally hear of spasmodic attempts to get down to ROUTLEY'S prices, in order to head him off; but still it seems as much a secret as ever how he keeps up the run

Yours truly,

A PAPER-HANGER.

BANKRUPT STOCK

R. C. CHURCH

PARK LOT

FOR SALE.

TENDERS

Will be received up to the 15th May, instant, by the undersigned, for the purchase of the whole or any portion of Park Lot Number six, in Township Lot Number Thirteen, in Concession Thirteen of the Township of Monaghan, in the County of Peterborough, now incorporated in and forming part of the Town of Peterborough, containing TEN acres more or less.

This lot, better known as the "R. C. Church Lot," is the most desirable property that has been offered for sale in Peterborough for many years. It has a frontage on Park-st. of 256 feet, adjoining Mrs. Gilmour's residence; a frontage of 1914 feet on Gilmour-st. and the same on the Gravel Road, continuation of Charlotte-st.

Gilmour-st. is the most beautiful street in the Town for private residences, and being within ten minutes walk of the Post Office and Market Square, this sale affords to intending purchasers an opportunity of procuring a beautiful and convenient site for a home.

TERMS:—Ten per cent. cash; twenty per cent. additional in 30 days from acceptance of the Tender, and the balance will be allowed to remain on mortgage for such term, not exceeding ten years, as the purchaser desires with interest at 6 per cent. per annum.

TURNBULL'S.

We wish to call your attention this week to our Large Stock of Black Cashmeres. They range in price from 25 cents a yard up to $1.25. The one at 25 cents is a good black with sightly appearance which is all we say about it. But when you advance to 45 cents you have a nice rich color, particularly suited for mourning, good weight and fully 44 inches wide. At 50, 60, 75, 85, 90 and $1.00, we have a new line by a French maker which is much nicer than the old make and deservedly popular, being much finer in appearance, more like a Henrietta. To be had in blue and jet black.

GERMAN CASHMERES.

These Goods are made in Saxony where the makers vie with each other in producing a superior article. We have secured a make that cannot be spoken of too highly. It is a double warp and finished like a satin. They are now open for inspection, (on 3rd counter to left from George-st. entrance).

In our Custom Made Tailoring Department we show a nice range of Pantings, Worsted Suitings, Light Overcoatings, etc. Only first-class work turned out. (2nd counter to the right.)

Early last fall when the public began gathering around their stoves and were thinking about Flannels and Blankets, we were looking ahead and gave large orders with the leading manufacturers of Chambrays, White and Colored Muslins, Lawns, etc. These Goods are now in stock, and will be found on the first counter to the right.

Our first stock of Sailor Hats has been bought up rapidly which is sufficient evidence that they are the correct thing. Our second shipment, bought at a much lower price is now in. All sizes and styles to choose from. The prices will please you when you see the styles and quality.

CAPITAL NOTES.

The Under Secretaryship of State—Civil Servants and the Ballot.

OTTAWA, May 9.—It is stated on good authority that Mr. C. A. Dansereau has changed his mind, having decided last Saturday to accept the Under Secretaryship of State offered him some time ago.

Senator McInnes has given notice of motion to deprive civil servants of the right to vote.

Sir Richard Cartwright has not yet returned from New York.

A Cabinet minister said to-day that having shut down on the policy of granting assisted passages it was very unlikely the Government would accede to the request of Mr. Begg to help the Scotch crofters to settle in British Columbia by a gratuity of £2 to each person.

The two Adonis of the House of Commons—Thomas Mayne Daly and Major Edward Gawler Prior—loosened out in a new role to-night at the Russell, where they gave a dancing party which was attended by a fair sprinkling of the beauty and fashion of the capital.

Mr. Edgar gave a dinner party in the Commons Restaurant to-night.

On Friday Mr. Royal will move that it is desirable that any witnesses to be examined by the Committee on Privileges and Elections in the enquiry into the allegations contained in the petition of Philippe Laundry and others praying that P. A. Choquette, M.P. for Montmagny, be declared an unfit and improper person to represent that electoral district and disqualified to sit in the House, should be examined on oath, and that the evidence be taken by a shorthand reporter.

The Senate Railway Committee to-day passed the bills to incorporate the New York, Brockville and Ottawa Railway and the Thousand Island Railway.

Divorce Cases.

OTTAWA, May 9.—In the Senate to-day most of the sitting was taken up in the discussion of the Tudor-Hart divorce case. Speeches were made by Senators Power, Macdonald (B.C.), Kaulbach and McInnes (B.C.), all of whom opposed the bill. Hon. Mr. Abbott delivered an able resume of the law bearing on the case, and in concluding a criticism of the evidence stated that the facts were sufficient to justify him in voting for the bill, which was subsequently passed, 32 to 19.

The Morrison and Irving divorce bills were subsequently read a third time.

More about the Ottawa Coal Combine.

OTTAWA, May 9.—Last year's deal between the local coal combine, the Rathbun Company and the Canada Atlantic Railway, was the subject of further explanation at the meeting of the Combine's Committee this morning, when Mr. R. C. Carter, representative of the Rathbuns, was examined. This company, he said, had last year contemplated selling coal at retail in Ottawa, but being rather late they had abandoned the idea on the understanding that the local dealers should buy a quantity from him wholesale, the coal to be delivered over the Canada Atlantic. This coal was to be purchased from the Delaware and Hudson Company, but for some reason unknown that company refused to deliver any for shipment over the Canada Atlantic. He explained the situation to the Cartage Company, and after some delay they consented to take coal supplied from other than the Delaware and Hudson, and he carried out his contract at a loss.

Mr. Carter said his company had contemplated establishing a business in Ottawa this season, but nothing had been decided yet. There would be several new dealers here, the high prices of last winter having led them into the business.

Neither Rouge Nor Bleu.

OTTAWA, May 9.—Mr. Adam Brown's Parliamentary committee for the investigation of frauds upon the farming community met this morning. The chairman was given authority to summon witnesses, he having a list upwards of fifty names of victims in Western Ontario from whom to choose. To show that the nefarious operations were common to Eastern as well as Western Ontario, Mr. Brown innocently remarked that he believed there had been a good many frauds in Russell lately. "No politics," shouted one member, while another came to Mr. Brown's defence with the declaration that the chairman was strictly neutral, being neither Rouge nor Bleu. Then one more facetious than his fellows suggested that the committee should summon the last victim of the frauds—Mr. C. H. Macintosh.

The G.T.R. Seeking Government Aid.

OTTAWA, May 9.—General Manager Hickson and Solicitor Bell of the Grand Trunk are in town, and the object of their presence is said to be to push an application for Dominion assistance to make their line between Montreal and Toronto a double track one. A Cabinet Minister does not deny this report, although he declines to state the amount asked for.

Methylated Spirits and Potable Drinks.

OTTAWA, May 9.—Capt. Carter of Deseronto was to-day introduced to Sir Charles Tupper by Mr. Taylor, M.P., in the interest of the Rathbun Lumber Company. The Government have decided to withdraw the privilege from bonded warehouses of manufacturing methylated spirits owing to the fraudulent use of such in connection with potable drinks. Capt. Carter explained that the company had expended over $50,000 in plant and for experimental purposes, and he thought the Government should not interfere with the privilege they enjoyed or introduce legislation which would interfere with the existence of the industry. Sir Charles promised to look into the matter.

Manitoba Legislative Notes.

WINNIPEG, May 9.—The Quebec resolutions were concurred in by the Legislature, 21 to 8.

A notice of enquiry has been given whether the Canadian Pacific Railway has not offered the Government running powers over its branches and acceptable rates from Portage to Winnipeg, thus obviating the necessity of building the Red River Valley Railway and its extension to Portage.

The General Railway Act was introduced to-day.

The Committee on Agriculture reported a resolution endorsing the change in the grain standards suggested by the Boards of Trade.

Prorogation will occur next Wednesday.

The Budget speech will be made Friday of this week.

THE IMPRISONED EDITOR.

TALK ABOUT HAWKE IN THE COMMONS YESTERDAY.

Mr. Davies Moves the Moncton "Martyr's" Liberation and After a Long Debate Withdraws the Motion at Midnight—Sawdust and Fever.

OTTAWA, May 9.—The imprisonment of Editor Hawke of The Moncton Transcript for contempt of court arising out of Justice Fraser's decision in the Westmoreland election trial was brought to the attention of the House this afternoon by Mr. Davies, who, in a speech of nearly two hours' duration, contended that such imprisonment had been unjust and outside the authority of the court which inflicted it. After reciting the circumstances of the case with great minuteness and stating that it was not his contention that the press ought to have unlimited powers of criticism of verdicts of election or other trials, he proceeded to argue that should they exceed their legal right the remedy of judges was not such as had been applied in this case.

He denied that these judges had power arbitrarily and summarily to bring offending editors before them and punish them without the intervention of a jury, except when a trial is in progress, as he held, that after a trial is ended and judgment delivered, no language by newspapers can be punished except by trial for libel in the ordinary way before a judge and jury.

He concluded with an appeal for the liberation of Hawke and a remission of the fine imposed.

Hon. Mr. Thompson followed, answering in detail the arguments advanced by Mr. Davies. He pointed out that Hawke has a simple remedy if he has been wrongly imprisoned, by application for a writ of habeas corpus. The Executive of this country was not, he said, a court of appeal from the Supreme Court of New Brunswick, and it would be the height of presumption for him as Minister of Justice to ask the Governor-General to summarily reverse the judgment of that court.

He wished to make clear a point in connection with Judge Fraser's postponement of the trial which had been lost sight of, and that was that the trial was not wantonly postponed beyond the six months' limit, but in fixing the date as it had been fixed the judge had been actuated by a desire to give the respondent the opportunity he sought of having the Court of Appeal pass upon a question of law raised. At the time when Judge Fraser had so acted, he believed that the date he fixed would not prevent the trial. He had later found that he had made a fatal mistake and decided the opposite way sitting in the Court of Appeal, but this mistake was excusable in view of the general division of opinion amongst the ablest men on the point involved. He thought Judge Fraser had taken a manly course in acknowledging his mistake when he found it out, thus refraining from perpetrating an injustice upon respondent, because he had already caused the petitioner to suffer.

He considered that the convict Hawke had taken an indefensible course and that though politicians might be assailed, almost with impunity, with the vilest calumnies this was no reason why punishment should not follow to those who similarly deluged the bench, which had not the same opportunities of refutation and explanation as the politician had.

He pointed out that in giving judgment upon this case the Chief Justice had ruled that the expressions Hawke had used were contemptuous and therefore calculated to bring the court into contempt.

In answer to the contention that no contempt of court could be held to arise out of publication after the termination of trial and delivery of judgment, he instanced the case of Dwyer Gray, member of the Imperial Parliament and High Sheriff of Dublin, who for a criticism of a judge's course in a concluded trial, published in The Dublin Freeman of which he was editor, was inside of 24 hours incarcerated on a sentence of three months' imprisonment and a fine of £500.

He considered it fortunate for Hawke that he had not yet been tried before a jury for libel, as he might be yet. While admitting that it might be necessary at an early day to make provision for appeal from convictions for contempt of court, he saw no good reason for asking the House for special legislation in this case, where the prisoner had gone to jail, not through harshness on the part of a judge, but because he wanted to surround himself with the solemnity of a martyr.

Hon. Mr. Thompson, who had been speaking since 5 o'clock, had not concluded when the House rose for recess at 6.

After recess, Hon. Mr. Thompson having concluded, was followed by Mr. Weldon (St. John), who took the same ground as Mr. Davies, and also differed from the opinion of the Minister of Justice that Hawke might appeal by means of habeas corpus.

Dr. Weldon (Albert) and Mr. Davin spoke in support of the contention of the Minister of Justice, and Messrs. Lister and Casey in opposition.

At midnight Mr. Davies withdrew his motion of adjournment, upon which he had brought up the question, stating that he hoped his purpose had been served by the ample discussion which had taken place.

The House then adjourned until Friday afternoon, when the Canadian Pacific Railway resolutions will be proceeded with.

THE SAWDUST NUISANCE.

The Senate Special Committee Gets to Work—Last Fall's Fever Epidemic.

OTTAWA, May 9.—The special committee of the Senate appointed yesterday to investigate the sawdust nuisance in the Ottawa, got to work this morning. It is composed of Hon. Messrs. Smith, Scott, Miller, Clemow, Ross (De la Durantaye), Botsford, Macdonald (B.C.), Haythorne and Glasier. Senator Miller was elected chairman. The committee discussed the scope of the enquiry. It was decided to first obtain the report of Mr. Gray, C.E., of the Department of Public Works, who investigated the nature of the sawdust deposits. The matter of obtaining witnesses was left to Senator Clemow.

Senator Scott created something of a sensation when he intimated that the cause of the fever epidemic last fall was due to the decomposition of the cuttings and edgings, the gas or effluvia from which permeated the atmosphere about the city. The loss of scores of valuable lives he believed was directly attributable to this cause. Prompt steps should be taken to put a stop to the nuisance, as Montreal was liable to experience a similar outbreak from the same cause. He said it was necessary to investigate the methods of disposing of the sawdust from the mills at the Chaudiere. The mill-owners claimed that their mills as at present constructed possessed no other means of disposing of refuse except by dumping it into the river. If this privilege was taken away the lumbermen said it meant removal of the mills from Ottawa.

Senator Clemow announced that he had got hold of a witness who could show how the dust could be disposed of without affecting the navigation of the river, and more important still, the health of the community. The committee meets again on Friday.

True Blues at Kingston.

KINGSTON, May 9.—The True Blues Grand Lodge resumed business this morning. The various committees presented their reports showing the finances to be in a creditable condition. The appeal from the ladies of Toronto to grant True Blue warrants to the ladies of Canada was considered and a resolution ordering that such warrants be granted was carried unanimously.

The C.P.R. and the Soo Line.

MINNEAPOLIS, May 9.—Ex-Governor Washburne denies that he made the statement reported from Montreal that 1000 shares more than a controlling interest in the Sault Ste. Marie Railroad had been sold to the officials of the Canadian Pacific. While holding that the statement was unauthorized, he intimates that a deal is on hand.

A STABBING AFFRAY.

Two Italians Quarrel in St. John's Ward Over the Affections of Libby Downs.

TORONTO, May 10.

In a small court in rear of No. 42 Edward street stands a square little wooden house in which John Ballone, an Italian, lives. Apparently the place is not noted for the selectness of its callers. At 8.30 last night Frank Parma of 590 Bathurst-street and Frank Cattapan of 177 Chestnut-street, two young Italians, visited the place. They there met Venonzo Delica, aged 29, also an Italian, who does not like Parma for several reasons, the most important being that the two men are rivals for the affections of a blighted beauty of St. John's Ward named Libby Downs.

A quarrel was developed at once, and Delica unearthed a savage-looking butcher knife, with a 7½-inch blade, and brandished it in Parma's face. Parma ran out into the court, closely followed by Delica. The latter, overtaking his rival, plunged the knife into the right side of the abdomen, to a depth of three or four inches.

The murderous Italian then ran off and Parma fell to the ground, uttering a series of groans and oaths. Cattapad set up a cry of murder, which brought Policeman Kettle to the scene. Delica made his escape, going towards North Toronto. After Drs. Wagner and McPhedrain had examined Parma's wound he was removed to the General Hospital. At a late hour last night he was reported in a serious condition. The wound was a clean one, and internal bleeding set in. The knife was found in the court and is at the Agnes-street station.

A general alarm was sent out by the police. It was thought Delica would make for the tracks of the Ontario and Quebec Railway and go east. Telegrams were sent in that direction.

Delica was trying to borrow a revolver yesterday, and he seems to have made up his mind to "do" his rival whenever he met him.

It was only yesterday that Magistrate Denison sent Jack Downs to jail for two months for assaulting his sister Libby, the erring young female over whom the Italians quarreled.

THE MINING COMMISSION NAMED.

Mr. John Charlton, M.P., to be Chairman—His Associates on the Board.

TORONTO, May 10.

The personnel of the commission to enquire into the extent of Ontario's mineral wealth and to discuss the best means of developing it has been fixed on. These gentlemen have been appointed:

John Charlton, M.P., North Norfolk, Chairman.

Robert Bell, LL.D., M.D., C.M., F.G.S., Assistant Director of the Dominion Geological Survey.

Wm. Hamilton Merritt, F.G.S., Associate of the Royal School of Mines, Mining Engineer.

Wm. Coe, Madoc, iron mine proprietor.

Mr. A. Blue of the Ontario Bureau of Industries, Secretary.

The first meeting will be held in Toronto on Saturday. It is probable that the commission will devote its attention to the collection of information which can be procured from Government reports, miners, engineers, etc., and to having such information published in such a way as to be readily got at by prospectors. It will also be the duty of the members of the commission to visit different parts of the province to ascertain the exact worth of the places where minerals occur, and to have maps of the same prepared. Nothing as yet has been decided on, the course to be taken having been left largely in the hands of the gentlemen composing the commission.

The Vice-Regal Party at Kingston.

KINGSTON, May 9.—The Vice-Regal party, composed of Lord and Lady Lansdowne, Capt. Streatfeild, A.D.C., Hon. H. S. Anson and Lord Fred Hamilton arrived at the Grand Trunk Railway station here at 2.15 this afternoon. Quite a number of persons collected to see the distinguished visitors, who were greeted with three cheers when they disembarked. Carriages then conveyed the Vice-Regal party to the Royal Military College, where they were received by the officers and cadets, who were formed in line on the square. After preliminaries, the cadets were paraded, and then an adjournment to the gymnasium took place. The visitors dined at the college at 4 o'clock, and a little later left Kingston for the last time.

A "Queer" Shover in Quod at London.

LONDON, May 9.—A short stout man about 35 years of age, with dark full beard and moustache, was arrested this afternoon on a charge of passing counterfeit money. He passed $5 on Mr. J. W. Bartlett who, however, followed him into Dobbin's store and recovered his money. The fellow also passed a bad bill at Essex's place, and the bill was subsequently accepted by the bank. When arrested $80 in Bank of British North America $5 bills was found on him, all counterfeit, besides a $10 Bank of Commerce bill which on investigation was pronounced good. At the station he gave his name as Lee, but a watch was found on him with a ticket bearing the name of Alex. Brownlee, watchmaker, Alisa Craig.

R. A. Grand Council at St. Kitts.

ST. CATHARINES, May 9.—The Ontario Grand Council of the Royal Arcanum are holding their annual session in the Court House here to-day. There are about eighty delegates present from all parts of Ontario. After the usual opening by Grand Regent Tretten of Woodstock the Grand Secretary's report was read, showing that up to Dec. 31, 1887, the order had forty-eight councils with a membership of 2266 in Ontario. The general progress of the order is reported to be very satisfactory.

Hamilton Notes.

HAMILTON, May 9.—Charles Campbell of Morriston reports to the police that three men assaulted him and attempted to go through his pockets about 11.30 last night.

Mayor Doran objects to the corner stone of the new City Hall being laid with Masonic ceremonies, and it is likely the idea will be abandoned.

Last night about 12 o'clock a young woman named Elizabeth Burns, who has been employed at the Albion Hotel, called at the Police Headquarters and said that she was about to be confined and had no place to stop, having been ordered away from the hotel. She was taken to the city hospital.

The jubilee of the introduction of Bock beer was celebrated yesterday throughout Germany.

IN A DISASTROUS PLIGHT.

REVIEW OF THE SITUATION BY A MEMBER OF PARLIAMENT.

Disastrous Effect of the Home Rule Scheme on the Liberal Party—Nationalists Contending against Fearful Odds—All Signs Pointing to a Compromise.

NEW YORK, May 9.—A member of Parliament cables from London: Mr. Gladstone has just admitted that his home rule scheme proved more disastrous to the Liberal party than he could have imagined. He now takes a despondent view of the future. All the more wonderful is it to see the renewed vigor and energy he has suddenly imparted to the contest. Opinions differ widely upon his policy, but, for the man himself, it is impossible not to feel admiration.

At the most critical period of their history the Nationalists have to fight the Vatican as well as the powerful Tory Government. They never before had to encounter such fearful odds, and Parnell, in failing health and spirits, sees his life's work in imminent peril of being totally undone. One thing and another has set the country against the very name of Home Rule. Gladstone has fairly frightened people by his talk of Home Rule for Scotland and Wales, as well as for Ireland. A division worse than that which threatened the Northern States in 1861 looms up large before the vision of Englishmen. My opinion is that a general election would leave the Gladstonians in a worse plight than they occupy now, so deeply stirred is public opinion by the fear of seeing separate parliaments spring out of the soil like armed men. Therefore all signs point to a compromise.

The mere rumor of another attempt to capture Chamberlain has sent a thrill of disgust through the genuine Radicals. "Let him come back in our terms," they say, "and we may admit him. We would not have him even if he could install us in power to-morrow. If Harcourt chooses to make a fool of himself let him do so. He shall not make fools of us." This is the attitude of at least 100 sturdy Gladstonians. What about Chamberlain himself? Like Joe Bagstock, this Joe "is sly, devilish sly." He, too, begins to see that he is making no progress. Soon he must take the Tory shilling and imitate Goschen or be left without any party except Jesse Collings. There is apparently no place for him in the old home. If Harcourt insists upon finding him one he will have to face formidable opposition among the family at present assembled there.

As for the Nationalists, they naturally and properly are true to Gladstone. For their cause he has staked everything, and up till now has lost. They will not desert him for the sake of making peace with Chamberlain. Their position was never more difficult than at this moment. The Pope and the Tories form a menacing combination. Chamberlain has a plan not considering a separate parliament for Ireland, but yielding a good deal in the way of local government. To be sure he tried to thwart Churchill's very moderate proposal the other day, but that is only because he brooks no rival.

The whole situation is one of the most complicated ever seen in politics. When Gladstone himself sees no way, what can lesser men think?

Parnell Banqueted by the Eighty Club.

LONDON, May 9.—The Eighty Club gave a banquet to Mr. Parnell last evening, at which Mr. Herbert Gladstone, the Earl of Cavan and all the leading Nationalists were present. Mr. Parnell referred to the Carnarvon matter at great length. He told of an interview between himself and Lord Carnarvon at the latter's invitation, at which Lord Carnarvon agreed that it would be advisable to give Ireland a Parliament and protect her industries, and Mr. Parnell admitted that in such an event the league should become useless and would be dissolved. "Lord Carnarvon," continued Mr. Parnell, "never denied these statements, and I never said he pledged himself to them."

Mr. Parnell then proceeded to speak of the Pope's rescript. He said he approached the subject with unwillingness, and did not think it his business as a Protestant to vindicate the freedom of Catholics. He was convinced that Irish Catholics knew their political duty and how to vindicate themselves. They would not allow anybody, however high or influential, to influence them a jot in their political duty to their country, a thing that had been repeatedly tried from Rome. But had always failed. With regard to the plan of campaign, when that was instituted he was dangerously ill and compelled to refrain from all work. He confessed, however, that although the plan had benefited thousands and pacified the country, he would then have advised against it because it contained features inimical to the national situation, and would serve as a pretext for the Tories to inflict further coercion. When in 1887 he was able to speak it was too late. The Government had already struck at Dillon and O'Brien, and he thought it better to let the matter rest, but he stipulated that neither the League nor the Parnellite party should be identified with the plan, and that the sphere of the plan should be restricted as possible. "While leaving to Dillon, O'Brien and others to deal with the rescript I shall adhere to our custom when the Government strikes an Irishman to fight for him whether he be right or wrong."

He concluded with a long defence of political combination, and drew a comparison between law in England and law in Ireland. He predicted coming trouble in Ireland over evictions, which, he believed, the Government feared as much as did the tenants. He counselled his countrymen to keep strictly within the law as understood in England.

In response to many calls Mr. John Morley spoke briefly, concluding by proposing a vote of thanks to Mr. Parnell.

Brewery Burnt at St. Kitts.

ST. CATHARINES, May 9.—Taylor & Bates' large brewery was totally destroyed by fire at about midnight on Tuesday. The fire is said to have been the work of an incendiary. The fire alarm service was out of order, the first alarms not being received at the fire station and the firemen were not on hand until the flames were beyond control. The loss is $25,000, insurance $14,500. Taylor & Bates will rebuild at once.

TANGIER, May 9.—The differences between the United States and Moorish Governments have been settled.

TRADE AND POLITICS.

In the discussion of unrestricted reciprocity or commercial union the advocates of the scheme do not show a desire to argue the effect it would have upon the political relations of Canada, yet this is a branch of the subject that should be seriously considered and cannot be turned aside by jeers. Unrestricted reciprocity with the United States would cause our trade with England to decrease, and if the decrease of trade alone would not be sufficient to bring about a change in the political relations of Canada with the Mother Country, the hostile intention shown by the act of admitting United States goods free while taxing the importation of English goods would be enough to strain the connection. But an authority which the Liberals should respect has described the political results that would follow the cessation of trade, and that authority is the present leader of the Liberal party. At a time when unrestricted reciprocity had not been taken up by the party, Mr. Laurier, in a speech on the tariff, referred to the action of Mr. Papineau and those who acted with him in 1837, and said:—

"They know, as well as he did, that the policy Mr. Papineau once advocated, was ONE CALCULATED TO SEVER THE ALLIANCE which then bound, and still bound us to England."

Mr. Laurier said that Mr. Papineau's policy was calculated to sever the alliance —to separate Canada from England. What was that policy? Mr. Laurier proceeded to describe it and said:—

"Then Mr. Papineau proposed that policy of their party, that they should shut their ports to all English merchandise, that they should cease their commercial relations with England."

By such a policy Mr. Papineau believed that "as soon as commercial relations were destroyed, as a necessity, political relations would be destroyed as well." And Mr. Laurier said it was one calculated to bring about that result.

And is not unrestricted reciprocity similar? By it our ports would not be closed to England, but would commerce be carried on with England, against which a tariff would be maintained, while commerce would be absolutely free with the United States? Of course the natural result would be to destroy commercial relations with England, and the present leader of the Liberal party said SUCH a policy was one calculated to sever the alliance with England. If the Liberal party respects the opinions of it sleader if Mr. Laurier does not confute himself—the Liberal party is bound to admit that their policy would lead, if adopted, to the severance of political connection with England, or to show how commerce with England would be maintained with a customs tariff maintained against it and free trade existing with the United States.

Mr. Laurier went further in the same speech. He assumed that the Conservatives were willing to give the people of the United States free trade, which was an altogether unfounded assumption, but on the strength of it he said:—

"They (the Government) were ready to give the Americans free trade, and France, also, to some extent, but there was one country that had given us free trade, and which was denied the benefit, and that country was England. He was not so loud in his professions of loyalty as gentlemen opposite. He did not impugn the loyalty of anybody, but there was not one man, even on the other side of the house, who did not feel that this policy WAS INJURIOUS, and, not only injurious in itself, but UNWORTHY OF A CANADIAN PEOPLE towards the English people."

Yet we find Mr. Laurier and the Liberal party advocating the policy of free trade with the United States while not giving free trade with England, which that gentleman declared would be injurious and unworthy of Canadians. Mr. Laurier was right; it would be injurious and would be unworthy of us, and the only party advocating it or that has advocated it is his own party led by himself. And it never advocated that policy until he became its leader.

ON TRACK AND DIAMOND.

THE TORONTOS DEFEAT THE STARS AT SYRACUSE.

Opening of the Season at Hamilton and Toronto—Other Baseball Games—Racing in England, at Lexington and at Baltimore—The Walking Match.

HAMILTON, May 9.—To-morrow will be Baseball Day here, the home team meeting the Torontos in the first championship game of the season here. The game will be under the patronage of His Worship the Mayor and aldermen. The 13th Battalion band will furnish music at the grounds, and it is ected that 3000 people will witness the game. Wood and Moore will be the Hams' battery.

The Opening Game on Saturday.

TORONTO, May 9.—The season will be inaugurated here on Saturday, when the champions will meet the Tecumseths from the Forest City. The grounds are in excellent condition, and the improvements mentioned a week ago have been carried out. The championship flag, which has just been finished, will flutter from the staff on the grand stand. A band will parade the streets and escort both teams to the grounds. This will undoubtedly be the greatest season for baseball Toronto has ever had, and when the bell rings on Saturday to call the players out fully 5000 spectators will be within the grounds, no doubt many coming from London. The sale of reserved seats will open at Nordheimer's this morning, and already many applications have been made.

SPRINGVILLE.

Correspondence of the Review.

RENTED HIS FARM.—Mr. John J. Bennet has rented his farm and sold his stock and implements to Mr. Middleton, lately of England.

FUNERAL.—Mrs. Jas. Thompson, who had been ill for some time, passed away on Wednesday morning, the 2nd of May. The funeral took place on Thursday, the remains being interred in the Front Church burying ground. The deceased, although not far advanced in years, might be called an old resident, being born and having lived within a few miles of where she died.

SABBATH SCHOOL RE-OPENING.—The Presbyterian Sabbath School and also the Union S. School, Town Hall, were both re-opened last Sabbath, both having good prospect of large attendance during the summer months.

SPRING SEEDING.—The spring seeding, owing to the fine weather, is now far advanced. Before this appears in print many will have finished. The fall wheat, which at one time looked rather doubtful, now is looking well.

MOVED.—Mr. R. Huffman has been engaged in moving a building for Mr. R. D. Dundas, and as usual did it well.

ABOUT EARLY CLOSING.

We have decided to close our store during the Summer months at 7 p. m. each day, Saturday excepted.

We would ask our customers and friends to aid us in this matter by sending in orders or calling to make purchases as early as possible in the day.

The early closing movement will be a benefit to all who carry out the plan we feel assured and we hope that our request for early buying will meet with a general response.

TO DEPOSITERS.—Dep sits are received by this Company both on current account and for periods of one year or longer. The rate of interest paid on amount deposited on curren' account and which may be withdrawn by check in such sums as the depositor may from time to time require, is four per cent., either paid or compounded half yearly, and the rate on yearly deposits is five per cent.

TO INVESTORS.—The five and ten years five per cent debentures of this Company which are issued in denominations of $100, $200, $500 and $1,000 each, transferable by endorsement, with half-yearly interest coupons attached, payable at the Head Office of the Company in Peterborough, or at any Branch of the Bank of Toronto in Canada, afford a safe and convenient mode of investment.

The funds of the Company being invested with the utmost care and precantion, no better security can be offered to depositors or debenture-holders, they having a first claim or mortgage on the whole Assets of the Company, the Shareholders having the second. The last audit shows that the amount so invested was over $1,310,223.69, and on securities of at least double that value.

By the Laws of Ontario, Trustees, Executors and Administrators may deposit Trust Funds of the estates which they control in this Company, and are free from all further liability, a privilege of which many have largely availed themselves.

TO BORROWERS.—Money is obtainable from this Company on approved Real Estate Security at the Lowest Current Rates of Interest. The Morigage may be paid by yearly instalments or otherwise, as may be agreed upon, the interest ceasing at once on all amounts paid on account of the sum borrowed. HOUSEFURNISHINGS.

At this season many Housekeepers are replenishing their supplies of Tableware and China. City folk are furnishing summer cottages; country folk are filling up the dressers and cupboards of the old homestead; town's folk are picking and choosing here and there. Many would be glad to know of a place whose special business is to meet these wants and desires; that aims to furnish essentially good wares at consistently low prices; that offers the choice of many different dinner services, and yet does not compel you to take an entire set of any pattern, but allow you to select each course of a new design, or buy any portion of the set you may need; that does not try to impose ideas or wares upon purchasers, and yet is ready to advise which of the many wares is most desirable and suitable; and, if wished, will make a careful selection of pattern. When you want Tableware will you give us the opportunity to serve you.

Fined.

At the Police Court this morning, two young men named McFarland and Laplant were charged by Chief Rossell, with being disorderly in a public place, on Sunday evening last. This was the row in which Mr. Terry Smith was beaten. McFarland was fined $5 and $1.60 costs, and Laplant, who did not appear, $2 and $1.60 costs.

Attempted Burglary.

Our neighbors over the river are evidently trying to keep pace with the people of Peterborough. On Tuesday night, or rather on Wednesday morning, a domestic at the residence of Mr. H. C. Calcutt heard a noise in the rear of the house and discovered a man on a shed endeavoring to force his way in. She also saw another man standing in the yard. Upon being found out the would-be burglars decamped. The uninvited midnight visitors who are sojourning in our midst just at present, will meet with a warm reception some place if they persist in their vocation. Mr. Calcutt is a crack shot of the gun club and if he gets a bead on one of these gentry, there will be a job for Coroner Bell.

Port Hope's R. R. Scheme.

The Times says that Mr. J. Lestock Reid D. L. S., is home from the survey of the line of the Western Ontario Railway. He has completed the survey from Aurora to Shelburne and concluded his labors. No further surveying for the proposed road will be done this year, Mr. Reid tells us. The belief that the scheme is after all going to be of no service to Port Hope and that it was never intended to build the road to Port Hope is gaining ground. Mr. Reid tells us that although the Government subsidy may not be granted the road, that the municipalities, through which he has been carrying the survey, are willing to grant bonuses for its construction. Mr. Reid goes to the North-West shortly.

New Doctors.

Mr. J. H. C. F. Fisher, of Bailieboro, has successfully passed his examination for the degree of M. C. P. S. Messrs. L. W. Allingham, T. A. Beaman, Centreville, and C. B. Coughlin have passed the primary.

Personal.

Mr. J. S. Ivison Wilson, son of Rev. J. C. Wilson, of Ashburnham, returned home from Cobourg this morning. He has just completed his freshman year in Victoria University, taking first class honors in English. This is all the more creditable, as he did not enter until the middle of the college term, being actively engaged in teaching up to January.

He Had Observed It.

A gentlemen residing at the north end who is about to move away from town, gave a favorite horse to an old servant, stipulating, however, that as long as the animal lived no butcher boy or grocery delivery wagon boy, was to be allowed to drive him. The gentleman resided here for many years, and had ample opportunities for seeing how many of the youths referred to abused the horses under their care.

You Buy to Win.

Mr. P. D. Doran announces another competition for a valuable present which will be given to the lady purchasing the largest amount of dry goods at his store during the interval between now and Saturday night next, at 10.30 o'clock. Miss Norton was the winner of the prize offered last week. A really valuable consideration, in addition to obtaining regular lines of goods at low prices.

It Still Lives.

The Port Hope Times says:—"The project to hold a band competition at Peterborough next August is still alive." Our contemporary can just bet it is and from assurances received from many of the leading bands of the province, promising to take part, the outlook is that the band competition in Peterborough on our Civic Holiday will be one of the biggest things of the kind that ever took place in the Dominion. Further and full particulars will be forthcoming in a short time. Peterborough never does things by halves.

Davis' Pain-Killer is the best medicine in the world for all Diseases of the Bowels.

Arm the Police.

The other morning one of the police officers who was called on to arrest the burglars had no revolver, in fact he had not even a baton. The other officer had both, but the pop he carried was just as likely to shoot himself as any person else. If the officers are to be expected to cope with armed men, they must also be armed and properly armed, too. There is no use of placing in their hands revolvers of the "rattlesnake" variety, they should have fist-class revolvers, the kind that shoot every time and shoot to kill, too. A supply of good batons is also required and the Police Committee should see that they are procured at once.

A Good Thing Coming.

Business to-day is close cut. The successful dealer or firm needs to be alive to every opportunity to buy to advantage. Competition is keen and the enterprising merchant who seeks success must have a grip and knowledge of the markets that will give him the inside track every time. Gough Bros. are an illustration of taking advantage of the opportunity offered by the necessities of the wholesale men or bankrupt firms in the lower province. On Thursday the following telegram was received by the firm in town from Mr. E. D. Gough, at Montreal, where he had gone to look up some possible bargains:—

May 9, 88

Gough Bros., Peterborough.

Never struck such oil. Twenty-five hundred suits. Prices will astonish you.

E. D. Gough.

This identical twenty-five hundred suits will arrive in town on Saturday or Monday next, and go on the shop counters for sale. Talk of surprising prices! The values offered will beat out of sight anything ever heard of. The lowest price ever quoted will not come near the figures at which these 1200 suits will be offered. It will be a chance of a lifetime for working men and mechanics to buy clothing. If you are thinking of buying hold your horses for a few days until Gough Bros. open up these goods. Then sail in and pick your choice. 1d110-1w19

In the spring, hundreds of persons suffer from boils, carbuncles, and other eruptive diseases. These are evidences that the system is trying to purge itself of impurities, and that it needs the powerful aid which is afforded by the use of Ayer's Sarsaparilla.

AN EVENING CONCERT.

Miss M. Helen O'Reilly and Her Company Score a Success.

The concert at the Opera House on Wednesday evening, given by Miss M. Helen O'Reilly and her talented assistants, was a success. The attendance was not so large as the merits of the entertainment deserved, the house being only about two-thirds filled. However, those who were present enjoyed a rich musical treat. The performance opened with an overture, played by the Fire Brigade Band Orchestra, which won applause, which was repeated when the same organization opened the second part. Miss M. H. O'Reilly received an ovation upon her appearance. The number chosen was the great "Shadow Song" from "Dinaroh," Mayerbeer. From the very first notes the audience were kept interested and delighted and at the close the applause was loud and long. This lady, who has appeared in Peterborough on a previous occasion, is a great favourite. Her magnificent voice is highly cultured and flexible and possesses wonderful range, the very softest notes being distinctly heard in every part of the house. For an encore she sang "Within a Mile o' Edinboro' Toon," in a charming manner. Mons. De Seve, late court violinist to the Queen of Portugal and H. R. H. the Princess Louise, rendered Paganini's "Adagio Rondo." This gentleman is one of the most famous masters of the violin of the present age. He apparently throws his whole soul into his playing and never since the days of Remenyi have our citizens had an opportunity of hearing such and accomplished player, on what had been termed "The King of Musical Instruments." Being recalled he played "Home Sweet Home," always a favorite with every audience, in almost every land. In response to a second encore he simply bowed. Mr. Thomas Dunn, of local fame, received a warm welcome and his song, "The Raft," showed that he is bound to maintain his reputation as a baritone of the first rank. As an encore he sang "Day by Day" and gained much applause. A piano solo "Tarantella," by Miss Tracey, showed that this young lady is an apt pupil of the distinguished masters under whom she studied. She has brilliant execution and will no doubt be heard from in the near future. In the second part she played Mendelsohnn's "Wedding March" in a highly cultured and finished manner. A song "Spring and Autumn," by Miss O'Reilly, with violin obligato by Mons De Seve, was really excellent and well deserved the vigorous applause it received. "Air d'Isabella," (de Pri aux Clercs), by the same performers, was another gem. Mrs. J. E. McIntyre, an old favorite sang "The Flower Girl," in her well known captivating manner, and as an encore she rendered "Last Evening" charmingly. The success of the evening was the violin solo, "Andante Appasionate" by Mons De Seve. The audience was carried by storm and their pent up excitement was given vent to by tremendous applause, so brilliant was the performance. He reappeared and gave "The Carnival of Venice" and renewed his triumph. He reappeared and bowed no less than five times, but the audience was eager to hear him again and he was compelled to play, delighting his hearers with another beautiful solo. The last number on the programme was a duet "See the Pale Moon," by Mrs. J. E. McIntyre and Mr. Thomas Dunn. The voices blended finely and the effort was well received. "God Save the Queen," by the orchestra, brought to a close one of the most pleasing concerts heard here for some time. The accompaniments during the evening were played in an excellent manner by Miss Bertha O'Reilly and Mrs. Thomas Dunn. The stage was set as a conservatory and looked handsome.

Burglary Echoes.

The hardware men report that they have been doing a lively trade in revolvers during the last few days. It's an ill wind that blows nobody good.

Two doors at the Chancelor's residence were barricaded by the burglars on Wednesday morning, one with a lounge and the other with a table, in order to facilitate escape in case they should be discovered.

There is a great simularity in the way the safe at the Norwood post office was blown and the one operated on on Wednesday, and from certain circumstances that have transpired it looks as if at least some of the same persons were implicated in both jobs.

Two overcoats, a pair of pants and a pair of overalls await owners at the police station. The owners can have them, by proving property and calling for them at once.

The story about three men in a buggy being seen driving away from the scene of the burglary, half an hour or more after it occured, does not pan out well after all the facts are sifted. Doubtless a buggy was seen driving south, but why any person thinks the burglars were in it, no person appears to know. Buggies were also seen driving in two other directions, about the same time, but surely all of them did not contain burglars.

Matrimonial.

On Wednesday the residence of Mr. Frank Hamilton, Ashburnham, was the scene of a pleasant event, the marriage of his daughter, Fanny, to Mr. Christopher L. Huffman, of Peterborough. The knot was tied by the Rev. J. C. Wilson, in the presence of quite a number of friends of the contracting couple and at its conclusion congratulations were showered on the happy pair. Thus, whether the village is willing to annex or not, we are annexing her citizens one by one. The presents to the bride were numerous, handsome and costly. We extend our congratulations and wish the newly wedded pair long life and prosperity.

TWO ARRESTS MADE.

ON SUSPICION OF ENTERING LEBRUN'S STORE.

Some Silk Handkerchiefs and Fine Gloves Found on Them—the Victims are Tramps, one of Whom Lodged at the Police Station on Tuesday Night.

This afternoon about half-past three o'clock Chief Rossel and Officers Adams, Stewart and McGinty, who have been shadowing some suspects in connection with the recent burglary, accompanied by Mr. H. LeBrun, proceeded to a small bush below the C. P. R. track and came across two tramps. The men were arrested and some silk handkerchiefs and fine gloves found on them. These were identified by Mr. LeBrun. The men were brought to town and lodged in the cells where a large crowd assembled in a short time.

Both are young men apparently about 30 years of age each, and are tough looking characters. One gave his name as Scott and told the chief that he came from the other side of the lines, but one of the officials identified him as a tramp who lodged at the station on Tuesday night, giving his name as Wm. Scott, a moulder from Guelph.

The police are on the track of several others who are thought to belong to the same gang and they expect to have them bagged before sundown to-night.

Owing to the late hour at which the captures were made we are unable to give further particulars this evening.

TWO MORE IN.

Shortly after four o'clock, officers Adams and McGinty made two more arrests, after a long hunt through the west and south ends of the town. They are chums of the first two arrested.

Ascension Day.

This being Ascension Day, services were held at St. Peter's Cathedral. In the morning at 8 o'clock, a confirmation service was held, when 52 girls and 49 boys were confirmed.

Slaughter Sale.

W. J. Morrow is running off his immense stock of Tea to make room for fresh importations. Evaporated Peaches, Peas, Apericots, Apples, &c., &c. Pure Maple Syrup. Telephone, Opera House block.

For delicacy and richness of flavor, use Roy'al Extracts."

Their Annual Jaunt.

A meeting of the Street and Bridge Committee is called for nine o'clock to-morrow morning, when the members, accompanied by the inspector, will take their annual jaunt. It will take them the whole day to visit every section of the town and unless we are much mistaken they will find work that is necessary to be done, that will eat up a good deal more than the appropriation that will be made.

The True Blues.

The Grand Lodge of True Blues finished business, at Kingston, on Wednesday. Mr. S. H. Weir was elected District Deputy Grand Master. From the Lindsay delegates the following were elected officers. R. Bunting, Grand Master; R. H. Bell, Inside Tyler; J. Merser, A. G. Chaplain and D. H. Gall, A. G. Lecturer. The Grand Lodge decided that the formation of ladies' lodges would be beneficial, the initiations to be the same as in the True Blues; the ladies to have representation at the Grand Lodge, but to retire during the giving of degrees.

For Coughs and Colds, use Allen's Lung Balsam. Relief is warranted or money refunded.

Brevities.

—There were no burglaries reported to the police during last night or this morning.

—Rows of maples are being planted on both sides of the walks through the Central Park.

—On Friday afternoon it is probable that a gold medal will be shot for by the members of the gun club.

—Another key was picked up by the police on Wednesday. It evidently belongs to some store door and may be found at the police station.

—The first salutation of the ordinary citizen when he comes down town in the morning just now is, "Where was the burglary last night?"

—If the Town Council will not provide all night lights in the centre of the town, the merchants should all allow the lights in their stores to burn.

—The lightning last night was quite brilliant. It was followed by a heavy shower of rain and in consequence the weather to-day has been much warmer.

—There are a number of suspicious looking individuals hanging around town at present and the police should make it a point to find out their business. They do not work, while they appear to live well.

—A young lady had a narrow escape from being knocked down in front of the Lock Works about one o'clock this afternoon. Some young men were playing catch on the sidewalk, when a swiftly pitched ball passed within a few inches of her head. The boys should play on the road, as the sidewalk is for pedestrians.

Many ladies admire gray hair—on some other person—but few care to try its effects on their own charms. They need not, since Ayer's Hair Vigor restores gray hair to its original color. Sold by druggists and perfumers.

A Capable Man.

To the Editor of the Review.

SIR,—Your correspondent of last evening has struck the right chord. Protestants are a little complacent in their monopoly of the Mayor's chair. Though Mr. Cahill is without doubt a thoroughly capable man, I think Roman Catholics should be left to their own choice. The fact that there never has been a Roman Catholic Mayor looks a little greedy whatever may have been the cause. I have heard a great many endorse, heartily, the proposal.

The Cathedral Burglary.

To the Editor of the Review.

DEAR SIR,—Will you please correct an error which appeared in your report of the burglary at St. Peter's Cathedral on the morning of May 9th. In it you state that for some reason or other Father Rudkins could not get a reply by telephone from the central exchange, which is not correct, as my night operator answered him all right, but could get no one at the residence to speak to him.

By inserting the above in your issue of to-day you will greatly oblige,

Yours truly,

What a Time

People formerly had, trying to swallow the old-fashioned pill with its film of magnesia vainly disguising its bitterness; and what a contrast to **Ayer's Pills**, that have been well called "medicated sugar-plums"—the only fear being that patients may be tempted into taking too many at a dose. But the directions are plain and should be strictly followed.

J. T. Teller, M. D., of Chittenango, N. Y., expresses exactly what hundreds have written at greater length. He says: "Ayer's Cathartic Pills are highly appreciated. They are perfect in form and coating, and their effects are all that the most careful physician could desire. They have supplanted all the Pills formerly popular here, and I think it must be long before any other can be made that will at all compare with them. Those who buy your pills get full value for their money."

"**Safe, pleasant, and certain** in their action," is the concise testimony of Dr. George E. Walker, of Martinsville, Virginia.

"Ayer's Pills outsell all similar preparations. The public having once used them, will have no others."—Berry, Venable & Collier, Atlanta, Ga.

MONA'S CHOICE.

BY MRS. ALEXANDER.

CHAPTER II.—ANOTHER.

The door was opened by Mrs. Newburgh's maid, a very important person, with whom Mona had not unfrequent differences of opinion. Her face was expressive of ill-temper and disgust.

"Mrs. Newburgh has been worriting herself and every one else because she fancies you are late, miss," was her salutation.

"I do not think I am, Hooper!"

"I dare say not; only you see she is all wrong about time—a minute or an hour, it's all one to her. I never thought you would see her alive. After she read about that cruel, deceitful, swindling company in the paper, she sent off Mr. Wehner for Mr. Macquibble. After they had talked a bit, the bell rang sharp; I was called, and there was Mrs. Newburgh in a dead faint. I thought she would never come to. We called the doctor and put her to bed, but she had three more faints before night. Then we telegraphed for you, miss. Nothing would keep her in bed this afternoon—she got up and dressed."

"Poor, dear grannie! I will go to her at once!"

"**Won't you have a cup of tea first, miss? You are looking dreadful bad!**"

"No, thank you, Hooper!"

She went quickly up-stairs to her grandmother's room, and having paused for a second at the door, went in softly.

Mrs. Newburgh sat at a writing-table covered with letters, papers, account and check books—some notes and gold at her right hand. She was wrapped in a morning-gown of dark-red cashmere, and her gray hair was neatly arranged under her lace cap; but Mona was startled by the ghastliness of her face. Mrs. Newburgh had borne the wear and tear of time well, and having accepted her age without a struggle for youthful appearance, did not look her seventy-six years. Now she might have been a hundred. Her cheeks seemed thinner and more sunken; wrinkles had come about her mouth, the muscles of which were relaxed into a downward curve; her face was deadly white; her keen dark eyes were dim and frightened; the hands which lay on the table were yellow and tremulous. Mona's heart thrilled with pity at the sight of such a wreck.

"Oh, grannie!—dear grannie!" was all she could say, coming quickly to her, and gathering up the cold, withered hands into her own, as she kissed her cheek.

The old lady clasped her almost convulsively.

"I thought you would never come," she whispered brokenly. "Do you know that everything is gone—everything? We can not stay here. This is the last money I can call my own"—and she freed one hand to clutch the gold and notes. "I don't seem able to understand the figures or anything! You will not leave me, Mona? Hooper is so cross that"—gathering force by a supreme effort, and speaking with something of her natural decision—"I should in any case dismiss her; for me all is over. I am too old to struggle any longer. I have fought a brave fight, but Fate is against me. Mona, my child, can you forgive me for losing the little fortune I intended for you? Somebody told me I ought to draw out of that company.—I forget who—I forget all the names; but I thought I might wait a little longer—the interest was so high—and I have beggared you! Can you forgive me?"

"Forgive you!" cried Mona, sinking on her knees, and clasping her arms round her trembling grandmother. "What have I to forgive? Rather let me pray your forgiveness for my want of obedience and submissiveness! Where should I be but for you? I owe you everything! Send away Hooper—I will be your maid, your nurse, your servant—anything that can help or comfort you!"

"Foolish, hasty child!" murmured Mrs. Newburgh, laying her hand tenderly on the young head pressed against her. "I believe you love me a little."

"I do love you, dear! I will do whatever you wish; and do not be so cast down—something will be arranged for us. We can go away and live in the country, then we shall not want expensive dresses and—"

"You little know!—you little know!" murmured Mrs. Newburgh. "Thank God, I have few debts! I think I have paid every one—intending to go abroad for some months. This has been an expensive year, and there was no time for you to make a good alliance. No time—no time!"

"But, grannie, dear, you do not know what prince in disguise I may captivate,' said Mona, rising and drawing a chair beside her. "Penniless girls marry often."

She would have said anything to cheer her.

"Ah! but no jewel looks well if it is not well set. Men may not want money with their brides, but they are almost always repulsed by mean surroundings. I see no hope anywhere. None—none! Everything fades from me; yet I am not imbecile."

"No, no! dearest grannie! This confusion is only from physical weakness. Do not try yourself any more. I will write to Mr. Oakley—to your solicitor—to come here to-morrow; he will put things in order, and tell me what we ought to do. Let me lock up all these papers and the money, and give you some dinner or tea or something. Thinking will do us no good. To-night I will tell you all about Lady Mary and my visit, then I will sit by you till you are asleep. Hooper shall put the chair-bed beside yours. I shall sleep here to-night."

"It would be best," murmured Mrs. Newburgh, gladly resigning herself to her granddaughter's guidance. "I do not want much; but for you—ah, Mona! it is hard! You must pay Hooper and send her away, and Wehner too; we want no manservants now."

* * * * * * * *

The explanations of Mrs. Newburgh's trusty solicitor were indeed a revelation to Mona. The mysteries of the stock market were unfolded to her wondering gaze; and she learned that besides the considerable sum absolutely paid on the purchase of shares, there was a terrible liability in the shape of "calls" to the full value of these shares; and as a banking business was connected with the gold-mine association, Mrs. Newburgh's whole property was subject to the demands of depositors, and that she could not call a farthing her own.

The house in Green street having been bought by her, Mr. Oakley advised Mrs. Newburgh remaining in it till obliged to turn out, as she was rent free. He was most useful in paying and dismissing the servants. The German major-domo, who had been for many years with Mrs. Newburgh, begged to be allowed to remain till his mistress left—without wages; it was, he said, a bad season to find another engagement, and he thought he could be useful to the ladies, even while looking out for a situation, and so he proved himself.

While these changes were going on, Mona was profoundly anxious about her grandmother. At times she was keen, eager, fully alive to what was going on; then a cloud would gather over her poor brain, and things seemed to slip from her. She could not bear Mona out of her sight, and was reluctant to let any other relatives approach her. When urged by Oakley to acquaint her nephew, Lord Sunderline, with the state of her affairs, she asked sharply what good that would do?

To be continued.

Give them a Chance.

That is to say, your lungs. Also all your breathing machinery. Very wonderful machinery it is. Not only the larger air passages, but the thousands of little tubes and cavities leading from them.

When these are clogged and choked with matter which ought not to be there, your lungs cannot half do their work. And what they do, they cannot do well.

Call it cold, cough, pneumonia, catarrh, consumption or any of the family of throat and nose and head and lung obstructions, all are bad. All ought to be got rid of. There is just one sure way to get rid of them. That is to take Boschee's German Syrup, which any druggist will sell you at 75 cents a bottle. Spots of Sport.

George Lee will train Jake Gaudaur for his race with Teemer on Decoration Day.

John Largan, ex-champion of the Thames, who is practicing on the Harlem River, says that he was not so much surprised as most people at Hanlan's defeat by Kemp. Largan insisted that simply because Bubear beat Kemp in England the latter should not be lowered in the rating, as he was unfit to pull against a lad when he met Bubear. The Englishmen considers Kemp fully as good a man as Beach, with the advantage of being younger.

It is likely that if Carr, the English sculler, beats Bubear in their coming race he will accept O'Connor's challenge.

W. A. Rowe of the American bicycle team now in England and W. Ward of the North Salelds are matched for $250 a side over a distance of fifteen miles, to take place May 12.

AS MUCH A SECRET AS EVER

To the Editor of the Review:—SIR—How in the world has C. B. ROUTLEY jumped into such a big slice of Wall Paper trade? Why, it seems as if one couldn't pass his store without running against a load of Wall Paper in the arms of some pleased looking customer. I'm half inclined to think there must have been lots of boodle in the Wall Paper business before ROUTLEY started it and that the people have found out that he has broken the combination. Eh? what did you think, Mr. Editor? And yet you occasionally hear of spasmodic attempts to get down to ROUTLEY'S prices, in order to head him off; but still it seems as much a secret as ever how he keeps up the run

Yours truly,

R. C. CHURCH

PARK LOT

FOR SALE.

TENDERS

Will be received up to the 15th May, instant, by the undersigned, for the purchase of the whole or any portion of Park Lot Number six, in Township Lot Number Thirteen, in Concession Thirteen of the Township of Monaghan, in the County of Peterborough, now incorporated in and forming part of the Town of Peterborough, containing TEN acres more or less.

This lot, better known as the "R. C. Church Lot," is the most desirable property that has been offered for sale in Peterborough for many years. It has a frontage on Park-st. of 256 feet, adjoining Mrs. Gilmour's residence; a frontage of 1914 feet on Gilmour-st. and the same on the Gravel Road, continuation of Charlotte-st.

Gilmour-st. is the most beautiful street in the Town for private residences, and being within ten minutes walk of the Post Office and Market Square, this sale affords to intending purchasers an opportunity of procuring a beautiful and convenient site for a home.

TERMS:—Ten per cent. cash; twenty per cent. additional in 30 days from acceptance of the Tender, and the balance will be allowed to remain on mortgage for such term, not exceeding ten years, as the purchaser desires with interest at 6 per cent. per annum.

TURNBULL'S.
We wish to call your attention this week to our Large Stock of Black Cashmeres. They range in price from 25 cents a yard up to $1.25. The one at 25 cents is a good black with sightly appearance which is all we say about it. But when you advance to 45 cents you have a nice rich color, particularly suited for mourning, good weight and fully 44 inches wide. At 50, 60, 75, 85, 90 and $1.00, we have a new line by a French maker which is much nicer than the old make and deservedly popular, being much finer in appearance, more like a Henrietta. To be had in blue and jet black.

GERMAN CASHMERES.
These Goods are made in Saxony where the makers vie with each other in producing a superior article. We have secured a make that cannot be spoken of too highly. It is a double warp and finished like a satin. They are now open for inspection, (on 3rd counter to left from George-st. entrance).

In our Custom Made Tailoring Department we show a nice range of Pantings, Worsted Suitings, Light Overcoatings, etc. Only first-class work turned out. (2nd counter to the right.)

Early last fall when the public began gathering around their stoves and were thinking about Flannels and Blankets, we were looking ahead and gave large orders with the leading manufacturers of Chambrays, White and Colored Muslins, Lawns, etc. These Goods are now in stock, and will be found on the first counter to the right.

Our first stock of Sailor Hats has been bought up rapidly which is sufficient evidence that they are the correct thing. Our second shipment, bought at a much lower price is now in. All sizes and styles to choose from. The prices will please you when you see the styles and quality.

THE FISHERIES TREATY.

Objections of the U.S. Senate Foreign Relations Committee Rajority.

WASHINGTON, May 10.—The Senate discussed in secret session the resolution providing for the presence of an official reporter during the debate of the Fisheries Treaty. The resolution was adopted as slightly amended by Senator Teller, and it is probable that the debate will be published from day to day in the Record. The question of giving publicity to the reports of the Foreign Relations Committee adverse to and in support of the treaty was then discussed and the injunctions of secrecy were removed from both. The majority report, after an extended review of the objections urged and criticisms of the methods of negotiation, summarizes the objections as follows:

1. The United States recognize as British territory and renounce forever all claim of independent right in all the great bays along the British North American coasts named in the treaty and admit that all such bays form a part and are within British territorial sovereignty and jurisdiction.
2. Of the few of such great bays that are left to be visited by American fishermen, the larger part are understood to be valueless, and some of them are subject to French fishery rights, older than our own, if they are British Bays.
3. If bay fishing is not profitable now it may be in future.
4. Whether profitable or not the United States ought not to give up upon any consideration whatever the right of its vessels of every character to visit and carry on business in any part of the public bays.
5. The treaty surrenders the claim and right of the United States—which has been acted upon and exercised for now more than a century, of its vessels engaged in fishing or other occupations to visit and to carry on their business in these great bays and the principle of which claim and right has once been solemnly decided against Great Britain by a tribunal organized under a treaty with that Government.
6. The new area of delimitation described in the treaty greatly increases the danger of our fishermen unintentionally invading prohibited waters and thereby exposing them to seizures and penalties.
7. The treaty by its fifth article renounces any right of the United States in any bay, etc., however large that cannot be reached from the sea without passing within the three marine miles mentioned in article 1, of the convention of Oct. 20, 1818.
8. The treaty is a complete surrender of any claim of a right now existing either under the treaty of 1783 or the treaty of 1818, the acts of Congress and the British orders-in-council of 1836, or the XXIX. article of the treaty of 1871, for vessels of the United States engaged in fishing anywhere on the high seas, and even having a commercial character also, to enter any part of British North America for any commercial purpose whatever, and puts in life place of these clear rights, which in respect of British fishing vessels exist in the United States to the fullest extent, greatly restricted and conditional rights.
9. It binds the United States to be content with whatever is given by this treaty as the full measure of its rights and to be content with it forever, or until greater hospitality and freedom of intercourse can be obtained by further concessions or considerations on our part.
10. In face of all this it leaves British North American fishing vessels possessed of all commercial rights in all the ports and waters of the United States.

* * * * * * *

11. Instead of diminishing sources of irritation and sources of difficulty, different interpretations and disputes, it will, the committee thinks, very largely increase them.

BUFFALO'S BIG BLAZE.

St. Paul's Cathedral Completely Destroyed by Fire—Firemen Badly Burnt.

BUFFALO, N.Y., May 10.—A fire occurred in Dr. Pierce's dispensary this morning, caused by an explosion of natural gas. The cement floors undoubtedly saved the establishment from complete destruction. Four firemen had their faces badly burned. The entire basement, in which is located the dining-room and various offices, was flooded.

It was only a few minutes after the breaking out of this fire that St. Paul's Cathedral was discovered to be on fire. In a very short time flames were bursting through the magnificent chancel windows and the memorial windows, and it was at once evident that the beautiful St. Paul's was practically doomed. This being Ascension day services were to have been held at 10.45, and the assistant sexton, Mr. Tremaine, turned on the natural gas about 9.30. Immediately there was an explosion, and the force was so terrific as to blow open the doors on Pearl-street side. Mr. Tremaine rushed out and met the sexton, Robt. Wilkinson, on the street. They hurried back into the church and were amazed to find the interior a mass of flames. An alarm was at once turned on, but before the department could arrive the flames were bursting out of nearly every window in the structure. Within fifteen minutes from the time the alarm was given the entire interior of the church was a red hot furnace, and the flames bursting out of the tower. By hard work only the walls were saved. An overpressure on the fuel gas mains by reason of the small amount in use, was the presumed cause.

The structure is valued at $200,000, and is insured for $55,000. The interior work is valued at $300,000 by insurance men. There is an extra insurance of $3000 on the Dr. Shelton memorial window and $2,00 on the organ. The handsome spire is uninjured.

Struck by Lightning.

PARRY SOUND, May 10.—The barns and stables of John Hunt, a farmer living four miles from here, were struck by lightning during the storm last night and totally consumed by fire, together with four horses and four cows, a quantity of hay grain, etc. The loss is about $1800, no insurance.

Heavy Rainfall in Texas.

SAN ANTONIO, TEX., May 10.—Reports from Western Texas record the heaviest rainfall for many years. All the streams are overflowing their banks.

TORONTO TOPICS.

The nominations in North York for Dr. Widdifield's seat in the Ontario Assembly will be on May 23 and the voting on May 30.

In the General Sessions yesterday Judge Morgan heard the case of Thomas Hope, charged with obtaining a note for $240 from Farmer George Hollingshead of King by false pretences. The scheme was the old seed wheat dodge, Farmer Hollingshead being taken in in the most approved style. The case was not finished. The Grand Jury will bring in their presentment to-day.

A Sentenced That Was Deserved.

SAN FRANCISCO, May 10.—Charles R. Bachman, a steward of the English ship Brussels, who was convicted of setting fire to the vessel while the crew were on board, was sentenced yesterday to San Quentin for 35 years.

A WRIT ISSUED FOR THE LOCAL ELECTION IN THREE RIVERS.

The Custom House Accommodation in Connection with the Toronto Postoffice to be Enlarged—Talk of Another Protest in Russell—The Bucket Shop Bill.

OTTAWA, May 10.—The Government has decided to substitute the postoffice savings bank system for the Dominion savings banks in British Columbia.

It is reported on pretty good authority that Sir Charles Tupper, Minister of Finance, will return to England in July. His health during his stay in Canada has not been good, and he has expressed himself at various times to this effect.

Geo. F. Baird, M.P. for Queens, N.B., has gone home sick. He will not return this session.

The Commons will discuss the Canadian Pacific Railway resolutions to-morrow.

Mr. Turcotte, M.P.P. for Three Rivers having accepted the office of Attorney-General in the Mercier Government a writ for a new election in that constituency has been issued. Nomination takes place on May 19 and polling on May 26.

The Commons Chamber to-day was deserted. Members and pressmen divided the day between cricket on the ground and visiting the Experimental Farm.

The bill which Sir Charles Tupper intends to introduce in regard to the rate of interest on savings bank deposits alters the rate of interest now payable from absolutely 4 per cent. to a rate not exceeding 4 per cent.

The bill in regard to insurance provides for the remedying of a clerical error in the Consolidated Insurance Act.

There is some talk of another protest in Russell, but it is more than probable that Edwards will be allowed to hold the seat for the present Parliament. A Cambridge elector says he is going to lay an information against Edwards for using profane and violent language to him on the day of polling.

Hon. Mr. Pope has not yet recovered from his illness. It is thought he will be unable to occupy a seat in the House to-morrow.

The Minister of Militia has decided to create a new brigade division in the fifth military district with headquarters at Sherbrooke.

Ex-Judge Clark and Mr. Bell, the Grand Trunk solicitor, spent the greater part of the day with Hon. Mr. Thompson, Minister of Justice, discussing the provisions of the new Railway Act.

Sir Hector Langevin has informed Mr. Cockburn, M.P., that he will grant the request for an enlargement of the customs building in connection with the Toronto Postoffice, a very necessary improvement since the introduction of the new parcel post service. The work will be commenced at once.

The Montreal brokers, who have been offering opposition to the bucket shops bill, have been satisfied by Hon. Mr. Abbott that it will not interfere with legitimate Brokerage, and they have now ceased agitating.

Capt. Labelle, M.P., is general manager of the Richelieu Navigation Company. He stated to-day that the western line would commence running on June 4. The Spartan, Passport, Corinthian and Algerian had all been refitted and thoroughly repaired. The Passport, which was wrecked in the Cornwall Canal, has been almost rebuilt. A new set of stewards and waiters have been engaged for the better comfort of the travelling public. The season promises to be brisk. At a meeting of general traffic managers, which the Captain attended, applications from the east and west for excursions on the lower and upper St. Lawrence and Saguenay routes were numerous. The Saguenay and Montreal and Quebec boats are now running.

Hamilton Notes.

HAMILTON, May 10.—A meeting of the Police Commissioners was held this morning for the purpose of further considering the bylaw regulating livery stable keepers, but no action was taken. The rules of the commissioners were amended, raising the standard of height for police force applicants to 5 feet 10 inches. The applicants will also have to reside in the city six months before applying, and be not over 32 years of age.

The funeral of the late J. W. Kerr took place this afternoon from his late residence to Burlington Cemetery, and the large number of attendants showed the high esteem in which he was held.

Jeremiah H. Hogan, a native of Ireland, but for thirty years a resident of Hamilton, died at his residence in this city this morning.

A young man named Wm. Hall was arraigned before Police Magistrate Cahill this morning for stealing a game rooster belonging to James Murphy. He pleaded guilty and will appear for sentence on May 21.

Matthew Corner, a 15-year-old boy, was sent to the Reformatory for four years this morning on a charge of vagrancy.

Middlesex Assizes.

LONDON, Ont., May 10.—At the Assize Court to-day in Street v. Hammond a verdict for plaintiff was entered by consent. Yates against Drennon was an action for breach of promise of marriage, with seduction attachment. The parties belonged to this city, but the plaintiff, Sarah Yates, has recently lived in Cleveland, Ohio. The defendant is a brakeman at present on the Union Pacific. The jury gave the plaintiff $500. Dunlop v. Township of Warwick is an action for $10,000 damages brought by Ellen Dunlop, wife of William, who was found in December last dead on the eighteenth sideroad of the township and supposed to have been killed while driving home from Watford. There is a deep ditch beside the road at the point where the fatality occurred, and to avoid it the driver would have to turn west off the direct line. The deceased was said to be a good, industrious farmer, but he occasionally drank to excess, and as there was no inquest held the cause of death was not clearly proved. The case is not finished.

Killed by a Stray Bullet.

MONTREAL, May 10.—Capt. Valcourt of the Eighty-fourth Battalion was accidently shot at St. Cimon, County of Bagot, on Saturday last. He was at the rifle range, and preparing to fire when he was struck by a stray bullet, which shattered his thigh. It was thought at first that the limb would have to be amputated, but Dr. Hingston dressed it and all would probably have gone well had not the patient become delirious during the night and got out of bed. He stumbled and fell, and the bandages gave way. Medical aid was procured, but Capt. Valcourt died before morning.

An Engineer's Daring Act.

OTTAWA, May 10.—A few days ago as a train was coming from Algoma, some few miles south of Sudbury on approaching a trestle Engineer McElvany noticed a man lying across the rail on the trestle. He at-once whistled down brakes and reversed his engine. Seeing the man did not move he instantly crawled out on the footboard and got on the cow-catcher and as the train reached within a few yards of the man, who was apparently in a deep sleep, he sprang ahead of his engine and grabbing the man by the leg threw him off the trestle and then made a spring clear of the engine to save himself.

Accounts Differ.

LONDON, May 10.—Public and private accounts of the German Emperor's condition strangely differ. Advices to the foreign office here say that the Emperor is absolutely incapable of transacting business, and that he is delirious nearly all the time. His situation is very similar to that of President Garfield when the latter was suffering from pyæmia. President Garfield was nearly a month in dying after his mind gave way.

Adopted the Plan.

DUBLIN, May 10.—The tenants of the Scott and other estates in the parish of Kildysart, County Clare, have adopted the plan of campaign. Moonlighters have raided four farms in the same parish because the occupants had paid their rents. They destroyed property and injured the tenants.

MERCIER'S PROGRAM.

Government Measures to be Submitted to the Quebec Legislature.

MONTREAL, May 10.—The Local Legislature opens on Tuesday next. The session will be short and will not in all probability exceed a month in duration, it being the Premier's intention to call the House together again in the autumn. The budget, which is all ready and in print, will be brought down three days after the House opens. The principal measures to be brought forward by the Government are:

1. Amendments to the code of civil procedure by which the legal delays will be shortened and purely commercial cases decided in a reasonable time.
2. The conversion of the $22,000,000 of provincial debt now bearing 5 per cent interest into 4 per cent, thereby saving the province over $200,000 annually.
3. The reorganization of the Crown Lands Department and a scheme for developing and settling the Lake St. John district. This latter will receive the personal supervision of the Premier, who has taken the department in hand.
4. The settlement of the Jesuits estates.
5. The amendments to the license law as proposed by Rev. Abbe Larocque and Messrs. David Desnoyers and Dugas.

Mr. Mercier will meet the House with a majority of 16, which is explained as follows: At the last session he had a majority of 6. Since then the Conservatives have lost Chicoutimi, La Prairie, Ottawa, Maskinonge and Hochelaga, which means a Liberal gain and a Conservate loss of 5 votes. In addition to this it is more than probable that Mr. Deschenes of Temiscouata will vote with the Government. The House now stands 33 Liberals, 7 Nationalists, 23 Conservatives, Deschenes of Temiscouata doubtful, and Shefford unrepresented.

IN FAVOR OF PROHIBITION.

The Synod of Toronto and Kingston Discuss the Temperance Question.

OWEN SOUND, May 10.—The Presbyterian Synod of Toronto and Kingston closed its annual session here to-night under the moderatorship of Rev. D. McLeod, Barrie. The delegates, who have been here for the last three days, were not very numerous, owing to this town being at the extreme end of the synodal district. The main question debated to-day was the report on temperance presented by the Synod's committee. It was warmly discussed in pretty much the same spirit as was manifested in the Presbytery of Toronto a few days ago. The recommendations of the committee were adopted, with several emendations. The principal recommendation as amended by Professor McLaren is:

That in view of the manifold evils which attend the manufacture and sale of intoxicating drinks as a beverage, this Synod records its conviction that the entire prohibition of the traffic by law comes legitimately within the scope of the power with which God has endowed the Government for the good of the people, and that the Christian community should be encouraged to use all suitable efforts to raise the tone of public opinion so as to secure the enactment and the successful enforcement of an effective prohibition law, which shall extend at least to the entire province.

THE CARDWELL CONSERVATIVES.

Unite on a Local Horse Doctor in Preference to Editor White.

ORANGEVILLE, May 10.—Robert Evans was selected at Mono Mills to-day as Conservative candidate for the vacancy in Cardwell caused by the death of Hon. Thomas White. After the first ballot all the candidates dropped out but Robt. White, son of the late member, and Robert Evans, and Evans was elected on the third ballot, the vote standing 74 to 51.

Robert Evans, V.S., is a resident of Bolton, in Albion township. He graduated from the Ontario Veterinary College in 1872. Since which time he has been a resident of Cardwell. He is president of the Conservative Association, and has been an active man in all the fights in the county.

Fatal Bridge Accident.

GLENCOE, May 10.—About 9 o'clock this morning while workmen were engaged building the iron part of the Watterworth bridge, about six miles from Glencoe and between the Counties of Middlesex and Elgin, a temporary bridge on which the men were at work laying the heavy iron stringers, gave way and all were precipitated into the river. In falling a Mr. Lamb of Acton, Ont., in the employ of the Hamilton Bridge Company, was struck on the head by some timbers which killed him instantly. Alex. Watterworth, son of Joseph Watterworth of Mosa, was killed also. The injured so far as learned are Daniel Mills of Mosa, hand and leg badly crushed; Hiram Lumley of Mosa, badly hurt about shoulders; J. W. Madigan of Hamilton, hand crushed and leg hurt, and B. Campbell of Komoka, legs bruised and wrist sprained. Watterworth's body was found after about five hours' search pinned beneath the debris.

The King of Portugal's Illness.

LISBON, May 10.—King Louis has been failing in health for some time. He finds it impossible to attend to the business of the state and has resolved to delegate to Prince Carlos, the heir apparent, the signing of State documents and the power of representation of the King on occasions when the presence of His Majesty is required. It is generally known that there has been a sudden change for the worse in the King's condition.

Prince Ferdinand's Oath.

SOFIA, May 10.—Prince Ferdinand, in a speech yesterday at a banquet in the hall of the Sobranje at Tirnova, said:—"Here in this building I swore to lead Bulgaria to the goal marked out for her in history. I now repeat that oath, assuring you that without sparing myself I shall with heart and soul adhere to the promise I made before God and the people."

The Shannons Remanded.

KINGSTON, May 10.—At the Police Court this morning J. H. Shannon of Sharbot Lake, charged with falsifying his books with intent to defraud his creditors, and his father, Dr. W. J. Shannon, accused of receiving goods from his son's store with the same intent, were remanded to procure evidence, bail being fixed at $1000 each.

Winnipeg Reform Nominations.

WINNIPEG, May 10.—At the conventions of the Reformers to-night to select candidates to contest the various city constituencies in the forthcoming elections, Hon. Mr. Jones was chosen as the party standard-bearer for North Winnipeg, Capt. McMillan for Centre and Mr. Luxton for South. A ratification meeting was held subsequently.

VAST WAR PREPARATIONS.

ENGLAND RECOGNIZES THE NECESSITY FOR ACTION.

No Occasion for a Panic—Formation of a Third Army Corps and a Reserved Field Corps—The Artillery to be Increased.

LONDON, May 10.—Right Hon. Edward Stanhope, Secretary of State for War, yesterday received a deputation of members of Parliament, who presented an address urging the necessity of placing the country in a proper state of defence. In reply the War Secretary declared that there was no occasion for panic. England's preparations compared favorably with those of foreign powers; still the Government recognized the necessity for immediate action. At all the military ports and coaling stations the work of strengthening the defences was being carried on with renewed activity, and at the leading mercantile ports every effort was being made to complete the submarine mining defences. An attack upon London by way of the Thames would be made an absolute impossibility.

Multifarious forces of regulars, militia and volunteers were about to be organized, and the Government would be able to produce at short notice a field army sufficient to defend England and primarily to protect London. The leading feature of the plan would be the formation of a third army corps, composed of regulars, militia and volunteers, to be used chiefly in the defence of ports, also the formation of a reserve field artillery corps. The points of concentration and lines of defence were being carefully arranged. The transport service would be ready for any emergency. The volunteer artillery would be increased by the addition of 250 mobile and eight heavier guns. The danger did not lie in the want of numbers, but in incomplete preparations. The Government appealed to Parliament to assist in preparing to avert any danger that might threaten England.

Mr. Stanhope's remarks were applauded.

The Standard commenting on the War Secretary's statement, admits the soundness of his intentions but complains strongly that he does not move fast enough. The Daily News says it is glad that responsibility has been shifted from Parliament to the Administrative department. It approves the extended use of auxillary forces. The Times says Mr. Stanhope was too airy and optimistic at a moment when our most serious defences are unfortunately of a kind which cannot be rapidly supplied whatever efforts may be made.

CANADA'S CONSOLATION.

She Has Secured Valuable Admissions, Even if the Fishery Treaty is Rejected.

NEW YORK, May 10.—Under the above heading The Sun to-day has this special from Washington: The Dominion papers are evidently well aware of the chances that the Fishery Treaty will be thrown over by the Senate, and have been making the best of that prospect. Some recent utterances of The Montreal Gazette on the subject are particularly noticeable, because its proprietor is a member of the Dominion Cabinet, and in such matters it carries a certain official weight:

> If the treaty is rejected by our neighbors, we will simply fall back on the arrangement of seventy years ago, and deny to their fishing vessels any privileges in our ports, excepting those of obtaining wood, water, shelter and repairs. They cannot come within the three-mile limit to fish; they cannot enter any of the bays along the coast, they cannot purchase bait or fishery supplies, or tranship cargoes or ship seamen. The treaty of 1818 shuts them out absolutely from any of these privileges, and the Democratic Administration has said that our interpretation of that treaty is right and justified.

This is rather strong language, and the first impulse may be to deny and resent this triumphant declaration. But on examining the message with which the President accompanied his transmission of the fishery treaty to Congress on Feb. 21 last, some basis for the foregoing assertion may, perhaps, be found in the following words:

> The right of our fishermen under the treaty of 1818 did not extend to the procurement of distinctive fishery supplies in Canadian ports and harbors; and one item supposed to be essential, to wit, bait, was plainly denied them by the explicit and definite words of the treaty of 1818, emphasized by the course of the negotiations and express decisions which preceded the conclusion of the treaty.

This is apparently one foundation of the Canadian claim that whatever the Senate's decision on the Fishery Treaty, the Dominion has been the gainer by the negotiations. The treaty itself, though inferentially an abandonment of American ground, does not expressly assert that the rights of our fishermen are at present limited and circumscribed in any given way. It is in the unfortunate message with which the President accompanied the treaty that such declarations are found.

No doubt the Senate will do its utmost to counteract the effect of this surrender of the American view.

How Lillie Hoyles Was Killed.

WORCESTER, Mass., May 10.—Alice Hoyles' statement regarding the murder of her sister Lillie shows that Dixon R. Cowie, her uncle, chloroformed her with the purpose of taking her to a place where an abortion could be performed, and that while Cowie, McQuade and Alice Hoyle were taking her there in a wagon she became conscious and screamed. The men became frightened and cramped her by the throat, and in a moment she fell back dead.

KENT AND RUSSELL.

THE Liberal papers are trying to keep up the courage of the party by referring to the result of the bye-elections in Kent and Russell as great Liberal victories and as victories for unrestricted reciprocity. In Kent the Liberal candidate was elected at the general election, and if he had been returned with the same majority it could only have been quoted to show that the Liberal party had not lost by their new trade policy. It would not even then have shown that they have gained, and if they have not gained in the country a general election would still leave them and their new "policy" in a minority. But the Liberal candidate's majority in Kent was reduced, despite the generosity of the Mowat Government with Provincial funds, and the election shows a loss by the Liberal party If in elections throughout the country the Liberal party sustained similar losses their leaders would have a still smaller following in the House than they now have.

In Russell the Liberal candidate, Mr. Edwards (who is a nephew of Mr. James Edwards, of Peterborough), was re-elected by an increased majority. But the increase was owing more to personal than to political reasons. Mr. Edwards is a large employer of labor and employees of his who were absent at the time of the general election were home to deposit their ballots at this contest and increased his majority. It is creditable to Mr. Edwards that his employees voted solidly for him, but a victory gained in that way is not one of which the party as party can boast. It is not an unbiassed endorsation of their policy. And it was not to the credit of the party that its stump speakers again made use of the Riel cry, to influence voters against the Government.

Aside from these considerations as to Russell, the result of the two elections is that the strength of the parties in the House is not effected by them, and that two Liberals, who had been unseated, were re-elected, one with a decreased majority and the other by an increased majority. The Liberals have not gained a seat from the Conservative party in Ontario since the general election, while the Conservatives have won seats from their opponents. Under these circumstances the Conservatives can afford to permit the Opposition to extract what comfort they can out of Kent and Russell.

THE Peterborough REVIEW excuses the eccentric conduct of Mr. Hale, of Carleton, by declaring that he "was not elected to support unrestricted reciprocity." The member and the organ have different views on the point.—Toronto Globe.

The REVIEW does not think it necessary to excuse any member for voting against Sir Richard Cartwright's attack on the National Policy. We repeat that the Liberal members were not elected to support unrestricted reciprocity; that in voting to continue the present fiscal policy a Liberal member would be carrying out Mr. Blake's pledge, made on behalf of his party, and and repeated and emphasized by other Liberal leaders, including the Hon. Oliver Mowat.

A CRAZY COW.—On Monday evening about five o'clock Mr. Geo. Stacey was driving a cow out Ontario-st. to his slaughter house, to kill her, when the beast became fractious. It tore around the road and made things decidedly interesting for the people in that neighborhood for a time. It rushed around until it seemed to go mad and dashed at Mr. Stacey, who dropped the rope and hurriedly adjourned to the other side of the fence. The infuriated animal then turned its attention to other quarters. Mr. James Curry was standing at the corner of Ontario and and Hope-sts. with a hoe in his hand, watching the fun. Nothing could be seen but a cloud of dust, but the the cries of Mr. Stacey warned Mr. Curry of the impending danger. The cow struck him in the back with her horns and tramped on him before it continued its course. Mr. Curry was carried into his house and will feel the effects of his encounter for some weeks.

CAPT. UGLOW'S DISAPPEARANCE.—It was one year ago last November that Capt. Uglow disappeared, while in Oswego harbor with his schooner. It was a dark night and Capt. Uglow had been on shore, and while returning must have stepped off the dock into the harbor, as a hole was found in the ice next morning. There was a thousand dollar insurance policy in the Ætna Life Insurance Company, of Hartford, Conn., on the captain's life, but owing to the mystery that shrouded his disappearance and the failure of all attempts to find the body, the Insurance company did not feel disposed at the outset to pay the policy. Capt. Uglow was a member of the Orange Order and the interest of the Order was directed to his widow. Mr. E. J. W. Burton therefore espoused her cause and after eighteen months of fighting the company at last consented to pay the claim. On Tuesday morning Mr. Burton received a cheque for one thousand dollars from the company. It was a kindly solicitude on the part of Mr. Burton and a fair settlement by the company.—Times.

ALMOST DROWNED.—On Tuesday a little son of Major McLean fell into Beamish's millpond, and would have been drowned but for the prompt assistance of "Ems," a son of John Paterson. Little McLean had sunk for the second time when Paterson jumped into the water and rescued him. The rescuer has a record that he has reason to be proud of and which should be recognized by some public presentation of a medal. If what we hear is true, he has now saved three lives.—Times.

DANGEROUS FOOD ADULTERATION.

The Fraudulent use of Alum and Lime in Cheap Baking Powders.

If consumers prefer to buy an adulterated article of food because it can be had at a lower price, they undoubtedly have the right to do so, provided the adulterants are not of a character injurious to health. If such articles are not falsely sold as pure, and the costomer is not deceived as to their real character, the transaction is not illegitimate.

But the great danger in the traffic in adulterated food arises from the deception that is practised by manufacturers usually classing such goods as pure. This is almost invariably done when the adulterant is one that is injurious to health. For instance, manufacturers of alum and lime baking powders not only fail to inform the public of the real character of their goods, but carefully conceal the fact that they are made from these poisonous articles. Most of these manufacturers also claim that their articles are pure and wholesome, while some go still further and proclaim boldly that they are cream of tartar goods, or even the genuine Royal Baking Powder itself. No consumer will buy alum baking powder knowingly, for it is well understood that they are detrimental to health. The sale of lime and alum baking powders as pure and wholesome articles is, therefore, criminal, and it is satisfactory to notice that several persons engaged in such sale have already been brought to justice in the courts.

The officials analysts have recently been active in the pursuit of these dishonest articles. The baking powders of several States have been carefully and critically examined. The officials are surprised at the large amount of lime and alum goods found. It is a suggestive fact that no baking powder except the Royal has been found without either lime or alum, and many contain both. Dr. Price's baking powder has been found to contain nearly 12 per cent. of lime; Cleveland's 11 per cent of impurities; the phosphate powders over 12 per cent. of lime.

The chief service of lime is to add weight. It is true that lime, when subjected to heat, gives off a certain amount of carbonic acid gas, but a quick-lime is left—a caustic of most powerful nature. A small quantity of dry lime upon the tongue, or in the eye, produces painful effects; how much more serious must these effects be on the delicate membranes of the stomach, intestines and kidneys, more particularly of infants and children, and especially when the lime is taken into the system day after day, and with almost every meal. This is said by physicians to be one of the causes of indigestion, dyspepsia, and those painful diseases of the kidneys now so prevalent.

Adulteration with lime is quite as much to be dreaded as with alum, which has heretofore received the most emphatic condemnation from food analysts, physicians and chemists, for the reason that while alum may be partially dissolved by the heat of baking it [illegible] to destroy or change the na[illegible]ime so that the entire amount in the baking powder passes, with all its injurious properties, into the stomach.

The large profits from the manufacture of lime and alum baking powders has placed many of them in the market. They are to be found in the stock of almost every retail dealer, and are urged upon customers calling for baking powders upon all occasions. Because of their well-known detrimental character it is desirable that prompt means be taken to suppress their manufacture.

Pure baking powders are one of the chief aids to the cook in preparing perfect and wholesome food. While those are to be obtained of well-established reputation, like the Royal, of whose purity there has never been a question, it is proper to avoid all others.

Racing in England.

LONDON, May 10.—This was the third and last day of the Chester Meeting. The stake features to-day were the Dee Stakes for 3-year-olds, the Ormonde Two-Year-Old Plate and the Great Cheshire Handicap Stakes at one mile and a quarter. HAMILTON 3, TORONTO 2.

THE CHAMPIONS BEATEN IN THE FIRST CANADIAN STRUGGLE.

One of the Finest Exhibitions of Baseball Ever Witnessed in Canada—Yesterday's Games Abroad

HAMILTON, May 10.—About 2 o'clock this afternoon it was easily ascertained that something more than ordinary was going to take place. Crowds of people began to gather around the Royal and St. Nicholas hotels. The red coats of the 13th Battalion band could be discerned, but the most interesting parties were the Toronto Baseball Club and the Hamilton ditto in their new uniforms. At 2.30 the clubs proceeded to fill the vacant seats of six cabs, four in each, and headed by the band took a view of the city, after which they proceeded to the park and performed one of the finest exhibitions of ball-playing ever witnessed in this city.

Although Hamilton both out-fielded and out-batted the Torontos, yet the Hams had no walk over. For the first four innings everything was a blank. Although some brilliant plays had been made no run had been scored. In the fifth Atkisson let Andrus get his base, after two men were out, on balls, from which he stole second and third. Rainey then went to bat, made a hit and let Andrus in. Rainey managed to get second, but Knight was put out by a brilliant play of McLaughlin's in the swing to Harnett.

In the sixth Swartwood went to bat and was put out at first. Here Hamilton commenced to do their slugging. Visner went to bat and knocked the ball for first base. Wood followed with a two-bagger, bringing Visner home, and Mansell made a hit good enough to bring home Wood. Phillips knocked a liner to Kearns, who by an excellent pick-up threw it to Hartnett, who threw it to Decker just in time to put Mansell out before crossing the plate. This finished the scoring for the Hams. Up to the eighth inning it looked as if it was going to be a blank for Toronto, but in this inning the boys seemed to find the ball. Rickly went to bat and hit the sphere for one base, and was followed by McLaughlin with a two-bagger, bringing him home. Kearns elevated the ball into left field, but Knight caught it, but not in time to save McLaughlin getting third. Here Atkisson made a sacrifice hit, bringing in the second run. Greer was caught by Knight, this retiring the side and finishing. The scoring, the heavy batting and superior pitching of "Pete" Wood was the feature of the game. As for brilliant plays every player had his share. Score:

BREAKFAST.

"By a thorough knowledge of the natural laws which govern the operations of digestion and nutrition, and by a careful application of the fine properties of well-selected Cocoa, Mr. Epps has provided our breakfast tables with a delicately flavoured beverage which may save us many heavy doctors' bills. It is by the judicious use of such articles of diet that a constitution may be gradually built up until strong enough to resist every tendency to disease. Hundreds of subtle maladies are floating around us ready to attack wherever there was a weak point. We may escape many a fatal shaft by keeping ourselves well fortified with pure blood and a properly nourished frame."—*Civil Service Gazette.*

HOUSEFURNISHINGS.

At this season many Housekeepers are replenishing their supplies of Tableware and China. City folk are furnishing summer cottages; country folk are filling up the dressers and cupboards of the old homestead; town's folk are picking and choosing here and there. Many would be glad to know of a place whose special business is to meet these wants and desires; that aims to furnish essentially good wares at consistently low prices; that offers the choice of many different dinner services, and yet does not compel you to take an entire set of any pattern, but allow you to select each course of a new design, or buy any portion of the set you may need; that does not try to impose ideas or wares upon purchasers, and yet is ready to advise which of the many wares is most desirable and suitable; and, if wished, will make a careful selection of pattern. When you want Tableware will you give us the opportunity to serve you.

For Young Men.

The Rev. A. B. Mackay, of Montreal, will address a young men's meeting in the Y. M. C. A. hall, on Sunday afternoon at 4 o'clock. The rev. gentleman is and active and popular worker among young men in the commercial metropolis.

Are We Progressing?

Peterborough has the reputation of being a progressive town, but a visitor to the north-west end of the town at present will be impressed with the idea that we are retrogressing. A short distance north of the fine residence of Mr. W. H. Moore a log house, one story and a half in height, is in course of erection. It is of the regular old fashioned style and is a decided novelty.

Business is Business.

The Lindsay Watchman says:—"A gentleman doing business on Kent st. was notified a few days ago, by one of our banks, that his account was overdrawn *one cent*. The notice was posted to the gentleman, costing one cent perhaps. On going to the bank the customer said to the cashier, why did you not put that one cent postage stamp to my credit, and save trouble and expense of writing. Oh! replied the banker, that would not be business you know."

Local Legal.

At Osgoode Hall, Toronto, on Thursday, the following case of local interest came up:—"Robinson v. Leary.—Appeal by plaintiffs from the judgment of Ferguson, J., in an action of ejectment. Judgment reserved. Cassels, Q. C., and Peck (Peterborough) for appellants. Nesbitt and Edmison (Peterborough) for respondents. The plaintiffs, representatives of the late Edmund Chamberlain, relied on a deed of the land in question given by the defendant to the said E. C. in 1869. The defendant pleaded the Statute of Limitations, and, further, that the deed was merely a security for advances made by E. C. to him at that time. The trial judge ruled in favor of the defendant on the latter point, holding the deed to be merely a mortgage, and directed a reference to to L. M. to take accounts."

A Landmark Gone.

About 8 o'clock this morning fire was discovered in the old frame house, on the bank of the river, just below the market. The firemen were out in good time, but the building was pretty well destroyed. It was owned by the Chamberlen estate and was not insured. The loss is not heavy. Tinker "Jimmy" Watson, who lived in it all winter moved out on Thursday. Some furniture that remained in the place was carried out. It is said that the house was erected about 1841 and was first occupied by the late Adam Scott, one of the original settlers of Peterborough.

In the spring, hundreds of persons suffer from boils, carbuncles, and other eruptive diseases. These are evidences that the system is trying to purge itself of impurities, and that it needs the powerful aid which is afforded by the use of Ayer's Sarsaparilla.

Personal.

The Rev. Prof. Wallace, of Cobourg, is in town. He will occupy the pulpit of the George-st. Church on Sunday.

The Rev. S. J. Thompson returned on Thursday evening from Cobourg. It has been arranged that Mr. Thompson will take charge of work in British Columbia after the end of the conference year, and he has been transferred by the Superintendents to the British Columbia conference to take effect on July 1st. Mr. Thompson will be ordained at Lindsay in June, and will probably be the only member of the ordination class in the Bay Conference this year.

On Their Trip.

The members of the Street and Bridge Committee were to meet at the Council Chamber at 9 o'clock this morning, for the purpose of starting out on their annual tour of inspection, under the guidance of Chairman Cahill and Inspector Pope, but at the appointed hour only one member was present. Shortly before ten, however, a start was made, a swell hack furnishing the carrying power. The intention is to visit all portions of the the town and report what new work and repairs they consider necessary to put the streets, bridges and sidewalks in a first-class state of repair.

3,000 boys and girls in Peterborough have voted that The Pantry is a grand institution for supplying their wants. d107

A Colored Missionary.

The Rev. L. B. Anderson, a colored clergymen, representing the missionary society of the British Methodist Episcopal church, arrived in town this morning to solicit aid for the society. The work of the church is principally among the colored people and in Ontario it is strongest in the western and northwestern portions. Mr. Anderson has a certificate from the officers of the church and endorsations from well-known clergymen of various places. He lives in London and among the names on his list are those of the Mayor and other prominent citizens of that city.

For Children Starving to Death

On account of their inability to digest ordinary food, Scott's Emulsion can be digested and give strength and flesh when all other food fails. See what Dr A. H. Peck, Penn. Med. Put up in 50c. and $1 size.

ARE THEY BURGLARS?

SOME PARTICULARS REGARDING THE FOUR MEN CAPTURED.

The Articles Found Did Not Belong to Mr. H. LeBrun—The Quartette Remanded as Vagrants—Three Other Places Entered.

Ever since the burglary at Hilliard's Mill, people have been on the lookout for suspicious characters and as tramps were numerous, particularly in the outskirts, citizens kept reporting to the police continually the movements of suspects. On Monday or Tuesday the officers observed four hard looking customers and it was decided to watch them. They were seen to leave town and it was thought that we were rid of them, but like bad pennies they cropped up again, but this time they hunted grub in couples. Two of the sharpest looking travelled together, one looking for a job as moulder and the other as a plumber. The others posed as scissors sharpeners and travelled all over the town.

On Wednesday evening two of them were seen at the C. P. R. station, evidently waiting an opportunity to jump an east bound freight. As the men were civil and doing no harm they were not arrested. Early on Thursday morning Mr. Henry Gordon informed Officers Stewart and McGinty that two suspicious looking characters were lying in the bush, in the rear of Mr. M. Bolton's, just south of where the C. P. R. crosses the "drain road." The Chief was informed of the fact and he determined to investigate. He took three officers and Mr. H. LeBrun with him and walked south.

THE ARRESTS.

Upon arriving near the place two men were seen reclining, in their shirt sleeves, on a bed made of brush, etc. The officers surrounded them and approached cautiously, not knowing what kind of customers they had to deal with. The men were taken entirely by surprise, Officer Stewart arresting both at once. The prisoners jumped sundenly and looked dazed, but a cane in the hands of the chief held threateningly over their heads had the effect of luging them to their senses and they submitted to being handcuffed together without a murmur. They were then marched up town, after their clothes and sundry other articles found lying around had been gathered up.

WHAT WAS FOUND.

In the coat pocket of one of the prisoners was found a silk handkerchief which Mr. LeBrun was inclined to think was one of those recently stolen from him. There was also a pair of fine black kid gloves in another coat and a second pair of kid gloves was found lying on the ground. A lot of empty cartridge shells, 32 calibre, were also found lying scattered around on the ground. A quantity of soap, copies of the REVIEW and Examiner, of Wednesday night, combs, tobacco, matches, pipes and some other small articles were also found. All these were gathered up and made into a bundle.

IN THE CELLS.

The news spread with lightning rapidity that the perpetrators of the recent burglaries had been captured with the stolen goods on them, and the march of the officers along the street partook very much of the proverbial triumphal march. Arrived at the police station the prisoners were thoroughly searched, nothing contraband being found. After being questioned and registered as vagrants they were placed in the cells, an enormous crowd being outside, while the inside was filled with councillors and leading citizens, all eager to obtain a look at the suspected individuals.

While looking over the effects of the prisoners, officer Adams came across a pipe owned by him, which had been stolen from the police station, on Tuesday night or Wednesday morning. The prisoner on whom it was found slept at the station on Tuesday night, as a tramp, and no doubt he stole it.

TWO MORE IN.

In the meantime officer McGinty, who had been on a still hunt in the south end, corraled the scissor grinders and after a long and tedious tramp, he and officer Adams arrested them and lodged them in the cooler. On one was found a bunch of keys, all sizes, and numbering ten, while his partner had two files, with which he sharpened scissors. They were also registered as vagrants.

NOT IDENTIFIED.

About 7 o'clock in the evening Mr. H. LeBrun visited the Chief's office and after carefully examining the goods found, he said he could not identify the handkerchief and the gloves were not his. He also knew nothing about any of the clothes found.

COMMITTED AS VAGRANTS.

About 8 o'clock Police Magistrate Dumble arrived at the police station and opened court.

Wm. Scott and John Sullivan, the first two arrested, were charged with vagrancy. Each pleaded guilty and at the request of the chief they were remanded for a week.

Thomas Filz and Joseph Thorp were charged with a similar offence. They pleaded not guilty and were remanded until Monday next.

Scott and Sullivan are two sharp looking men about 35 and 32 years of age respectively. They claim to be tradesmen on tramp. Both are intelligent and were fairly well dressed, but still they have that rakish look about them that comes from the life they have been leading.

Filz is a little red headed Englishman, who has evidently seen better days and when he got his clothes brushed and himself washed he looked quite respectable. Thropp's accent denotes that he is a Scotchman and he looks more like a genuine tramp than any of the other three.

The quartette were placed in the gaol about nine o'clock.

AT COL. H. C. ROGERS' RESIDENCE.

Yesterday afternoon Mr. H. C. Rogers, Postmaster, discovered that his residence in Ashburnham had been entered by burglars. Mrs. Rogers has been away visiting and there had been no one in the house for some days. On going over yesterday Mr. Rogers' son noticed that a trap door had been opened and reported the fact to his father. Mr. Rogers went over and found that the house and been ransacked from top to bottom. The thieves had apparently effected an entrance by opening the trap door leading into the cellar. From the cellar they went into the house above. The drawers of the bureaus were taken out into a hall, where a light could not be noticed so readily from the outside, and there they were thoroughly searched, but with little or no advantage to the burglars. After rummaging the rooms upstairs, or before doing so, the drawing room was visited and the drawers of a desk searched for valuables with the same result as the search through the other drawers. The found nothing but papers of value only to the owner. From a closet, in which everything was upset, they took some men's clothes and boots, including a pair of the colonel's cavalry boots, about the only things Mr. Rogers well seriously miss, as he had the boots "broken in" and had worn them on several occasions. In the cellar there was a bin containing jam, covered with straw. It did not appear to have been disturbed, but a closer inspection showed a broken empty jar and another about half emptied—the thieves had had a gorge. They were undisturbed in their work, had full possession, came uninvited and left as they pleased. It is not known which night they made their visit, except that it was within the last few days previous to discovery. The burglars evidently did not desire bedding or linen, as the linen closet was not disturbed.

LEFT NO CARDS.

At an early hour this morning some person entered the dwelling of Mr. R. Wainwright near the Roman Catholic Cemetery, but the barking of several dogs scared the intruder away, without carrying anything off.

HUNTED AWAY.

On Wednesday evening a black faced individual was prowling around the premises of Mr. W. E. Sherwood. A domestic saw him and the dogs hunted him, and he made his escape.

NOTES.

It was expected that firearms would have been found on some of the prisoners.

It was reported that a boy had picked up a new silk handkerchief where the men were lying, after the police had left, but the rumor lacks confirmation.

The police went down a second time and made a thorough search of the neighborhood where the men were sleeping, but nothing whatever was found.

In the cells, the two pairs did not appear to know each other and did not converse.

Another report is that after the first two men were captured a third was seen running out the gravel road at a great speed and it is said that a shot was heard.

The police are fairly pestered with people who have clues and they are tired listening to them. There are a thousand and one stories in circulation, nearly all of which are myths.

There are grave doubts that the crown will be able to convict the men in custody for any thing but vagrancy and the impression is abroad that the police are barking up the wrong tree.

Many ladies admire gray hair—on some other person—but few care to try its effects on their own charms. They need not, since Ayer's Hair Vigor restores gray hair to its original color. Sold by druggists and perfumers.

What a Time

People formerly had, trying to swallow the old-fashioned pill with its film of magnesia vainly disguising its bitterness; and what a contrast to **Ayer's Pills**, that have been well called "medicated sugar-plums"—the only fear being that patients may be tempted into taking too many at a dose. But the directions are plain and should be strictly followed.

J. T. Teller, M. D., of Chittenango, N. Y., expresses exactly what hundreds have written at greater length. He says: "Ayer's Cathartic Pills are highly appreciated. They are perfect in form and coating, and their effects are all that the most careful physician could desire. They have supplanted all the Pills formerly popular here, and I think it must be long before any other can be made that will at all compare with them. Those who buy your pills get full value for their money."

"**Safe, pleasant, and certain** in their action," is the concise testimony of Dr. George E. Walker, of Martinsville, Virginia.

"Ayer's Pills outsell all similar preparations. The public having once used them, will have no others."—Berry, Venable & Collier, Atlanta, Ga.

MONA'S CHOICE.

BY MRS. ALEXANDER.

"He has little enough for himself, and never forgave me for adopting Mona."

"But, my dear madame, some steps must be taken to provide for the future."

"I wish Nature would provide for me," returned Mrs. Newburgh, with a deep sigh; "I am a helpless incumbrance now."

"I am sure no one else thinks so," said the solicitor, soothingly. "Is there not some balance at your bankers that you might place in—say Sir Robert Everard's hand, just to secure some ready money?"

"I will see; I will look into my accounts but for the present I am too tired to discuss anything further."

* * * * * * * *

The fourth day after her return home, Mona was as usual in attendance on her grandmother, and making out a list of such necessaries as they might take with them, when two letters arrived by the second delivery. One was from Sir Robert Everard—a distant cousin of Mrs. Newburgh's—and offered her a cottage which used to be occupied by one of the curates of the parish, requesting that she might remove some of her furniture there before the final crash came, and adding much kindly counsel. The other was in a big, firm but unknown hand. Mona turned to the signature—it was "Leslie Waring." She had almost forgotten him in the painful excitement of the last few days, though the bitter remembrance of Lisle's advice never left her. Every night when she had read or softly talked her grandmother to sleep, when all was still and dark, she lived over again the fiery ordeal of that conversation in the train, and looked, shuddering, at the dreary, lonely future, through which she must do battle alone. To whom could she turn, on whom could she lean, when the man who seemed to hang on her words—whose eyes spoke the warmest devotion, shrunk from her at the first mutterings of the storm? But as to when Mr. Waring would declare himself, or whether he ever would, she gave no thought. Now the momentous question on which she would be called to decide stared her in the face, and filled her soul with fear and disgust.

"I cannot read this letter to you, grannie: could you read it yourself?"

"Why? What is it?"

"It is marked private, and is, I see, from Mr. Waring; do you remember him?"

"Yes, I do! Give it to me. Where are my glasses?"

Mona sat and watched the haggard, hopeless face, as her grandmother perused the lines, gradually growing less drawn, less despondent, while her whole heart sunk lower and beat faster.

"Thank God," murmured Mrs. Newburgh at last, heaving a deep sigh as she laid down the letter; "all is not quite lost yet." Mona did not speak. "Mona! read it," she continued; "I suppose you know the contents; read it, I say," repeated Mrs. Newburgh, impatiently.

Mona took it and read with nervous rapidity:

"DEAR MRS. NEWBURGH:—I venture to trouble you with a letter, because I have twice tried in vain to see you or Miss Joscelyn. I feel it is awkward and difficult to approach the subject on which I am about to address you, when I have had so few opportunities of making myself known, but I earnestly hope you will exonerate me from the charge of presumption, and that Miss Joscelyn will not refuse to let me explain myself to her personally. If I dare to be somewhat premature, it is because I believe I might be of some use in the present crisis, were I so fortunate as to be accepted by the lady to whose hand I aspire. Indeed, under any circumstances, I should be proud to be of the smallest service to you, and beg to assure you that I am ready to meet your wishes in all ways. Looking anxiously for your reply,

"I am yours faithfully,

"LESLIE WARING."

"A very good letter," said Mrs. Newburgh, with a little gasp, looking with pitiful, imploring eyes at her grandchild.

"I wonder if he composed it himself," observed Mona, quietly.

"My child, could you make up your mind to marry this young man? I have noticed his admiration of you. He writes like an honest gentleman. Let me have the comfort of knowing that you have escaped the ills of poverty."

"Oh, grannie, it is a tremendous price to pay for safety! Mr. Waring may be a better man than I deserve; but I do not care for him. He seems to me an awkward big boy—dull and unformed."

"I leave it to yourself. I am such a failure, I dare not urge my advice on any one. I was too urgent with your mother. Do as you will, Mona."

"Oh! what ought I to do?" exclaimed Mona. "It is awful to think of spending one's whole life with a man to whom you are indifferent; it is cruel to refuse the only efficient help for you, dear grannie."

"Think of yourself—yourself only; as for me, I—" her voice grew feeble, her words inarticulate, her head fell back, and to Mona's dismay she became insensible.

All other considerations were forgotten in the efforts to recover her. The faithful Wehner went swiftly for the doctor, who happened to have returned from his morning rounds and came at once.

"It's a bad business these repeated attacks," he said to Mona, after he had seen his patient. "Her nerves are all wrong. Her mind must be kept at ease somehow. Get her out of this!"

"We expect Sir Robert Everard the day after to-morrow, and then we shall decide what to do," faltered Mona.

"The sooner the better, my dear, young lady," returned the doctor, who knew Mrs. Newburgh well. "She will go off in one of these attacks, or her mind will become seriously impaired. A woman of her age can hardly stand the shock of such a revulsion. Keep her very quiet she seems drowsy—the best thing for her is a good sleep; do not leave her; she must be watched. I will look in this evening about seven."

Mona's thoughts were sorely troubled as she kept watch at her grandmother's bedside. She knew that her marriage with Waring—or even the prospect of it, would be the best restorative for her only friend, the woman who had been a mother to her, who had saved and worked to amass the means of independent existence for her, who had loved her after her own hard but tenacious fashion. She recalled, with a swelling heart, her grandmother's watchful economy, her self-denial in all things necessary to herself. She did not doubt than any niggardliness toward her grandchild was for her future good. How wise and judicious she had been in her guidance of their lives. If she had shown too strong a tendency to marry her granddaughter as soon as possible to the highest bidder, she only acted according to her lights—to the creed of her world and her period. Was it well for Mona to refuse the means of giving her a longer and brighter spell of life? Dare she incur the responsibility of her possible death? What would she gain—what had she to hope for, in an unmarried life, that she should reject this kind-natured man who only asked leave to devote his fortune to her services? With the tendency of youth to believe in the perpetuity of the present, she thought that love with her was over forever. She could never believe anyone again. She was not angry with Lisle, so much as disenchanted; her anger was more against herself, for her weakness and credulity.

To be continued.

Give them a Chance.

That is to say, your lungs. Also all your breathing machinery. Very wonderful machinery it is. Not only the larger air passages, but the thousands of little tubes and cavities leading from them.

When these are clogged and choked with matter which ought not to be there, your lungs cannot half do their work. And what they do, they cannot do well.

Call it cold, cough, pneumonia, catarrh, consumption or any of the family of throat and nose and head and lung obstructions, all are bad. All ought to be got rid of. There is just one sure way to get rid of them. That is to take Boschee's German Syrup, which any druggist will sell you at 75 cents a bottle. Even if everything else has failed you you may depend upon this for certain.

MR. ONGA'S QUESTION.

A Foo-Cho Delegate Puts a Puzzler to the M.E. Conference.

NEW YORK, May 10.—This was the ninth day of the Methodist Episcopal General Conference. Bishop Fowler presided and Rev. D. W. Hayes, a colored delegate from Tennessee, conducted the devotional exercises. Bishop Andrews announced a number of committees. Bishop Foss read a report of his visit with Albert S. Hunt as fraternal delegates to the British Wesleyan Conference and the Irish Wesleyan Conference in 1886.

Rev. E. A. Stafford of Toronto was introduced as a fraternal delegate representing the Methodist Episcopal Churchin Canada.

Rev. Dr. J. H. Bayliss introduced a resolution calling on the Committee on Judiciary to define what the constitution really is.

Rev. Dr. L. L. Fish of Michigan offered a resolution protesting against admitting Utah as a state until conclusive evidence is shown that polygamy has ceased to exist among the people there. It was adopted.

Mr. Onga, delegate from Foo-Choo, presented a memorial asking if converts from heathenism having more than one wife can still retain more than one wife and at the same time be good Methodists. The matter was referred to the Committee on the State of the Church.

Lay Delegate Pullman moved that a committee be appointed on unacceptable preachers.

The house voted to go into the election of bishops and of officers of the General Conference on May 17.

Will Beat Albert's Record.

NEW YORK, May 10.—The score at 8 p.m. to-night was as follows: Littlewood, 419; Guerrero 400; Hertz, 396; Golden, 369; Hughes, 362; Noreman, 362; Dillon, 347; Campana, 264.

Campana, who was reported out of the race this morning, returned at 7.10 this evening, and said he was going to walk for fun. Jack Smith claims that Guerrero can make 85 miles tomorrow, and 85 on Saturday, which Smith calculates will make his score at the end of the race 648 miles, thus beating Albert's record.

AS MUCH A SECRET AS EVER

To the Editor of the Review:—SIR—How in the world has C. B. ROUTLEY jumped into such a big slice of Wall Paper trade? Why, it seems as if one couldn't pass his store without running against a load of Wall Paper in the arms of some pleased looking customer. I'm half inclined to think there must have been lots of boodle in the Wall Paper business before ROUTLEY started it and that the people have found out that he has broken the combination. Eh? what did you think, Mr. Editor? And yet you occasionally hear of spasmodic attempts to get down to ROUTLEY'S prices, in order to head him off; but still it seems as much a secret as ever how he keeps up the run

TURNBULL'S.

We wish to call your attention this week to our Large Stock of Black Cashmeres. They range in price from 25 cents a yard up to $1.25. The one at 25 cents is a good black with sightly appearance which is all we say about it. But when you advance to 45 cents you have a nice rich color, particularly suited for mourning, good weight and fully 44 inches wide. At 50, 60, 75, 85, 90 and $1.00, we have a new line by a French maker which is much nicer than the old make and deservedly popular, being much finer in appearance, more like a Henrietta. To be had in blue and jet black.

GERMAN CASHMERES.

These Goods are made in Saxony where the makers vie with each other in producing a superior article. We have secured a make that cannot be spoken of too highly. It is a double warp and finished like a satin. They are now open for inspection, (on 3rd counter to left from George-st. entrance).

In our Custom Made Tailoring Department we show a nice range of Pantings, Worsted Suitings, Light Overcoatings, etc. Only first-class work turned out. (2nd counter to the right.)

Early last fall when the public began gathering around their stoves and were thinking about Flannels and Blankets, we were looking ahead and gave large orders with the leading manufacturers of Chambrays, White and Colored Muslins, Lawns, etc. These Goods are now in stock, and will be found on the first counter to the right.

Our first stock of Sailor Hats has been bought up rapidly which is sufficient evidence that they are the correct thing. Our second shipment, bought at a much lower price is now in. All sizes and styles to choose from. The prices will please you when you see the styles and quality.

MANITOBA'S FINANCES.

Treasurer Jones' Budget Speech — Loose Bookkeeping and Defalcations.

WINNIPEG, May 11.—In his Budget speech this afternoon Treasurer Jones made some of the promised revelations. A full audit could not be obtained for lack of data, but sufficient had been learned to justify all the charges made against the late Government, which many supposed exaggerated.

No cash book was kept in the Treasury Department and for fifteen months the appropriation book was not written up for the guidance of the Provincial Auditor. The bank book was loosely kept.

Both Harrison and Greenway failed to negotiate a loan, and he succeeded in getting a temporary one, afterwards making a fair arrangement. The school grants were not paid in full although the late government paid themselves and friends.

It would take $317,000 to pay the current liabilities of the Province, whose assets he estimated at a little over $4,000,000.

Negotiations for $1,500,000 loan were entered into quietly, he fearing interference of the Dominion Government as in Norquay's case, where the bonds sold at 2½ premium, and afterwards were declared off because the Dominion advised the purchasers, Morton, Rose & Co., that they disapproved of the purpose for which the loan was floated.

The estimates presented amount to $502,098, which with sums specially authorized amount to over $700,000.

All the deputy heads are cut off and chief clerks substituted at lower salaries. The educational grant is increased to $120,000 and printing is reduced from $20,000 to $9600. The lumber clerks are dismissed and several positions abolished.

After recess Treasurer Jones exposed the printing scandal. When work was supposed to be done by the Canadian Printing Company of St. Boniface it was really done by Lovell of Montreal and double prices charged the Government. Even freight was asked on work from Montreal to Winnipeg.

He said the Government paid for telephones in ministers' private residences. Moneys received by the Agricultural Department were retained by officials for nearly two years and only paid back when the new Government came into power. Interest on moneys deposited was considered perquisites by officials and the law changed so that money could be manipulated by Ministers personally for their own personal benefit.

The Liquor License Department was run recklessly and no books kept, there being a shortage of $1191. The defalcation of the late Queen's printer reached $13,000.

He claimed great saving would be effected in all departments, and after all there would be a surplus of $37,000 over expenditure.

Mr. Norquay rose to reply at 10.30. He expressed surprise at the statements of the Treasurer, and deeply deplored the state of affairs, expressing regret that the persons charged were not present to answer the accusations.

ST. JOHNS, Nfld., May 11.—The Fisheries Treaty has passed both Houses of the Legislature.

THE C.P.R. ARRANGEMENT.

SIR CHARLES AND THE MONOPOLY SURRENDER AGREEMENT.

The Confirmatory Resolutions Before the House in Committee—The Finance Minister's Speech—Mr. Laurier Offers an Amendment which is Lost on a Division, 63 to 111.

OTTAWA, May 11.—Sir Charles Tupper today introduced a bill to amend the Insurance Act, so as to authorize companies incorporated in the Provinces to transact business throughout the Dominion on payment of a deposit to the Government.

Sir Charles then moved the House into committee on the resolutions to confirm the recent agreement with the Canadian Pacific Railway Company. He reviewed the history of this great enterprise, and especially the facts connected with the monopoly privileges. He reminded the House that when in 1884 Parliament was asked for an additional loan for the railway he had expressed the hope that upon the completion of the line north of Lake Superior it would no longer be necessary to continue the policy of disallowance of other railways between the Canadian Pacific Railroad and the border. He had spoken in all candor then, but the changed conditions which had followed had brought disappointment to him, as to the rest of the House.

Three abnormally bad seasons had occurred. There had been a want of acquaintance on the part of persons going out into that country as to the best means of avoiding the loss of crop and as to early seeding and the use of good seed. There had been the lamentable outbreak, which had a most disastrous effect upon the settlement of the country. So the Government had been compelled to abandon the hopes they had entertained and to relinquish the idea of abolishing the disallowance policy. This they considered was to the interest of Canada as a whole as well as of that country.

This expression of hope on the part of the Government had been particularly dwelt upon since the expression of it had been made in connection with the loan of $30,000,000 to the road, a loan which they had been told might be considered as a gift, for it was predicted that it would never be returned, like the former loan to the Grand Trunk. But it had been returned, $20,000,000 in cash and $10,000,000 in land.

But just as the Government had last year found themselves in a position to make it desirable to continue the monopoly, this year the conditions were of the opposite character, the large crop of last season having entirely altered the conditions. The best estimate he could obtain of this crop had been as follows:

	Total Crop.	For Export.
Wheat, bush	12,860,000	10,613,000
Barley	2,263,000	1,130,000
Oats	5,780,000	2,890,000
Flax	180,000	150,000
Total	21,083,000	14,783,000

The terms they asked were a guarantee upon the loan required to put the road in condition to handle the immense traffic which had been developed, and which with the Government guarantee the company could obtain at a reasonable rate of interest. The Government had accordingly consented to guarantee 3½ per cent. interest for fifty years on $15,000,000 in bonds to be issued, the money so raised to be spent in putting the road in such condition that it could meet all competitors. The Government had felt that in doing this they were putting the railway in a position to bring Canadian traffic over Canadian lines to Canadian ports.

To pay the interest guaranteed would require $525,000 a year, for which most ample security was given by the company. First, they were given the custody of 15,000,000 acres of land which, when originally granted to the company, were valued by the Liberal party at $3 per acre; while between 3,000,000 and 4,000,000 acres, which the company had sold, actually averaged $3.12 per acre. The mortgage burden upon these 15,000,000 acres offered as security was only $1.15. Every dollar to be received for the sale of these lands would be paid to trustees, one of whom would be a member of the Government, and would be applied towards paying the principal for which these bonds were issued.

At the same time there was no reason whatever to doubt the ability of the company to themselves provide for the interest without any recourse to the security given. The success of its operation had been phenomenal; the surplus revenue for last year's operations had been $2,450,000, and for this year the first three months showed an increase of $238,000 in profits, so that the surplus earnings of the present year bid fair to be at least $1,000,000 more than last. He considered that there was an entire impossibility that the Government should ever be called upon to pay a cent for interest.

Mr. Laurier said the prophecies of the Government with respect to this company had so often failed of accomplishment that it was with considerable doubt he heard the prediction that the country was not to be put to a heavy expenditure on account of this agreement. This monopoly clause had been the bitterest pill which even those who favored the Canadian Pacific Railway contract had to swallow. He would not say whether or not the company had a just claim to compensation for relinquishment of the monopoly.

He read Sir John's historic declaration, "We cannot check Ontario, we cannot check Manitoba," and also a speech of the late Hon. Thos. White, to show it was the contention of the Government that they had no right to interfere with Manitoba in chartering railways within its border. He also read from The Hamilton Spectator to show that the Conservative press agreed with this interpretation of the utterances of the Premier and his Minister, yet within a few months the solemn pledge that Manitoba should not be checked was violated by disallowance of the charter granted by that province for a railway within its borders.

He concluded by moving in amendment:

1. That the exclusive privilege granted to the Canadian Pacific Railway Company by virtue of Article 21 in the agreements between Her Majesty and the company contained in the schedule to Act 44 Vic., Chap. 1, does not apply and never was intended to apply to the Province of Manitoba as it existed at the time of the passing of said act, to the Province of British Columbia or to any other province, but solely to territories over which the Parliament of Canada had exclusive and paramount legislative jurisdiction.

2. That the policy hitherto maintained by the Government of disallowing legislation by the Provinces of Manitoba and British Columbia authorizing construction within the limits of each province of railways to the boundary line of the United States, was one directly at variance with the statements of the leader of the Government when submitting the agreement for the construction of the Canadian Pacific Railway to Parliament, and has been productive of great loss and injury to said provinces and the Northwest Territories and of well-grounded discontent on the part of the people.

3. That this House, whilst ever ready to discharge honorably all engagements legally assumed by the Government of Canada with the company, regrets that the terms entered into by the Government and the company for the relinquishment of the exclusive privilege which the company maintains under said act, involve Canada in enormous contingent liabilities without providing adequate security for indemnifying the Government against the payment of the interest it guarantees and may be compelled to pay, and that this House further regrets that such terms do not provide for the expenditure of the principal moneys to be raised on such bonds in the construction of branch railways of the Canadian Pacific Railway in Manitoba, British Columbia and the Northwest Territories.

The House then rose for recess.

The speakers after recess were Messrs. McMullen, Watson and Davies for the amendment, Messrs. Amyot, Daly, Davin and Perley for the resolution, and Mr. Armstrong against both.

At 11.30 the House divided on the amendment, which was lost, 63 yeas to 111 nays.

Mr. Mitchell then addressed the House.

THE GUILELESS GRANGER.

Ontario Farmers Tell Adam Brown's Committee How They Were Taken In.

OTTAWA, May 11.—Adam Brown's "Hayfork" Committee met to-day. A letter was read by F. G. Dunstan of Britannia, complaining that he had been swindled out of $340 on seed wheat. He will be summoned to give evidence.

A. R. Kelly of Ancaster gave evidence. Oliver Perry of the Ontario Grain and Seed Company, accompanied by Elliott, a Dunham farmer, called on him saying they were connected with a new institution chartered by the Ontario Government, with whom they had deposited $35,000. Their object was to get a clean variety of seed among the farmers who wanted to increase their stock. Witness agreed to purchase 12 bushels of wheat at $15 a bushel. They were to take from him 24 bushels at the end of the year at $15 a bushel, retaining $5 as their commission. He gave his note for $180. He received a bond from Perry, stating that all transactions covered by obligation were of a speculative character, and not based on the real value of the grain. The wheat turned out a bad mixture. Perry, he learned, was now in the States, a fugitive. He had to meet the note, which was purchased by Lawyer Roaf of Toronto. It was in February this transaction occurred and in May the company burst. They paid 85c. a bushel for the wheat they sold for $15. Their headquarters were at Toronto and London. He could convict every man of them.

Levi Turner of Trafalgar had a different case. He was asked by a man named Rymal of Parkdale to act as agent for a new kind of wheat and distribute it among his brother farmers. After cropping it they were to deliver it back to him, and he was to retain half and give half to the company. Afterwards a man named Hope of Brantford came along with the wheat and orders from the farmers, on the strength of which he gave a note for $240. He found, subsequently, that the orders were not signed, and he had Hope arrested, but he was acquitted. He was given Manitoba spring wheat.

John Macpherson of Elgin had a model hay fork left in his barn for exhibition and was induced to sign an order for delivery to him as agent. Afterwards another gentlemanly looking swindler called and got him to sign two notes for $150 each as agent's security. He afterwards knew he had been taken in.

Notices from The Gazette.

OTTAWA, May 11.—The following companies have made application for letters patent of incorporation:

The Electric Construction and Power Company, capital $100,000, with places of business in Montreal, Quebec, Toronto, Winnipeg and elsewhere.

The Sarnia Towing and Transportation Company, headquarters at Sarnia, capital $6000.

A special meeting of the Grand Trunk Railway has been called for June 7 at London for the purpose of accepting or otherwise an act respecting the Grand Trunk Railway Company of Canada. Notice is given that there will also be submitted for approval or otherwise a traffic contract between the company, the Chicago and Grand Trunk Railway Company and the Toledo, Saginaw and Muskegon Railway Company.

Hagersville, Ont., is erected into an outport of customs and a warehousing port under the survey of the collector at Hamilton.

An order-in-council has been passed making changes in the registration for disposal of Indian land containing minerals other than coal in the district of Algoma.

Agriculture and Colonization.

OTTAWA, May 11.—In the Committee on Agriculture this morning Dr. Playter of Ottawa suggested some very cogent reasons for connecting many of the diseases that exist in man with the tuberculosis that exists amongst animals. Some medical men, he said, believed that disease was contracted by human beings from milk whenever the cow was tuberculous. Others entertained the view that only the presence of tuberculosis in the udder could cause this.

Dr. Ferguson (Welland) spoke upon the point whether a greater number of diseases were not communicated from lower animals than was imagined. Diphtheria, it appeared, was communicated from horses, and wherever typhoid appeared it seemed to be the fact that the milk supplied had been derived from cows fed on refuse. After some discussion, in which Dr. Wilson (Elgin) dissented from the views expressed by Dr. Playter, it was agreed to appoint this committee to enquire into and report on the matter: Drs. Ferguson, Macdonald, Wilson, Robertson, Roome, Cameron and Fiset.

Mr. Anderson of Winnipeg gave an interesting account of the progress of the Icelandic settlements in the Northwest. He said that 300 had come out last year and 1500 this year. He again urged that the Government should purchase for distribution his pamphlet on this subject.

ARCHBISHOP LYNCH DEAD.

THE VENERABLE PRELATE PASSES AWAY EARLY THIS MORNING.

A Victim of Hard Work, He Succumbs to the Grim Visitor in His 72d Year—Only Ill for a Few Days—How and When Dissolution Came—The Last Rites.

TORONTO, May 12.

John Joseph Lynch, Archbishop of Toronto, died at St. John's Grove, the archiepiscopal residence, on Sherbourne-street, at 1 o'clock this morning. His age was 72. His Grace was sick but a very few days, and his illness was known, after a brief illness only to the attaches of the palace, his physicians and the clergy. His death therefore will be a great shock to the citizens of Toronto and of the entire Dominion.

The history of His Grace's illness was very much like that of the late Hon. Thomas White. Thursday evening he returned from St. Catharines, feeling unwell. On the train en route to the city he was seized with chills, accompanied by copious attacks of vomiting. Arriving at The Grove he was utterly prostrate. Subsequently inflammation of the lungs set in, and in spite of all that the physicians could do, His Grace passed peacefully away at the hour named. He was in the full possession of his faculties up to the moment of dissolution.

Yesterday afternoon Vicars-Generals Rooney and Laurent administered the holy viaticum and anointed him for death.

What Dr. Wallace Says.

Dr. Matthew Wallace, of 128 George-street, medical adviser to His Grace, was seen by The World. "The Archbishop" he said, "was in Merriton and St. Catharine's until Thursday evening, when he returned to The Grove. He was feeling unwell the day before, and on his journey home was seized with chills accompanied by fits of vomiting. As soon as he arrived at The Grove he sent for me, but I was away at the time and Dr. Irving Cameron was summoned. He found His Grace suffering from congestion of the lungs and prostration. I saw him this (Friday) morning and remained with him the greater part of the day."

A Biography of His Grace.

Archbishop Lynch was born in the neighborhood of the market town of Clones, in the County of Monaghan, in the diocese of Clogher, Ireland, on the 6th of February, 1816. When he was about 2 years of age his parents removed to Lucan, a village situated a few miles west of Dublin, and here the future Archbishop grew up to manhood. From his earliest years he had been intended for the priesthood, and when he was about 16 years of age he commenced his classical studies under the private tuition of a B.A. of Trinity College, Dublin. He made rapid progress, and soon became an excellent classical scholar. He then entered a college of the Carmelite Brothers, near Clondalkin, where he spent twelve industrious months. In 1835 he entered St. Vincent's College, Castleknock. At this establishment he continued his classical studies with much profit and also made great progress in rhetoric, natural philosophy and metaphysics. He rose to the position of a Superior long before the period at which such a dignity would ordinarily have been conferred upon him. In 1839 he entered the novitiate of the Congregation of the Mission of St. Lazare, Paris, where he pursued the study of theology. In 1841 he took upon him the vows of the order, and in the next year received ordination at the hands of Monseigneur Affle-known as "The Martyr of the Barricades"—in the Church of St. Sulpice. He offered to go out on a mission to China. Meantime he returned to Ireland, and in 1843 was ordained deacon and priest at Maynooth College by the then archbishop of Dublin. He celebrated his first mass in the chapel of St. Vincent's College. He remained there three years, during which we went on missions to various parts of Ireland. In 1846 he went as missionary to Texas, where he spent between two and three years. In 1848 he was appointed Superior of St. Mary's Seminary of the Barrens, in Perry County, Missouri. For several years he was engaged on missions in the Western States. In 1855 he went on a special mission to Rome, upon which occasion he had a long conference with the Pope and received from him many marks of favor. Father Lynch returned from Rome in 1856, during which year, in response to the solicitation of the Bishop of Buffalo, he founded a house of his order in that diocese. He first laid the foundation of a preparatory seminary in Buffalo, but afterwards removed to Niagara. The institution is known by the name of the Seminary of our Lady of the Angels. Father Lynch's exertions on behalf of this seminary made him known to the Roman Catholic Hierarchy of Canada. In 1859 he was appointed coadjutor of the Bishop of Toronto. He was consecrated Bishop of St. Michael's Cathedral, Toronto, Nov. 20 of that year. During the following year, Bishop Charbonnel having resigned, Bishop Lynch succeeded him in the see of Toronto. In 1862 he again visited Rome on the occasion of what was known as the "Canonization of the Japanese Martyrs," and was created Prelate Assistant of the Pontifical Throne. In 1869-70 he was present at the Vatican Council, where he was appointed one of the Consultors of Foreign Missions and Oriental Rights and made a speech in favor of Papal Infallibility. On the same day on which this speech was made he had the honor of celebrating mass before the Council. In 1870, during the session of the Ecumenical Council at Rome, the ecclesiastical Province of Quebec was divided, and Toronto was named as the Metropolitan See of Upper Canada. Bishop Lynch was appointed the first Archbishop of the new See, and in that capacity took his seat in the Council, being conducted to his place by his old friend and predecessor, Bishop Charbonnel. He has since consecrated many bishops, established many institutions and again visited Rome and Ireland.

OUR IRON INDUSTRIES.

MR. W. H. LAW, of the Central Iron Bridge Works, who is thoroughly conversant with questions regarding trade in and the manufacture of iron, was interviewed by the Empire while in Toronto. Mr. Law's statements regarding the market for iron in Canada, the opportunities for manufacturing at a profit and the reason why the present policy should be maintained are interesting. It will be noticed that capitalists are afraid to come to Peterborough to establish a very valuable addition to its industries on account of the uncertainty felt outside of Canada regarding the tariff because of the efforts made by the Liberal party to have the National Policy abolished. The following is the interview as given in the Empire:—

Q.—Are your works busy now? A.—We have just completed bridges in Orillia and Lambton county, from which I am now returning. We are building two spans for Allandale and have orders on our books for two spans for Warsaw, two for Wingham, one across the Otonabee, below Peterborough, and a lot of girder and other work.

Q.—Are iron bridges becoming more in demand? A.—Yes; many councils are adopting them now for highways instead of wood on account of the low price.

Q.—How do prices compare with those before the N.P.? A.—There were hardly any iron bridges building in Canada before the N.P., but a few were imported from the United States. Under the N.P., bridge-building became thoroughly established, giving employment to a large number of men. Prices have been considerably reduced by degrees and are now lower than ever before, which enables municipalities to adopt them with advantage.

Q.—Have not the the increased duties raised your prices? A.—No, we are making cheaper than we were before, competition reducing the prices.

Q.—Then you have to bear the increased cost of material? A.—Yes, somewhat; we do not charge it to our customers, but with the increasing demand and consequent economy in manufacturing we do not feel it much.

Q.—Then the increased duties did not check iron bridge building? A.—No, there is a steadily increasing demand. Our greatest drawback is having to go so far for our iron, as we have to get it from abroad.

Q.—Then you approve of the effort to establish iron-making in Canada? A.—Yes; even if the price were the same, we could get our orders filled more promptly, carry less stock and consequently manufacture cheaper.

Q.—Should the increased duties enable iron to be made in Ontario? A.—Yes, and it would be made here if there was a certainty that the policy would be maintained. People with experience and capital would come here and establish works for manufacturing all kinds of iron. I have been corresponding as to establishing a rolling mill in Peterborough, and a letter I received lately says: "Canada would be a good country in which to establish such works, but we are afraid of a change of Government and the tariff. A million dollars invested under the present system would be all lost by such a change." That uncertainty is the difficulty to be overcome.

Q.—Could iron be made profitably here? A.—Yes, the ores are rich, and anthracite coal could be imported from Pennsylvania, or coke from Nova Scotia, to smelt our ores at or near our mines.

Q.—And with a profit? A.—Yes, if the coke were made in Nova Scotia and shipped through to this province, flour being sent as a return freight in the same cars. Coke, even at $6 to $7, will allow a good margin for profit on the iron.

Q.—It would be as good as anthracite? A.—Yes and even better, not only for manufacturing, but for cooking and heating stoves, if broken and graded for that purpose.

Q.—It has been stated that two furnaces would supply all the pig iron wanted in Canada? A.—That is absurd. We would require not only to replace the pig iron we now import, but iron in rails, bars, plates, etc. Then look at the wheels and other iron in our imported cars. There is between five and six tons of iron, wheels, axles, cast and wrought-iron work, in each car and there are many imported each year. There must be 100,000 freight cars in use in Canada. Then look at the rails, not less than 100 tons of iron to the mile, and constantly requiring renewal. Every bonused road should be bound to purchase or make its rails, cars, etc., in Canada. The consumption of iron is in fact enormous and is constantly increasing.

Q.—Then there would be no fear of a market? A.—No; there is a large market already, and every industry established would increase the demand.

Q.—Then you think we should make our own iron? A.—Yes; we have rich ores, and are sacrificing the profit of utilizing them, and the employment that would be given. For every ton of pig iron not less than $2.50 would be paid out directly in wages, besides incidental expenditures, to say nothing of the further processes.

Q.—Then you would not export our ores? A.—No; for the United States will only take the richest to mix with their lean ones, or to manufacture steel. We would have only our poorer ores left when we wanted them for ourselves, while if we smelted at home we could mix the different grades and manufacture at a profit, which we could not do with poor ores alone.

Q.—But they say our iron mines are inexhaustible? A.—So they said in Great Britain and in the United States, yet in both countries there are districts where the iron trade has almost died out because the good ore has been exhausted. Staffordshire is an example of this, and so are parts of the Lehigh Valley. If we are not now wise enough to manufacture our own iron, we should, at least, keep it till we learn to know the value of it. If we give it away to our more enterprising neighbors, we will not have the chance when we learn better.

Q.—Then we should make our own pig iron? A.—Yes, and so keep the profit and employment for our own people. That would lead to having our own bar mills and rail mills. These would encourage all industries using iron now in existence and would bring others. The use of iron would also largely increase. It would be difficult to set a limit to the encouragement and extension of our industries that would result, and an enormously increased population would obtain a living. Of course, they would have to be clothed and fed, so the farmer would come in for his share of the "boom." We are certainly wasting our opportunities.

THE LATE ARCHBISHOP LYNCH.

THE announcement this morning of the death of His Grace Archbishop Lynch was a great surprise, as few were aware that he had been ill, but the surprise gave way immediately to regret. Occupying the highest office in Ontario of the Roman Catholic Church, he held a prominent position, and his name and fame were known throughout the country. His zeal on behalf of the church and his energy in promoting its work were remarkable, and though advanced in years the venerable prelate almost literally died while actively engaged in the labor he loved.

Archbishop Lynch was a highly educated man, of cultured mind, and his writings displayed deep thought. He was of a naturally kind disposition, liberal and charitable, and affliction or trouble did not appeal to him for comfort or for aid in vain. Men of all creeds will join in regretting the death of a man of such parts.

An Irishman by birth, and cherishing an affection for his native land, Archbishop Lynch championed the cause which he believed to be necessary for its prosperity. His convictions were deep, and being a man of ardent temperament, his advocacy of what he was convinced was right was always earnest, especially when he believed that the interests of his church were involved, and this at times led him into positions where he found opposition, yet his tact and judgment were such that he always surmounted the apparent difficulties.

The Archbishop's labors on behalf of his church in Toronto alone were sufficient to win for him the gratitude of the church, and throughout the Province the influence of his example and of his guidance were felt. His life work was for the church of which he was a priest and prelate, and his death will be a loss to it in Ontario and will be felt beyond the borders of the Province, but the results of his labors will long remain.

Archbishop Lynch so long occupied a position of prominence, the people of Ontario had so long been familiar with his name as one of the foremost men, that while his demise will be more keenly felt among the adherents of the Roman Catholic church, the news of his death, coming so suddenly and unexpectedly, caused a shock to the whole community. A man who lived for the church he loved, who labored for what he was convinced was right, and in whose character no selfishness was seen, has passed away to his rest.

That is to say, your lungs. Also all your breathing machinery. Very wonderful machinery it is. Not only the larger air passages, but the thousands of little tubes and cavities leading from them.

When these are clogged and choked with matter which ought not to be there, your lungs cannot half do their work. And what they do, they cannot do well.

Call it cold, cough, pneumonia, catarrh, consumption or any of the family of throat and nose and head and lung obstructions, all are bad. All ought to be got rid of. PORT HOPE.

KILLED BY A HARROW.—On Tuesday, a boy, a nephew of Mr. Brock, a farmer on a rented farm about five miles east of Port Hope, standing in front of them held a team of horses attached to a set of harrows in a field near the railway track, while a train was passing. He lost control of the frightened animals and they dashed over him, dragging the heavy iron harrows after them. The sharp teeth tore him in a frightful manner before they loosened their hold and passed over. The boys brains were visible and he was so terribly injured that although we have not heard of his death we feel sure, from the description of an eye-witness, who saw the accident from the train, that the result must have been fatal.—Times.

What a Time

People formerly had, trying to swallow the old-fashioned pill with its film of magnesia vainly disguising its bitterness; and what a contrast to **Ayer's Pills**, that have been well called "medicated sugar-plums"—the only fear being that patients may be tempted into taking too many at a dose. But the directions are plain and should be strictly followed.

J. T. Teller, M. D., of Chittenango, N. Y., expresses exactly what hundreds have written at greater length. He says: "Ayer's Cathartic Pills are highly appreciated. They are perfect in form and coating, and their effects are all that the most careful physician could desire. They have supplanted all the Pills formerly popular here, and I think it must be long before any other can be made that will at all compare with them. Those who buy your pills get full value for their money."

"Safe, pleasant, and certain in their action," is the concise testimony of Dr. George E. Walker, of Martinsville, Virginia.

"Ayer's Pills outsell all similar preparations. The public having once used them, will have no others."—Berry, Venable & Collier, Atlanta, Ga.

HOUSEFURNISHINGS.

At this season many Housekeepers are replenishing their supplies of Tableware and China. City folk are furnishing summer cottages; country folk are filling up the dressers and cupboards of the old homestead; town's folk are picking and choosing here and there. Many would be glad to know of a place whose special business is to meet these wants and desires; that aims to furnish essentially good wares at consistently low prices; that offers the choice of many different dinner services, and yet does not compel you to take an entire set of any pattern, but allow you to select each course of a new design, or buy any portion of the set you may need; that does not try to impose ideas or wares upon purchasers, and yet is ready to advise which of the many wares is most desirable and suitable; and, if wished, will make a careful selection of pattern. When you want Tablewear will you give us the opportunity to serve you.

W. J. MASON,

OUR SUCCESS.

So far our CLEARING SALE has been a success. We are bound to sell, and the public may expect big bargains in every department. Stock fully assorted with choice goods.

A Wrong Supposition.

Occasionally a traveller, not a close observer, while passing through town sees what he assumes to be empty houses. He may report that empty houses are plenty in Peterborough. Here is where he is mistaken, for this is the time of housecleaning and windows without blinds merely indicate that the folk inside are hard at it clearing up after the work of the winter. Look around in the yard and you may find the whole family engaged in beating carpets. As they lay on lusty strokes comment is made on the lasting quality of the carpet, the neatness of the pattern, the bright colors, &c., and the clinching statement that the golden lion is the place to buy housefurnishings. Fair sells carpets that are good, serviceable and thoroughly satisfactory article, and stand the wear and tear of the Canadian boot-heel for a surprising length of time. Buy you carpets at fair's, the golden lion.

Lacrosse.

A meeting of the Riverside Lacrosse Club will be held at the Commercial Hotel, on Monday evening, to make arrangements for the trip to Barrie, on the 24th of May, when the first of the scheduled games will take place. So far the boys have put in but very little practise and unless they do, the chances are that they will come out second best, as we observe that the Barrie boys are hard at work. The Riversides should remember that they have no village team to meet, as Barrie is quite a town and contains some excellent lacrosse material.

The Gun Club.

Messrs. Calcutt and Tivey captained two teams that had a match at the Riverside Park on Friday afternoon, Captain Tivey's team winning by 3. The following were the scores made:—

St. Paul's Church.

In connection with the anniversary services of this church the Rev. A. B. Mackay, of Montreal, will occupy the pulpit to-morrow. Mr. Mackay has been for some years, with much acceptance, pastor of the Crescent-st. Church, Montreal, one of the largest and most influential Presbyterian congregations in the Dominion, having been called from England to fill that position. This is the rev. gentleman's first visit to Peterborough and no doubt many of the readers of the REVIEW who have heard of him will take advantage of this opportunity to hear him. He is a preacher of power and ability, thoroughly evangelical and occupies deservedly high rank as a pulpit orator. The usual special collections will be taken up in aid of the church debt and a liberal response is confidently expected from the members of the congregation and the friends who may be present at the services.

One pound of the Extract of Coffee will go as far as ten pounds of Store Coffee Try it; only 5c a stick at The Pantry. d107

A Row.

A party row of a somewhat serious character is said to have taken place on the Mud Lake road, a few miles from town, on Thursday night. As the particulars are likely to come out in the courts, we forbear from further mention.

It is gratifying to know that The Pantry is rapidly taking its stand, side-by-side with the first class groceries of the town. Inspection of goods and prices invited. d107

Quite a Snapper.

Whitelaw's creek, where it empties into the river is not much of a stream, but at the same time it is rapidly coming to the front as a turtle breeding ground. The other day a young boy captured a monster snapper, weighing 32 pounds and measuring 16 inches wide and 18 inches long.

Baseball Fever.

The baseball fever is spreading in Ontario, and the fever will yet reach Peterborough. On the morning of May 24th a large crowd will assemble at the P. A. A. A. grounds to see the match with the Toronto club, and in the afternoon large numbers, from far and near, will gather to witness the sports. The battalion companies are drilling regularly and will be in good form for the celebration.

Delighted With Them.

GUELPH, April 24th, 1888.

Geo. B. Sproule, Esq., Peterborough.

DEAR SIR,—I received my pictures from you with unfeigned delight and can assure you I never had a better likeness taken of myself. I am more than pleased with the finish, and every detail, even to the folds of the dress, are true to life. Once more thanking you for your efforts,

I am respectfully,
MISS. JESSIE G. MACCORMICK.

Another Blaze.

When the firemen left the fire on Friday morning they were satisfied that none of the neighboring places were in danger, even if the few embers that were left were fanned into a flame. However, about 5 o'clock in the evening an alarm was sounded, an old shed on the river bank close to the building that was destroyed in the morning, having taken fire. The blaze had been in progress for fifteen or twenty minutes before the alarm was sounded, but the firemen soon extinguished it. Loss nominal: insurance none.

Such is Fame.

The Lindsay Post says:—"Will Carleton, the famous poet, author of 'Farm Ballads,' etc., was engaged to lecture in Peterborough, but it was found that the people of that burg are so little versed in the current literature of the day that they knew nothing of Will Carleton. The committee had to wire Will accordingly and obtain a release. Such is fame. Why even Port Hope or Havelock would have given Carleton an overflowing house. The Peterborough papers should publish a few of Carleton's poems." The Toronto Mail of this morning says:—"A very poor audience greeted Will Carleton at the Association Hall (Toronto) last night."

The mission of life is to do all the good
To others that ever you may,
Same idea strikes kidd, who earnestly bids
For your custom from day to day:
His shoes and boots—which ever size suits—
Get cheaper and cheaper each day.

Jubilee Point.

The formal opening, for the season, of Jubilee Point, the new and popular resort on Rice Lake, at the mouth of the river, will take place on the Queen's birthday. A splendid programme has been prepared and those desirous of spending a pleasant day away from home, can leave on the Golden-Eye at 7 a.m., and reach home at a seasonable hour. At the Point a regatta will takeplace, the events being a single paddling race for a $50 cup, a single scull race for a $50 cup, and races for single and double canoes, a sailing race and "hunt the duck," for money prizes. In addition all who purchase a ticket for the trip, will will have a chance to draw a $50 sewing machine.

3,000 boys and girls in Peterborough have voted that The Pantry is a grand institution for supplying their wants. d107

Services To-morrow.

The following is a list of services in the several churches to-morrow:—

ST. PETER'S CATHEDRAL.—At St. Peter's Cathedral, Roman Catholic, there will be three masses celebrated, the first at 7 a. m. the second at 8 a. m., and the third at 10.30 a. m. Vespers at 7 p. m.

ST. LUKE'S (Ashburnham).—Holy Communion at 8 o'clock, Morning Prayer, Litany and Sermon at 11 a. m.; Evening Prayer and Sermon at 7 p. m. All seats free.

ST. JOHN'S CHURCH.—The regular services will be conducted as follows:—Holy Communion at 8.30 a.m.; Morning Prayer, Litany and sermon at 11 a.m.; Evening Prayer and sermon at 7 p.m.

ST. PAUL'S.—Anniversary services: Sermons by the Rev. A. B. Mackay, of Montreal formerly of Brighton, England, one of the first pulpit orators in the Dominion.

BAPTIST CHURCH, Murray-St.—The pastor, the Rev. PaClinton Parker, will preach morning and evening. Evening subject, "A Night of Sorrow." All seats free. Strangers welcome.

METHODIST CHURCH, Charlotte-St.—The Rev. I. Tovell will preach at 11 a. m. and 7 p. m. Sacrament at the close of the evening service.

METHODIST CHURCH, George-st.—At 9.45 the quarterly Love-feast and fellowship meeting will be held. At 11 a. m. and 7 p. m., the Rev. Prof. Wallace, M. A., of Victoria College will preach. At the close of the evening sermon an interesting reception of new members will be held, to be followed by the administration of the Lord's Supper. All are cordially invited to these services.

ST. ANDREW'S CHURCH.—The usual services will be conducted in the morning. The Rev. Alex. Bell, pastor. There will be no service in the evening on account of the special service in St. Paul's church.

METHODIST CHURCH, Mark-st, (Ashburnham).—Regular services conducted by the Rev. J. C. Wilson. Morning subject, "The Sabbath." Evening subject, "Total Prohibition."

Don't use any more nauseous purgatives such as Pills, Salts, &c., when you can get in Dr. Carson's Stomach Bitters, a medicine that moves the Bowels gently, cleansing all impurities from the system and rendering the blood pure and cool. Sold by all Druggists.

OFFICIAL BOARD MEETING

Of the George-st. Church—Resolution of Sympathy and one of Appreciation.

A regular meeting of the Official Board of the George-st. Methodist Church—the closing one of the year—was held on Friday evening. The Rev. Prof. Wallace, of Cobourg, presided in company with the assistant pastor, the Rev. S. J. Thompson.

After the transaction of some ordinary business, a resolution was moved expressing the sympathy of the Board with Mr. W. G. Yelland, one of its members, on account of the sad and sudden death of his young wife. The resolution was unanimously adopted.

A complimentary resolution was unanimously adopted expressing satisfaction with the services of the Rev. S. J. Thompson in the performance of the pastoral duties of the church since January last, and an increased grant of money, beyond the original stipulation, was voted to Mr. Thompson as an additional expression of that satisfaction.

The report of the membership of the church was very satisfactory, there being an increase over last year. The Treasurer of the Trustee Board submitted the financial statement for the past year, which showed an improvement as compared with last year's statement.

Mr. W. J. Mason was epresentative to the District Meeting.

C. E. T. S. Excursion.

The Church of England Temperance Society has arranged for an excursion from Peterborough and Norwood to Toronto on June 21st. Particulars later.

St. Paul's Church.

Anniversary services, Monday May, 14th in connection with the Sabbath services there will be a service of praise, on the evening of the above date. A choir of over 50 voices will present a splendid programme. Silver collection at the door 3d112

Mounted Police.

Evidently the mounted police authorities are well satisfied with the recruits they obtained here recently. The fact that another recruiting officer will be at Cavanagh's hotel on the 18th, 19th and 20th of May, certainly points that way.

In a New Role.

Mr. Mac McGregor, formerly of Peterborough and Omemee, has purchased a soda water business in Lindsay and has commenced operations. Mac is a shrewd business man and we have no doubt that he will make a success of it.

An Improvement.

A gutter has been dug around the fountain at the Horticultural Park and a drain has been laid to carry away the waste water. This is a decided improvement and the walks can be kept in far better condition. The park will be opened to the public on Saturday next.

Cricket.

A practise match of cricket was held on the P.A.A.A. grounds on Friday afternoon. The attendance was not large and the sides were filled out with boys. However, some really good work was done. The members should make it a point to attend these matches as practice is what tells.

Alleged Gold and Silver Finds.

It is reported, says the Belleville Intelligencer, that gold bearing rock has been found on the farm of Henry Gunter, township of Woolaston, about half a mile west of Coe's Hill. Silver is said to have been found in Chandos by Cameron Bros. The ledge which is claimed to have been discovered is near the foot of Eagle Lake.

Covered.

The oiled floors at the fire station are too slippery for the horses and when hitching on Friday morning, one of team fell. In order to obviate this in the future matting has been placed in front of the hose wagon and truck, over the floor. This with the basswood runways from the stables will prevent any such trouble in the future.

Address to Young Men.

The Rev. A. B. Mackay, of Montreal, will speak to young men in the Association Hall to-morrow afternoon at 4 o'clock. Mr. Mackay is a general favorite among Montreal's young men, and he will undoubtedly give a powerful address. The singing will be led by the Association Male Quartette. At 8.30 o'clock the Rev. P. Clifton Parker will speak in connection with the regular Sunday evening meeting. Young men are heartily invited to attend these meetings.

The Market.

The market this morning was fairly well attended by farmers and townspeople. Eggs, butter and early vegetables were in good supply and prices did not show any material change. The green houses were well represented and a thriving trade was done in flowers. Potatoes are in good demand and choice "fruit" brought $1.25 per bag. A cow and a horse were also offered for sale. Furniture, horse pokes and churns, of the patent variety, were among the novelties on the square.

Headache, Billiousness, Dyspepsia and Indigestion relieved and at once by Dr. Carson's Stomach Bitters. Try it. Samples free.

Brevities.

—The Police Magistrate had another vacation this morning.

—There were no burglaries last night, as far as the police are informed.

—Mr. Dan. Kennedy, of St. Thomas, formerly of the G. T. R. here, is in town renewing old acquaintances.

—Scissor sharpeners and umbrella menders had better give Peterborough the go bye for some time to come.

—We are pleased to learn that Mr. Wm. Green is progressing rapidly towards recovery, after his recent severe illness.

—One tramp claiming Port Hope as his abiding place rested his weary bones and also his feet at the police station last night.

—The late series of burglaries reminds people that the same thing exactly occurred at the time W. H. Cooper was appointed chief constable.

It was a close call for another fire alarm last night. The afternoon embers fanned up and a boy had hold of the town rope, when he was stopped.

—Three tramps were observed lurking around a house at the north end, at an early hour this morning. The arrival of a male inmate of the house had the effect of making them beat a hasty departure.

Many ladies admire gray hair—on some other person—but few care to try its effects on their own charms. They need not, since Ayer's Hair Vigor restores gray hair to its original color. Sold by druggists and perfumers.

Advice to Mothers.

Mrs. Winslow's Soothing Syrup should always be used when children are cutting teeth It relieves the little sufferer at once; it produces natural, quiet sleep by relieving the child from pain, and the little cherub awakes as bright as a button." It is very pleasant to taste. It soothes the child, softens the gums, allays all pain, relieves wind, regulates the bowels, and is the best known remedy for diarrhœa whether arising from teething or otherwise 25 cents a bottle. Be sure and ask for "Mrs. Winslow's Soothing Syrup," and take no other kind.

Children Cry for Pitcher's Castoria.

MAJOR RUNDLE'S PUPILS

Give an Exhibition at the Lansdowne Rink and Surprise Everybody.

There was some discontent among the school trustees and others when the idea of engaging a drill instructor for the pupils of the Institute and public schools was first mooted, but after the exhibition of Friday night, all the discontent has disappeared and nothing but praise is heard on all hands and Sergeant-Major Rundle is the lion of the hour.

It must be understood that it is but a few short months since the instructor commenced his lessons, and in fact some of the pupils who took part on Friday evening had received only a few lessons, still the improvement in their walk and carriage was marked and as one of the Institute masters remarked, "Mr. Rundle's classes in my estimation are the most important in the school."

The number of people who were present and those who desired to be present but could not gain admission, may be numbered among the thousands. Owing to the fact that the gallery doors were closed, accommodation could only be found at the south end and along the sides, the latter only being reached after a tramp through the mud, by those who came in after the drill had commenced.

The following programme was carried through:—

(1.) Calisthenic exercises, 60 girls.
(2.) Calisthenic exercises, 60 boys.
Each went through five exercises.
(3.) Battalion drill, II. form boys.
(4.) Company drill, III. form boys.
(5.) Squad drill, single rank, I. form boys.
(6.) Squad drill, III. form girls, with vocal music.
(7.) All the girls in fours, music by band.
(8.) All the boys in formations, squad drill in fours, two deep and single rank, front forming and marching past in column.

All the movements were done in a manner that made numerous redcoats of the 57th, who were present, blush almost as red as their coats and several volunteer officers at the close of the drill, warmly congratulated the Instructor.

While all deserve great praise, certainly we think the palm should be awarded to the girls of the III form, whose drill was almost faultless, in fact many think that the girls all through fairly eclipsed the boys, but however that may be the boys are deserving of great credit. At the command "wheel into line," the boys and girls both turned like the stone wall so often heard of, and the applause from the spectators was unstinted.

During the evening the Fire Brigade band played several marching tunes and the effect was at once seen.

The girls, before the arrival of the band, marched to their own singing, "The Red, White and Blue" and "The Swanee River," being the favorites, and many who were present at once recognized the benefit that would be derived from a Kintergarten course, especially as far as the younger children were concerned.

Taken as a whole the exhibition was a huge success, every person present was delighted and Sergeant-Major Rundle well deserves to have a couple of hundred dollars added to his salary.

The following are the officers of the companies of boys who took part in the battalion drill, who acquitted themselves so creditably:—

II form, No. 1 Co.—A Fife, Captain; Geo. Boucher, 1st Lieut.; G. Edmison jr., 2nd. Lieut; B. Boucher, right marker, and A. Amys, left marker. No. 2 Co.—H. Fitzgerald, Captain; R. Hicks, 1st Lieut.; J. Fairbairn, 2nd Lieut.; W. Squires, right marker; J. Eastland, Left marker. III form, H. Fife, Captain.

In the spring, hundreds of persons suffer from boils, carbuncles, and other eruptive diseases. These are evidences that the system is trying to purge itself of impurities, and that it needs the powerful aid which is afforded by the use of Ayer's Sarsaparilla.

WATER FILTERS,

To insure good health it is absolutely necessary to have pure water, and no water is entirely free from floating matter and disease germs without thorough Filteration. The majority of cases of Typhoid and other low fevers are in a measure caused from unfiltered and impure water, so that every family who values its health should have a reliable Filter. Numerous Filters are offered to the public varying in points of excellence, but for Cheapness, Efficiency and Durability, our Filters cannot be surpassed.

No Corroding Substances are used in construction.

The Packing material is the most Powerful specially prepared granulated Carbon.

It will last for years with the ordinary use of a family, and the material may be obtained at any time for replenishing at small expense.

The construction is our own patent, and combines all the essential requirements of a first-class Filter with access for cleansing. Instructions company each Filter. For sale only in Peterborough at

OUR COUNTERS ARE LOADED TO KILL HIGH PRICES.

We have placed in stock this week—direct from Vienna, Austria, several lines of Children's Clothing. These are Fine Goods and should suit the wants of those who desire something nice and yet have not the time to make up themselves what they fancy.

Although we sell a Boys' Suit for 65c. and fit the boy with an odd coat at 19c., our trade is not by any means confined to low priced Goods. We keep, we offer, we are selling daily, the Finest Lines to be had in Town.

Mothers and Fathers looking for Children's Clothing should come and see what our stock offers.

AS MUCH A SECRET AS EVER

To the Editor of the Review: SIR—How in the world has C. B. ROUTLEY jumped into such a big slice of Wall Paper trade? Why, it seems as if one couldn't pass his store without running against a load of Wall Paper in the arms of some pleased looking customer. I'm half inclined to think there must have been lots of boodle in the Wall Paper business before ROUTLEY started it and that the people have found out that he has broken the combination. Eh? what did you think, Mr. Editor? And yet you occasionally hear of spasmodic attempts to get down to ROUTLEY'S prices, in order to head him off; but still it seems as much a secret as ever how he keeps up the run

Yours truly,
A PAPER-HANGER.

SATURDAY, MAY 12, 1888.

MONA'S CHOICE.

BY MRS. ALEXANDER.

A soft tap at the door attracted her attention; she rose and cautiously opened it.

"Madame Debrisay is below, wanting to speak with you, ma'am," said the woman who had replaced both cook and housemaid.

"I should like to see her; could you stay for a little with Mrs. Newburgh while I go down-stairs."

"Yes'm. I think Mr. Wehner is just come in. I will ask him to answer the door, and come back directly."

Having given a few directions, Mona ran down-stairs lightly, well pleased to have a confidential talk with her visitor.

Mme. Debrisay had been her greatest friend when she was at school in Paris. There she had been the junior music mistress, and Mona had been immensely attracted by the kindness and good-humor of the hard-working teacher.

When Mona left, Mme. Debrisay moved to London, and with Mrs. Newburgh's help contrived to make a good connection as a music and singing mistress. She gave Mona lessons, or rather assisted her in practicing for an expensive master, and continued her warmest admirer and devoted friend. Both Mme. Debrisay and her late husband the captain, were British subjects, being natives of the Emerald Isle, but she deemed it wise to pose as a foreigner, with a view to obtaining a better position in her profession; and possessing dramatic instincts, she played her part artistically, speaking English with a foreign accent, and even brokenly at times, a proceeding she justified by asserting that the late Debrisay and herself were *really* French, being descended from the Huguenots, who had fled from the persecutions of Louis the Fourteenth.

The small fireless dining-room looked so dismal and dark that chill November afternoon, that Mona called Wehner to light the gas, that she might see her friend's face.

"Oh! me dear child" (sounded like choild) —her native accent came out when she was much moved, "I have only just come back from the sea-side, and heard some bad news, so I ran round to get at the truth from yourself."

"You cannot have heard anything worse than the truth, Deb," returned Mona. "Poor grannie has lost everything. I scarcely know what is to become of us."

"*Dieu, des Dieux!* you don't say so. Don't tell me you have to face the black death! for that's what poverty is. There is no misfortune like it, and *I* know. Oh, my dear—my jewel, can you see no way out of it?"

"No; no way I should care to try."

"Ha! there is a blink of hope somewhere then? How is your dear good grandmother? How will she ever bear 'going down?'"

"She is very unwell and weak; I am quite frightened about her."

"And no wonder."

Mme. Debrisay untied her veil, and sat down with a despondent air. She was a plump woman, under middle height, with dark eyes, iron-gray hair, a decidedly turned-up nose, a wide, smiling mouth, which was rarely quite closed over her beautifully white teeth.

"Tell me all about everything."

And Mona explained as far as her imperfect knowledge permitted.

"Those promoters and scamps who get up these companies to rob and plunder the world ought to be hung! I know the cruel way they work. You pay a few pounds on each share, and all goes swimmingly for a bit, and then you take more, and chuckle over the good income they bring in, never doubting that their value will double by and by; then comes the crash, and you find all you possess clawed up by those villains —and I'm afraid they will make a clean sweep of poor dear Mrs. Newburgh's money, that she was so fond of. Not but that she was generous and kind, too;" added Mme. Debrisay, hastily correcting herself.

"I am afraid they will! I try hard to think what will become of us—of what I ought to do," returned Mona, with a deep sigh. "I fear I am very useless. What can I do to earn money?"

"You earn money! Why, it is hard enough for those who have been trained for work to find the means of existence; and you—" here she found her handkerchief necessary. "That I should live to hear you speak of such a thing! Not that the work itself is hard—an idle life is the worst of all!—it's the looking for it, and the failures, and the waiting. No, my dear, you must make up your mind and marry some nice rich man."

Mona laughed, but her laugh was not merry.

"Dear Deb! you are as imaginative as ever! Nice rich men are not plentiful, nor are they ready to marry penniless girls."

"Yes, Englishmen are. And you must not be too hard to please. I remember that night I went to Mrs. Vincent's *soiree musicale*, to play the accompaniments, there was a fine, elegant, *distingue* man talking to you, and watching you. I asked you about him after, but you would only laugh. You told me his name, but I cannot think of it."

"Mrs. Vincent's party," said Mona, blushing. "There was a crowd of very polite gentlemen there," she added, evasively.

How well she remembered that blissful evening—what a thrill of pain the mention of it sent through her heart!

"Ay! but this one was more than polite. He was a captain—Captain Lisle, that's it. Now, why wouldn't you take him?"

"Because he never asked me for one thing," said Mona, nerving herself to speak lightly and smile carelessly. "I suspect he is a man who wants a great deal for money and has very little."

"Oh! he isn't badly off! I know they were talking of him, and of a rich widow who wanted to marry him, and Mrs. Vincent said he was too independent to be a fortune-hunter—that he had six or seven hundred a year, to say nothing of his pay."

"That is not being rich," returned Mona, trying to evade the subject, but making a mental note of the fact that Lisle was *not* poor, then a sudden impulse prompted her to confide her difficulties to her shrewd, sympathizing friend. "But I am in a painfully undecided state of mind about a really rich man who has written to my grandmother asking leave to 'pay his addresses to me,' as old-fashioned people say."

"Thank God!" exclaimed Mme. Debrisay devoutly. "And will he do, dear?"

To be continued.

SHEPPARD, THE GREAT CHEAPSIDE.

(THE TOWN CLOCK OVERHEAD.)

Local Nominations in Shefford.

WATERLOO, Que., May 11.—The nomination for the vacant seat in Shefford, occasioned by the death of the late Thos. Brassard, M.P.P., last fall, took place here to-day. Mr. John P. Noyes was nominated last November as the Liberal candidate but yesterday resigned in favor of Dr. Degrosbois, who was the candidate having the next largest number of votes in the Liberal convention. Mr. A. F. Savaria, who was defeated by Mr. Brassard in October, 1886, was nominated by the Conservatives.

A Brampton Boy Drowned.

BRANTFORD, May 11.—William MacAuley of Brampton, aged 17, attending the Collegiate Institute here, was drowned in the Grand River this afternoon. Macauley, with two companions named Watt and McMullen, went down the river in a canoe, and when about two miles from Brantford the canoe upset. Watt, the only swimmer of the three, secured McMullen and brought him to shore, and returned after Macauley, but the latter disappeared before Watt could reach him.

Senator Alexander's Latest Vagary.

OTTAWA, May 11.—The Senate to-day had another seance with Senator Alexander, who insisted on giving notice of motion to remove the legs from the oil portrait in the vestibule of Sir David Macpherson. He says there is enough of the knight on canvas to make two pictures in keeping with the size predominating in the corridor. The motion was ruled out of order, but the Senator had his say all the same.

The Senate then passed the Upper Ottawa Improvement Bill without amendment and complained that their gallery accommodation in the Commons chamber was rudely encroached upon by hoi polloi, much to the discomfort of their distinguished selves.

The Sawdust Committee.

OTTAWA, May 11.—Before the Senate Sawdust Committee to-day Mr. Arnoldi, superintendent of Government dredging, said there was great danger from the accumulation of sawdust in the Ottawa River, as gas was generated by the sawdust in the bed of the river, and it might explode under excursion or other boats and cause terrible loss of life. He remembered an explosion from this cause opposite Hull one winter, when an acre of ice was blown up. He suggested dredging the sawdust out periodically, and either burning it or filling up gullies with it.

The Bank of Montreal's Annual Statement.

MONTREAL, May 11.—The directors of the Bank of Montreal at the usual meeting to-day issued the annual statement of the bank's business for the year ending April 30, which is as follows:

	1888.	1887.
Balance profit and loss account	$ 605,740 33	$ 525,545 25
Profit after deducting charges of management and making full provision for all bad and doubtful debts	1,284,801 17	1,520,195 10
Total	$ 1,890,541 50	$2,045,740 35
Dividend 5 per cent paid Dec. 1, 1887	800,000	
Dividend 5 per cent. payable June 1, 1888	800,000	
Balance of profit and loss carried forward	$ 290,541 50	$605,740 35

The difference in the profits of 1888 as compared with last year is $240,000, which was paid last year in the form of a 2 per cent. dividend. The balance to profit and loss carried forward is $85,000 in excess of the same period last year.

Considerable changes have taken place in the general statement since last year: the notes in circulation have increased from $5,204,072 in 1887 to $5,467,740 in 1888, deposits bearing interest from $10,248,460 to $14,325,780, while the amount due from agencies of the bank in foreign countries has increased from $6,772,904 in 1887 to $9,787,295 in 1888. Loans and discounts show an increase from $27,468,802 to $31,452,541, other changes being immaterial. Unsecured overdue notes are only $116,000.

Galt Votes to Erect a Hospital.

GALT, May 11.—A vote was taken here to-day on a bylaw to authorize debentures to the extent of $8000 to supplement the gift of $5000 made by Mr. Robert Turnbull of this town for the erection of a hospital here. The bylaw was carried, 326 to 136.

Hanged on Suspicion.

BOWLING GREEN, Ky., May 11.—A mob of 100 went to the farm of Joe Smith, in Richmond neighborhood, on Wednesday, and hanged a negro farm hand on suspicion of poisoning horses.

TURNBULL'S.
We wish to call your attention this week to our Large Stock of Black Cashmeres. They range in price from 25 cents a yard up to $1.20. The one at 25 cents is a good black with sightly appearance which is all we say about it. But when you advance to 45 cents you have a nice rich color, particularly suited for mourning, good weight and fully 44 inches wide. At 50, 60, 75, 85, 90 and $1.00, we have a new line by a French maker which is much nicer than the old make and deservedly popular, being much finer in appearance, more like a Henrietta. To be had in blue and jet black.

GERMAN CASHMERES.
These Goods are made in Saxony where the makers vie with each other in producing a superior article. We have secured a make that cannot be spoken of too highly. It is a double warp and finished like a satin. They are now open for inspection, (on 3rd counter to left from George-st. entrance).

In our Custom Made Tailoring Department we show a nice range of Pantings, Worsted Suitings, Light Overcoatings, etc. Only first-class work turned out. (2nd counter to the right.)

Early last fall when the public began gathering around their stoves and were thinking about Flannels and Blankets, we were looking ahead and gave large orders with the leading manufacturers of Chambrays, White and Colored Muslins, Lawns, etc. These Goods are now in stock; and will be found on the first counter to the right.

Our first stock of Sailor Hats has been bought up rapidly which is sufficient evidence that they are the correct thing. Our second shipment, bought at a much lower price is now in. All sizes and styles to choose from. The prices will please you when you see the styles and quality.

DOMINION PARLIAMENT.

A NUMBER OF IMPORTANT BILLS PASSED AT SATURDAY'S SITTING.

The $25,000,000 Government Loan Authorized—The Agreement Respecting the Monopoly Surrender Confirmed—Government Assumes Lake St. Peter Debt'

OTTAWA, May 14.—The House met on Saturday at 1 o'clock. The bill authorizing a Government loan to the extent of $25,000,000 was passed after an address by Sir Richard Cartwright, who was not present during the discussion a few days ago. He disputed the soundness of the method of computation by which Sir Charles asked the House to arrive at the conclusion that the present debt of $227,000,000 only involved the same public charge as a debt of $174,000,000 at the same rate of interest as prevailed in 1877.

Sir Charles, in reply, challenged rigid scrutiny of the computation.

Sir Richard also brought up the question of priority of application of the expression "Flies on the wheel," and raised a laugh in the House by quoting a speech of Sir John Macdonald, made in Halifax, Sept. 21, 1864, in which he had said: "The wheel is now revolving; we are only the fly on the wheel; we cannot delay it."

The bill confirming the agreement between the Government and the Canadian Pacific Railway Company respecting the surrender of monopoly privileges was passed after discussion, mainly on the question of disposition of railway subsidies. There is no reference to these in the agreement, but it has been pointed out by the Government that should the company fail to pay the interest guaranteed the Government, in addition to the ample security provided for in the agreement, will be able, in the event of being called upon to pay any of the interest, to set off the earnings of the Canadian Pacific Railway for mail service. The point has been raised that the former bondholders have a prior claim on the mail subsidy money, with which view the Government do not agree.

The resolution respecting assumption of the Montreal harbor and Lake St. Peter debt was adopted without discussion. A similar resolution respecting assumption of the liabilities of the harbor commission at Quebec in connection with the harbor and graving dock and assuming the same as a public work of the Dominion provoked considerable discussion from Maritime Province members, who objected to those provinces being taxed on account of this work unless similar works in the ports of Halifax and St. John were also adopted as Dominion works. The resolution was reported from committee, and ordered for a third reading Monday.

The bill authorizing the Government to reduce the rate of interest on savings bank deposits was passed. Sir Richard Cartwright congratulated the Government on taking this step, which he said the Opposition had long advised.

HAMILTON HAPPENINGS.

A Child's Fatal Draught—The Hamilton Y.M.C.A. New Building.

HAMILTON, May 14.—A 3-year-old child named Lizzie King swallowed some carbolic acid which her mother had left in a cup on the table. The poor little sufferer is still alive, but not the faintest hopes are entertained of her recovery.

The Council of the Board of Trade have appointed Robert Morgan, miller, as the delegate from this city to confer with the Dominion Government respecting a grain schedule.

The directors of the Young Men's Christian Association have purchased for $7400 the property on the southeast corner of James and Jackson street. As soon as sufficient moneys have been received to warrant it the contracts for the new building will be let and the work of construction proceeded with.

The Salvationists in this city have new officers in Lieut. Cameron and Capt. James Brookes from Toronto Temple, and will hold a three-days' jubilee, commencing on May 22.

IN ANXIOUS SUSPENSE.

Cities and Towns on the Mississippi River Threatened with Inundation.

CHICAGO, May 13.—Advices from Davenport, Dubuque, Quincy and other points along the Mississippi indicate that the river is within a few inches of high water mark and steadily rising. Manufacturing establishments have been obliged to close and families living in the lowlands near the river are leaving their homes. Railroad tracks and levees have been washed away and many houses destroyed. Farmers report heavy losses of crops in consequence of overflowed lands.

Cushion Throwers to be Punished.

This rowdy practice of throwing the cushions about after the game is to be stopped. Notices will be posted about the stand to that effect, and those who are caught at it again will receive the full penalties of the law.

AFFAIRS IN MANITOBA.

STARTLING DISCLOSURES MADE IN THE LEGISLATURE YESTERDAY.

Premier Greenway's Charges Against Norquay's Administration—Criminal Proceedings Threatened Against Two Members of the Late Administration.

WINNIPEG, May 13.—In the Legislature yesterday the late Government, particularly Norquay, got a terrible roasting from Premier Greenway, who said he had documents in his possession to prove that Norquay was a partner with Mann and Holt in the contract for the construction of the Hudson Bay Railway. He further stated that the Government had under consideration the advisability of instituting criminal proceedings against Norquay and LaRiviere in connection with that and other matters. Subsequently, when referring to other delinquencies, the Premier intimated that the Government had decided to proceed criminally against these two individuals. Pointing to Norquay, the Premier referred to him as a "dishonorable gentleman," and said that to-day another steal of $26,000 had developed.

Referring to Acton Burrows the Premier said he was the greatest disgrace that ever fed at the public crib.

Such words as "thief," "robber" and "embezzler" were freely used in making charges.

In speaking of $256,000 of Hudson Bay bonds the Premier said that the money was divided among a party or boodlers of which the late Government was a partner.

Mr. La Riviere explained his connection with the Lovell printing, claiming he was not acting as Minister of Agriculture in subletting, but as a private individual. He admitted that irregularities had been committed, but held that these also happened in banks and other institutions. He had intended to remedy affairs if he had remained in office. He explained his connection with the transfer of Hudson Bay bonds without the security of a land grant and claimed that he had been deceived at Ottawa. He also claimed that the banks boycotted the Government respecting the loan of money spent on the Red River Valley Railroad.

After Mr. Martin had referred to the delinquencies of the late Government, exposing the culpably loose manner in which the Provincial Auditor had attended to his duties, Mr. Leacock moved adjournment of the debate, to give Norquay and LaRiviere on Monday an opportunity to meet the charges fully.

Mr. Norquay, replying to Premier Greenway, said he courted the fullest investigation of his conduct, either as leader of the Government, member of the Legislature or plain John Norquay, before any court, commission or other constituted body. This statement elicited cheers from the galleries, who cannot but admire his pluck in meeting almost single-handed the serious charges against his administration.

The $26,000 steal referred to by Premier Greenway is supposed to be in connection with the Selkirk Asylum.

Ex-Attorney-General Hamilton denies in St. Paul that he retained his overdrawn salary, and claims he paid it back and has Treasurer Jones' receipt for it. This was admitted to be correct last night by Mr. Martin.

ONTARIO'S DAIRYING INTERESTS.

Meeting in Georgetown to Advocate the Establishment of Creameries.

GEORGETOWN, May 14.—A meeting took place on Saturday, at which Messrs. Valancey Fuller, James Cheesman and W. F. Maclean delivered addresses. In response to notice which was given there were a good number of the farmers in the vicinity present, among whom were about fifteen patrons of the old creamery, which will probably soon be reopened in this vicinity. Mr. David Cress presided.

The following motions were unanimously passed:

"That whereas the existing methods of farm butter-making diminish the fertility of the soil, restrict the production of milk, and render butter production from small herds costly to the farmer and injurious to the reputation of Canadian butter at home and abroad; we therefore approve the action of the Ontario Creameries Association, and heartily support its policy of extending the factory process of butter-making as the best calculated to secure uniformity of quality, an increased consumption, the highest market prices, and the permanent well-being of the dairy farmers of the Province."

"That the factory system of butter-making improves the breeding of dairy stock, encourages better feeding, makes less demand on soil fertility than any other system of farming, and merits the utmost support of every true friend of economical husbandry."

"That in the opinion of this meeting it is desirable to organize a Creamery Butter Manufacturing Company to reopen the Little Falls Creamery (Halton County), which shall have for its primary object the manufacture of butter for the supply of the home market, and a committee be authorized to take the preliminary steps to organize a company to acquire and operate the Little Falls Creamery."

A committee was subsequently nominated to take the matter in hand and bring it to a successful issue. The meeting adjourned and the committee met to perfect arrangements to enlist the cooperation of all the farmers in the neighborhood in reopening the creamery.

The Sugar Conference.

LONDON, May 14.—The Sugar Conference has concluded its work. On Saturday the delegates signed the final protocol with the draft of a proposed convention. The delegates will submit the draft of the treaty with their reservations to their respective Governments, who will communicate their views to the English Government by July 5. The plenipotentiaries will be invited to meet again, Aug. 6 at the latest, for the purpose of signing a treaty.

Edison's Phonograph Completed.

NEW YORK, May 14.—A public exhibition of Edison's phonograph was given last week by the inventor, and the machine was shown to work admirably. It reproduces speech, music and sounds of all kinds with perfection. The invention will to a large extent do away with stenography. The phonograph will be on the market within a month. It will sell for about $85.

Fire at Bloomfield.

BLOOMFIELD, May 13.—The roller flour mill in this village owned and run by Marshall Burr was burned this morning. The loss is partly covered by insurance. The cause of the fire is unknown. A small barn was also burned.

ENGLAND'S FIGHTING STRENGTH.

No Cause for Alarm—The Army and Navy Placed on an Efficient Footing.

LONDON, May 13.—In the House of Lords Viscount Hardinge asked what truth there was in the reports that England was in a defenceless condition. The Duke of Cambridge denied that the country was in imminent danger. He said that the sensational articles in the newspapers, emanating from the "highest military authority," did not proceed from him. The Government were considering the means by which this should be done. He did not doubt that the result would satisfy the country.

Lord Salisbury protested against the prevailing impression that because the Government did not make showy speeches their vigilance slept. The Government must practice the utmost reticence in such matters. Nothing would be more inane than to explain to all the world what were England's strength and the nature of the precautions she was taking. It would be treachery to give such matters publicity. [Cheers.] There was no ground for reproaching the Government with neglecting the country's defences. Since 1884 the army had been increased from 181,217 men, while the expenditure for the navy had risen from £4,449,000 to £6,611,000. The panicky tone pervading the language used by military authorities outside of the House was not shared by the Government, who were fully conscious that any disregard of the national defences, in the present state of the world, would be a very grave dereliction of duty. [Cheers.]

In the Commons Lord Hamilton, First Lord of the Admiralty, stated that the Russian fleet in the Pacific consisted of one iron-clad and four cruisers, and was not equal either in numbers or in strength to the British forces on the China station alone. The Admiral in command had declared that he was perfectly satisfied with the strength of the British fleet in those waters. [Cheers.]

By Way of Rome.

VIENNA, May 13.—A despatch from Rome to The Political Correspondence says that the Irish bishops have informed the Vatican of their entire and unconditional submission to the Papal rescript regarding Ireland.

An Opinion from St. Petersburg.

ST. PETERSBURG, May 13.—The Novosti says the object in strengthening the English armaments is evidently not solely to be prepared to indirectly partake in an eventual continental war, but also to enable England to pursue with an armed hand a policy manifestly aggressive.

John Dillon's Second Sentence.

DUBLIN, May 12.—The trial of Mr. John Dillon on the second charge of offending under the Crimes Act was concluded to-day, and he was convicted. He was again sentenced to six months' imprisonment, without hard labor, as he was on account of the first charge. His sentences, however, will run concurrently. Mr. Dillon took an appeal and the hearing was fixed for June 28.

INTERESTING ITEMS BY WIRE.

The Royal Grenadiers of Toronto, to the number of 350, celebrated the anniversary of the battle of Batoche yesterday.

Commodore Kittson of St. Paul, Minn., one of the best railroad men of his time, died on a train while returning from Chicago to his home. Commodore Kittson was born near Sorel, Que., in 1810.

Prince Ferdinand arrived at Varna on Saturday. He was enthusiastically received, being presented with an address by the people, expressing unaltered fidelity.

At the meeting of the railroad conductors on Saturday to elect officers, W. P. Daniels, a red-hot anti-striker, was elected by one vote. The next meeting will take place in Denver, Col.

After boring for one week a steady flow of natural gas has been struck in Collingwood, at a depth of 130 feet.

At the annual meeting of the Niagara River Fruit Growers' Association at Queenston last week it was unanimously decided to urge on the Government the necessity of the free admission of superphosphates and all commercial manures.

Burglars at Pickering.

PICKERING, May 13.—Some time during Saturday night burglars entered the Spink Flouring Mills and blew open the safe. The force of the explosion blew the safe through the partition behind it and the safe door was blown to atoms. The burglars made their entrance by bursting in the front door of the mill. Some chisels and a crowbar were found that had been taken from a wagon shop in the village. They carried away about 50 cents worth of coppers and the iron vault from inside the safe, which was entirely empty.

A Farmer Hangs Himself.

ARKONA, May 13.—William Messander, a farmer living about five miles south of this place, committed suicide by hanging early yesterday morning. The only reason for the deed known is that his mind was somewhat affected by an injury received some years ago.

THE DEAD ARCHBISHOP.

DETAILS OF THE ELABORATE FUNERAL ON WEDNESDAY.

A Large Attendance of the Clergy of the Dominion Expected—The Will of the Deceased Prelate—Referred to in the Protestant Churches.

TORONTO, May 14.—Reference was made yesterday to the dead prelate in nearly all the churches of the city, the clergymen of all denominations uniting in paying a tribute of praise to the man who has filled such an important position in the province for eighteen years.

The Archbishop's will was made four years ago, and on his death-bed he added a codicil. The will proper, as is customary among bishops, bequeathes everything he died possessed of to his successor in office. His personal effects at the time of his death consisted of a gold watch and one suit of clothes. The codicil prays his successor to give £50 to a widowed sister of the testator, at present living in poverty in Ireland. A further clause in the codicil states that he forgives all his enemies and gives them his blessing, and prays that God in His goodness will forgive them also.

It is understood that when he found that he was about to die, His Grace appointed Vicars-General Rooney and Laurent to administer the affairs of the diocese pending the action of the Holy See in the matter of appointing a successor.

The prevailing opinion seems to be that Bishop Walsh of London will be the man. The Catholic mind is turning towards him as the one who is most deserving of any in the province, and who is eminently qualified to fill the position. A vicar-general from some other diocese or from another country, or a priest may be raised from the ranks. It is probable, however, that the successor will be chosen from the Ontario bishops.

From early yesterday morning until a late hour in the evening St. John's Grove was besieged with throngs of Catholics of all degrees of prominence anxious, if possible, to obtain a view of the remains of the dead. Admittance was refused to all with the exception of a few of the more prominent parishioners of Our Lady of Lourdes.

The body of the dead Archbishop lies in the parlor surrounded by wax tapers and watched by seven Sisters of St. Joseph. At night the sisters are relieved by the same number of brothers. The body is robed in the archiepiscopal purple soutan, with the baretta and surplice of lace and fine linen.

The solemn funeral procession will leave St. John's Grove at 8 o'clock to-night, and the body will lie in state in the Cathedral from the arrival of the procession till the hour of burial, 10 a.m. on Wednesday. The public will be admitted to view the body on Tuesday.

His Eminence Cardinal Taschereau will sing a Pontifical High Mass de Requiem on Wednesday at 10 a.m.

The funeral will be an elaborate one. Of the Church dignitaries of Canada and the States the following have advised Bishop O'Mahoney that they will be present: Cardinal Taschereau, Quebec; Monsignor Soule, Montreal; Monsignor Fabre, Montreal; Bishop Duhamel, Ottawa; Bishop Ryan, Buffalo; Bishop Dowling, Peterboro.

In addition to their Lordships, it is expected that over 200 priests will be present in the Cathedral on Wednesday, coming from all points of the continent.

Grief at the Capital.

OTTAWA, May 23.—Much regret was expressed here by all classes of people at the sudden death of Archbishop Lynch. References were made to the exemplary life of the deceased prelate in the various Roman Catholic churches to-day.

Methodist Mass Meeting in N.Y.

NEW YORK, May 13.—The immense auditorium of the Metropolitan Opera House was completely filled this afternoon by the throngs who came to attend the Methodist mass meeting. Rev. Dr. McChesney presided. After a hymn and prayer he introduced Bishop Warren of Denver, Col., as the preacher of the day. The bishop spoke from the text "Seek ye first the kingdom of God, and His righteousness, and all these things shall be added unto you." The bishop spoke of the idea of heaven, which contained noting material. Heaven was composed entirely of righteousness.

Steamship Agents Under Arrest.

VIENNA, May 12.—By order of the Austrian Minister of Justice the chief Vienna agents of the Anchor Steamship Company and another agent named Eichboom, who had charge of a batch of Hungarian peasants booked for America, were arrested yesterday. Both are charged with abducting men liable to military service, and with extorting money under false pretences. The peasants have returned to their homes and the agents have been imprisoned and their papers seized.

The Daily Review.

MONDAY, MAY 14, 1888.

AT ST. PAUL'S CHURCH

ANNIVERSARY SERMONS BY THE REV. MR. MACKAY

Pastor of the Leading Presbyterian Church of Montreal—Two Eloquent Efforts Listened to by Large Congregations.

On Sunday the third anniversary sermons of St. Paul's Presbyterian Church were preached, the Rev. A. B. Mackay, of Montreal, officiating in the pulpit. In the morning the Church was well filled. A choir of thirty-two voices ably assisted Prof. Parker in rendering the musical portion of the services. There is a small floating debt hanging over the Church and the collections both morning and evening were for the purpose of wiping this off. The amount received was about $400. In front of the pulpit was a fine display of potted flowers and the effect was pretty.

Previous to commencing the regular sermon, in the morning, the rev. gentleman preached a short sermon to children, as he announced he was in the habit of doing every Sunday, in his own Church. He referred to the story of Nabor and David and pointed out the importance of obeying the eighth commandment.

After the usual exercises the Rev. Mr. Mackay chose as his text the first seven verses of the seventh chapter of Judges; reading as follows:—

"Then Jerubbaal, who is Gideon, and all the people who were with him, rose up early, and pitched beside the well of Harod: so that the host of the Midianites were on the north side of them, by the hill of Moreh, in the valley.

2. And the Lord said unto Gideon, The people that are with thee are too many for me to give the Midianites into their hands, lest Israel vaunt themselves against me saying, Mine own hand hath saved me.

3. Now therefore go to, proclaim in the ears of the people, saying, Whosoever is fearful and afraid, let him return and depart early from mount Gilead. And there returned of the people twenty and two thousand; and there remained ten thousand.

4. And the Lord said unto Gideon, The people are yet too many; bring them down unto the water, and I will try them for thee there: and it shall be, that of whom I say unto thee, This shall go with thee, the same shall go with thee; and of whomsoever I say unto thee, This shall not go with thee, the same shall not go.

5. So he brought down the people unto the water; and the Lord said unto Gideon, Every one that lappeth of the water with his tongue, as a dog lappeth, him shalt thou set by himself; likewise every one that boweth down upon his knees to drink.

6. And the number of them that lapped, putting their hand to their mouth, were three hundred men; but all the rest of the people bowed down upon their knees to drink water.

7. And the Lord said unto Gideon, By the three hundred men that lapped will I save you, and deliver the Midianites into thine hands: and let all the other people go every man unto his place."

This, he said, was a record of the sifting of Gideon's army. There was lots of bad material in it, and after the double sifting referred to, God's 300 chosen men stood forth and the result was a glorious vindication of God's manner of working. The text teaches us a great lesson and gives us a great warning. Gideon, who had only 32,000 men against 135,000 of the enemy, was faltering in his faith, his faith was strengthened. The enemy had just swept the land and were trained soldiers, and flushed with victory, while the Israelites were untrained men, who would rather run than fight. Disquieting rumors were heard among Gideon's men and the enemy had thus won the first success of the campaign. Gideon faltered in his faith, but when at his request God worked the double miracle, Gideon exclaimed, "I believe, God help my unbelief." To the trembling heart God always says "Believe, be not afraid." It has been said that the faith that requires to be kept up by miracles is a poor one, but the events as narrated in the text show how strong it is and how triumphant it was in the end. God gave the double sign asked for and in return he exacted a double sifting. When the 22,000 men were slinking away, what a great strain there must have been on Gideon's faith, but he remained steadfast, although he had only 300 men to face an enemy that outnumbered his army many times. His faith was firm and God was vindicated. The girders of a bridge are often tested with weights many times more than ever they will be called on to bear and Gideon was tested many times more than the ordinary mortal, but so firm was his faith that he came out triumphant. The text also conveys a solemn warning. Gideon thought his men were too few, but God said they were too many. God is a jealous God and he can't stand the vauntings of man against Himself. He may defeat us or give us success and when successful we should bow and praise Him. Things are much the same now as they were in the days of Gideon. Some of the modern preachers try to turn the church into a theatre in order to attract a crowd, but it is an established fact that inner corruption is worse than outside opposition, and that Providence is not on the side of numbers, as the great Napoleon once claimed, is amply established by the case of Gideon and the defence of the pass at Thermopylæ. There is a mixed multitude attached to the church and often its greatest danger is numbers. A big communion roll sometimes contains the names of unholy men, who have not really given their hearts to God. The angels of God rejoice when a sinner is converted, but some take the communion who are not entitled to rank as Christians. In a Spiritual body, quality and not quantity is the great desideratum. The text should give us great encouragement in the work of the Lord and our consolation should be that God is with us. God does not try us as he did Gideon, but at the same time a similar process of sifting is going on. The difficulties that we have to contend with and the burdens and responsibilities placed on us are but portions of this sifting. He is continually trying us. Many are found to be cowardly and are dismissed from the ranks, but the few who are brave, bear up and march forward proudly among the elect. When Shakespeare put the words in the mouth of Henry V. just before the battle of Agincourt, he must have had Gideon in his eye. We should never lose heart because many have not heart—for this business, as there are always too many when so many are dissatisfied. The text points out the right kind of workers—God's chosen. He chooses his own instruments and the manner in which they are chosen is pointed out. They must be brave—God never wrought any deliverance with a coward—strong and courageous and add virtue to faith. Many people are afraid of the responsibilities of a Christian and point out the difficulties that lie in the way and such persons can never be among God's chosen band of deliverers. Christians must be whole hearted and zealous, and as John Wesley said, ten men who love God only and hate sin, will shake the gates of hell. After the first test, 10,000 men remained and a more delicate test was necessary to choose the elect, and the drinking test was chosen. The 300 who were selected were so full of the work that was ahead of them, they were so full of enthusiasm that they had no time to drink at leisure, while those who were rejected, were willing to fight, but they wanted to do so comfortably. The same is the case exactly in the present day. The men who do the solid work of the church are in a small minority. In fact it is a question if the the difference between the efficients and the non-efficients is altered in the least since the days of Gideon. The proportion is about 1 worker, 30 easy-going and 70 who don't care. A decided majority do things in the leisurely, all absorbing way that they are being drawn on. Every Christian like every soldier must endure hardships, and we may use our difficulties to aid us, and if we do not make the means in the end we will be disqualified. He believed in innocent and healthful amusements, in moderation, but like everything else, if they were indulged in to excess they would have a bad effect. If lapped they will help, but if a deep draught is taken, it will place a person in the rear rank of workers. A young man after a night out feels languid and goes about his work in a half hearted manner, while a young woman after a night of gayety goes about the house, untidily dressed, cross and sullen and both are preparing for the rear rank. The large majority of people may be classed as the unnoble mediocrity, and excesses, such as described, do much to prepare persons for it. It is the noble workers who take such things sparingly, who are destined to overcome and overthrow sin. He had frequently asked the question in Montreal and elsewhere, without ever receiving a satisfactory answer, if any person ever knew or heard of a noted epicure, a confirmed dancer, or a notorious pleasure seeker, who was noted for his piety. If such a person could be found he would regard him as the greatest wonder on God's earth. Where do our missionaries come from? Not from among the fashionable families, who are continually in a whirl of gaiety. He would as leave try to raise prize roses in his cellar as to look in such a quarter for a nursery of missionaries. Every person should have an overmastering ideal that will draw them on and all should glorify God and enjoy Him forever.

IN THE EVENING.

In the evening, the commodious church was filled to the doors and chairs had to be brought into requisition to provide the seating accommodation required. The Rev. Mr. Mackay preached another eloquent and impressive sermon taking as his text the following words, "The path of the just is as a shining light. It shineth more and more unto a perfect day."

THE SPORTING WORLD.

Close of the Six Days' Walking Contest—Baseball Record—Spots of Sport.

NEW YORK, May 12.—Madison square Garden was packed to-night to witness the conclusion of the six-days' go-as-you-please contest. Of the forty-three men that started on in Monday morning only seven remained on the track. They were Littlewood, Guerrero, Herty, Noremac, Golden, Hughes and Campana. Early in the evening it became evident that Littlewood would not be able to break the record of 621 miles made by James Albert in February last. He was trudging slowly around the track and limped painfully. He put his right foot down gingerly, and it was evident that that member was in bad shape. His trainer, when asked what the trouble was, said that for the last three days Littlewood had been suffering with a split toe, which had become so bad that the bone struck the bottom of his shoe every time he stepped on it.

At 7 o'clock the odds were three to one that the record would not be broken, with no takers. Between that hour and 9.40 o'clock, the time of his final retirement, Littlewood paid frequent visits to his hut, but at every reappearance he was heartily cheered, while the band played enlivening airs. Hughes came out about 8.30, having been off for several hours. He was a most pitiable sight. He could hardly move his feet along the track, and was five minutes making one lap. Peter Golden completed his 525th mile shortly after 8 o'clock and retired. Littlewood surprised everybody shortly before 9 o'clock by breaking into a run. He kept up the pace for a lap, when he had to give it up. Littlewood left the track a few minutes before 9 and reappeared at 9.40. He was so badly broken up that Guerrero helped him around. The winner was presented with a floral horse-shoe, which Champion Albert carried around the track by the side of the Englishman. Then Littlewood left the track for good. The total receipts are estimated at $18,695.50. Half of this was divided among the five men who covered the necessary 525 miles. Littlewood got 50 per cent., or $4673.88; Guerrero, $1802.55; Herty, $1402.17; Noremac, $934.78; and Golden, $467.03.

The following is the official distance and time: Littlewood, 611 miles, 570 yards, in 141 hours, 44 minutes; Guerrero, 589 miles, 1380 yards, in 141 hours, 49 minutes; Herty, 573 miles, 1130 yards, in 141 hours, 49 minutes; Noremac, 533 miles, 470 yards, in 141 hours, 58 minutes; Golden, 529 miles, 260 yards, in 141 hours, 43 minutes; Hughes, 495 miles, 880 yards, in 140 hours, 9 minutes.

At 10 o'clock Referee O'Brien declared the race officially closed.

THE WINNER.

George Littlewood is an Englishman, having been born at Sheffield, the birthplace of many well-known pedestrians. In the "Hardware District," as it is called, spriating is a sport generally indulged in, and boys on the streets can perform well at short distances. It remained for Littlewood, however, to show that with speed Sheffield could also turn out stayers. This is his third appearance in this country. On his first he made the best record for one, two and three hours in a six-days' race. That was on May 23, 1881, when Littlewood was only 20 years old. He ran 9 miles 1265 yards in one hour, 18 miles 1630 yards in two hours, and 26 miles 1490 yards in three hours. These records have not yet been eclipsed. He, however, was at that time too young to stand the strain of a punishing race and early gave up the struggle. When he returned to England he set at work to retrieve his lost reputation and gradually did so by winning several good races. It was not until 1884, however, that he made any remarkable records, but in November of that year he placed to his credit figures that are still the best in the world for 12 hours, 24 hours, 36 hours and 48 hours in a 12-hour-a-day race. He made in 12 hours 89½ miles; in 24 hours, 162 miles 704 yards; 36 hours, 229 miles 1408 yards; and 48 hours, 296 miles 1056 yards. His next great performance was made in this country on his last visit here in 1887, when at Philadelphia he defeated Jim Albert, the present champion, and a large field with the utmost ease, doing 569 miles. The above contest was his next appearance in public.

In brief and to the Point.

Dyspepsia is dreadful. Disordered liver is misery. Indigestion is a foe to good nature.

The human digestive apparatus is one of the most complicated and wonderful things in existance. It is easily put out of order.

Greasy food, tough food, sloppy food, bad cookery, mental worry, late hours, irregular habits, and many other things which ought not to be, have made the American people a nation of dyspeptics.

But Green's August Flower has done a wonderful work in reforming this sad business and making the American people so healthy that they can enjoy their meals and be happy.

Remember:—No happiness without health. But Green's August Flower brings health and happines to the dyspeptic. Ask your druggist for a bottle. Seventy-five cents.

HOUSEFURNISHINGS.

At this season many Housekeepers are replenishing their supplies of Tableware and China. City folk are furnishing summer cottages; country folk are filling up the dressers and cupboards of the old homestead; town's folk are picking and choosing here and there. Many would be glad to know of a place whose special business is to meet these wants and desires; that aims to furnish essentially good wares at consistently low prices; that offers the choice of many different dinner services, and yet does not compel you to take an entire set of any pattern, but allow you to select each course of a new design, or buy any portion of the set you may need; that does not try to impose ideas or wares upon purchasers, and yet is ready to advise which of the many wares is most desirable and suitable; and, if wished, will make a careful selection of pattern. When you want Tableware will you give us the opportunity to serve you.

Finished at Last.

About one o'clock on Sunday morning, the embers of the fire on the river bank were fanned up again and the portion of the old building that remained vanished in smoke. The fire made a great blaze and a police officer had to stand at the bell rope to keep people from sounding an alarm. A couple of the men from the fire station remained at the scene to see that no harm was done. This was the third time that the building was on fire.

At the Y. M. C. A. Rooms.

On Sunday afternoon the Rev. A. B. Mackay, of Montreal, addressed a large congregation of young men in the Y. M. C. A. hall. His theme was, "Wanted, a Man," and his address was highly interesting and instructive. At 8.30 in the evening the Rev P. Clifton Parker gave an address in the hall to another large congregation, and his address was highly appreciated. The Y. M. C. A. Quartette led the singing, which greatly assisted that part of the service.

Escaped.

Some few years ago it will be remembered that a young man named John Ferguson was sent to penitentiary for a term of two years, for burglarizing the store of Messrs. Mills Bros. Since he gained his freedom he has turned out to be an expert crackman and it is strongly suspected that he was implicated in the attempted burglary at the office of the Dickson Company, a few months ago. He was arrested, it will be remembered, for stealing a hand car, at Whitby, and was committed to Kingston, unner the name of Greenfield, which, it is said, is his proper name. As there was a prior conviction against him he was sent to the Central Prison, to serve a six month's term, before being taken to Kingston. One day last week he was working in the yard with another convict and the two managed to secrete themselves in a box car and thus got outside the walls. Ferguson escaped and is still at large, but his chum was soon captured. Ferguson is well known here and it is not probable that he will call this way, but be that as it may, the police would like to interview him.

Quite Clean.

The two tramps who appeared at the police court this morning, looked quite respectable, after passing through gaoler Nesbitt's hands. There were brushed up, had their hair combed and were shaved. They certainly did not look much like desperate burglars.

IT is gratifying to know that The Pantry is rapidly taking its stand, side-by-side with the first class groceries of the town. Inspection of goods and prices invited. d107

St. Paul's Church.

Anniversary services, Monday May, 14th In connection with the Sabbath services there will be a service of praise, on the evening of the above date. A choir of over 50 voices will present a splendid programme. Silver collection at the door 3d11 2

The Barracks.

Work on the new Salvation Army barracks, on Simcoe-st., is progressing rapidly. The basement, the full size of the building, has been finished. The front is of stone, up to the second story, and the remainder of brick. It is not known yet when the opening will take place, but a big time generally is promised, when the event occurs.

New Factories.

The new woollen factory near Hilliard's mill, to be occupied by Mr. E. B. Wilson, is being erected rapidly. The first storey, of stone and brick, is about completed, and the other storeys, which are to be of frame, will soon be put up. Mr. Wilson expects to begin operations about the first week in June.

The Cummings woollen factory, at the Otonabee bridge, will soon be in full blast. The new brick addition at the rear is about finished and the new machinery will be placed in position.

Discharged.

Joseph Thorp and Thomas Fliz, the two tramps who were at one time supposed to know something about the recent burglaries, and who were remanded on Thursday, were at the Police Court this morning, where quite an audience had assembled. Both men were questioned by the P.M. Each said he was a paper maker, hailing from across the lines. They had been at Campbellford, but could no obtain work at their trade. Hearing that a railway was being constructed here, they applied for a job, but did not get one. In the meantime to keep things running, they embarked in the scissor sharpening business and had been in town only four days when they were arrested. They were discharged upon promising to leave town at once.

The Agricultural Society.

A meeting of the Directors of the West Riding Agricultural Society was held on Saturday afternoon. President Rutherford occupied the chair and the others present were Messrs. Vance, Moore, Fair, Stratton, Collins and Forster. Mr. D. H. Moore acted as Secretary. After reading the minutes, the resignations of Messrs. D. D. Gallettly and Wm. Collins, as secretary and director respectively, were accepted. A number of accounts were ordered to be paid. On motion Mr. Wm. Collins was appointed secretary and Mr. John McClelland was appointed a director, in his place. It was decided to hold the annual exhibition on Tuesday, Wednesday and Thursday, September 25th, 26th and 27th, and that an invitation be sent to the Hon. Mr. Drury, Minister of Agriculture, for Ontario, to be present on the second day and formally open the exhibition. Considerable discussion took place regarding the recent stallion show and it appeared that only the owners of one or two of the horses that entered had complied with the conditions of the bill, in producing certified copies of pedigrees. Nothing was done in the matter and the meeting adjourned until the first Tuesday in June.

THE LATE ARCHBISHOP.

Requeim Mass at St. Peter's Cathedral—Panegyric by Bishop Dowling.

At 9 o'clock this morning a solemn requeim mass was celebrated at St. Peter's Cathedral for the repose of the soul of the late Archbishop Lynch. His Lordship Bishop Dowling officiated, assisted by Father McEvay as deacon and Father Rudkins as sub-deacon. A large congregation also assisted, including the children of the schools.

Immediately after mass, Bishop Dowling delivered a short panegyric on the life and labors of the late Archbishop. He dwelt particularly on the sacrifices he had made when a young man, leaving his home and country at an early age and consecrating himself to the service of God in a religious order. He referred to the late Archbishop's work as a missionary in Texas at a time when that territory was the refuge of wicked men who had fled from justice. He spoke of the personal friendship that existed between them. When a student at college he (Bishop Dowling) had the honor of presenting the Archbishop with the first address he received in Toronto on the eve of his consecration as Bishop of Toronto. By the Archbishop's advice his Lordship remained in Canada and went to Montreal to finish his studies. It was owing especially to the advice of the Archbishop that Peterborough was erected into and episcopal see and the late Bishop Jamot appointed to it, and it was at the Archbishop's particular request that he (Bishop Dowling) accepted the bishopric, the Archbishop promising to sub-divide the diocese and appoint another bishop for the northern portion if the labor was found to be too much. His Lordship dwelt on the duty of prayer for the departed, and on the great responsibility of Bishops in having to account not only for their own lives, but also for those of the clergy and people entrusted to their charge. In conclusion he urged the people to imitate the virtues of the late Archbishop and to live in the hope of meeting him in a better world.

The funeral will take place at the cathedral in Toronto at 10 o'clock on Wednesday and Bishop Dowling expects to be present.

3,000 boys and girls in Peterborough have voted that The Pantry is a grand institution for supplying their wants. d107

For England.

This afternoon Mr. Wm. English shipped two "nests," one dozen, canoes to London, England. He also sent one to Hamilton, Peterborough canoes appear to be the favorites all over the world.

Reception Service.

The Rev. Prof. Wallace, M. A., B. D., of Cobourg, occupied the pulpit of the George-st. Methodist church on Sunday, morning and evening, and preached two eloquent sermons to large congregations. At the evening service over thirty members were received into membership. About fifteen of the members were transferred from other Methodist churches and the remainder were new members. They were received and welcomed by Prof. Wallace and the Rev. S. J. Thompson.

Mission at St. Peter's Cathedral.

The Rev. Fathers Connelly and Leroux, two Jesuit fathers from Montreal, commenced a mission at St. Peter's Cathedral on Sunday. Father Leroux celebrated mass in the morning, and Father Connelly preached a sermon, taking his text from the first chapter of Acts, "Ye men of Gallee, why stand ye gazing up," &c. He sketched the most important parts of Christ's life and dwelt on the necessity of having faith in him—of giving an intellectual adhesim to the truths of Christianity that would descend from the head to the heart and cleanse and purify it, and of a faith that would produce works. The Jesus who had gone to heaven would return for his people, and as He ran His course, they should run theirs and imitate Him.... The mission will continue all week. Services will be held at 5.30, 8 and 9 o'clock in the morning. At the 8 o'clock mass Father Leroux will preach in French and at 9 o'clock there will be a sermon in English. At the evening service—7 o'clock—instruction will be given in French, and at 7.30 prayer, followed by a sermon in English and concluding with the benediction of the blessed sacrament. At 3 o'clock in the afternoon there will be a special instruction for children. Towards the end of the week priests from the neighborhood parishes will join the retreat, and the mission will be concluded next Sunday evening.

Right now is the time to use a good Blood Purifying Medicine. Lose no time in getting a bottle of Dr. Carson's Stomach Bitters. It will do you good. Sold by all Druggists.

Need Not Hurry.

The Orillia Packet says:—Peterborough need not be in a hurry about city incorporation. At present it is the first town of Ontario, but even 10,440 population does not make a specially important city.

Masonic Excursion Committee.

Every member of the joint committee on Masonic excursion is requested to attend an urgent meeting in the Masonic Hall tomorrow (Tuesday) evening, at seven o'clock sharp.

Her First Trip.

The steamer Golden Eye made her first trip of the season this morning, going down as far as Harwood. She carried a cargo of salt, lumber and general merchandise. She will begin her regular trips at an early date and will run the first excursion, on the Queen's birthday, to Jubilee Point.

DIED.

MCNEIL.—At Ashburnham, on Sunday, May 13, CHARLES MCNEIL, aged 84 years.

There is no danger to human life more to be dreaded than that which arises from vitiated blood. Dyspepsia, rheumatism, headache, and general debility, all result from it, and are cured by the use of Ayer's Sarsaparilla Take it this month. Six bottles, $5.

LINDSAY.

POLLED ANGUS.—On Thursday there passed through here from the stock farm of M. Boyd, Esq., Bobcaygeon, a splendid herd of Polled Angus cattle, en route to Chicago, to the show that is being held there. Mr. Boyd bids fair to bring to Canada the $10,000 prize that is offered for the best herd of 75 cattle. They are estimated to be worth at the very lowest figure, $500 each. For one splendid young bull, three years old, the offer of $1,000 was made in Bobcaygeon, but Mr. Boyd preferred to let him go with the herd.—Warder.

BRIDGENORTH.

Correspondence of the Review.

IMPROVEMENTS.—We are delighted to see how our energetic young men and also young ladies of our village are putting forth such strong efforts to improve the looks and also the state of our little village. On Saturday last there was quite a gang of our young ladies out working at the sidewalk nearly all day, as busy as nailers, and they succeeded in getting it laid as far as the post office, and we must say that they are making a good job of it. Hurrah for Bridgenorth! We will have a little village soon second to none in the Dominion.

PERSONAL.—We regret to learn of the illness of Mr. Wm. Walton, of this village, who has lately been stricken down with rheumatism. On Saturday last he took a severe turn, the pain flying to both his hands and wrists, rendering him utterly helpless. Medical aid was sent for and arrived in the afternoon, by whom the patient was soon relieved and is now, as we understand, in a fair way for recovering. We hope that Mr. Walton will soon be able to be out again.

LAUNCHED.—On Monday of last week Mr. W. B. Kelly launched his boat, the Bella Fair. She has been refitted up in side and all painted and is now in good running order. She started on her first trip to the back lakes on Wednesday morning under command of Captain True and Engineer Udy. They returned on Friday night, but owing to the strong head wind they had to leave their boom of logs a little below the village.

Whether on land or at sea, on the prairie or in the crowded city, Ayer's Pill are the best cathartic, being convenient, efficacious, and safe. For torpid liver, indigestion, and sick headache, they never fail.

McCausland & Son, of Toronto, are beyond question the easy leaders in the Ornamental Stained glass trade in Canada Their vast business extends form Nova Scotia to British Columbia, and thousands of public and private buildings bear testimony of this firm's ability to execute beautiful and durable windows of every description.

Want of Sleep

Is sending thousands annually to the insane asylum; and the doctors say this trouble is alarmingly on the increase. The usual remedies, while they may give temporary relief, are likely to do more harm than good. What is needed is an Alterative and Blood-purifier. **Ayer's Sarsaparilla** is incomparably the best. It corrects those disturbances in the circulation which cause sleeplessness, gives increased vitality, and restores the nervous system to a healthful condition.

Rev. T. G. A. Coté, agent of the Mass. Home Missionary Society, writes that his stomach was out of order, his sleep very often disturbed, and some impurity of the blood manifest; but that a perfect cure was obtained by the use of Ayer's Sarsaparilla.

Frederick W. Pratt, 424 Washington street, Boston, writes: "My daughter was prostrated with nervous debility. Ayer's Sarsaparilla restored her to health."

William F. Bowker, Erie, Pa., was cured of nervousness and sleeplessness by taking Ayer's Sarsaparilla for about two months, during which time his weight increased over twenty pounds.

MONA'S CHOICE.

BY MRS. ALEXANDER.

"A week ago I should have said certainly not! Now," her voice broke, "when I think of poor grannie's wistful eyes when I hesitated, I feel I ought not to refuse! Then she fainted away, as if she could bear no more. How can I rob her of her last hope, I, who have been so much trouble? And yet, the idea of marrying this man is —horrible!"

Her lips trembled, the long pent-up despair and anguish of her heart would be no longer controlled. Covering her face, she burst into tears, struggling hard to suppress the bitter sobs which would come.

"Why, my darlin', is he a monster?" asked Mme. Debrisay, dismayed.

"No—o," said Mona, when she could articulate. "He is a good-natured, well-meaning young man, rather tiresome and heavy. I used to dance with him last season, and he called here a few times. Then he was staying at the Chase (oh! it was such a pleasant party!), but he did not seem to notice me much. Then this morning came a letter from him expressing a wish to marry me."

"Small blame to him!" ejaculated Mme. Debrisay. "And are you quite sure he is rich?"

"I know nothing about it, but grannie seems quite sure."

"Is he a fright?"

"Well, no. Lady Mary thinks him rather handsome; but I have seen some quite ugly men I thought better looking."

"I'll ask you just one question more; don't think I want to pry into your heart—but, do you love any one else?"

"No, Deb, I do not," said Mona, believing she spoke the truth, and meeting her friend's eyes steadily.

"Then, my dear, you marry him out of hand, and turn your back on misery. That man is the right sort; he stands by you in the time of trouble; before a year is out you will be ready to eat him—mark my words!"

"If I could hope to do so!" said Mona, with a deep sigh.

"Ah! Mona, my dear child! it's better to find love growing after marriage than to watch it die out; and rake the ashes together, and try and try to keep it alight, and burn up your own heart in vain! Take this honest soul, and make him happy, and you'll be happy yourself. What's his name?" concluded Mme. Debrisay, abruptly.

"Leslie Waring—"

"Hem! I never heard it before—and I hear a lot of gossip. Is he a new man?"

"I fancy he is, but I know very little about him."

"You are looking ill, very ill, dear! I suppose you never go out? No! I thought not. Now my pupils have not come to town yet, so while I have time I'll come over and stay with Mrs. Newburgh, so that you may take a little walk; nothing like fresh air for keeping the nerves in tune."

"Thank you very much—and now I am afraid I must go back to grannie."

"Well, God bless you! Mind you write me word to-morrow that you have agreed to marry Mr. Waring. There's my address. Ain't my new cards pretty?"

CHAPTER III.—YES.

Sleep partially restored Mrs. Newburgh; but next morning her granddaughter observed that she was restless and watchful—especially of herself. The doctor forbade her leaving her bed, as the weather was extremely cold, and a chill might be fatal.

When Mrs. Newburgh's *toilet de lit* was made, and her pillows properly arranged, Mona took her work and sat down beside her—feeling quite sure that her grandmother was making up her mind to speak. This change in the somewhat abrupt domineering old woman touched her—it was such a confession of utter defeat.

"You will be glad to see Sir Robert, grannie," she began. "He will give us some good advice."

"Not half so good as Mr. Oakley can," returned grannie, querulously. "He is a mere country gentleman, and nothing can save me from total ruin. What troubles me is that letter of Mr. Waring's. It ought to be answered. I think I could manage to write, if you bring me the large blotting-book."

"Yes, of course, it ought to be answered," returned Mona, very gravely.

"But how?" asked Mrs. Newburgh. "If you refuse to see him, all is over. If you consent, it implies acceptance."

"Not quite, grannie. I have been thinking all night long what I ought to do—what I can do. It seems impossible to decide. I believe I could make up my mind better if I had some conversation with Mr. Waring. I am so indifferent, that I do not think his presence would even confuse me."

"Let him plead his own cause," said Mrs. Newburgh, stretching out her hand for pen and paper. "He will induce you to take a different view, I am sure." With difficulty she traced a few lines, excusing their brevity on the score of illness, and asking him to call on the following day, when Miss Joscelyn would receive him. "You must address it, dear. He does not know your hand."

"It is of no consequence," said Mona, removing the writing materials, and taking out an envelope, she sat down to direct it.

"It is not natural, Mona, to be so cold and indifferent. Yet I have not detected any liking on your part for any other man, except, indeed—"

"No, no!" interrupted Mona, quickly. "I have no preference for anyone, rest assured, dear grannie."

"Then, Mona, you will love young Waring when he is your husband?"

"Oh! yes, I dare say I shall. Now, grannie, I am going to read you the paper, try and listen—it may rest your brain a little."

"I will, Mona, I will, because you have given me a little hope."

The rest of the dull, drear November day Mona moved slowly perhaps, but firmly, as if keenly alive to the work she had to do. Late in the afternoon a card was brought her. "Captain St. John Lisle, —th Hussars." She thought an instant, penciled a line on it, "So sorry! I can not leave Mrs. Newburgh," and send it back to him.

Captain Lisle was not the only visitor to Green street that day. Late in the afternoon, Sir Robert Everard was announced.

"I cannot see him," murmured Mrs. Newburgh. "You must go, Mona—explain how incapable I feel."

Sir Robert was a thorough country gentleman. He seemed to bring an atmosphere of the woods and fields with him into the chill, dull dining-room, which had a deserted air. A middle-aged, middle-sized man, plump and rosy, with pepper-and-salt covered mutton-chop whiskers, looking always as if he had came fresh from a bath. His shirt front was the snowiest, his clothes the glossiest, his voice had a mellow ring in it, which atoned for the loud, authoritative key in which he usually spoke.

To be continued.

THE MINING COMMISSION.

The Royal Board Holds its First Meeting—Members and Ministers Present.

TORONTO, May 14.

The first meeting of the royal commission to enquire into Ontario's mining resources and to suggest the best means for developing them took place on Saturday afternoon in the Speaker's Chambers at the Parliament Buildings. Mr. Charlton, M.P., the chairman, Mr. Blue, the secretary, and Messrs. Bell, Merritt and Coo' were present. There were also at the meeting Hon. Mr. Mowat, Hon. Mr. Hardy, Hon. Mr. Fraser, Hon. G. W. Ross and Hon. A. M. Ross. A preliminary line of action was drawn up, which will very likely be modified and varied.

The members of the commission will devote themselves to the ascertaining of the mineral wealth of the Province and to projecting means for its legitimate development. No official visits to different mining districts will be made till the dissolution of the Dominion Parliament, of which Mr. Charlton is a member. During the interim different members of the commission will prosecute researches with a view to obtaining information to place before the commission.

The Brewers' Lockout.

CINCINNATI, May 13.—The brewers' lockout caused by the boss brewers combining to break up the Brewers' Union, has received a severe blow. The Banner brewery having been offered for sale, or a controlling portion of its stock, a syndicate mainly of saloon-keepers was formed and the stock purchased. All the non-union employes were discharged and union men were substituted. It is now said that the boss brewers' pool will give up its organization since its integrity is broken.

Deserted by Their Manager.

PITTSBURG, May 12.—W. A. Covert, the manager of the "Checkered Life" Company, which has been playing at the Academy in this city, skipped the town last evening. The sudden departure of the manager greatly inconvenienced the members of the company, but they succeeded in getting away to Cleveland to-night.

Terrible Suffering of Two Trappers.

EDMONTON, N.W.T., May 12.—Last fall two trappers, McMillan and Golden, left here for the Athabasca and Pembina Rivers. They lost their provisions, and severe weather made hunting impossible. They boiled their furs and ate them and waited for death. Golden died April 20. Ice soon began to move and McMillan drifted down in his canoe, reaching Athabasca Landing in a most pitiable condition.

Cummings Defeats George in England.

ABOUT EARLY CLOSING.

We have decided to close our store during the Summer months at 7 p. m. each day, Saturday excepted.

We would ask our customers and friends to aid us in this matter by sending in orders or calling to make purchases as early as possible in the day.

The early closing movement will be a benefit to all who carry out the plan we feel assured and we hope that our request for early buying will meet with a general response.

AS MUCH A SECRET AS EVER

To the Editor of the Review:—SIR—How in the world has C. B. ROUTLEY jumped into such a big slice of Wall Paper trade? Why, it seems as if one couldn't pass his store without running against a load of Wall Paper in the arms of some pleased looking customer. I'm half inclined to think there must have been lots of boodle in the Wall Paper business before ROUTLEY started it and that the people have found out that he has broken the combination. Eh? what did you think, Mr. Editor? And yet you occasionally hear of spasmodic attempts to get down to ROUTLEY'S prices, in order to head him off; but still it seems as much a secret as ever how he keeps up the run

TURNBULL'S.

We wish to call your attention this week to our Large Stock of Black Cashmeres. They range in price from 25 cents a yard up to $1.20 The one at 25 cents is a good black with sightly appearance which is all we say about it. But when you advance to 45 cent you have a nice rich color, particularly suited for mourning, good weight and fully 44 inches wide. At 50, 60, 75, 85, 90 and $1.00, we have a new line by a French maker which is much nicer than the old make and deservedly popular, being much finer in appearance, more like a Henrietta. To be had in blue and jet black.

GERMAN CASHMERES.

These Goods are made in Saxony where the makers vie with each other in producing a superior article. We have secured a make that cannot be spoken of too highly. It is a double warp and finished like a satin. They are now open for inspection, (on 3rd counter to left from George-st. entrance).

In our Custom Made Tailoring Department we show a nice range of Pantings, Worsted Suitings, Light Overcoatings, etc. Only first-class work turned out. (2nd counter to the right.)

Early last fall when the public began gathering around their stoves and were thinking about Flannels and Blankets, we were looking ahead and gave large orders with the leading manufacturers of Chambrays, White and Colored Muslins, Lawns, etc. These Goods are now in stock, and will be found on the first counter to the right.

Our first stock of Sailor Hats has been bought up rapidly which is sufficient evidence that they are the correct thing. Our second shipment, bought at a much lower price is now in. All sizes and styles to choose from. The prices will please you when you see the styles and quality.

NOTES FROM OTTAWA.

Proposed Paper Pulp Factory—The Farewell Banquet to His Excellency.

OTTAWA, May 15.—Sir John Macdonald, Sir Hector Langevin and Mr. Bowell have been invited to attend the laying of the corner stone of the new Napanee postoffice on June 12.

Messrs. Howell & Co., who propose to start a paper pulp factory, using sawdust for manufacturing purposes, and employing twenty hands, have been recommended by a committee of the Council to ten years' exemption from taxation, provided that twenty hands are regularly employed.

Madame Pundita Ramahai, the high caste Hindoo widow, will visit Ottawa to-morrow in aid of the oppressed child widows of India.

The Parisian, which sails from Quebec on May 26, carries a distinguished passenger list, including the Governor-General, Attorney-General Mowat and the Bishop of Ontario, besides many delegated clergymen.

The farewell banquet in honor of His Excellency in the Russell to-morrow evening is to be followed by a reception in the large drawing-room, and promises to be a notable affair.

The Senate amended the Customs Act today, increasing the penalty for undervaluation of goods to 15 per cent. instead of 10 as formerly, and allowing merchants to open packages of goods without special permission of the customs after three days.

The second reading of the bill divorcing W. H. Middleton will be taken to-morrow, and the committee will proceed on Wednesday to take evidence. As the bill is opposed it will not be reported in time to pass this session.

General Manager Hickson of the Grand Trunk Railway is here on business with the Minister of Railways and Canals.

There is some talk of the Senate calling Senator Alexander before the bar of the House for alleged insults to Mrs. Allan, wife of Speaker Allan.

THE "HAYFORK" COMMITTEE.

Fraudulent Notes Galore—Mr. Hudspeth, M.P., Relates His Experience.

OTTAWA, May 14.—Adam Brown's "Hayfork" Committee met again this morning. Several letters were read from persons willing to give evidence before the committee, and one of the writers, a Western Ontario man, stated that to his knowledge there had been entered in the courts of that district suits for at least $100,000 worth of fraudulent promissory notes within the past year or two. It is known that a large portion of those signed are paid by the victims without going to law.

Mr. Hudspeth, M.P., related the experience he had had in defending suits arising out of these swindles. At one assize he had three cases where the innocent holders had obtained for value apparent promissory notes fraudulently obtained from parties whose names appeared on them. The signatures had been attached to the contract, but the top and bottom of the paper being cut off, the middle portion remaining constituted an ordinary promissory note without conditions. He had found record of parallel cases tried in England lately, in which the judge decided that where the mind did not go with the signature the latter could not be held to be binding. By citing this precedent he had won all three cases. He knew, however, that lots of Ontario county court judges time and again made unfortunate people pay these notes. He knew of hundreds of such cases where payment had been made.

At to-morrow's meeting there will be a number of farmers present to give evidence concerning frauds of which they have been the victims.

THE SUPPLEMENTARY ESTIMATES.

They Total $1,325,684 and Include $50,000 for Toronto Harbor Works.

OTTAWA, May 14.—The supplementary estimates for the fiscal year ending June 30, 1889, were submitted this afternoon. They total $1,325,684, of which $75,000 is chargeable to capital and $1,250,684 to consolidated fund. Among the items are:

Printing and revising voters' lists	$ 30,500

Belleville postoffice furniture, etc	175
Monument to Col. Williams	1,000
Widow of W. F. Whitcher	3,000
Gratuity to family Hon. Thos. White	8,342

The last item is equal to the amount of the late Minister's salary from the date of his death to June 30, 1889.

The Cannons Committed.

KINGSTON, May 14.—At the Cannon's trial on Saturday J. H. Cannon was committed for trial for falsifying his books, and Dr. Cannon and J. H. Cannon, on a charge of receiving and concealing goods and chattels, were committed for trial. The Cannons were bailed in $4,000.

A GIRL KICKED TO DEATH.

A BRUTAL MURDER COMMITTED IN BROAD DAYLIGHT.

Bertha Ussher Clubbed and Beaten to Death in a Hovel on Victoria Lane—The Notorious Tom Buckley Said to Be the Murderer—The Murderer in Prison.

TORONTO, May 15.—A most revolting murder occurred here yesterday at No. 72 Victoria-lane. The notorious Tom Buckley, who left the hospital only a few weeks ago after being stabbed by Tom Jones in a row on Adelaide-street, beat to death in her bedroom a young woman of 20 named Bertha Ussher, alias Robinson, with whom he had for some time been living. The girl was on the street at 11 o'clock, and appeared then to be under the influence of liquor. She seems to have gone home and to her room, where Buckley must have been and where the murder occurred. The body of the woman showed that she was kicked and clubbed to death, as evidenced by the broken pieces of a chair which lay upon the floor. There were no blows on any part of the body save the head and neck, which are covered with black bruises, the fatal blow apparently being one received behind the ear. Mary Palmer and Sophia Crier, two women who were in the house at the time of the murder, gave the alarm, and the police were on the spot immediately. They arrested Buckley and the women and took them to the police station. Buckley was apparently also under the influence of liquor.

The girl retained a spark of life until after 12 o'clock. Dr. E. E. King arrived about half-past 12 and found life extinct. The body was taken to the morgue, where an inquest will be held this evening at half-past 7 o'clock. The parents of the dead girl live in Brantford.

Annie Dunn, a little girl about 10 years old who lives in the next house, said she heard breaking of dishes going on about 11 o'clock in the lower part of No. 72. She heard a man say "I'll show you what you'll get," and then shouts of "O, Tom, don't," from a woman. When the noise stopped the little girl went to the window of the room upstairs where she was and saw Buckley going down the lane. Then she saw a girl come out who told a stout woman whose name the child did not know to go for the police. Annie Dunn felt quite certain that the man who was arrested was the person who had shouted "I'll show you what you'll get."

Tom Buckley has a Police Court record that stands almost without a rival in Toronto. His life has been one of continual lawbreaking and ruffianism. He has now probably added murder to his long list of crimes. His father was an old soldier who formerly lived in Church-street.

The Ambitious City's News Budget.

HAMILTON, May 15.—The Macassa, the new steel steamer for the Toronto-Hamilton route which has been built on the Clyde, will sail for this country on Wednesday. She is expected to arrive here about June 1.

The City Hall employes now work until 5 p.m. in summer and 4 p.m. in winter. They want the time changed to 4 in summer and 5 in winter.

Mr. S. John Ireland, of the Hamilton Art School, has again been asked to write the examination papers on plane, solid and descriptive geometry for the City of London College, London, Eng.; also for the above subjects and building construction for the Birkbeck College, London.

Dan O'Connor, who escaped from the Hamilton Asylum on Friday, was found at Hespeler and brought back to the institution to-day.

At the Police Court this morning Robert Bessey was fined $5 and John Ibbotson and Walter Findlay $3 each for jumping the Dundurn fence in order to see a ball game.

EXCITED METHODISTS.

A Sensation in the General Conference—Charges of Lobbying and Combines.

NEW YORK, May 14.—Bishop Merrill presided at to-day's session of the General Conference. Rev. Isaac W. Joyce of Cincinnati read his report as fraternal delegate to the General Conference of the Methodist Church in Canada.

A resolution was introduced asking the Committee on Episcopacy to provide for the balloting for bishops so that one candidate shall be balloted for at a time. Rev. Dr. Buckley offered a substitute to the effect that lay delegates and ministerial delegates vote separately. This raised an exciting discussion. It was said there was lobbying going on for the candidates, but the members denied it.

Rev. B. E. Wheeler of Wisconsin said there was a suspicion in the minds of people that combinations did exist, and he could make statements that some members would not like to hear. [Cries from all quarters: "Make them!" "Make them!" "No!" "No!"] Dr. Wheeler grew excited and exclaimed: "Do you want them? I will not be bluffed out of making them if they are asked for." The cries increased, but Dr. Wheeler continued. He said he knew combinations existed, and it was a disgrace. Before the speaker could go any further his time expired.

Ex-Gov. Cumback of Indiana said it was evident that if the discussion continued it would only reflect on the conference, and he moved the previous question. There were a number of amendments offered. When the vote was taken everything was voted down and the discussion was closed.

A Missing Millionaire.

NEW YORK, May 15.—John B. Murray, after whose family Murray Hill is named, has disappeared from his home at 13 Washington-place. His wife, who reported his absence to the police, asserts that he has been abducted by his sister Agnes, who lives in Connecticut. Mr. Murray, who is immensely wealthy, is now over 60 years of age.

Guerrero Challenges the World.

NEW YORK, May 14.—The division of the money won by the pedestrians was made today. Littlewood received $3717; Guerrero $1436; Hertz, $1115; Noremac, $743; Golden, $371. Guerrero issued a challenge to run Littlewood or any man in the world in a six-days' contest for $5000 to $10,000 a side. He preferred a sweepstake race of six days. He also challenged Cartwright and the world to a sweepstake for the same amount for fifty miles. It is probable that Hughes and Hertz will accept the latter challenge. Cartwright has accepted, but it is doubtful if he can secure a backer. The race will be run at the Polo Grounds in five weeks. Hughes complained that he had received improper attention at the late walk, and that he had to go on the track the second day with wet clothes on because his trainer deserted him.

THE LATE ARCHBISHOP.

The Body of the Dead Prelate Removed to St. Michael's Cathedral.

TORONTO, May 15.—The remains of the late Archbishop Lynch now lie in state within the sanctuary rails of St. Michael's Cathedral, awaiting their final transfer to the grave without the walls to-morrow morning at 10 o'clock. At 8 o'clock last evening the body was removed to the Cathedral, followed by the largest funeral procession ever seen in Toronto.

Bishop O'Mahoney was the only representative of the Catholic episcopate present, the others not being expected in until to-day. There were fully forty priests there, the majority of them belonging to Toronto or its immediate neighborhood.

At 7.30 Bishop O'Mahoney proceeded to the room where the body of the Archbishop lay in its casket, St. Michael's College Choir being stationed in the stairway, and the solemn ritual of the office of the dead was begun. His Lordship intoned the "De Profundis," which was sung by the choristers in all the solemn cadence of the Gregorian chant. Then the Bishop sprinkled holy water on the body, walked round the casket waving the lighted censor, another hymn, "Libera Me," was sung, and the ceremonies, so far as The Grove was concerned, were ended.

It is estimated that fully 5000 people surrounded The Grove before the word for departure was given, and that half that number followed the hearse to the Cathedral.

It was 8.07 when the procession left The Grove, and it was 8.43 when the hearse stopped before the main entrance to St. Michael's, where a "Requiem" was sung. It is estimated that fully 3000 persons thronged the Cathedral. Father Laurent in vain requested the crowd to sit down, but few obeyed him, many standing on the pews, the better to view the scenes at the altar. The vespers for the dead were intoned and sung by the clergy and choir, while the undertaker and his assistants removed the casket-lid, exposing once more to view the remains of the dead Archbishop. The remains will lie in state throughout today and until to-morrow at 10, when the body will be committed to the earth.

It has been definitely settled that Archbishop Ryan of Philadelphia will be here in time for the funeral ceremonies.

Prairie Province Legislation.

WINNIPEG, May 14.—The Budget debate was not continued this afternoon. The bill making the Torrens system of land registration optional was passed after a warm debate, Premier Greenway, who strongly opposed the change, threatening to take further action in the matter. The Government was divided, Geo. Enway, Jones and Prendergast opposing and Martin and Smart supporting the bill. The License Act passed with a few amendments.

It was rumored to-day that the Government was securing evidence regarding the removal of Government property by a late official in order to arrest him.

After recess Mr. Douglas moved a want of confidence motion respecting the giving of the Government printing to The Free Press without competition. Premier Greenway defended the course of the Government owing to lack of time to advertise for tenders. A. F. Martin moved an amendment that while recognizing the principle of public competition the action of the Government was perfectly satisfactory under the circumstances. This carried, 19 to 8.

To Discuss the Treaty with Closed Doors.

WASHINGTON, May 14.—The Senate to-day in secret session decided not to open the doors when the fishery treaty is under discussion, nor to admit even official reporters. This is a rejection of both the Hoar and Riddleberger resolutions. The Democrats voted solidly against open session consideration. Further consideration of the treaty was postponed until Monday next.

A Question of Law.

DUBLIN, May 15.—In the case of Rev. Father McFadden of Gwedore, whose sentence to three months' imprisonment for holding unlawful meetings was increased to six months, the Exchequer Court has granted a conditional order directing that the present case be again brought up for argument on the question whether a County Court has the power to increase a sentence.

A Home Rule Victory in Dublin.

LONDON, May 14.—The election to fill the vacancy in the House of Commons for St. Stephen's Green Division of Dublin, caused by the death of Edmund Dwyer Gray, was held to-day, Thomas A. Dixon (Parnellite) being returned by 4919, against 2932 for Sexton (Conservative).

To Move the Address at Quebec.

QUEBEC, May 15.—Mr. Rochon, member for Ottawa County, will move the address in the Legislative Assembly to-day. Mr. Legris will be the seconder.

Their Appreciation Recorded.

MONTREAL, May 14.—The Protestant Ministerial Association this morning passed the following resolution: "That the Protestant Ministerial Association of Montreal, having noted with pleasure the wise action of His Grace Archbishop Fabre of the Roman Catholic Church in Montreal, desire to record their appreciation of his conciliatory Christian course in withdrawing his name from the petition asking the Council for permission to erect a statue of the Virgin Mary upon Mount Royal Park."

THE "BUCKET SHOP" BILL.

PASSED BY THE HOUSE IN COMMITTEE OF THE WHOLE.

Mr. Barron's Amendment to the Bill Amending the Dominion Elections Act Defeated on a Division—59 to 83—The Railway Bill.

OTTAWA, May 14.—In the House this afternoon the bill amending the Dominion Elections Act was read a third time and passed. The amendment by Mr. Barron providing that bye-elections must be held within twenty days from the issue of the warrant was lost on a division of 59 to 83—a party vote, the only exception being Mr. Skinner of St. John, who voted with the Government.

The bill respecting the assumption of the Quebec harbor debt and also that amending the Steamboat Inspection Act were read a third time and passed without discussion.

A lengthy debate took place in committee of the whole on the bucket shop bill, which was read a third time and passed.

After recess the Hart, Morison and Irving divorce bills from the Senate were introduced and read a first and second time, a division being taken on the Hart bill, when the vote stood 86 yeas to 34 nays, the Roman Catholic members voting in a body against the bill. The other two were carried nominally on division.

The House next went into Committee on the Territories Real Property Act, which was read a third time and passed.

Mr. W. C. Edwards, the victor in Russell County last week, was introduced by Mr. Laurier and Mr. Armstrong, and took his seat.

The consideration of the Railway Bill was resumed in committee. A lively discussion took place on the subject of granting of passes by railways. Mr. Lister gave notice that on the third reading of the bill he would move an amendment that in case of any member of Parliament accepting a complimentary pass from any railway company his seat shall ipse facto become vacant as if he were naturally dead.

Col. Amyot gave notice that he would move at a future day an amendment making it compulsory on railways to issue free passes to all members of the Commons and Senate.

At 2.05 the committee rose and reported progress on the Railway Bill and the House adjourned.

THE DOMINION OF CANADA.

Its Relations to Great Britain and to the United States.

NEW YORK, May 14.—Under the above caption The Tribune to-day prints a three-column letter, by Joseph Nimmo, jr., in which he says that these circumstances and events have awakened curiosity and prompted inquiry in the United States with reference to Canada: (a) The progress of Canada toward independent nationality; (b) the constant and strange profession by the Canadian people and Government of devotion to British institutions, and of fealty to the British Crown, while persistently pursuing the policy of throwing off every form of interference by the British Government in Canadian affairs, even to the matter of treaty making; (c) the movement in favor of British Imperial Confederation, which evidently has the sympathy and active co-operation of the chief political rulers of the Dominion, and which expresses itself in military preparations and in the establishment of steamer lines subsidized by the British Government and operated in connection with the "political railroads" of Canada; and (d) the recent rebellion of the Province of Manitoba against the National (f) authority, the denouement of which appears to be a comple surrender, at discretion, by the Dominion Government involving a virtual payment of damages for having asserted its authority.

The Tribune has this editorial resume of the letter:

The conclusion of the whole matter is this: Canada has been allowed to impose upon the forbearance and good nature of the United States. The restraints of international law and the engagements of reciprocal compacts do not interfere with sharp practice by which temporary advantages may be secured for the commerce of the Dominion. The ambitious designs of Canada have been pursued in a particularly aggressive spirit since the present Administration has been in power in Washington. Its Government and railway corporations have acted on the principle that any favor that might be wanted would readily be granted by the State and Treasury Departments, and that no indignities or outrages offered to fishermen would be resented, and that no commercial privileges withheld in violation of positive engagements would be demanded under menace of retaliation. The time is rapidly approaching when retaliation must be the answer to every act of injustice and every infringement upon the principles of international comity. Canada, by persisting in taking advantage of American tolerance and magnanimity, must in the end exhaust the patience of the powerful nation which freely and generously shares with it all the advantages of its geographical position.

Archbishop Fabre and The Post.

QUEBEC, May 15.—J. P. Whalen of Montreal states that he cannot understand why Archbishop Fabre has condemned the articles in The Post and The True Witness regarding the Papal rescript. The Post, he says, in criticising the rescript, was simply in accord with Bishop Moran of Australia, and he believed with the entire hierarchy of Ireland.

Gen. Boulanger declares that only a criminal or a madman would dream of aggressive war on the part of France.

The Daily Review.

TUESDAY, MAY 15, 1888.

COUNCILLOR M'NEIL'S RESIGNATION.

THE resignation of Councillor Andrew McNeil, presented at last night's meeting of the Town Council, was a surprise to the members. The resolution apopted by the Council voices the regret of his colleagues, and also of the whole town as well as Mr. McNeil's constituents of No. Two Ward. The step was taken by Mr. McNeil in order that he might be relievad of his public duties and have more time to devote to business and private affairs.

Mr. McNeil first entered the Council in 1884 as representative of No. One Ward. He was appointed Chairman of the Board of Health, and his energy in that capacity, and the time and attention he gave to the duties of the position, at the time when the Board was in its infancy, did much to improve the sanitary condition of the town. In 1886 Mr. McNeil was chosen as one of the representatives of No. Two Ward, the business ward of the town, which includes all the chief business houses, and was re-elected in 1887 and again this year. In 1886 he was Chairman of the License and Health Committees, in 1887 of the Fire, Water and Light and the License Committees, and this year of the Fire, Water and Light and Market Committees. As Chairman of the important Fire, Water and Light Committee Mr. McNeil rendered valuable services, and, putting his usual push and enterprise as well as business capacity, into the work of the Committee, he succeeded, with the aid of the Committee and Council, in placing the fire department on a much better footing and in getting the insurance rating of the town raised to a better class. Mr. McNeil also still had his mind on the work he began on the Board of Health, and this year he secured the appointment of a committee on sewerage, of which he was chairman. He has obtained a large amount of information on the subject, including reports from eminent engineers, which will be submitted to the ratepayers at a public meeting. Mr. McNeil's services in the Council have been valuable and of advantage to the town. His retirement will be regretted and will have a gap in that body not easily filled.

We understand that Mr. McNeil, who is a prominent member of the Order of Canadian Foresters, has been asked by a number of delegates to the High Court, which meets in Hamilton next month, to be a candidate for the chief office, a position in which his business ability, energy and thorough knowledge of the Order would be of great advantage.

ST. LUKE'S NEW ORGAN

Placed in Position by Messrs. Jackson and Company of Peterborough.

The new pipe organ recently purchased for St. Luke's Church has been placed in position by Messrs. Jackson & Co., of Peterborough, and the opening rehearsal will take place on Tuesday evening next, when Prof. Parker will officiate.

The instrument is a handsome and powerful one, with 18 stops, as follows:—

GREAT ORGAN.—Open diapason, clarabella, dulciana, harmonic flute, principal, fifteenth and trumpet.

SWELL ORGAN.—Gedact, stop bass, 8 foot flute, violin diapason, gamba, vox celeste, octave and oboe.

PEDAL ORGAN.—Grand bourdon, couplers, great to pedals, swell to pedals, swell to great, two composition pedals and two manuals C. C. to G.

A representative of the REVIEW had the pleasure of hearing Mr. Jackson play, and although the work was not finished it was sufficiently advanced to show that the organ may be classed in the first rank. The harmonic flute, voiced on the English principle, and all the stops blown with heavy wind, is perfection. The open diapason is very fine and the new stop, vox celeste, has a grand effect.

The reeds both on the swell and great organs are nicely voiced and the gambas and diapasons are different to anything in town. Some fine effects are got out of the swell, the swell box being tight and lined, different to any other organ in Peterborough.

Messrs. Jackson & Co., who have had charge of the work, have done it in a highly satisfactory manner, and as they are evidently thorough masters of their business they certainly deserve every encouragement at the hands of the citizens.

In brief and to the Point.

Dyspepsia is dreadful. Disordered liver is misery. Indigestion is a foe to good nature.

The human digestive apparatus is one of the most complicated and wonderful things in existance. It is easily put out of order.

Greasy food, tough food, sloppy food, bad cookery, mental worry, late hours, irregular habits, and many other things which ought not to be, have made the American people a nation of dyspeptics.

But Green's August Flower has done a wonderful work in reforming this sad business and making the American people so healthy that they can enjoy their meals and be happy.

Remember:—No happiness without health. But Green's August Flower brings health and happines to the dyspeptic. Ask your druggist for a bottle. Seventy-five cents.

The accounts of Messrs. Cox, Adams and Connors Bros. were ordered to be paid and the others were referred to the Finance Committee.

THE HORTICULTURAL PARK.

Mr. J. H. ROPER, on motion, was heard. He asked for a grant to maintain the Horticultural Garden, in the shape it should be kept. The citizens had free access to the place and last year they had taken advantage of it largely. It would cost $500 to keep it in proper shape and he asked the Council to deal generously with the Horticultural Society, who had charge of the park. He also asked the Council to deal liberally with Bandmaster Miller, who had an offer to go to Winnipeg. He understood that only $50 per year was required and he felt that if Mr. Miller was allowed to go, it would be a great loss to the town.

Mr. D. W. DUMBLE was also heard on the same subject. He had no idea of supplicating for a grant as he felt confident that the councillors one and all were in favor of a grant being made. He regarded $500 as a reasonable sum and knew that the park was one of the things that our citizens are proud of. He looked on it as a public institution and felt confident that the townspeople were all favourable to the grant. With regard to Bandmaster Miller he looked on him as a man the town could not afford to lose. He was a man peculiarly adopted for his business and he certainly deserved support from the Council and citizens. He thought that the town would have enough to do to keep up the Garden, without doing anything at the Central Park.

Mr. ROPER said that last year the expenditure on parks in town was $825, of which the town contributed $500.

The MAYOR said that he had ordered the Street Inspector to plant trees and roll the Central Park. At the Garden a gutter is necessary to carry off the water and prevent the slush. It is also necessary to have the water pipes laid in other places than they are now. The present caretaker was well recommended and he felt confident that it will look better this year than ever it did before.

Councillor MOORE could not see where the money went that was expended on the parks.

Councillor MCNEIL pointed out that over $50 was expended for flowers alone. He pointed out that the gentlemen who had charge of the parks were working for the benefit of the citizens and they should be encouraged.

Councillor MOORE was willing to make a grant, but he desired to have a detailed statement of how the money is expended, for the benefit and satisfaction of the ratepayers.

The MAYOR said that last year flowers had cost a good deal more money than they would this year. A good saving can be made if citizens will kindly furnish flowers.

Moved by Councillor MCNEIL, seconded by Councillor KELLY,—That the sum of $500 be granted to the Horticultural Society, to be expended [illegible] during the Central and Court House [illegible] the Secretary of the Society to furnish the Council with a detailed statement of how the money is expended.

FINANCE REPORT.

Councillor DAVIDSON read and submitted a report from the Finance Committee recommending payment of the following accounts:—

Kingan & Co	$10 78
Kingan & Co	32 50
A. Clegg	2 50
Mrs. Squires	4 00
Fitzgerald & Stanger (When certified)	7 15
W. H. Wrighton	6 00
John Kelly	2 50
Nicholls Hospital	757 30
Charles Shambo	4 50
C. Delisle	9 12
S. Sharpe	52 40
T. H. G. Denne	4 50
Rush Bros	41 55
County of Peterborough (Locks bridge)	55 31
County of Peterborough (Otonabee bridge)	149 25

The report was adopted.

THE LOCKS' BRIDGE.

The MAYOR said that the Government had sent a letter stating that the bridge at the locks was too narrow, as they understood, and they desired that a plan of the bridge be forwarded to Ottawa. The swing was the portion complained of. He had spoken to the Government engineer and some others regarding the matter. To make the changes required would cost about $2,000.

Councillor HALL said that the present bridge was wider than the locks by about six feet, and also wider than the bridges at Burleigh and Young's Point.

A letter from the Town Solicitor regarding the matter will be taken to Ottawa by the Mayor.

THE PRINTING CONTRACT.

Councillor DAVIDSON read and submitted the following report from the Printing Committee:—

The contract for town printing has been let at the following rates:—

CHAMPIONSHIP BASEBALL GAMES YESTARDAY.

The Torontos Suffer Defeat at the Hands of the Tecumsehs—Quebec Turf Club Program—Macbeth Wins the Kentucky Derby—A Challenge to the World.

LOUISVILLE, Ky., May 14.—Kentucky never had a more disagreeable day for a great racing event than to-day. Heavy black clouds hung over head, and a chilling western wind prevailed all day, diminishing the Kentuckian ardor for his favorite sport somewhat but not the attendance. The results follow:

FIRST RACE—Purse $400. 5 furlongs.—Madstone, 105, (Walker), won; Santa Cruz, 105, (Flahburn), 2d; Liberty, 105, (McCarthy), 3d. Time 1.02½.

SECOND RACE.—Purse $400. 1 1-16 miles—Terra Cotta, 118 (Hamilton), won; Barrister, 102 (Barnes), 2d; Jacobin, 115 (Covington), 3rd. Time 1.50.

THE KENTUCKY DERBY.

For 3-year-olds at $100 each, with $2000 added, of which $300 to the 2d, $200 to the 3d. 1½ miles.

J. T. Clay's ch.c. The Chevalier, 118	(Lewis) 0

Time—2.38½.

Pools: Gallifet and Alexandria, coupled, $150; The Chevalier, $70; White, $70; Macbeth, $57; Col. Zeb Ward, $30; Autocrat, $18.

The Race—After one false start The Chevalier got off in front, the others well up. Coming into the scratch out of the chute Col. Zeb Ward led by two lengths, Alexandria second, The Chevalier third, Macbeth fourth, Gallifet fifth and Autocrat sixth. Passing the stand, Alexandria was in the lead, Gallifet second, The Chevalier third, and the rest bunched. On the back stretch, Zeb Ward dropped back, Gallifet setting the pace, led by two lengths, followed by Macbeth, The Chevalier, White, Autocrat and Alexandria in the order named. Rounding into the stretch Macbeth moved up and took the lead. McCarthy, on Gallifet, was second and riding hard, White third, the rest stringing out. Macbeth easily retained his lead to the finish, winning by a length, Gallifet being second, a length in front of White, the others three lengths away.

FOURTH RACE—1-mile heats—First heat Persimons (Barnes) won, Lela May (Covington) second, Lida L. (Gallis) third. Time 1.51½. Second heat—Persimons won, Lela May second, Lida L. third. Time 1.16.

HOUSEFURNISHINGS.

At this season many Housekeepers are replenishing their supplies of Tableware and China. City folk are furnishing summer cottages; country folk are filling up the dressers and cupboards of the old homestead; town's folk are picking and choosing here and there. Many would be glad to know of a place whose special business is to meet these wants and desires; that aims to furnish essentially good wares at consistently low prices; that offers the choice of many different dinner services, and yet does not compel you to take an entire set of any pattern, but allow you to select each course of a new design, or buy any portion of the set you may need; that does not try to impose ideas or wares upon purchasers, and yet is ready to advise which of the many wares is most desirable and suitable; and, if wished, will make a careful selection of pattern. When you want Tablewear will you give us the opportunity to serve you.

The Maple Leaf Forever.

The patriotic young men who compose the Otonabee Canoe Club on Monday evening debated the question, "Resolved, that Canada is a more desirable country to live in than the United States." The affirmative speakers were Messrs. J. J. Douglas, T. Barrie, W. H. Hill, A. E. Dixon and Gallagher, and the negative, Messrs. F. J. A. Hall, A. E. Scott, Gordon Smith, B. A., E. Mason and A. Tebb. The debate was one of the best yet held by the club and the speaking was excellent. The advantages of the Dominion were presented in their best light, and the immorality, climatic imperfections, etc., of the United States were dwelt upon by the affirmative, while the negative upheld the opposite view. Among the interesting points for which good authority was quoted were that in San Francisco only five per cent. of the population attend church, that Canada contains more arable land than the United States, and that the death rate in the southern States is 100 per cent. a d in the New England States 7 per cent. greater than in Canada. The Chairman, Mr. T. Workman, decided that the affirmative had won by a considerable majority. The next debate, on Monday, May 28th, will be on the question, "Resolved, that Commercial Union with the United States would be beneficial to Canada." Affirmative, Messrs. Gallager (late of Belleville) and W. H. Hill; negative, Messrs. E. Mason and A. E. Dixon; chairman, Mr. Gordon Smith, B.A.

THE SERVICE OF SONG.

Interesting Musical Event in St. Paul's Church.

The anniversary services in connection with St. Paul's church were concluded on Monday evening by a "Service of Song," held in the church. An interesting and popular programme had been announced, the various numbers of which were sustained by local soloists and by a large and efficient chorus made up of members of the different church choirs of the town. To accomodate the chorus, a platform was erected in front of the rostrum, where the soprano and alto voices were placed. The tenor and bass were placed in the choir proper. The arrangement was no doubt the best that could be effected and resulted fairly well, while the chorus kept together in excellent time, although divided in the manner indicated. Mr. J. S. Parker, choir master and organist of the church, handled the organ, and contributed to the programme several instrumental selections, admirably played and bringing out the force and theme of power in the large instrument to advantage. Some disarrangement of the movement of the organ necessitated the withdrawal of the last solo.

FIRE WATER AND LIGHT.

Councillor McNEIL read and submitted a report from the Fire, Water and Light Committee recommending that Terence Smith be paid the sum of $65 for another horse for the fire station, from May 15th to October 1st, 1888, and that the services of two horses be discontinued on the 15th of October, 1888.

STREETS AND BRIDGES.

Councillor CAHILL read and submitted a report from the Street and Bridge Committee recommending as follows:—

To the Mayor and Town Council:

GENTLEMEN,—Your Street and Bridge Committee beg leave to report that they have made a partial examination of the streets, and would recommend that the following improvements:—

1. Rink-st., sidewalk from Rubidge to Reid-st.
2. Reid-st., bridge at Hamilton's foundry, to be raised and repaired.
3. Drain on Downey-st., to be cleaned out and culvert on McDonnel-st. to be rebuilt if necessary.
4. Sidewalk on Gilchrist-st. to be properly repaired.
5. Bonaccord-st., to be graded and sidewalk repaired.
6. Dublin-st., sidewalk to be repaired from Donegal-st. to McFadden's house.
7. Downey-st., culvert on north end to be rebuilt.
8. Reid-st., four new culverts near north end.
9. Rubidge-st., to be graded near Edinburgh-st.
10. Edinburgh-st., to be water-tabled, west of Stewart-st., north side.
11. Smith-st., new sidewalk from Stewart-st. to Communication Road.
12. Bethune-st., new sidewalk from Edinburgh st. to Howden's house.
13. Edinburgh st., water table on south side, from Bethune to Aylmer-st.
14. Edinburgh-st., sidewalk on south side, east of George-st. to be repaired.
15. George-st., to be water-tabled from Edinburgh to Smith-st., and sidewalk to be repaired.
16. George-st., north, new culvert at Barnardo Avenue.
17. George-st., new sidewalk north from Argyle-st.
18. Harvey-st., new sidewalk on west side, south from Smith-st. as far built upon.
19. Water-st., new sidewalk from Antrim to Dublin-st., and sidewalk from Dublin to London-st., to be rebuilt on either side.
20. That permission be given to cut down the sidewalk on west side of Dickson-st., provided the parties on said street give consent.
21. That the tank on the corner of Murray-st., in front of St. Paul's Church, be filled up.
22. Brock-st. from George to Water-st., to be water tabled, and new sidewalk put down on south side, also that new sidewalk be put down on north side of Brock-st. west of George.
23. Park-st., sidewalk on east side to be continued to King-st.
24. Bolivar-st., sidewalk to be continued as far as built upon.
25. Sherbrooke-st., west of Reid, sidewalk to be rebuilt where necessary.
26. Paterson-st., sidewalk on north side to be rebuilt and build new walk on south side where built upon.
27. Albert-st., sidewalk on north side to be rebuilt and continued to Chamberlain-st., thence to the boundary and a sidewalk to be built along the boundary to the C.P.R., the money usually appropriated for statute labor to be used for this purpose until the sidewalk is paid for.
28. Crossing to be built at Mr. Gifford's house.
29. Stewart-st., to be graded from C.P.R. to Perry-st., and culvert put in on Park-st.
30. Lake-st., to be water tabled from George-st. to M.R.R.
31. Lock-st., to be water tabled from Crescent-st. to Lansdowne Avenue.
32. Ware-st., sidewalk on north side as far as built upon.
33. Murray-st., to be graded down a little at the intersection of Rubidge-st.
34. Elm-st., sidewalk to be rebuilt as may be found necessary.
35. Donegal-st., sidewalk on west to be taken up and built crosswise.
36. Cedar-st., sidewalk to be properly repaired.

Your Committee find that several of the railway crossings through the town are not sufficiently graded up to make it easy for vehicles to cross said railways. Your Committee recommend that the town solicitor write to the proper authorities calling their attention to this.

Also that the G.T.R. Co'y be requested to have the embankment across Harvey-st. removed, or give permission to the town to remove the same; and further, that the said Co'y. be required to make good the street near the locks bridge, near Mr. Wm. Jackson's house, which was destroyed by said Co'y. or their employees.

All of which is respectfully submitted,

THOMAS CAHILL,
Chairman.

Peterborough, May 14th, 1888.

In reference to the communication of John Moloney, Esq., Reeve of Douro, your Committee find that this corporation put down about a thousand feet of sidewalk last year on the boundary between the township of Douro and the town, the cost of which has not yet, your Committee believe, been met by a similar amount by the township on the boundary. If, however, it be otherwise, your Committee recommend that the authorities of the township be met in a liberal spirit by the town.

AFTER THE BUTCHERS.

Councillor MOORE introduced a by-law to smash the butchers' combine. He found out by inquiry and from the papers of Montreal, Toronto and other places that the people of Peterborough are paying higher prices for meat than the people of any of the places named. He said that meat was a necessary article of diet and the price charged here was altogether too high and out of proportion to its real value.

The by-law provided that the present market by-law be amended so as to permit farmers and others to sell meat in any quantity, pound, quarter or side, anywhere in town, and that any person who has a license to sell meat shall not enter into a combine, under penalty of losing his license.

Several members spoke on the matter and while all were willing to do something to bring down the price of meat, they were not willing to pass the by-law as presented, some holding that the Council had not the power to pass it.

The by-law was laid over until the next meeting.

MORE EARLY CLOSING.

Councillor DAVIDSON brought in a by-law to provide for early closing of stores. The Council went into Committee of the whole, with Councillor Langford in the chair. The by-law was given its several readings and passed closing the dry goods, clothing, millinery, hats, caps, furs, stove dealers, hardware, tinsmiths, boots and shoes, and Gents' furnishings dealers, on each night except Saturday and the night before any public holiday, at 7 o.clock p. m. and remain closed until 5 a. m. and the barbers to close at 8 p. m. each evening except Saturday and the night before any public holiday. The penalty was fixed at not more than $50.

MORE LIGHT.

Moved by Councillor HARTLEY, seconded by Councillor HALL,—That the chairman of the Fire, Water and Light Committee be instructed to have gas put into the police court.—Carried.

POTS FOR THE COPS.

Moved by Councillor HARTLEY, seconded by Councillor HALL,—That the chairman of the Police Committee have power to procure the necessary equipments, revolvers, batons, etc., for the police force.—Referred to the Police Committee with power to act.

POLLING SUBDIVISIONS.

The CLERK drew the attention of the Council to the fact that it was necessary to divide the town into polling subdivisions.

The matter was allowed to stand for the present, after Councillor MOORE said he did not understand that the law required such to be done.

A SIDEWALK.

Moved by Councillor KELLY, seconded by Councillor HALL,—That the Street Inspector be instructed to have a sidewalk laid down on the west side of Downie-st. between Hunter and Simcoe-sts.—Referred to Street and Bridge Committee.

COWS AND DOGS.

Moved by Councillor MOORE, seconded by Councillor YELLAND,—That the Chief Constable be instructed to diligently enforce the cow and dog by-laws.—Carried.

STATUTE LABOR.

Moved by Councillor CAHILL, seconded by Councillor DAVIDSON,—That the Clerk accept the sum of $2.10 from Denis Daly, in settlement of all claims against him for statute labor tax, fine and costs.—Carried.

WOODEN BUILDINGS.

Considerable discussion took place on the communication from the G. T. R., and it was decided not to take any action.

A RESIGNATION.

A communication was read from Councillor McNeil, tendering his resignation as a member of the Council, as a representative of number Two Ward, owing to the fact that he could not spare time necessary, on account of a pressure of business, for a proper preformance of his duties, and expressing regret at the course he felt called on to adopt.

Councillor CAHILL regretted Mr. McNeil's decision, as he had been a very useful member of the Council.

Councillor MOORE also expressed regret at the course Mr. McNeil had taken. He had done much to advance the interests of the Town, particularly as far as the Fire Brigade was concerned.

Moved by Councillor CAHILL, seconded by Councillor DAVIDSON,—That this Council regrets exceedingly the resignation of Mr. McNeil and they feel that the loss of his ability and energy will be keenly felt, not only by the Council, but by the whole town, and that this Council hopes that Mr. McNeil may reconsider his resignation and still give the benefit of his abilities as a councillor to the town.—Carried.

BRIDGES.

Councillor CAHILL brought up the question of highway bridges. It was proposed to erect wooden bridges, with stone abutments at Brock and Charlotte-sts., and a wooden bridge, abutements and all, at King-st. As he would be out of town for some weeks he asked that an acting chairman of the Street and Bridge Committee be appointed.

Councillor Langford was appointed acting Chairman and Councillor Davidson a member of the Committee.

The meeting then adjourned for two weeks.

There is no danger to human life more to be dreaded than that which arises from vitiated blood. Dyspepsia, rheumatism, headache, and general debility, all result from it, and are cured by the use of Ayer's Sarsaparilla. Take it this month. Six bottles, $5.

It is gratifying to know that The Pantry is rapidly taking its stand, side-by-side with the first class groceries of the town. Inspection of goods and prices invited. d107

A Fine Driver.

Dr. Stephenson has purchased a fine driving mare, by Crown Imperial, from Mr. A. Moffat, at a handsome figure. The Dr. deserves credit for his efforts to improve the class of driving horses heretofore so frequently seen in our streets.

Royal Arch Masonary.

R. E. Comp. D. McNaughton, of Cobourg, District Superintendent, of Ontario District, has intimated that he will pay a fraternal visit to Corinthian Royal Arch Chapter of Peterborough, which meets in the Masonic Hall, Water-st. this (Tuesday) evening.

Brevities.

—The Police Court calender this morning was a blank.

—The number of appeals against the assessment of 1888 is about the average.

—It was found necessary to put a fire in the furnace at the town office to-day.

—The gas light last night was very poor and in some places it went out altogether.

—Mr. Jos. J Daly, of Congress Hall, Lindsay, was in town this afternoon.

—The beech and maple shade trees, placed in the central park, only cost eight cents each.

—Veal at 6, 7 and 8 cents per pound, appears to be the popular meat just at present.

—If this weather continues much longer a further supply of coal will have to be laid in.

—It was cold enough for frost last night, but we did not hear of any damage being done.

—Potatoes are being imported from Quebec by the carload, by dealers, who are unable to obtain them any nearer.

—The Salvation Army was split up into three detachments last night and paraded in three different directions.

—A cricket match, married v. single members of the club, is on the cards for this afternoon.

—For non-payment of a Scott Act fine of $100, James Condon yesterday afternoon went to gaol for a two month's term.

—The work of laying the granolithic pavement around the post office, is watched with interest, as it is something new for Peterborough.

—A horse tied to a post in front of the Montreal House, upset the buggy, during noon hour to-day, but was prevented from running away, by some by-standers.

—The police are on the warpath after those who have not yet taked out local licenses, and "pay up" is the order of the day.

Right now is the time to use a good Blood Purifying Medicine. Lose no time in getting a bottle of Dr. Carson's Stomach Bitters. It will do you good. Sold by all Druggists.

—The steamer yacht, Eva, of Brockville recently purchased by some Peterborough gentlemen, was brought up in the Grand Junction, on Monday. She is a fine tidy looking craft and will run in the Northern waters, we understand.

—The Secretary of the cricket club has received a letter from one of the Irish gentlemen, who will visit Canada this summer, in reference to a match here. The letter states that the fame of the Peterborough players has reached Ireland and they would like to play here. A definite answer is promised next week.

Spring Millinery

I wish to announce to my lady friends that my spring stock is now complete and I am prepared to attend to the wants of my old customers, and as many new ones as will favor me with their patronage. As my stock has been selected with great care you will find it will compete favorably with the largest houses in the trade. In addition to the Millinery I have added a nice assortment of ladies' and children's underwear, at low prices. Don't forget the place, one door south of Salisbury's Book Store.

RE-OCCUPIED

JOHN HACKETT

Has again occupied his former premises next door to Fortye & Phelan's Hardware Store.

The Store, which has been undergoing extensive alterations and improvements, is now a model place of business, and the public are invited to call and take a look through the premises.

The increased accommodation and convenience afforded us for doing business will no doubt help to compensate us and our customers for the inconvenience caused by our removal during the alterations and we hope to see all our friends back again in our handsome new premises.

Dress Goods, 5,100 yards; Cretonnes, 450 yards; Prints, 6,600 yards; Ginghams, 900 yards; Embroidery, 700 yards; Cotton Shirtings, 1,000 yards; $800 worth of Millinery; $270 worth of Ribbons, over $1,200 worth of Silks, Satins, Velvets and Plushes. Also a large Stock of White and Grey Cottons, Towelling, Flannels, Corsets, Parasols, Gloves, Hosiery and Small Wares. The whole Stock to be sold out at once in

ALEXANDER'S OLD STAND.

W. W. JOHNSTON.

OUR COUNTERS ARE LOADED TO KILL HIGH PRICES.

We have placed in stock this week—direct from Vienna, Austria several lines of Children's Clothing. These are Fine Goods and should suit the wants of those who desire something nice and yet have not the time to make up themselves what they fancy.

Although we sell a Boys' Suit for 65c. and fit the boy with an odd coat at 19c., our trade is not by any means confined to low priced Goods. We keep, we offer, we are selling daily, the Finest Lines to be had in Town.

Mothers and Fathers looking for Children's Clothing should come and see what our stock offers.

Want of Sleep

Is sending thousands annually to the insane asylum; and the doctors say this trouble is alarmingly on the increase. The usual remedies, while they may give temporary relief, are likely to do more harm than good. What is needed is an Alterative and Blood-purifier. **Ayer's Sarsaparilla** is incomparably the best. It corrects those disturbances in the circulation which cause sleeplessness, gives increased vitality, and restores the nervous system to a healthful condition.

Rev. T. G. A. Coté, agent of the Mass. Home Missionary Society, writes that his stomach was out of order, his sleep very often disturbed, and some impurity of the blood manifest; but that a perfect cure was obtained by the use of Ayer's Sarsaparilla.

Frederick W. Pratt, 424 Washington street, Boston, writes: "My daughter was prostrated with nervous debility. Ayer's Sarsaparilla restored her to health."

William F. Bowker, Erie, Pa., was cured of nervousness and sleeplessness by taking Ayer's Sarsaparilla for about two months, during which time his weight increased over twenty pounds.

MONA'S CHOICE.

BY MRS. ALEXANDER.

"Well!" he exclaimed, taking Mona's hand in one of his, and patting it with the other, "how is the poor grannie? I protest I never was more cut up than when I found how desperate she had been swindled! She would stick to the ship, in spite of all that Oakley or I could say. The few solvent shareholders backed out some time ago, and the rest are mostly men of straw, so they'll not leave Mrs. Newburgh a rap."

"Poor dear grannie is very, very miserable, Sir Robert. It is curious that so clever a woman should have believed in what many of her friends and advisers doubted."

"She was always obstinate, my dear, devilish obstinate! However, I have a bit of good news. A friend of mine wants to buy the house. He will give a decent sum too; and I want your grandmother to convey the money to me for you, or some legal jugglery of that kind. Go, ask her if she will be able to see me and Oakley to-morrow, that we may settle about it. It will be a something between you and want."

"I will go and tell her," said Mona, hastening away. "Will it be enough to save me from the necessity of marrying anyone?" she thought.

In a moment she returned and said—

"My grandmother will be glad to see you to-morrow at twelve."

"All right; just sit down and write a line to Oakley, asking him to meet me here. We will have a consultation, then we'll see what is best to be done; we must secure whatever money Mrs. Newburgh gets for the house from the claws of the liquidators. Lady Mary wants her—both of you—to come down to the Chase."

"Thank you so much; but I am afraid it will be some time before grandmother can be moved," returned Mona, who shrunk from the idea of visiting the Chase again.

"You would be all the better for being turned out to grass yourself, my dear," he resumed, kindly. "It's hard lines for a young thing like you to be plunged into such trouble. Why, you are not as old as Evelyn."

Sir Robert Everard talked on in his kindly, easy way while Mona wrote the note to Oakley.

Mr. Oakley obeyed the summons. Mrs. Newburgh, revived by her new hopes, was up and dressed when Sir Robert and the solicitor arrived. She had, with the help of Wehner's arm, descended to the drawing room; but she looked like a ghost of her former self.

Then ensued a long, melancholy discussion, at which Mrs. Newburgh insisted her granddaughter should be present, and from which the latter gathered that it was of no use endeavoring to save anything out of the wreck—that whatever the unfortunate shareholders possessed must pass into the clutches of company's creditors; a call had already been made, and would be followed by others, until all was swallowed up. It was therefore deemed more prudent for Mrs. Newburgh to reside in the house she had bought, than to move to another for which she would have to pay rent. Her income had of course been narrowed to a miserable eighty or ninety pounds a year, and even on that she could not long count.

"You see, Mona, the condition to which we are reduced," said Mrs. Newburgh, when their friendly counselors, with grave faces and kindly expressed sympathy, had withdrawn. "I purposely asked you to be present at this conference, that you might understand the true state of the case. I leave you to draw your own conclusions. No, dear, do not re-open the discussion. I trust to your own common sense and right feeling. I am quite exhausted. Ring for Wehner to help me to my room. I can see no one else to-day—*no* one—remember, Mona."

Thus cut off from remonstrance, Mona felt she was left to her fate, and Mr. Waring; grannie was resolved to leave the decision—the responsibility—to her.

Mrs. Newburgh had not long returned to her own room, and had just taken some refreshment, when Mr. Waring's card was brought. A strong feeling of humiliation and disgust rose in Mona's heart; the calm indifference of which she boasted the previous day failed her at the moment of trial.

"Do not keep the poor young man waiting," said Mrs. Newburgh.

"It is frightful, having to go deliberately to listen to an offer of marriage!" cried Mona, starting up and walking to the window instead of the door.

"I thought you would not mind,"

"I *thought* so; but I will go, dear grannie."

She came back quickly, kissed the old woman's cheek, and disappeared.

Mr. Waring stood on the hearth-rug. He was not so tall as Lisle; his broad shoulders and rather short neck further diminished his height. He was built more for strength than grace, and though not fat, was, it must be admitted, fleshy. His hair was dark, almost black, abundant and wavy, and his broad, good-humored face was redeemed from absolute plainness by a pair of fine, soft, dark-brown eyes. He was in general ruddy and fresh-looking, but the excitement, indeed it may be said the terror of the moment, had blanched his cheeks, as he met Mona's eyes, when he blushed furiously.

She hesitated after she had crossed the threshold, and closed the door, standing tall, stately, infinitely sad, in the simplest morning-dress or black silk and cashmere she possessed, a lace scarf pinned round her throat with an old-fashioned brooch, her bright hair turned loosely back surmounting her fair pale face like an aureole.

"I am so much, so very much obliged to you for seeing me!" exclaimed Waring, starting forward to take her hand, which he shook nervously, and drooped immediately. Mona murmured something, he did not hear what, and sat down beside the fire.

Waring resumed his position on the hearth-rug. An awful paused ensued. Mona gazed at the glowing coals, and thought of Lisle's expressive voice and perfect, easy self-possession. Waring cudgeled his brain for some suitable phrase to open the dreaded yet longed for conversation. The result was a restless change of attitude, and the words, "Awful nasty weather." His voice was strong and harsh. "I hope you took no cold on your journey to town."

"Not a cold; I had a slight *chill*," returned Mona, who had some sense of humor.

"You are amused, I dare say," he cried, his power of speech unlocked by the magic of her smiling eyes: "you *must* be amused, to hear me blundering like an idiot about the weather, when my heart and mind are filled with hope and fear. Tell me, Miss Joscelyn, did Mrs. Newburgh show you my letter?"

"She did."

"And will you—will you let me tell you how awfully I was taken with you the very first time I ever saw you at that Richmond dinner Lady Mary Everard gave last year—where you were presented [illegible]"

To be continued.

AS MUCH A SECRET AS EVER

To the Editor of the Review:—SIR—How in the world has C. B. ROUTLEY jumped into such a big slice of Wall Paper trade? Why, it seems as if one couldn't pass his store without running against a load of Wall Paper in the arms of some pleased looking customer. I'm half inclined to think there must have been lots of boodle in the Wall Paper business before ROUTLEY started it and that the people have found out that he has broken the combination. Eh? what did you think, Mr. Editor? And yet you occasionally hear of spasmodic attempts to get down to ROUTLEY'S prices, in order to head him off; but still it seems as much a secret as ever how he keeps up the run

TURNBULL'S.

We wish to call your attention this week to our Large Stock of Black Cashmeres. They range in price from 25 cents a yard up to $1.20. The one at 25 cents is a good black with sightly appearance which is all we say about it. But when you advance to 45 cent you have a nice rich color, particularly suited for mourning, good weight and fully 44 inches wide. At 50, 60, 75, 85, 90 and $1.00, we have a new line by a French maker which is much nicer than the old make and deservedly popular, being much finer in appearance, more like a Henrietta. To be had in blue and jet black.

GERMAN CASHMERES.

These Goods are made in Saxony where the makers vie with each other in producing a superior article. We have secured a make that cannot be spoken of too highly. It is a double warp and finished like a satin. They are now open for inspection, (on 3rd counter to left from George-st. entrance).

In our Custom Made Tailoring Department we show a nice range of Pantings, Worsted Suitings, Light Overcoatings, etc. Only first-class work turned out. (2nd counter to the right.)

Early last fall when the public began gathering around their stoves and were thinking about Flannels and Blankets, we were looking ahead and gave large orders with the leading manufacturers of Chambrays, White and Colored Muslins, Lawns, etc. These Goods are now in stock, and will be found on the first counter to the right.

Our first stock of Sailor Hats has been bought up rapidly which is sufficient evidence that they are the correct thing. Our second shipment, bought at a much lower price is now in. All sizes and styles to choose from. The prices will please you when you see the styles and quality.

THE DOMINION PARLIAMENT.

Proposed Amendments to the Civil Service Act Under Discussion.

OTTAWA, May 15.—These bills were read a third time and passed in the House this afternoon:

To amend the Territories Real Property Act.

A bill respecting insurance.

The House having gone into committee on the proposed amendment to the Civil Service Act, Mr. Mulock proposed an additional clause to the effect that university graduates shall not be required to pass examinations before entering the service. The committee spent the balance of the afternoon in discussing Mr. McNeill's proposed amendment exempting those in the service before the passage of the Franchise Act from the obligation of passing promotion examination, the discussion being finished when the House rose for recess.

The House reassembled after recess this evening at 9.30, the absence of the members at the Lansdowne banquet being the cause of postponement. The business taken up was the appropriation for canals in the main estimates. The only discussion was on the item of $1,000,000 for the Sault Ste. Marie canal, which was opposed by Davies, Jones and others on the ground that the completion of the Canadian Pacific Railway had made the work unnecessary. The item passed.

The House adjourned at an early hour this morning.

NEWS FROM HAMILTON.

Death of an Old Resident—Meeting of the Hamilton Presbytery.

HAMILTON, May 15.—Alexander Morrison, grocer, of John-street south, died yesterday after an illness of several weeks. Mr. Morrison was a native of Hamilton, and had lived here all his life.

At All Saints' Church this afternoon Andrew Walls, son of the late Wm. Walls and nephew of John Walls, builder, of Buffalo, N.Y., was married to Miss Eva Kerner, eldest daughter of Christopher Kerner. The ceremony was performed by Rev. George Forneret in the presence of a large number of friends.

At the meeting of the Hamilton Presbytery this morning these delegates to the General Assembly were appointed: Ministers—Revs. J. H. Ratcliffe, St. Catharines; C. D. McDonald, Thorold; R. McKnight, Dunnville; T. Peachell, Wellandport. Elders—Messrs. Andrew Wilson, Waterdown; John Smith, Oneida; John A. Jackson, Abingdon; W. McMonies, Waterdown.

The Roaring Mississippi.

ST. LOUIS, May 16.—Specials from several points along the Upper Mississippi River give accounts of great losses to property holders and vast inundations. The levee that protects the Soy bottoms gave way this morning, and the water rushed through and into the bottoms with a roar. Couriers hastened through the bottoms warning farmers of the break, and there was a wild chase driving the live stock to the high lands. The bottoms are in Illinois and embrace about 10,000 acres. At 6 o'clock yesterday morning the Indian Grove levee gave way and submerged 10,000 acres of low land, 5000 acres of which were planted with wheat. On the Missouri side the break at Alexandria has made a great sea, covering 800,000 acres of land. The water floods the town of Alexandria from two to six feet deep. The farming community reckon their loss at figures aggregating $300,000.

Probably Drowned.

PICTON, May 15.—A young man named Fred Bull, in charge of the Singer sewing machine city office here, is supposed to have been drowned last night between here and Glenora. He left here yesterday afternoon for Glenora in a bark canoe, took tea there and left for Picton again about 6.30. Later on he was seen out in the bay apparently in trouble. This morning his canoe was found on Thompson's Point bottom up. His overcoat was fast in the canoe. He was about 25 years old.

Sufficient to Cause Grave Anxiety.

LONDON, May 15.—The Standard, commenting on Gen. Wolseley's defence, says: "Lord Wolseley's facts are sufficient to cause very grave anxiety. His statements, if true, are a reproach to a rich and powerful nation. The Government cannot complain this time that they were not advised of the real situation."

The Sweating System.

LONDON, May 15.—The proceedings of the Sweating Committee continue to be characterised by dramatic incidents. Lord Dunraven's warning to would-be intimidators was almost as impressive as Lord Salisbury's rebuke to the adjutant-general. But the most important event was the appearance of Miss Beatrice Potter. Mrs. Leonard Courtney's sister, in the witness box. Miss Potter, who is very prepossessing, and was most becomingly dressed, has gained a practical knowledge of the subject by actually working in many of the sweating shops of the east end. She believes that the much-complained-of hardships of the sweaters are greatly exaggerated. At the adjournment of the sitting Miss Potter was entertained by the noble lords at luncheon in the Peers' Committee refreshment room.

A Close Call.

LONDON, May 15.—In the House of Commons last evening the King-Harman Salary Bill being in the committee stage, an amendment offered by Mr. Heneage (Liberal-Unionist) that the salary be paid out of the funds already provided for the Lord Lieutenant, was negatived under cloture by a vote of 191 to 183.

VIEWING THE REMAINS.

35,000 PEOPLE VISIT ST. MICHAEL'S CATHEDRAL.

Incidents of the Lying in State of the Body of the Archbishop—Prominent Church Dignitaries in the City.

TORONTO, May 16.—It is estimated by those watching the remains of the late Archbishop as they lay in state within the sanctuary rails of St. Michael's Cathedral, that fully 35,000 viewed the body yesterday. The doors were thrown open at 6 in the morning and closed at 10 last night, and during all that time there were never less than a thousand persons in the church. The crush at the sanctuary rails was so great that men had to be employed keeping the crowds moving away as soon as the remains were viewed.

About half of the 35,000 were Protestants, and fully two-thirds of the whole were women and young girls. Several persons fainted, what, with the heat of the church, which at times was oppressive, and the solemnity of the occasion, which had an hysterical effect on the weak nerves of a few.

From 6 until 10 in the morning low masses for the dead were said by Very Rev. Father Laurent, Rev. Father McBride, Rev. Father Hand and a number of other priests temporarily domiciled in the Palace for the occasion. All day long the Sisters of St. Joseph and Loretto watched by the body, to be relieved in the evening by the Christian Brothers and members of St. Vincent de Paul Society.

At 6.30 in the evening the church doors were closed and none admitted until 7.30, when the solemn offices of the dead were sung. The congregation on this occasion numbered fully 3000. Every aisle was packed, and in their eagerness to behold the scenes enacted at the altar the people stood on the seats and crushed forward to the very sanctuary rails. Rev. Father Hand was master of ceremonies, Cardinal Taschereau, assisted by Mgr. Marois and Very Rev. Laurent, sang the Nocturne and Lauds, Dean O'Connor and Rev. Father Rohleder intoned The Antiphons, and Cardinal Taschereau, Archdeacon Cassidy and Rev. Father McBride read the lessons. The "Libra Me" was sung by Rev. Fathers O'Hagerty, Gearing, Traling and Murray. The services closed with the prayer "Deus qui inter Apostolicas," and the vast congregation silently dispersed.

The number of priests present at last night's services is placed at 100, and it is believed by 10 to-day it will be doubled.

The following bishops were in the city last night: Archbishop Duhamel, Ottawa, the guest of Hon. Frank Smith; Archbishop Fabre, Montreal, the guest of Mr. George Kiely; Bishop Dowling, Peterboro, the guest of Bishop O'Mahoney; Bishop Ryan, Buffalo, the guest of Mr. P. Hughes; Bishop Farrell, Trenton, the guest of Very Rev. Father Rooney; Bishop Soule, Montreal, the guest of the Palace, where also His Eminence Cardinal Taschereau has taken.

In addition to the above Mgr. Paquet of Quebec, Mgr. Marois of Quebec, Rev. Father Louis Funcken, President of the Berlin College, and Rev. Father Marcoux, Secretary of Laval University, are in the city. Mr. J. J. Curran, M.P. for Montreal Centre, has signified his intention of attending the obsequies.

AFFAIRS IN MANITOBA.

Exciting Scenes in the Legislature Yesterday—John Norquay's Pluck.

WINNIPEG, May 15.—The political pot fairly sizzled in the Legislature this afternoon. Rising to a question of privilege, Mr. Norquay asked Premier Greenway if he was prepared to reiterate the accusations accompanied by threats of indictment made by the Premier in the newspapers against him.

Mr. Greenway said he was not entirely reported correctly, but admitted that the speech was substantially right.

Mr. Norquay then moved for a commission to investigate the charges against him. Attorney-General Martin moved an amendment to appoint a commission to also include the charges against Mr. LaRiviere and Acton Burrows.

The Opposition members claimed that this was unfair, that Norquay demanding an investigation should be afforded an opportunity of vindicating himself without being mixed up with the delinquencies of others. Government supporters held Norquay responsible for the shortcomings in all the departments, he being the leader of the Government, but this he scouted as absurd.

After recess the circus continued in the House. Norquay claimed he had made every effort to meet Greenway's charges publicly, but was most cowardly refused the commission he asked for.

Kirkhoffer dared the Government to prosecute Norquay criminally, and moved an amendment that the Attorney-General be instructed to lay criminal information against the late Premier.

Martin charged Norquay with knowing all about the printing steal recently exposed, and on Norquay denying it there was an exciting scene. The members talked and pounded desks, the galleries cheered and the Speaker ineffectually called order, but was defied. After quiet had been restored Attorney-General Martin explained that as all the members of the late Government were implicated in the scandal it was well to have the fullest investigation and reach the bottom facts. He preferred a commission to criminal prosecution.

Dr. Harrison taunted the Government to make good their threats to proceed against Norquay criminally and denounced their cowardice in not accepting his challenge to investigate the charges made against him without bringing in others.

Mr. Jones intimated his willingness to be included with Norquay, La Riviere and Burrows, and be investigated respecting the late loan.

Mr. Douglas warmly defended Norquay and charged the Government with cowardice.

The Attorney-General having given notice of a bill to dismiss the Provincial Auditor, that official petitioned to be heard before the House and was present to-night with his solicitor, but other matters occupied the attention of the House.

Chamberlain on Africa.

LONDON, May 15.—Mr. Chamberlain, presiding at a lecture on Africa last evening, made a speech in which he said that both political parties had shirked their duties in their South African policy, and had done everything to get rid of their responsibilities. "This policy," he said, "has been a most conspicuous failure. We ought to accept our obligations and offer to protect friendly chiefs."

Obedient Bishops.

LONDON, May 15.—The Standard's Rome correspondent learns that no doubt exists as to the absolute and unconditional obedience of the Irish bishops to the papal rescript, and that Archbishop Walsh has expressed entire submission to the Pope's authority.

QUEBEC LEGISLATURE.

The Speech From the Throne—Favorable Financial Outlook.

OTTAWA, May 15.—The second session of the Sixth Legislature of this Province opened this afternoon. The Speech from the Throne, after announcing that it is the intention of the Government to have another session early next winter, and that the loan authorized last year was negotiated under favorable conditions, refers to the resolutions of the Interprovincial Conference which will be presented for approval. The speech states that this year there will be a considerable excess of revenue over expenditure, that the work of codifying the statutes, commenced in 1876, is completed, and these revised statutes will become law on Dominion Day.

The result of the three Royal Commissions appointed to deal with the Q. M., O. & O. Railway, with lunatic asylums and with agricultural institutions respectively, will be presented with accompanying bills, and a larger vote than usual in favor of agriculture and colonization will be asked. A larger amount will also be asked this year for the better carrying out of the policy of constructing iron bridges. The Government measures proposed include the amendment of the laws of civil procedure in the direction of diminishing the expenses and length of suits, the settlement of the Jesuits' estates, amendment of the license laws for the purpose of rendering the granting of licenses more difficult and of facilitating the punishment of offenders.

SUICIDE AT MONTREAL.

Laflamme v. The Mail—The Laval Contested Election Case.

MONTREAL, May 15.—Adelard Lachapelle, aged 19, began to show signs of despondency a few days ago, and last night took a dose of Paris green.

Mr. Beausoleil, M.P., has returned from Paris. He states that all the debentures of his new railway in Berthier County, to the amount of $250,000, which he placed in European markets, were taken at once.

The case of Hon. R. Laflamme v. The Toronto Mail came up in the Court of Appeal to-day, when Donald McMaster, Q.C., applied for a new trial on behalf of the defendants.

The Laval contested election case, in which Mr. Leblanc was unseated, has given rise to some interesting law proceedings. The judgment annulling the election was rendered in April, and costs went against Mr. Leblanc to the amount of $965. This sum not being paid, the petitioner, Mr. Guimond, on the day of the new election seized in the hands of Returning Officer Leonard the $200 deposited by Mr. Leblanc. Mr. Guimond has now taken a seizure in the hands of the Speaker of the House of Assembly at Quebec and his cashier of the indemnity which would be coming to the member for Laval for his attendance this session.

W. E. Macrae, charged with selling obscene pictures, was committed for trial at the Court of Queen's Bench to-day. Macrae will be remembered as one of the detectives who figured in the Myrtle shooting.

GUILTY OF "WILFUL MURDER"

Was the Verdict of the Jury on the Death of Bertha Robinson.

TORONTO, May 16.—At the inquest on the death of Bertha Robinson, after hearing the evidence of seven witnesses, the jury returned a verdict of wilful murder against "Tom" Buckley last night. Coroner Johnson presided.

The inquest was opened at the City Morgue early in the evening. A large gang of roughs, many of them pals of Buckley's, gathered outside the building, and because Coroner Johnson would not admit them they began throwing stones at the place. Coroner Johnson then removed his tribunal to the Police Court room, where the inquiry was concluded in peace and quietness.

Buckley sat in the ample prisoner's pen while the evidence was being taken, and the only visible affection on his great brutal features was an occasional smile or a clouded brow.

The right name of the dead girl is Mary Stephens. Her father is John Stephens, who lives in Brantford. Last night Mr. Stephens telegraphed the police that he would arrive in the city to-day to claim the remains of his dead child, who is about 20 years of age.

Assisted Emigrants.

LONDON, May 16.—The protest of the Ontario press against immigration, of which brief news has been received by cable, attracts attention here. The recent rush of emigration to Canada is much commented on and the result awaited with interest, in view of the renewed attention to emigration in connection with the Crofters and the evils of the "sweating" system.

Swept Over the Falls.

PUEBEC, May 15.—Edouard Belanger, 35 years of age, and the father of a family, was working on a boom yesterday and it overturned. He floated for some distance down the stream, clinging to some wreckage, but subsequently lost his hold and it is believed he was swept by the torrent over the falls, as his body has not yet been recovered.

BANQUET TO LANSDOWNE.

A BRILLIANT FESTAL EVENT AT THE CAPITAL.

Mayor Stewart's Tribute to His Excellency—The Governor-General's Response to the Toast of His Health.

OTTAWA, May 15.—The banquet tendered to His Excellency the Governor-General in the Russell House to-night by the citizens of Ottawa was the most brilliant festal affair ever held at the Capital, except, perhaps, the one tendered to Sir John Macdonald in the Royal Rink in 1887. Covers were laid for 247 persons and there was not a vacant seat. His Excellency was received by a guard of honor from the Foot Guards, the Dragoon Guards forming an escort.

The company sat down at 7.15 o'clock, His Excellency, Sir Hector Langevin, Hon. Messrs. Bowell, McLelan, Chapleau, Costigan, Speaker Allan, Gen. Sir Fred Middleton and Hon. Mr. Laurier being on the right of the Mayor, and Sir John A. Macdonald, Sir Charles Tupper, Sir Adolphe Caron, Hon. Messrs. Carling, Smith, Thompson and Senators Scott and Dickey on the left. The assemblage was made up of prominent members of the Senate and Commons, deputy heads of departments and prominent citizens. The menu was one of the best the chef of the Russell has ever produced, and from every standpoint the banquet was a magnificent success.

The opening speech was made by the Mayor, who, after proposing the usual loyal toasts, followed by that of "The Guest of the Evening," paid a high tribute of esteem to His Excellency and Lady Lansdowne. The toast was received with prolonged cheers.

His Excellency on rising was greeted with rousing cheers and waving of napkins. He feelingly referred to his approaching departure from Canada, and took occasion to express his warm appreciation of the kindness he had experienced from the people of Canada. He reviewed the leading events in Canada since his arrival here and dwelt particularly upon the completion of the Canadian Pacific Railway, which he felt was destined to prove of immense importance in strengthening the Empire. (Cheers.)

Referring to the topic of Imperial defences, he expressed the hope that the other colonies would follow the example set by Australia in making provision for defensive works.

Touching upon the proposal for closer trade relations between the British Empire and the colonies Lord Lansdowne said that Great Britain, which did three-fourths of its trade with foreign countries and did only one-fourth with the colonies, should risk interruption of her trade relations with the rest of the world in order to enter into such an arrangement. He did not think the Imperial Federation idea was a practical one. In the first place there could be no fiscal union of the colonies, the interests were so diverse, as shown by the different policies pursued at present, and he foresaw insuperable difficulties in governament, as had been proposed, by a central body at Westminster, for he thought none would be more ready to resent than Canada any change by which legislation affecting purely Canadian matters would be removed from the exclusive control of the Canadian Parliament. In so far as the armed strength of the Empire was concerned he could not look with favor upon any proposal requiring each portion of the Empire to contribute a quota of men and means for defence in case of emergency. He would feel safer in trusting to the spontaneous offering of 50,000 men by Canada, should the Empire need them, than to a compulsory grant of 5000.

Judging by what he saw about him in Canada he thought he might safely come to the conclusion that there was no pressing necessity for a change in the present relations.

At the close of His Excellency's speech the assembly rose, cheered and waved their napkins.

The chairman then proposed the toast of "The Queen's Privy Council of Canada," coupling with it the names of Sir John Macdonald, Sir Hector Langevin, Hon. Mr. Laurier and Sir Richard Cartwright.

Sir John Macdonald responded in felicitous terms, expressing the deepest regret at His Excellency's departure and speaking kindly of the uniform courtesy of Lady Lansdowne.

Sir Hector Langevin, Hon. Mr. Laurier and Sir Richard Cartwright spoke in a similar strain.

His Excellency proposed the health of the Mayor and Corporation of Ottawa, to which Mayor Stewart responded, and the festive gathering broke up.

The Crofter Emigrants.

LONDON, May 15.—The twenty-one crofter families, comprising 113 souls, the first batch under the Government emigration scheme, which left Stornoway yesterday, will leave Glasgow by the Corean on Thursday. The party includes 52 men, the rest being women and children. They have been carefully selected by Mr. McNeill, Government inspector, and Mr. Grahame, Scottish agent of the Dominion Government. Each applicant signed a legal obligation to repay the advance in eight annual payments, beginning the fifth year.

To Purchase Canadian Remounts.

LONDON, May 16.—Veterinary Surgeon Matthews, of the Royal Horse Guards, leaves Liverpool to-day to join Colonel Goldie to assist in the purchase of cavalry remounts in Canada on behalf of the War Office.

HOUSE NUMBERING.

WHEN the Council took up the question of numbering the houses its action was generally approved, because it was recognized by all that having the houses of the town systematically numbered would be a great convenience. All householders, and especially business men, felt the inconvience caused by the want of numbers, and it was believed that it would soon be a thing of the past. But up to the present the system has not been largely adopted and only a comparatively few dwellings are adorned with anything to show their numbers, and those who have procured the signs are little better off than they were before, because unless the numbering is general very little advantage is derived. Number 400 George st. may have the number displayed, but if the numbers leading up to it are not to be seen the occupant of 400 gains very little by having the number on his house. As the system would be a convenience, and as it can be done more thoroughly and cheaply by united action, why should not the Council go a little further and do the whole work? Another reason for this suggestion is that numbers are being wrongly placed, which will lead to confusion. If Councillor Langford's committee has not been discharged it should make an estimate of the cost and report to the Council. Many are of the opinion that the starting point should be from Hunter-st. The corner of Hunter and George-sts. is well known, and by numbering from it the situation of a house could be easily ascertained when the number is given. Hunter-st. runs through the centre of the town and a given number north or south of it could be readily located, while by the system of counting from Lake-st. the mental calculation would be more complicated. The energetic chairman of the committee that had charge of this matter should bring it before his colleagues of the committee and Council again.

THE proposition made by Mr. Jones, the Liberal M. P. for Halifax, to establish divorce courts in Canada will receive little support. The experience of the United States has not been such as to lead Canada to follow its example in that direction. Of course, the establishment of divorce courts would not necessarily lead to the evils of the lax marriage laws of the United States, but it would be a step in that direction that the Canadian people do not wish to take. It may be true, as stated by Mr. Skinner during the debate, that the marriage tie is held to be sacred by a majority in the United States, but that might still leave a large minority whose views were not so commendable. Canada can get along without a divorce court yet.

THE Globe is now attacking Mr. Skinner M. P., who was elected as a Liberal, for voting with the Government. It is bad enough for the Opposition to lose constituencies through bye-elections, but when the additional aggravation of Liberal members voting against them follows, their position is anything but pleasant.

Frauds on Farmers.

OTTAWA, May 15.—Before the Frauds on Farmers Committee to-day Peter Wood of Brantford, who had dealt in seed wheat, lightning rod and hay fork notes to the extent of about $35,000, was examined. He had never dealt in book agent notes, because he didn't believe in them. He had dealt in Excelsior Pump Company notes. Mr. Barron subjected the witness to a severe examination as to his suits on these farmers' notes, particularly about a note given by one Macpherson, payable to E. E. Jones, for a hay fork. Coulter of Brantford endorsed the note. In many cases Wood got 30 per cent. and more by shaving these notes.

Alex. Davidson of Mount Forest described the visit fifteen years ago of three men to his place, who said Hon. George Brown had recommended him to them as agent for a hay fork. The committee was nonplussed at the age of this case, but heard the grievance, which ended in Davidson being defrauded. He had a recent case. He created a laugh by stating that when he was called on to pay up he had to borrow money from "Jim McMullen," the member for Wellington, who was present.

T. Armault of Streetsville, Ont., told some sad experience of how he was swindled by agents. Among them, he said, were the Picturesque Canada people. In other cases he was asked to sign an agreement as hay fork and seed wheat agent, and afterwards found the alleged agreement was a promis-

HOUSEFURNISHINGS.

At this season many Housekeepers are replenishing their supplies of Tableware and China. City folk are furnishing summer cottages; country folk are filling up the dressers and cupboards of the old homestead; town's folk are picking and choosing here and there. Many would be glad to know of a place whose special business is to meet these wants and desires; that aims to furnish essentially good wares at consistently low prices; that offers the choice of many different dinner services, and yet does not compel you to take an entire set of any pattern, but allow you to select each course of a new design, or buy any portion of the set you may need; that does not try to impose ideas or wares upon purchasers, and yet is ready to advise which of the many wares is most desirable and suitable; and, if wished, will make a careful selection of pattern. When you want Tableware will you give us the opportunity to serve you.

"Tug" Marshall was arrested last night on an old warrant, for disobeying a summons to appear at the police court. The charge against him is for disorderly conduct, on a Sunday, at the Salvation Army barracks....George Wright was run in on a charge of disorderly conduct, on Tuesday night. He was raising a disturbance at his own house and the police being sent for he was arrested. He has been in the same cell before.

The Crop Outlook.

Reports received from the neighboring townships of the county indicate that the outlook for a good harvest is a promising one. The assurance is given that it is many years since the prospect for a substantial yield of fall wheat was so good. This is particularly the case where fall wheat was sown on pea ground. The soil being dry a growth was not promoted last fall, and consequently escaped being winter killed. Fall wheat sown on barley ground was not so fortunate, being to some considerable extent killed. Spring wheat is reported as especially promising and this is shared generally all over the county, with Asphodel leading and Otonabee not far behind. The barley is looking fine and strong and favoured by the weather is making rapid progress. A good breadth of oats is being put in with fair prospects for good crops. On the whole, from present appearances, there is much that is cheering to the farmer in the outlook and should prices rule fairly high the year's operations will not be without profit.

The Winner.

Miss Whibbs, of Ashburnham, was the winner of the prize last week, given each week to the person who purchases the largest assortment of goods at Mr. P. D. Doran's store. The competitions are interesting and the prizes of value.

Railway Notes.

It is reported that on Monday next, 21st inst., the new train service to Toronto over the G.T.R. line will be at the service of the public. The train will be an early one and will make the run from Peterborough via Port Hope and along the rails of the main line to the city.

3,000 boys and girls in Peterborough have voted that The Pantry is a grand institution for supplying their wants. d107

Hotel Change.

We understand that Mr. Wm. Kennealy is about to take possession of the Stewart House, as soon as Mr. Cavanagh moves to his new premises. The stand is a well known and old established one, and Mr. Kennealy is also well and favorably known as a boniface. We have no doubt that he will secure a fair share of the public patronage.

Fill It In.

The old fire tank opposite St. Paul's Church is in a dangerous condition, the top of it having rotted away. A number of logs are now piled across the hole. As there are a larger number of children playing in that vicinity every day, owing to the proximity of the schools, the Street Inspector should see that it is filled in at once, as ordered by the Council. It is not probable that it will ever be required for fire purposes again as that neighborhood is amply supplied with hydrants.

About Uniforms.

A meeting of the scholars, who compose Sergeant-Major Rundle's cadet classes, is to be held at 4 o'clock this afternoon, for the purpose of deciding regarding the matter of securing uniforms, for both boys and girls. The uniforms need not be dear and can be used at all times. If they decide to procure them, we have no doubt that some of our merchants would furnish the material at a very low rate. In Guelph for instance, the drill classes are uniformed and they present a highly creditable appearance.

There is no danger to human life more to be dreaded than that which arises from vitiated blood. Dyspepsia, rheumatism, headache, and general debility, all result from it, and are cured by the use of Ayer's Sarsaparilla. Take it this month. Six bottles, $5.

At St. Andrew's.

An apron sale and tea, under the auspices of the Ladies' Aid Society, of St. Andrew's church, was held in the school room on Tuesday afternoon and evening. In the afternoon a large number of aprons and other knick knacks made by the ladies were disposed of at remunerative prices and in the evening tea and other refreshments were served and the sale continued. The attendance on both occasions was good and the affair was a success in every respect. The proceeds, which go towards reducing the debt on the church, must have reached a handsome figure.

"The Party Press."

The members' meeting in connection with the Young Men's Christian Association will be held in their Hall, to-morrow evening at 8 o'clock. A debate will take place between members of the Otonabee Canoe Club and the Association, on the question, "Resolved, that the Party Press is beneficial to the best interests of Canada." Messrs. W. H. Hill and A. E. Scott will support the affirmative and represent the O. C. C., and Messrs. O. C. Rowse and Wm. H. Stevens will uphold the negative for the Association. Mr. Geo. M. Roger will occupy the chair and decide the debate. Members are requested to attend, and young men generally are cordially invited.

The Young's Point Steamer.

Mr. P. P. Young's new steamboat, which is being built at Young's Point, will be ready for launching in a few days. This boat will combine durability with comfort and elegance, and will be a great favorite with tourists and campers visiting our back lakes, as she has been specially constructed to meet their requirements. The ladies cabin aft will be a gem in its way, and the other cabin and smoking room will be adequate and comfortable. The promenade deck extends the whole length of the vessel (75 feet) and on the main deck there will be ample space, fore and aft, not decked, to permit passengers an uninterrupted view while resting in the cool shade and being fanned by the never failing breeze. A fuller account of this fine steamer will appear in these columns when she is launched.

BENEDICTS V. BATCHELORS.

Play an Interesting Game of Cricket on the P.A.A.A. Grounds.

An interesting game of cricket was played on the P.A.A.A. grounds, on Tuesday afternoon, between sides chosen from among the married and single members of the club. Considering that it was the first real game of the season some excellent play was shown on both sides. The weather was very cold and the spectators were but few.

The single men went to the bat first facing the bowling of Rogers and Rutherford. They were not disposed of until they had made up a score of 75, including four extras. No less than five obtained double figures and the "ducks" numbered two. Green distinguished himself by taking remarkably pretty and difficult fly, in first class manner. Rutherford is credited with 8 ix wickets and Rogers with four, the latter all being clean bowled.

For the married men Rutherford and Rogers first went in to play against the bowling of Stratton and Day (prof.) Rutherford carried his bat out for a score of 48, made up principally of fours and threes. Two of his hits were among the best and longest ever made on the ground. Of the others Rogers, Wrighton and Strickland were only ones that did anything at all, big round "nothings" appearing very frequently on the score sheet. The benedicts made a total of 68, or 13 less than their opponents, but it will also be observed that they batted two men short, they having left the ground before their turns to wield the willow came.

The following is the score:—

SINGLE.

Personal.

Bishop Dowling and Father McEvay went up to Toronto on Tuesday night, to be present at the funeral of the late Archbishop Lynch.

Miss Finlason leaves this evening for a trip to Scotland.

Mr. James Stewart leaves this evening for the sanitarium at Dannsville, N.Y., where he accompanies Mrs. W. G. Thompson, who is invalided.

Mr. Philip Bajus, one of Kingston's solid citizens, was in town to-day.

About the first of June Mr. Jas. Stewart will leave for a business trip, to his native land, Scotland. He expects to return about the first of August.

Mr. Wm. Lech has returned after his trip to Germany, invigorated after the visit and once more he has settled down to business. His hosts of friends will be pleased to learn that he is enjoying the best of health.

The Redcoats.

The various companies of the 57th Battalion paraded at the drill shed last night. The turnout was only fair, some of the companies being very weak in numbers. The manual exercise and general company drill was performed for a couple of hours. A number of recruits were sworn in and the ranks are being rapidly filled up. The men are showing the good effects of regular drill and in the course of a short time they should make a highly creditable showing. As far as numbers go, companies 2 and 4 had the largest turnouts. There were a good many spectators, including a fair delegation of Major Rundle's cadets.

Coming Cases.

The two tramps, Scott and Sullivan, will come up at the Police Court to-morrow morning. There is no evidence to implicate them in the recent burglaries and they will probably be discharged, as the others were....A Scott Act case, second offence, the first in town for some time, is docketed for Friday....Fishery Inspector Cochrane has his eye on some persons who have been killing fish with spears and by other illegal means and one of these gentry will be called on to appear before the P. M. in a day or two.

Disorderly.

About ten o'clock this morning, officer Stewart arrested John Dergan, on a charge of disorderly conduct. It is quite evident that the prisoner is not right in his head. He has been arrested on several previous occasions on suspicion of being insane, and it will be remembered that some years ago he committed a murderous assault on Dr. Kincaid.

Appeals.

There were seventeen appeals against the assessment of 1888, filed with the Town Clerk up to this morning. Nearly all of them are of a minor character, for changes in owners and tenants, etc., but one or two sweep the whole board appealing against over assessment on real and personal property and income.

Y. M. C. A. Lacrosse Meeting.

To-night at 9 o'clock the club will meet in the Association Hall to adopt rules, select suits and consider a challenge from the Ætnas to play a friendly match on the morning of the 24th inst. Members will please note this announcement.

Police Court.

P. M. Dumble held an afternoon session of the Police Court to-day. Henry Marshall, for a row at the Salvation Army barracks, paid $9.85. Dennis Slattery, a vagrant, was sent up for three months, and John Dugan, disorderly, was remanded for one week. As there was no charge laid against George Wright, he was discharged after the Magistrate had lectured him and advised him to leave his wife and family and the town.

Masonic.

R-Ex. Comp. D. McNaughton, of Cobourg Grand Supt. of Ontario District, accompanied by Ex-Comp. J. B. Trayes, district Secretary, paid an official visit to Corinthian Chapter, Royal Arch Masons, on Tuesday evening. They were much pleased with their reception, the work performed and the fine appearance of the temple. The visitors were after wards entertained at a banquet at which Comp. R. A. Morrow presided.

Their Spring Display.

Porter Bros. of this town, the well known builders of carriages and wagons, announce a grand display of work in all lines at their shops on Saturday next, May 19th and also on the Saturday following, May 26th. Those who purpose buying a wheeled vehicle of any description will do what is judicious and well by calling and seeing what the firm offer. The show room adjoins the factory, corner of Charlotte and Aylmer-sts. near the G.T.R. station. They invite particular attention to the new style buggies, phaetons and road carts, built and finished in the best possible manner. There is hardly a special want in their line that the firm cannot supply, the resources of the shops being ample for any emergency. Farmers are specially asked to look the display over, while local horsemen who desire a light, graceful, handsome buggy or road cart will find much worth of favourable comment. 4d115-2w29

Brevities.

—The remarkably cold weather continues and everybody is shivering.

—A burning slaughter house caused a fire alarm at Port Hope on Monday night.

—Mr. J. B. Trayes, of the Port Hope Times, was in town on Tuesday evening.

—Engineer English purchased some more coal this morning to keep the town offices warm.

—A cricket match between the Institute and Bankers elevens will probably be played on Saturday.

—Bad Bellevillians who go fishing on Sunday are fined one dollar each by the Police Magistrate.

—Sergeant-Major Richards, of the North-west Mounted Police, was in town yesterday on his way to Ottawa.

—The early closing by-law comes into force in Port Hope on the 28th of May. Grocers are not included.

—The Y. M. C. A. Lacrosse Clubs of Port Hope and Lindsay will play at the former place on the Queen's Birthday.

—The names of several gentlemen are spoken of as probable candidates for the vacant seat at the Council board.

—A police officer in future will meet all incoming passenger trains. Such a rule should have been made long ago.

—The Rev. Mr. Bradshaw has been elected Vice-President and Mr. John Corkery, Secretary, of the Mechanics' Institute.

—The young blood among the cricketers is rapidly coming to the front and appearances indicate that it is well worth developing.

—A citizen, when he saw the matting on the fire hall floor, expressed the opinion that Peterborough is getting exceedingly tony.

—Mr. Day, the professional coach of the cricket club and caretaker of the P. A. A. A. grounds, is rapidly getting things into shape.

—There are several junior Lacrosse clubs in town and some of the youngsters are capable of giving pointers to many of the old heads.

—Mayor Stevenson, M. P., left for Ottawa and his legislative duties, last night. Several other members of the House went down on the same train.

—The C.P.R. Telegraph Company are putting in an electric call system, similar to that of the G.N.W. Co., for the convenience of business men.

—The Riversides will play the first match of the season with the Barrie club at that town, on the Queen's Birthday. The twelve will be chosen at an early day.

—Mr. Geo. S. Perks, of Port Hope, formerly in the G.T.R. offices here, was in town yesterday. He has developed into quite a curler since he left Peterborough and now carries the Port Hope point medal.

—At the last meeting of the Methodist quarterly board for Bethany circuit the following resolution was unanimously carried: "That an invitation be extended to Rev. J. C. Bell of Canton circuit to become our pastor for the ensuing term, subject to the approval of the stationing committee."

—Port Hope's Chinaman skipped the town the other night, being about $60 in debt, after a five month's residence in the place. He was arrested at Montreal, on a charge of stealing a tub and was brought back to stand his trial. His total receipts during the last two weeks of his sojourn by the lake, were 30 and 90 cents respectively.

DIED.

MILLIKEN.—At Ashburnham, on Tuesday, May 15th, 1888, WILLIAM THOMAS, youngest son of Mr. Joseph Milliken, aged 11 years and 5 months.

Funeral from the family residence, Elizabeth st., Ashburnham, on Thursday, the 17th of May, at two o'clock, p. m. Interment at Little Lake Cemetery.

The New G.T.R Time Table.

It is expected that the new G.T.R. time table will come into force about the 21st of May. Numerous changes will be made. The local train, which at present runs from Cobourg to Toronto, will in future leave Peterborough in the early morning and make fast time, via Port Hope, to the Queen City. There will also be a return train at night by the same route. The Grand Junction trains will be affected by the new table. Close connections will be made between the morning Montreal express at Belleville, and the 8.15 express for Toronto at Peterborough, thus practically giving a direct through route from Belleville to Toronto. The afternoon Grand Junction train will have connection with the noon Grand Trunk express from Toronto.

GEORGE STREET,

Want of Sleep

Is sending thousands annually to the insane asylum; and the doctors say this trouble is alarmingly on the increase. The usual remedies, while they may give temporary relief, are likely to do more harm than good. What is needed is an Alterative and Blood-purifier, **Ayer's Sarsaparilla** is incomparably the best. It corrects those disturbances in the circulation which cause sleeplessness, gives increased vitality, and restores the nervous system to a healthful condition.

Rev. T. G. A. Coté, agent of the Mass. Home Missionary Society, writes that his stomach was out of order, his sleep very often disturbed, and some impurity of the blood manifest; but that a perfect cure was obtained by the use of Ayer's Sarsaparilla.

Frederick W. Pratt, 424 Washington street, Boston, writes: "My daughter was prostrated with nervous debility. Ayer's Sarsaparilla restored her to health."

William F. Bowker, Erie, Pa., was cured of nervousness and sleeplessness by taking Ayer's Sarsaparilla for about two months, during which time his weight increased over twenty pounds.

MONA'S CHOICE.

BY MRS. ALEXANDER.

"Were you there?" asked Mona, dreamily.

"Oh, I don't suppose you saw me. I never can push. Young Everard and some other fellows were round you all the time; but I have thought of you ever since. Do you know, last season's balls were the first I ever went to. I thought they were all rot. I like the racing set better. I used to go only for the chance of meeting you—and you would scarcely ever dance with me. To be sure, I am a stupid beggar about dancing."

"I think I always gave *some* dances," said Mona, rather at a loss what to reply.

"Oh, you were always civil!" exclaimed Waring, taking a little cup from the mantel-piece and turning it round and round as if examining the pattern. "Not like some girls, who are killing sweet, or snub you right and left. You are gentle and grave. I used to think I should never have the pluck to ask you to marry me, but—a—you see, when Mrs. Newburgh came to grief, I was ashamed of not offering at least to be of use to you."

"And are you content that I should accept you as a refuge from the ills of poverty?" asked Mona, looking gravely, calmly at him.

"I am," said Waring, after a minute's pause, putting down the cup, and speaking more collectedly. "It's not pleasant, of course, but I have faith in you. If you *promise* to be my wife, you will try to like me, and I'll try to please you with all my soul and with all my strength, as somebody says in the Bible, I think," added Waring, to enforce his professions—his religious studies were slight, and somewhat mixed. "And it will go hard if I don't get you to love me, unless—unless," his large brown eyes grew imploring—"you care for some other fellow! Gor God's sake don't say you love any other fellow! I never fancied you did."

"I do not, indeed." Her tone carried conviction to her hearer.

"Then—then, Miss Joscelyn, could you make up your mind to marry me? I think you might grow to like me by and by, and I need not say I would be delighted to carry out any plan, any," with emphasis, "that you think would be best for Mrs. Newburgh's comfort."

"It is a tremendous question to answer," said Mona, hesitating, yet feeling she must accept him. There was no other way left, and she was touched by his unaffected humility. "Yesterday or the day before I looked on you as a stranger; to-day I am to decide if I am to pass my whole life with you or not. I must say what sounds unkind, that I do not love you, that if this great misfortune had not befallen Mrs. Newburgh, I should probably have refused you—so I do not deserve your love."

"But I cannot help giving it to you! And if you do make up your mind to take me, you might just let me forget that you were driven to it."

"Yes; I am very ungracious. There is another circumstance I ought to mention; you may not like to know that my name is not Joscelyn. My grandmother always called me by my second baptismal name; I am really Mona Craig. My father was of very humble origin, I believe; and Mrs. Newburgh never forgave my mother for marrying him; but I dearly loved him as a little child, though I have forgotten what he was like."

"I don't care what your name is, as long as you will take mine. *I* am no great thing as regards family myself. I have heard something of Mrs. Newburgh's whim before."

"Is it possible?"

"I don't fancy that anything is a secret," said Waring. "Perhaps it is not fair to press you for an answer to-day. But you see time flies, and I long to be able to tell Sir Robert Everard that I have a right to discuss with him what is best to be done. Don't you fancy that I would hold back because you refused me. Whether you say yes or no, I would ask nothing better that to be of use to you; but not being a relation, it would be awkward for—"

"It would be impossible," interrupted Mona, in a low tone; then pressing her clasped hands together tightly, she said with some solemnity—"Since you believe I could make you happy—"

"You will be my wife?" interrupted Waring eagerly in his turn.

"I will, Mr. Waring, and try to be a good one." She grew very pale as she spoke.

"You are a great deal too good for me and as you do not care for any other fellow, perhaps you may end by caring for me."

There was an awkward pause, then Waring walked over to the writing-table and took up a paper-knife with which he played nervously.

"There are one or two things I should like to tell you, if you do not mind?"

"What can he be going to confess?" thought Mona. She, however, only bent her head in silence.

"I have not been as steady as I ought to be," resumed Waring, looking down and growing red. "You see, my brother and myself were brought up by an old bachelor guardian. We had no women in the house and that made us rather rough. Then I have lost a good bit at cards and races. I'm a little too fond of play, but—now that you are so very good as to promise me your hand, I have an object to live for, and I will never touch a card again, and never lay anything beyond a pony on a race, and, and I'll try to be—not unworthy of you. I will indeed! Now, have I your permission to go and tell Sir Robert Everard? He is a good fellow, and we'll settle something about Mrs. Newburgh. She ought to get out of town away from annoyances."

"Thank you," returned Mona, touched by his eagerness to serve her. "I am most grateful to you, Mr. Waring."

"Couldn't you manage to call me Leslie?" he said, entreatingly, "If you knew how I long to hear my name from your lips! and to call you Mona. It's not a happy enough name for you, but I love it all the same. I can't call you Mona, if you say Mr. Waring."

"It seems so strange," murmured Mona.

"Well, never mind to-day; but I may go to Sir Robert?"

"You may," said Mona, with white lips.

"Thank you!" cried Waring, his eyes lighting up, his whole face radiant, and so far carried away with joy that he took and kissed her hand, letting it drop directly. "I suppose I ought to go away now?" he said, humbly, "but I should like to stay. It is almost impossible to believe that you have really promised to marry me, that I may stay and talk to you, and will not have to give up my place to anyone! That fellow Lisle always came and turned me out when we were at Harrowby Chase; but he isn't half bad. Do you know, it was he that advised me to try my chance with you?"

"Did you want advising?" said Mona, in an unsteady voice.

A COLONY OF DEAD MEN.

In the present day we hear much talk of various colonies, projected or established by members of different sects, who, aiming at the propagation of some particular doctrine, think that a colony would serve as a means of consolidating their strength and giving an "object lesson" to an incredulous world. But stranger than any settlement of Mormons, Shakers, Socialists, Vegetarians, or Postivists, is the leper colony which for over twenty years has been established in Molokai, one of the most secluded and desolate of the Sandwich Islands. Leprosy is said to have been introduced from Asia into the Sandwich Islands more than half a century ago, and owing to the unsuspecting nature of the Hawaiian people, and their sociable habits, it spread with such terrible rapidity that the native Government was compelled to devise some means for the segregation of the sufferers, and chose for this purpose the island of Molokai. Thither the lepers are transported in batches from the other Hawaiian islands, as many as 2,500 having been thus expatriated in the course of the last fifteen years, the colony itself numbering on an average some 700 or 800 inhabitants.

The condition of the lepers thus assembled in a community of which death is the presiding genius was at first pitiable enough, but of late years their lot has been improved, as far as the incurable nature of their disease permits, by the heroic devotion of one man, who in 1873 volunteered to take charge of the leper settlement, and has remained at his post till the present day. This was a young Belgian priest, Father Damien de Veuster, who, having been sent out upon a mission to Honolulu, the capital of Hawaiian kingdom, and hearing from the bishop of the neglected state of lepers of Molokai, at once undertook the perilous service which no one else would perform. The result of his work is now visible in the neat white cottages which have replaced the thatched huts in the village of Kalawao, where most of the lepers are domiciled; in the chapel, which, with the aid of a few lepers, he has himself built, painted and decorated; in the schools, hospitals and dormitories which he has gradually established; and, above all, in the improved condition mentally, if not bodily, of the lepers themselves. In a little book, published a year or two ago at Indiana, under the title of "The Lepers of Molokai," the author of which had himself visited the colony, Father Damien is described as the Jack-of-all-trades of his flock, "physician of the soul and of the body, magistrate, school teacher, carpenter, joiner, painter, gardener, housekeeper, cook, and, even in some cases, undertaker and grave digger." For a long time Father Damien had to work single handed at his strange task, but of late years he has been assisted by another priest, his present companion being a "Brother Joseph," who joined him in 1886.

For thirteen years from the time of his first settling at Molokai, Father Damien escaped all contagion of leprosy, in spite of the frightful risks which he daily encountered in tending the sick and burying the dead. But at last, in 1885, the deadly disease made its appearance on him, and his doom was thenceforth sealed, although up to the present time he has been able to go about as usual and continue his work. In a letter to a friend in England, Father Damien says that the disease now works on him more at the exteriors and does not give him so much pain in the limbs. In regard to a cure of the disease, he says he leaves it in the hands of God and the Blessed Virgin, and feels happy with his lot. Much has been written about the heroic services and death of Gordon at Khartoum. Not less worthy of a place in the history of heroism is the story of this Belgian priest, who is now calmly awaiting the most terrible of deaths in the leper colony of Molokai.—Pall Mall Gazette.

AS MUCH A SECRET AS EVER

To the Editor of the Review:—SIR—How in the world has C. B. ROUTLEY jumped into such a big slice of Wall Paper trade? Why, it seems as if one couldn't pass his store without running against a load of Wall Paper in the arms of some pleased looking customer. I'm half inclined to think there must have been lots of boodle in the Wall Paper business before ROUTLEY started it and that the people have found out that he has broken the combination. Eh! what did you think, Mr. Editor? And yet you occasionally hear of spasmodic attempts to get down to ROUTLEY'S prices, in order to head him off; but still it seems as much a secret as ever how he keeps up the run

TURNBULL'S.

We wish to call your attention this week to our Large Stock of Black Cashmeres. They range in price from 25 cents a yard up to $1.20. The one at 25 cents is a good black with sightly appearance which is all we say about it. But when you advance to 45 cents you have a nice rich color, particularly suited for mourning, good weight and fully 44 inches wide. At 50, 60, 75, 85, 90 and $1.00, we have a new line by a French maker which is much nicer than the old make and deservedly popular, being much finer in appearance, more like a Henrietta. To be had in blue and jet black.

GERMAN CASHMERES.

These Good are made in Saxony where the makers vie with each other in producing a superior article. We have secured a make that cannot be spoken of too highly. It is a double warp and finished like a satin. They are now open for inspection, (on 3rd counter to left from George-st. entrance).

In our Custom Made Tailoring Department we show a nice range of Pantings, Worsted Suitings, Light Overcoatings, etc. Only first-class work turned out. (2nd counter to the right.)

Early last fall when the public began gathering around their stoves and were thinking about Flannels and Blankets, we were looking ahead and gave large orders with the leading manufacturers of Chambrays, White and Colored Muslins, Lawns, etc. These Goods are now in stock, and will be found on the first counter to the right.

Our first stock of Sailor Hats has been bought up rapidly which is sufficient evidence that they are the correct thing. Our second shipment bought at a much lower price is now in. All sizes and styles to choose from. The prices will please you when you see the styles and quality.

THE TERRITORIES BILL.

THE COMBINES COMMITTEE PRESENT THEIR REPORT.

A Bill for the Suppression of Combines to be Introduced—The Labor Commission —The Civil Service Act.

OTTAWA, May 16.—In the Commons this afternoon Clarke Wallace presented the report of the Combine Committee, and gave notice of his intention to introduce on Friday a bill for the suppression of trade combinations.

In answer to Mr. Weldon of St. John, Hon. Mr. Bowell said that the membership of the Labor Commission had been fifteen, including one without salary, Mr. Cote. They had finished the taking of evidence on May 12. The salary allowed to the Labor Commissioners was $10 a day, besides actual traveling expenses and $3.50 per diem for hotel and living expenses.

The House then went into committee on the bill amending the Civil Service Act, which was passed with a further amendment providing that persons on the temporary staff on July 1, 1882, and continuously employed since May, be placed upon the permanent staff without passing the qualifying examination.

Sir John Macdonald then moved the second reading of the Northwest Territories Bill, of which he made lengthy explanations. He stated that he proposed to introduce in committee an additional clause providing that the Lieutenant-Governor shall select from the elected members three persons to be an advisory council in matters of finance, to hold office during pleasure; the Lieutenant-Governor to preside at all meetings of this advisory council; to vote as well as have the casting vote in case of a tie, and no measures involving the expenditure of money are to be proposed without the assent of this council. Sir John stated that it was not the intention of the Government to provide at present for vote by ballot, though the Northwest Council had asked for it. He announced that the three legal experts to be chosen to sit with the Legislature were to be members of the judiciary—Judges Richardson, McLeod and Rouleau.

Mr. Laurier said that as an alleged extension of popular rights this measure sounds well, but there is really no extension whatever. He regretted that there was no provision for the appointment of an Executive Council. Referring to Sir John's statement on introducing the bill that the people of the Northwest had a holy horror of responsible government, Mr. Laurier said the fact was that, so far from having this holy horror, people there were now actually petitioning Parliament for responsible government. The system of government now provided for the territories never gave any satisfaction in the older provinces, and the same causes would be found to produce like unsatisfactory effects in the Northwest. He thought that the Legislature of that country should have been given most of the powers granted to Legislatures in the provinces. Concerning the system of voting he thought there was no part of the country where such an amount of undue influence could be exerted by the Government as in the Northwest.

After recess, Sir John, in answer to inquiries, said the Lieut.-Governor would have no power to dissolve the Legislature, which must continue for the three years for which elected. He also stated that the Legislature itself would have power to establish ballot voting for its own election.

A New C.P.R. Connection.

OTTAWA, May 16.—Messrs. Corbett and Shirley, contractors, of this city, have been awarded the contract for manufacturing a line of railway from Cookshire, near Sherbrooke, Que., south to the international boundary, a distance of 35 miles. The line is nominally being constructed by an independent company, but the Canadian Pacific Railway Company are understood to be at their back. Cookshire is on their new short line to Portland, and the addition will serve as a useful connection with the United States lines. Messrs. Corbett and Shirley sent a gang of 75 men to Cookshire this morning to begin the work of construction, which will be commenced and pushed to completion immediately. The upward grade of the line for almost the entire distance is 60 feet a mile.

Sawdust in the Ottawa.

OTTAWA, May 16.—Before the Sawdust Committee in the Senate to-day the evidence was closed. A Keewatin mill owner said sawdust did not injure a river channel. Insurance men testified that the erection of kilns to burn sawdust would increase the rates on insurance. Capt. Bowie, of the steamer Empress said that if the deposits of sawdust in the Ottawa went on for ten or fifteen years longer there would be no river left. He had seen difficulty in steamers getting to wharf through sawdust. Mr. Christie said the mill owners denied that the channel was being permanently filled up. He tendered evidence on this point, but the committee decided to close and report to the House.

C., B. and Q. Officers Commended.

CHICAGO, May 16.—The stockholders of the Chicago, Burlington and Quincy Railway Company met here to-day and passed a resolution commending the officers of the road for the stand they took in the late strike.

MANITOBA LEGISLATURE.

A STORMY SESSION AT THE PRAIRIE PROVINCE CAPITAL.

Talking Against Time—An All-Night Session—A Motion to Summarily Discharge the Provincial Auditor.

WINNIPEG, May 16.—There was a monkey and parrot time at yesterday's all-night session, which was perhaps one of the most remarkable on record. French, English and Gaelic were talked by members, recriminations indulged in, "liar," "scoundrel" and similar epithets hurled promiscuously, and the proceedings generally were more than lively. The Conservatives talked against time. Mr. Norquay appealed for a commission to vindicate his personal honor, and taunted the Government with rank cowardice not to allow him that justice.

The Speaker having left the chair and an Opposition member occupying it, it was discovered that there was no quorum shortly after 1 o'clock, and he, too, left the chamber, followed by the mace. Consternation prevailed. Finally A. F. Martin brought back the mace, and the Government appointed him Speaker, Speaker Glass refusing to take his seat on the ground that the session was over.

Mr. Norquay continued taunting the Government with injustice and cowardice, and subsequently it was discovered that both amendments were out of order. The Government amendment was re-introduced in proper form, but as there was no sign of a cessation of hostilities, and both sides announced their determination to fight it out on that line if it took all summer, efforts were at length made to secure a compromise.

Attorney-General Martin stated that the Government had not decided to proceed criminally against Mr. Norquay, nor was it their intention. The Opposition asked if there were any grounds for proceeding against Mr. Norquay, but Attorney-General Martin said the Government would make no further statement. The Opposition insisted that Premier Greenway, who made the charges, should make the explanation that the Attorney-General did, but he said nothing.

Finally several Opposition members expressed satisfaction at the explanations, as they believed the Government had no facts to implicate Mr. Norquay, and just at daylight the ex-Premier said he was satisfied with the explanations. All motions were then withdrawn.

This afternoon the Attorney-General moved for the dismissal of Provincial Auditor Nursey, who appeared at the bar of the House by counsel and quoted authorities to show that he couldn't be summarily dismissed, but must be furnished with specific charges and afforded the fullest investigation and opportunity of defence. The motion carried.

LAID AT REST.

The Remains of the Archbishop Buried by the Side of the Cathedral.

TORONTO, May 17.—The body of Right Rev. Dr. Lynch was committed to earth yesterday afternoon at 1.30 o'clock with all the pomp and ceremony practised by the Roman Catholic Church on such occasions. The ceremonies accompanying the interment of the remains of the dead prelate were most impressive in character, and were listened to by fully 4000 people.

The services consisted of Pontifical High Mass de Requiem, Cardinal Taschereau acting as celebrant, Very Rev. Father Rooney as assistant priest, and Archdeacon Cassidy and Deacon O'Connor as deacons of the mass.

Bishop Ryan of Buffalo ascended the pulpit to deliver the funeral panegyric immediately at the close of the mass. He possesses all the attributes of a finished orator, but his voice unfortunately lacked sufficient strength to enable his words to be heard at the further end of the great building. He paid an eloquent tribute to his friend and brother, the late Archbishop. During the sermon the rev. prelate was much affected, and at times was well-nigh overpowered with emotion. He took for his text the Apocalypse, xiv.:

13. And I heard a voice from heaven saying to me: Write: Blessed are the dead who die in the Lord. From henceforth now, saith the Spirt, that they may rest from their labors, for their works follow them.

At the conclusion of the sermon the last and most solemn ceremony of the obsequies took place. It was the giving or conferring of the five absolutions on the body before it was consigned to the grave. This closed the ceremonies within the building, the funeral procession forming while the undertaker and his assistants prepared the body for final sepulture.

The place of sepulture was on the north side of the cathedral wall, exactly on a line with the high altar and close to the wall. His Eminence sprinkled the casket with holy water, Rev. Dr. O'Reilly, the only relative (a grand nephew) the dead prelate had on this side of the Atlantic, cast a few handfuls of earth on the lid, and the funeral obsequies were brought to a close. The tomb will be bricked in and covered with three weighty stone flags.

Killed the Arbitrator.

SAN FRANCISCO, May 16.—The New Zealand Herald of April 10 contains an account of the murder of the American Consul at New Britain. The natives had been fighting and they asked the Consul to arbitrate. He attempted to do so, when he was attacked by one party and had a narrow escape, retreating through the bush. The natives kept after him and finally killed him. He is said to have been a new man to the place.

The Gotham Sensation.

NEW YORK, May 16.—The coroner's jury which investigated the death of Broker Nathaniel W. T. Hatch, who was found dead last Thursday morning in a lane at the rear of Mrs. Scofield's house on West Twentieth-street, returned a verdict to-day of accidental death.

The Raging Mississippi.

St. Louis, May 16.—Reports from the flooded districts along the Mississippi indicate that the situation grows worse hourly. The damage to crops and other property is enormous.

LONDON, May 17.—The Standard's Rome special says the Irish Bishops have forwarded to the Propaganda their observations on the mode of putting the Papal rescript into effect, so as to eliminate any political significance and avoid bitterness. Cuba and other points are now under consideration.

HAYFORKS AND SEED WHEAT.

The Farmers' Frauds Committee Finishes Taking Evidence for the Session.

OTTAWA, May 16.—Evidence was resumed before the "Hayfork" Committee to-day. Lewis Lapierre of Paris gave a note for $300 to the Ontario Grain and Seed Wheat Company, of which Hewitt of London was President, for 30 bushels of grain, taking the company's bond that they would purchase one-third of the product of the seed wheat in the fall. He afterwards became President of the company, and had never been asked for payment of the note. He resigned from the presidency on April 30. The capital stock was $25,000. Hewitt told him they had $1600 deposited in the Bank of London. The majority of the committee believed the witness had been duped.

Mr. Dunstan of Britannia said the same company, represented by Perry and Sherwood, sold him 20 bushels of seed wheat for $15 a bushel, which he sowed and afterwards sold for $1 a bushel. They induced him to go into the scheme by showing him a large-sized Government charter. He did not know it was bogus. Four of his near neighbors were nipped in the same way. He found out the whole thing was a swindle by the fact that Perry and Sherwood skipped out. He offered Roaf of Toronto, who got his note, $100 for it, but Roaf refused. The note was still out.

The committee decided that clear proof of swindling in hay forks, seed wheat and lightning rods had been shown, and they did not need further evidence on the matters. They will report to the House briefly and sit again next session.

QUEBEC LEGISLATURE.

Premier Mercier Declares for the Dominion's Complete Autonomy.

QUEBEC, May 16.—The address in reply to the Speech from the Throne was moved in the Assembly this afternoon by Mr. Rochon, M.P. for Ottawa County, and seconded by Mr. Legris of Maskinonge.

Mr. Taillon made an elaborate criticism of the Government policy, showing the public the weak spots. He was particularly severe regarding the bungling loan which cost the province thousands of dollars.

Premier Mercier in reply defended his policy and took occasion to denounce the Imperial Federation movement. Not a single French Canadian could be found to support it, and its only advocates were a few Englishmen who desired to bind Canada to Britain. He declared straight for the independence of Canada, and hoped that the day would come when we would be free of English control; yet, at the same time, he advocated the transfer of the veto power to Downing-street.

The address was adopted, without a division.

FELL SHORT OF THE MARK

LORD RANDOLPH CHURCHILL FAILS IN HIS SCHEME.

General Wolseley Persists in His Statements—England's Work Cut Out—The Commons Will Provide Supplies.

LONDON, May 17.—The scare about defenceless London has subsided. No serious alarm could long exist after an order to the City of London volunteers, announcing that England was in danger, putting the train bands on guard. Lord Randolph Churchill, who unwisely chose this moment to widen the breach between himself and the Ministry, strove hard to persuade Lord Wolseley to assume a belligerent attitude toward the Government, but Lord Wolseley would not. He has met Lord Salisbury's attack with discretion, tact and good temper.

Peers and peeresses rushed down to the House of Lords yesterday, expecting to hear their only general make a warlike speech, attack Lord Salisbury, attack the Duke of Cambridge, and attack Mr. Stanhope. Rumor said that somebody would have to resign before all was over. Nothing of all this happened, however. Lord Wolseley maintains the accuracy of what he said about the condition of the army, protests that his comments on party action had no reference to the present ministry, did not resign, but left himself in Lord Salisbury's hands. The Prime Minister could not do less than decline to avail himself of this. To lose General Lord Wolseley would be, he said, the greatest possible blow to the military administration. The Duke of Cambridge, too, was friendly. The well-known differences between him and Lord Wolseley were not of a kind to be discussed publicly. As for the defenceless condition of London, it is true, said Lord Wolseley, London could not hold out against an army of 100,000 men. But there is no cause for panic. No invasion is likely. There is time enough to do all that needs to be done to protect the English capital.

Lord Wolseley, however, gets roughly handled in the press. The Tories resent, his attitude towards the Tory Government. The Liberals have never forgiven him his revelations about the Soudan campaign, especially his blunt declaration that delay in sending an expedition was the cause of Gordon's death. He is without any very zealous champion in print. But Wolseley has the public on his side.

England's Work Cut Out.

LONDON, May 17.—The Daily Telegram, commenting on the agitation regarding England's military condition, says the net result is that the public now knows what it is necessary to do. The Government will have to provide 40,000 extra men, get magazine rifles and field guns manufactured either here or in America, or wherever the work can be quickly done, provide horses for the cavalry and barracks for the troops, drill and equip 100,000 volunteers, and attend to the coast defences. The main point to be decided is, who shall carry out this program? Lord Salisbury and Mr. Smith are already overworked, and the public has hardly sufficient confidence in Mr. Stanhope's capacity for such a vast task.

Millions for Defence.

LONDON, May 16.—In the House of Commons last night, W. H. Smith asked power to issue consols for £2,600,000 for works of defence at ports and coaling stations. Of this amount £1,500,000 would be expended at Malta, Gibraltar and other military stations.

Mr. Stanhope announced that the Government would undertake a full inquiry into recent statements under the personal direction of the Premier. For the defence of ports and coaling stations works were already in progress and guns had been ordered and measures had been taken to provide coaling stations with barracks and garrisons.

Sir Henry Havelock Allan insisted on the necessity of largely strengthening naval and military defences.

Lieut.-General Sir Edward Hawley said he was satisfied with Stanhope's statements, but hoped they only embraced an instalment of what he intended to do.

LAKEFIELD.

Correspondence of the Review.

VILLAGE COUNCIL.—A regular meeting of the Village Council took place on Monday evening last. Present—Reeve Casement in the chair, and Councillors Hull, Nelson, Moore and Henderson. The minutes of the last meeting were read and confirmed. A communication was read from Messrs. Ranney & Ludgate, Peterborough, stating that it would be necessary for the corporation to take legal proceedings in dealing with certain streets, and that the council would have to furnish them with names for certain streets. On motion the communication was received and referred to the Road and Sidewalk Committee. A petition asking the Council to pass a by-law to bring the municipality under the Fraser Early Closing Act signed by S. Henderson and 20 others was read. The petitioners asked that the hour fixed for closing be seven in the evening. Also a petition from Mr. W. A. Eastland and Mrs. Geo. Tanner, asking that the hours for closing their respective stores as grocers be fixed at 8.30 p.m. Considerable discussion took place when the council was in committee on the by-law, and it was decided to make the hour for closing 7.30 and to include the signers of the second petition. On the recommendation of the Finance Committee the following accounts were ordered to be paid and the Reeve's order drawn for the same:—

W. A. Eastland	$ 2 70
G. A. Milner, printing, advertising, &c	14 85
Campbell Sewer Co	6 75
John Alcumbrack	10 95
Geo. Murduff	13 35
Wm. Rowe	3 09
B. Robinson	3 45
Hugh Fitzgerald	4 50
R. Freebairn	2 88
John Cooper	3 00
Mrs. Rogers	0 50
Isaac Watson	18 18
Total	$86 16

The following report from the Finance Committee was submitted:—

GENTLEMEN,—Your Committee having carefully taken into consideration the letter of April 9th, from Messrs. Booth & Co., submitted to them by the council, beg leave to make the following report:

That as per said letter the Messrs. R. & G. Strickland have now withdrawn their offer of the new Woollen Mill property as as security for the loan of six thousand dollars, we now find we have nothing to report, as we consider the whole affair stands now in the position as if nothing had been done in the matter.

JOHN HULL.

Moved by Councillor Henderson, seconded by Councillor Nelson,—That the report of the Finance Committee be received.—Carried. The Road and Sidewalk Committee submitted a report as follows:—

GENTLEMEN,—Your Road and Sidewalk Committee beg leave to report as follows:—

1st. That we have awarded the contract of completing a map of the village and establishing certain streets to Messrs. Ranney & Ludgate, Peterborough, for the sum of $250.

2nd. We would also suggest to your consideration the advisability by some means of lighting the streets on dark nights, which we consider would be great boon to the ratepayers. We would offer the suggestion of lamps being employed, the same as being used by the Presbyterian church. We consider six such lamps would be sufficient, placed at the most advantageous points, the cost of said lamps complete would be about $30.50.

3rd. We would draw the attention of the Council to the large amount of stones and stumps that have been deposited on Oxford and Bishop-sts., by Messrs. Trotter, Charlton, Jackman and Bird, and would suggest that the Council instruct the Clerk to notify the aforesaid gentlemen to have all stones and stumps which they have deposited on said streets removed by the 15th of June, 1888.

4th. We would draw the attention of the Council to the fact that the corporation have not a deed of the road leading into the station.

5th. Your Committee recommend that this Council take no action in connection with the Buckley Lake road, as the Douro Council have not done anything to the aforesaid highway.

6th. Your Committee think it would be advisable to open Albert-st. to Concession-st., also Bishop-st. to Water-st., and close Oxford between Concession and Rabbit-sts.

7th. We would draw the attention of the Council to a fence on William and Clementi-sts., which is about 8 to 10 feet off the line on the aforesaid streets, and would suggest that the Clerk be instructed to notify the party owning said fence to have it put in proper position.

8th. We think it would be advisable to appoint a constable for the summer months to look after the loafers which are a disgrace to our village and themselves.

All of which is respectfully submitted,

S. HENDERSON,
Chairman.

Moved by Councillor Hull, seconded by Councillor Moore,—That the report of the Road and Sidewalk Committee be received and adopted.—Carried. A by-law appointing a village constable was passed, sealed and signed by the Reeve and Clerk. Mr. Geo. McIlmoyle was appointed at a salary of $30 for the summer months. A by-law to borrow money for current expenditure also received its several readings, passed and was sealed and signed. Moved by Councillor Henderson, seconded by Councillor Nelson,—That the Reeve have the power to write his order on the Treasurer to pay the corporation men, on bills of said men being approved of by the R. and S. Committee, at end of each week.—Carried. The Council then adjourned.

HENDERSON'S PHARMACY for very close prices in wall paper and bordering. We have already done a large business in this line; all buyers have spoken highly of our beautiful designs and low prices in wall paper and bordering. Inspect our stock before buying elsewhere and you will be convinced.

EARLY CLOSING.—We hope the citizens of the village will help the merchants to carry out the law in connection with the early closing movement, and remember that on and after June 1st, 1888, the places of business in the village will be closed at 7.30 p. m., each evening of the week, Saturday evenings, evenings before public holidays, and during the month of December excepted.

Children Cry for Pitcher's Castoria.

A VICTORIOUS GOOSE.

Our grey goose sat in a nice square box
Fixed up in the hen house corner,
To keep her safe from the skunk or fox,
She sat proud as little Jack Horner;
In her nest six eggs—and she sat thereon,
And she covered them all completely;
Not Queen Victoria upon her throne
Could hold her domains more neatly.
She sat her time—did her duty well,
Raising a heat like read hot cinders,
Till the goselings beak burst through the shell
And sent them all into flinders.
No mother that ever bore a child,
Could sit with her young more proudly;
But when I drew near, she rose up wild,
And with open mouth hissed loudly.
Sometimes she stood and sometimes she sat,
But a watchful eye still keeping,
In the hours of night a voracious rat
Slip up to her nest went creeping;
On its hungry raid it did neglect
That the motherly goose was on duty,
Her cracking bill had it safe by the neck,
And it never secured its booty.
No mortal eye saw the foes engage
Nor the power of their weapons study,
We can judge from a hungry ratship's rage
That the contest was fierce and bloody.
Next morning I went in to behold
A sight that brought forth loud laughter,
A huge rat lay there stiff and cold
That our brave grey goose did slaughter;
Surprised and delighted there I stood,
By the tail up the dead rat picking,
She raised her wings, showing me her brood
Was still all alive and kicking.
She tossed her head round every way
When she heard me so uproarious,
And in her own language seemed to say,
Boss, I have been victorious.
O pity the rat that shenks around
The nest where our goose sits watching,
Her act has proved she can hold her ground
Every murdering rat dispatching.
No hotel table that goose will grace,
Croft's, Morgan's Ted's nor Roddy's,
At death she shall have a resting place,
Not a knife shall carve her body.

The Defeat of Friar's Balsam.

LONDON, May 5.—"Oh, what a surprise!" Such was the burden of everybody's song on Wednesday afternoon at about two minutes after 3 o'clock, when half way up the Rowley Hill they observed Tom Cannon's heels vigorously at work upon the sides of Friar's Balsam, who just previously had started one of the hottest favorites upon record for the Two Thousand Guineas. The spectators were for the moment dumbfounded, and plungers on the crack received an aggravated repetition of the fright which was caused over the same ground three years ago when Paradox, upon whom odds were laid, only secured the verdict by the skin of his teeth from Crafton, then known as the colt by Kisber out of Chopette. A more sorry exhibition by a hot favorite was never seen, and it is poor consolation to those for its very badness was its best excuse, for to suppose that it was true form would be too utterly absurd.

Nor is difficult to assign a cause for his mean display, inasmuch as the poor brute was suffering from an abscess on his jaw. Although it was hoped that this disorder would not materially affect him, as a matter of fact he was attempting an impossible task. While at the post a large quantity of blood and matter was discharged from the wound, and under the circumstances it is marvelous how the horse could bear the bit in his mouth at all. After the race for the Guineas the advice of Mr. Barrow was sought, and that eminent practitioner, having lanced the abscess, gave it as his opinion that he would soon be all right again.

Spots of Sport.

Shortstop Ward of New York was hit on the knee by a thrown ball last Thursday and badly injured.

Sam Bittle pitched a game for Boston against Allentown the other day, and the Allentowns won by 20 to 2. Sam's delivery was batted for 21 hits, with a total of 29 bases.

Manager Fisher has a young pitcher who will arrive at Hamilton to-night and will be given a trial after he has had a couple of weeks' practice.

GOUGH BROTHERS

On the Trail of tottering houses that require Money.

A WHOLESALE STOCK OF CLOTHING BOUGHT AT 52½ CENTS ON THE DOLLAR,

Comprising over 1200 Suits of Men's, Youths' and Boys' Clothing, and 800 pairs of Pants, extra. GOUGHS have secured this splendid Bargain Line and commenced a Grand Fitting-out Sale on Thursday morning.

MEASURES FOR THE MEN.

Read our champion offer, and don't try to duplicate it, for it can't be done.

We offer a man's Suit for $2.50 that cost $4.78 wholesale.

We offer splendid fitting Suits, and in 150 different patterns, at $5.00 easily worth $7.25 wholesale. These Suits, if sold in the regular retail way would bring $9.00.

OUR GREAT BIG PLUM in Men's Clothing, comprising 633 suits, regular wholesale price $11.50, and we are turning them out for $9.00. The cloth alone is worth more than we are asking for the whole suit complete.

Look them all through and then come to us, and if we fail to convince the most skeptical that our Stock is not at least five times larger and our prices 50 per cent. lower than those of any other dealer, we will give a whole outfit free.

WHAT WE SAY ABOUT THESE GOODS.

One man's extremity is another man's opportunity. Our grip on the market has brought this bargain to our counters. We want the public to know just what we offer. When we say the goods are bargains they are positive. When we say no such a pic-nic was ever before offered we have the goods to back up the statement. We nail the flag of cheap and and good Clothing, of brilliant sparkling bargains to the mast and defy any clothier on earth to lower our colors.

OUR PLAN TO HELP YOU HERE.

We want everyone to come and see what we are doing. Drive in if you can. Come by water, by stage or on foot, for there's money for you in the expedition. That there shall be no excuse, we will pay the railroad fare of any passenger, within a radius of fifty miles, who comes to our sale and buys $10.00 worth of goods or upwards.

BOUNCING BARGAINS FOR BOYS.

An honest statement always carries weight; can you believe one when you hear it? In black and white we tell you what we are doing in Boys' Clothing.

A Dandy Suit for the boy, and mind you, only 58 cts. People often run away with the idea that a cheap line is only advertised for a bait, and that when they come around say the boy is too big for the clothes and try to sell something else. This is not our style (we leave that for others to do). Don't be afraid to ask for these suits. Our salesmen won't tell you that the Proprietor is out and that they can't find them. We have lots of Boys' Suits at 58 cts. and while they last the public will get them, and though they are worth $1.00 wholesale we can sell them for 58 cts. and make a good living profit.

See our Boys' suits at $1.25, $1.75 $2.50 and upwards. The cheapest are good and the best are better.

For the Biggest Bargains on earth take a friend's advice and follow the crowd to

BANKERS.—Bank of Toronto and Canadian Bank of Commerce
SOLICITORS.—Dumble & Leonard.

TO DEPOSITERS.—Deposits are received by this Company both on current account and for periods of one year or longer. The rate of interest paid on amount deposited on current account and which may be withdrawn by check in such sums as the depositor may from time to time require, is four per cent., either paid or compounded half yearly, and the rate on yearly deposits is five per cent.

TO INVESTORS.—The five and ten years five per cent debentures of this Company which are issued in denominations of $100, $200, $500 and $1,000 each, transferable by endorsement, with half-yearly interest coupons attached, payable at the Head Office of the Company in Peterborough, or at any Branch of the Bank of Toronto in Canada, afford a safe and convenient mode of investment.

The funds of the Company being invested with the utmost care and precaution, no better security can be offered to depositors or debenture-holders, they having a first claim or mortgage on the whole Assets of the Company, the Shareholders having the second. The last audit shows that the amount so invested was over $1,310,223.69, and on securities of at least double that value.

By the Laws of Ontario, Trustees, Executors and Administrators may deposit Trust Funds of the estates which they control in this Company, and are free from all further liability, a privilege of which many have largely availed themselves.

TO BORROWERS.—Money is obtainable from this Company on approved Real Estate Security at the Lowest Current Rates of Interest. The Mortgage may be paid by yearly instalments or otherwise, as may be agreed upon, the interest ceasing at once on all amounts paid on account of the sum borrowed. Applications may be made either to the Head Office, or to any of the Agents.

AS MUCH A SECRET AS EVER

To the Editor of the Review:—SIR—How in the world has C. B. ROUTLEY jumped into such a big slice of Wall Paper trade? Why, it seems as if one couldn't pass his store without running against a load of Wall Paper in the arms of some pleased looking customer. I'm half inclined to think there must have been lots of boodle in the Wall Paper business before ROUTLEY started it and that the people have found out that he has broken the combination. Eh? what did you think, Mr. Editor? And yet you occasionally hear of spasmodic attempts to get down to ROUTLEY'S prices, in order to head him off; but still it seems as much a secret as ever how he keeps up the run

HOUSEFURNISHINGS.

At this season many Housekeepers are replenishing their supplies of Tableware and China. City folk are furnishing summer cottages; country folk are filling up the dressers and cupboards of the old homestead; town's folk are picking and choosing here and there. Many would be glad to know of a place whose special business is to meet these wants and desires; that aims to furnish essentially good wares at consistently low prices; that offers the choice of many different dinner services, and yet does not compel you to take an entire set of any pattern, but allow you to select each course of a new design, or buy any portion of the set you may need; that does not try to impose ideas or wares upon purchasers, and yet is ready to advise which of the many wares is most desirable and suitable; and, if wished, will make a careful selection of pattern. When you want Tableware will you give us the opportunity to serve you.

How to Repair Damages.

The trials that many are subject to as a consequence of "moving" are certainly very grevious. Furniture gets broken. Carpets do not fit, things get lost, and general discomfort prevails. Housekeepers would have but too much reason to lament their condition did they not find some consolation in the knowledge that the golden lion is open to supply their every want. Our standing before the public is a guarantee to the cautious and a security to the timid that no goods but the best can find a place in our warerooms, and no prices but the lowest are suffered to be charged our patrons.

No Alarm.

The members of the fire brigade residing north of Simcoe-st., were rather surprised upon coming down town this morning to learn that there had been a fire, as the electric alarms at their houses did not sound. Those south sounded all right. This is accounted for by the fact that the men who are putting up the calls for the C. P. R. telegraph Co, ran their wire over the fire alarm wire, touching it, and then, tied the end of their wire around a lamp post, grounding the fire alarm wires. At least that is the supposition, and it is generally accepted as being correct.

For Larceny.

William Scott, the tramp moulder, was charged at the Police Court this morning with the larceny of a pipe, the property of Officer Adams. The officer swore that Scott slept at the police station on Tuesday night, that the pipe was lying on a table and that on Thursday afternoon when Scott was arrested for vagrancy, the pipe was found on him. Adams had no private mark on the pipe, but felt confident that it was his property. The prisoner said that he had carried the pipe for upwards of twenty-two months. As it was a common wooden pipe with an amber mouthpiece the prisoner was given the benefit of the doubt and was allowed to depart.

Ladies go into ecstacies over the new perfume, "Lotus of the Nile."

Pure Water.

Under an Ontario Act, landlords must provide their tenants with pure drinking water. The following clause states that fact distinctly. The Ontario statutes, 47 Victoria, chapter 38, schedule A, sec. 69, sub-sec 12, reads as follows:—"It should be the duty of the owner of every house to provide for the occupants of the same a sufficient supply of wholesome drinking water: and in case the occupant or occupants of the house be not satisfied with the wholesomeness or sufficiency of such supply he or they may apply the Board of Health to determine as to the same; and if the supply be sufficient and wholesome then the expenses incident to such determination shall be paid by the said occupant or occupants, and if not, then they shall be paid by the owner; and in either case the said charges shall be recovered in the same manner as municipal taxes."

Just in Time.

The Water Company's employees just finished setting the hydrant is front of Mr. Richard Hall's residence, Water-st., and doing some other little jobs up north, when the fire alarm sounded. The water wheels were started at once and when the hydrants were opened the fluid rushed out with all its usual force.

A Deserved Promotion.

Lieut. W. H. Hill, of No. 4 Company of the 57th Battalion, has been transferred to No. 3 Company and promoted to a captainey Capt. Hill has been an attentive and efficient officer and his promotion is a recognition of merit. He is capable, energetic and popular and will carry enthusiasm into his new command. No. 3 Company will meet at the drill shed to-night and will be drilled by Sergt.-Major Rundle, and at the same time the men will meet their new captain. A full turnout is asked for.

A Financial Pointer.

As Peterborough will have some debentures to sell this year, it may be of interest to Councillor Davidson and the other members of the Finance Committee to note that recently Mayor Thompson, Kingston, disposed of the $140,000 debentures, the proceeds of which are to be devoted to the extension of the waterworks, to the Agricultural Insurance Company, of Watertown, N. Y., for $107.60 premium, the bonds to yield the company four per cent., though they were issued at 4½ per cent.

Damaged by Water.

On Wednesday night, repairs were being made to the wheels at the waterworks pump house. The pipes were full of water, but there was no pressure on the mains worth speaking of. One of the occupants of the rooms over Messrs. Rush Bros. grocery, went to the water tap to get a drink previous to retiring for the night. No water came and he carelessly left the tap open. When the fire alarm was sounded the pressure was put on at once and the water commenced to flow over the floor and through the ceiling into the store below. A citizen on his way home from the fire heard the water, divined the cause and had the flow stopped. The handsome papered ceiling of Messrs. Rush Bros. is completely destroyed, but the damage done to goods will not amount to a very large amount.

Discharged.

Wm. Scott and Thomas Sullivan, two of the suspected tramps, were before the P.M. this morning. Their week's sojourn in gaol had a good effect and they looked like two respectable men this morning. To the charge of vagrancy each pleaded not guilty. Scott said he was a moulder, without any fixed place of abode. He had a sister residing in Guelph, but as he had no other relatives he drifted around the country obtaining work wherever he could. He left Guelph some three weeks ago, with some money in his pocket. He got on a spree in Toronto and hearing that he might obtain work here, he came down, but although he inquired at different shops he could not find employment. He had a number of moulders' tools on him when arrested, also a ring of about ten keys, a silk handkerchief and a pair of fine black kid gloves that had never been worn. He claimed to have purchased the "wipe" and the gloves from a man in Toronto who was in hard luck. He had a dollar or two in money. The P. M. remarked that few tramps carried such fine gloves, but Scott replied that he had not always been a tramp. He was given one hour to leave the town. He at once gathered up his traps, not forgetting the pipe claimed by officer Adams, remarked that he would shake the dust of Peterborough from his feet in fifteen minutes, and at once took his departure. Sullivan told a somewhat similar story and was also given an hour to get out, with the promise of central prison if ever he was caught in town again.

QUARTERLY MEETING

Of the Official Board of the Charlotte-st. Methodist Church.

The last quarterly meeting of the official board of the Charlotte-st. Methodist Church was held on Wednesday evening. There was a very good attendance of members. The Rev. Mr. Tovell, pastor of the church, presided as chairman, and Mr. Wm. Cluxton, recording steward, acted in that capacity.

After routine the recording steward presented his report on finance. It was highly satisfactory, showing a fair decrease in in the debt on the church.

The report on membership showed an increase, despite the fact that there were thirty removals and six deaths, still the number who joined were sufficent to make up for the losses and show a surplus.

Three local preachers were appointed.

The report of the Superintendent of the Sunday School, Mr. O. C. Rowse, was very satisfactory and encouraging, showing as it did an increase in numbers and attendance.

The reports were all received and adopted, and after transacting some business of a private nature the meeting adjourned.

Mr. Cluxton has introduced monthly meetings of the board, an innovation that has worked admirably, as far as this church is concerned. Instead of meeting every three months, a meeting is held each month. Formerly the accummulation of business was sometimes so great that much of it was slighted. The accounts, reports, etc., are submitted and considered as usual, thus giving the members a chance of learning exactly how the work financial and otherwise is progressing month by month. This plan, after having been given a fair trial, is highly appreciated and doubtless other churches before long will see their way clear to adopt it.

THERE being a lot of very nice Millinery Trimmings in Alexander's stock, we had to get some new hats to work this stock off, and will sell them at way down prices. The rest of the stock is going very well, but is still well assorted in all lines, and must be pushed out in a hurry.

Fire.

Between one and two o'clock this morning fire was discovered in rear of the row of storey and a half rough cast houses, on the church property, near the corner of Water and Brock-sts. An alarm was promptly given and the firemen were soon at work. When first seen the sheds in the yard were in a blaze and the whole centre of the town was brightly illuminated. The brigade did good work and soon had the flames under control. The corner building was occupied by Mrs. Duval, who kept a boarding house, next door Mrs. Brown and her two daughters lived and the next place south was used for baking and confectionery purposes, by Mr. John C. Craig, who owned the building. It was thought that when the firemen left the fire was all out, but about four o'clock another alarm was sounded and it was found necessary to fight the flames a second time. The building was pretty well gutted, especially in the rear. The usual mystery surrounds the origin of the fire. The bake oven had not been used for some time and the other tenants state that all fires were extinguished before they went to bed. Mrs. Duval lost considerable of her household effects and some of the inmates of her house were forced to make a rather hasty exit, leaving behind them clothes and other property. She had no insurance. Mrs. Brown lost some small things, but the bulk of her effects were got out, but as is often the case, in a badly demoralized condition, and the same applies to Mrs. Duval's case. Mrs. Brown had a small insurance on her effects, sufficient she thinks to cover her loss. Mr. John C. Craig, the owner, had an insurance $1,000 on the building and $400 on the bake oven. The latter is not damaged at all, but the building cannot be repaired, and if replaced, it will have to be a brick structure.

All a Board.

Hello, George! Did you hear the good news?

No, Joe. What is it? Why, Canton No. 15, Peterborough, I. O. O. F., are going to have a grand excursion to Toronto.

Is that so. When is it going to be, Joe?

Early in June, and I hear they are going to give every one a chance to go by making the fare very cheap. They say the ticket will be good for two days!

I guess we will both have to take it in, and let all our friends know about it. These Canton men are the ones to get up a first class excursion, and this you bet will be a daisy. Let us watch the daily papers, it will tell us all about it in good time. Good bye, George.

Ta, ta, Joe.

Both are happy now. 2d11

The Water.

The water in the river still remains fairly high, but no such thing as a flood has occurred this. It is gradually going down and will soon reach the customary level.

The Spring Crop.

Health Inspector Adams has had no less than seventeen cats and dogs buried during the last two days. Of this number twelve were found along the banks of the creek.

An Addition.

Mr. Calcutt's new steam launch, the Eva, reached town last night from Brockville. The craft was brought to Hastings by train and thence steamed up the river. She is a trim, tidy little craf and will be quite an addition to our inland fleet.

At the Funeral.

Among the clergymen from this diocese who attended the funeral of the late Archbishop Lynch, at Toronto, on Wednesday, were His Lordship Bishop Dowling, Father McEvay, Chancellor, and Fathers Conway, Norwood, Quirk, Hastings, and Casey, Campbellford.

To-Night's Debate.

To-night the regular monthly members meeting of the Y. M. C. A. will take place. The programme includes a debate between two members of the Y. M. C. A. and two members of the Otonabee Canoe Club, on the subject "That the Party Press is beneficial to Canada."

Personal.

Among the transfers made by the General Superintendents of the Methodist Church and "gazetted" in the Christian Guardian is the following:—"Rev. S. J. Thompson, transferred from the Bay of Quinte Conference to the British Columbia Conference, the transfer to take effect on the first day of July, at 12 o'clock noon."

S.O.E.

The annual sermon to the Peterborough Sons of England Benevolent Society lodges, will be preached at St. Luke's, Ashburnham, by the Rev. Mr. Bradshaw, on Sunday, the 27th of May. It is customary for this organization to attend divine service on the Sunday nearest to the Queen's Birthday.

Y. M. C. A. L. C.

A meeting of the Y. M. C. A. Lacrosse Club was held on Wednesday evening. A constitution and by-laws were adopted. It was decided not to play the Ætnas on May 24th, but to wait until later in the season. A suit consisting of red and blue jerseys, blue caps and pants and white shoes, was adopted and a first twelve chosen.

The Cons.

A C.P.R. special train passed through this morning, bound from Toronto to Quebec, having on board about 250 railway conductors and their wives, who were attending the recent convention. Driver Plaxton held the throttle and the nine miles from Cavanville were traversed in exactly seven minutes. They will return on Sunday morning next.

Brevities.

—Port Hope's celestial got one month in gaol for larceny.

—The cleaning up process is in progress throughout the town.

—The barbers now close at 8 p.m. They commenced on Wednesday night.

—Cold weather still rules, but the probs promise us something finer to-morrow.

—The sawlog drives of the Dickson estate have passed Minden, on the way to the mills.

—The electric lights at George and Sherbrooke and George and Wolfe-sts. will be in operation in a short time.

—Bishop Cleary is in Ireland securing priests for the diocese of Kingston. He returns in June, when a reception on a grand scale will be accorded him.

—A petition is in circulation and is largely signed by customers of the road, asking that Mr. Hugh Darke, late freight checker at the C. P. R. Depot, be re-installed.

—Mr. J. G. King, of Port Hope, well known to many of our citizens, has been appointed Treasurer of the Keewatin Milling Co., who operate on the Lake of the Woods.

—The men at work on the Chemong Lake R.R. are commencing to make a show at the cut. The property purchased is being fenced off. Another switch for convenience in running up to Hilliard's, will be put in on the east side of the present track, close to the rear of the residence of Mr. Henry Denne.

—We notice by the annual report of the Surrey County Cricket Club of England, that the receipts for the year 1887 were, in subscriptions, $12,725; for matches, $36,000; and for rents and interest, $2,360. The expenses for matches, rent account, buildings and ground expenses, were $52,000. The club has 2000 members and has $30,000 cash on hand. Contrast this with the local club.

PICNIC.—The sidewalk committee intend holding a grand picnic in Mr. Denne's park on the 24th May. The fourth line band will provide music, and a lively base ball match and other amusements will be provided. A good time is expected.

OTONABEE.

CHOKED TO DEATH.—A sad event occurred in Otonabee on Friday night when the infant child of Mr. Thomas Henry was chocked to death. The parents of the child could not account for the cause of death, and on Saturday a post mortem examination was held by Drs. Brennan and Fife, when it was discovered that death had resulted from a small piece of prune pit, no larger than a pea, being lodged in the child's throat.

MONA'S CHOICE.

BY MRS. ALEXANDER.

"No, not advising, only heartening up! Tell me—would you like to travel on the Continent? I haven't been much abroad myself. Of course I always go to Paris for the Grand Prix, and to the Baden Races—but you!"

"Everything must depend on my grandmother's condition," interrupted Mona. "And, Mr. Waring—if you do not think it very rude—I think I must go to her now."

"You are looking very white," he said, tenderly, "so I will leave you; but I hope you are not unhappy, and if there is anything you would wish me to do, you will say so!"

Poor Mona longed to cry.

"I only wish you to go away!" she said, pressing her hand to her heart. "I am a good deal shaken and upset; to-morrow—"

"Oh, yes! I may come to-morrow! And Mona (I may call you Mona, may'n't I?,) when you are talking to Mrs. Newburgh, just say to her from me that it would be so much better if we—if, that is, if the marriage was to take place soon—quite soon! I should be so much better able to be of use. You'll not think me a bore for insisting on this? but it would really be better, putting my feelings quite out of the question."

"I shall be guided by what you and Sir Robert and grannie think best," faltered Mona. "I am afraid I must go now."

"When may I come to-morrow?" asked Waring, lingering.

"Oh, at two or three!"

"W. ll, I see you are tired, and you'll think kindly of me? You know I would do anything for you, *anything!*"

"Oh, yes, I will! And now good-bye."

Waring caught her hand and looked eagerly at her. For one dread moment her heart fainted within her. Was he going to ask for a kiss? If he had aspired to such a favor, he wisely postponed the demand, and again pressing her long, slight fingers to his lips, he left the room.

Mona ascended the stairs very slowly and deliberately, painfully conscious that she had fully committed herself. It now remained to complete the sacrifice by assuming a cheerful aspect before her grandmother. Then, when she had satisfied her, she might escape to regulate her own thoughts, to face the situation she had accepted.

"Well, Mona?" said Mrs. Newburgh, looking eagerly with her pitiful eyes into her granddaughter's face as she approached, while her thin, tremulous hands grasped the arms of her chair nervously.

"Well, dear grannie," sitting down by her and taking one of her hands in both her own, "I have heard all Mr. Waring had to say, and I have promised to marry him."

Mrs. Newburgh did not reply. She pressed Mona's hand, and, leaning back in her chair, the tension of her muscles relaxed, and a peaceful expression stole over her face.

"You have done well, Mona," she said, after a minute's silence. "You will yet thank me for urging you to this. Yet I did not urge; I only recommended you."

"That was all. Mr. Waring and I have been making our confessions. I told him that I was not in love with him, and that had we not met with such a reverse in fortune, I should probably have refused him; and he told me that he had not been too steady, and was addicted to gambling."

"You were imprudent, Mona. It is not wise to be too frank with the man you are going to marry. He, no doubt, will overlook everything now; but wait till the first cloud comes between you, and he will remind you that you did not care for him."

"I think Mr. Waring is a man who would forgive anything except deceit; and as I have nothing to hide, I shall try to be absolutely truthful with him."

"Yes, it is best; but, Mona, be truthful with me. Are you quite free from any fancy for—for anyone else?"

"Perfectly free, dear grannie," this very steadily.

"Thank God!" ejaculated Mrs. Newburgh! "You have always been a sensible, cool-headed girl, and I firmly believe you will be a prosperous, happy woman. Your conduct in this matter has repaid me for all I have done."

"It is very sweet to hear you say so," said Mona, gently.

"Tell me," resumed Mrs. Newburgh, "is Mr. Waring anxious that his marriage should take place soon?"

"He is; he begged me to say so when speaking to you. He left me to see Sir Robert Everard, and consult with him."

"That is well. He is our nearest of kin in town. Do not oppose this excellent young man's desire for a speedy union, Mona. There's many a slip 'twixt cup and lip.'"

"Young!" repeated Mona, dreamily. "He is almost too young for me."

"Nonsense!" cried Mrs. Newburgh, with something of her former briskness. "He must be seven or eight years older than you are. What more would you want?"

"He seems a kind of overgrown school-boy—so unfinished and undecided. I feel quite an old woman of the world near him."

"So much the better. The superior ripeness of your nature will give you influence over him. But I do not think he is so much a boy as you fancy. I know he is a favorite among men, and that always is a good sign."

And so on for half an hour and more. Mrs. Newburgh was quite talkative; she arranged her granddaughter's future household, greatly to her own satisfaction, and settled the amount of pin money she ought to have.

At last Mona was set free to commune with her own heart in her chamber, where she sat very still, reviewing her brief past and trying to sketch the probable future.

CHAPTER IV.—ON THE BRINK.

St. John Lisle had not, however, came off as scathless as Mona imagined. He had never been so hard hit by a girl before. Resolute as he was, both by nature and cultivation, he half dreaded the interview he had planned so cunningly. He expected tears, agitation, despair, however she might seek to hide their real source. Her mode of receiving his communication also amazed him. He could not understand how it was that she fell in so readily with his suggestion, and was, in truth, mortified in no small degree, when he found that the elaborate scheme of soothing caresses and ingenious reasoning he had prepared, was so much trouble wasted. If she had cared for him, she could not be so good-humoredly composed—some stinging words would have escaped her lips, some indication of the rage and pain that must be gnawing her heart would have been visible.

He was absurdly anxious to see her again—to ascertain if she still kept up the same friendly ease which had baffled him. Meantime he waited in London while his uncle was engaged in arranging with the military big-wigs the details of his new command. It would be much better to go out to India free and unfettered, to know Mona was unable to approach him. Still, an odd soreness surrounded her image, which was so deeply stamped upon his mind. He was determined to see her again.

A few days after having called in vain at Mrs. Newburgh's, Lisle had been breakfasting with General Stafford, and had remained for some time discussing plans. Walking down Piccadilly to his club, he found himself face to face with Sir Robert Everard.

To be continued.

Right now is the time to use a good Blood Purifying Medicine. Lose no time in getting a bottle of Dr. Carson's Stomach Bitters. It will do you good. Sold by all Druggists.

TORONTO'S BUDGET OF NEWS.

Claiming the Murdered Girl's Body—A Novel Action for Damages.

TORONTO, May 17.—The brother of the murdered girl arrived in the city from Brantford yesterday to take charge of the body. He stated that her parents made every effort to reclaim her, but her waywardness accomplished her ruin and she drifted into the company of dissolute characters, step by step descending the social scale, until she became an outcast and the mistress of the man who murdered her. He called on Coroner Johnson for the purpose of securing a burial order, and the remains were taken to Mount Pleasant Cemetery. The girl's parents and sisters are utterly prostrated with grief.

Wm. Lynch, who was recently confined in the Smallpox Hospital by order of Medical Health Officer Canniff, writes to the Mayor notifying him of his intention to claim damages therefor to the extent of $1000. He asserts that he did not have smallpox, and that in consequence of the Medical Health Officer's action he lost his situation and has since been unable to obtain another.

On English Turf.

LONDON, May 16.—The Newmarket second spring meeting opened yesterday. The race for the Payne Stakes, for three-year-olds, colts 128 lbs., fillies 119 lbs., across the flat, one mile and a quarter, was won by the Duke of St. Alban's bay colt Galore, by three lengths; Mr. Leopold de Rothschild's chestnut colt Patchouli came in second, a neck before Mr. J. A. Craven's bay colt Scene Shifter, third. There were six starters.

The betting was 3 to 1 on Galore, 14 to 1 against Patchouli and 25 to 1 against Scene Shifter.

The race for the Dyke Plate, for 2-year-olds, colts 122 lbs., fillies 119 lbs., the Ditch mile, was won by Lord Durham's chestnut filly Gulbeyaz by five lengths, with Mr. E. Wardour's bay colt Prescnt Alms second and Mr. J. R. Houldsworth's chestnut filly a bad third. The starters numbered seven.

The betting was 10 to 1 against Gulbeyaz, 6 to 2 on Present Alms and 10 to 1 against Ixia.

In brief and to the Point.

Dyspepsia is dreadful. Disordered liver is misery. Indigestion is a foe to good nature.

The human digestive apparatus is one of the most complicated and wonderful things in existance. It is easily put out of order. Greasy food, tough food, sloppy food, bad cookery, mental worry, late hours, irregular habits, and many other things which ought not to be, have made the American people a nation of dyspeptics.

But Green's August Flower has done a wonderful work in reforming this sad business and making the American people so healthy that they can enjoy their meals and be happy.

Remember:—No happiness without health. But Green's August Flower brings health and happines to the dyspeptic. Ask your druggist for a bottle. Seventy-five cents.

TURNBULL'S.

We wish to call your attention this week to our Large Stock of Black Cashmeres. They range in price from 25 cents a yard up to $1.20. The one at 25 cents is a good black with sightly appearance which is all we say about it. But when you advance to 45 cents you have a nice rich color, particularly suited for mourning, good weight and fully 44 inches wide. At 50, 60, 75, 85, 90 and $1.00, we have a new line by a French maker which is much nicer than the old make and deservedly popular, being much finer in appearance, more like a Henrietta. To be had in blue and jet black.

GERMAN CASHMERES.

These Good are made in Saxony where the makers vie with each other in producing a superior article.

We have secured a make that cannot be spoken of too highly. It is a double warp and finished like a satin. They are now open for inspection, (on 3rd counter to left from George-st. entrance).

In our Custom Made Tailoring Department we show a nice range of Pantings, Worsted Suitings, Light Overcoatings, etc. Only first-class work turned out. (2nd counter to the right.)

Early last fall when the public began gathering around their stoves and were thinking about Flannels and Blankets, we were looking ahead and gave large orders with the leading manufacturers of Chambrays, White and Colored Muslins, Lawns, etc. These Goods are now in stock, and will be found on the first counter to the right.

Our first stock of Sailor Hats has been bought up rapidly which is sufficient evidence that they are the correct thing. Our second shipment bought at a much lower price is now in. All sizes and styles to choose from. The prices will please you when you see the styles and quality.

FRIDAY, MAY 18, 1888.

PARNELLITES AND THE POPE.

A Manifesto Against the Holy See's Interference in Political Affairs.

DUBLIN, May 18.—Forty Parnellites, including Messrs. Dillon and O'Brien, sat nine hours in the Mansion House to-day discussing the Papal rescript. A sub-committee was appointed consisting of Messrs. D. Sullivan, T. D. Sullivan, O'Brien, Redmond, Healy and Harrington, with Messrs. Kenny and Clancy as Secretary, to draw up resolutions of the principles agreed to. The meeting prepared a manifesto declaring:

While we unreservedly acknowledge the spiritual jurisdiction of the Holy See as guardians of those civil liberties which our Catholic forefathers resolutely defended, feel bound to solemnly reassert that Irish Catholics can recognize no right of the Holy See to interfere with the Irish people in the management of their political affairs.

Father McFadden's Appeal Dismissed.

DUBLIN, May 18.—The Exchequer Court has dismissed the appeal of Father McFadden of Sweedore against the doubling of his sentence on appeal. The court held that a county court has the power to increase a sentence.

Millionaire Snell's Murder.

CHICAGO, May 18.—There are important developments in the Snell murder case, and in a short time the public will be enlightened and all the mystery surrounding the crime cleared away. Tascott is found—that is to say, he has never been lost. The least adroit of the three or four who participated in the crime, he was quickly apprehended and promptly sequestered for the good of the cause, it being shouted from the housetops meanwhile that he was the man and the only man wanted. This was the scheme put into operation by Capt. Bonfield and Mr. Stone for the purpose of relieving the accomplices of anxiety on their own account. "Young Tascott was no good on earth," said the paper's informant, "and deserves to be punished on general principles, but he did not fire the shots that killed Snell. He was a mere boy, and is valuable to the officers more for what he knows than for what he did. The police know where the murderer is, and have known it all along. There is much larger game to be bagged. Tascott is a catspaw."

Pulled Out of the Bay.

TORONTO, May 18.—The body of Joseph Graham was pulled from the Bay yesterday. Graham, who was a native of Port Perry, had been a student at the Ontario Veterinary College, and graduated in March. On April 16 he bade good-bye to his friends, saying he was going to Battle Creek, Mich., and that was the last seen of him. Coroner Johnson last evening held an inquest on the body at the Morgue, when Dr. Spencer, who had made a post mortem examination, proved that death was caused by drowning, and that there was no marks of violence on the body. The inquest was adjourned until Monday next at 8 p.m. Meanwhile the body will be handed over to deceased's father. Deceased was married and the father of three children.

Fatal Powder Explosion.

LAMBERTVILLE, N.J., May 18.—A powder explosion occurred at Stockton, a few miles north of this place, yesterday. Three men were killed outright. Many others were injured. The shock was tremendous. There were 135 kegs of powder and 200 pounds of dynamite in the quarries at the time, and all exploded with a frightful concussion. The ground after the explosion looked as though the building had been run through a hopper and sprinkled over the surrounding territory. Great damage was done to property in the neighborhood.

Enormous Losses.

QUINCY, Ill., May 18.—The Mississippi River rose nine inches yesterday, and is higher than ever before known except during the great flood of 1851. Rail communication with the west is entirely cut off, the tracks of all roads on the Missouri side of the river being flooded. Bridges and tracks are held down by trains of flat cars loaded with railroad iron. Nearly every levee in this section is now broken, and the loss to farming interests will be enormous. Thus far no loss of life has been reported.

Presbyterians in Council.

PHILADELPHIA, May 18.—The centennial meeting of the Presbyterian General Assembly, the supreme ecclesiastical court of the Presbyterian Church in the United States, began in Horticultural Hall yesterday. There are over 500 delegates or commissioners in attendance, representing every state and territory in the United States.

Henry Taylor to be Tried.

LONDON, May 18.—Chief Justice Galt has finally consented to try the charges against Henry Taylor, and the trial will begin tomorrow at the court house here. It is understood that the defendant is anxious for the case to go on, and will not allow any consideration for his health to prevent his attendance at the court.

Mrs. Cleveland has a most delicate appreciation of "the fitness of things," as the expression goes. When asked by a druggist at Jacksonville, Fla., what flavoring she would have in her soda water, she said: "Orange, please."

THREE BILLS DROPPED.

THE COPYRIGHT BILL LEFT OVER TILL NEXT SESSION.

The Libel Law Amendments—The Commoners Unanimous in Favor of Railway Passes—The Haldimand Election.

OTTAWA, 18.—In the House this afternoon Sir John Macdonald announced that of eleven bills on the order paper, all would be proceeded with except three, these being to abolish forfeitures for treason and felony, respecting the application to Canada of the criminal law of England, and to amend the Copyright Act.

The bill amending the Railway Act was read a third time and passed, the amendment by Mr. Lester depriving Senators and Commoners of the privilege of railway passes being rejected with great unanimity.

The bill amending the newspaper libel law, providing for the trial of accused publishers or editors in the province where the paper is published, was read a second time and adopted in committee.

On motion to go into committee of supply Mr. Edgar called the attention of the House to the grievances of settlers at Bressalon, on the North Saskatchewan, about twenty-five miles above Battleford. Mr. Edgar recited that during the troubles of 1885, these settlers were on their way to seek protection in the fort at Battleford when they were captured by Indians and taken away to Poundmaker's reserve. They were not made close prisoners but merely detained to prevent them becoming allies of the whites, and their property was not molested by the Indians. When their claims were presented to the rebellion losses commission they were disallowed because it was claimed that they had been disloyal. He admitted that the circumstances looked suspicious but thought that the decision of the commissioners was a wrong one.

Hon. Mr. Thompson read evidence to show that these settlers had joined the Indians voluntarily, had participated in the fight at Cut Knife Hill and that when they surrendered they were found to be in possession of a quantity of furniture belonging to their loyal neighbors and also had rifles belonging to men killed on the field.

Mr. Laurier advocated a strict enquiry into the claims of these people.

After recess Sir Richard Cartwright arraigned the Government in connection with the last election in Haldimand for having employed one Walter Jones, found guilty of corrupt practices at elections, to settle Indian claims in the constituency, with a view, as he contended, of corruptly influencing those Indians to cast their vote for the Government candidate, Dr. Montague. He concluded by moving a verbose condemnatory resolution.

Dr. Montague replied vigorously and ably, first of all sarcastically referring to Sir Richard as a rival of Mr. McMullen for the position of chief scavenger of the Liberal party, and then proceeding, after asking the indulgence of the House, to refer to the past debate. He made a spirited defence of Deputy Returning Officer Young in Haldimand County, whom Sir Richard Cartwright had cruelly assailed as an ex-convict. In place of having been convicted for theft as alleged, Young had been found guilty not of stealing, but of having in his possession stolen goods which had been placed in his barn without his knowledge, and to shield a friend he had indiscreetly pleaded guilty to the charge of receiving those goods.

Turning then to the charge that the Government had taken action looking to a settlement of Indian claims only for the purpose of influencing the election he read a letter dated May, 1887, months before the general election took place, in which Senator McCallum and himself had urged that this matter should be attended to, which proved that the matter was no electioneering one.

Dr. Montague's speech was one of the best of the eloquent efforts which have distinguished him in the House.

The House adjourned at 1.15.

CAPITAL NOTES.

No Hope of Prorogation Before Tuesday—A Successful Concert.

OTTAWA, May 17.—The Philharmonic Society gave a very successful concert to-night. They had a chorus of 130 voices, with Mrs. Humphrey Allen of New York, Mr. Wray of Boston, and Mr. Egan Buck of Ottawa, soloists.

There is now no hope of prorogation taking place before Tuesday evening next, as the Government decline to withdraw a number of their measures or slaughter private bills.

At the invitation of Hon. Mr. Carling the members of the press gallery paid a visit to the Central Experimental Farm to-day. Wonderful progress has been made since last season. Mr. Carling subsequently entertained the party at a luncheon in the Commons' restaurant, where a pleasant hour was spent.

Sir Charles Tupper gave the largest dinner party of the session to-night in the Commons' dining room. Covers were laid for about seventy-five guests.

Some of the Conservatives express dissatisfaction at the railway subsidy resolutions. They hold that if the declared policy of the Government was departed from there were a number of Ontario railways that should receive subvention. The resolutions are likely to give rise to considerable discussion.

Mr. Archibald Campbell, M.P. for Kent, is here, but the returning officer's return has not yet arrived and he has been unable to take his seat.

Senator Sullivan has not yet recovered from the effect of the cold which he contracted during the winter. He is still confined to his house.

Hon. Mr. Pope is still confined to his room. He will shortly leave for his country residence at Cookshire.

The Copyright Bill Withdrawn.

OTTAWA, May 18.—A deputation of publishers and booksellers from Toronto arrived yesterday, including Messrs. Rose, Murray and Irving, to wait on the Minister of Justice and ask for amendments to the proposed Copyright Bill, which they claim will work disastrously. Before they had an opportunity of interviewing Hon. Mr. Thompson the bill was withdrawn. They talk of forming a protective society.

The Old Gentlemen as Hustlers.

OTTAWA, May 18.—The Senate made things hum yesterday. During the afternoon and evening session fourteen measures from the Commons were rushed through, including the Canadian Pacific Railway agreement, all of which passed without amendment. They adjourned at 11.30.

NEW YORK REPUBLICANS.

The Delegates to Chicago Uninstructed for any Presidential Candidate.

BUFFALO, N.Y., May 18.—The Republican State Convention has elected Senator Frank Hiscock, ex-Senator Warner Miller, Chauncey M. Depew, and ex-Senator Thos. C. Platt as delegates-at-large to the Republican National Convention. These delegates go to Chicago uninstructed for any candidate for the Presidency. The only platform adopted was a short resolution denouncing the Mills Free Trade Bill and pledging the support of the Republicans of New York to the candidate for President nominated by the National Republican Convention.

Instructed for Blaine.

NASHVILLE, Tenn., May 18.—The Republican State Convention elected delegates-at-large to the National Convention, who are all instructed for Blaine.

The Emigration Question.

LONDON, May 18.—The papers to-day contain a good deal of comment on the emigration question in connection with the complaints from Canada and the protest from Australia against Chinese arrivals.

The Standard views the matter sympathetically from a Colonial standpoint, and urges that no country is bound to receive thousands of destitute immigrants who would simply add to its burden of pauperism.

The Daily News admits that we ought to keep our helpless people at home, not only in justice to other countries but as a healthy discipline for ourselves.

The Radical Star says Canada's resentment in regard to destitute emigrants gives a nasty blow to the quacks who advertise emigration as a remedy for every social difficulty.

The Self-help Emigration Society, who sent most of the emigration to Canada this season, declare they only sent those who proved suitable and court the fullest enquiry. They received a cable demand from Ontario for more farm laborers, but, though there were many excellent applicants, the society lacked funds.

What England Wants.

LONDON, May 18.—Lord Charles Beresford, in a speech last night, said if General Boulanger got to the top of the tree he might within a week, in order to gain popularity, order England to clear out of Egypt. They wanted a definite standard of defence to enable the country at any time to meet the contingency of a war with France or Russia.

Watching the Socialists.

BERLIN, May 18.—The Government is actively watching the striking workmen here, who are encouraged by the Socialists. The police have seized 50,000 Socialist leaflets and arrested thirteen persons. The blacksmiths of Berlin and Langenbielau struck.

Is He With Us?

NEW YORK, May 18.—Latimer Jones, a young financier who was awaiting trial charged with forgeries amounting to $300,000, has left for parts unknown, and his bondsmen's deposit of $15,000 for his appearance has been forfeited.

Frost in the South.

KNOXVILLE, Tenn., May 18.—Two-thirds of the young tobacco plants in western North Carolina were killed by the recent frosts. Vegetables and wheat were greatly damaged at numerous points on the mountains.

A Blaze Up North.

COLLINGWOOD, May 18.—The pumping and engine house property of the Collingwood Dry Dock and Ship Yard Companies, situated at the dry dock, was totally destroyed by fire yesterday. Loss about $1500; insured for $900.

A French-Canadian's Longevity.

TROY, N.Y., May 18.—Jocks Martin, a Frenchman, born in Canada, died at Keesville on Tuesday night of old age, being 102 years old.

In the Field.

CINCINNATI, O., May 18.—The United Labor Convention resolved to place a national ticket in the field. Robt. H. Cowdry of Illinois was nominated for President.

A Doubtful Rumor.

PARIS, May 18.—The Gaulois revives the rumor that the Government contemplates the expulsion of Gen. Boulanger. Little credence is attached to the rumor.

Tahitians Kill a French Officer.

LONDON, May 18.—Advices from Tahiti say a party of natives surprised a French patrol and killed an officer of marines and two sailors.

Fire at Napanee.

NAPANEE, May 18.—Fire was discovered in the Leonard Block, on Dundas-street, about 11 o'clock last night. The damage to the block will probably reach $2500.

Bishop Clut Seriously Ill.

OTTAWA, May 18.—Bishop Clut of Athabaska, N.W.T., was taken suddenly ill last night, and this morning his condition was pronounced serious.

Col. Denison has given notice of his intention to move a straight want of confidence motion in the Government for their refusal to pay the kit allowance to the men of the York and Simcoe Battalion.

THE MILLS TARIFF BILL.

"SUNSET" COX TURNS HIS BATTERIES ON BUTTERWORTH.

He Advocates the Adoption of the Bill—Butterworth Wants the American System Extended to Canada.

WASHINGTON, May 18.—Hon. S. S. Cox (N.Y.) spoke on the tariff in advocacy of the Mills Tariff Reduction Bill in the House of Representatives yesterday. He paid his compliments to the various speakers who had spoken in opposition to the measure, and referred to the recent speech of Mr. Butterworth. Mr. Cox quoted that gentleman as saying that he cared more about the shepherd than the sheep, and then remarked that if the protectionist shepherd of the House (Mr. Kelley, Pa.) had kept his eye on his sheep he would not have found the gentleman from Ohio wandering into the wilds of Canada praying for Reciprocity. [Laughter.] The gentleman believed not only in Reciprocity between the States of the Union but between the United States and Canada, and when the gentleman went to Canada and took the toboggan slide from Free Trade he (Cox) stood by and hurrahed for him. [Laughter.]

Mr. Butterworth (Ohio) replied that if the gentleman read his speeches he would observe that he said that the protective system dealt with conditions and not with boundary lines—with the philosophy of economic policy and not with geographical lines.

Mr. Cox responded that if Reciprocity was good with Canada it was good with Central America.

Mr. Butterworth admitted that this was true if the conditions were the same. It was against the influences of conditions that destroyed that he protested, not against localities.

"I catch your idea," replied Mr. Cox, "though it was a little remote."

Mr. Butterworth: "In 1848 a measure for complete reciprocity passed the House without a dissenting voice, the understanding being that it in no way trenched upon protection. I want to extend our system around Canada, it adopting the same tariff system that we do."

Mr. Cox: "Now I give you my hand on that. I welcome you within the bosom of the good old, not free trade, but protection party." [Applause and laughter.]

Cattlemen and Combines.

MONTREAL, May 18.—The cattle exporters have been taking legal advice in reference to the combination entered into between the Allan, Dominion and Beaver Steamship Companies to coerce them to accept insurance certificates issued by the Montreal and Export Lloyds on terms named by the companies, and are informed that the combination is illegal, that the companies are criminally liable and could be indicted before the Grand Jury. Whether this will be carried out or not it is difficult to say. Many of the cattle exporters favor it, but they are not supported by the marine underwriters, who are affected by the combine and who refuse to countenance any criminal proceedings.

The general expression here is that the cattle men will not institute criminal action, but will be content with diverting the trade away from the three lines in question. A western cattle man who is in the city today spoke feelingly on the subject, and said if all the trade were of the same views as to the legality of the combine, it would be tested before the Queen's Bench next term.

The Lancashire Witch Arrives.

NEW YORK, May 18.—The British steam yacht Lancashire Witch came into port yesterday. She sailed from Falmouth, England, on Jan. 4, in command of her owner, Mr. F. L. James, with Mr. W. D. James, brother of the owner; the Earl of Scarborough, the Hon. W. Ponsonby, and Mr. J. Bailey as guests for a pleasure trip. After calling at Madeira and the Canary Islands, and touching along the west coast of Africa, she crossed over to the West Indies, visiting Barbadoes, Trinidad, Aspinwall, Havana, and other ports, and called at Charleston on the way. The yacht is of wood, barkentine rigged, and 479 tons register, and belongs to the Royal Yacht Squadron and other yacht clubs. Her crew numbers twenty-seven officers and men.

Prairie Province Politics.

WINNIPEG, May 18.—The Opposition attacked the Government yesterday afternoon on the floating of bonds and summary dismissal of civil servants without recompense. Both motions were defeated.

A notice of motion was given that as it was rumored that the Canadian Pacific Railway was endeavoring to burke the completion of the Red River Valley Railway, its construction be proceeded with at once.

A Conservative deputation to-day asked Lieut.-Governor Aikins to become their candidate for South Winnipeg.

Cleveland Endorsed.

LEXINGTON, Ky., May 18.—The Democratic State Convention met here yesterday and adopted a platform which strongly endorses Cleveland.

FRIDAY, MAY 18, 1888.

COMBINES IN CANADA.

THE committee appointed by the House of Commons to enquire into the nature, extent and effect of combinations said to exist in Canada among manufacturers and dealers has presented its report to Parliament through its Chairman, Mr. Clarke Wallace, M.P. The report is of considerable length, as twenty-six meetings were held and sixty-three witnesses examined. The report covers twelve branches of trade and fire insurance.

The Committee report that there is a Canadian Association of jobbers in watch cases in affiliation with the American Association of manufacturers, and that if the American Association is successful a flourishing industry in Canada, the manufacture of these cases, will be destroyed.

As to sugar and groceries, the committee reports that a combination was entered into by the sugar refiners and the Dominion Grocers' Guild by which members of the Guild were given a preference over non-members. The agreements stipulated that the wholesale dealers were only to charge a certain advance to retail dealers. There was no evidence of any combination mong the several refiners or any of them to fix uniform prices at which they should sell. Similar agreements were made by the Guild with manufacturers of tobacco, of starch, of a certain kind of baking powder, of pickles, dome lead, laundry blue, etc. The committee report that the facts prove the grocers' guild with its several combinations to be obnoxious to the public interest.

Combinations exist among coal dealers in Toronto, Ottawa, Montreal and London, by which the selling prices were fixed and enforced by fines, the combinations being strengthened by an arrangement with the American dealers to sell only to members.

The evidence of the witnesses called on the subject was conclusive to the effect that no combinations exist among the manufacturers of agricultural implements. Neither was it shown that there was a combination among purchasers of barley. An attempt was made during the past winter by barbed wire manufactnrers to secure uniform prices for their product, the retailers being asked to sell at 6¼ cents per pound, the inducement offered being a reduction of ¼ cent from last year's prices.

A combination exists between coffin manufactures and dealers in undertaking supplies and the Undertakers' Association, by which the former agree to sell only to members of the Association. In consequence of the rules it is difficult for a man to commence the business of an undertaker, and the combination is reported to be arbitrary and one that exercises an unjustifiable interference with personal freedom.

Five firms were included in the cordage and binding twine manufacturers' combination, which was formed on the pooling plan to secure uniform prices. The evidence also shows that prices paid in Canada are no higher than in the United States and Great Britain. This combination terminated in April last since the investigation.

The Canadian Iron Founders' Association includes eighteen firms. The object was the fixing of a general uniform rate for stoves and other foundry wares. The witnesses substantially agreed that the combination had not unduly raised the prices of goods, and the evidence also showed that the better class of stoves were not higher in Canada than similar goods in the United States. On a low class of stoves made in the vicinity of the iron furnaces and coal mines, there the prices ranged lower, and on base burners prices were ten per cent. lower in Canada.

The Oatmeal Millers' Association was recently formed for the purpose of sustaining the price of oatmeal and as far as possible regulating the purchasing price of oats. It is operated on the pooling plan. Organizations exist among manufactures of biscuits and confectionery to maintain prices, and some finer and fancy varieties are higher here than in the United States.

The evidence disclosed a powerful association for the purpose of raising and maintaining rates of fire insurance, which includes English, American and Canadian companies. No schedule of rates is fixed for farm or isolated risks. The effect upon the insuring public, the committe reports, have been injurious and the Canadian companies are injuriously effected.

The egg combination is of recent origin and is composed of leading dealers in Ontario who buy for export. The object of the combination is by lowering prices in the principal cities, to lower prices in the rural sections, which will re-act in favor of the buyers who thus buy cheaper for export.

The report of the committee, which is summarized in the foregoing paragraphs, concludes as follows:—

"The committee find that the evidence produced shows that the combines, such as have been enquired into, have not, by any means, been fully developed as yet in this country, but sufficient evidence of their injurious tendencies and effects is given to justify legislative action for suppressing the evil arising from these and similar combines and monopolies."

Mr. Wallace has given notice that he will introduce legislation dealing with combinations in trade.

LATEST SPORTING NEWS.

THE LAST OF THE NEWMARKET SPRING MEETING.

Proctor Knott Wins the Alexanker Stakes —The Eastern International Baseball League—Ball Games Yesterday.

LONDON, May 17.—This was the third and last day of the Newmarket Special Spring Meeting. The "card" included the Newmarket Handicap Across the Flat and the Exning Plate for 2-year-olds over the Rous Course. The former was won by Mr. Sassan's horse Theodore, with The Baron second and Jersey Lily third. Conditions:

THE NEWMARKET HANDICAP of 700 sovs., by subscription of 20 sovs. each. 10 ft., or 5 if declared; any surplus to go to the second; winners of any handicap or race value 200 sovs. after the publication of weights to carry 5 lbs., if of any two handicaps or of a handicap of the value of 500 sovs. 10 lb. extra. Across the flat about 1¼ miles.

Mr. Fern's b. c. The Baron, 4, by Xenophon—Tantrum 2
Mr. Jas. Suarry's br. f. Jersey Lily, 4, by Beauclerc—Tiger Lily 3

As a 3-year-old Theodore was a fairly good colt, winning seven out of fourteen races in the Friday 3-year-old stakes at the Newmarket Craven Meeting, the Portland Stakes at the Doncaster Spring, the Prince of Wales Plate at the Kempton Whitsuntide Meeting, walked over for the Knowsley Dinner Stakes and won the Berkenhead Cup at Liverpool in July. Late in the autumn he won a 100-guinea plate at Newmarket, and the Helmby Handicap at Northampton, in November. Last year Theodore did not do so well, he only winning the Alexandra Plate at Doncaster, in September, he running second once and three times unplaced. This year he made his first appearance at the Chester meeting last week, where he won the Great Chester Handicap from a field of five, including Candlemas, and did not start again until yesterday in the above race.

THE EXNING PLATE.

The Exning Plate for 2-year-olds over the Rous course, about five furlongs, was won by Lord Dunham's filly Gulbeyaz, with Workington second and Leap Year third. Conditions:

THE EXNING PLATE of 500 sovs., added to a sweepstake of 10 sovs each for starters, to go the 2d; for 2-year-olds; colts 124 lbs., fillies 121 lbs.; those by untried stallions or out of untried mares allowed 3 lbs.; one allowance only; winners (selling races excepted) to carry 5 lbs.; of a race value 300 sovs., 10 lbs extra. Rous course, 5 furlongs. 40 subs.

Mr. J. Lowther's ch.c. Workington, by Charibert—Hemalite 2
Sir R. Jardine's br.c. Leap Year, by Skylark —Wedlock 3

Bonnie Morn's Neck Victory.

The race for the Somerville Stakes for 2-year-olds (colts 122 lbs., fillies 119 lbs.), 5 furlongs, was won by Lord Rodney's bay filly Bonnie Morn by a neck. Mr. Fawcett's chestnut colt The Doldrums was second, 3 lengths before Mr. C. Allenton's bay filly Barbacan, third. There were 12 starters.

The betting was 4 to 1 against Bonnie Morn; 12 to 1, The Doldrums; 6 to 1, Barbacan; 3 to 1, The Hampton Lady Kars filly, the favorite.

Proctor Knott Wins the Alexandria Stakes.

LOUISVILLE, May 17.—This was the fourth day of the Louisville Jockey Club spring meeting, with the Alexander Stakes for 2-year-old colts as the principal attraction. It had eight starters and was won by the favorite Proctor Knott. The weather was threatening and the attendance much affected in consequence. An hour's rainfall about noon settled the track, and the contests as a whole were very good. Results:

FIRST RACE—Purse $400, for all ages; 1 1-16 miles. Grisette, 108, won; Persimmons, 105, 2d and Amelia P., 98, 3d. Five others ran. Time 1.56. Pools: Persimmons $60, Amelia P. $22, Grisette $30, Hypocrite $20, Tenacity $5, Paerna $5, Carus $2, Quindaroo Belle $1.

SECOND RACE.—The Alexander Stakes, for 2-year-old colts; 5 furlongs.

The Eastern International League.

OSWEGO, May 17.—The Eastern International League was formed here to-night with thre clubs, Kingston Belleville and Oswego. The fourth is yet to be named. It will be either Utica or Watertown, probably the former. Robert J. Ellbeck of Kingston was elected President and George A. Glynn of Oswego Secretary of the league. The Board of Directors are Col. S. S. Lazier, Belleville; E. J. B. Pense, Kingston; Michael Gill, Oswego, and the fourth to be named. The playing season opens with the American clubs May 30 and closes the first week in September. The meeting is still in session. The schedule will not be made out to-night. The league will undoubtedly be a success and the chances are that it will be composed of six clubs before the meeting adjourns. It is thought the Spalding ball will be adopted, as Spalding Brothers have offered a handsome and valuable penant.

Tenders Wanted.

Tenders will be received by the chairman of the sports committee of the P.A.A.A. and Battalion, for supplying one four row pig, that is one who can reach the fourth row of potatoes from the fence, without trouble, one of the razor back variety preferred, to be used as a greasy pig on the 24th of May. The sports are looming up in great shape and the fine programme offered is attracting much attention, not only in Peterborough, but in all the neighboring places as well. Already numerous entries have been received and there is no doubt that all the events will be keenly contested. The grounds are in first class condition and ample seating accommodation will be provided for all who may attend. A meeting of the executive committee will be held this evening to make final arrangements. Remember that Thursday next is the day. The promenade concert in the evening by the 57th battalion band, will take place at the Lansdown rink.

GOUGH BROTHERS

On the Trail of tottering houses that require Money.

A WHOLESALE STOCK OF CLOTHING BOUGHT AT 52½ CENTS ON THE DOLLAR,

Comprising over 1200 Suits of Men's, Youths' and Boys' Clothing, and 800 pairs of Pants, extra. GOUGHS have secured this splendid Bargain Line and commenced a Grand Fitting-out Sale on Thursday morning.

MEASURES FOR THE MEN.

Read our champion offer, and don't try to duplicate it, for it can't be done.

We offer a man's Suit for $2.50 that cost $4.78 wholesale.

We offer splendid fitting Suits, and in 150 different patterns, at $5.00 easily worth $7.25 wholesale. These Suits, if sold in the regular retail way would bring $9.00.

OUR GREAT BIG PLUM in Men's Clothing, comprising 633 suits, regular wholesale price $11.50, and we are turning them out for $9.00. The cloth alone is worth more than we are asking for the whole suit complete.

Look them all through and then come to us, and if we fail to convince the most skeptical that our Stock is not at least five times larger and our prices 50 per cent. lower than those of any other dealer, we will give a whole outfit free.

WHAT WE SAY ABOUT THESE GOODS.

One man's extremity is another man's opportunity. Our grip on the market has brought this bargain to our counters. We want the public to know just what we offer. When we say the goods are bargains they are positive. When we say no such a pic-nic was ever before offered we have the goods to back up the statement. We nail the flag of cheap and and good Clothing, of brilliant sparkling bargains to the mast and defy any clothier on earth to lower our colors.

OUR PLAN TO HELP YOU HERE.

We want everyone to come and see what we are doing. Drive in if you can. Come by water, by stage or on foot, for there's money for you in the expedition. That there shall be no excuse, we will pay the railroad fare of any passenger, within a radius of fifty miles, who comes to our sale and buys $10.00 worth of goods or upwards.

BOUNCING BARGAINS FOR BOYS.

An honest statement always carries weight; can you believe one when you hear it? In black and white we tell you what we are doing in Boys' Clothing.

A Dandy Suit for the boy, and mind you, only 58 cts. People often run away with the idea that a cheap line is only advertised for a bait, and that when they come around say the boy is too big for the clothes and try to sell something else. This is not our style (we leave that for others to do). Don't be afraid to ask for these suits. Our salesmen won't tell you that the Proprietor is out and that they can't find them. We have lots of Boys' Suits at 58 cts. and while they last the public will get them, and though they are worth $1.00 wholesale we can sell them for 58 cts. and make a good living profit.

See our Boys' suits at $1.25, $1.75 $2.50 and upwards. The cheapest are good and the best are better.

THE WONDERFUL CHEAP MEN.

ILLEGAL FISHING.

Inspector Cochrane is Successful With the First Cases of the Season.

At the Police Court this morning the first cases for illegal fishing of the season were tried before Police Magistrate Dumble. The defendants were Messrs. Geo. Chalmers and Richard Heard, of Young's Point, and R. N. Roddy, of Peterborough, and the prosecutor was Fishery Inspector Cochrane, of Lakefield.

Mr. R. E. Wood appeared for the prosecution and Mr. W. A. Stratton for the defence. The defendants all pleaded not guilty.

The first case called was that against Geo. J. Chalmers. The prosecution offered no evidence and the defendant was discharged, so that he could be used as a witness.

Mr. R. N. Roddy was next and Mr. Chalmers was called as a witness. He deposed that he saw defendant at Young's Point last week. He saw him there on Friday, the 11th of May. He saw him about 6 p.m. on that day. He did not see him go a fishing. He was with him after 9 p.m. They went down the lake in a canoe, to a point below the dam. There was a spear or a pitchfork in the boat. They did not belong to witness. It was a spear. We had a jack light in the boat. There were three persons in the boat. Roddy, Heard and witness Another canoe went out with them. John Forest and James Swanson were in the canoe. It was not a good night for fishing. He paddled the boat. They did not get any fish. Heard was looking into the water with a spear in his hand. There are maskinonge in those waters and there are bass in the lake. No fish were caught. We went for the purpose of spearing maskinonge and bass. The man who was using the spear said he saw plenty of them. The reason we did not get any fish was because some person was watching, as there was an alarm given.

Mr. Wood argued that the defendants were guilty as they had attempted to spear fish and were only deterred from carrying out their intention by the giving of an alarm. Mr. Stratton, for the defence, argued that no crime in the eye of the law had been committed.

The Magistrate held that the defendant was guilty and he did not consider such conduct to be at all sportsmanlike. These parties lived in the neighborhood of the spawning beds and were well aware of the evil results that would follow the killing of fish at such a time of the year. Under the circumstances he would impose a fine of $10 and costs.

Richard Heard was charged with a similar offence. The same evidence was allowed to stand and a similar penalty was imposed.

EPPS'S COCOA

BREAKFAST.

"By a thorough knowledge of the natural laws which govern the operations of digestion and nutrition, and by a careful application of the fine properties of well-selected Cocoa, Mr. Epps has provided our breakfast tables with a delicately flavoured beverage which may save us many heavy doctors' bills. It is by the judicious use of such articles of diet that a constitution may be gradually built up until strong enough to resist every tendency to disease. Hundreds of subtle maladies are floating around us ready to attack wherever there was a weak point. We may escape many a fatal shaft by keeping ourselves well fortified with pure blood and a properly nourished frame."—*Civil Service Gazette.*"

HOUSEFURNISHINGS.

At this season many Housekeepers are replenishing their supplies of Tableware and China. City folk are furnishing summer cottages; country folk are filling up the dressers and cupboards of the old homestead; town's folk are picking and choosing here and there. Many would be glad to know of a place whose special business is to meet these wants and desires; that aims to furnish essentially good wares at consistently low prices; that offers the choice of many different dinner services, and yet does not compel you to take an entire set of any pattern, but allow you to select each course of a new design, or buy any portion of the set you may need; that does not try to impose ideas or wares upon purchasers, and yet is ready to advise which of the many wares is most desirable, and suitable; and, if wished, will make a careful selection of pattern. When you want Tablewear will you give us the opportunity to serve you.

Weather Probabilities.

Increasing east and south-east winds, partly cloudy to cloudy weather, with occasional rain; stationary or a little higher temperature.

More Truth than Poetry.

If you want material good, that has examination stood, in a millinery or clothing line; do not needlessly delay, but without hesitation pay, a visit to the golden lion. There you will find all lines complete, at prices that won't your purse deplete.

Appeals.

The appeals against the assessment of 1888 number twenty-one, and as the time for receiving such has expired, no others will be taken. This is about the average number in an ordinary year and none of them will take very long for disposal by the committee.

Completed.

Arrangements have been completed for the Canton I.O.O.F. excursion to the Queen City, via the C. P. R. The date is June the 12th, by special fast train leaving at 7 a.m., with previlege of going on the 5 a.m. train. Adults tickets $2.00, children $1.00, good for two days. 2d117

'Twas recently said, and as recently read,
For a city the town would bid,
And as recently said, while surely 'twas read
The premier shoe dealer is kidd.
For he leathers your woes, instep and toes,
Be you laborer, sailor or mid,
The fame of his goods fairly rings in the woods
No dealer sells cheaper than kidd.

The Party Press.

At the monthly meeting of the members of the Young Men's Christain Association on Thursday evening several new members were elected. The debate between representatives of the Otonabee Canoe Club and of the Y.M.C.A. then took place, Mr. Geo. M. Roger in the chair. The question was, "Resolved, that the Party Press is beneficial to Canada." The affirmative was argued by Messrs. W. H. Hill and A. E. Scott, of the O.C.C., and the negative by Messrs. O.C. Rowse and W. H. Stevens, of the Y.M.C.A. The debate was an interesting one, the speeches being argumentative and pointed, the arguments clearly presented, and the addresses were well delivered, the speakers at times becoming eloquent. For oratorical effect Mr. Hill's closing reply was the best effort of the evening, but Messrs. Stevens, Scott and Rowse spoke in a pleasing and effective manner, Mr. Rowse's delivery being easy and graceful. At the conclusion there was a doubt as to whether the question was intended merely as an indictment of the party press or to discuss the party press in comparison with an independent press. The Chairman submitted this point to the audience, who decided by a vote that the question of an independent press was not included, the question being whether the party press had done good or evil. On this ruling, the Chairman said he would decide that the affirmative had won. A vote of thanks was tendered the speakers, on motion of Mr. Bannell Sawyer, seconded by Mr. Geo. A. Morrison and a vote of thanks was also tendered the chairman.

Early Closing.

The early closing by-law, so far as it effects hardware, tinware, stove dealers, boots and shoe dealers, butchers, dry goods, clothing, hats, caps, furs, gents' furnishings and millinery merchants will come into force on the twenty-second of May, Tuesday next.

THERE being a lot of very nice Millinery Trimmings in Alexander's stock, we had to get some new hats to work this stock off, and will sell them at way down prices. The rest of the stock is going very well, but is still well assorted in all lines, and must be pushed out in a hurry.

Personal.

Toronto Life says:—"The Cobourg World is one of the most readable of Canadian papers. * * * For thirty-seven years, which is the editor's age, he has a great record." Whether the pen or the sword is the mightier has long been a debateable question, but the World's editor wields both and is doubly formidable.

Inspector Sanders, of the Northwest Mounted Police, who was so successful here a short time ago in securing recruits for that body, is at Cavanagh's Hotel again, for the same purpose. He will remain until to-morrow night and all who are desirous of enlisting, should hasten to call on him and obtain full particulars, as to pay length of service, etc.

For Assault.

A man named Wilkinson, who resides with his wife in the large tenement house at George and Edinburgh-sts., was arrested this morning by P. C. Adams, on complaint of Mrs. Wilkinson. The couple have been married for some years and have five children. The wife was at the police court this morning and with tears in her eyes complained bitterly against the cruel and harsh manner in which she was treated by her hubsand, a big, strong man, while the wife is a small, delicate looking woman. She said that he was continually assaulting her. She had stood it for years but could not stand it any longer and hence she made complaint. The case will come up to-morrow morning.

A Fire Alarm.

About half past four o'clock on Thursday afternoon a fire alarm was sounded for a blaze at the works of the Peterborough Look Manufacturing Co. A spark from a furnace chimney had ignited a shingle or two and some one who saw it rang an alarm. No damage whatever was done and the brigade did not leave the station. Every time iron is melted, sparks light on the roof, but the workmen always see that no damage is done. If an alarm was given every time such a thing occurs the firemen would be continually on the jump. They have turned out already a large number of times for fires at this same place and their services were never required but once.

The Seventh of June.

The date is fixed, and away we go for the Queen City. The Masonic Excursion Committee met on Thursday evening and arranged to have their excursion to Toronto on Thursday, June 7th, over the lines of the G. T. R. Excursionists from Peterborough and Millbrook will have the opportunity of going by the new route, the morning train via Port Hope, which will be billed to leave town at about 6.30 or 7 a. m. Excursionists from as far east as Campbellford, from town and from Lindsay and points west will travel by a special which will run over the line via Blackwater and down the Nipissing line to the city. It is expected that the morning train from Fenelon Falls will connect at Lindsay, and an effort will be made to secure the cooperation of the boats running to Lindsay from Bobcaygeon, then the trains passing Beaverton will carry those who come from Sunderland and points north. Taken altogether the arrangements is such that the fraternity all through the district can rally for a grand turnout, while folk who care to travel in such distinguished company will be heartily welcomed. Posters announcing further particulars will be issued at once. Tickets can be had from members of the Ticket Committee, Messrs. Shortly, R. Lee Hay and H. C. Winch, or from Mr. Spence, treasurer, and from members of the order. Those who purpose visiting the city either for business or pleasure should join in the excursion.

The Pay List.

The men employed on Street and Bridge work were paid to-day, for the first time on Friday. The fortnightly pay list amounted to $388.15.

Scott Act Appeal.

The case of Cochrane vs. Ambrose, for breaches of the Scott Act, which were appealed to Toronto from the decision of Police Magistrate Dumble, is set down for hearing in the Queen's Bench Division, of the Divisional Court, on Monday. This case is the first on the list.

Police Committee.

A meeting of the Police Supervision Committee was held on Thursday night with Councillor Kendry in the chair. The application of the chief constable for batons, revolvers, etc., for the police, was considered. The batons and "snatchers" are to be made in town and the matter of procuring the other necessaries was left to the chairman.

The Park.

It was the intention of the directors to open the Horticultural Gardeu to the public to-morrow, but owing to the bad weather things are not yet quite in shape. The paths have all been covered with coal ashes and well rolled down. On top of this again has been placed a coating of sand, which when the heavy rollers pass over it makes a fine, hard path. The park will be opened on the Queen's birthday.

Whether on land or at sea, on the prairie or in the crowded city, Ayer's Pill are the best cathartic, being convenient, efficacious, and safe. For torpid liver, indigestion, and sick headache, they never fail.

New Barristers.

At the recent law examinations for Barristers at Osgoode Hall, Toronto, Mr. Arthur Stevenson, son of our worth Mayor, passed with flying colors, standing second in order of merit, without an oral. Mr. R. R. Hall, nephew of Mr. Adam Hall and a former student of the Peterborough Collegiate Institute, stood eleventh in the same class. Mr. R. M. Dennistoun passed with an oral. We beg to extend our congratulations to the new limbs of the law and we have no doubt from their high standing in their classes that they will be heard from in legal circles at no distant date.

Burglary at Centreville.

The store of Postmaster Ball, at Centreville, was entered by burglars on Thursday night, who got in by forcing a window. Silk handkerchiefs to the value about $25.00 were carried off. A fine coat and vest were also appropriated. The safe was not disturbed, although it had evidently been closely examined. Mr. Ball thinks they were gentlemanly thieves as they placed all the empty boxes back on the shelves in their proper positions and left everything in the best of order. The loss may be found to be greater when the whole stock is carefully looked through. It is thought that tramps are responsible for the burglary.

The North End School.

The committee appointed at the last meeting of the Board of Education to select a site for a public school in the Fourth Ward, met on Thursday afternoon and visited the several eligible places offered. The Judge Dennistoun property was regarded as unsuitable, on account of situation and price. A lot, just east of the Barnardo Home, containing about one and three quarter acres, in a splendid healthy situation, owned by Mr. Geo. A. Cox, was offered at $1,800. Another lot containing about two acres, situated just across the road and owned by the same gentleman, was offered for $3,400. Taking all things into consideration the committee regarded the first lot offered as the most suitable, and as the price is reasonable, the committee will report to the Board recommending that it be purchased.

At St. John's.

An entertainment under the auspices of the Girls' Guild Society of St. John's church was given at the school house, on Thursday evening. There was a fair attendance, mostly children with a sprinkling of older folks. The little people who took part acquitted themselves creditably and won well deserved applause. Master B. Rickey announced the programme and Miss Rickey played the accompaniments. There were three choruses, and three kindergarten songs, by the infant classes Miss L. Dawson sang a song and Misses L. Foote and H. Hodgson a duet and Misses F. Pace and M. Pratt, recitations. Misses T. Baker, M. Pratt, L. Pratt and M. Baker took part in a charade. The tableaus were excellent. They were "Cinderella" by Misses K. Campbell, T. Baker, M. Roddy and C. Hodgson. "Fower Girls" by M. Perry and S. Comstock, "Three Little Maids" by Misses E. Sherwood, May Boucher and W. Rackham, and "Hallowed Be Thy Name" by six little girls. To Miss Errett, who was mainly instrumental in getting up the entertainment, much credit is due.

Children Cry for Pitcher's Castoria.

A Widow In Hard Luck.

The Hamilton Spectator of Thursday says that "a most respectable looking woman named Mrs. Julia Newbold, with her son a lad of seventeen, and two very pretty younger children, applied to be received as lodgers at No. 3 police station Tuesday night about 11 o'clock. She told a story so distressing that it impressed even the not overly credulous policemen. It appears that the young man is a telegraph operator and had a good position with E. S. Cox, the bucket shop man, before that pilgrim took his journey into a far country. The family were principally dependent on the earnings of the son, and when Cox suspended they found themselves in straitened circumstances. Recently the young operator heard Cox was in Buffalo, and thinking he could get work with him there he started for Buffalo, taking his mother and the children with him. He found Cox living in idle affluence on his ill-gotten wealth and and that gentleman with characteristic generosity refused to recognize his former employe or have anything to say to him. Mrs. Newbold then decided to return home, but after reaching Hamilton her means were exhausted and she found herself with two small children o nthe streets of a strange city at 11 o'clock at night without sufficient, money to procure a night's lodging. She applied at a number of the hotels and asked the proprietors to shelter the children until morning, but they all refused and she was obliged to go to the police station. Yesterday Station Dutyman Walsh took up a subscription among the policemen, court officials, lawyers and others on behalf of the stranded widow and secured a good sum, which was handed to her, together with a pass to Toronto, which the officers of the St. George's Society obtained from the Mayor. She is going to Peterborough, where her friends reside."

When Baby was sick, we gave her Castoria,
When she was a Child, she cried for Castoria,
When she became Miss, she clung to Castoria,
When she had Children, she gave them Castoria,

Cheap Excursion Fares.

To the Editor of the Review.

SIR,—I would like to call the attention of those interested, which is, I believe, the public generally, to what is to me a paradox. During the summer months there are always three or four excursions from Toronto to Peterborough, and *vice versa* The Toronto excursionists are carried over the rails at the rate of never more than $1 for each adult, and children half fare, while the Peterborough man now can never visit the Queen City at less than $1.75 or $2.00. Why is this? The Peterborough societies get just as favorable terms from the railways as the Toronto people do. Excursions from this town are not patronized as they are from the city, and could anybody in their common sense expect them to be. It is simply another case of "killing the goose that lays the golden eggs." When one person will go on an excursion when the fare is $2 I consientiously believe that three at least will go when the fare is $1. A man, a mechanic for instance, has a wife and child, and would like well to take a trip, but is debarred by circumstances, when he discovers that he will have to hand over $5 or $6, whereas if the fare was only $2.50 he would not have much difficulty in obtaining the necessary lucre.

I remain,
Yours faithfully,
QUERRIST.

If the Sufferers from Consumption, Scrofula and General Debility, will try Scott's Emulsion of Cod Liver Oil, with hypophosphites, they will find immediate relief and a permanent benefit. Dr. H. V. Mott, Brentwood, Cal., writes: "I have used Scott's Emulsion with great advantage in cases of Phthisis, Scrofula and Wasting Diseases. It is very palatable. Put up in 50c. and $1 size.

Another Burst.

The water main on Brock-st. in front of the carriage factory of Messrs. Fitzgerald & Stanger, burst some time during last night and the gravel was shot up in the air as from a volcano. The water was shut off from the nearest valves and repairs made as soon as possible. The cause of the break was the frost, the pipe having just thawed out. Probably the high pressure on the mains on Wednesday night, when the buildings opposite were on fire, had some effect in moving the ice. The Superintendent of the Water Company is inclined to think that such breaks will soon be a thing of the past, as extra precautions are now being taken to keep the mains from freezing.

Don't Wait

Until your hair becomes dry, thin, and gray before giving the attention needed to preserve its beauty and vitality. Keep on your toilet-table a bottle of **Ayer's Hair Vigor**—the only dressing you require for the hair—and use a little, daily, to preserve the natural color and prevent baldness.

Thomas Munday, Sharon Grove, Ky., writes: "Several months ago my hair commenced falling out, and in a few weeks my head was almost bald. I tried many remedies, but they did no good. I finally bought a bottle of Ayer's Hair Vigor, and, after using only a part of the contents, my head was covered with a heavy growth of hair. I recommend your preparation as the best hair-restorer in the world."

"My hair was faded and dry," writes Mabel C. Hardy, of Delavan, Ill.; "but after using a bottle of Ayer's Hair Vigor it became black and glossy."

Ayer's Hair Vigor,

Sold by Druggists and Perfumers.

Pimples and Blotches,

So disfiguring to the face, forehead, and neck, may be entirely removed by the use of **Ayer's Sarsaparilla**, the best and safest Alterative and Blood-Purifier ever discovered.

FRIDAY, MAY 18, 1888.

MONA'S CHOICE.

BY MRS. ALEXANDER.

"Ha, Lisle! did not know you were in town?" cried the baronet.

"And I did not expect to see you at this season, too."

"I was obliged to come up on account of Mrs. Newburgh's business. They won't leave the old woman a rap. First call make yesterday—fifty pounds a share. That will pretty well clear her out. Very foolish to have gone so deep as she did. However, all's well that ends well. Leslie Waring has proposed to Miss Joscelyn, is accepted, and I can tell you, 'Haste to the Wedding' is the tune now, ha, ha, ha!—most lucky. Capital fellow, Waring! going to do the thing handsomely; but he and the grandmother are in such a deuce of a hurry that he has decided on a post-nuptial settlement, so I fancy the marriage will come off in a week or so—no grass growing allowed."

"Very glad to hear it. Miss Joscelyn is far too charming a person to be subjected to the revolting ills of poverty. Waring is a lucky fellow to be able to seize what is no doubt a fortunate opportunity."

"Ay, the fair lady might have given a different answer had this crash not come. No matter, Mona was always a good, quiet girl—one of the domesticated sort, that will stick to her house and her man."

"A somewhat cat-like character," said Lisle, laughing. "To me, Miss Joscelyn is an ideal woman."

"I suspect a little ideal goes a long way with you."

"Oh! I am a more imaginative person than you think. I must call and offer my congratulations."

"Well, you had better look in for tea. Mrs. Newburgh comes down when the house is shut up, and the lights are lighted—then you won't interrupt the billing and cooing, ha, ha, ha! Good-bye."

"Well-meaning old idiot," muttered Lisle, as he went on his way with knit brows. "The billing and cooing'—how infernally suggestive. I will just drop in at that particular period, and see if I can interpret the indications aright."

Lisle was, however, too impatient to calculate time accurately, and Mona was talking with a lady when he was announced.

Mona had a slight color, and looked remarkably well. She received Lisle with quiet civility, and immediately introduced him to "Madame Debrisay." Lisle bowed low, while he mentally consigned the objectionable third party to the infernal regions.

Having inquired tenderly for Mrs. Newburgh, Lisle said, in a soft tone—

"I presume, from what Sir Robert Everard told me, I may venture to offer my very sincere congratulations on your approaching marriage with my good friend Leslie."

"Thank you very much," returned Mona, with sweet gravity.

There was a pause—mercifully broken by Mme. Debrisay, who, with a marked French accent, observed—

"He is most amiable, the young gentleman, and deserves the good fortune which has befallen him."

"Those concerned in affairs of this kind are usually considered angels all around," said Lisle, cynically. "In this case, I only feel inclined to believe in the angelic qualities of one. May I hope to have the pleasure of seeing Mrs. Newburgh?"

"She rarely comes down till past three. I will let her know you are here; you were always a favorite of hers."

Mona rang, and sent a message to Mrs. Newburgh to that effect; then Mme. Debrisay began to make her adieu.

"I ought not to take up any more of your time, *cherie*."

"Pray do not go away yet," cried Mona, with suspicious eagerness.

"She does not want to be alone with me," thought Lisle. "Why does not that horrid woman go? She must know she is in the way."

"Indeed, dear, I have one or two things to do before I go home, for next week I shall be in harness again; but I will be with you by ten o'clock to-morrow. Nothing like the early hours for shopping; and make my compliments to—"

"Mr. Waring," announced Wehner, and Waring entered, with an eager, not to say anxious, expression, as if not too certain how he would be received.

Mme. Debrisay, who was near the door, made him a respectful courtesy, and he greeted her first.

"How do you do, madame? Not going, I hope, because I have come in?"

Here he paused, for Mona turned to him with a kind, welcoming smile, so much the sweetest she had ever bestowed on him, that he grew positively radiant, and evidently forgot there was any one else present.

"I think grannie would like to see you," said Mona, following Mme. Debrisay. "Excuse me for a moment," looking back to her visitors. "Oh, why do you go, Deb? I dread these *tete-a-tete* interviews."

"But Captain Lisle is a third, dear."

"Oh, he will go away directly."

"Ah! my child, don't give way to these whims. Sure you'll have to pass your whole life *tete-a-tete* with him; and he is good—real, downright good. Make much of him. Go back now, and I'll not fail to be with you to-morrow at ten."

At the other side of the door, Lisle was congratulating Waring in the frankest and most cordial manner.

"I consider a great deal is due to me for spiriting you up, my dear fellow. Nothing venture, nothing have—so you won a prize any man might be proud of."

"Haven't I though! I went to the right man for advice. I say, Lisle, won't you be our best man?"

"I am afraid I'll be half-way to India when the happy event comes off."

"Oh! we are going ahead at a great rate. We—or I should say I—hope to fix it for Tuesday fortnight."

"Sharp work, eh?"

Here Mona returned.

"I do not think my grandmother will come down just yet, Captain Lisle."

"Sorry I shall not have the pleasure of seeing her. I shall be going to India in about six weeks, and I have to go to Paris to see my sister, etc., etc." The talk flowed on in ordinary channels for a few minutes, and then Lisle rose to take leave. "Should I not see you again as Miss Joscelyn," he said, as he pressed her hand, "you will remember that you have my warmest good wishes for your happiness. I shall pay my respects to Mrs. Newburgh on my return to London; so good-bye."

"And I wish you all possible success; so good-bye," she said slowly.

Waring, in his gratitude, went with him down-stairs, and bid him an effusive farewell at the hall door, returning in high glee to Mona, who was putting some more coal on the fire.

"Oh, let me do that. Why do you trouble? Isn't the room hot enough?"

"Grannie will be down soon, and she never finds it warm."

"Not just yet, I hope. Somehow or other I never seem to get a moment alone with you, Mona. I was glad to see the back of Lisle, though he is a capital fellow. I don't know that I like any fellow better; but I was dying to tell you how happy you made me just now when I came in; you really looked as if you were glad to see me. If I thought you were going to be fond of me, even half as fond of me as I am of you, why, I should be almost off my head with joy."

H. LEBRUN, The City Clothing Store
No. 396 GEORGE STREE.

In brief and to the Point.

Dyspepsia is dreadful. Disordered liver is misery. Indigestion is a foe to good nature.

The human digestive apparatus is one of the most complicated and wonderful things in existance. It is easily put out of order. Greasy food, tough food, sloppy food, bad cookery, mental worry, late hours, irregular habits, and many other things which ought not to be, have made the American people a nation of dyspeptics.

But Green's August Flower has done a wonderful work in reforming this sad business and making the American people so healthy that they can enjoy their meals and be happy.

Remember:—No happiness without health. But Green's August Flower brings health and happines to the dyspeptic. Ask your druggist for a bottle. Seventy-five cents.

GENERAL.

Mr. Donnelly's "Creat Cryptogram" is in two big quarto volumes, comprising 998 pages, many of them teeming with figures, and weighs just over six pounds, avoirdupois.

Right now is the time to use a good Blood Purifying Medicine. Lose no time in getting a bottle of Dr. Carson's Stomach Bitters. It will do you good. Sold by all Druggists.

A youthful applicant for graduation at a Kentucky school, on being asked the other day, "What does history teach?" answered, "That the United States has never been whipped and never will be."

A veterinary surgeon states that a horse is a good deal like a man, and suffers from decayed teeth, exposed nerves and toothache just the same.

Advice to Mothers.

Mrs. Winslow's Soothing Syrup should always be used when children are cutting teeth It relieves the little suffer at once; it produces natural, quiet sleep by relieving the child from pain, and the little cherub awakes as bright as a button." It is very pleasant to taste. It soothes the child, softens the gums, allays all pain, relieves wind, regulates the bowels, and is the best known remedy for diarrhœa whether arising from teething or other causes 25 cents a bottle. Be sure and ask for "Mrs. Winslow's Soothing Syrup," and take no other ind.

For Coughs, Neglected Colds, Bronchitis, Pain in the Chest, and all diseases of the Lungs,

ALLEN'S LUNG BALSAM

Is the GREAT MODERN REMEDY. For Croup it is almost a Specific. *As an Expectorant*

IT HAS NO EQUAL!

It is composed of the active principles of roots and plants which are chemically extracted, so as to retain all their Medical qualities. MINISTERS AND PUBLIC SPEAKERS who are so often afflicted with Throat Diseases, will find a sure remedy in this Balsam. Lozenges and paltry sometimes give relief, but this Balsam taken a few times will ensure a permanent cure.

Prices, 25 cts. 50 cts. and $1.00 per bottle.

TURNBULL'S.

We wish to call your attention this week to our Large Stock of Black Cashmeres. They range in price from 25 cents a yard up to $1.20. The one at 25 cents is a good black with sightly appearance which is all we say about it. But when you advance to 45 cents you have a n ce rich color, particularly suited for mourning, good weight and fully 44 inches wide. At 50, 60, 75, 85, 90 and $1.00, we have a new line by a French maker which is much nicer than the old make and deservedly popular, being much finer in appearance, more like a Henrietta. To be had in blue and jet black.

GERMAN CASHMERES.

These Good are made in Saxony where the makers vie with each other in producing a superior article. We have secured a make that can not be spoken of too highly. It is a double warp and finished like a satin. They are now open for inspection, (on 3rd counter to left from George-st. entrance).

In our Custom Made Tailoring Department we show a nice range of Pantings, Worsted Suitings, Light Overcoatings, etc. Only first-class work turned out. (2nd counter to the right.)

Early last fall when the public began gathering around their stoves and were thinking about Flannels and Blankets, we were looking ahead and gave large orders with the leading manufacturers of Chambrays, White and Colored Muslins, Lawns, etc. These Goods are now in stock, and will be found on the first counter to the right.

Our first stock of Sailor Hats has been bought up rapidly which is sufficient evidence that they are the correct thing. Our second shipment bought at a much lower price is now in. All sizes and styles to choose from. The prices will please you when you see the styles and quality.

Applications for Letters Patent—Inland Revenue Returns.

OTTAWA, May 19.—The British and Foreign Marine Insurance Company, with headquarters at Montreal, has received a license from the Government to transact business in Canada.

An unrevised statement of inland revenue returns shows a total for the month of April of $487,841.

Supplementary letters patent have been issued to the St. Lawrence sugar refinery to increase their capital stock from $400,000 to $750,000.

A statement of circulation and specie shows total notes in circulation on April 30, $15,944,109; excess of specie, $3,705,700.

The Canada Jute Company are applying for letters patent to increase their capital stock from $50,000 to $100,000.

The Rolondrie Farming and Stock Company are applying for letters patent of incorporation. The chief place of business is to be Winnipeg, and the capital stock of the company $100,000. The incorporators are Dr. Rudolph Meyer, Dr. Hespelar and Francis Beverley Robertson.

A meeting of the Brantford, Waterloo and Lake Erie Railway Company has been called for June 5, and the annual meeting of the Northern Pacific Railway Company for June 6.

Letters patent of incorporation have been issued to the Chatham Novigation Company with a capital of $40,000 and the Pelee Island Wine and Vineyard Company, with a capital of $25,000.

The returns of W. C. Edwards for Russell and Archibald Campbell for Kent have been gazetted.

The American Copyright Bill.

LONDON, May 18.—An English deputation approached the President of the Board of Trade yesterday with a protest against the American Copyright Bill. Every branch of the printing and publishing trades and many other trades and the London Chamber of Commerce were represented. No more powerful body could be got together for such a purpose. But they were met by Sir Michael Hicks-Beach in a merciless spirit. "Make up your minds," said this plain-spoken Minister, "whether you would rather have this copyright bill as it is or none at all. If you say none, Lord Salisbury and I will consider what to do." It is believed they would prefer none, but do not venture to say so. There is most widespread alarm about the bill, and anxiety among printers and all trades concerned in bookmaking. They really fear that English books will be printed in America, knowing as they do that but for the prohibitive clause American editions of English books would have been printed in England.

Cut His Own Throat.

TEESWATER, May 19.—Yesterday morning a farmer named James O'Neil of Greenock, near Black Horse, was found dead by his wife in his own granary with his throat cut from ear to ear and a razor by his side. He left home in the morning apparently in his usual frame of mind to attend to his duties on the farm. His wife, not seeing him at work, went to the barn to see what was the matter, when the horrible fact dawned upon her that her husband had committed suicide. He leaves besides his wife a family of six children to mourn his untimely end. Trouble about the payment of a small sum of money is supposed to be the cause of the act. The coroner decided that an inquest was not necessary.

IMPERIAL FEDERATION.

Lansdowne's Reply to a Deputation From the Canadian Branch of the League.

OTTAWA, May 19.—Yesterday some twenty members of Parliament who are also members of the Canadian branch of the Imperial Federation League waited on the Governor-General. Mr. McNeill, the spokesman, intimated that the deputation called for the purpose of asking His Excellency to use his influence towards furthering the assembling of a conference of Canadian and Australian delegates for the purpose of bringing about, if possible, extended trade relations between the colonies.

His Excellency replied that he would take an opportunity to invite the attention of the Imperial Government to a proposal likely to come before it of summoning a conference to consider the specific question of improved trade relations between Canada and the Australian colonies. On the occasion of his visit to Toronto a few days ago, he had received a deputation which made a similar suggestion. The presence of several well-known members of Parliament with the deputation would enable him to give more force to his recommendation.

Why Hanlan Was Beaten.

An Australian amateur oarsman now in New York said last week: "I was not at all surprised at Hanlan's defeat by Kemp. In fact I advised my friends to bet on it if they could find any takers. Beach defeated Hanlan, and I know that he resigned the championship of the world only because he feared that Kemp would wrest it from him if he did not."

The Upper Canada College games which were to have come off yesterday, were postponed until Monday, on account of rain.

BILL AGAINST COMBINES.

CLARKE WALLACE'S MEASURE TO PREVENT COMBINATIONS.

The Bill to be Considered at the Next Session of the House—The Franchise Act Withdrawn.

OTTAWA, May 19.—Clarke Wallace yesterday introduced as the outcome of the labors of his Combines Committee a bill for the prevention and suppression of combinations formed in restraint of trade.

Every person who combines, agrees or arranges with any other person, or with any railway, steamship or steamboat or transportation company,

a. For granting to any person who is a party to such combination, agreement or arrangement any facility for purchase, sale, transportation or supply of any article or commodity which is an object of trade, which facility is by such combination, agreement or arrangement not to be granted to any person who is not a party thereto.

b. For denying to any person who is not a party to such combination, agreement or arrangement any facility for such purchase, sale transportation or supply which, by the provisions thereof, is to be granted to any person who is a party thereto;

c. For unreasonably enhancing the market price of an article or commodity which is an object of traffic;

d. For unduly restraining traffic in any such article or commodity;

e. For limiting, lessening or preventing the production, manufacture, sale or transportation of any such article or commodity;

f. For preventing or restraining competing in production, manufacture, sale or transportation of any such article or commodity;

Sir John Macdonald said of course it was too late for the bill to be put through this session, but the fact of its introduction would tend to diminish the injury wrought by these combinations.

Archibald Campbell, the newly re-elected member for Kent, took his seat.

Sir Charles Tupper introduced the railway subsidy resolutions.

Hon. Mr. Chapleau announced that in view of the likelihood of a long discussion on the provisions of the bill amending the Franchise Act, he had determined to withdraw until next session all clauses of that bill, except that suspending revision for this year.

Sir John Macdonald moved the third reading of the Northwest Territories Bill, whereupon Mr. Watson moved an amendment declaring in favor of ballot voting there. The amendment was lost on division, 88 to 52.

Hon. Peter Mitchell introduced a resolution declaring the expediency of removing the duties on wheat, corn, flour, cornmeal and coal. The resolution was lost—yeas 44, nays 89.

The House in committee of supply then considered the estimates for expenditure on public works.

The House spent the entire evening in committee of supply, passing without noteworthy discussion the remaining items of public works expenditure and also appropriations for lighthouse and coast service for scientific institutions.

The House adjourned at 1.10.

THE COLONIZATION COMMITTEE.

A Series of Questions to be Sent Out—Undesirable Immigration.

OTTAWA, May 18.—In the Committee on Colonization and Agriculture this morning it was announced that a communication had been received from Mr. R. W. Pritty of the Pritty Loan Company suggesting that a company of capitalists should be formed for the purpose of advancing money to immigrants to enable them to reach Canada and afterwards to assist them in settling, the money advanced to form a lien upon the property acquired by the settler. It was decided to take no action in the matter.

The sub-committee appointed to enquire into the question of diseases communicated through animals reported that they found it impossible in the short time at their disposal to make a report, but that after due consideration they were prepared to send two series of questions, one to be placed as circulars in the hands of physicians and surgeons and the other to be sent to the presidents and secretaries of agricultural associations, to ascertain whether certain diseases of cattle are communicable through the medium of milk or meat to human beings. The report was adopted.

The committee also adopted a report to be presented to the House in which they expressed the opinion that the greatest care should be taken to prevent the coming of emigrants, either children or adults, who would be likely to become a burden upon charitable institutions or become sources of disease, and with this object in view they recommend that a strict medical certificate should be produced before children are allowed to land on our shores.

NOTES FROM THE CAPITAL.

Civil Servants Will not be Deprived of Their Votes at Present.

OTTAWA, May 19.—A Law and Order Association, to enforce a strict observance of the Liquor Act, has been organized here.

Mrs. Leggo, wife of Dr. Leggo, died suddenly yesterday from heart disease.

Prorogation has been fixed for Tuesday.

His Excellency presented Commissioner A. P. Sherwood with a breast pin, the head being an opal surrounded with diamonds and rubies.

The Senate wrestled all day with Senator McInnes' resolution to deprive civil servants of their votes. It was defeated, 31 to 14.

China will Retaliate.

WASHINGTON, May 18.—It is stated upon what appears to be good authority that the Chinese Minister has notified the Department of State that if the amendments to the Chinese Treaty are insisted upon, prohibiting Chinese who have lived in this country from returning after they have visited their old homes, then China will retaliate by excluding American petroleum from China.

Methodists Favor Deaconesses.

NEW YORK, May 18.—At the Methodist Episcopal General Conference to-day Bishop Hurst presided. The Committee on Temporal Economy presented a memorial regarding the finances of the church which was tabled. The Committee on Missions reported favorably on the appointment of deaconesses and the report was adopted. The report of the commission on lay and ministerial delegates was taken up. It favors equal representation.

COPENHAGEN, May 19.—The International Exhibition was opened yesterday by the King. All the members of the Royal family were present. The buildings of the city were decorated. American and German men-of-war were in the harbor and fired salutes.

NAEGELE'S TRIAL.

Opening of the Special Term of the Court of Queen's Bench.

MONTREAL, May 19.—The special term of the Court of Queen's Bench for the trial of Naegle and Bureau opened yesterday, Judge Baby presiding, when Louis Naegele's trial was commenced.

A startling discovery has been made in connection with the trial. It appears that Frank Wilson wrote a letter from Boston to a party concerned to some extent in the trial, and disclosed to him that one of the principal proofs against the prisoners was to be found in Harry Phillips' house on Dorset-street. "Go upstairs to the attic and you will find there a thieves' trap made for secreting goods," he wrote. The party so informed accordingly imparted the story to the prosecution, who sent High Constable Bissonnette and Grand Trunk Railway Detective Boaz to Phillips' house to investigate the matter, and, true enough, the trap was found. It consisted of a box made of heavy planks and nailed to the flooring. The interior of the box was filled with sawdust, probably to cover stolen goods. It took quite a while to find the door, which opened by a secret spring. The sawdust seemed to be in a condition as though goods had been pulled out of it, but nothing was found there.

It is rumored that a number of new and startling disclosures will be brought out in this trial.

IN THE PRAIRIE PROVINCE.

The Session of the Legislature Ended—Disappointed Lo.'s.

WINNIPEG, May 19.—The Legislature prorogued yesterday. Governor Aikens' speech congratulated the House on the passage of the Redistribution Bill, the Manhood Suffrage Bill, the adoption of the Quebec resolutions, the cessation of the disallowance policy and the legislation for the promotion of railway enterprises.

Forty Indians and squaws, engaged by a Yankee quack medicine man at Selkirk to travel as an advertisement through the States were to start yesterday, but the agent didn't put in an appearance and Lo went home disgusted.

O'Connor Power arrived here to-day and leaves to-morrow to visit the Crofters near Moosomin.

Wheat has advanced 15 to 20 cents, and is now at 70c. to 71c. Winnipeg dealers hold about 3,000,000 bush.

FROM TORONTO.

The Injunction to Stand—The Rate of Taxation.

TORONTO, May 19.—The detectives do not think there has been any foul play in the matter of the death of Joseph Graham, whose body was pulled from the bay on Thursday.

Mr. Justice Robertson gave judgment at Osgoode Hall yesterday in the case of the Esplanade property owners and lessees against the city. Plaintiffs sought the continuance of the injunction granted by Chancellor Boyd restraining the Council from ratifying or confirming a proposed agreement with the Grand Trunk and Canadian Pacific Railway Companies, and His Lordship granted their request.

The rate of taxation has been definitely fixed at 14½ mills, the lowest in 15 years.

Fires Last Night.

INGERSOLL, May 19.—McInnes & Co.'s storehouse was burned down yesterday. Fully insured. The storehouse contained 500 barrels of flour belonging to J. Cawthorpe of Thamesford, on which there was no insurance.

OSHAWA, May 19.—The farmhouse of Thomas Conlin was burned to the ground yesterday together with its contents. No insurance.

Confirmation at Port Perry.

PORT PERRY, May 18.—The Bishop of Toronto held a confirmation in the Church of the Ascension here last night. Rev. R. Harris, Brighton, said evensong; Rev. F. J. Lynch, Sunderland, read the lessons, and Rev. D. Carry, Incumbent of Port Perry, presented the candidates, eleven in number. The church was adorned with flowers and festal hangings, and was crowded with people.

Cut Her Throat with a Razor.

AYR, May 19.—Mary Elliott, about 30 years of age, daughter of George Elliott of this place, committed suicide yesterday by cutting her throat with a razor. No cause has been assigned for the rash act.

Death of an Early Oxford Settler.

INGERSOLL, May 19.—Mrs. Choate, wife of John Choate of North Dorchester, near Ingersoll, one of the early settlers of this part of the country, dropped dead yesterday morning shortly after rising.

A Reprisal.

BERLIN, May 19.—It is rumored that an Imperial rescript is about to be issued, which is intended to prevent as far as possible Frenchmen from visiting Alsace-Lorraine, in reprisal for the obstacles placed in the way of Germans on the French side of the frontier.

Maggie Mitchell is Mrs. Paddock. Mme. Modjeska is Mme. Charles Bozenta Chlapvsk. Adelaide Neilson is Mrs. Lee.

HENRY TAYLOR IN COURT.

THE LONDON BANKER BROUGHT TO TRIAL.

A Verdict of Acquittal is Given in Two Cases by the Direction of the Judge—Still in Jail on a Capias.

LONDON, May 19.—At the Assize Court yesterday, Chief Justice Galt presiding, Henry Taylor, ex-President of the Ontario Investment Association, was placed on trial for the misappropriation of $5000 belonging to that institution. The prosecution failed to establish criminal intent, and His Lordship charged the jury to that effect, but stated that a civil action might succeed. The jury, after an absence of a few minutes, returned a verdict of not guilty.

Mr. Taylor was again placed on trial on a similar charge, the amount being $10,000. As the evidence was similar to that adduced in the former case the judge ordered the jury to return a verdict of not guilty, which was done.

Mr. Taylor remains in jail on a capias.

Republican Senators and the Fisheries.

WASHINGTON, May 19.—The Republican Senators held a long caucus yesterday, in respect to which they were unusually reticent. It was called at the request of Senator Edmunds for the purpose of discussing the Fisheries Treaty. The subject took up a good portion of the time of the caucus, but the tariff and politics were also dwelt upon. No action was taken, the purpose being simply to have an interchange of views. There was developed no difference of opinion upon the matter of opposing the ratification of the Fisheries Treaty, but there is said to have been a wide difference upon some question of procedure in connection with it.

The Proposed Niagara Ship Canal.

NEW YORK, May 19.—The committee of the New York Board of Trade and Transportation, to which was referred the consideration of Congressman Nutting's Niagara Ship Canal Bill, has prepared a resolution to the effect that the board favors an appropriation by Congress of a sum not exceeding $15,000 to provide for the survey and estimates of cost by United States engineers of a ship canal connecting Lakes Erie and Ontario on the American side of a sufficient capacity to float such vessels as will be able to pass the Sault Ste. Marie.

Murdered for Money.

CHICAGO, May 19.—Wm. Heppner, living at Niles, Cook County, was murdered last night for his money. Mr. Heppner was a tree agent, delivering consignments of goods between Evanston and Chicago. He collected at long intervals, and often carried large amounts in cash. Last night he got off the suburban train at North Evanston to walk across to his home. His body was found on the edge of Evanston, a short distance from where he left the train. A bullet had penetrated his body, producing apparently instant death. His pockets had been rifled and all his money taken, but his watch and chain were left.

He Feared Trouble.

PROVIDENCE, R.I., May 18.—Antonio Parillo, the Italian who paid the rent of the room for Nellie Mitchell, the young woman who was found dead in a house on Pearl-street early this month, has returned to this city and made a statement to the police. He says the woman came unsolicited to him, saying she was unhappy at home and would not return there. He provided her with lodgings and food, and was greatly shocked when she died. In his ignorance of the English language and the law he feared he might get into trouble, and so fled to New York.

Murdered by a Bailiff.

DUBLIN, May 19.—A bailiff named Sweeney while escorting a drunken son of Landlord Lloyd to his home at Templemore, County Tipperary, fired upon a laborer named Thompson and wounded him in the hip. Another workman named Kennedy interfered and Sweeney shot him also, the bullet entering the heart. Both shots were fired at Lloyd's orders. The police pursued and arrested Sweeney, and with difficulty prevented the people from lynching him.

Attacked by a Welsh Mob.

LONDON, May 19.—A party of tithe collectors and police were attacked by a mob at Danifidd, Wales, yesterday, and in the conflict thirty-five persons were injured, seven of them seriously.

Prospective Passenger Rate War.

CHICAGO, May 19.—There is a prospect of another war of rates on passenger business between Chicago and Boston. The Niagara Falls short line has not consented to arbitrate the question of whether it shall retain the differential of $1.25, and is not likely to. The Grand Trunk is daily expected to meet the short line's rate.

Love's Young Dream.

CHICAGO, May 19.—Ida McGrath (white), the 18-year old daughter of respectable parents, who was reported lost about three weeks ago, was found in a shanty near the city limits living with a full-blooded negro bootblack named Henry Watkins, to whom she was married on April 23.

The Daily Review.

SATURDAY, MAY 19, 1888.

THE G.T.R TIME TABLE.

THE new time table of the Midland system of the Grand Trunk Railway makes no improvement in the service between Peterborough and Toronto, but rather the reverse. It was expected that a fast train would be put on via Port Hope, but it has not been done, and servicable mixed trains, which gave accommodation to Toronto and intermediate stations, have been dropped.

It is difficult to understand why the Grand Trunk does not give Peterborough a better train service to the south. To go across Lake Ontario from here, one has to go to Port Hope and remain there over night, and there are three trains going west on the main line, to Toronto and passing Bowmanville, Oshawa, etc., that no connection can be made with from here. The train which was expected would have remedied this serious defect, as it would have connected with the boat for Rochester and given a morning train to the stations west of Port Hope and a better service to Toronto. Instead of an improvement such as this would be, the mixed trains to and from Toronto, that gave a convenient service to Omemee, Lindsay and other places, are dropped so far as the stations this side of Lindsay are concerned.

Perhaps one reason why the morning train by way of Port Hope was not put on was the representations of Cobourg in favor of retaining the present local train from that town to Toronto. It is said that this was the train that was at one time intended to be put on this line. The people of Peterborough took no action and it would be well for Peterborough to make representations to the Grand Trunk management as to the desirability of, at any rate, having a better service to the south, and with this secured the train might be extended to Toronto. There is no reason to doubt that such representations would receive respectful and careful consideration, and the convenience is worth making an effort to obtain. It must be through some mistake that the service south is left as it is and a proper presentation of the case could scarcely fail to have effect.

A SHORT time ago the REVIEW remarked that the Toronto World was expending considerable energy and common sense on the butter question. The World now announces that its editor will seek Parliamentary honors on that platform, and it is painfully apparent that, while its energy holds out, its stock of the other commodity is spent.

THE Hamilton Spectator says:—"Chicago does not do all the divorce business in the United States by a very large majority. In Boston, the hub of puritanical New England, Justice Field disposed of 341 divorce cases in a single day last week. And there are some people who want a divorce court in Canada!"

NORWOOD.

Correspondence of the Review.

24TH CELEBRATION.—A grand picnic will be held on the 24th in the beautiful grove, opposite the R. C. Church, Norwood, in aid of the R. C. parsonage. Arrangements have been made for a reduced railway rate, return tickets for visitors from Indian River and Peterborough at single fare, good to return until the 25th of May. The Norwood brass band have been engaged for the occasion, and the customary caledonian games will take place, for which valuable prizes will be given. A fine platform for dancing is being erected and the services of a splendid orchestra have been obtained for the occasion. An interesting feature of the programme will be the drawing for a life-size portrait of the Bishop.

PARLOR SOCIAL.—A parlor social will be held at the residence of Mr. W. E. Roxborough, on the evening of May 18th, under the auspices of the Pansy club. The society in question is composed of young girls ranging in age from 10 to 16. Its objects are mutual improvement and benevolence. A choice programme is being prepared. Refreshments will be served during the evening and the fancy work, &c., made by members of the club during the winter, will be offered for sale, proceeds to be devoted to charity.

PERSONAL.—We regret to learn that Mr. J. B. Pearce is again seriously ill.

A BEAUTIFUL GIFT.—The members of the Masonic Fraternity in Norwood presented Mr. P. P. Cope with an exquisite token of their regard (through the post office) last week. The gift in question is a very delicately engraved gold square with gold bar and satin ribbon attached. Along the face of the square the name and number of the lodge is engraved and across the upper corner, but scarcely to be seen by the naked eye, is the name of the recipient.

GOING TO THE ROUNDS.—The council had a day of it on Monday visiting all parts of village to ascertain what repairs or improvements are required during the coming summer. Economy seems to be their watchword just now, but from the experience of last year, with nearly the same council, the citizens are inclined to be a little skeptical on the subject.

Don't use any more nauseous purgatives such as Pills, Salts, &c., when you can get in Dr. Carson's Stomach Bitters, a medicine that moves the Bowels gently, cleansing all impurities from the system and rendering the blood pure and cool. Sold by all Druggists.

The trouble with many proprietary medicines—once popular, but now neglected—is, that the manufacturers, not content with reasonable gains have sought to increase their profits by using inferior ingredients. Such dishonest experiments always prove fatal. People soon abandon a remedy that fails to be effective, no matter what its cost or previous reputation. The immense and constantly increasing demand for Ayer's Sarsaparilla, since its introduction to the public, forty years ago, is doubtless due to the fact that its original formula has been strictly adhered to. The ingredients used are always the same and always the best, while the methods of compounding them have improved with the advance of science. Hence, this medicine leads all others in popular demand.

RACING IN THE RAIN AT GRAVESEND AND LOUISVILLE.

Chicago's Whitewash Victory—Dust From the Diamond—Why Hanlan Was Beaten —Terms of Challenge for America's Cup.

GRAVESEND, L.I. May 18.—This was an off-day, there being only purse races. The weather was raw, cold and wet. The track was heavy and slow. The report that Frank McLaughlin was fined and suspended yesterday was incorrect. The suspension of Garrison and Fitzpatrick by the Brooklyn Jockey Club may be removed if their behavior is satisfactory, though the $250 will have to be paid. The committee on investigation yesterday found that in the jockeys' melee Frank McLaughlin was not to blame for his part, and no penalty was inflicted upon him. The fight between Garrison and Fitzpatrick seems to have grown out of Fitzpatrick's irritability, due to the fact that he could not get down to riding Kalcolah at 113 lb. for the second race. Learning that Garrison had been asked to take the mount, "Fitz" charged him with trying to undermine him in the stable. Fitzpatrick has been ill for some days, and at Garrison's reply struck from the shoulder. In an instant the several jockeys became involved in the fight, of which a peacemaker, George Cook, a trainer from the beach, got the worst whipping. The results of to-day's racing follows:

FIRST RACE—Purse $600, for 3-year-olds and upward. 1 mile.—Ban Clocke, 103, won; Fenelon, 105, 2d, and Longlight, 104, 3d. Time—1.43½. Pools: Fenelon, $36; Bessie June and Laredo, $20 each; Choctaw, $8; Valiant, Longlight and Alaric, $5 each; the field, $10.

SECOND RACE.—Handicap sweepstakes of $25 each with $1000 added; 1¼ mile. Exile, 117, won, Brown Duke, 105, 2nd, and Le Logos, 100, 3d Time—1.57½. Pools—Exile, $36; The Bourbon, $12; Lancaster, $8; Brown Duke, Wickham, Le Logos and Grover Cleveland, $6 each; Klamath' $4.

THIRD RACE—Purse $750 for 2-year-olds; 5 furlongs. Peril, 112, won, Passport, 115, 2d and Harebell, 112, 3d. Time 1.05½. Pools—Peril, $10; Lillie C, and Passport, $6 each; Harebell, $2.

FOURTH RACE—Handicap sweepstakes of $25 each for 3-year-olds, with $750 added; 1 1-16 miles. Specialty, 118, won, Prospect, 115, 2nd, and Wheat, 107, 3rd. Time—1.53½. Pools—Specialty $20, Prospect and Revolt gelding $8 each, Wheat $4.

FIFTH RACE—Sweepstakes of $25 each, for 3-year-olds, with $750 added; ¾ mile. Joe Lee, 126, won, King Crab, 103, 2d, and P. Thomas, 99, 3d. Time—1.16¾.

Pools: Miracle, $20; Joe Lee, $16; Speedwell, $14; Harry Russell, $12; King Crab, $8; Grover Cleveland and Mary Buckley filly, $6 each; the field, $5.

Racing in the Rain at Louisville.

LOUISVILLE, KY., May 18.—The Louisville Jockey Club spring meeting was continued here to-day with very disagreeable weather, rain falling at intervals throughout the day. The track was very heavy. Results:

FIRST RACE—Purse $400, for all ages, selling allowances; ¾ mile. Orderly, 98, won; Emma Johnson, 92, 2d; and Full Sail, 72, 3d. Time—1.17½. Pools: Roi d'Or $30, Orderly $15, Billy Gilmore, Golightly, Drumstick, Emma Johnson $10 each, Lisland, Orange Girl, Full Sail and Briggonette $7 each, the field $30.

SECOND RACE—Elmendorf Handicap for 3-year-olds and upwards; $30 each, with $1000 added. 1¼ miles.

FOURTH RACE—Purse $400, for 2-year-olds, selling allowances; ¾ mile. Spectator, 94, won; Fan King, 103, 2d, and Famous, 94, 3d. Time 1.06. Pools: Fan King, $35; Spectator, $25; Entry, $22; Famous, $18; field, $21.

FIFTH RACE—Purse $300, selling allowances; ¾ mile. Litbert, 104, won; Dago, 103, 2d and Tam O'Shanter, 100, 3d. Time 1.20. Pools—Tam O'Shanter, Frederica and Cupid, $25 each; Litbert, $22; Duhme, Buckeye, Dago, Bonnie King, $15 each; the field $8.

No Bookmaker to be Allowed on the Course.

ST. LOUIS, May 18.—The war on the bookmakers, which developed in Louisville several weeks ago, has broken out here, and President Green of the St. Louis Jockey Club announces that the club will control the betting at the coming spring meeting, and that no bookmaking will be allowed on the course. A bid was made for the pool privileges by Dick Roche, and was rejected. Roche went to Louisville and secured the privileges there, so St. Louis is now left with the mutual system only. Considerable uneasiness is felt regarding the success of the meeting with speculation restricted in this manner.

Terms of Challenge for America's Cup.

NEW YORK, May 18.—The New York Yacht Club has adopted the following: Resolved, that the terms under which the races between the Genesta and Puritan, Galatea and Mayflower and Thistle and Volunteer were sailed were considered satisfactory to the club, and a challenge under these terms would be accepted, but with the positive understanding that if the cup is won by the club challenging it shall be held under and subject to the full terms of this new deed, dated Oct. 28 1887, inasmuch as the club believes it to be in the interest of all parties, and the terms of which are distinct, fair and sportsmanlike.

WARSAW.

Correspondence of the Review.

CHURCH RE-OPENING.—St. Mark's Church was reopened on Sunday, May 13th, after having been vastly improved, under the management, and to a very large extent, the personal workmanship of the enterprising churchwarden, Mr. A. F. Choate. Although the seating accommodation has been greatly increased, every seat was occupied. The service was hearty and the music, as usual, thoroughly well rendered. Many bright flowers, tastefully arranged, contributed by their beauty and fragrance to the gladness of the festival. An eloquent sermon was preached by the Rev. W. C. Bradshaw. The improvements include a new chancel and vestry, and new furniture throughout the church. The seats, choir-stalls and chancel ceiling are all handsomely finished in ash, and the nave of the church, from which the gallery has been removed, is painted in warm colors. The chancel window, which was painted by the Rev. John Farncomb, Incumbent of the parish, adds greatly to the completeness of this pretty little church. Pastor and people may "thank God and take courage."

GOUGH BROTHERS

On the Trail of tottering houses that require Money.

A WHOLESALE STOCK OF CLOTHING BOUGHT AT 52½ CENTS ON THE DOLLAR,

Comprising over 1200 Suits of Men's, Youths' and Boys' Clothing, and 800 pairs of Pants, extra. GOUGHS have secured this splendid Bargain Line and commenced a Grand Fitting-out Sale on Thursday morning.

MEASURES FOR THE MEN.

Read our champion offer, and don't try to duplicate it, for it can't be done.

We offer a man's Suit for $2.50 that cost $4.78 wholesale.

We offer splendid fitting Suits, and in 150 different patterns, at $5.00 easily worth $7.25 wholesale. These Suits, if sold in the regular retail way would bring $9.00.

OUR GREAT BIG PLUM in Men's Clothing, comprising 633 suits, regular wholesale price $11.50, and we are turning them out for $9.00. The cloth alone is worth more than we are asking for the whole suit complete.

Look them all through and then come to us, and if we fail to convince the most skeptical that our Stock is not at least five times larger and our prices 50 per cent. lower than those of any other dealer, we will give a whole outfit free.

WHAT WE SAY ABOUT THESE GOODS.

One man's extremity is another man's opportunity. Our grip on the market has brought this bargain to our counters. We want the public to know just what we offer. When we say the goods are bargains they are positive. When we say no such a pic-nic was ever before offered we have the goods to back up the statement. We nail the flag of cheap and and good Clothing, of brilliant sparkling bargains to the mast and defy any clothier on earth to lower our colors.

OUR PLAN TO HELP YOU HERE.

We want everyone to come and see what we are doing. Drive in if you can. Come by water, by stage or on foot, for there's money for you in the expedition. That there shall be no excuse, we will pay the railroad fare of any passenger, within a radius of fifty miles, who comes to our sale and buys $10.00 worth of goods or upwards.

BOUNCING BARGAINS FOR BOYS.

An honest statement always carries weight; can you believe one when you hear it? In black and white we tell you what we are doing in Boys' Clothing.

A Dandy Suit for the boy, and mind you, only 58 cts. People often run away with the idea that a cheap line is only advertised for a bait, and that when they come around say the boy is too big for the clothes and try to sell something else. This is not our style (we leave that for others to do). Don's be afraid to ask for these suits. Our salesmen won't tell you that the Proprietor is out and that they can't find them. We have lots of Boys' Suits at 58 cts. and while they last the public will get them and though they are worth $1.00 wholesale we can sell them for 58 cts. and make a good living profit.

See our Boys' suits at $1.25, $1.75 $2.50 and upwards. The cheapest are good and the best are better.

FATAL ACCIDENT.—A little son of Mr. John Turner died on Thursday last, it is supposed from injuries received by falling against a coal stove, which caused a dint in his forehead. The child who was two years and nearly nine months old, was healthy and quite smart four days preceding death, but after the fall, he became ill and died, it is thought, from affection of the brain.

INVITATION TO A MINISTER.—At the late quarterly meeting of the Seymour west Methodist circuit, a resolution was unanimously passed, inviting the Rev. M. E. Wilson to return to the circuit as pastor for the ensuing Conference year. The resolution is nicely worded and is tenderly expressive of the esteem which the congregation have for Mr. Wilson. He has also received an invitation to another circuit —Herald.

Don't Wait

Until your hair becomes dry, thin, and gray before giving the attention needed to preserve its beauty and vitality. Keep on your toilet-table a bottle of **Ayer's Hair Vigor**—the only dressing you require for the hair—and use a little, daily, to preserve the natural color and prevent baldness.

Thomas Munday, Sharon Grove, Ky., writes: "Several months ago my hair commenced falling out, and in a few weeks my head was almost bald. I tried many remedies, but they did no good. I finally bought a bottle of Ayer's Hair Vigor, and, after using only a part of the contents, my head was covered with a heavy growth of hair. I recommend your preparation as the best hair-restorer in the world."

"My hair was faded and dry," writes Mabel C. Hardy, of Delavan, Ill.; "but after using a bottle of Ayer's Hair Vigor it became black and glossy."

HOUSEFURNISHINGS.

At this season many Housekeepers are replenishing their supplies of Tableware and China. City folk are furnishing summer cottages; country folk are filling up the dressers and cupboards of the old homestead; town's folk are picking and choosing here and there. Many would be glad to know of a place whose special business is to meet these wants and desires; that aims to furnish essentially good wares at consistently low prices; that offers the choice of many different dinner services, and yet does not compel you to take an entire set of any pattern, but allow you to select each course of a new design, or buy any portion of the set you may need; that does not try to impose ideas or wares upon purchasers, and yet is ready to advise which of the many wares is most desirable, and suitable; and, if wished, will make a careful selection of pattern. When you want Tableware will you give us the opportunity to serve you.

Arrangements have been completed for the Canton I.O.O.F. excursion to the Queen City, via the C. P. R. The date is June the 12th, by special fast train leaving at 7 a.m., with previlege of going on the 5 a.m. train. Adults tickets $2.00, children $1.00, good for two days. 2d117

'Twas recently said, and as recently read,
For a city the town would bid,
And as recently said, while surely 'twas read
The premier shoe dealer is kidd.
For he leathers your woes, instep and toes,
Be you laborer, sailor or mid,
The fame of his goods fairly rings in the woods
No dealer sells cheaper than kidd.

Club Swinging.

The following letter addressed to the Editor, appears in Friday's Mail:—

"SIR,—I hereby challenge any man in Canada to swing me, according to rules, a club swinging match for one hundred to two hundred and fifty a side, the match to take place in Toronto, either public or private, two weeks after signing articles.

Hoping some of these would-be champions will come to time (Paul Patillo's unknown, McNaughton of Peterborough, or Frank Smith preferred), to show that I mean business I have deposited twenty-five dollars with Jos. O'Hara of the Continental hotel. Yours, etc., J. NUNN, JR."

Personal.

The Cannington correspondent of the Post says:—"Mr. and Mrs. Geo. J. Early, of Peterborough, were visiting friends here this week."

The Minden Echo says:—"Mr. Geo. Linten, late of Mr. Edward's law office, Peterborough, has been engaged as bookkeeper for the Dickson Lumber Co. here."

Mr. Thos. Burke, of D School of Infantry, London, arrived in town on Friday to remain a few days.

Mr. Arthur P. Choate, of the Toronto World staff, arrived in town to-day to remain over Sunday.

Mr. A. P. Melrose, formerly of Peterborough, who has been living in Lanark for several years, is in town visiting friends.

There is no danger to human life more to be dreaded than that which arises from vitiated blood. Dyspepsia, rheumatism, headache, and general debility, all result from it, and are cured by the use of Ayer's Sarsaparilla. Take it this month. Six bottles, $5.

Organ Recital.

St. Luke's new organ will be opened by a recital on Tuesday, the 22nd inst., at 8 p.m., to which members of the congregation and the public generally are invited.

Slaughter Sale.

W. J. Morrow is running off his immense stock of Tea to make room for fresh importations. evaporated Peaches, Peas, Apricots, Apples, &c., &c. Pure Maple Syrup. Telephone, Opera House block.

The Market.

There was a good attendance at the market this morning, considering that this is a busy season. Prices remain about the same. Hay was a little weaker, but the price will probably recover.

Collegiate Institute.

The examinations in the third and fourth forms of the Collegiate Institute, which began on Tuesday, closed on Friday afternoon. The results will be published in the town papers within a few days.

THERE being a lot of very nice Millinery Trimmings in Alexander's stock, we had to get some new hats to work this stock off, and will sell them at way down prices. The rest of the stock is going very well, but is still well assorted in all lines, and must be bushed out in a hurry.

Whether on land or at sea, on the prairie or in the crowded city, Ayer's Pill are the best cathartic, being convenient, efficacious, and safe. For torpid liver, indigestion, and sick headache, they never fail.

Copywright Editions.

Among the recent publications, Canadian copywright editions, by Mr. Wm. Bryce, Toronto, are "Sara Crewe and Edith's Burglar," by the popular writer Mrs. Frances H. Burnett; "The Abbey Murder," by Joseph Hatton; "A Woman's Face," by Florence Warden, and "Cradled in a Storm," by T. A. Sharp. They are the latest works of fiction, neatly printed in illuminated paper covers and sold at popular prices—the two first mentioned above at 25 cents, and the last two mentioned at 30 cents.

Their Spring Display.

Porter Bros. of this town, the well known builders of carriages and wagons, announce a grand display of work in all lines at their shops on Saturday next, May 19th and also on the Saturday following, May 26th Those who purpose buying a wheeled vehicle of any description will do what is judicious and well by calling and seeing what the firm offer. The show room adjoins the factory, corner of Charlotte and Aylmer-sts. near the G.T.R. station. They invite particular attention to the new style buggies, phaetons and road carts, built and finished in the best possible manner. There is hardly a special want in their line that the firm cannot supply, the resources of the shops being ample for any emergency. Farmers are specially asked to look the display over, while local horsemen who desire a light, graceful, handsome buggy or road cart will find much worth of favourable comment. 4d115-2w20

The Rifle Association.

The report of the Secretary-Treasurer, Major Bell, presented at the annual meeting of the County of Peterborough Rifle Association, showed that the receipts had amounted to $582.05, and that $355 had been paid out in cash prizes. Col. J. Z. Rogers, 2nd Vice-President, declined re-election, as did also Dr. Bell, Secretary-Treasurer. The following officers were elected:—

PRESIDENT.—Lieut.-Col. H. C. Rogers.
1ST VICE-PRESIDENT.—Rev. V. Clementi.
2ND VICE-PRESIDENT.—John McKee.
SECRETARY-TREASURER.—J. B. Pentland.
COUNCIL.—D. Cameron, F. Hall and W. A. Mason.

The Association decided to affiliate with the Ontario Association and the question of affiliation with the Dominion association was left with the officers. It was decided to hold practice meets every Thursday and matches on the first Thursdays in June, July, August and September. The president was requested to apply to the government for ten Martini-Henry rifles for the use of the association. The Council was instructed to endeavor to arrange for the use of the present range on the Chemong railway, or, failing in that, to secure a new site for ranges. Dr. Bell was tendered a unanimous vote of thanks for his eleven years efficient and faithful services as Secretary-Treasurer.

Complimentary Banquet.

A complimentary banquet is to be tendered Lieut.-Col. Villiers, Deputy Adjutant General, at the Arlington Hotel, Cobourg, on the evening of May 30th, previous to his departure for the Northwest. A circular issued by Capt. Sam Hughes, Secretary of the Committee says:—

"The Banquet will be under the joint auspices of Major General Oliver and Staff of the Royal Military College, and the Commanding Officers and Officers of the 3rd Military District Active Militia. The object being to do honor to Lieut.-Col. Villiers on the eve of his departure for Winnipeg, it is earnestly and respectfully requested that every officer will attend. A similar occasion will not again occur for years, and fraternal meetings do much to promote harmony, good fellowship and *esprit de corps* in the force. Many Military officers have neither full dress nor mess uniform, they being specially devoted to the practical side of military work, therefore it will be perfectly in order to wear the ordinary undress uniform. Those having full dress or mess uniform will kindly wear one or the other, the latter preferred. But the banquet is from the officers of the district, and none should remain away on account of uniform. It is the man, the soldier, either in uniform or civilian dress whose presence is requested to honor Colonel Villiers. Those coming from the east can arrive at Cobourg on the evening express train. Those from the north will require to take the noon train south, while those from the west can come by the mixed train reaching Cobourg about five o'clock. Returning, early trains run both east and west connecting at Port Hope with Northern trains. To bring the banquet within the reach of every officer the tickets are placed at one dollar. At Col. Villiers' express wish no costly donation is to be made. The programme will include songs, addresses, etc.; hence the vocalists of the force will confer a favor by being prepared. The banquet will be carried out with the full sanction of the Adjutant General of Canada, and of Major-General Sir Fred. Middleton, Commander-in-Chief, the plan having been submitted in detail for their consideration. It is expected that special rates will be granted by the Grand Trunk Railway. Commanding officers will kindly notify their officers, and take such other action as will tend to make the banquet a complete success, each having independent liberty of action to bring their own guests either civilian or military. Col. van Straubenzie, successor to Col. Villiers in this district, has kindly expressed his desire to do all in his power to make the banquet a success. To conclude arrangements for the banquet each will please notify Lieut.-Col. J. Vance Graveley, Cobourg, on or before Tuesday, 29th May, of his intention to attend."

NEW G. T. R. TIME TABLE.

Little Change in the Toronto Trains—Grand Junction Connections with Toronto.

The new time table of the Grand Trunk Railway, which takes effect on Monday, makes a few changes in the arrival and departure of trains at this station.

The express and mail to Toronto are little changed, the former leaving here at 8.20 a.m. and the latter at 5.10 p.m. and going by way of Lindsay. The trains from Toronto will arrive at the same time—11.55 a.m. and 8.50 p.m. Connections are made with these trains on the northern divisions.

There is an important change in the Grand Junction division, or Belleville district, as it is called. The morning trains from Belleville leaves that city at 5.45 a.m. and will arrive here at 8.15, connecting with the morning express to Toronto. The afternoon train leaves Belleville at 4.45 p.m. and and arrives here at 8.05. Going to Belleville the morning train leaves here at 8.30 a.m., after the arrival of the express from Port Hope, and the afternoon train leaves at 1.30, half an hour earlier than formerly.

The trains to Lakefield leave here at 8.55 a.m. and 6.15 p.m., arriving at Lakefield at 9.50 a.m. and 7.05 p.m. Returning they leave Lakefield at 10.05 a.m. and 7.25 p.m., arriving here at 10.57 a.m. and 8.15 p.m.

Two trains a day are given to Haliburton division, an improvement there, and the connections on that division with the main line are better.

The mixed trains that run between Peterborough and Toronto are cut off, and now leave Lindsay and stop there.

The expected train to Toronto by way of Port Hope does not appear on the time table. It will continue to run from Cobourg as before.

The Sale of Ludgate Lots.

T. Hurley's closing sale of the Ludgate Lots will take place on the ground, Monday next, from 5 p. m. These lots are superior value varying in price from $40.00 to $160.00. Terms to suit. Do not fail to attend this sale. Last chance. 1d118

Before the Magistrate.

John Wilkins was in the Police Court this morning on the complaint laid by his wife. He was remanded for a week. M. J. McKelvy was charged by M. J. O'Leary with having assaulted him, and a fine of $5 was imposed.

The Secret Out.

People are astounded at the amount of property sold by Jno. Carlisle. Why has he sold so much? Simply because he leaves money every time in said properties for the buyers. Many can vouch for the truth of this statement. 45 parcels sold the last few months.

Mission Band Concert.

A concert will be given by the Mission Band, in the school room of the George-st. Methodist Church, on Monday evening. Singing by the Y. M. C. A. Quartette, music by a brass band, a debate on novel reading, etc., etc. Good programme, silver collection. Come! 2d

Cold and Backward.

An Ennismore correspondent writes:—"The past week has been cold and backward for May. On the 15th we had a considerable dash of snow. On the morning of the 17th ice was taken off water the thickness of a quarter, with the thermometer at 30 degrees. On the 18th and 19th it rained some, with a little improvement from the cold. We have had a low temperature during the week."

Fine Workmanship.

Geo B. Sproule, Esq.

DEAR SIR:—Your pictures of Miss M. were duly received, and pray accept her thanks for the fine workmanship. I have never seen a better picture of her, both as to postures and finish, and you may well be proud of your fine work and artistic taste displayed on them. We anxiously await the arrival of the "Bromide," feeling assured that it will equal your former efforts. Thanking you for your promptness, I remain,

Yours, &c.:
A. L. HARRIS,
Business Manager,
Sawtelle Comedy Co.

Brevities.

—Port Hope is also agitating for lights on the streets all night.

—Several cases for allowing cattle to run at large will come up in the Police Court on Monday.

—The recruiting officer for the Mounted Police has secured a couple of men for the force. He is at Cavanagh's hotel.

—The Y. M. C. A. Quartette will sing at the Gospel Temperance meeting tomorrow, Sunday, afternoon.

—Adjutant Bolton and the Salvation Army corps and brass band of Peterborough are to take part in an Army jubilee at Lakefield on June 2nd, 3rd and 4th.

—The Port Hope Times says:—"The members of the Peterborough Fire Brigade are fined $1.50 if they do not appear at a fire. The Port Hope Extinguishers are taxed a quarter of a dollar for a similar offence." The fine in Peterborough is 75 cents. Perhaps the difference between 25 cents and 75 cents is a measure of the difference in the value of the firemen.

Right now is the time to use a good Blood Purifying Medicine. Lose no time in getting a bottle of Dr. Carson's Stomach Bitters. It will do you good. Sold by all Druggists.

Services To-morrow.

The following is a list of services in the several churches to-morrow:—

GOOD STOCK.—A large number of fruit and ornamental trees with current bushes and grape vines has been distributed throughout the township by Thomas Tellford during the week. They are from the New England Nurseries of Charles & Chase, Rochester, N. Y., and a more healthier and finer stock was never delivered here, there was not one fault found, but all praising them in the highest terms. Mr. Chase's honest upright dealing aught to insure him success in the future should his agent again visit us.

While correspondents will be allowed space to discuss questions of public interest, the Review does not hold itself responsible for the opinions expressed.

Wages not High.

To the Editor of the Review.

DEAR SIR,—Among your local items of to-day in the item headed the "Boom at the Sault," your informant has got things pretty considerably muddled up.

1st. I am Mr. Warde and never was at the Sault.

2nd. G. P. Warde has no son.

3rd. G. P. W. said in a former letter that he thought it a sin for parties to induce mechanics to go to the Sault, as rent and board are very high and wages no better than in Peterborough. In a later letter he says navigation has opened and things look better and that POSSIBLY the town may increase one third this summer, but wages have not.

I should not have bothered about the item only G. P. W. being tolerably well known in town, I feel confident would not wish any article purporting to come from him to be cause of disappointment to any one. He does not belittle the place, far from it, but he says the MECHANIC who goes there expecting a big thing, will be disappointed.

GEORGE WARDE.

Peterborough, May 18th, 1888.

MIDLAND.

RETAILERS' ASSOCIATION.—The retail dealers of the town have formed an association for mutual protection and the curtailment of the credit system.

BOLD ROBBERY.—Thieves entered the store of Jas. Freeborn late on Saturday night and carried off a quantity of bacon, ham, flour, tobacco, tea, 40 dozen eggs, 35 pounds of butter, and it is supposed, some boots and shoes were taken. The goods were missed on Sunday forenoon, and the track of a waggon being noticed in front of the store it was traced through several streets until the old lime kiln on the Harkley property was reached; here they drove on the sod and it was no longer possible to follow the track, but it is certain the goods were taken in that direction. Tuesday morning fifty pounds of flour was found in Mr. S. Chew's field just inside the fence, and a little girl, who had been gathering May flowers, says she saw a man carrying flour and other parcels into the woods Sunday evening.—Free Press.

COBOURG.

MISHAP TO THE NORSEMEN.—The other day the steamer Norseman, when backing out of Cobourg harbor, struck a pile and stove a hole in her side, between the wheelhouse and the kitchen. She went to Port Hope for repairs.

CAR WORKS BAND.—Thanks to the active interest of Prof. Dadswell, our citizens have a good band in prospect. At a meeting of local musicians, held in the Council chamber on Tuesday evening last, it was decided to form a band on a solid basis, to be known as "The Cobourg Car Works Band." The members of the old Citizens' Band have kindly offered their services to the new organization.

CHURCH NEWS.—The Rev. C. H. Cooke, B. A., pastor of the Presbyterian churches at Baltimore and Coldsprings, has been called unanimously to Smith's Falls, at a stipend of $1,100 and a manse. It is also rumored that the Rev. W. A. McKenzie, B. A., pastor of the Presbyterian Church at Grafton, is to be called to the First Church, Brockville, at a stipend of $1,600 and a manse.—World.

LINDSAY.

HOUSE BURNED.—Mr. Wm. Zealand, lot 17, con. 11, Ops, on the Downeyville road, met with a serious misfortune Sunday week. About one o'clock his house caught fire from a stovepipe in the kitchen, and as it was a frame building it was burned down in quick time. There was not much saved. The loss is between four and five hundred dollars. There was a small insurance. Much sympathy is felt for Mr. Zealand.

EVANGELISTIC.—Evangelist Meikle closed a series of services extending over three weeks by a farewell meeting for men on Sunday afternoon and for the general public on Monday evening, in the opera house. Mr. Meikle has developed great power as a preacher since his former visit to Lindsay. The directness and earnestness with which he conveys to others his wonderful knowledge of God's word, and the aptness of every illustration deeply impress all who listen to him. Mr. Meikle left town on Tuesday morning to begin work in Pembroke.

TWO ACCIDENTS.—Mr. John Dovey had a narrow escape from death one day last week whilst looking after some of his logs at Kinmount. The logs were being run through the slide at that point and in some way Mr. Dovey lost his footing and was precipitated into the water and was carried over the chute amongst the logs. He was under the surface for a considerable time, and the spectators even lost all hopes of seeing him again, when a log running underneath him ran to the top, and he was pulled out insensible. A doctor was summoned and after considerable labor he was revived but was unable to stand the journey home until Tuesday. He is improving slowly.... The old adage that "misfortunes never come singly" has been amply verified in Mr. Dovey's case. On Wednesday, the day after he was conveyed home from Kinmount, his son George, aged about 21, who works in his father's mill here and who had last October several fingers of his left hand cut off at the second joint by coming in contact with a saw, again met with a similar accident to the hand, this time amputating the four fingers clean. A mitt, worn on account of the fingers still being tender, caught the jointing saw and drew his hand in.—Post.

In brief and to the Point.

Dyspepsia is dreadful. Disordered liver is misery. Indigestion is a foe to good nature.

The human digestive apparatus is one of the most complicated and wonderful things in existance. It is easily put out of order.

Greasy food, tough food, sloppy food, bad cookery, mental worry, late hours, irregular habits, and many other things which ought not to be, have made the American people a nation of dyspeptics.

But Green's August Flower has done a wonderful work in reforming this sad business and making the American people so healthy that they can enjoy their meals and be happy.

Remember:—No happiness without health. But Green's August Flower brings health and happines to the dyspeptic. Ask your druggist for a bottle. Seventy-five cents.

BLAIRTON.

Correspondence of the Review.

SICKNESS.—Considerable sickness prevails in the village just now.

REMOVAL.—Mr. A. Robinson and family, who have long been residents of this place, are about to leave and make their home in Haliburton. Although regretting the fact of their leaving us we wish them all happiness and prosperity in their new home.

THE DRIVES.—The river men have left this place and pitched their tent further down the stream.

CHEESE FACTORY.—The Blairton cheese factory, after undergoing a thorough repair, is now in full blast.

BASEBALL.—A very interesting game of baseball was played in the park on Saturday last.

PERSONAL.—Mr. John Turner, of Campbellford, was in the village this week.

FIRE.—The alarming sound of fire! was heard throughout the village on Sunday last. The house of Mr. Brock having caught fire would soon have been reduced to ashes but for the dexterity of Mr. J. L. Aunger and others, who soon stopped the progress of the devouring element.

If the Sufferers from Consumption, Scrofula and General Debility, will try Scott's Emulsion of Cod Liver Oil, with hypophosphites, they will find immediate relief and a permanent benefit. Dr. H. V. WATER FILTERS,

To insure good health it is absolutely necessary to have pure water, and no water is entirely free from floating matter and disease germs without thorough Filteration. The majority of cases of Typhoid and other low fevers are in a measure caused from unfiltered and impure water, so that every family who values its health should have a reliable Filter. Numerous Filters are offered to the public varying in points of excellence, but for Cheapness, Efficiency and Durability, our Filters cannot be surpassed.

No Corroding Substances are used in construction.
The Packing material is the most Powerful specially prepared granulated Carbon.

It will last for years with the ordinary use of a family, and the material may be obtained at any time for replenishing at small expense.

The construction is our own patent, and combines all the essential requirements of a first-class Filter with access for cleansing. Instructions accompany each Filter. For sale only in Peterborough at

MANILLA.

ACCIDENTS.—As George Dodge, who was employed on the farm of Mrs. Wherry was changing some part of the harness on one of the horses, he was attacked by one of the brutes. His left arm from elbow to wrist was completely crushed in the animal's teeth. He was hurriedly taken home and Dr. Gillespie was summoned to dress the wound. He is doing as well as could be expected, although it is uncertain whether or not amputation will have to be resorted to. While little Gerald Trimble was playing with some of his young companions he fell and dislocated his arm at the wrist. Dr. Gillespie returned the displaced bone and the little fellow is now as well as ever.

MORE FOOD ANALYSES.

Official Action by the Massachusetts State Board of Health.

There is no more useful work in which the health authorities can engage than the examination of the various articles sold to the public for food, drink and medicine.

The agitation for the passage of laws to expose and punish food adulterations in the United States, is being aided by action of this kind taken by the Boards of Health of several of the States. Ohio and Massachusetts, following the course of the Inland Revenue Department of the Dominion, have published the names of many of the impure or unwholesome articles examined. Among them are the following brands of alum baking powders:—Davis', Silver Star, Forest City, A. & P., Silver King, Kenton, Cook's Favorite, Gem, etc. This is a most effectual way to stop their sale, as no one will buy an alum baking powder knowingly.

Massachusetts analysts have tested the various cream of tartar and phosphate baking powders sold in that State, and they report that the Royal baking powder is superior to all others in purity and wholesomeness, and contains nearly 20 per cent. more strength than any other. The exact determination as to strength of the several brands were as follows:—

RELATIVE LEAVENING STRENGTH.

Name.	Cubic in. gas per oz. powder.
Royal	126 15
Cleveland's	107.7
Congress	81.2
Horsford's	95 1

The official tests in both the United States and the Dominion likewise prove the superiority of the Royal in purity, strength and wholesomeness.

HALIBURTON.

STOCK RAISING.—Mr. Niven recently purchased in the neighborhood of Peterborough 75 head of young cattle, which he is going to feed during the summer on his farm, intending to sell them in the fall. He has great facilities for feeding cattle, and the venture is likely to be successful. It is easy to forsee that at no distant date the farmers in the front and in the old settled districts, will send their young cattle to Haliburton to be kept during the summer. The raising of stock is the natural destiny of this district.—Independent.

AGAIN, CLOTHING!

Fathers and Sons are alike interested in the subject of New Clothes, and the approach of summer hastens preparations for bodily comfort.

Our stock of Cloths affords scope for gratifying any fancy, as to fabrics, color or price. We have some especially neat things in Scotch and Canadian Tweeds.

Our suit stock defies description. Such variety in pattern and cut as we offer includes every one's want—man or boy. Prices high enough to ensure trusty clothes, low enough to meet all requirements.

Where else do you find better proposals?

Spring Millinery

I wish to announce to my lady friends that my spring stock is now complete and I am prepared to attend to the wants of my old customers, and as many new ones as will favor me with their patronage. As my stock has been selected with great care you will find it will compete favorably with the largest houses in the trade. In addition to the Millinery I have added a nice assortment of ladies' and children's underwear, at low prices. Don't forget the place, one door south of Sailsbury's Book Store.

WHY NOT BUILD A HOME?

I have several fine lots suitable for private residences, in excellent location and which are to-day worth more money than I am asking for them. Men with some means should look at these properties.

I have also for sale a number of lots **just the thing for Working Men to build on.** The location is good and the price so low that it is not wise to continue paying rent. I will advance money to anyone wishing to build on any of the above lots, at lowest current rates of interest, and easiest terms of re-payment. Workingmen should give me a call and see if I cannot offer them something to their advantage. Just imagine, a beautiful lot, frontage 61 ft. 8 in., by 150 ft. deep, for $150.00. Cheapest property in town.

RE-OCCUPIED

JOHN HACKETT

Has again occupied his former premises next door to Fortye & Phelan's Hardware Store.

The Store, which has been undergoing extensive alterations and improvements, is now a model place of business, and the public are invited to call and take a look through the premises.

The increased accommodation and convenience afforded us for doing business will no doubt help to compensate us and our customers for the inconvenience caused by our removal during the alterations and we hope to see all our friends back again in our handsome new premises.

MONA'S CHOICE.

BY MRS. ALEXANDER.

"You are too good to me," she returned, sadly, for his words and tone touched her.

"I know," he went on, "that you do not care much for me now, but I begin to hope you will. Give me your hand: how long and slender it is! You could not do much with it Mona. Why do you draw it away? Halloo! your ring has slipped off! I don't like that. Let me put it on again. Now, give me a kiss for luck: you have never given me but one kiss, and I have dreamed of it ever since—just one more, Mona!"

And Mona—shocked at her own reluctance, ashamed of her own coldness toward the man who had given her his whole heart—compelled herself to turn her pale, fair face to him.

Clasping her hand in both his own, Waring bent down and pressed his lips lingeringly on hers. He scarcely dared to embrace her. His frame trembled; his eyes were moist.

"Say 'Leslie, I will try to love you,'" he whispered.

"I will try—I will indeed, Leslie," she repeated. "I have been so uneasy and unhappy about poor grannie; and I never thought of marrying so soon; and altogether I have been shaken and nervous—so you must forgive me if I seem stupid!"

"Stupid! You stupid! What an idea!"

Meanwhile Lisle walked down the street in anything but pleasant self-commune.

"I certainly troubled myself unnecessarily about my charming young friend. She has thrown me over easily enough; she must think me a soft idiot to have troubled myself advising or directing her. Were I to remain in town, I might teach Mrs. Leslie Waring that I was no foolish stripling, to be tossed aside with indifference and impunity when fate offered her fairer fortune! She knows that it cost me a bad quarter of an hour to give her up for her own good. Who can calculate on the strange variations of feminine nature?"

So argued Lisle, with the degree of logic usual in men whose vanity has been wounded. He was quite willing that Mona should be taken out of his way, but he should have liked to see her weeping—broken-hearted at the loss of his fascinating self. Yet, although horribly irritated, he probably never longed more passionately to be in Waring's place—always provided the engagement, marriage, what you will, was not to be permanent.

The period of engagement was by no means as blissful as Waring anticipated. Mona, though pleasant and complaisant, was cold—colder than she knew—and Waring was sometimes tempted to ask her if the sacrifice to which she had consented was too cruel. Then some strain of compassion would steal over her heart, and thrill her voice or soften her eyes, and the poor boy—for he was but a boy, in spite of his years—would be lifted to the seventh heaven of joyous anticipation. He had the most unbounded faith in Mona, and he had her assurance that she did not love anyone. His devotion, then, must win her. How formidable the rivalry of that first unfulfilled dream of love was he could not know. Would he learn it hereafter?

CHAPTER V.—THE GREAT KING.

Time flew swiftly. A red frosty sun rose on the morning before Mona was to be changed into Mrs. Leslie Waring.

She had been persuaded to sleep in her own room again, as Mrs. Newburgh seemed so much better, and quite reconciled to a nice new maid—sent her from the country by Lady Mary Everard.

"How is my grandmother?" was Mona's first question, when this functionary brought her hot water.

"Nicely, miss; she was fast asleep when I left the room."

"I will ring as soon as I am dressed. Did you speak to Mrs. Newburgh?"

"Oh, miss; she looked so still and quiet, I thought it best not to disturb her."

"Perhaps you are right! I will come directly."

Mrs. Newburgh's eyes were open when her granddaughter approached; she smiled kindly and faintly. When Mona asked her if she would like to get up, she smiled a peculiar dreamy kind of smile, and murmured in a muffled voice—

"Yes, dear, of course I should."

Mona therefore put her arm under her shoulders to help her in rising, which was always a little difficult.

"Thank you, my love," she said, in the same indistinct way, smiling as she spoke, and sitting on the side of the bed, her feet did not at first touch the floor.

Assisted by Mona, she put them down, resolutely, but fell back immediately, silent and motionless.

It took all Mona's strength to keep her inert form from slipping off the bed, while she stretched her hand to the bell-rope which hung beside it. The new lady's-maid came running at the summons.

"Help me to lay her down!" whispered Mona.

The maid assisted to place her in bed. She was rigid, and very heavy.

"Fan her, Ellen," said Mona, as she turned away to get some restorative.

"Lord bless us, ma'am!" exclaimed the woman, in an awe-struck tone; "I do believe she is gone!"

"Impossible!" cried Mona, rushing to her side. "Why she has only just been speaking to me. She often faints; send for the doctor!"

"Ah! no doctor will do her any good, poor lady; her heart is quite still," laying her hand on it, "and her eyes—just look at them, miss—open and glassy."

"I cannot believe it! Try and give her this," hastily measuring out the prescribed quantity of medicine.

Ellen shook her head—and obeyed. It was in vain. Wehner was dispatched for the doctor, but before he came—Mona's hopes were over. Her grandmother, her one real friend, was dead! She could not doubt what that gray pallor, the deadly stillness, the stiffened form meant—still she could not realize that she should never hear her speak, never turn to her for guidance, never attend to her little wants

tor came quickly, and at once declife was quite extinct—that he ticipated a sudden death for heart was weak and so much emotion as had tried her of late had rendered all exertion, all agitation, dangerous; and probably the effort to rise and stand up, was the final feather which broke the strained cord of life.

It seemed to poor dazed Mona that Sir Robert and Lady Mary Everard appeared as if by magic. What a solace it was to throw herself into kind Lady Mary's arms and tell her brokenly how deeply she mourned the thoughtful—if tyrannical protectress, to whom misfortune had linked her so closely.

"Well, dear, you may rest assured that the near prospect of your marriage soothed and brightened her last hours; and it is a great comfort to know she was in a happy frame of mind. Sir Robert has sent round to Mr. Waring. He will be here immediately, no doubt, and will be your best support."

"Oh! no, no! You are best. You knew poor dear grannie so well, and she was so fond of you."

TURNBULL'S.

We wish to call your attention this week to our Large Stock of Black Cashmeres. They range in price from 25 cents a yard up to $1.20. The one at 25 cents is a good black with sightly appearance which is all we say about it. But when you advance to 45 cents you have a n ce rich color, particularly suited for mourning, good weight and fully 44 inches wide. At 50, 60, 75, 85, 90 and $1.00, we have a new line by a French maker which is much nicer than the old make and deservedly popular, being much finer in appearance, more like a Henrietta. To be had in blue and jet black.

GERMAN CASHMERES.

These Good are made in Saxony where the makers vie with each other in producing a superior article.

We have secured a make that cannot be spoken of too highly. It is a double warp and finished like a satin. They are now open for inspection, (on 3rd counter to left from George-st. entrance .

In our Custom Made Tailoring Department we show a nice range of Pantings, Worsted Suitings, Light Overcoatings, etc. Only first-class work turned out. (2nd counter to the right.)

Early last fall when the public began gathering around their stoves and were thinking about Flannels and Blankets, we were looking ahead and gave large orders with the leading manufacturers of Chambrays, White and Colored Muslins, Lawns, etc. These Goods are now in stock, and will be found on the first counter to the right.

Our first stock of Sailor Hats has been bought up rapidly which is sufficient evidence that they are the correct thing. Our second shipment bought at a much lower price is now in. All sizes and styles to choose from. The prices will please you when you see the styles and quality.

PASSING THE ESTIMATES.

THE HOUSE OF COMMONS IN COMMITTEE OF SUPPLY.

The Franchise Act Amendment Passed—The Railway Subventions Adopted in Committee—Kamper's Proposition.

OTTAWA, May 21.—The Commons Saturday afternoon adopted the farewell address to the Governor-General as passed by the Senate on Friday.

On the third reading of the bill amending the Franchise Act so as to provide that there shall be no revision of the lists this year, Mr. Laurier moved that the revision take place in the constituencies where the elections are controverted. The motion was lost on division—53 to 74.

The railway subsidy resolutions were considered in committee and adopted after a brief discussion on several items.

The House then went into committee of supply on the estimates, those for the fishery service being put through before recess. At the evening session good progress was made with the estimates.

Peter Mitchell again brought up Kamper's proposition to buy the Intercolonial Railway, and read a letter which Kamper had written to a friend of Mitchell's since the subject as last discussed in the House, in which Kamper stated that Hon. J. H. Pope had in June, 1896, made a proposition to him to buy the Intercolonial and claiming that he had since sunk $50,000 in making surveys and otherwise promoting the scheme.

In reply Sir John Macdonald discredited this statement, saying that he had never heard of such a proposition and that the sale of the Intercolonial would, he believed, never for a moment be thought of by the Government or any member of it.

A discussion arose on the vote for the Sault Ste. Marie Canal, in which Sir Charles Tupper stated that it was estimated that the cost of the canal, with a depth of sixteen feet at low water, would be $2,800,000. Twenty feet depth would cost a million more, but sixteen feet would be the limit. Sir Charles said it was not the intention of the Government to do otherwise than make surveys and obtain data concerning the works until Parliament would again have an opportunity of discussing the matter.

Before the House adjourned at midnight Sir John announced that with a view to getting through on Tuesday, it would be necessary to meet at 10 o'clock on Monday. It is intended to adjourn the House and proceed to the Senate chamber to take part in the presentation of the address to the Governor-General, who will make a speech in reply. After this they will return to the Commons chamber and await the customary summons for prorogation.

Sir Richard Cartwright expressed doubt that even with such long sittings it would be possible to finish up business in time for prorogation on Tuesday. He suggested that after presenting the address to His Excellency the House should resume business with a view to getting through in time for prorogation later that evening, which, in his opinion, would be the earliest it would be possible to conclude.

In answer to an enquiry Hon. Mr. Thompson announced that the resolutions providing for the increase of $1000 all around in the salaries of provincial judges would not be proceeded with this session.

A Cabinet Rumor.

OTTAWA, May 20.—It is said here that Charles H. Tupper, M.P. for Pictou, will succeed his father as Minister of Finance when the latter returns to England next month.

CAPITAL NOTES.

OTTAWA, May 20.—At the Reform caucus on Saturday it was agreed to drop Mills' boundary resolution.

Hon. Peter Mitchell will withdraw his manhood suffrage resolution.

The Governor-General's Foot Guards will visit Montreal on May 24.

The Governor-General will leave on Wednesday afternoon by special train on the Canadian Pacific Railway for Quebec.

On Monday Sir Charles Tupper will move that it is expedient to grant to the Tobique Valley Railway Company or any other railway company for 14 miles of railway from Perth Centre station towards Plaster Rock Island, in lieu of the subsidy granted last year for a railway from Perth Centre on the New Brunswick Railway to a point near Plaster Rock Island, a subsidy of $89,000.

Export Duties on Logs.

WASHINGTON, May 21.—President Cleveland has been greatly impressed with the benefit to the lake coast of the removal of the Canadian export duties on logs, and has informally directed an expression of his gratification at the introduction of a bill for that purpose in the Dominion Parliament by Sir Charles Tupper, Minister of Finance. There is a prospect that this limitation upon the prosperity of a great Michigan industry will be removed. The friendly attitude of both the American and Canadian Administrations to this proposition gives hopes of its adoption.

Murdered by a Jealous Husband.

ANCELICA, N.Y., May 21.—Charles Gilbert, colored, shot and killed his wife Saturday morning. The cause was jealousy. He fled after the shooting but was captured and jailed. He has recently served a term in prison for burglary.

The U. S. Tariff Bill Laid Over.

WASHINGTON, May 21.—It has been decided to have the tariff bill laid over for a week or ten days, and the House will proceed with the consideration of appropriation bills.

The Shefford Majority.

WATERLOO, Que., May 21.—Dr. Degrosbois' (Lib.) majority over A. F. Savaria (Con.) in the election to fill the vacancy in Shefford County was 292.

GREETING THE KAISER.

EMPEROR FREDERICK'S FIRST OUTING SINCE HIS RELAPSE.

He is Enthusiastically Received by the People—Preparations for the Wedding of Prince Henry.

BERLIN, May 21.—For the first time since his relapse, the Emperor was seen Saturday outside of the Schloss. Shortly after 5 o'clock the people assembled in front of the palace were gratified by the appearance of the Emperor and Empress in an open carriage. The three princesses followed in a second carriage and in a third were Dr. Mackenzie and Gen. Winterfield. The imperial carriage proceeded very slowly and enabled many people to come forward and present flowers to the Emperor and Empress who received them till the carriage was heaped with them. The weather was bright and the heat was almost that of midsummer. The Emperor still bears marked traces of fever, but his appearance daily improves. The drive was continued to the shooting lodge at Grunewald, and after a short rest the Imperial family returned to the Schloss. Along the route the Emperor acknowledged the salutes of the people with a gesture of the hand. During the drive the Emperor remained reclining on pillows.

Every day this week shows a perceptible increase of general strength. His first outing in the Schloss Park was followed by restlessness during the early part of the night, succeeded by refreshing sleep. Before Saturday's drive he passed several hours in the park reading, writing and hearing reports. A marquee is erected on the lawn behind the Schloss. It has two windows, and is carpeted. The interior is furnished with a telescope table, couches and a folding sofa, specially made for the Emperor's use in the open air. The latter was greatly enjoyed to-day and the invalid delayed his return to the rooms until constrained to do so by Dr. Mackenzie. While walking he looks very frail and is obliged to lean on a staff. Every step is taken with evident effort.

He takes a strong interest in the preparations for the wedding of Prince Henry and Princess Irene. It is expected that the marriage, instead of being semi-private, will be a court celebration, associated with the Emperor's recovery. Three hundred and twenty guests have been invited, including the Prince of Wales, the King of Saxony, the Grand Duke and Grand Duchess of Baden, the Prince and Princess of Anhalt, the Crown Prince of Greece and all members of the Hohenzollern and Hesse families. The wedding dinner party will consist of forty royal personages, and covers for 280 will be laid at the Marschstafel for the household and the suites of royal guests. The wedding ceremony will be performed in the palace chapel, where special accommodations are being prepared for the Emperor and the Dowager Empress Augusta. Princess Victoria, Sofia, Margarethe and Princess Alice of Hesse will be the bridesmaids. Queen Victoria has sent the bride an entire trousseau of unusual magnificence, and also a parure of diamonds, emeralds and pearls.

THE MISSISSIPPI FLOODS.

People Huddled Together on Little Spots Which the Waters Have Not Reached.

QUINCY, Ill., May 21.—The Quincy Whig organized three expeditions to the overflowed districts and obtained minute particulars of the condition of the refugees camped on the highland bluffs north and south of the city. In the Indian Grove district 150 families are homeless, the majority of whom are partially sheltered in barns and other outbuildings on farms not inundated. In the Sny district, south of Quincy, all dry places are occupied by persons in tents or under hastily constructed sheds, in wagons, and with no covering but the most scanty clothing. All came away from the devastated homes in precipitous flight, thankful that they and their families were not swallowed up by the torrents which poured through the crevasses. How many of these distressed people there are in the Sny Valley cannot be told.

The Burlington and the Wabash roads at West Hannibal are washed out for a thousand yards or more, and the tracks are covered with water the entire distance in the Sny district. Communication between Hannibal and the east is entirely cut off, and cannot be restored for many days. The branches of the Quincy leading to Hannibal and Louisiana are washed out for miles, bridges and culverts being entirely carried away. Hundreds of farm houses and other buildings were swept away and demolished.

TO TUNNEL THE DETROIT RIVER.

Preliminary Steps Being Taken at the City of the Straits.

DETROIT, May 19.—James Ross of Sherbrooke, P.Q., a railroad contractor and engineer of renown, B. Baker of London, Eng., known to fame as the engineer of the immense Forth Bridge that is now in process of construction in Scotland (the largest bridge in the world), and Nicol Kingsmill, counsel for the Michigan Central Railroad in Canada, are in the city to take the necessary preliminary steps for setting in motion a gigantic and carefully prearranged scheme for tunnelling the Detroit River at this point. They are thoroughly satisfied that it can be accomplished with ease, and will so report.

A gigantic syndicate, known as the Michigan and Canada Tunnel Company, and representing more than $100,000,000 of capital, has just been legally formed in Canada, and will be properly qualified for transacting business under the Michigan State laws at once.

He Died Praying.

WABASH, Ind., May 21.—While Elder James Quinter, editor of The Gospel Messenger, of Huntingdon, Pa., was offering up a prayer Saturday before the German Baptist Conference, he was stricken with apoplexy and died almost instantly. The services were being held in the Tabernacle and 3000 persons were present. Mr. Quinter was President of the Normal College at Huntingdon. He was 72 years old.

Endorsed by Acclamation.

DUBLIN, May 21.—Six thousand persons assembled in Phœnix Park yesterday to take action on the resolutions adopted by the Irish Catholic members of Parliament with reference to the recent Papal rescript. There were no priests present. Lord Mayor Sexton presided, and Messrs. John Dillon, Wm. O'Brien and other Parnellites made speeches. The manifesto of the Irish members was endorsed by acclamation.

The Green-Eyed Monster.

ASHLAND, Wis., May 21.—Yesterday "Billy" Andrews, proprietor of the Diamond Restaurant, shot and instantly killed his wife, and then turned the revolver upon himself, but the shot was not fatal, and he finished up the double tragedy with a razor, which he drew across his throat. Jealousy.

A Toronto Tailor in Trouble.

HAMILTON, May 21.—Thomas Brown, a Toronto tailor, was fined $3 in the Police Court Saturday for accosting little girls on the street and inviting them into saloons.

The Barcelona Exhibition Opened.

BARCELONA, May 21.—The Queen in the presence of the Duke and Duchess of Edinburg, Prince George of Wales, the Duke of Genoa, and a brilliant company, including the officers of the foreign squadrons, opened the exhibition yesterday with imposing ceremonies. About 7500 persons were present.

TORONTO'S BUDGET OF NEWS.

Hon. Mr. Mowat Goes to England—A New Methodist Church.

TORONTO, May 21.—Premier Mowat left the city on Saturday for England, whither he goes as the representative of the Provincial Government in the case of Queen v. the St. Catharines Milling and Lumber Company, a dispute over title to Indian lands. The Dominion Government gave to the Lumber Company the deed of certain Indian lands, and in behalf of the Provincial Government Mr. Mowat claims that the Indians never received a title for the lands from the Crown, and that the Dominion Government had therefore no power to bestow lands upon the company, as said lands belonged to the Province of Ontario. The case was tried at Osgoode Hall and a decision was given in favor of the Province. The Supreme Court at Ottawa confirmed this decision, and the Dominion Government now appeals to the Privy Council in England. The Local Premier will sail on the Parisian next Thursday together with Lord and Lady Lansdowne and Col. Gzowski, A.D.C.

The corner stone of the Western Methodist Church, on Bloor-street, of which Rev. T. W. Jeffreys is to be pastor, was laid Saturday afternoon by Senator John Macdonald, in the presence of a large assemblage of spectators. It is expected that by fall the church, which is rapidly being built, will be ready for dedication. It will be one of the most imposing religious edifices in the city.

THE THIRD PARTY.

Its Platform—An Address to the People of the Dominion.

TORONTO, May 21.—The Executive Committee of what is known as the Third party, which was organized at Toronto March 21, has issued an address to the people. The party's platform is as follows:

Righteousness and truth in public affairs as well as in private business, and no compromise with wrong.

Equal rights for all creeds, classes and nationalities, but exclusive privileges for none.

A national sentiment, a national literature, and in all matters of public policy our country first.

The prompt and absolute prohibition of the liquor traffic, and the honest and vigorous enforcement of all laws for the repression of vice and intemperance.

Retrenchment and economy in public expenditure, with the view of reducing our enormous national debt.

Manhood suffrage, with an educational qualification; that is, a vote to every freeman of legal age who can read and write.

The extension of the franchise to women.

An elective Senate.

Civil Service reform.

The address points out the inefficiency of the two great political parties to promptly deal with these questions, refers to "the evils of the party system," and maintains that the remedy consists in substituting a reign of principles for a reign of corruption. For such a movement the hour is regarded as propitious. It is claimed that the general adoption of the platform will produce an entire revolution of political methods and aims.

FIRES LAST NIGHT.

WALLACEBURG, May 21.—A lamp explosion started a fire here Saturday evening, which burned sixteen shops, covering almost a square. With very slight exceptions the destruction is fully covered by insurance, there being $22,000 insurance upon the property, stock and fixtures of the parties injured by the fire.

WINNIPEG, May 21.—Fire bugs got their work in at Portage la Prairie at 3 o'clock yesterday morning, and the flames spreading destroyed nine business places, some being unoccupied. Amongst those burnt were the Lorne Hotel, Pratt block and the Lorne livery stable. The loss is about $20,000; insurance $8000.

TRENTON, May 21.—About 1 o'clock yesterday a fire broke out in a building owned and occupied as a boathouse by A. Cuthbert, The building was totally destroyed. Loss about $900; no insurance.

WINNIPEG, May 21.—The residences of Mr. Langevin and Mr. Germain at St. Boniface, were destroyed by fire this afternoon.

TORONTO, May 21.—Lamb & Co.'s glue factory was burned early Sunday morning. Loss $25,000; insurance $12,000.

Hamilton District Meeting.

HAMILTON, May 21.—At the Hamilton Methodist district meeting Saturday the secretary presented a summary of the statistics for the year, showing the present membership to be 4929, an increase of 284. Connexional funds, $11,973, of which $8160 is missionary contributions, an increase of $1300, of which increase nearly $1000 is in missionary funds. The total for all purposes of the finances is $64,296.

The Burlington Strike.

CHICAGO, May 21.—Rumors were circulated that the striking engineers and firemen of the Burlington road had practically acknowledged their defeat and made a satisfactory arrangement with the road to be taken back on the old terms. Chairman Hoge of the strikers' committee said today: There is no truth whatever in the reports. We have had no conference with the Burlington officials, and so far as the men going back at present is concerned it is all bosh. We expect the enquiry by the Inter-State Commission will begin June 10, at which time we shall present a great quantity of evidence to show that the road is now badly run.

A Belligereal Attorney.

CLARKSVILLE, Ark., May 21.—The rulings of Judge Cunningham in the Johnson County Circuit Court Saturrday, were unsatisfactory to Attorney A. P. McKinnon, who took exceptions to them. He refused to sit down, and when the Judge fined him $50 a dispute followed, during which McKinnon cut the Judge about the face and neck several times with a knife, inflicting dangerous wounds. McKinnon was arrested. The town is greatly excited over the affair.

THE WAR CLOUD THICKENS

THE PEACE OF EUROPE APPARENTLY TO BE DISTURBED.

The Situation too Critical to Permit of Rest for Bismarck—Russia's Ominous Preparations.

BERLIN, May 21.—The relations between the Empress and Prince Bismarck are again strained on account of Prince Bismarck's protest against conferring distinguished honors on several court officials, at the request of the Empress. The feelings of bitterness between the court and Prince Bismarck's partisans is intensified. The Chancellor will return to Berlin next week. The situation is too critical to permit of further rest for him. The war drum beats with subdued resonance, but ever and anon the official press reawakens interest by some fresh alarm.

The Russian preparations are most ominous. The news of the week is to the effect that Russia has accepted the French syndicate's terms for a loan. M. Vyshugradski, Russian Minister of Finance, first ruptured the negotiations with the Comptoir d'Escompte, angrily rejecting the proposals as a salur upon Russia's solvency. Though the details of the negotiations which have been concluded are meager, enough is known to show that M. Vyshugradski felt the pinch and submitted to the syndicate's condition. The Russian Treasury obtains an immediate advance of £13,000,000. The total loan amounts to £44,000,000 and the balance will be issued in the autumn if the time is opportune.

Bourse operators are discussing what action Prince Bismarck will take regarding the loan if the new bonds are placed on the German markets. Prince Bismarck was consulted on the question, and is reported to have declared that he could not propose a Government prohibition of the loan unless on the eve of a complete rupture with Russia.

The North German Gazette and other Government organs have received inspiration for a vigorous renewal of the attacks on Russia, hence the accusations that the Czar's agents are seeking to raise a revolt in Macedonia. The Gazette, in an article headed "A Russian Fortress on Turkish Territory," denounces the celebrated convents on Mount Athos as the centre of a Pan-Slavist conspiracy, and states that Russian pilgrims, who are really veteran soldiers disguised, crowd the convents to the number of 10,000. Supplies of arms and munitions of war are hidden in the vicinity. The Porte has been cautioned to maintain a close watch, as at any moment the signal may be given for an insurrection, preceding a Russian entrance into Bulgaria.

The latest frontier incident illustrating the position of affairs is the arrest of the Russian General, Rehrberg, at Przemysl. The Austrian officials state that Gen. Rehrberg carried a trader's passport, but was really a spy upon the new fortifications at Premysl, which is now the centre of defence of Eastern Galicia. After a detention of eighteen hours Gen. Rehrberg was permitted to proceed to Cracow under surveillance, from thence returning to Warsaw. Reprisals have already been made. The Austrian War Office has advices of the disappearance of several officers on a tour in Volhynia, Poland, with open passports.

Another bad symptom is the recurrence of the press campaign against France. It is asserted that French officials purposely insult German subjects and appear to be authorized to do so by the higher French authorities.

Politics in Cardwell.

MONO MILLS, May 21.—At the Reform Convention held here on Saturday afternoon Mr. Henry Bracken was chosen as the Reform candidate for Cardwell. The fight promises to be decidedly interesting, there being no less than four candidates in the field: Mr. Evans (Cons.), Mr. Wm. Stubbs, Caledon (Con.), Mr. Henry Bracken (Lib.), and Mr. W. F. Maclean, the butter reform candidate.

Manitoba Conservatives Active.

WINNIPEG, May 20.—The Conservative associations of the province are issuing a joint appeal reciting the record of the Greenway Administration, and calling upon the party to organize for the coming elections. A Conservative convention will be held in this city on June 5.

Fatal Runaway Accident.

SARNIA, May 21.—About 6 p.m. Saturday James McCabe, a teamster, was instantly killed here in Cozzen's lumber yard. His team ran away and he was thrown from the wagon, his head striking on a pile of posts. McCabe was 45 years of age.

A Minister's Domestic Troubles.

NIAGARA FALLS, Ont., May 21.—Rev. George Tompkins and wife, whose domestic troubles led to the minister's discharging a revolver at Contractor Lundy a fortnight since, have agreed upon a settlement and separation. The property is equally divided between them, and Mrs. Tompkins retains the custody of the child.

Attempted Suicide at Winnipeg.

WINNIPEG, May 21.—A prisoner named Russell tried to commit suicide in the police cells yesterday by hanging, but was discovered in time and cut down.

Palen, who was charged by his wife with arson, was acquitted on Saturday, his accuser failing to put in an appearance.

Nominaties in North York.

NEWMARKET, May 21.—Dr. Forest of Mount Albert has been chosen by the Conservative Convention, held here Saturday afternoon, to be the standard bearer of the party in the next election.

The French Senate has rejected a motion against the exemption from military service of students in religious colleges and members of the liberal professions.

It is stated the Parnellite manifesto has startled the Vatican authorities, who thought the Parnellites would follow the priests in their submission to the Papal rescript.

A TEMPEST IN A TEAPOT.

The New York Sun continues its war upon Canadian railways, the attention it gives to Canada being divided between reading and publishing Sir Richard Cartwright's blue ruin speeches and its endeavors to persuade to the people of the United States that they should enact laws to prevent themselves from using Canadian railways. It wants the privilege of shipping goods from one part of the United States to another through Canada in bond abolished, so that goods shipped from the west and carried through Canada would have to pay customs duties on entering the United States again. Gen. Wilson some time ago advocated this policy before the Senate Interstate Commerce Committee.

A pamphlet has been published in the United States opposing the scheme put forward by Gen. Wilson and the Sun, and has been freely distributed in the west. In it a report of the Chicago Board of Trade of 1876 is cited, wherein the early completion of the Grand Trunk Railway to Chicago is urged. It is also stated that the completion of the connections of the Grand Trunk railway has resulted in a saving of 44.8 cents per bushel on corn, and of $1.60 per barrel on flour, shipped from Chicago to Newport, Vermont. Of the tonnage from Chicago to New England last December 67·32 per cent. is said to have been carried from Chicago by railways connecting with Canadian railways. From this it would appear that the Canadian railways would not be the greatest sufferers from the abolition of the privilege of transportation in bond.

The success of the Canadian Pacific Railway also troubles the Sun and it fears that it, too, is taking trade that, but for it, would go to United States railways.

The agitation, if it can be so called, is termed a "tempest in a teapot" by the pamphlet referred to. The fact seems to be that the enterprise and success of the Canadian railways have startled our neighbors, who cherished the thought that they alone possessed the spirit of successful enterprise.

Referring to a discussion in the House of Commons on a vote of $88,000 for the Trent Valley Canal works the Lindsay Post says:—"Fortunately Mr. Barron was there and evidently made an able speech in advocacy of the project, for immediately after his speech the item (a vote for $88,000) passed." Valiant Mr. Barron! And so a vote placed in the estimates by the Government, moved by Sir Charles Tupper, and supported by the whole Conservative party, passed only because of the able speech of North Victoria's member! Powerful Mr. Barron. But is not the Post making Mr. Barron ridiculous by such absurd praise? Besides, the item did not pass immediately after his speech.

Mr. Mowat's bribe to the township of Raleigh, of $17,000 was outdone by the organs of Mr. Mercier, Quebec's Premier, who called on the ratepayers of Shefford to vote Liberal and be relieved of a municipal loan fund debt of $355,000. Seats come high to the Liberals, but they don't always get them.

Representative Cox aptly described Mr. Butterworth's attempts to lead Canada into a commercial union with the United States by quoting the following poetical description of an alligator:—

"How cheerfully it seems to grin,
How neatly spreads its paws,
And welcomes little fishes in,
With gently smiling jaws."

In this case the fish has not accepted the invitation.

Cow Cases.

This was a genuine cow day at the police court. There were no less than five victims, hailing from the north and south ends of the town. They were Messrs. John Bell, Jas. Garside, D. Flemming, Margaret Patton and Mrs. Renton. They all pleaded guilty and were fined $2 and costs each. James Cumming for allowing a horse to meander at will in the vicinity of Auburn was taxed a similar amount. Mr. Bell was rather eloquent and he had prepared an elaborate document to read to the court, but the P.M. refused to hear it.

About thirteen hundred feet of hose was required at the fire on Sunday afternoon. Two lengths of the old cotton hose burst, but it did not hinder the firemen in their work.... The bell at the corner of George and Dublin sts. was not in ringing order and some time was lost in giving the alarm in consequence.... The hind axle of the hose wagon was bent in going to the fire and it was taken up to Fitzgerald & Stanger's for repairs this afternoon.

Malarial poisons contain the germs of dangerous diseases. If these poisons accumulate in the system, Typhoid, Bilious, Intermittent or Chill Fever is sure to follow. Ayer's Ague Cure is a warranted specific for malaria.

THE SPORTING WORLD.

Racing in the Mud—Baseball Record—Gallifet Wins the Clark Stakes.

Gravesend, L.I., May 19.—The clouds opened at intervals to let the sun stream through, and doubting thousands were encouraged to go to the races at the Brooklyn course yesterday. They found the track a quagmire, pools of water standing everywhere, but the program was so exceptionally good, the horses competing for the purses and stakes were so evenly matched and of such high quality, that splendid sport was enjoyed. There was some disappointment manifested when the "card" expressed a doubt of Firenzi starting in the Parkway Handicap. There was a general wish to see the noble little filly go to the post to do battle with Volante, Dry Monopole, Richmond and others. The air was never before so full of tips.

The first race brought nine moderate 3-year-olds to the post, and before the flag was given there were nine sure winners among them. Refund, who won the Preakness stakes at Baltimore, was commonly considered a certainty, but Feaks, the trainer of Larchmont, thought so well of his colt that "the talent" and friends of the stable from which Larchmont is a cast-off plunged on him. Ballston was made first favorite because of McLaughlin's skill. The half-holiday release of the toilers in the city aided the program in drawing a crowd, and when the bell rang for the race some 7000 people were in the grand stand and on the lawn in front.

Gallifet Wins the Clark Stakes.

Louisville, Ky., May 19.—This was the sixth day of the Louisville Jockey Club spring meeting. The feature of the "card" was the Clark Stakes for 3-year-olds, which was won by the favorite Gallifet. The result of the day's racing follows:

Racing in England.

London, May 19.—At the Royal Windsor spring meeting yesterday the race for the May Plate, for 2-year-olds, was won by Mr. Quartermain East's colt Kaikoura by two lengths, Mr. Abington's bay colt Isleworth second, a head before Mr. T. Jennings' chestnut colt, by George Frederick, out of North Star, third. There were five starters. The distance was five furlongs, colts carrying 125 lbs. and fillies and geldings 122 lbs. The betting was 10 to 1 against Kaikoura, 5 to 4 on Isleworth and 5 to 1 against the North Star colt.

The race for the St. George's Plate to-day for 2-year-olds, five furlongs, was won by E. Benzon's chestnut filly Fair Marion. Mr. Mackesy's bay colt Aristos was second, and the Duke of Portland's bay colt Deschamps third. There were six starters. The betting was 2 to 1 against Fair Marion, 3 to 1 against Aristos and 4 to 1 against Deschamps.

Give them a Chance.

That is to say, your lungs. Also all your breathing machinery. Very wonderful machinery it is. Not only the larger air passages, but the thousands of little tubes and cavities leading from them.

When these are clogged and choked with matter which ought not to be there, your lungs cannot half do their work. And what they do, they cannot do well.

Call it cold, cough, pneumonia, catarrh, consumption or any of the family of throat and nose and head and lung obstructions, all are bad. All ought to be got rid of. There is just one sure way to get rid of them. That is to take Boschee's German Syrup, which any druggist will sell you at 75 cents a bottle. Even if everything else has failed you you may depend upon this for certain.
